## **DEFINITION OF TERMS**

**TAX YEAR** is the taxpayer's liability year to which payment is attributable, based on the form filed by the taxpayer. In reports where collections are disaggregated by tax year, the three most recent years are individually displayed, and all prior years are grouped within the PRIOR column.

**CURRENT TAX YEARS** refer to the three most recent tax years.

**FISCAL YEAR** is the City fiscal year (July through June) in which payment is received.

**AMOUNT** is the gross revenue collected; refunds are not subtracted. The amount collected includes audit revenue, with the exception of the reports entitled "current tax years only." The amounts on these reports include only collections for the three most recent tax years; collections for older tax years (usually audit monies) are excluded.

**TAX TYPE** is the type of tax to which the payment is attributable. Values are:

BANK- banking corporation tax

GCT - general corporation tax

UBTI - unincorporated business tax for individuals (proprietorships)

UBTP - unincorporated business tax for partnerships

The tax type is based upon the latest account information available at the time the report is run.

**FORM TYPE** is the general type of form accompanying the payment.

Declarations

Estimated Payments

Extensions

Annual Returns

Audits, Bills, Warrants, Notices

In order to correctly classify audit payments, large bill payments are individually checked to determine whether they are the result of an audit.

**DOCUMENT TYPE** is the specific document accompanying the payment.

**NUMBER % DIFF** is the difference between the current year's number of returns and the preceding year's number of returns, divided by the preceding year's number of returns, and multiplied by one hundred.

**AMOUNT % DIFF** is the difference between the current year's collections and the preceding year's collections, divided by the preceding year's collections, and multiplied by one hundred.

**INDUSTRY SECTOR** for GCT, UBTI, and UBTP is based upon the NAICS (North American Industry Classification System) code, as supplied by the taxpayer, for tax years 1998 and later. For tax years prior to 1998, industry sector is based upon the Principal Business Activity (PBA) code supplied by the taxpayer. For BANK, we report the bank type rather than the industry sector. For all tax types, large payments without codes are individually checked and classified, if possible. Classifications, for both current and previous-year transactions, are based upon the most accurate codes available at the time the report is run.
