## DEPARTMENT OF PARKS.

Report for Quarter ending June 30, 1904.

### BOROUGH OF THE BRONX.

July 1, 1904.

Hon. GEORGE B. McCLELLAN, Mayor:

Sir—I have the honor to transmit herewith quarterly report of the designs for improvement, work accomplished and finances of the Department of Parks, Borough of The Bronx, for the three months ending June 30, 1904.

Respectfully,

WILLIAM P. SCHMITT,  
Commissioner of Parks, Borough of The Bronx.

#### Bronx Park.

On the bridge over the Bronx river, at the crossing of the Bronx and Pelham parkway, the concrete abutments, up to the height of the coping, have been finished. The lower ring of the arch on both sides is completed, and the centre is nearly ready for the iron ribs.

The bridle path, 16 feet wide, leading from the Bronx and Pelham parkway to a point near the old mansion, has been completed, and is now in use.

The following general work has been performed: Cleaning and storing winter machinery and removing it from mansion to new barn, filling in washouts, repairing roads, edging and grading paths, raking and mowing lawns, raking leaves in woods, cutting down dead trees, cultivating shrubbery, cleaning and repairing gutters, building wall around lily pond, digging ditches, sodding and making blind ditches, building wall and stopping leaks in big lake, marking and repairing tennis courts, cutting wood, hauling and loading trees for greenhouses and nursery, planting flowers and shrubs, pruning shrubs and trees, and keeping the roads and lawns clean.

#### Bronx Park Shops.

Work was done in and for the various parks as follows:

Constructing of shed, boat-house, stalls, fences and back-stops for base ball, preparing of posts for rifle range, completing of mason work at Tremper House, and forging of all iron-work. Erecting of emergency tents, rustic easels for signs, gates, stairways, temporary grand stands, and a new fountain on the parade ground in Pelham Bay Park; painting of Tremper House, bath-houses, music stands, sprinklers, surgeons' tables and cupboards, signs and benches; repairing of music stands, surgeons' tables, stables, comfort stations, fountains, sprinklers, carriages and wagons, and laying of pipe-lines.

#### Botanical Garden.

At the entrance to the Botanical Garden from Mosholu parkway the abutments are under construction, three abutments having been completed, and the work is progressing satisfactorily.

The work on the two large and four small flights of steps, and two concrete-steel tanks, in the Botanical Garden, is progressing satisfactorily, and will be finished in a short time.

Work on the bridge over the Bronx river, near Newell avenue, has been completed, and final payment has been rendered.

Two comfort stations and tool house near the elevated station entrance to the Botanical Garden have been completed.

Work on the five-arch stone bridge, just north of the Blue Bridge, is progressing satisfactorily. With one exception, the abutments have been completed.

Work on the plant house is rapidly approaching completion.

#### Zoological Park.

On the ostrich and small mammal house, most of the plumbing and heating pipes are in place, and a large part of the plastering has been finished.

The bird house has been completed up to the height of the roof; the iron trusses are in place; the concrete floors are completed, and the rough plumbing work is finished. Work on the iron fence around the seal pool is progressing satisfactorily.

#### Bronx and Pelham Parkway.

The bridge over the tracks of the New York, New Haven and Hartford Railroad has been completed, and final payment rendered.

The parkway has been covered with trap-rock screenings from White Plains road to Eastern Boulevard—a distance of two miles.

#### Pelham Bay Park.

The athletic grounds are nearly completed.

A fine boat-house has been erected, and is nearly completed.

A music pavilion, a shed connected with the Hunter House and a new summer house have been built in the park, and are now in use.

In connection with the laying out of the new athletic grounds, a quarter-mile running track was constructed; abutments 15 feet high for rifle range were built, and 175 cedar posts prepared and placed in position.

Trenches have been dug and water-pipe laid for fountains; roads repaired; lawns repaired and leveled; fields near Morris place plowed, harrowed and planted; ponds drained, cleaned and repaired; parade ground rolled, and grass and weeds cut on 60 acres; also ground prepared for addition to golf links.

#### Melrose Park.

The iron fence along three sides of this park has been completed, and final payment has been rendered.

#### Crotona Parkway.

The work of grading, paving and regulating this parkway is progressing favorably. Much of the curb has been laid; also most of the telford, and many of the road basins.

#### Mosholu Parkway.

On the bridges over the railroad tracks and Webster avenue, one of the abutments at the railroad, and one at Webster avenue, have been completed; and one abutment at the north side of Webster avenue has been started. The work is progressing satisfactorily. Work on the remainder of the improvement of this parkway is also progressing favorably.

#### McComb's Dam Park.

The filling in of the lowlands in this park is progressing very slowly, owing to a lack of money with which to complete the work. The regular work of marking and repairing tennis and baseball grounds, cultivating trees and shrubs, mowing grass, cleaning walks and paths, sodding and seeding banks, etc., has been carried on. 150 feet of wire fence and 100 feet of drain have been built.

#### Van Cortlandt Park.

The building of the road connecting with Yonkers has been delayed on account of the lack of available funds.

The work of constructing the alterations to the Tremper House is progressing satisfactorily, and will be completed within a very short time.

The new boat house is also under course of construction. Three-fourths of the foundation walls have been laid and the wall plates have been put on. About one-half the number of canoes on contract have been delivered and are now in use; they are proving immensely popular.

Golf house and comfort stations have been cared for; golf links kept in repair; gutters and roads repaired and kept in good condition; about 3,000 feet of trench for water pipe opened and filled in; sewers on polo field and at skate house repaired; baseball diamonds marked out; 3,600 feet of sod cut and laid on parade ground; 10,000 feet of lawn graded and sown with grass seed, and new tennis court laid out; also hospital tent cared for.

A letter was presented from Examiner Conway, with reference to the way in which the "efficiency records" of employees were being kept in the Department of Street Cleaning. Examiner Conway further stated that the new system is to be put in operation at once for the clerical force, but recommended that so far as it applies to the uniformed force, the system used at present be continued, and that the Examining Board prepare a rating schedule for such force on the lines followed in regard to the Police and Fire Departments.

Will these lists operate to prevent a transfer of a Laborer or Foreman from one department to another?

Will a list for Foreman prevent the transfer of a Laborer to the position of Assistant Foreman?

If a Laborer has been removed for cause and the dismissal has been reviewed by the same appointing officer, within what period of time shall the appointing officer be allowed to rescind his action where a preferred eligible list exists for the position of Laborer?

On motion, the matter was laid over.

The Committee on Procedure and Charter Amendments presented the following report:

"Your Committee, to which was referred proposed amendment (a) of the Charter provisions under which the Commission acts, and (b) of law or procedure so as to establish by rule the actual practice of successive Mayors in referring to the Commission matters left to the Mayor's discretion, submits this its report:

"As to amendment of the Charter, your Committee has considered not merely Commissioner Marshall's suggestion, specially referred to it, but the whole subject; and though noting respects in which the act might probably have been originally bettered, and others which the Commission's experience suggests, recommends:

"That the subject of Charter amendment be not now taken up by the Commission, but postponed at least until after the new year.

"As to the other branch of the reference to it, your Committee finds: As suggested by Mayor Low, approved by his successor, Mayor McClellan, and in accord with the practice of both, it has been assumed that the Commission would be regularly called upon to act upon the more important classes of matters, as to which the Mayor was given discretion by the act. As they approached the stage at which reference would be most naturally had, the Mayor has been advised of the pendency of such public works as from former references it might be expected would be submitted to the Commission, until the Mayor's action has so far settled precedent that (except as to some minimum of importance below which such reference may ordinarily not be expected) the class of those to be submitted is fairly well defined.

"In practice, however, conditions are such that only good fortune, the vigilance of our Assistant Secretary and the constant tact of the Mayor have avoided serious complications and inconsistency—which would be ruinous to the usefulness of the Commission and proper respect for its function by officials, designers and contractors.

"A working routine should obviously be devised as soon as practicable. Your Committee believes that sufficient precedent has already been established to form a basis for such a routine, and that it would facilitate the Commission's work and usefulness if a comparatively simple one were now adopted—to be later developed, as experience may suggest.

"The importance of the subject may be suggested by the last list transmitted to the Mayor:

"1. Plans for redecoration of Governor's Room.....	\$15,000 00
"2. Three public baths, Brooklyn.....	345,000 00
"3. Four public baths, Manhattan.....	633,000 00
"4. One public bath, The Bronx.....	75,000 00
"5. Measles pavilion, Department of Health.....	400,000 00
"6. Pavilion, Riverside Hospital.....	100,000 00
"7. Pavilion, Kingston Avenue Hospital.....	90,000 00
"8. Fordham Hospital.....	640,000 00
Main building.....	\$339,000 00
Ambulance house, stable and morgue.....	52,315 00
Power house and laundry.....	128,973 00
Nurses' dormitory.....	40,000 00
"9. Harlem Ship Canal Bridge, about.....	250,000 00
"10. Public Comfort Station in Madison Square Park.....	18,000 00
"11. Public Comfort Station, Manhattan.....	20,000 00
"12. Municipal Lodging House, about.....	100,000 00

"Total—20 structures to cost about..... \$2,686,000 00

—every item of which has been since referred to us by the Mayor.

"The Commission being familiar with most of the conditions involved, your Committee, without further explanation, recommends that it be suggested to his Honor the Mayor, to adopt and file with the Commission, regulations somewhat as follows:

"Sec. (1). The Art Commission is hereby requested to consider and act in approval or disapproval upon the design, including the proposed location, of each Municipal building, gate, bridge, fence, lamp or other structure, to be erected upon land belonging to the City, and hereafter to be erected or contracted for, of cost to exceed \$5,000.

"Sec. (2). As to other matters which by section 637 of the Charter, the Mayor might refer to the Commission—including those of classes referred to in (1) foregoing, but costing less than \$5,000 each—the Commission will be expected to act only in response to the Mayor's request, made either upon his own initiative or by his approval of such suggestions as the Commission may at any time make.

"Sec. (3). As to any matter as to which, under the Charter, the Mayor is empowered to request the Art Commission to act; any party interested may submit such matter to the Art Commission, with a statement of any special need for prompt action thereon; in which case the work in question may be proceeded with unless the Commission shall act thereon within sixty days from the date of such submission—or within such shorter time as, in view of urgency, the Mayor may prescribe.

"Should the Mayor make such regulations, on a copy thereof being filed in the Comptroller's office, the working of the system would become automatic; since no payment would then be authorized for any such work unless the regulations had been complied with; and no contractor would proceed until this had been done. All embarrassment, however, would be avoided by thus leaving any contractor, head of department, or other party interested, free—by simply filing with the Commission any matter as to which reference to the Commission was likely to be made by the Mayor—hereafter to proceed with the work in case such reference and action thereon was not had within sixty days or any shorter time prescribed by the Mayor.

"Sections (1) and (2) would define and simplify routine as to matters now likely to be submitted, but in other cases would add nothing to present requirements. Section (3) above simply provides a means by which any one, who wishes to be relieved of the uncertainties of present practice, may do so.

"While the Committee is unanimous upon the principle involved above, the figure \$5,000 has been inserted in (1) as a 'for-example' suggested by a majority of the Committee.

"Your Committee has appreciated that it might well confer with the Mayor in this regard, but has thought it best, before so doing, to report to the Commission for its suggestion or instruction.

"All of which is respectfully submitted."

The report was received and ordered placed on file.

Pending discussion, the Committee withdrew any recommendation as to minimum amount in Sections (1) and (2) of its report.

On motion the part relating to subject (b) thereof—amendment of law or procedure so as to establish by rule the actual practice of successive Mayors in referring to the Art Commission matters left to the Mayor's discretion—was referred back to the Committee with approval of the principles stated in Sections (1), (2) and (3) and for further report after conference with the Mayor.

The following communication from His Honor the Mayor was presented and ordered placed on file:

(Signed) GEORGE B. McCLELLAN, Mayor.

A communication from Mr. Edward Hagaman Hall, Secretary of the American Scenic and Historic Preservation Society, was presented and a reply directed to be sent stating that the Commission deemed it inexpedient to take up the question of Charter amendments, at least until after the beginning of next year.

On motion the meeting adjourned.
