Hon. P. J. SCULLY, City Clerk, City Hall, City:

Dear Sir—Permit me to hand you herewith, by direction of the President of the Rapid Transit Board, additional copy of the certificate to the New York Connecting

Yours respectfully,
BION L. BURROWS, Secretary.

The Board of Rapid Transit Railroad Commissioners for The City of New York to the New York Connecting Railroad Company.

Certificate, June 23, 1904.

The Board of Rapid Transit Railroad Commissioners for The City of New York does hereby certify as follows:

Whereas, The New York Connecting Railroad Company (which is hereinafter called the railroad company) is a railroad corporation duly incorporated under the laws of the State of New York and owns and actually operates railroads now constructed which are wholly within the limits of The City of New York, which City is hereinafter called the city, and which railroads are hereinafter called the railroad now constructed; and

Whereas, The railroad company desires that the said railroad now constructed shall be connected with the railroad of the Harlem River and Port Chester Railroad Company and thereby with the railroad of the New York, New Haven and Hartford Railroad Company and that the said railroad now constructed shall be also connected with the railroad of the Long Island Railroad Company (both railroads with which connection is so desired being railroads within the State of New York and extending respectively from points within the City to points without the same), and that the said railroad now constructed shall be also connected with the railroad of the Pennsylvania, New York and Long Island Railroad Company (being a railroad now under construction and situate and to be situate entirely within the City), and the railroad company desires by such connections to form a continuous line or lines for the carriage of passengers and property between points, on the one hand, within the City and more particularly points within the boroughs of Brooklyn and Queens therein, and still more particularly points on the Long Island Railroad therein and, on the other hand, points as follows: First, points without the City, along the railroad of the New York, New Haven and Hartford Railroad Company between the City and various points thereby reached in the States of Connecticut, Rhode Island and Massachusetts and other States of New England; secondly, points upon the Long Island Railroad without the City; thirdly, points upon the line of the railroad of the Pennsylvania, New York and Long Island Railroad Company now being constructed and thereby and through it, by the Pennsylvania Railroad and otherwise, with points without the City upon the said Pennsylvania Railroad and upon its connections in the States of New Jersey, Pennsylvania and other States to the West and South, the intention being to establish rapid, direct and convenient connections between the said boroughs of Brooklyn and Queens and such States of New England, the West and South; and

Whereas, The Legislature of the State of New York has, by chapter 752 of the Laws of 1900, granted to the railroad company the right to construct upon the line of its railroad a bridge for railroad purposes only, of a single span across the East river at or near Hell Gate, together with necessary viaduct approaches, and to maintain and operate the same, the said bridge to have an elevation of not less than one hundred and thirty-five feet above mean high-water and to span the East river from abutments built upon the shores thereof and within the bulkhead-lines so as not to impede navigation upon the said river; and

Whereas, The railroad company did, prior to the 11th day of June, 1903, duly file its route and profile as provided by the Railroad Law, and, whereas, later and on the said 11th day of June, 1903, the railroad company did duly and with the assent of two-thirds of all the directors of the said company, file in the offices of the Clerks of the Counties of Queens and New York its amended route and profile, and on the 21st day of June, 1904, with like assent did file said amended route and profile in the office of the Clerk of the County of Kings; and

Whereas, The said route lies wholly within private property acquired or to be acquired by the railroad company except where the same crosses over or under certain streets, avenues and highways, and also except where the same extends over and across Ward's Island and Randall's Island and the waters surrounding the said islands and the shores of the East river, Little Hell Gate and Bronx Kills; and

Whereas, The railroad company, pursuant to section thirty-two of chapter four of the Laws of 1891 as amended by chapter five hundred and eighty-four of the Laws of 1902 (which entire statute as amended by various acts and as now in force, is hereinafter called the Rapid Transit Act), has made application to the Board of Rapid Transit Railroad Commissioners for The City of New York (which Board is hereinafter called the Board) to fix and determine the route or routes by which the railroad company may connect with the several railroads above mentioned, and may establish, construct and extend the lines of the railroad company within the City, and also for authority to the railroad company to lay railroad tracks within the City and to operate its railway to certain terminals within the City, and otherwise for the authority and rights hereinafter more particularly set forth, including the right to transport over its railroad passengers and freight or both; and whereas, the additions, tracks, extensions, railroad and connections hereby authorized (and including the portion of the routes hereinafter described upon which the railroad company has already constructed and now owns a railroad) are hereinafter called the new railroad; and

Whereas, The Board, by a concurrent vote of at least six of its members, has fixed and determined the locations and plans of construction of such new railroad of the railroad company upon such routes and of such tracks and facilities, the times within which they shall be respectively constructed, and the compensation to be paid therefor to the City by the railroad company; and

Whereas, The Board, by such concurrent vote, has prescribed such terms, conditions and requirements as to the Board appear to be just and proper for the grant hereby made to the railroad company, including the terms, conditions and requirements provided by the Rapid Transit Act, and has included among them a provision that the railroad company shall, from the time of the commencement of the operation of such new railroad of the railroad company under such determination, annually pay to the City certain sums or rentals for a period of twenty-five years, beginning with such operation, and also providing for a readjustment of the amount of such sums or rentals at the expiration of such period and at intervals thereafter of twenty-five years;

The said route is illustratively shown upon the plan and profile of the new railroad and its spurs and connections herewith attached, which plan and profile are to be deemed a part of this franchise and to be construed with the text hereof, and are to be substantially followed; Provided that deviations therefrom which are consistent with the foregoing description and the other provisions of this franchise may be permitted by the Board.

2. To lay down, construct and operate upon the main line of the said route of the said railway tracks not exceeding four in number, and upon the said spurs A., B., C. and D. tracks not exceeding two in number, Provided that the entire structure of the said railway, including cuttings and embankments, shall not over or under any street or road exceed two hundred (200) feet in width, and Provided, still further, that the Railroad Company shall have the right to add an additional track by way of siding along any portion or portions of its main line of its said railway not in all exceeding in length of such siding or sidings forty (40) per cent. of the total length of the said main line, and to increase the width of the structure or right of way of the said railway by not more than fifty (50) feet for each such siding or sidings for the length or lengths thereof; Provided, however, that the said percentage of sidings may be increased upon consent of the Board; and Provided, further, that this provision shall not limit the right of the railroad company in the use of lands owned or which shall be owned by it.

3. To acquire and maintain terminals or stations.

4. To run upon the said railway (which with the said terminal, stations and all other appurtenances, are together hereinafter called the new railroad) locomotives, motors, cars and carriages for the transportation of persons and property and to use thereon and in connection therewith all suitable appliances.

5. To maintain and operate upon or over the routes aforesaid including all streets, avenues or highways which shall be intersected by the new railroad, or over or under which any part of the routes thereof shall run, telegraph wires and wires, cables, con-

duits, ducts and ways for the distribution of power, heat and light, and other appurtenances for use of the new railroad and for no other purpose.

6. To acquire and use for power plants, pumping stations, shafts or stairways for access to or from the railroad, and other necessary purposes of the new railroad, as well as for stations and station extensions, private property, as the same has been or shall be lawfully acquired, within the scope of the corporate rights and powers of the railroad company.

Nothing herein contained shall be deemed to give any right to construct or operate a railroad upon the surface of any street, avenue or highway in The City of New York.

The rights hereinbefore granted to maintain and operate the new railroad or necessary or convenient for that purpose, shall be held by the railroad company in perpetuity except as may be herein otherwise expressly provided.

But this authorization, including all the rights and privileges hereby granted, are subject to certain terms, conditions and requirements which appear to the Board to be just and proper and as so subject, are hereinafter called the franchise hereby granted.

The following further terms, conditions and requirements are accordingly hereby prescribed as follows, to wit:

I.

This certificate will be executed by the Board in four identical originals, so proved as to be entitled to be recorded in the office of the Register or County Clerk of each of the Counties of Kings, Queens and New York, and to be filed in the office of the Secretary of State of the State of New York, all of which will be delivered by the Board to the president, vice-president, secretary or treasurer of the railroad company. The franchise hereby granted shall be inoperative, and this certificate shall be void unless within thirty days after such delivery or such further period not exceeding three months as shall be prescribed in writing by the Board, the railroad company shall have procured three of the said identical originals to be returned to the Board, each of them having an acceptance of the franchise and all the terms, conditions and requirements thereof subscribed at the foot thereof by the railroad company, such acceptance being so proved as to entitle it to be recorded and filed as aforesaid.

II.

The franchise hereby granted shall, if the Board shall so determine, become void unless within six calendar months after the time of the delivery to the Board of the acceptance of this certificate by the railroad company, that company shall, in due and lawful form, obtain or receive the consent of the Board of Aldermen of the City, being the local authority having the control of the streets, avenues and highways over or under which it is proposed to construct the new railroad, and of the other property of the City upon, under or over which such new railroad is to be constructed, together with the approval of the Mayor of the City.

The franchise hereby granted shall, if the Board shall so determine, become void, unless within one year after the time of such acceptance of this certificate by the railroad company, that company shall further, and in due and lawful form, obtain, so far as may be necessary, the consent of the owners of one-half in value of the property bounded on each portion of the streets or avenues over or under which the new railroad or any part of the route thereof runs, to the construction and operation of the new railroad or such part thereof, or in case the consent of such property owners cannot be obtained, then the determination of commissioners to be appointed pursuant to law by the Appellate Division of the Supreme Court in the First Department or the Second Department (as the case may be) that such portion of the new railroad ought to be constructed and operated, the said determination of such commissioners, when confirmed by the Appellate Division which shall have appointed such commissioners, to be taken in lieu of such consent of property owners, provided, however, and it is expressly stipulated, that the Board shall have power, upon reasonable cause shown, to extend by written certificate either of the periods hereinbefore in this article prescribed.

III.

The railroad company shall begin or continue the construction of the new railroad within three months after it shall have obtained the consents aforesaid, or such of them as shall be necessary as aforesaid and shall complete the construction of the railroad and begin its operation within five years after such construction shall be begun or continued.

In case the railroad company, within the period of three months after it shall have obtained the consents necessary as aforesaid, shall not have begun or continued the actual construction of the new railroad, or if, after having begun or continued such construction, it shall suspend the same prior to the completion thereof for a period exceeding three months, or if it shall not complete such construction and begin the operation of the new railroad within the said period of five years, then and in that case, the Board, upon a written notice to be delivered to the railroad company, may annul the franchise hereby granted as to any part of the new railroad not then completed and in operation; provided, however, that the Board shall have the power, upon reasonable cause shown, to extend by written order any of the periods in this article prescribed; provided, further, however, that such extension or extensions shall not in all exceed five years; and provided, further, that additional time shall be allowed by way of extension of any period for such commencement or continuance of construction or for the completion thereof, or for the commencement of operation of the new railroad equal to the total period of delay caused by injunction or by necessary proceedings for condemnation of real estate, easements or other property, so far as such proceedings shall necessarily prevent the railroad company from prosecuting such construction, but no delay to be so allowed for unless, during the same, such proceedings shall be diligently prosecuted by or for the railroad company; and provided, further, that in no case shall such delay be deemed to begin until the railroad company shall have given written notice to the Board of the injunction or other occasion of delay and delivered to the Board copies of the injunction or other orders causing delay and of such of the papers upon which the same shall have been granted as shall have been served upon the railroad company, and unless, upon the request of the Board, the railroad company shall, in writing, consent that the Board, either in its own name as a party or in the name of The City of New York as a party, may intervene in any such injunction proceedings or other suit or proceeding; and provided, further, that in case of annulment of any part of the franchise the railroad company shall have no right to any return of payments which it shall have made to the City by way of rental or otherwise.

IV.

The railroad company shall pay to the City for the franchise to construct and maintain the new railroad over the East river between bulkhead-lines as heretofore determined by the War Department of the United States, the sum of one hundred dollars (\$100) for each year, beginning on the date on which the railroad company shall first commence the actual operation of the new railroad (but such date to be not later than the last day on which the railroad company shall be bound to begin such operation) and ending on the day twenty-five (25) years next thereafter. The railroad company shall further pay to the City for the rights, franchises and licenses hereby granted the sum of five (5) cents per annum for each linear foot of single track of the new railroad, which at the dates when the respective payments are due shall be constructed or which the railroad company shall be bound to have then constructed, during the period beginning on the date when the railroad company shall first commence actual operation of the new railroad (but not later than the last day on which the railroad company shall be bound to begin such operation) and ending on the day ten (10) years next thereafter, and ten (10) cents per annum for each linear foot of such single track during the period beginning on the last day of such ten (10) years and ending on the day fifteen (15) years next thereafter. In computing the length of the tracks on which payments are to be made as aforesaid both main tracks and side tracks shall be included; but tracks shall be excluded which are used exclusively for switching and storage of cars and which are situated wholly within yards or terminals belonging or leased to the railroad company; and there shall also be excluded such tracks as rest upon the portions of the bridge directly over the East river, Little Hell Gate and Bronx Kills. The length of the said portions of the bridge shall be determined by ascertaining the distance from the bulkhead-line as heretofore determined on one shore to the bulkhead-line as heretofore determined on the other shore, at points vertically under the bridge. The railroad company, in addition to the payments hereinbefore provided, shall pay annually the reasonable value of its use and occupation of the portions of ground upon the said Ward's Island and Randall's Island permanently occupied by the abutments, piers and other supports of the bridge or elevated structure and of its use and occupation of the portions of overhead space occupied by such bridge or elevated structure. The time for such payment shall be computed from the date of the first occupation of the ground of Ward's or Randall's Island for any purpose of such bridge or elevated

structure. The amount of such annual payments may be agreed upon in writing by the railroad company and the Board of Commissioners of the Sinking Fund of the City. If such agreement shall not be made within six months after such date of the first occupation of the ground as aforesaid, then the rates of such payment shall be prescribed by the Board of Commissioners of the Sinking Fund and, as so prescribed, shall be paid by the Railroad Company. Provided, that, if the Railroad Company shall claim that the amount prescribed is unreasonable, it shall have the right, notwithstanding such payment, to recover back from the City the amount of the excess, if any, of its payment over and above the amount which shall be reasonable, and the City shall repay to the Railroad Company the amount of such excess. Two rates shall be agreed upon or prescribed as aforesaid, the first for the period which shall begin on the date of the first occupation of the ground on Ward's or Randall's Island for any purpose of such elevated structure and shall end ten (10) years from and after the date when the Railroad Company shall first commence the actual operation of the new railroad (but not later than the last day on which the Railroad Company shall be bound to begin such operation) and the second rate for the period of fifteen (15) years which shall begin on the last day of such first period and end on the day fifteen (15) years next thereafter. In case either of the said rates shall be prescribed, not by agreement, but by the Board of Commissioners of the Sinking Fund as aforesaid, and if the Railroad Company shall, as aforesaid, object that the rate is unreasonable, then the rate, if any, which shall be ascertained to be reasonable in any suit or proceeding brought by the Railroad Company as aforesaid, shall be deemed to be the reasonable rate for the remainder of the said period ending on the last day of the said period of ten (10) years or for the said period of fifteen (15) years as the case may be. The payments hereinbefore provided with respect to Ward's Island and Randall's Island are to be limited to amounts which are reasonable for the occupation and use of the estate and title of the City in the property occupied or used as aforesaid. In determining what amounts shall be reasonable, due regard shall be had to such estate and title.

All such payments shall be made to the Comptroller of the City in equal payments at the end of each quarter year on the first days of January, April, July and October in each year.

The amounts to be paid by the Railroad Company as aforesaid shall be readjusted at the end of the first period of twenty-five (25) years, and shall thereafter be readjusted at intervals of twenty-five (25) years. The amounts to be paid by the Railroad Company at the end of the first period and at the end of each successive period of twenty-five (25) years shall be determined as follows, to wit: Each such determination shall be had upon the application of either the Railroad Company or the Board or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the preceding period of twenty-five (25) years. The determination shall be sufficient if agreed to in writing by the Railroad Company and the Board or such other authority in its place. If the Railroad Company and the Board or such other authority in its place for the City shall not reach such agreement on or before the day one year before the expiration of such preceding twenty-five (25) years period, then the rate of compensation for such succeeding twenty-five years period shall be reasonable; and either the City (by the Board or such other authority in its place) or the Railroad Company shall be bound, upon request of the other, to enter into a written agreement with such other fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then they shall enter into a written agreement fixing such rate at such amount as shall be determined by the Supreme Court of the State of New York; and either party may in such case apply to the said Court to fix such rate. If, in any case, the rate shall not be fixed prior to the commencement of such succeeding twenty-five years period, then the Railroad Company shall pay the rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of the excess of the rate then determined over the previous rate. Nothing herein contained shall be deemed to determine or affect the basis of any such readjustment of amounts to be paid, it being intended that such basis shall be completely open to either the City or the Railroad Company whenever any such readjustment is to be made, except that any such readjusted amount shall never be less than the greatest corresponding amount provided herein.

The Board shall certify to the Comptroller the dates from which the payments herein provided for shall respectively be computed.

V.

The new railroad, wherever the same shall intersect roads, streets or avenues, shall be constructed above or below the grade thereof and in every case so as to permit the convenient use by the public of such street or avenue. The City shall be entitled to require vertical clearances for streets crossing under its route of not less than twelve nor more than fourteen feet, and for streets crossing above the route not less than eighteen feet. The City shall also be entitled to require solid floor construction on all bridges crossing streets. In crossing Ward's Island and Randall's Island the railroad shall be upon an elevated structure in continuation of the bridge over the East river; and the under side of the roadway of such elevated structure over the said islands shall be at a height of not less than thirty (30) feet above the present natural grade; and the railroad company shall have the right upon the said islands to construct all necessary or proper piers, columns and other supports for the elevated structure and all necessary or proper foundations therefor. In case of tunnel construction under a street, there shall be at least four (4) feet between the grade of the street and the exterior surface of the arch or cover of said tunnel. The roadbed, except on bridges, shall be ballasted with a sufficient quantity of either blast furnace slag or broken stone of a hard durable quality.

The railroad company shall, in the course of its construction and at its own expense, maintain and care for all underground and overground structures (including pipes, wires and other conduits) in its route or directly interfered with by its construction; and any necessary interference with underground or overground structures shall be subject to reasonable regulation by the Department, if any, of the government of the City in control or charge thereof.

The railroad company shall observe all reasonable regulations which shall be prescribed by any lawful authority tending to prevent the throwing, deposit or dropping of noxious or offensive objects, substances or things from the portion of the new railroad crossing the East river, Ward's Island and Randall's Island and other public property.

The bridge across the East river shall in all respects conform with the provisions of the said act of the legislature granting the right to build the same.

The railroad company shall make good to the City all damage which shall be done to the property of the City, and shall make good to every owner of property abutting upon the new railroad or which shall be injured by the work of construction or by operation thereof, all damage which shall be done to such abutting or injured property through any fault or negligence of the railroad company or any successor thereof or of any contractor, sub-contractor or other person in the course of any employment upon the construction or operation of the new railroad or any part thereof. The railroad company shall save harmless the City of and from all claims lawfully made against the City by reason of any act or proceeding of the railroad company hereunder. The railroad company shall keep its structure in good order and where the same crosses public property it shall have such access as may be reasonably necessary in order to maintain and repair the same.

All plans for, and the method of doing, the work including necessary interference with roads, streets, avenues or other public property during construction, shall from time to time, be subject to the approval of the Board which shall be given when reasonably requested. All necessary permits for work upon roads, streets or avenues or other public property and other departmental permits so far as any shall be necessary shall be respectively granted by the presidents of the proper boroughs or other officers as provided by law.

VI.

The motive power to be used upon the new railroad shall be steam with the right to the railroad company to substitute therefor electricity; but any other motive power may at any time hereafter be substituted for steam or electricity upon the consent of the Board and the railroad company. If the railroad company shall use steam and if, by

reason of increased density of population along the line of the new railroad, such use of steam shall constitute a nuisance or be dangerous to the residents along the route, or materially depreciate the value of property along the route, then the Board may notify the railroad company that such use constitutes a nuisance, or is, in its opinion, dangerous to the residents along the route or materially depreciates the value of property along the route, and that the public necessity for a change by reason thereof to some other motive power is such that the railroad company should make a change, and that the Board accordingly requires the change to be made. The railroad company shall thereupon within ninety days notify the Board whether it will change its motive power as required by the Board. If the railroad company refuses or neglects to notify the Board within the time above specified, the Board may thereupon apply to the Supreme Court of the State of New York for a writ of mandamus or other proper remedy and the issues shall thereupon be whether in fact such use of steam by the railroad company constitutes a nuisance, or is dangerous to the residents along the route or materially depreciates the value of property along the route, and whether the public necessity for such change by reason thereof is such that the railroad company should make the change. In case the Supreme Court upon such proceeding shall decide against the railroad company that such use constitutes a nuisance, or is so dangerous or materially depreciates the value of property along the route and that the public necessity by reason thereof is such that the railroad company should make the change, and upon a written notice of not less than three years to be given by the Board, the railroad company shall change its motive power to electricity or to some other motive power not less convenient to the public.

VII.

The railroad company shall itself bear the entire cost of preserving the streets already opened across the route of the railroad company from injury or interference with the traffic thereof or with the lawful public use thereof, by the construction or operation of the new railroad under or over the same.

The City reserves the right additionally to open across the said route in the Borough of Queens three streets between Juniper avenue and Johnson avenue, a fourth street between Trains Meadow road and Jackson avenue and a fifth street between Charlotte avenue and Bowery Bay road.

The City shall also have the right, but only if and when the public necessity requires, to open across the route of the railroad company any new streets other than the five last mentioned; and the railroad company shall consent to such opening (but subject to its right without interference to control, maintain and operate its road as herein provided) if and when the public necessity shall require and shall not object to the right of the City to so open them on the ground that the land required therefor is already applied to a public use,—provided, however, and it is expressly agreed that if the railroad company shall deny that the public necessity does in fact exist, and shall raise an issue as to the existence of such necessity either in the City's proceedings to acquire title to such street or in some other proper action or proceeding, and if the Supreme Court shall decide that such public necessity does not exist, then and in every such case the railroad company shall not be required to permit the actual use of its land for such street. The determination of the Appellate Division of the Supreme Court, in case an appeal is taken by either party, shall be the decision of the Supreme Court herein intended.

The cost of regulating, grading and paving all streets which shall be opened as herein provided across the route of the railroad company, shall be borne and paid by the railroad company.

The cost of regulating, grading and paving streets within the meaning of this article shall be deemed to include only the cost of actual construction within the limits of the right of way of the railroad company together with the cost of bridges over such streets and the abutments thereof and supports therefor whether such bridges be used to carry the new railroad over streets or to carry streets over the new railroad.

VIII.

It is understood that the intention of the railroad company is to use the new railroad principally for the carriage of property; but the railroad company shall have the right without restriction to transport over the new railroad passengers, provided, however, that the railroad company shall have no power to carry on merely local traffic unless with the approval of the Board and of the Board of Aldermen and Mayor of the City, and for such additional consideration to be paid to the City as they shall prescribe. Local traffic shall be deemed to include the carriage of passengers or freight between points all within the boroughs of Brooklyn and Queens or between points all within the Borough of The Bronx.

The new railroad shall be diligently and skillfully operated with due regard to the convenience of the traveling public so long as the franchise hereby granted shall be in force.

IX.

The City shall have a lien upon the franchise and real property of the railroad company to secure the payment of such compensation and rental and for the performance of all the other obligations by the railroad company hereunder including the obligation to make good to the City damage in the case and as prescribed in Article V hereof. In case of any failure to make such payments as herein prescribed, the lien aforesaid may be enforced by the Board or by any authority which shall be authorized to act for the City in place of the Board, either by entry, foreclosure or other proper proceeding and by sale of such franchise and real property.

The Board may, in its own name, or in the name and behalf of the City, bring action for the specific performance, or may apply by mandamus to compel the performance by the railroad company of the duties and obligations hereby imposed upon the said company, or any of them. And the Board may, in behalf or in the name of the City, bring action or proceedings to recover possession of any part of the property of the City to be used by the railroad company as aforesaid, where such recovery is necessary to the enforcement hereof or to enforce the said lien of the city, or to enforce any part of this contract in the manner provided by section nine (9) of the Rapid Transit Act, or any other proper action or proceeding.

X.

The railroad company will not at any future time oppose—but shall at any time upon the request of the Board consent to—the construction of any rapid transit or street railroad otherwise duly authorized over, along, under or across any portion of any of the said streets, roads or avenues to be occupied by the new railroad where the same shall not actually interfere with the structure or uses of the new railroad as herein authorized.

XI.

The City, the Board, and all duly authorized representatives of the City, shall have the right at all reasonable times, as well during construction as afterwards, to inspect the new railroad and any part thereof, and to enter thereon when necessary for the examination, supervision or care of any property of the City or of abutting property-owners or for any proper purpose. Nothing in this franchise shall be deemed to diminish or affect the sanitary or police jurisdiction which the public authorities shall lawfully have over property in the City.

XII.

The railroad company shall have the right to grant, convey, mortgage, assign or transfer the franchise hereby granted. Which was referred to the Committee on Police.

The President laid before the Board the following communication from the Board of Estimate and Apportionment:

No. 833.

Department of Finance—City of New York,
July 5, 1904.

Hon. CHARLES V. FURNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment July 1, 1904, authorizing the issue of Corporate Stock to the amount of \$550,000, to provide additional means for the construction and equipment of a court-house in the Borough of The Bronx, and copies of communications relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,

J. W. STEVENSON, Deputy Comptroller.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of five hundred and fifty thousand dollars (\$550,000), to provide additional means for the construction and equipment of a court-house in the Borough of The Bronx.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment July 1, 1904, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding five hundred and fifty thousand dollars (\$550,000), to provide additional means for the construction and equipment of a court-house in the Borough of The Bronx, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding five hundred and fifty thousand dollars (\$550,000), the proceeds whereof to be applied to the purposes aforesaid."

New York, June 20, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman, Board of Estimate and Apportionment:

Dear Sir—I respectfully request that the Board of Estimate and Apportionment provide for an issue of Corporate Stock of The City of New York in the sum of five hundred and fifty thousand dollars (\$550,000) in addition to the amount heretofore pro-

vided for, the proceeds to be used for the construction and equipment of the court-house in the Borough of The Bronx.

A careful estimate of the expense and equipment of said court-house, situated at Third avenue, Brook avenue and One Hundred and Sixty-first street, Borough of The Bronx, fixes the amount required for these purposes at eight hundred thousand dollars.

Yours truly,

(Signed) LOUIS F. HAFFEN,
President of the Borough of The Bronx.

June 29, 1904.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. Louis F. Haffen, President of the Borough of The Bronx, in communication under date of June 20, 1904, requests the Board of Estimate and Apportionment to provide for an issue of Corporate Stock of The City of New York in the sum of \$550,000 in addition to the amount heretofore provided for, the proceeds to be used for the construction and equipment of the court-house in the Borough of The Bronx.

I would report that the Board of Estimate and Apportionment at meeting of May 23, 1902 (see Minutes of 1902, page 1060), authorized an issue of Corporate Stock to the amount of \$250,000, to provide for the construction and equipment of the court-house; with the additional \$550,000 the total amount for this purpose will be \$800,000.

The Architect, M. J. Garvin, No. 3307 Third avenue, has not drawn up the specifications for the work, but has prepared eight scale drawings, and has furnished me with a general description of the construction of the work, which with the preliminary drawings show the design, construction and general layout of the building.

The site of the proposed building includes the whole block bounded by Third avenue, Brook avenue and One Hundred and Sixty-first street; the dimensions of the building are, fronting on Third avenue, 98 feet; on One Hundred and Sixty-first street, 176 feet; Brook avenue, 98 feet; on plaza, 100 feet.

The building is to be four stories in height above sidewalk and a cellar below street grade.

The present level of plot is about 15 feet below curb level, and it is proposed to go down 15 feet to rock bottom with foundation walls.

The foundation walls from rock to cellar bottom to be of concrete. From there up brick laid in best Portland cement mortar. Cellar bottom to be concreted.

The building will be fireproof throughout. Brick arches will be used as floor filling. All facades will be of best granite, eight cut work, from curb level to roof, and in the French Renaissance style of architecture.

All window frames will be copper covered oak sash, glassed with plate glass. All entrance doors will be made of copper.

The flat roof will be covered with vitrified clay tiling laid in Portland cement.

All the walls of cellar except coal storage and storerooms and passageway to be faced with enameled brick.

All the walls in prison part of building to be faced with pressed brick. All cells to be of steel and of the latest approved type.

Vestibule floor to be laid with Blanco P. No. 1 marble, and foyer hall to be trimmed with blue Indiana limestone and Parvanozza marble columns and pilasters.

Stairs to be of steel construction covered with selected marble.

The Magistrate's Court-room to have pilasters and wainscoting of Connemara green marble.

The Municipal Court-room to be trimmed with Sienna convent marble.

The Coroner's Court to have green Skyros marble.

All floors throughout building, except where otherwise noted, to be of terrazzo with marble borders.

All ceilings and side walls above wainscoting to be of plaster with cornices, panels, etc.

All toilets will be wainscoted with Italian marble 8 feet high, all partitions and wash-basins will be of same material.

Building will be provided with two (2) electric elevators, an adequate steam plant, ventilating and electric lighting plant; the building will be wired for electricity and piped for gas.

The plans of the building call for a cellar and four stories, arranged as follows:

Cellar.

Engine and pump rooms.

Boiler-room.

Dynamo-room.

Coal and storage rooms.

Kitchen and laundry for prison.

First or Ground Floor.

Main entrance on plaza (junction of Brook and Third avenues).

Grand vestibule.

Foyer hall.

Board of Elections (One Hundred and Sixty-first street and Brook avenue).

Entrance and driveway for prison van in One Hundred and Sixty-first street.

Waiting pens.

Sergeants' room.

Ten day male prison.

Ten day female prison.

Consultation room.

Warden's office.

Baths and toilets.

Prison and Jail.

The prison is located on the northeast corner of the building (One Hundred and Sixty-first street and Third avenue), and extends from cellar to roof, being about 54 feet by 31 feet, for the entire height of the building.

Second Floor.

Magistrate's court.

Clerk's room.

Stenographer's room.

Examination room.

Plaza front not designated for any purpose.

Third Floor.

Municipal Court.

Judge's private room.

Clerk's room.

Jury room.

Board of Health (plaza front).

Fourth Floor or Top Floor.

Coroner's private rooms.

Jury room.

Clerk's room.

Board of Health (plaza front.)

I would note that the three court-rooms are on the One Hundred and Sixty-first street side, one over the other; these rooms are provided with ample light and placed as far from the noise of the traffic on Third avenue as is practicable.

The architect, M. J. Garvin, submits the following approximate estimate of cost, including architect's fees; this estimate does not include any furniture, only the building fully completed with heating and ventilating plant, fixtures, etc.

The building contains:
1,450,000 cubic feet, at 52 cents..... \$760,000 00
Architect's fees and contingencies..... 40,000 00

\$800,000 00

The general design of the building with its granite facades will make a very grand and imposing building.

The general layout of the floors and rooms is judiciously arranged, and well adapted for court purposes; Coroner's office, Health Department offices, offices for Board of Elections and Prison.

In the absence of fuller details, I would consider the estimate furnished by the architect approximately correct, and I think the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the Greater New York Charter as amended by chapter 409 of the Laws of 1904, to issue Corporate

Stock of The City of New York to the amount of \$550,000, in addition to the \$250,000 authorized on May 23, 1902, making a total of \$800,000, to provide for the construction and completion of the court-house in the Borough of The Bronx.

Respectfully,
(Signed) EUG. E. McLEAN, Engineer.

President Haffen moved the adoption of the ordinance.

The President put the question whether the Board would agree with said motion. Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Bennett, Boerner, Boyhan, Brenner, Davies, Diemer, Donohue, Dougherty, Doull, Dowling, Gass, Goodman, Grifenhagen, Grimm, Gunther, Haenlein, Harburger, Harnischfeger, Hann, James, Jones, Kenney, Kline, Lochner, Lundy, Meyers, Morris, Arthur H. Murphy, Owens, Redmond, Shea, Sheil, Sickles, Stapleton, Stumpf, Sturges, Twomey, Ware, Wafer, President Haffen, the Vice-Chairman and the President—42.

MOTIONS, ORDINANCES AND RESOLUTIONS.

On motion of Alderman Kenney the Board went into the order of business of motions, ordinances and resolutions.

At this time Alderman Sturges arose to a question of personal privilege, and recited that at the last meeting a resolution had been introduced and adopted calling upon the President of the Borough of Manhattan to take steps to prevent the Metropolitan Life Insurance Company from continuing the construction of a tunnel in East Twenty-fourth street, between Fourth and Madison avenues, Borough of Manhattan, without proper authorization from the Board of Aldermen.

Alderman Sturges said that the above company had not constructed a tunnel or begun the construction of a tunnel and would not until properly authorized.

Alderman Sturges at this time offered a resolution covering the above statement. The Vice-Chairman objected to the resolution at this time.

Alderman Goodman raised the point of order that a question of personal privilege was always in order, and also any resolution germane to it.

The President ruled that the point of order was not well taken, and that the resolution would be received in its proper order.

REPORTS OF STANDING COMMITTEES.

No. 35—(G. O. No. 111).

The Committee on Codification, to whom was referred on January 12, 1904 (Minutes, page 46), the annexed ordinance, establishing a code of ordinances, respectfully REPORT:

That they have continued the work done by the Committee on Codification of the Board of 1902-1903. At the request of your Committee, their counsel has procured to be passed chapter 628 of the Laws of 1904, entitled "An act to amend the Greater New Charter, relative to the Code of Ordinances," the purport of which is to constitute the Park Ordinances, the Building Code and the Sanitary Code, chapters of the proposed Code of Ordinances.

The Code of Ordinances, as prepared by the Committee of 1902-1903, has been further changed by the counsel who prepared the same.

The proposed code has proceeded to a period of completion in which we deem it desirable that it should be printed in its present form and copies sent to the heads of the various City departments. The proposed code, as amended and as annexed to this report, is not reported as the code approved by your Committee, but is simply reported for the purpose of reprinting and recommitment.

We therefore recommend that copies of the proposed code, when printed, be sent by the City Clerk to the heads of the various departments and that the code be recommended to our Committee for further action.

We also report with the code an analysis of the changes in the various sections showing the difference between the sections of the proposed code and the sections of the revision of 1897 and other ordinances from which such new sections were derived. *Analysis of Changes in Proposed Codification of New York City Ordinances as Compared with Revised Ordinances of 1897.*

Memoranda of changes in the proposed codification, as compared with the revised ordinances of 1897 and other ordinances. The words and figures R. O. 1897 refer in each instance to the revised ordinances of 1897. The section numbers first given in the schedule are the section numbers of the proposed codification.

Section 2. Sec. 3 R. O. 1897 with the words "The Chief Clerk of the Mayor" substituted for "he."

Section 3. Sec. 104 R. O. 1897 with the words "Corporation Counsel" substituted for the word "he."

Section 4. Sec. 105 R. O. 1897 with the words "Board of Aldermen" substituted for "Common Council," and the words "Corporation of the" stricken out.

Section 5. Sec. 106 R. O. 1897 with the word "City" substituted for "corporation."

Section 6. Sec. 107 R. O. 1897 with the words "or to the proper City Department" inserted after "Chamberlain," and the words "or the head of such department" also inserted. The change is suggested by the Corporation Counsel for the purpose of avoiding unnecessary bookkeeping.

Section 8. Sec. 109 R. O. 1897 with "Counsel to the corporation" changed to "Corporation Counsel," the word "city" twice substituted for the words "the corporation," and the provision as to written substitution made so as to apply only "if requested." The change was made at the request of the Corporation Counsel, who stated that it is never necessary to comply with the provision for substitution, and that the phrase needs only to be retained in its amended form and through caution.

Note.—Sections 111 to 123, inclusive, are omitted for the reason that the office of corporation attorney has been abolished, and the Bureau of Penalties, to which the sections related, is now a part of the Corporation Counsel's office. Sections 124 and 126 to 129, relating to the Bureau of the Public Administration, are omitted because superseded by statute.

Section 9. Sec. 125 R. O. 1897 with "the Public Administrator" substituted for "He," and the words "Board of Aldermen" substituted for "Common Council."

Section 10. Sec. 27 R. O. 1880, as added June 28, 1881, omitted from R. O. 1897, evidently by inadvertence.

Section 11. Sec. 135 R. O. 1897 with the words "The President of any borough" substituted for "the Commissioner of Public Works," and the words "board of aldermen" substituted for "common council."

Section 12. Sec. 139 R. O. 1897 with the words "borough president" substituted for the words "Commissioner of Public Works," and the words "or statutes" inserted.

Section 13. Sec. 140 R. O. 1897 with the words "Each borough president" substituted for "He."

Section 15. Sec. 144 R. O. 1897 with the words "borough president" substituted for "Commissioner of public works."

Section 16. Sec. 145 R. O. 1897 with the words "borough president" substituted for "Commissioner of public works," and the word "city" for the words "the corporation."

Section 17. Sec. 146 R. O. 1897 with the words "Each borough president" substituted for "The commissioner of public works."

Section 18. Sec. 147 R. O. 1897 with same change as in section 17.

Section 19. Sec. 148 R. O. 1897 with words "borough president of each borough" substituted for "Commissioner of public works."

Section 20. Sec. 229 R. O. 1897 with words "any president of a borough" substituted for "the Commissioner of public works"; the words "to leave sufficient numbers on each block so" stricken out and the words "to so proceed" inserted; the word "would" stricken out and the word "will" substituted in two instances.

The change is to make better English and to avoid limiting too strictly the procedure of the Borough President.

Section 21. Sec. 231 R. O. 1897 with words "borough president" substituted for "Commissioner of public works."

Section 22. Sec. 232 R. O. 1897 with the words "borough president" substituted for "Commissioner of Public Works," and a clause added imposing a penalty of \$25 for a refusal to renumber houses when such renumbering is properly ordered. Without this proposed penalty, the Borough President has no way of enforcing his renumbering orders.

Section 23. Sec. 233 R. O. 1897 the first clause only with the words "to the president of the borough in which such monument stone is situated." The remainder of the section of R. O. 1897 is made obsolete by the charter.

Section 24. Sec. 234 R. O. 1897 with the words "borough president" substituted for "Commissioner."

Section 25. Sec. 235, Id., with same change as in section 24.

Section 26. Sec. 236 Id. with the words "president of the borough in which said monument or bolt is situated" substituted for different local authorities. Change made because the President of a borough is now the proper officer to perform such duties.

Section 27. Sec. 237 Id. with the words "borough president" substituted for "Commissioner."

Section 28. Sec. 238, Id., with same changes as in section 27.

Section 29. Sec. 239, Id., with same changes as in section 27.

Section 30. Sec. 240, Id., without change in substance, but entirely redrafted in the interest of clearness.

Section 32. Sec. 11, Id., with words "City Clerk" substituted for "He."

Section 33. Sec. 12, Id., with same change as in section 32.

Section 34. Sec. 13, Id., a slight verbal change is made in the second sentence to make its English better.

Section 35. Sec. 14, Id., with same change as in section 32.

Section 36. Sec. 15, Id., the first sentence only, with the words "City Clerk" substituted for the words "Clerk of the common council." The remainder of section 15, R. O., 1897, will be found in section 767.

Section 37. Sec. 17, Id., the words "and county" stricken out.

Section 39. Sec. 19, Id., the words "board of aldermen" inserted in place of the words "Common Council."

Section 42. Sec. 23, Id., entirely redrafted at the suggestion of the Comptroller. As redrafted it gives him ninety days within which to prepare his statement and permits a fuller statement than does section 23, R. O., 1897.

Section 55. Sec. 39, Id., entirely redrafted at the suggestion of the comptroller and a new scale of charges inaugurated. The comptroller's statement is that the work justifies the proposed charges, particularly as the city has virtually to guarantee these searches.

Section 56. Sec. 44, Id., the words "is charged with the duty of superintending" stricken out and the words "shall superintend" inserted. The words "of the stalls and stands therein" stricken out and the words "relative thereto" inserted. The purpose of the section is thus made more evident.

Section 58. Sec. 47, Id., and Res. 1129 of 1903, Catharine, Centre, Clinton, Essex and Union markets stricken out on advice from the comptroller that they have ceased to be public markets.

Section 60. Sec. 49, Id., the second sentence redrafted but without substantial change. The purpose of the redrafting is to make the sentence convey the intended meaning more clearly.

Section 61. Sec. 50, Id., the words "Bureau of penalties" substituted for "Corporation attorney."

Section 64 to 65. Section 53 and 54, Id., under an opinion of the corporation counsel the Comptroller advised that the provisions relative to selling in streets within three hundred yards of a market be stricken out, as it was believed that the penalty could not be enforced in this way. The sections were then recast.

Section 66. Section 55, Id., not changed in substance but recast in form under the advice of the corporation counsel.

Section 67. Section 56, Id., the words "or in any street within the city of New York," and "excepting vegetables or fruit" omitted because of the opinion referred to under section 64.

Section 72. Section 61, Id., not changed in substance but recast in the interest of uniformity.

Section 73. Sec. 62, Id., with words "nor to any vehicle the license for which is provided for in chapter 5 of this code" added.

Section 74. Sec. 63, Id., "Municipal Court of The City of New York" substituted for "District Court."

Sections 77 and 78, 80 and 81, secs. 86, 87, 89 and 90, Id., with the words "Board of" inserted. The present title is "Board of Commissioners of the Sinking Fund," Charter section, 204.

Section 82. Sec. 25, Id., with the words "The comptroller" substituted for "He," "Board of Aldermen" for "Common Council," and "Board of" inserted before "Commissioners."

Section 83. Sec. 91, Id., language changed so as to include entire city. Words "Board of" inserted before "Commissioners," "Board" substituted for "Commissioners," and "it" for "them."

Section 91. Sec. 67, Id., the President of the board of aldermen included instead of the Recorder and the present name of the board inserted. Changes made necessary by section 204, Greater New York Charter.

Section 92. Sec. 68, Id., the words "which four" substituted for "whom." The changes makes the intention certain.

Sections 93 to 96. Secs. 69, 70, 71 and 73, Id., present name of board inserted.

Section 97. Sec. 74, Id., the words "of such four" being added for the sake of definite statement.

Section 98. Sec. 75, Id., the word "Board" substituted for "Commissioners," and "of which four" substituted for "whom." The changed form is a trifle more clear.

Sections 100, 102, 103 and 104. Secs. 77, 79, 80 and 81, Id., word "Board" substituted for "Commissioners."

Section 106. Sec. 83, Id., correct name of board inserted and number of charter section.

Sections 107, 108, 111. Secs. 97, 98 and 101, Id., present name of board inserted.

No fruits, vegetables or berries in crates, baskets or other measures, or any butter in prints, or any ice or coal or other fuel shall be sold or offered for sale in any market or in the public streets or in any other place in The City of New York at or for a greater weight or measure than the true measure thereof; and all ice, coal, coke, meats, poultry and provisions (except vegetables sold by the head or bunch) of every kind, sold in the streets or elsewhere in The City of New York, shall be weighed or measured by scales, measures or balances, or in measures duly tested and stamped by the Inspector or Deputy Inspectors of Weights and Measures; provided that poultry may be offered for sale and sold in other manner than by weight, but in all cases where the persons intending to purchase shall so desire and request poultry shall be weighed as hereinbefore provided.

Sec. 189. Any weights or scales found by the Deputy Inspector to use in any market or in the public streets, which upon being tested are found to be short in weight by one-quarter of a pound or upwards, may be summarily confiscated and destroyed.

Sec. 190. No coal or coke shall be sold or supplied within the limits of The City of New York, unless there shall be delivered to the person in charge of the wagon or conveyance used in such delivery a certificate duly signed by the person selling such fuel, showing the weight of the fuel proposed to be delivered, the weight of the wagon or conveyance used in such delivery, the total weight of fuel and conveyance used, and the name of the purchaser.

It shall be the duty of the Deputy Inspectors of Weights and Measures, and each of them is hereby authorized, to inspect, examine, test and seal, at least once in each year, and as much oftener as the Inspector of Weights and Measures may deem proper, the weights, measures, scale-beams, patent balances, steelyards and other instruments used in The City of New York in weighing and measuring as aforesaid.

Sec. 193. All weights, measures, scale-beams, patent balances, steelyards or other instruments shall be exhibited to any of said Deputy Inspectors for the purpose of being so inspected and examined, under the penalty of twenty-five dollars for every refusal so to do, to be paid by the owner thereof or such person so refusing.

Sec. 194. No person shall in any way or manner obstruct, hinder or molest any Inspector of Weights and Measures in the performance of his duties as hereby imposed upon him, under a penalty upon every such person of twenty-five dollars for every such offense, to be paid by such person so refusing.

Sec. 195. All new weights, scale-beams, patent balances, steelyards and other instruments used for weighing shall be inspected and sealed at the stores and places where the same may be used; but in case they or any of them shall be found not to conform to the standard of this State, the owner thereof shall within five days, at his expense, have the same so altered and repaired as to conform it to the said standard of the State, under the penalty of ten dollars for each neglect so to do to be paid by such owner.

Sec. 196. It shall be the duty of each of the said Deputy Inspectors to make a record and certificate as hereinafter provided of all the weights, measures, scale-beams, patent balances, steelyards and other instruments used for weighing and measuring inspected by him, in which he shall state the names of the owners of the same, and whether they are conformable to the standard of the State.

Sec. 197. It shall be the duty of the Deputy Inspectors of Weights and Measures to report promptly to the Inspector of Weights and Measures the names of all persons whose weights, measures or other instruments for weighing and measuring shall be found to be incorrect.

Sec. 198. It shall also be the duty of said Deputy Inspectors to file monthly reports with the Inspector of Weights and Measures, and to make such other and further reports and keep such further records as may be required from time to time by said Inspector.

Sec. 200. No weights, measures, scale-beams, patent balances, steelyards or other instruments to be used for weighing or measuring, shall be offered or exposed for sale in The City of New York by any Inspector or Deputy Inspector, under the penalty of fifty dollars for so doing to be paid by said Inspector or Deputy Inspector for each such offense.

Sec. 201. Each Deputy Inspector shall give a certificate to the owner of the weights or measures inspected, and shall keep a record of each certificate given on a corresponding stub. The certificates and corresponding stubs shall be numbered consecutively. The books containing the stubs, after the corresponding certificates have been given out, shall become a public record. The Inspector shall be authorized, when required, to certify extracts from these records.

Sec. 202. All complaints against Deputy Inspectors of Weights and Measures shall be lodged with the Inspector of Weights and Measures, and by him reported with his recommendation thereon, to the Mayor for his final action.

Sec. 203. The Deputy Inspectors shall be assigned for service by the Inspector to such districts as he may deem proper. The Mayor shall from time to time issue licenses under his hand and seal to so many and such persons as he shall think proper, to keep for hire, in the said City, horseless coaches, carriages and cabs, designed for propulsion by electricity supplied by an electric storage battery or batteries, and may revoke any and all of said licenses for cause.

Sec. 205. The provisions and penalties of the ordinance relating to the licensing of hacking coaches or cabs and of the driving thereof and the rates and prices of fares, so far as the same may be consistent, shall apply to coaches, carriages and cabs, to be licensed hereunder and to the owners and drivers thereof.

Sec. 209. To persons, firms or corporations engaged in a business requiring the frequent or constant hoisting or lowering of merchandise or materials, the Bureau of Licenses shall, on the filing of such satisfactory security, to be approved by the Chief of the Bureau of Licenses as aforesaid, and on the payment of a fee of twenty-five dollars, grant a general permit to such persons, firms or corporations, permitting them to hoist, raise or lower the goods, property, merchandise or materials therein described on the outside of any and all buildings for the term of one year thereafter. Nothing in this subdivision contained shall affect the right, in any case, to obtain a single permit under subdivision.

Sec. 210. In every case, it shall be the duty of all persons, firms or corporations, while engaged in such hoisting or lowering over any sidewalk, roadway or public place, to give warning on such sidewalk, roadway or public place, by two conspicuous flags or placards, on which shall be inscribed in letters at least six inches long, the word "danger." For every failure to comply with this provision, there shall be a penalty of twenty-five dollars, recoverable by The City of New York in any court of competent jurisdiction, against any person, firm or corporation guilty of such violation. (R. O., 1897, sec. 205, with verbal changes.)

Chapter 6.—Contracts.

Sec. 211. All supplies to be furnished or work to be done for the Corporation of The City of New York, whether to be paid for out of the City Treasury or out of trust moneys under the control of or to be assessed or collected by the Corporation, shall be furnished or performed by contract, except as is otherwise provided by law. (R. O. 1897, sec. 344, amended.)

Sec. 212. The several departments and officers empowered by law to make contracts on the part of the Corporation shall issue invitations for bids or proposals therefor by public notices, and shall advertise the same as provided by law when and after the said public notice and the terms of the said contract shall have been approved as to form by the Corporation Counsel. There shall be kept by each of said departments an appropriate box, to be designated "bid box," with a proper opening in the top thereof to receive bids or proposals for which invitations have been issued. Such "bid box" shall be locked, except at such times as it may be necessary to open the same to examine and decide upon bids or proposals, and the key thereof shall be retained by the head of the department. It shall be the duty of the head of the department to deposit in said box the bids or proposals duly presented to him for work to be done or supplies to be furnished, under the direction of the department, immediately on the receipt thereof by him. (Id., sec. 345, amended.)

Sec. 213. The invitations for bids or proposals shall be in such form as may be prescribed by the department making the same, and as shall be approved as to form by the Corporation Counsel, and they shall contain the following particulars:

1. They shall require that the person making the bid or proposal shall furnish the same in a sealed envelope to the head of the appropriate department, at his office, on or before a day and hour herein named, not less than ten (10) days from the first publication thereof.
2. They shall state the quantity and quality of supplies, or the nature and extent, as near as possible, of the work required, or a reference to specifications or

schedules where the quantity and quality of supplies, or the nature and extent, as near as possible, of the work, is stated.

3. They shall state that the bids or proposals received will be publicly opened by the head of the department issuing the public notice, at his office, at a day and hour therein mentioned.

4. They shall state the amount in which security is required for the performance of the contract.

5. They shall state the time or period within which the work must be done or the supplies furnished. (Id., sec. 346, amended.)

Sec. 214. Each bid or proposal shall contain:

1. The name and place of residence of the person or party making the same.

2. The names of all persons or parties interested with the bidder therein, and if no other person or party be so interested the bid or proposal shall distinctly state that fact.

3. A statement that the bid or proposal is made without any connection with any other person or party making the bid or proposal for the same purpose, and that the bid or proposal is in all respects fair and without collusion or fraud.

4. A statement that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or Clerk therein, School Commissioner or other officer of the corporation is directly or indirectly interested therein, or in the supplies or the work to which it relates, or any portion of the profits thereof, either as principal, surety or otherwise. (Id., sec. 347, amended.)

Sec. 215. Each bid or proposal shall be verified by the oath or affirmation, in writing, of the party making the bid or proposal, that the several matters stated therein are in all respects true, and if the bid or proposal be made by a firm it shall be verified by each and every member of the firm. (Id., sec. 348, amended.)

Sec. 216. Each bid or proposal shall be accompanied by the consent, in writing, of two (2) householders or freeholders in The City of New York, or of a responsible guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded to the person or party making the bid or proposal they or it will, upon its being so awarded, become bound as his or its sureties for its faithful performance, and that if he shall omit or refuse to execute the same they or it will pay to the corporation any difference between the sum to which he would be entitled upon its completion and that which the corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount of security in each case to be calculated upon the estimated cost of the work to be done or of the supplies to be furnished by which the bids are tested. (Id., sec. 349, amended.)

Sec. 217. The consent mentioned in the last section shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in The City of New York and is worth the amount of the security required for the completion of the contracts and stated in the bids or proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with an intention to execute the bond required by law; and a like affidavit shall be required of the proper officers of any such guaranty or surety company, setting forth the name of the company, the title of the act or laws under which it is incorporated, the date when incorporated, a statement that it is authorized to do business under the laws of the State of New York and is authorized under its charter to execute the said bond or undertaking and to guarantee the obligations assumed in the bid or proposal and according to the contract and referred to in the bids or proposals; a true and correct statement of the financial condition of the company at its last accounting, which shall have been made within a period of one year, and of any changes in its condition that impairs or affects its financial liability or status. (Id., sec. 350, amended.)

Sec. 218. The sealed envelope containing the bid or proposal shall be indorsed with the name or names of the person or party presenting the same, the date of its presentation and a statement of the work to which it relates; and no bid or proposal shall be taken from the "bid box," or the sealed envelope thereof opened by any one, except at the time and in the manner herein designated for deciding on such bids or proposals. At the same time and place appointed for that purpose in the public notice as prescribed in this ordinance, the head of the Department, or other officers empowered to make the contract, in the presence of the Comptroller or his duly authorized representative, and such of the parties making the said bid or proposals as may desire to be present, shall then and there open the said bid box, and the bids or proposals to be examined at that time, as may appear from the indorsements thereon, shall be taken from said box. The said head of Department, or his deputy, shall then and there publicly open and read all bids or proposals which may have been received for the contract mentioned in such public notice, and shall reject all bids or proposals not furnished in conformity with the law and the ordinances relating thereto and the requirements thereof. The award of the contract shall be made according to law (Id., sec. 351, amended.)

Sec. 219. When public notices are issued for a contract to furnish any article of which a sample can conveniently be furnished or for which specifications and plans can be prepared and furnished within the time allowed, the head of the department issuing the same may require that such sample or specifications and plans be delivered at his office or at the office of the head of the appropriate bureau of the department within such time before the opening of the bids or proposals as he may prescribe; and if it or they be not so furnished, or do not conform to the requirements of the public notices and of the specifications and requirements issued by the department for the said article, the bid or proposal delivered by the person or party furnishing or omitting to furnish the same, as the case may be, shall be rejected. Wherever samples are required to be prepared and furnished to the head of the department, at least ten (10) days shall be given for the furnishing of such sample and for the preparation and furnishing of such specifications and plans (Id., sec. 352, amended.)

Sec. 220. Except as herein otherwise provided, in all contracts for work for the corporation where provision is made for the payment of the contract price by installments, a provision shall be inserted that the corporation may retain, and the contractor shall allow to be retained, at least ten (10) per cent. of the contract price of the work actually done as security until the whole work shall be completed and the contract shall be fully and completely performed (Id., sec. 353, amended.)

Sec. 221. In all contracts for the performance of work or the furnishing of supplies, the time or period for the completion of such work and the furnishing and delivery of such supplies shall be specified and inserted therein (Id., sec. 354, amended.)

Sec. 222. In all contracts for public works or supplies, and agreements in relation thereto, by which the City shall be liable to pay money, the award, if any, must be to the lowest bidder unless the Board of Estimate, by the vote of three-quarters of its members, shall determine that it is for the public interests that a bid other than the lowest should be accepted. No contract shall be made until the Comptroller certifies thereon that the necessary funds are provided and applicable thereto (sec. 419, the Greater New York Charter).

Sec. 223. In all contracts for work for the corporation upon any public building, or in any public street or place, in the performance of which accidents or injuries may happen to the person or property of another, a provision shall be inserted that the contractor shall place proper guards for the prevention of accidents, and shall put up and keep at night suitable and sufficient lights during the performance of the work; and that he will indemnify the corporation for damages or costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work (Id., sec. 355, amended.)

Sec. 224. Every contract for supplies or work by the corporation shall be executed by the contractor or contractors to whom the same may be awarded, and shall be accompanied by a bond in the amount mentioned in the public notice therefor, executed by the persons or company consenting to become bound as sureties, or by such other persons or company as shall be substituted therefor, with the consent of the Comptroller, conditioned for the faithful performance of the contract and of every provision therein contained, and which bond shall be accompanied by the oath in writing or the person signing the same that each is a householder or freeholder in The City of New York, and of the person or any officer of such company that he or it is worth the amount of the security required for the completion of the contract, and stated in the public notice as hereinbefore prescribed. And it shall be the duty of the Comptroller to require such sureties to be further examined before himself or an officer authorized to administer oaths, deputed by him, in respect to the items and details of their property, before approving the adequacy and sufficiency of such sureties, and the several departments of the City government

and officers aforesaid by which every and each contract for work to be done or supplies to be furnished for the corporation shall be made in pursuance of this ordinance, shall have power and it shall be their duty to require and enforce the faithful execution of each and every contract so made by them; and in case the contractor or contractors shall fail in any respects to perform the work or to furnish the supplies which he or they have contracted to render or furnish within the time limited for the performance of the same, then it shall be the duty of such department or officers aforesaid to do and complete the same work or to furnish and deliver the said supplies in the manner provided for the performance of the same in the contract, and the cost of the same shall be charged against the delinquent contractor or contractors; provided, however, that the head of any department or officer aforesaid by whom any such contract shall be made may, on good and sufficient cause, extend for a reasonable time the period fixed for the completion thereof (Id., sec. 356, amended.)

Sec. 225. Whenever any contract shall be made hereafter by any of the departments or officers aforesaid of the corporation, the amount whereof is to be afterward collected by assessment from the property benefited by the work to be done under said contract, it shall be the duty of the head of department or officers aforesaid making such contracts to cause to be inserted therein a clause that, as the work progresses, payments will be made to the contractors by monthly installments of seventy per cent. (70%) on the work performed, provided the amount of work done on each installment shall amount to one thousand five hundred dollars (\$1,500); and the head of department making such contracts shall forthwith file a copy thereof with the Comptroller (Id., sec. 357.)

Sec. 226. The amount due contractors on all contracts, and on work now in progress under contracts, on account of regulating and paving streets, building sewers, ordered to be done by contract, by virtue of the provisions of law or ordinance, the expense whereof is to be assessed upon property locally benefited thereby, shall be paid by the Comptroller from the Street Improvement Fund; but no money shall be paid on account of said assessments or contracts until a copy of the original contracts has been filed with the Comptroller of the City by the head of the Department having such work in charge, with a certificate in writing from the head of such Department, stating the amount of work that has been completed and the amount due the contractor for such work according to the terms of the original contract; upon the amount thus certified and ascertained to be due to the contractor, the Comptroller shall pay seventy per cent. (70 per cent.). The remaining thirty per cent. (30 per cent.) shall be reserved until thirty days after the final completion and acceptance of the work. (Id., sec. 358, amended.)

Sec. 227. Whenever any payment shall become due upon any contract, according to the provisions thereof or in accordance with any of the provisions of this ordinance, it shall be the duty of the head of Department or officer aforesaid having such work in charge to furnish to the person or party entitled to such payments a certificate, in writing, specifying the contract upon which such payment is due and the amount due under such contract (Id., sec. 360, amended.)

Sec. 228. It shall be the duty of the Comptroller on the presentation of such certificate to him to pay the amount thereof and indorse such payment upon the contract on account of which such payment is made; but no payment shall be made under such contract beyond the amount of such certificate, and the final payment thereon shall not be made until the head of Department or officer aforesaid having such work in charge shall furnish the Comptroller, who shall file the same in his office, a certificate signed by the head of such Department or officer aforesaid, that the work mentioned in such contract has been completed according to the terms of said contract, and to the satisfaction of the head of Department giving such certificate (Id., sec. 361, amended.)

Sec. 229. Each and every contractor shall be required to have an affidavit from the surveyor, setting forth the amount of work done of every description that may be charged in each bill or assessment list of said contract, and said affidavit shall be attached to said assessment list. The Inspector shall also furnish an affidavit attached to each contract that the work is done according to the plans and specifications, said affidavit to be attached to each assessment list before presented for confirmation (Id., sec. 363.)

Sec. 230. No payment shall be made by the Comptroller for work done or supplies furnished except upon proper vouchers rendered by the head of the appropriate Department, or other proper officer, Board or Commission for whom such work was done or supplies furnished. Such vouchers shall be made out in duplicate, and shall contain the certificates of such subordinate officers as the head of the Department and the Comptroller may require, and shall be of such form and purport as the Comptroller shall prescribe, and also a certificate of the head of the Department. One of the duplicate vouchers shall be retained in the Department or office by which the vouchers are rendered, and the other shall be transmitted to the Department of Finance for payment. A receipt for the amount paid shall be taken upon the vouchers sent to the Department of Finance (Id., sec. 367, amended.)

Sec. 231. All old and waste material under the care of any Department shall be sold from time to time, as it may be deemed best for the public interest so to do, in accordance with the provisions of law, the sale of such material to be under the immediate supervision of the head of the Department or Bureau having charge of such material, the proceeds therefor to be collected by said head of Department or Bureau and transmitted within twenty-four hours by him to the Comptroller for deposit in the City Treasury, except as otherwise specially provided (Id., sec. 368, amended.)

Sec. 232. All meetings of the Boards or Commissions constituting Departments of the City Government of The City of New York for the transaction of public business, shall be held openly, and shall in all cases be accessible to the public. Such meetings shall be held at such times and places as may be determined upon by each of such departments, and due notice thereof shall be published daily in the "City Record" (Id., sec. 369.)

(R. O. 1897, sec. 686, with verbal changes.)

Sec. 350. No such permit or renewal shall be granted unless such company, proprietor or corporation shall expressly covenant, stipulate and agree that in case of his or their failure, neglect or omission to remove and carry away the snow to be thrown up by such snowplough or machine, and to reduce and level the snow on the adjacent highway within the time and manner aforesaid, then same may be removed, reduced and levelled under the direction of the Commissioner of Street Cleaning, and the expense of such removing, reducing and levelling shall be paid by such company, proprietor or corporation to the said Commissioner on demand. Sec. 352. The permission to use such plow, sweeper or similar machine, shall be determined by and continue only during the pleasure of the Mayor. (R. O. 1897, sec. 689.)

Article 4—Removal Snow, Ice and Other Matter.

Section 353. The wilful violation of any of the foregoing provisions of this section shall be and is hereby declared to be a misdemeanor, subject to the jurisdiction of the City Magistrates, and shall be punished by a fine of not less than one dollar nor more than ten dollars, or by imprisonment for a term of not less than one nor more than five days.

Sec. 354. No person other than an authorized employee or agent of the Department of Street Cleaning, or the Bureau of Street Cleaning in the boroughs of Queens and Richmond, shall disturb or remove any ashes, garbage, or light refuse or rubbish placed by householders, or their tenants, or by occupants or their servants, within the stoop or area line, or in front of houses or lots, for removal, unless requested by residents of house.

Sec. 355. It shall be the duty of all persons and corporations engaged in sprinkling the streets of The City of New York to use on asphalt pavement a quantity of water sufficient thoroughly to wash off and clean the same, and on all other pavements to use not more water than shall be sufficient to lay the dust thereon.

Every street railroad corporation in the boroughs of Richmond and Queens shall sprinkle the pavement between its tracks and rails when and as often as directed so to do by the Superintendent of Highways. Water shall be furnished for this purpose free of charge by The City of New York.

Sec. 356. No one being the owner, driver, manager or conductor of any cart or other vehicle, or of any receptacle, shall scatter, drop or spill, or permit to be scattered, dropped or spilled, any dirt, sand, gravel, clay, loam, stone or building rubbish, or hay, straw, oats, sawdust, shavings or other light materials of any sort, or manufacturing, trade or household waste, refuse, rubbish of any sort, or ashes or manure, garbage or other organic refuse or other offensive matter therefrom, or permit the same to be blown off therefrom by the wind, in or upon any street, avenue or public place.

Sec. 357. No person shall throw, cast or distribute in or upon any of the streets, avenues or public places, or in front yards or stoops, any hand bills, circulars, cards or other advertising matter whatsoever.

Sec. 358. Every owner, lessee, tenant or occupant, or other person having charge of any building or lot of ground in the city abutting upon any street, avenue or public place, where the sidewalk is paved, shall, before 10 o'clock in the forenoon, after any snowfall, or after the deposit of any dirt or other material upon said sidewalk, remove the snow and ice, dirt or other material from the sidewalk and gutter within four hours after the snow ceases to fall, or after the deposit of any dirt or other material upon said sidewalk, the time between 9 p. m. and 7 a. m. not being included in the above period of four hours; provided, however, that such removal shall in all such cases be made before the removal of snow and ice from the roadway by the Commissioner of Street Cleaning, or by the Borough President of Queens or Richmond, or subject to the regulations of said Commissioner of Street Cleaning, or of said Borough President of Queens or Richmond for the removal of snow and ice, dirt or other material, except that, in the boroughs of Queens and Richmond, any owner, lessee, tenant or occupant or other person who has charge of any ground abutting upon any paved street, avenue or public place, for a lineal distance of five hundred feet or more shall be considered to have complied with this ordinance, if such person shall have begun to remove the snow and ice from the sidewalk and gutter before the expiration of the said four hours and shall continue such removal, and shall complete it within a reasonable time.

Sec. 359. In case the snow and ice on the sidewalk shall be frozen so hard that it cannot be removed without injury to the pavement, the owner, lessee, tenant, occupant or other person having charge of any building or lot of ground as aforesaid, shall, within the time specified in the last preceding section, cause the sidewalk abutting on the said premises to be strewn with ashes, sand, sawdust, or some similar suitable material, and shall, as soon thereafter as the weather shall permit, thoroughly clean said sidewalk.

Sec. 360. Whenever any owner, lessee, tenant, occupant or other person having charge of any building or lot of ground abutting upon any street or public place, where the sidewalk is paved, shall fail to comply with the provision of any ordinance of the City for the removal of snow and ice, dirt, or other material from the sidewalk or gutter in the street, on the side of the street on which such building or lot abuts, the Commissioner of Street Cleaning, or the Borough President of Queens or Richmond may cause such removal to be made, meeting such expense from any suitable Street Cleaning or Highway Fund, and thereafter the expense of such removal as to each particular lot of ground, shall be ascertained and certified by the said Commissioner of Street Cleaning or by the President of Queens or Richmond to the Comptroller of the City and the Board of Estimate and Apportionment may authorize such additional expenditures as may be required for the said removal of such ice and snow, dirt or other material, to be repaid to the fund from which the payments were made, or instead in the boroughs of Queens or Richmond to the special funds "Restoring and Repaving" in said boroughs, if the Presidents of these boroughs so elect, with proceeds from the issue and sale of revenue bonds which shall be sold by the Comptroller, as provided by law.

The Commissioner of Street Cleaning or Borough President of Queens or Richmond shall, as soon as possible, after the work is done, certify to the Corporation Counsel the amount of the expense chargeable against each piece of property, with a description of said property as assessed on the last preceding assessment roll, and the name or names of the owner or owners, lessee, or lessees, occupant or occupants of the property, where possible to obtain the same. The Corporation Counsel is hereby directed and authorized to sue for and recover the amount of this expense, together

with \$10 penalty for each offense, and when so recovered the amount shall be turned over to the City Chamberlain to be deposited to the credit of the general fund of The City of New York for the reduction of taxation.

Sec. 361. It shall be the duty of the Commissioner of Street Cleaning and the Borough Presidents of Queens and Richmond, immediately after every snowfall or the formation of ice on the crosswalks or in the culverts or paved streets, avenues or public places, forthwith to cause the removal of said snow and ice from the said crosswalks and culverts, and to keep the crosswalks and culverts aforesaid clean and free from obstruction.

Sec. 362. Every street railroad corporation shall remove all the snow and ice from its tracks and the spaces between, and shall not throw the same on either side thereof, and shall immediately carry away and dispose of the same under the direction of the Commissioner of Street Cleaning, or the Borough President of Queens or Richmond under a fine of one hundred dollars for every city block in length, in which the said corporation shall fail to so remove and dispose of the same, as aforesaid; provided, however, that for the more speedy and effective removal of snow and ice from the paved streets, avenues and public places of the city, the Commissioner of Street Cleaning and the Borough Presidents of Queens and Richmond shall have power and authority in their respective boroughs to enter into agreements for the entire winter season, or part thereof, with any street surface railroad or other railroad having tracks in the city for the removal of snow and ice for the entire width of the street, avenue or public place, from house-line to house-line, at any part of the route of the said railroad, provided that nothing in said agreements shall be inconsistent with any law of the State of New York or with any right of The City of New York.

Sec. 363. It shall not be lawful for any surface railroad company or other company, or any corporation of persons whatever, or the officers, agents or servants thereof, to cause or allow any snow plow, sweeping machine or other similar instrument to pass over the tracks or lines used by them within the limits of the city unless by the written permit of the Commissioner of Street Cleaning or the Borough President of Queens or Richmond; any violation of this section shall be punished by a fine not exceeding one hundred dollars for each such offense.

Sec. 364. No such permit or renewal thereof shall be granted except upon the condition and agreement upon the part of the company applying for such permit or renewal that the party to whom the said permit has been granted shall and will, at his own expense, promptly remove and carry away the snow thrown up by such plow or machine, and that such snow plow, sweeping machine or other instrument shall be so constructed as not to throw any slush or snow upon the sidewalks or buildings, under a penalty of ten dollars for every house, or sidewalk in front thereof, upon which slush or snow shall be thrown.

Sec. 365. No such permit or renewal shall be granted unless the party to whom granted shall expressly covenant, stipulate and agree that in case of its failure, neglect or omission to promptly remove and carry away the snow and ice thrown up by such snowplow or other instrument, then the same may be removed under the direction of the Commissioner of Street Cleaning or the Borough President of Queens or Richmond, and the expense of removing the same shall be paid by the said party to the said Commissioner or the Borough President of Queens or Richmond, on demand, and the Board of Estimate and Apportionment may authorize that the amount or amounts of money so paid shall be credited to the appropriation for Street Cleaning, in the respective boroughs, for the removal of snow and ice; but nothing herein contained shall be deemed to prohibit said Commissioner or Borough Presidents from demanding, before issuing said permit, and as a condition thereof, the deposit of such sum of money or other security as in their judgment may be necessary to pay the cost of properly performing the work above mentioned, together with the expense of the inspection thereof.

Sec. 366. In case of neglect or refusal or omission of the party to whom such permit may be granted promptly to remove and to carry away the snow and ice thrown up by such plow or instrument, then the Commissioner of Street Cleaning or the Borough President of Queens or Richmond may forthwith cause the same to be removed at the public expense, and all expenditures made or incurred therefor shall be chargeable upon the party so neglecting, refusing or omitting to perform its agreement, and shall be recoverable by an action at law on behalf of The City of New York, and when so recovered shall be placed to the credit of the Department of Street Cleaning or the Bureau of Street Cleaning in the boroughs of Queens or Richmond, as the case may be, to supply the deficiency occasioned by such additional expenditure.

Sec. 367. Any person violating any provision or regulation hereof shall be deemed guilty of a misdemeanor, and upon conviction thereof by any magistrate, either upon confession of the party or competent testimony, may be fined for such offense any sum not less than one dollar and not exceeding three dollars, except as herein otherwise provided; and in default of payment of such fine may be committed to prison by such magistrate until the same be paid, but such imprisonment shall not exceed one day.

It shall not be lawful for any person to throw or place upon the curves, crossings or switches of railroad tracks any salt, saltpetre or other substance for the purpose of dissolving snow or ice, unless permission therefor be first obtained from the Mayor. Each application shall be accompanied by the amount of compensation due the City for the privilege of erecting said ornamentation, as hereinafter provided.

Sec. 443. Each application for the erection of an ornamental projection, which projects more than one foot beyond the building line, shall be accompanied by a certified copy of the last assessed valuation of the property on which said ornamental projection is to be erected, which appears upon the books of the Department of Taxes and Assessments. Except as hereinafter provided, the amount that shall be paid as a compensation to the City for the privilege of erecting each ornamental projection shall be, for each and every square foot or fraction thereof of area extending more than one foot beyond the building line, at the rate of ten per cent. per square foot of the assessed value of the property on which the said ornamental projection is to be erected.

Sec. 444. Ornamental projections which shall extend not more than two feet beyond the building line may hereafter be erected on buildings in the Borough of Manhattan, situated on Broadway to the south of Fifty-ninth street; on Fourteenth street, between Broadway and Sixth avenue; on Twenty-third street, between Third and Sixth avenues; on Thirty-fourth street, between Third and Ninth avenues; on Fifty-ninth street, between Third and Ninth avenues, and on Fifth avenue, between Fourteenth street and Fifty-ninth street, and on all other streets in The City of New York ornamental projections may be erected, provided they shall extend not more than one-fifteenth part of the width of the street they are upon, nor in any case more than five feet beyond the building line.

Sec. 446. Permits granted pursuant to the provisions of this ordinance are revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof, at any time hereafter by the Board of Aldermen of The City of New York, upon the recommendation of the officer having

jurisdiction, when the space occupied by said ornamental projection or any portion thereof, may be required for any public improvement, or upon any violation of any of the terms or conditions upon which this permit is issued." A permit for the erection of an ornamental projection shall be deemed to have expired when such projection is taken down, and the space formerly occupied thereby shall no longer be used for the purpose for which the permit was issued, unless a permit for its reconstruction shall have been granted, as provided in section 448 of this ordinance. In case it is thereafter desired to erect an ornamental projection on the said property, the applicant shall comply with all of the provisions of this ordinance.

Sec. 447. Permits as hereinbefore described, and subject to the conditions therein attached, may be issued to the owners of all buildings having ornamental projections, which buildings have been erected or are being erected, and have ornamental projections thereon beyond the building line, without any authorization therefor.

Sec. 448. No fees shall be charged for granting a permit to reconstruct an ornamental projection within the limitations imposed by an original permit therefor.

(Ordinance approved April 20, 1903.)

Bay Windows.

Section 452. The Borough Presidents and the Park Commissioners having jurisdiction shall issue permits for the erection of bay-windows, projecting beyond the building line, provided, in the opinion of the officer having jurisdiction, no injury will come to the public thereby. Permits for the erection of bay-windows laying within any park, square or public place within a distance of three hundred and fifty feet from the outer boundaries thereof shall be issued by the Park Commissioner having jurisdiction as provided in section 612 of the Charter, as amended by section one, chapter 723 of the Laws of 1901; permits for the erection of all other bay-windows shall be issued by the Borough President having jurisdiction. (Ordinance approved January 30, 1903, first paragraph of section one.)

Sec. 453. In case a Borough President or Commissioner of Public Works refuses to grant a license for the erection of a bay window, the applicant may appeal to the Local Board for the district in which the bay window is to be erected, and its decision shall be final.

Sec. 454. For the purposes of this ordinance a "bay window" shall be taken to mean and include all projections on the face of a building in the nature of windows, such as are commonly called bay windows, oriel windows and bow windows, without regard to the material of which they are constructed or to the purposes for which they are to be used. (Ord., June 30, 1903, part of sec. 1.)

Sec. 455. Before the erection of any bay window projecting beyond the building line shall have been commenced, the owner, or his duly authorized agent, shall make application in writing to the Borough President or Commissioner of Public Works having jurisdiction, on suitable blanks furnished by him, and shall state the length and width of the proposed bay window, the number of stories through which it is intended to be carried and the number of square feet of area covered by that portion of the bay window projecting beyond the building line. Each application shall have indorsed thereon the consent of all the adjoining property owners within a distance of one hundred and fifty feet from the centre line of the bay window, on the same side of the street (meaning thereby so much of the side of a street as is unintersected by any other street) on which it is proposed to be erected.

A drawing showing the size of and area covered by the bay window, the number of stories through which it is proposed to be carried, and its location in reference to the lot and building lines, shall be submitted with each application.

Each application shall be accompanied by a certified check for the amount of the compensation due the City for the privilege of erecting said bay window, as hereinafter provided. (Id., sec. 2.)

The amount that shall be paid to the Commissioner of Public Works for the Borough of Manhattan, as a compensation to the City for the privilege of erecting each bay window in that borough shall be two dollars (\$2) for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line, for each and every story through which it is carried. For the boroughs of Brooklyn and The Bronx one and one-half dollars (\$1.50), and for the boroughs of Queens and Richmond one dollar (\$1) shall be paid for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line for each and every story through which it is carried.

Sec. 457. For the purpose of computing the area covered by a bay window projecting beyond the building line, the outside face of the bay, exclusive of cornices, pilasters, trim, etc., shall be the line taken as a basis of computation.

Sec. 458. Bay windows may be erected with a projection of not more than three (3) feet beyond the building line, provided that when the projection exceeds one (1) foot beyond the building line, the total number of feet in width occupied by all the bay windows on the same frontage of the same building shall not exceed fifty per cent. of the width of the frontage of the building on which they are located.

Sec. 459. No bay window shall be erected projecting more than one (1) foot beyond the building line, or carried higher than the sill course of the second story windows on a street forty (40) feet or less in width, or on any street south of Twenty-fourth street in the Borough of Manhattan.

Sec. 460. Permits for the erection of bay windows shall be issued in duplicate, one of which shall be retained by the applicant and kept at the building during the erection of the window, and the other shall be filed by him, with the plans for the construction of the window in the Department of Buildings.

Sec. 461. It shall be the duty of the applicant, upon the completion of the bay window, to file with the Borough President or Commissioner of Public Works issuing the permit, a certificate from a City Surveyor stating the dimensions of said window, the number of square feet contained therein and the number of stories through which it has been carried as erected. If it shall appear by said certificate or otherwise that the bay window occupies a greater number of square feet, or has been carried through a greater number of stories than shall have been paid for, the applicant, in addition to the penalty imposed by this ordinance, shall pay twice the sum previously paid for each square foot of area occupied by said bay window over and above the number of square feet paid for originally.

Sec. 462. Permits granted, pursuant to the provisions of this ordinance shall be revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof at any time hereafter by the Board of Aldermen of The City of New York, upon recommendation of the Borough President or Commissioner of Public Works having jurisdiction, when the space occupied by said bay, or any portion thereof, may be required for any public improvement, or upon any violation of any of the terms or conditions upon which this permit is issued."

Sec. 463. A permit issued for the erection of a bay window shall be deemed to have expired when the bay window shall be taken down for any cause whatever, except that a bay window may be rebuilt if damaged by fire or by other cause, through no fault of the owner, without the issuing of a new permit, provided that the bay window when reconstructed shall conform to the bay window as originally constructed in all particulars.

Sec. 464. Nothing herein contained shall be deemed to conflict with any of the provisions of the Building Code, and all bay windows for which permits are issued under the provisions of this ordinance shall be erected in accordance with all the provisions of said code in regard to kind and quality of materials used.

Sec. 465. All fees received by the Borough Presidents or Commissioner of Public Works for the issuing of permits for the erection of bay windows shall be accounted for in proper books kept for that purpose, and shall be turned over by them to the City Treasury.

Sec. 466. A permit for the continuance of any now existing bay window which projects beyond the building line may be issued by the officer who, according to section 452 of this ordinance, has jurisdiction over the erection of bay windows at the

same place. Application for such permit must be in writing and must be accompanied by a certified copy of the last assessed valuation of the property on which such bay window stands, which appears upon the books of the Department of Taxes and Assessments, and must also be accompanied by a survey showing the dimensions of such bay window and the number of stories through which it is carried. The application shall be accompanied by the amount of the compensation due the City for the privilege of continuing the bay window, calculated in the same manner and at the same rate as provided in sections 455 and 456 of this ordinance. Permits shall be issued under this section without consent of adjoining property owners. Permits issued under this section shall be subject to all the provisions of sections 462 and 463 of this ordinance in like manner as are permits for the erection of bay windows. Permits issued under this section shall be issued in duplicate, and one of such duplicates shall be filed in the Department of Buildings. All fees received under this section shall be accounted for and paid over as provided in section 465 of this ordinance. Nothing herein contained shall be construed to revoke any permit or authority heretofore lawfully issued or given.

Sec. 467. Any person, firm or corporation violating any of the provisions of this ordinance relating to bay windows, shall be liable to a fine of one hundred dollars (\$100) for each offense, and for ten dollars (\$10) for each and every day that such offense shall continue.

(R. O., 1897, sec. 183.)

(R. O. 1897, sec. 247.)

No. 300 Mulberry Street, }
June 28, 1904.

To the Honorable Board of Estimate and Apportionment, Honorable Board of Aldermen of The City of New York:

Gentlemen—I have the honor to request that the salary of the Auditor of the Police Department be fixed at the rate of three thousand dollars per annum.

I would not submit this request were it not for the fact that I feel the Auditor is justly entitled to at least three thousand dollars per annum for the work he is performing. Under the old Police Board there were three Auditors attached to the Auditing Bureau, drawing salaries ranging from two to three thousand dollars per annum. The entire work of these Auditors now devolves upon the present incumbent, and is much greater than formerly required, owing to the considerable and steady growth of his department.

I have the honor to be,

Very respectfully,

(Signed) WILLIAM McADOO, Police Commissioner.

No. 843.

By the Vice-Chairman—

Whereas, A contract was entered into January 1, 1904, by the Park Board for the construction of a pipe sewer from the mineral springs in Central Park to the sewer near the dairy, with necessary appurtenances and branches; and

Whereas, It has been found to be expedient to modify said contract by providing for certain changes in the work, by substituting a 12-inch for the original 8-inch pipe in a portion of the trunk sewer and by enlarging and extending the several branches, etc., involving an additional cost of the work of, approximately, \$9,275, based upon the prices named in the contract for similar work, and the said amount is in excess of five per cent. of the amount of the contract, to which extra work thereunder is thereto limited,

Resolved, That the Commissioner of Parks for the Boroughs of Manhattan and Richmond, through the Park Board, be and he hereby is authorized to provide for such additional work by further contract or modification of the existing contract without public letting at the contract prices for similar work not exceeding the estimated cost of \$9,275, payable from the funds now available for the purpose.

No. 844.

By Alderman Sturges—

Whereas, At the last meeting of this Board a resolution was adopted requesting the President of the Borough of Manhattan to immediately put a stop to certain alleged

work in connection with the premises of the Metropolitan Life Insurance Company on East Twenty-fourth street, between Madison and Fourth avenues; and

Whereas, Such resolution recites that said company has proceeded with the construction of a tunnel or vault in said street; and that such action is in defiance of law, in that it is without the sanction of this Board; and

Whereas, As appears from the communications hereto attached and made part of this preamble and resolution, such statement is without foundation in fact; and the said company is not in any manner engaged in the construction of such tunnel, has not entered upon such construction, and has no intention of beginning such construction until authorized by the City authorities; and

Whereas, The adoption of the resolution referred to has placed the said company in an unjust and false position before this Board and the entire community; therefore

Resolved, That it be and hereby is referred to the President of the Borough of Manhattan, and he is respectfully requested to ascertain and report to this Board whether or not the Metropolitan Life Insurance Company is or has been in any manner engaged in the construction of a vault or tunnel in connection with its premises on East Twenty-fourth street, to the end that if the charge as to the alleged action of the Metropolitan Life Insurance Company be without foundation all prejudice against said company may be removed, and its application for authority to construct such tunnel be entitled to due and proper consideration.

We, the undersigned architects and builders of the building in course of construction for the Metropolitan Life Insurance Company, located on the north side of Twenty-fourth street, distant 150 feet east from Madison avenue, do hereby certify that no work has been done in connection with the construction of a proposed tunnel connecting the said property with the property of the Metropolitan Life Insurance Company, located on the south side of Twenty-fourth street, immediately opposite, and for which resolution granting permission to construct such tunnel has been introduced in the Board of Aldermen of The City of New York.

New York, June 29, 1904.

Metropolitan Life Insurance Company,
New York, June 29, 1904.

FRANK D. STURGES, Esq., No. 71 Wall Street, N. Y. City:

Dear Sir—I was greatly astonished to learn that a resolution was introduced yesterday in the Board of Aldermen which would indicate that there is an impression that we have started the work of constructing the tunnel connecting this building with the one we are building on the north side of Twenty-fourth street, and in connection with which you were kind enough to introduce for us a resolution in the Board of Aldermen granting permission to construct the same.

Permit me to assure you that there has been absolutely no work whatever done in the way of constructing this tunnel, not even any preliminary work other than the preparation of plans.

I cannot imagine what could give rise to such an impression, and assure you that under no circumstances would we undertake this construction without having permission from the municipal authorities.

I inclose a certificate signed by both our architects and builders certifying that no work has been done in the way of construction of the proposed tunnel.

I have not a copy of the resolution that was introduced in the Board on June 28, but if my understanding of it is correct, it would certainly put us in a false position. I trust you will present the facts as they are to his Honor the Mayor, and will be pleased to furnish you with any further certificates or affidavits that you might regard as desirable.

Assuring you of my appreciation of your attention to this matter, I beg to remain,

Respectfully yours,

F. H. ECKER, Manager, B. and M. D.

To the Police Commissioner, No. 300 Mulberry street, City:

Sir—I beg to acknowledge receipt of your letter of June 17, in reference to the raising of the hull of the "General Slocum."

I agree with you, that in order to recover any bodies that may be therein and to obtain any physical evidence which may throw light on the cause of the disaster, the hull of the "Slocum" should be raised without delay.

As the underwriters are unwilling to expend more than six thousand dollars for the work, and as you inform me it will cost twelve thousand dollars, I hereby authorize you to contract with the Merritt & Chapman Company to raise the hull at an expense not to exceed twelve thousand dollars, the work to be done as soon as possible, you to take entire direction of the work. I am,

Respectfully,

(Signed)

GEORGE B. McCLELLAN, Mayor.

To the President of the Board of Health of The City of New York:

Dear Sir—Acknowledging the receipt of a copy of minutes adopted by your Board as of this date, which reads as follows:

At a meeting of the Board of Health, held at the office of the Board on Saturday, June 18, 1904, the report of the Sanitary Superintendent was received, as follows:

"Board of Health of The City of New York:

"Gentlemen—I have the honor to report that I have this day visited the wreck of the steamboat 'General Slocum,' lying off Hunt's Point, in the Borough of The Bronx, and it is my opinion that, owing to the number of bodies of persons who are missing, bodies are retained in the water on account of the presence of the wreckage. I therefore recommend that action be taken forthwith to have the steamer 'General Slocum' raised in order that the conditions existing there may be ascertained and the bodies retained there may be released, as their presence is a menace to the public health.

"As it would seem that bodies are being detained in the water in and adjacent to the wreck of the steamboat 'General Slocum,' and this being a menace to the public health, it is therefore

"Resolved, That the Commissioner of Police be requested to co-operate with this Department, pursuant to chapter 310 of the Charter, and take all necessary steps immediately to raise the wreck of the steamboat 'General Slocum' and remove all bodies found in connection therewith.

"Yours respectfully,

"By order of the Board of Health.

(Signed)

By CHARLES F. ROBERTS, M. D., Secretary."

I beg to say that in carrying out the request of your Board, to raise the wreck of the steamboat "General Slocum" and to remove all bodies found in connection therewith, I have this day entered into the following contract with the Merritt & Chapman Derrick and Wrecking Company of this City, for that purpose, and that the work will commence immediately:

This agreement, signed in duplicate and made this 18th day of June, 1904, by and between William McAdoo, Police Commissioner of The City of New York, party of the first part, and the Merritt-Chapman Derrick and Wrecking Company, party of the second part;

Witnesseth: First—That the party of the first part, pursuant to authority vested in him by law and pursuant to the resolutions of the Board of Health, dated June 18, 1904, hereby agrees to pay to the party of the second part the sum of eleven thousand dollars.

Second—That for and in consideration of the promise of the party of the first part, the party of the second part hereby covenants, promises and agrees to raise and deliver at such point and in the manner prescribed by the party of the first part the hull, body and wreck of the excursion boat known as the "General Slocum," now lying in the waters adjacent to Hunt's Point, in The City of New York.

Third—That the party of the second part, for and in consideration of the promises of the party of the first part, further covenants, promises and agrees, if the wreck is in such condition as to render it practicable and not too dangerous to life, to stop, plug and render into such condition as to float the hull and wreck of the steamer "General Slocum."

Fourth—That the party of the second part, for and in consideration of the promises of the party of the first part further covenants, promises and agrees, while carrying on the work of preparation to raise the wreck and while working at raising the said wreck and hull, to maintain a vigilant and unceasing search for bodies in and around the same

and to employ proper divers for such purpose. This in addition to other employment to search for said bodies.

Fifth—That the party of the second part, for and in consideration of the promises of the party of the first part, further covenants, promises and agrees to deliver such bodies at the water's surface near said wreck to the Police on duty at that point.

Sixth—That the party of the second part, for and in consideration of the promises of the party of the first part, further covenants, promises and agrees to conduct the work of preparing to raise the said wreck and hull of the said steamer "General Slocum," subject at all times to the orders of the party of the first part, and also to aid in procuring such evidence as the District Attorney of the County of New York may request.

Seventh—That the party of the second part, for and in consideration of the promises of the party of the first part, further covenants, promises and agrees to allow the District Attorney or his duly accredited representative to have full ingress and egress to the wreck and hull of the steamer "General Slocum" for the purpose of obtaining evidence of any offence committed against the laws of the State of New York.

Eighth—That the party of the second part, for and in consideration of the promises of the party of the first part, further covenants, promises and agrees that his employees and agents in connection with the work of raising the hull and wreck of the said steamer "General Slocum" shall be strictly enjoined to hold no conversations in regard to the facts discovered, or the condition of the bodies recovered, or the circumstances discovered in and around the wreck of said steamer "General Slocum" with any one, except the District Attorney, his accredited representative, or with a member of the Police Department authorized to receive such information.

Ninth—That the party of the second part, for and in consideration of the promises of the party of the first part, further covenants, promises and agrees to commence the work provided for in above contract at once, and to pursue it with the greatest diligence until finished.

BOARD OF EXAMINERS.

JUNE 28, 1904.

Present—Messrs. Walter Cook, Warren A. Conover, William C. Smith, Charles G. Smith, Edward F. Croker, Charles Brendon and William J. Fryer (Chairman).

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Appeal No. 61—96 N. B., of 1904, premises West Eighth street, Thirty-first Ward, Coney Island. Messrs. Kirby, Petit & Green, architects.

Laid over at last meeting pending submission of plans.

Amendment filed June 28, 1904:

"The tower was constructed under section 82 of the Building Laws, which section leaves the matter of the construction of an observation tower entirely to the discretion of the Superintendent of Buildings.

"This tower has been built in a very much superior manner as to its strength, quality of materials and manner of construction, than the requirements of the law.

"It is now our desire to incorporate in the tower two elevators, to be used to gain access to an observation platform about 165 feet above the level of the sidewalk, and it is also intended to inclose the elevator shaft with fireproof material, heavy tin and asbestos.

"The observation floor is to be similarly treated.

"In addition to the fireproofing of the elevator shaft and the floor, it is proposed to equip it with a complete sprinkler system. This system is to be put in subject to the approval of the Board of Fire Underwriters.

"It is also agreed that the elevators shall not be put in operation until the said sprinkler system is installed and approved by the Board of Examiners.

"It is impossible at this time to file any plans with this amendment showing the layout of the sprinkler system, as the plans and specifications covering same have not yet been received by the architects from the company who is to install same.

"As soon as the plans are received by the architects they will be forwarded to the Board of Examiners."

Laid over, pending filing of plans by architects.—"As soon as the plans are received by the architects they will be forwarded to the Board of Examiners."

Appeal No. 78—2911 N. B., of 1904, premises, south side of Third street, 285 feet east of Third avenue, Brooklyn. George Haiss Manufacturing Company, appellant.

"Application denied on account of being a frame building within the fire limits.

"The Code makes no direct provisions for such structures, the nearest reference thereto being for grain elevators on tide water or adjacent to the river front.

"That the rules and regulations of the President of the Borough and the provisions of the law do not apply.

"That the provisions of the Code may be so modified as to allow the erection of this, practically one-story, heavily-timbered coal pocket.

"The location of this pocket is in a place wholly devoted to similar uses, and is isolated from any residences.

"That it is located in close proximity to Gowanus Canal, an artificial waterway, constructed for the sole purpose of commerce and manufacture, and that it is designed for the expeditious handling of the coarse and heavy freights, such as coal, lime, cement, brick, stone and lumber.

"That the construction of other than wood coal pockets is practically prohibitive, and this fact taken into consideration, that competition is sharp and keen from adjacent cities where there are no restrictions, and that coal is handled at a close margin, makes it important to grant this permit."

Mr. J. F. Swinnaton appeared before the Board.

On motion, appeal approved.

On motion, it was decided that the next meeting of the Board be held on Thursday, July 7, 1904.

Adjourned.

THOMAS F. DONOHUE, Clerk.

Winchester, Secretary, under seal, and "Map and Profile of the Amended Route of the New York, Westchester and Boston Railway Company, Section 2," adopted by the Board of Directors of said company on the seventh day of April, 1904, and signed by Wm. L. Bull, President; John Bogart, Engineer, and Thomas W. Baker, Secretary, under seal, and which maps and profiles were filed in the office of the County Clerk of the City and County of New York on the 23d day of June, 1904, or any lawful amendment thereof consented to by the Board of Estimate and Apportionment.

L. Bull, President; John Bogart, Engineer, and H. C. Winchester, Secretary, under seal, and which maps and profiles were filed in the office of the County Clerk of the City and County of New York on the 23d day of June, 1904, or any lawful amendment thereof consented to by the Board of Estimate and Apportionment.

Third—General: And such other streets, avenues, highways, public places, etc. (named and unnamed), as may be hereafter opened or encountered in such routes or amended routes; and also such other streets, avenues, highways, public places, etc. (named and unnamed), now open or in use, or as may be hereafter opened or put in use, which it may be necessary for said railway to cross in order to make connections with any other railway within one thousand (1,000) feet of said routes; provided that the Board of Estimate and Apportionment shall first have given permission for such connection or connections, and provided further that such connections shall be limited to two in number.

Sec. 2. The grant of this privilege is subject to the following conditions:

First—The provisions of section 6 of the Railroad Law shall be fully complied with, and in addition to the maps required to be filed with the Railroad Commissioners, it shall be incumbent upon the grantee to file with the Comptroller of The City of New York, and also with the President of the Borough of The Bronx, a map or maps showing the number of tracks and the length and direction of each crossing of all streets legally open, in use, or for which proceedings have been initiated to open, accurately determined by measurements to be taken after the commencement of the operation of any portion of the railway.

Second—The said right to cross the streets and the privilege to construct and operate said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years from the date when this ordinance is approved by the Mayor, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right and privilege. Such revaluation shall be of the right and privilege to maintain and operate said railway across the said streets by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successor or assigns.

If the railway company shall determine to exercise its privilege of renewal, it shall make application to the Board of Estimate and Apportionment of The City of New York, or any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the railway company and the Board of Estimate and Apportionment or such other authority in its place. If the railway company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding twenty-five years shall be reasonable; and either the City (by the Board, or such other authority in its place) or the railway company shall be bound upon request of the other to enter into a written agreement with such other authority fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successors in authority; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of the original term. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant, then the railway company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate.

Third—Upon the termination of this grant, whether original or renewal, all rights and privileges hereby granted to cross the said street shall cease and determine, unless the said railway com-

pany, its successor or assigns, shall have previously procured a new grant for the same from The City of New York.

Fourth—The New York, Westchester and Boston Railway Company, its successor or assigns, shall pay for this privilege to The City of New York the following sums of money: During the first ten years, commencing upon the day when this ordinance shall be approved by the Mayor, an annual sum of eight thousand (\$8,000) dollars, and during the succeeding fifteen years an annual sum of sixteen thousand (\$16,000) dollars. From the date of the commencement of the operation of any portion of the railway until the end of the first ten years of this grant, an additional sum of forty (40) cents per linear foot per annum for each line of single track railway within the lines of all streets in use, legally opened streets, or streets for which proceedings to open have been initiated, and for the succeeding fifteen years an additional sum of eighty (80) cents per linear foot per annum, in lieu of said sum of forty (40) cents. Such payments shall likewise apply to all streets hereafter opened during the terms of this grant, unless the land required for the opening of such street across the right of way of the railway company shall have been ceded free of cost to The City of New York. All such payments shall be made to the Comptroller of the City in equal payments at the end of each quarter year on the 1st day of January, April, July and October in each year. The terms hereafter to be fixed for any renewal term of this grant shall not in any event be less than the minimum amount fixed as the sum to be paid annually during the last year of the original grant, and no renewal of such grant shall provide for a further renewal.

Fifth—The said annual charge or payment shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for railway rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payment, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgage or other lien, but shall apply to any purchaser upon foreclosure or under or by virtue of any provision of a mortgage or lien.

Sixth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the New York, Westchester and Boston Railway Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Seventh—No street shall be crossed by the railway at grade, and all streets now open or in use, or streets hereafter opened crossing the line of said railway shall be carried over or under said railway by the grantee, at the sole cost and expense of the grantee. The costs of all approaches to said crossings and any damages to property incurred by such change of grade shall likewise be borne and paid by the grantee.

Eighth—All viaducts over streets and all tunnels under streets and all bridges necessary to carry the streets over an open cut, shall be constructed at the expense of the grantee, and in such manner as shall not interfere with the ordinary use of the street as a public highway. All viaducts over streets shall have a height of at least sixteen feet in the clear throughout, and in the case of arch construction not less than sixteen feet in the clear at the centre and ten feet in the clear on the building or side line of said street. In the case of tunnel construction under a street, there shall be at least four feet between the grade of the street and the exterior surface of the arch of said tunnel.

Ninth—Any superstructure of the railway crossing a street and having a length of seventy-five (75) feet or less, shall be constructed in a single span; if more than seventy-five (75) feet in length, intermediate columns to support the structure may be placed in the street in such manner as may be approved. The width of such superstructure of the railway shall not exceed sixty (60) feet when measured over all.

Tenth—The plans for all structures over or under any street must first be submitted to and approved by the Board of Estimate and Apportionment, and all such structures shall be constructed of either steel, concrete or masonry, or a combination of these materials.

Eleventh—The railway shall be constructed in the most modern and approved manner of railway construction. The roadbed shall be ballasted throughout its entire length within the limits of The City of New York, with a sufficient quantity of either blast furnace slag or broken trap rock of a hard and durable quality, and no dirt, sand, gravel or cinders shall be used in such ballast.

Twelfth—The roadbed within the limits of The City of New York shall be watered daily whenever the thermometer is above 35 degrees Fahrenheit. For any failure to comply herewith, the railway company shall be liable for a penalty of fifty dollars (\$50) per day.

Thirteenth—The entire right of way of the company within the City limits shall be fenced throughout.

Fourteenth—All abutments or foundations for bridges, viaducts and stations and the stations proper, except intermediate supports for viaducts, as hereinbefore provided, shall be placed on the land of the company. There shall be constructed along the line of the route of the main line of the railway as proposed, for the accommodation of local passenger traffic, at least six (6) stations between the Harlem river and the Bronx river, and at least four (4) stations between the Bronx river and the northern line of The City of New York as now fixed; provided, however, that if the railway is constructed only as far south as the intersection of the Southern Boulevard and Westchester avenue, then there shall be at least three (3) stations west of the Bronx river. On the branch line there shall be constructed at least three (3) stations east of Westchester avenue.

Fifteenth—The said railway may be operated by electrical power, except the overhead trolley system, or by any other mechanical motive power

which may be lawfully employed upon the same, except locomotive steam power; provided, however, that steam locomotive power may be used for switching and shunting trains when specifically authorized by the Board of Estimate and Apportionment; such permission to continue only during the pleasure of the said Board.

Sixteenth—No wires for the transmission of power shall be permitted except they be placed in conduits, and in any conduits laid by the company for the transmission of power for its own use, provision shall be made to carry three (3) cables for the use of the police, fire and ambulance service of the City without charge therefor.

Seventeenth—The railway company shall not carry power along its structure for any purpose except the operation of its railway, except as provided above.

Eighteenth—The railway company shall operate a train schedule on the main line of at least sixty (60) trains in either direction daily, stopping at all of the stations within the City limits, and at no time either day or night shall there be greater headway between such trains than thirty (30) minutes; provided, however, that said railway company during the first five years after the commencement of the operation of any portion of the railway shall not be required to operate its trains within the City limits between the hours of 1 o'clock and 4 o'clock A. M., each day, unless the Board of Estimate and Apportionment shall determine, after a hearing had thereon, that public convenience requires the operation of its cars during such hours.

Nineteenth—All cars on said railway shall be heated during the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and any failure to keep the temperature of any of the cars of the company above 50 degrees Fahrenheit, shall make the company liable for a penalty of fifty (50) dollars per car per day for each offense.

Twentieth—All cars operated by the company shall be vestibuled and the system of lighting same shall be adequate and be made satisfactory to the Board of Estimate and Apportionment.

Twenty-first—During the first twenty-five (25) years of this grant the rate of fare upon said railway within the limits of The City of New York as now fixed shall not exceed five (5) cents for any passenger. The said company shall not charge any passenger more than such sum for one continuous ride from any point on said railway or a line or branch operated in connection therewith and controlled by it, to any point thereof or of any such connecting line or branch thereof, within the limits of The City of New York, as such limits now exist, during such term.

At the expiration of twenty-five years the Board of Estimate and Apportionment shall be entitled, after due hearing and determination of the reasonableness thereof, to require for the term of the renewal of said grant that the fare for each passenger within the City limits, as they may then be constituted, shall not exceed five (5) cents.

The rates for the carrying of property upon the routes of the grantee within the limits of The City of New York shall in all cases be reasonable in amount and shall be subject to the control of the Board of Estimate and Apportionment, or its successor in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successor or assigns, and no greater sums shall be charged for such service than provided for by it.

Twenty-second—The said railway company shall carry free within the limits of The City of New York during the existence of this grant or its renewal, all letter carriers of the United States Government, and members of the Police and Fire Departments of The City of New York, when such employees are in full uniform.

Twenty-third—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of the City.

Sec. 3. In case of any violation or breach or failure to comply with any of the provisions herein contained this grant may be forfeited and avoided by The City of New York by a suit brought by the Corporation Counsel, provided, that in case of any such violation, breach or failure to comply with any of said provisions the said City shall cause notice in writing thereof to be served upon said company, and said company shall remedy such violation, breach or failure within ten (10) days thereafter, and in default thereof then, and not otherwise, said right of forfeiture shall accrue and may be enforced by the said City; provided, further, that if the said railway company, grantee hereunder, shall within said ten (10) days commence to remedy said violation, breach or failure and shall prosecute the work of completing such remedy with diligence and with the utmost practicable dispatch until the same shall be completed, then no right of forfeiture shall accrue.

Sec. 4. The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Sec. 5. Said railway company shall commence actual construction within one year from the date of the signing of this ordinance by the Mayor, and shall complete a four-track railway upon the main line, from the northern line of the City as far south as the intersection of the Southern Boulevard and Westchester avenue, within five years from such date, otherwise this grant shall cease and determine.

Said railway company shall expend the sum of at least one million dollars (\$1,000,000) for construction within the limits of The City of New York within two years from the date of the signing of this ordinance, which sum shall be exclusive of any moneys expended for right of way.

A statement of the moneys so expended for construction shall be submitted to the Comptroller of The City of New York, who shall, after investigation, report to the Board of Estimate and Apportionment his opinion as to whether such sums have been actually expended, and if in the opinion of the said Board the grantee has not proven an expenditure of the said sum within the time given, then said Board may declare that this grant has ceased and determined, and the said action of said Board shall be prima facie evidence of said forfeiture.

Any portion of the route covered by this grant which shall not be completed and in full operation within seven years from the date of the signing of this ordinance shall be deemed to have been abandoned, and all rights hereby granted in and to such portions of said railway shall cease and determine.

And in the event that the said railway company shall not, within the said seven years, construct its main line south of the intersection of the Southern Boulevard and Westchester avenue and to the Harlem river, the Board of Estimate and Apportionment, or its successors in office, may fix and finally determine such additional compensation as shall be imposed upon said railway company because of such failure.

A majority vote of the members of the Board of Estimate and Apportionment shall be prima facie evidence in regard to the forfeiture of any or all the rights under this grant, as provided for in this section. Before action is taken by the Board of Estimate and Apportionment, under the

provisions of this section, the grantee shall have at least thirty (30) days' notice of the intention of said Board to take action, and at such time as is appointed, shall be allowed a hearing. In case any or all of the rights hereby granted are forfeited, it is a condition of this grant that all sums theretofore paid to The City of New York, together with the deposit of \$20,000 as provided for in section 14 of this ordinance, and all structures erected by said grantee, its successor or assigns, within the lines of any street, shall be forfeited to and become the property of The City of New York.

The Board of Estimate and Apportionment shall have power to extend the time provided for in this section for the completion of the railway and for the work to be performed and expenditure to be made, as above, for a period or periods not exceeding in the aggregate two years, but such extension shall not be made unless the reasons given by the grantee for non-fulfillment are, in the opinion of the Board of Estimate and Apportionment, for causes over which the grantee had no control and was in nowise responsible.

Sec. 6. The grantee shall assume all liability by reason of the construction and operation of the railway and the City shall assume no liability whatsoever to either persons or property by reason of its construction or operation.

As a condition of this grant, the grantee, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the railway company, its successor or assigns.

Sec. 7. Any portion of the right of way of the said railway company falling within the lines of a street now shown on the map of The City of New York, which it may be necessary for the City to subsequently acquire, shall be ceded to the City, without cost to it, subject to the company's easement therein.

Sec. 8. In case the City shall acquire the land necessary for a street across the grantee's right of way and such land for the street is not ceded by the said grantee, then the railway company shall pay the same rates for the privilege of crossing said street as are provided for in paragraph fourth of section 2 of this ordinance.

Sec. 9. In case any of the streets as now shown on the map of The City of New York and crossed by the said railway above grade are altered or widened after the grantee has completed its railway, and such widening requires the alteration of the superstructure of the railway, the grantee and The City of New York shall each pay one-half of the cost of such alteration as may be necessary.

Sec. 10. In case the route as laid out shall make it necessary in the opinion of the Board of Estimate and Apportionment to change the map of The City of New York, in order to avoid unnecessary or undesirable crossings or for other reasons purely on account of the location of the railway, and by such change or alteration additional streets bounding the grantee's right of way are determined upon, then the grantee shall acquire such streets at its own expense.

Sec. 11. Any alterations which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the railway company, and in such manner as the proper City officials may prescribe.

Sec. 12. All construction of railway crossings shall be done in such manner as shall not substantially interfere with the ordinary use of any street as a public highway, and all streets in any way disturbed by such construction shall be restored to their original condition. In case of failure on the part of the grantee to restore such streets within a reasonable length of time, The City of New York shall have the right, under resolution of the Board of Estimate and Apportionment, to cause the work to be done and the materials to be furnished after due notice and shall collect the reasonable cost thereof from the fund herein provided.

Sec. 13. The company's property and structures shall not be used for advertising purposes in any way, under a penalty of fifty (50) dollars per day for each offense. Such restriction shall not apply to the interior of stations or cars.

Sec. 14. This grant is upon the express condition that the New York Westchester and Boston Railway Company, within thirty days after the said company has been duly authorized to operate its railway and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of twenty thousand dollars (\$20,000), either in money or in securities, to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the privilege and the penalties herein provided, and in case of default in the performance by said company of such terms and conditions, The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same, with interest, from such fund after ten days' notice in writing to the said company. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice in writing pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of twenty thousand dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 15. That if the said New York, Westchester and Boston Railway Company shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same, with interest, from such fund after ten days' notice in writing to the said company. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice in writing pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of twenty thousand dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 16. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York, within ten days after the adoption of this ordinance.

Sec. 17. This ordinance shall take effect immediately.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there
