

## Bicycle Crash Data - 2011

---

Local Law 13 of 2011 requires the NYC Department of Transportation (NYCDOT) to report on the total number of bicycle crashes, injuries, and fatalities that are reported to city agencies beginning October 1, 2011.

This document contains the number of reported crashes, disaggregated by borough and by police precinct, with injury (i.e. non-fatal injuries) and fatality totals, for the first reporting period of October 1, 2011 to December 31, 2011, involving only bicycles, between bicycles and motorized vehicles, and between bicycles and pedestrians. NYCDOT has further disaggregated crashes involving only bicycles to include crashes between bicycles and crashes involving a single bicycle.

The number of crashes between motor vehicles and bicycles is tabulated from police accident reports (MV-104 reports), and reported to NYCDOT by the NYC Police Department (NYPD). The number of crashes involving bicycles but not involving motor vehicles is tabulated from AIDED reports filed by NYPD in response to incidents that do not involve a motor vehicle.

For information on bicycle safety, see the [NYC Cycling Risk Indicator](#), which describes changes in cyclist safety over the past decade while accounting for the increase in bicycle use in New York City.

Reported Crashes Between Bicycles and Motor Vehicles  
 New York City by Precinct, 10/1/2011-12/31/2011
