PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.
By EDWARD E. McCALL, Chairman.
TRAVIS H. WHITNEY, Secretary. f26,m13

Proposals.

INVITATION TO CONTRACTORS.

For the Supply of Track Materials for Use in the Construction of Rapid Transit Railroads.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called "the Commission") invites proposals to supply track materials for use in the construction of rapid transit railroads, to wit: Tie Plates, Felt Pads and Ballast.

A full description of the materials and other requirements, provisions, details and specifications are stated in the form of contract, which is to be deemed a part of this invitation. Copies of the form of contract, bond and contractor's proposal may be inspected and purchased at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City. Copies of contract drawings T-1016 and T-1002 for Felt Pads may be inspected and purchased at the same office. Copies of drawings T-1015 and T-1016, showing the general nature of the Tie Plates desired, may be inspected and purchased at the same office, but bidders for the supply of Tie Plates must submit with their proposals competitive drawings showing the details of the Tie Plates which they propose to furnish, and the drawings so submitted will, if the proposal is accepted, be made part of the contract.

The Ballast is to be bid upon in five separate lots. Four of these lots shall be for approximately ten thousand (10,000) cubic yards each and the fifth lot shall be for approximately twelve thousand (12,000) cubic yards. The first lot (of approximately ten thousand (10,000) cubic yards) is to be delivered between May 1, 1914, and July 1, 1914; the second lot (of approximately ten thousand (10,000) cubic yards) is to be delivered between May 15, 1914 and July 15, 1914; the third lot (of approximately ten thousand (10,000) cubic yards) is to be delivered between June 1, 1914, and August 1, 1914; the fourth lot (of approximately ten thousand (10,000) cubic yards) is to be delivered between July 1, 1914, and September 1, 1914; and the fifth lot (of approximately twelve thousand (12,000) cubic yards) is to be delivered between August 1, 1914, and October 1, 1914; except as provided in the form of contract.

Bidders for Ballast may submit proposals in either or both of two ways. In the first place a bidder may submit a proposal for supplying any one or more of the separate lots to be delivered as above stated, specifying in his proposal by lot number or numbers the particular lot or lots which he proposes to furnish, in which event such proposal will be considered as for the particular lot or lots so specified and not for any other lot. In the second place a bidder may, without specifying any particular lot or lots, submit a proposal for supplying any one or more lots which the Commission may elect to award to him, in which event the Commission shall have the right to award any of the lots above stated to the successful bidder, and in which event, also, in case any bidder shall propose to furnish more than one lot, the Commission may award the full number of lots which such bidder offers to furnish or any lesser number. In case any bidder shall so submit a proposal for supplying any one or more lots without specifying any particular lot or lots to which he desires to restrict his bid, the Commission may award to him any of the lots above stated to be delivered within the periods above named. The award of the contract or contracts, if made, will in any case, however, be made for the lots above described separately.

Ballast is to be either trap rock or hard limestone, and proposals will be received for either kind of Ballast. The award of the contract or contracts, if made, for each lot will be for one or the other kind of Ballast as the Commission may in its discretion elect. The Contractor will not have the option under the contract of furnishing either kind of Ballast, but must furnish the kind for which the proposal is submitted and the contract awarded.

Proposals may be submitted for any one or more of the different types of Tie Plates, and the award of the contract or contracts, if made, will be for each type separately.

Bidders for Tie Plates and Felt Pads shall specify in their proposals the rate of delivery and times of first and last delivery of the material. In view of the necessity for prompt deliveries, the times of delivery as set forth in the Contractor's Proposal as well as the prices contained therein will be considered in awarding the contract.

Proposals must be in the form prescribed by the Commission.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 26th day of March, 1914, at twelve-fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Supplying Track Materials for use in the construction of Rapid Transit Railroads," and must be delivered to the Commission or its Secretary, and in the presence of the person submitting the proposal it will be deposited in a sealed box, in which all proposals will be deposited.

Every proposal must be accompanied by a certified check in a sum not less than ten (10) per centum of the amount of the bid, except that a minimum deposit of two hundred dollars (\$200) will be required with all bids and that a deposit of two thousand dollars (\$2,000) will be sufficient to entitle bidders to bid on any or all of the different materials. Certified checks submitted with proposals must be payable to the order of the Comptroller of the City of New York and must be drawn upon a National or State bank or trust company satisfactory to the Commission and having its principal office in New York City.

Deposits made by bidders whose proposals are not accepted will be returned within five (5) days after the contract is executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposal.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

By EDWARD E. McCALL, Chairman.
TRAVIS H. WHITNEY, Secretary. m6,27

INVITATION TO CONTRACTORS.

Part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The Public Service Commission for the First District (hereinafter called the "Commission") invites proposals to construct Section No. 6-A of Routes 4 and 38, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within the City of New York between which the said part is to run and the

route or routes to be followed are briefly as follows:

SECTION NO. 6A. Beginning at a point under Seventh Avenue, in the Borough of Manhattan, about one hundred (100) feet south of the southerly building line of West Forty-third Street, and extending thence northerly under Seventh Avenue to a connection with the present Manhattan-Bronx Rapid Transit Railroad. The general plan of construction calls for a subsurface railroad having four tracks.

The Contractor will not be required to provide or lay tracks, ties or ballast, except for the temporary operating track in the Manhattan-Bronx Rapid Transit Railroad, as provided in the form of contract.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic, the restoration of pavements and other surfaces and the removal and reconstruction of portions of the Manhattan-Bronx Rapid Transit Railroad in order to provide a connection with the railroad.

The removal and reconstruction of portions of said Manhattan-Bronx Rapid Transit Railroad must be so conducted as not to interfere with or interrupt the safe and continuous operation of trains in said Railroad, and the Contractor shall be responsible for the support, maintenance, safety and protection of said Railroad, including its equipment and rolling stock, and for the safety and protection of passengers and other persons therein. Before removing any part of said Railroad the Contractor must obtain a permit from the Interborough Rapid Transit Company. The Contractor will be required to furnish security to said Interborough Rapid Transit Company in connection with said permit by depositing a bond, cash or securities in the sum of five hundred thousand dollars (\$500,000).

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done and other requirements, provisions, details and specifications are stated in the form of contract and in the contract drawings therein referred to, which are to be deemed a part of this invitation. Copies of the form of contract, contract drawings, bond and contractor's proposal may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City.

The City of New York (hereinafter called the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between the City, acting by the Commission, and the Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract will be limited to an amount equal to ninety-five per centum (95%) of the total estimated amount to be paid to the Contractor under the contract.

Partial payments to the Contractor will be made monthly as the work proceeds.

The Contractor must complete the work within thirty-three (33) months from the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 12th day of March, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 4 and 38, Section No. 6-A," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check for the sum of fifteen thousand dollars (\$15,000), payable to the order of the Comptroller of the City, and drawn upon a national or state bank or trust company satisfactory to the Commission, having its principal office in the City of New York. Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

At the time of the delivery of the contract the Contractor shall furnish security to the City by depositing a bond in the form annexed to the form of contract or cash or approved securities in the sum of two hundred and fifty thousand dollars (\$250,000). Before removing any part of the Manhattan-Bronx Rapid Transit Railroad the Contractor will also be required to give a bond, cash or securities in the sum of five hundred thousand dollars (\$500,000) to Interborough Rapid Transit Company in connection with the permit to be obtained from said company as aforesaid.

Whereas, The Manhattan Fire Alarm Company has, under date of November 29, 1911, made application to this Board for the grant of the right, privilege and franchise to lay, erect, construct, lease and maintain wires and other connections, with necessary poles, pipes, conduits and appliances in, over and under the streets, avenues, highways, parks and public places throughout the territory of The City of New York, to be used in the electrical or other operation of electrical or other call boxes in connection with telephone, telegraph and any system for transmitting calls and signals for electric or other protection service; and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on January 18, 1912, fixing the date for public hearing thereon as February 15, 1912, at which citizens were entitled to appear and be heard, and publication was had for at least two (2) days in the "New York Press" and "The Sun," newspapers designated by the Mayor, and in the City Record for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Manhattan Fire Alarm Company, and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Manhattan Fire Alarm Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Manhattan Fire Alarm Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

This Contract, made and executed in duplicate this day of March, 1914, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Manhattan Fire Alarm Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to lay, construct, maintain and operate suitable wires or other electrical conductors under the streets and avenues within the Borough of Manhattan and the portion of the Borough of The Bronx lying west of the Bronx River, and to lay, construct, maintain and operate suitable wires or other electrical conductors and the necessary conduits for the same under the streets and avenues within that portion of the Borough of The Bronx lying east of the Bronx River, the Borough of Brooklyn, the Borough of Queens and the Borough of Richmond for the purpose of electrically connecting detecting and signalling apparatus to be located upon the premises of subscribers with signal recording apparatus located or to be located at some suitable point or points where such signals are to be received and thereby maintaining and operating a fire protection signalling service system for the protection of the premises of subscribers and for no other purpose whatsoever.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits for the purpose aforesaid shall be held and enjoyed by the Company from the date when this contract is signed by the Mayor to and until December 31, 1928, with the privilege of renewal of said contract for a further period of ten (10) years upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders, selected in the following manner:

One disinterested freeholder shall be chosen by the Board, one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall

pay the annual rate theretofore prevailing until the new rate shall be determined and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted the following sums of money:

1. The sum of ten thousand dollars (\$10,000) in cash within thirty (30) days after the date upon which this contract is signed by the Mayor.

3. The further sum of twenty-five hundred dollars (\$2,500) in cash, for use and occupation of the streets of the City since October 4, 1911, to be paid within thirty (30) days after the signing of this contract by the Mayor.

3. During the first period of five (5) years an annual sum which shall in no case be less than twenty-five hundred dollars (\$2,500), and which shall be equal to three (3) per cent, of its gross annual receipts, if such percentage shall exceed the sum of twenty-five hundred dollars (\$2,500).

4. During the second period of five (5) years an annual sum which shall in no case be less than five thousand dollars (\$5,000), and which shall be equal to four (4) per cent, of its gross annual receipts, if such percentage shall exceed the sum of five thousand dollars (\$5,000).

5. During the remaining period of this original contract an annual sum which shall in no case be less than eighty-five hundred dollars (\$8,500), and which shall be equal to five (5) per cent, of its gross annual receipts, if such percentage shall exceed the sum of eighty-five hundred dollars (\$8,500).

The annual charges shall commence from the date on which this contract is signed by the Mayor.

All annual charges as above shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the moneys due when this contract is signed by the Mayor shall be paid into the Treasury of the City within thirty (30) days immediately following such date, and provided further that the first annual payment thereafter shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the wires and equipment of the Company constructed pursuant to this contract, within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order, by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its wires and other equipment constructed pursuant to this contract, and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall construct, maintain and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City, and in strict compliance with all laws or ordinances or departmental rules and regulations now in force or which may be adopted affecting companies operating electrical conductors in the City.

No construction or repair of said electric system shall be commenced until written permits have been obtained from the proper City officials. In any permit so issued such official may impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues and the proper restoration of the surface of such streets and avenues over which such officials have jurisdiction and the Company shall comply with such conditions.

Upon the completion of any work of construction the Company shall furnish to the President of the Borough a plan of such character as he may direct, showing accurately and distinctly the location, size and type of construction and complete dimensions of the structures erected, installed or constructed under this contract and the location and dimensions of all substructures encountered during the progress of the work. The depth below the street surface of the new structure and of the substructures encountered must be shown; also their location with reference to the nearest curb line and the nearest curb-line intersection.

The electrical and other equipment to be installed by the Company, whether the same be under streets and avenues, in any Department of

the City or in private property, shall be constructed and maintained subject to the approval and under the supervision and control of the Fire Commissioner.

Seventh—The plant, conduits, wires, conductors, connections, instruments and all appurtenances thereto shall be constructed, maintained and operated in the latest approved manner and with the most modern and improved appliances, and it is hereby agreed that the Board may require the Company to improve or add to its plant, conduits, wires, conductors, connections, instruments and appurtenances from time to time, as such additions or improvements are necessary in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

All equipment installed and used by the Company shall be under continual test and be systematically inspected in accordance with the rules and regulations of the Fire Department. The Company shall keep accurate records of these tests and inspections and furnish verified statements of the same to the Fire Commissioner upon ten (10) days' request therefor.

Eighth—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as subways). In the Borough of Manhattan and that portion of the Borough of The Bronx west of the Bronx River such subways shall be leased from the company or companies having control thereof under the provisions of law, or from the City, should it succeed to the rights of such company or companies. In the other territory in which the Company is authorized to operate by virtue of this contract it may construct sufficient subways for the accommodation of its cables and wires and no more. If the City shall construct or acquire subways for electrical conductors of the character or tension of those used by the Company or similar companies in any or all of the Boroughs, the Company hereby agrees to lay its wires and conductors in such subways and the City agrees to lease to the Company such space as may be necessary and available for the operation of the alarm system hereby authorized. No cables or wires shall in the future be strung above the surface of the streets and avenues by the Company, and those at present in existence shall be removed and placed underground when and where required by the Board or the Commissioner of Water Supply, Gas and Electricity.

Ninth—The Company shall not in the future connect any of its auxiliary boxes or apparatus of any kind with the street boxes or City circuits of the Fire Department, and the connections now in existence shall be discontinued within one year from the date upon which this contract is signed by the Mayor, provided, however, that before the expiration of the said year the Company shall, upon thirty (30) days' notice from the Fire Commissioner, discontinue such connections as he shall so order.

Tenth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant. Any alteration to the sewerage or drainage system or to any other subsurface or to any surface structures in the streets required on account of the construction or operation of the underground conduits herein authorized to be placed in the streets shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Eleventh—It is agreed that the right hereby granted to lay and maintain conduits shall not be in preference or in hindrance to public work of the City, and should the said conduits in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move its conduits and their appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twelfth—Should the grades or lines of the streets and avenues in which the Company is hereby authorized to operate be changed at any time during the term of this contract or any renewal thereof, the Company shall, at its own expense, change its conduits and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets or avenues the Company shall take care of and protect its conduits and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Thirteenth—The Company shall, upon request from any individual or corporation occupying or owning premises in the territory in which the Company is operating, not in arrears to it for service already rendered, extend its wires to such premises and furnish protection service to such individual or corporation, provided that such premises are not more than one-half mile from any other premises in which the Company has its apparatus installed at the time such request is made.

Fourteenth—The Company shall file with the Board on the 1st day of November in each year a map or plan upon which shall be plainly and separately indicated the number of wires which are in use by the Company on September 30 preceding, and the streets in which the same are located, and also those which were not in use during the year preceding that date. It shall also file with the Department of Water Supply, Gas and Electricity and the Fire Commissioner on or before the 10th day of each month a map or plan of the locations in which wires have been placed by it during the preceding month.

Fifteenth—The rates to be charged by the Company shall not be in excess of the following, without the consent of the Board, and it is agreed that the same may be altered or changed by the Board, as hereinafter provided:

(a) For ordinary fire alarm service by means of manual boxes installed in buildings or premises of any description a yearly rental of fifty dollars (\$50) for the first box installed and an additional yearly rental of ten dollars (\$10) for each additional box installed in the same building or premises.

(b) For Combination Fire Drill and Fire Alarm Service, with boxes and gongs arranged to give employees or other occupants of buildings or premises designated signals, a yearly rental of fifty dollars (\$50) for the first box and gong installed and an additional yearly rental of twenty-five dollars (\$25) for each additional box and gong so installed in the same building or premises, provided, however, that these rates shall be effective only where the subscriber contracts for a minimum installation of five such boxes and gongs.

(c) For Combination Fire Alarm and Watchman Supervisory service a yearly rental of sixty dollars (\$60) for the first box installed and an additional yearly rental of eighteen dollars (\$18) for each additional box installed in the same building or premises.

(d) For any other service furnished or to be furnished by the Company the rates charged shall be reasonable and fair, and before being put into effect shall be submitted to the Board for its approval.

The Company shall file with the Board on February 1 of each year a verified schedule of the rates charged by it for each class of service which it furnishes, and certified forms of the contracts used by it with subscribers for its various classes of service.

The Company agrees, upon request of any Board, Department or Bureau of the City Government, to furnish service to any and all buildings under the control of such Board, Department or Bureau at one-half the rates above authorized to be charged by it for whatever class or classes of service may be required.

Sixteenth—During the term of this contract or any renewal thereof the Board shall have the power to regulate and fix the maximum and minimum rates to be charged by the Company in the City, provided such rates shall be reasonable and fair.

Seventeenth—The Company shall not require nor receive from its subscribers any deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate whenever such money is held for more than one month. Unpaid bills, unless due from its owner, shall never be charged against property, and no person not himself in arrears shall be denied service because any previous occupant of the same premises is in arrears to the Company for service.

Eighteenth—The wires of the Company shall be employed for no other purpose than those explicitly set forth herein and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places. Except with the express consent of the Fire Commissioner no circuit installed or maintained by the Company over which alarms of fire are to be transmitted shall be used for the transmission of other than fire alarm signals.

Nineteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Twentieth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions in the territory covered by this contract, or any part thereof.

Twenty-first—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars (\$100), as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-second—If for a period of twelve consecutive months the fire alarm system of the Company shall not be operated, or if the same shall not be operated for a period of eighteen months out of any consecutive twenty-four months, the Board may declare the right and franchise and this contract terminated without further proceedings at law or in equity.

Twenty-third—The Company shall at all times keep accurate books of account and shall, on or before November 1 in each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding. Such report shall contain a statement of the gross receipts received from the operation of the system hereby authorized from all subscribers served by the Company within The City of New York, together with such other information and in such form and detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Twenty-fourth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors and officers elected at the last meeting of the corporation, held for such purpose.
13. Location, value and amount paid for real estate owned by the Company, as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number and location of premises served by the Company.
16. Total receipts of the Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-fifth—This grant is upon the express condition that the Company within ninety (90) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of fifteen thousand dollars (\$15,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privileges hereby granted, in default of which payment of the annual charges the City shall collect the same, with interest, from the said fund, after ten (10) days' notice to the Company.

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, furnishing of service to applicants as herein provided, the installation or maintenance of its structures and equipment, or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of the contract, or under the authority of any laws, ordinances or departmental regulations now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars (\$50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized, in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, in writing, pay to the City a sum sufficient to restore said security fund to the original amount of fifteen thousand dollars (\$15,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-sixth—In case of any violation or breach of the contract by the Company, or failure to comply with any of the provisions herein contained this contract may be forfeited by a suit brought by the Corporation Counsel on notice of ten (10) days to the Company, or at the option of the Board, by resolution of said Board, which said resolution may contain a provision to the effect that the system constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear action may be taken by the Board forthwith.

Twenty-seventh—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such cases such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-eighth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the city, postage prepaid, addressed to the Company at the city. Delivery or mailing of such notice or direction as aforesaid when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-ninth—The words "streets and avenues" or "streets or avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, included within the limits of the territory in which the Company is hereby authorized to operate.

Thirtieth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues of the territory in which the Company is authorized to operate by this contract.

Thirty-first—Nothing herein contained shall be deemed to grant any right or privilege to the Company to make or continue any installation of its apparatus in the Headquarters or Fire Alarm Telegraph Bureau of the Fire Department, or to connect or continue to connect in any way with the City's Fire Telegraph system, and no such installation or connection shall be made or continued without the separate additional consents of the Board and of the Fire Commissioner. The Company agrees that any consent so granted shall be a mere temporary and revocable license to make such installations or such connections, which may be revoked by resolution of the Board, approved by the Mayor, at any time, and when so revoked the Company holds and will hold the City harmless from any loss or damage sustained or which may be sustained by the Company or any of its subscribers on account of such revocation.

The Company further agrees that if permitted to make such installations or connections it will comply with all rules and regulations now in force or which may hereafter be made by the Fire Commissioner, and will pay such reasonable sum or sums as may be fixed by the Board on the recommendation of the Fire Commissioner for the space in such places where it makes its installations or for the use of such portions of the City's telegraph systems as it may use in making such connections, or for such other facilities as may be afforded to it by the City, and will pay such reasonable sum or sums as may be imposed by the Fire Commissioner as a penalty for each and every false alarm transmitted by its apparatus.

Nothing herein contained, however, shall be deemed to, nor shall the same affect in any manner the provision contained in section 2-Ninth of this contract, and no consent granted under this clause shall authorize or permit the making or the continued use of the connections therein prohibited.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate seal to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either of any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York serves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
