REPORTS.

(G. O. 251.)

The Committee on Docks, to whom was referred the annexed petition of business men and residents in the vicinity of Leroy street, asking that the pier at the foot of that street be reserved for the uses of the public, and not let for the exclusive use of any person, company, or corporation, together with a resolution *requesting* the Department of Docks not to let the pier for the exclusive use of any person, respectfully

REPORT :

That your Committee have carefully investigated the statements contained in the petition, have weighed the question deliberately, and, while they deem it to be one not entirely free from embarrassment, are fully convinced it is in the power of your Honorable Body to provide a remedy for the inconvenience or injury suffered in the virtual exclusion of the petitioners from access to the water front of the city in their vicinity, and which will be rendered an actual exclusion if the pier at the foot of Leroy street is, as some assert to be the intention of the Dock Department, to be leased for the exclusive use and occupation of a steamship company.

All the wharves, piers, slips, and bulkheads, with some few exceptions, are the property of the Corporation of the City of New York, and under existing laws the corporation is authorized to acquire title to the entire water front of the city. The land under water, upon which they are built, at least for a distance of four hundred feet outwardly from low-water mark, and in some cases beyond that limit, is also the property of the said corporation.

Upon the proper and efficient management of this property depends, almost entirely, the prosperity of this city and its people. This fact has been recognized and admitted, and the greatest care should be exercised in controlling and regulating it, so that no one interest should suffer unnecessarily, and that no special privileges be accorded to any one interest or business, to the injury or detriment of any other. In the management of this property, on the North river front of the city, however this has been entirely lost sight of, and the piers from the Battery to West Tenth street, with the exception of the pier at the foot of Leroy street, have been leased for long terms of years to corporations, nearly all of them composed of foreigners, or the representatives of foreign capitalists, and no more interested in the growth, prosperity, or welfare of this city, than is to be expected from monopolists, whose only interest in our city or its people is measured by the percentage they can realize from them by their investments.

To afford this class of persons privileges and advantages denied our own residents and men in business, in the use of our wharves and piers, is certainly a very great wrong. The wrong is aggravated when, as is often the case, our own citizens suffer great detriment from this now too common practice. To permit or authorize any man or set of men, to inclose a pier with a shed, and to prevent free access to it by the public, by gates and other appliances, is no less an interference with the use of this corporate property than if like sheds and gates were placed over or across any other of the highways or public streets, in any other part of the city. A pier at the end of any street or highway forms, certainly, a part or portion of such highway, and all our citizens, and others, are, or should be, free to use it in common, subject, of course, to proper municipal or other control.

The Department of Docks has been entrusted by the State Legislature with the control of this corporate property, by the charter of 1873, and other special laws. The ownership, however, was never changed. That is yet, and must continue to be, vested in the corporation, unless taken from it by due process of law, and upon payment of full compensation. The Department of Docks is simply the agent of the owners, and controls this property according to the instructions it receives. The State Legislature has appointed this agency, it is true, without the application of the owners. Can this unsought agency deprive the actual owners of the power to instruct it in the management or direction of this property thus entrusted to its control? Your Committee cannot admit the affirmative of the proposition. The question has never been tested legally. The present may afford a favorable opportunity for doing so.

The petitioners set forth in their memorial to your Honorable Body, that the piers on the North river, south of Fourteenth street, "are leased for the exclusive use of the parties now using them—mainly steamship companies—to the great detriment and injury of your memorialists, and in violation, as your memorialists believe, of their rights as citizens of this city, equally with the rights of the entire community ; that your petitioners believe the piers should be as free to the public as are the streets, of which in most cases they form a part ; and in an especial manner do your petitioners beg leave to call the attention of your Honorable Body to the fact that by reason of the exclusive uses to which these piers are devoted, the local business formerly transacted on the North river side of the city, such as dealing in lumber, coal, building material, etc., etc., has been in many instances ruined, or driven forcibly to other locations, both within and without the city limits ; and that if the pier at the foot of Leroy street is not reserved for the uses of the few business men yet left in the vicinity, their business will be entirely destroyed ;" and investigation has convinced your Committee of the truth of the statement. In addition, as some of your Committee well know by xperience, the cost of many of the commodities that enter into the daily use of residents of that portion of the city has been greatly enhanced in price by reason of the distance of the resident from the source of supply. It cannot be otherwise ; local trade is destroyed by reason of the lack of facilities for its transaction, caused by the appropriation of all the piers on that part of the river front to private and exclusive use of the lessees, to the exclusion of all others.

Your Committee are fully aware that power to do this is claimed for the Department of Docks ; and in the absence of directions to the contrary from the Common Council the claim may be a valid one. Your Committee, however, fully believe this executive department does not possess this right, or power, where directions to do otherwise is given by the legislative power of the Corporation.

Section 1 of article 1 of chapter 335, Laws of 1873 (the Charter), provides that "the corporation now existing, and known as 'the Mayor, Aldermen and Commonalty of the City of New York,' shall continue to be a body politic and corporate, in fact and in name, by the same name, and have perpetual succession, with all the grants, powers and privileges heretofore held by the Mayor, Aldermen and Commonalty of the City of New York, and not modified or repealed by this act."

Section 2, article 2 of the same law vests all the legislative power of said corporation in the Board of Aldermen, now the Common Council of said city.

Sections 3 and 4, article 2, make provisions for the election of members of the Board of Aldermen, etc.

Section 5 provides, among other things, that "the Comptroller, the Commissioner of Public Works, the Corporation Counsel, and the President of each Department shall be entitled to seats in the Board of Aldermen, and to notice of its meetings, and shall have the right to participate in the discussions of the Board, but in no wise shall be considered as members, and shall not have the right to vote in the Board."

If the right thus given to the heads of departments to meet with the Common Council and participate in the discussions in that body was exercised as intended, much misunderstanding and misconception of the relative powers and duties of each could, and doubtless would, be avoided, and by a mutual interchange of views and opinions all clashing of power and rivalry of interests or duties be prevented. The wise intentions of the law to secure co-operation and agreement between the Legislative and Executive branches of the city government are rendered nugatory by the failure of the executive officers named to attend the meetings of the Common Council, and its members are left no other alternative in the performance of their duties, or what they conceive to be their duties, than to act without the valuable advice and aid of these experienced public officers. In discussing any question relating to the water front of the city, who more qualified to advise the Common Council or control its action than the President of the Dock Department? the Public Works of the city, than the Commissioner of Public Works? legal questions, and questions relating to the finances of the city, than the Counsel to the Corporation, and the Comptroller? and so on, for the remaining Executive Departments. The failure of the executive officers to attend the meetings of the Common Council, and participate in its discussions, cannot be charged upon the members of this body, as seats have been provided, in the chamber, for the accommodation of those officers. Yet in years, not one of these executive officers has attended, officially, a meeting of the legislative branch of the city government. Their right to meet and deliberate with the members of the Common Council is a privilege never, before the passage of the Charter of 1873, accorded to subordinate officers. Denying them the right to vote determines also, beyond question, who alone are responsible for the management of the affairs of the municipality, and fixes that responsibility upon those elected by the people to administer their government, viz. : the members elected to represent them in the Common Council.

If the active co-operation of these officers is thus denied the representatives of the people then they have no alternative but to act for themselves, and in the manner they deem most conducive to the welfare of their constitutents.

While your Committee are averse to any unwarranted interference with the perogatives or powers of any of the executive departments, yet they are constrained, in the case under consideration, to interpose in favor of the petitioners. Any action that will tend to a conflict of authority, between the Legislative power of the Corporation and any of the executive departments of the city government, is greatly to be deprecated and, under ordinary circumstances, to be avoided. The case under consideration, however, is an exception to the general rule. The petitioners, as residents and taxpayers of this city, have rights that are likely to be invaded, to the detriment, if not destruction, of their business. It is the imperative duty of the corporate authorities to prevent this, particularly when, in so doing, the property or business of others will not be injuriously affected.

The following resolution is therefore respectfully offered for your adoption, in lieu of the resolution referred to your Committee :

Resolved, That the Commissioners of the Department of Docks be and they are hereby directed not to lease the pier at the foot of Leroy street for the exclusive use of any individual, company, or corporation, or permit it to be inclosed with a railing or gates, or covered with a shed, but that it be retained by the Department or leased as a public pier, to be accessible to all who may desire to use it for business purposes, upon payment of the regular rates of wharfage.

COMMUNICATIONS FROM THE DEPARTMENTS AND CORPORATION OFFICERS.

The President laid before the Board the following communication from the Department of Finance:

CITY OF NEW YORK—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE, June 25, 1881.

To the Honorable the Board of Aldermen:

Weekly statement, showing the appropriations made under the authority contained in section 112, chapter 335, Laws of 1873, for carrying on the Common Council from January 1 to December 31, 1881, both days inclusive, and of the payments made up to and including the date hereof, for and on account of each appropriation.

Title of Appropriations.	Am't of Appropriations.	Payments.
City Contingencies	$1,000 00	$673 53
Contingencies—Clerk of the Common Council	250 00	17 50
Salaries—Common Council	63,000 00	25,635 90

RICHARD A. STORRS, Deputy Comptroller.

Which was ordered on file.

The President laid before the Board the following communication from the Department of Public Works:

DEPARTMENT OF PUBLIC WORKS, COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET, NEW YORK, June 28, 1881.

To the Honorable the Board of Aldermen:

GENTLEMEN—In answer to your resolution, approved on the 10th instant, requesting me to inform you "what amount of the appropriation for the present year for laying Croton-water pipes is yet unexpended or available for the remainder of the year 1881," I respectfully report as follows:

The appropriation for laying Croton pipes for 1881, is		$235,000 00
The amount of requisitions drawn upon the Comptroller against the appropriation to June 25, 1881, is	$14,253 85	
Liabilities against the appropriation on account of existing contracts, etc...	52,848 00	
		67,101 85
Leaving an unexpended balance of		$167,898 15

It cannot be said, however, that this balance is available for the remainder of the year in the sense in which I consider your inquiry to be made.

A large number of resolutions have recently been adopted by your Board and approved by the Mayor, authorizing and directing the extension of water-pipes to new streets, which resolutions are not yet executed; the estimated cost of the whole work being $90,000.

The Fire Department has also made requisition upon this Department for placing additional fire-hydrants in various parts of the city, involving an estimated cost of $29,000.

And the Fire Department further makes requisition for the substitution of large mains in place of existing mains, to facilitate the extinguishment of fires, involving an estimated cost of $176,000.

There is an unprecedented demand for the extension of the water-service in the upper part of the city, and unless this demand is satisfied to a reasonable extent, the growth of the city will be retarded. There is also an urgent necessity for larger mains to facilitate the extinguishment of fires in those districts where the character of the buildings has been changed from dwellings of moderate size to immense stores, warehouses, and factories. The question of a proper apportionment of the appropriation for laying pipes among these different requirements made upon it becomes a matter for very serious consideration.

As a matter of fact, however, the appropriation for 1881 is more than absorbed by the expenditures and liabilities already incurred, by your resolutions directing the laying of additional pipes, and by the calls of the Fire Department for larger pipes and for additional hydrants.

Very respectfully,
HUBERT O. THOMPSON, Commissioner of Public Works.

Which was ordered to be printed in full in the CITY RECORD.

The President laid before the Board the following communication from the Department of Public Works:

DEPARTMENT OF PUBLIC WORKS, COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET, NEW YORK, June 28, 1881.

To the Honorable the Board of Aldermen:

GENTLEMEN—I have received your resolution of 22d instant, approved by the Mayor on the 24th instant, requesting me to furnish your Board, at its next meeting, the following information in reference to the placing and use of water-meters in this city:

1st. By what authority the Worthington Water Meter Company monopolizes the right of placing water-meters in buildings in this city.

2d. What number of meters were in use on June 1, 1881, and the prices charged for them.

3d. The number of meters placed in buildings by the Department of Public Works, and the number placed in buildings by the Meter Company.

4th. If the Worthington Water Meter is patented, and if so, whether the following provisions of law contained in section 115, of the charter of 1873, has been complied with, viz.:

"No patented article shall be advertised for, contracted for, or purchased (by the City), except under such circumstances that there can be a fair and reasonable opportunity for competition, the conditions to secure which shall be prescribed by the Board of Estimate and Apportionment."

I respectfully submit the following answers to these questions in the order in which they are made in your resolution:

First—The provision of law under which water meters are placed on buildings in this city is contained in section 73 of the charter of 1873, as follows:

"The Commissioner of Public Works is hereby authorized, in his discretion, to cause water meters, the pattern and price of which shall be approved by the Mayor, Comptroller, and Chief Engineer of the Croton aqueduct, to be placed in all work-shops, hotels, manufactories, public edifices, at wharves, ferry-houses, stables, and in all places in which water is furnished for business consumption by the Department of Public Works, except private dwellings, so that all water furnished therein or thereat may be measured and known by the said Department, and for the purpose of ascertaining the ratable portion which consumers of water should pay for the water therein or thereat received and used. Thereafter, as shall be determined by the Commissioner of Public Works, the said Department shall make out all bills and charges for water furnished by them to each and every consumer as aforesaid, to whose consumption a meter as aforesaid is affixed, in ratable proportion to the water consumed as ascertained by the meter on his or her premises or places occupied or used as aforesaid. All expenses of meters, their connections and setting, water rates and other lawful charges for the supply of Croton water, shall be a lien upon the premises where such water is supplied as now provided by law."

In pursuance of this law the Mayor, the Comptroller, and the Chief Engineer of the Croton Aqueduct met on the 16th day of October, 1876, and approved the "Worthington Water Meter" at the following prices, which were the market prices for said meter at that time:

For a ⅝ inch meter	$27 00
For a one inch meter	48 00
For a 1½ inch meter	63 50
For a 2 inch meter	79 00
For a 3 inch meter	155 00
For a 4 inch meter	475 00

In pursuance of this action the "Worthington Water Meter" is the only meter that can be used.

Second—The number and sizes of meters now in use is as follows:

Placed prior to the approval of the "Worthington Water Meter" by the Mayor, Comptroller and Chief Engineer of the Croton Aqueduct, October 16, 1876.

6 ⅝ inch meters.
135 1 inch meters.
3 1½ inch meters.
78 2 inch meters.
34 3 inch meters.
6 4 inch meters.
Total to October 16, 1876, 262 meters.

Placed from October 16, 1876, to December 11, 1880.

21 ⅝ inch meters.
1,525 ¾ inch "
1,288 1 inch "
472 1½ inch "
260 2 inch "
113 3 inch "
60 4 inch "
Total from October 16, 1876, to December 11, 1880, 3,739 meters.

Placed from December 11, 1880, to June 1, 1881.

5 ⅝ inch meters.
261 ¾ inch "
143 1 inch "
99 1½ inch "
44 2 inch "
10 3 inch "
2 4 inch "
Total from December 11, 1880, to June 1, 1881, 564 meters.
Total number now in use, 4,565 meters.

As to prices charged for the meters, I have above stated the prices at which the "Worthington Water Meter" was approved, being the market prices at that time. Since that time the market or schedule price of these meters has been slightly reduced. A discount of thirty per cent. on the schedule prices is allowed, thus reducing the cost of meters to the persons required to use them, whether they are placed by themselves or by the Department, as follows:

	1877.	1878.	1879.	1880.	1881.
For ⅝ inch meter	$17.25	$17.25	$16.10	$16.10	$16.10
For 1 inch "	34.00	31.20	31.50	31.50	31.50
For 1½ inch "	.....	.....	42.00	42.00	42.00
For 2 inch "	.....	55.50	52.50	52.50	52.50
For 3 inch "	.....	.....	105.00	105.00	105.00
For 4 inch "	358.75	295.00	297.50	297.50	297.50

Third—As to the number of water-meters placed in buildings by the Department of Public Works, and the number placed by the Meter Company—

No meters are placed in buildings by a "Meter Company," or by the manufacturer of the Worthington water-meter. When the Commissioner of Public Works finds it necessary that a water-meter be placed in a certain building, the owner or occupant, or both, are notified as per inclosed form of notice to place the meter within thirty days.

In order to give every opportunity to parties to purchase and place meters themselves, some additional time is frequently allowed after the expiration of the thirty days before the Department proceeds to purchase and place the meters, and in a majority of cases the notices are complied with, as shown by the fact that of the 4,565 meters in use on the 1st of June, 1881, 3,261 were placed by owners or occupants of buildings, and 1,304 by the Department.

Fourth—The Worthington water-meter is not now a patented article. The former patent upon it expired in November, 1876, before any meters were placed in pursuance of the authority above mentioned. The question of a compliance with the provisions of section 115 of the Charter in reference to the purchase and use of patented articles does not, therefore, enter into this subject.

In conclusion, I deem it proper to say that in the present condition of our water supply the compulsory use of water meters on certain classes of buildings, while generally unpopular, is an absolute necessity. A superabundance of supply and pressure of water in past years has produced habits of waste with consumers which can no longer be indulged without depriving a large part of the population of the necessary supply, and which can only be suppressed or limited by the use of meters. For many years past we have been receiving in the City all the water which the Croton Aqueduct can carry, and until additional conduits are completed we cannot receive more. In the meantime the supply must be so husbanded as to maintain an equitable distribution to the rapidly increasing population.

Very respectfully,
HUBERT O. THOMPSON, Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, ROOM 19, CITY HALL,
NEW YORK, 1880.

.....

Under the provisions of section 73, chapter 335, Laws of 1873 (City Charter), authorizing the Commissioner of Public Works to cause water-meters to be placed "in all stores, work-shops, hotels, "manufactories, public edifices, at wharves, ferry-houses, stables, and in all places where water is "furnished for business consumption, except private dwellings," you are hereby required, within thirty days from the receipt or service of this notice, to place a Worthington Water Meter (which is the meter approved in accordance with said section 73 of the charter), on the pipe supplying your premises with water, and thereafter to pay for water consumed according to measurement. In case of refusal or neglect to place the meter as herein required, it will be placed by the Department of Public Works, and the expense charged to you; and refusal or neglect to pay the water rates according to measurement will be followed by immediate stoppage of the supply.

Your attention is respectfully directed to the accompanying rules and regulations.

Very respectfully,
Commissioner of Public Works.

RULES AND REGULATIONS.

All meters, before being placed, must be sent, with a memorandum of the owner's or purchaser's name, residence and place of business, to the Department Pipe Yard, Twenty-fourth street and East river, to be tested. They will be returned within forty-eight hours, upon the written order of the owner, giving the name of the plumber who is to receive and set the meter.

Consumers are required to keep their meters in repair and protect them from frost and injury of any kind, at their own expense.

All meters are to be placed under the supervision and to the satisfaction of the Commissioner of Public Works, or such person as he may designate, so that they can be easily examined and read.

Between each meter and the Croton-main, a stop-cock must be placed on the service pipe, within one foot of the meter, and no water from Croton mains shall be introduced or used on premises to be supplied by meter, except that which passes through the meter.

No meter shall be set within two feet of any sink, privy, cesspool, manure heap or pit.

Licensed plumbers, of this city, and employees of the Department of Public Works, are the only persons authorized to make connections with water mains, and to set or remove meters.

No meter shall be removed or repaired, except upon a permit from the Department of Public Works; and whenever a meter is removed for any cause, the Commissioner of Public Works will require another to be put in its place.

In case of violation of any of the preceding requirements and regulations, or if free access to the meters for examination or repair shall at any time be denied to the engineer or such person or persons as the Commissioner of Public Works may employ for that purpose, or if upon examination it shall be found that the meter has been tampered with, the water supply shall be stopped, unless the party shall promptly pay such additional charge as the Commissioner of Public Works may impose; nor will the supply be resumed except upon payment of the expense of shutting off and turning on, and upon satisfactory understanding that no future cause of complaint shall arise.

It is provided by section 73, chapter 335, Laws of 1873, that "all expenses of meters, their connections and setting, water rates and other lawful charges for the supply of Croton water, shall be a lien upon the premises where such water is supplied as now provided by law." * * *

A proper reduction will be made for water rates already paid for the fiscal year, when bills for water furnished through meters are made out.

Bills for all expenses or charges in connection with meters, and for water furnished through them, and permits required therefor, and all information in reference thereto, can be obtained at the office of the Chief Engineer, Room 11½, City Hall.

All payments for use of water, for meters, setting, etc., must be made at the office of the Water Register, Room 10, City Hall, and no person is authorized to receive money at any other place.

ALLAN CAMPBELL, Commissioner of Public Works.

MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

MAYOR'S OFFICE, NEW YORK, June 27, 1881.

To the Honorable the Board of Aldermen:

I return, without my approval, the resolution of the Board of Aldermen, adopted June 21, 1881, giving permission to Owen McMahon to retain a barber-pole in front of No. 100 West Thirtieth street.

This pole, at the junction of Thirtieth street and Sixth avenue, would greatly obstruct a crowded locality.

W. R. GRACE, Mayor.

Resolved, That permission be and the same is hereby given to Owen McMahon to retain the barber-pole now in front of No. 100 West Thirtieth street; such permission to continue only during the pleasure of the Common Council.

Which was laid on the table, ordered to be printed in the minutes and published in full in the CITY RECORD.

I return, without my approval, the resolution of the Board of Aldermen, adopted June 21, 1881, giving permission to Patrick McKenna to place an awning curtain in front of premises on the southeast corner of Varick and Charlton streets, for the reason that a neighbor objects to the proposed awning curtain.

W. R. GRACE, Mayor.

Resolved, That permission be and is hereby granted to Patrick McKenna to place an awning curtain in front of his premises, on the southeast corner of Varick and Charlton streets.

Which was laid on the table, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

To the Honorable the Board of Aldermen:

I return, without my approval, the resolution of the Board of Aldermen, adopted June 14, 1881, giving permission to Augustino Batano to keep a stand in front of 91 Duane street.

A stand on the curb in Duane street would be an objectionable obstruction, and the one proposed is not sufficiently described in the resolution to enable it to be determined whether it should be an exception to the general rule.

W. R. GRACE, Mayor.

Resolved, That permission be and the same is hereby given to Augustino Batano to place and keep a stand in front of No. 91 Duane street, the consent of the occupants of said premises having been received and is hereto annexed; such permission to continue only during the pleasure of the Common Council.

Which was laid on the table, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

MAYOR'S OFFICE, NEW YORK, June 27, 1881.

To the Honorable the Board of Aldermen:

I return, without my approval, the resolution of the Board of Aldermen, adopted June 21, 1881, giving permission to Daniel Smith to place a sign across the sidewalk in front of No. 608 Grand street; also a resolution adopted June 21, 1881, giving permission to Edward Sweeney to place a sign across the sidewalk in front of No. 159 East Thirty-fifth street.

No reason appears why either of these cases should be an exception to the general rule that signs across sidewalks are objectionable and dangerous.

W. R. GRACE, Mayor.

Resolved, That permission be and the same is hereby given to Daniel Smith to place and keep a sign across the sidewalk in front of No. 608 Grand street, the work done at his own expense; such permission to continue only during the pleasure of the Common Council.

Resolved, That permission be and the same is hereby given to Edward Sweeney to place and keep sign across the sidewalk in front of No. 159 East Thirty-fifth street, the work done at his own expense; such permission to continue only during the pleasure of the Common Council.

Bailey to retain a news-stand at the southwest corner of Sixth avenue and Twenty-third street. The occupant of the premises in front of which it is proposed to place the stand strongly objects to its erection.

W. R. GRACE, Mayor.

Resolved, That permission be and the same is hereby given to J. Bailey to place and retain a news-stand at the southwest corner of Sixth avenue and Twenty-third street, the consent of the owner of the property having been received; such permission to continue only during the pleasure of the Common Council.

MAYOR'S OFFICE, NEW YORK, June 25, 1881.

To the Honorable the Board of Aldermen:

I return, without my approval, the resolution of the Board of Aldermen, adopted June 14, 1881, giving permission to Mathias Schneider to place a barber-pole in front of No. 396 Sixth avenue.

This pole is to be placed on the curb, and would be an objectionable obstruction in Sixth avenue.

W. R. GRACE, Mayor.

Resolved, That permission be and the same is hereby given to Mathias Schneider to place and keep a barber-pole, not to exceed six inches in diameter nor ten feet in height, in front of his place of business, No. 396 Sixth avenue, the work to be done at his own expense, under the direction of the Commissioner of Public Works; such permission to continue only during the pleasure of the Common Council.

Which was laid on the table, ordered to be printed in the minutes and published in full in the CITY RECORD.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect, that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise: and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the national banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept to contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same respectively, at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, issued on the completion of the contract, or from time to time as the Commssioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates if deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

This price is to cover the expenses of furnishing all the necessary materials and labor and the performance of all the work set forth in the approved form of contract and the specifications therein contained.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and re-let, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state that fact; also that the estimate is made without any connection with any other person making an estimate for the same purpose, and it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, *with their respective places of business or residence*, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation any difference between the sum to which said person or persons would be entitled on its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, *and over and above his liabilities as bail, surety, and otherwise;* and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if deemed for the interest of the Corporation.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

All the old material taken from said piers, and necessarily from the bulkheads from which they spring, to be removed under this contract, will be relinquished to the contractor, and bidders must estimate the value of such material when considering the price for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of contract and the specifications therein set forth, by which prices the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, *with their respective places of business or residence*, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York, any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done in each class, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, *and over and above his liabilities as bail, surety and otherwise;* and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the National Banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if deemed for the interest of the Corporation of the City of New York.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

The nature and extent of the work to be done, as near as it can be stated, is as follows; The building of a Station-house, Lodging-house, and Prison on the lot belonging to the Corporation of the City of New York, on the west side of Elizabeth street, 100 feet south of Canal street, New York City, to consist of two buildings, one 50 feet by 62 feet 4 inches, of brick, with granite and marble trimmings, four stories and basement high, and covered with a flat roof and galvanized iron cornice, and the other 50 feet by 21 feet 8 inches, of brick, blue stone, and iron, two stories and basement high, and covered with a flat tin roof.

All the old buildings, walls, and other materials now on the lot are to be removed by the Contractor, and shall be his property. And bidders, in making their estimates, will consider the value of such materials.

For further particulars reference must be made to the plans and specifications on file in the office of the Chief Clerk of the Department.

Bidders will state in writing, and also in figures, a price for the buildings complete. The price is to cover the furnishing of all the materials and labor and the performance of all the work called for by the specifications, plans, drawings, and form of agreement.

No estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The entire work is to be completed within nine months from the date of the contract. The person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal sum of twenty thousand dollars.

Each estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect, that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting: the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, and herein stated, over and above all his debts of every nature, and over and above his liabilities as bail, surety, and otherwise; and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The same rate of interest shall be so charged and collected upon any tax levied in the year eighteen hundred and eighty, remaining unpaid at the date of the passage of this act.

Section 3. All existing provisions of law which impose a charge and require the collection of interest at the rate of twelve per centum per annum upon arrears of taxes on real and personal estate within the City of New York, upon arrears of assessments for local improvements and street openings in said city, and upon arrears of Croton water rents in said city, are hereby repealed; and in lieu of such charge of interest at the rate of twelve per centum per annum, there shall be charged and collected by the officer authorized to collect and receive any such arrears of taxes and assessments and Croton water rents, interest upon the amount thereof at the rate of seven per centum per annum, to be calculated for the same period as interest at the rate of twelve per centum per annum is now required by law to be calculated thereon. This provision shall apply to taxes, assessments, or Croton water rents remaining unpaid and due, for the non-payment of which the lands and tenements liable therefor shall be hereafter sold at public auction as now provided by law; provided, however, that nothing in this act shall be construed to affect the rights of purchasers at sales for taxes, assessments, or Croton water rents, heretofore made, or to authorize the redemption of lands and tenements from sales heretofore made for any lesser sums than the sums collectible for such redemption under the provisions of existing laws.

Section 4. It shall be the duty of the Comptroller of the City of New York to give public notice, by advertisement, for at least ten days, in the CITY RECORD, printed and published in said city, immediately after the confirmation of any assessment for a local improvement or street opening in said city, that the same has been confirmed specifying the title of such assessment and the date of its confirmation by the Board of Revision and Correction of Assessments in proceedings for local improvements, and by the Supreme Court in proceedings for street openings, and also the date of entry in the record of titles of assessments kept in the Bureau for the Collection of Assessments, and of Arrears of Taxes and Assessments, and of Croton water rents, notifying all persons, owners of property affected by any such assessment, that, unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of any such assessment, interest shall thereafter be collected thereon as provided in the following section of this act, and all provisions of law or ordinance requiring any other or different notice of assessments and interest thereon are hereby repealed.

Section 5. If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said record of titles of assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment, to charge, collect, and receive legal interest thereon, at the rate of seven per centum per annum, to be calculated from the date of such entry to the date of payment.

Section 6. This act shall take effect immediately.
