On April 6 Miss Mildred Pease resigned as Assistant Dietitian at the New York City Training School.

On April 7 Miss Marion Robie resigned as Dietitian at the Metropolitan Hospital.

On April 8 Miss Mary Anderson resigned as Dietitian at Coney Island Hospital.

On April 9 Miss Mary Anderson was appointed Dietitian at Metropolitan Hospital.

On April 12 Miss Elizabeth Pecht was appointed Pupil Dietitian at Kings County Hospital.

On April 13 Miss Mabelle Hughes was appointed Pupil Dietitian at Randalls Island.

On April 16 Miss Pauline McDonald was appointed Dietitian at City Home, Blackwells Island.

On June 4 Miss Teresa Kiernan was appointed Dietitian at Kings County Training School.

On June 22 Miss Florence Ferguson resigned as Dietitian at Randalls Island.

This first half of the year there has been little difficulty, with the exception of stock vegetables, with the food supplies. Although the condition of the markets has been bad, the fresh fruits and vegetables have been up to the standard in most cases. We are now receiving vegetables from the Farm Colony. These we find a great help, as they fill in and help to cut down the contract.

The teaching of dietetics still continues in the training schools. The classes have been unusually light owing to the few applicants. Respectfully submitted,

ELLA G. ENNIS, Departmental Dietitian.

Total	95	94

Daily average of all in the institution during quarter, 1,290; number of ambulance calls, 817.

Kings County Hospital Dispensary.
Number of males treated, 1,068; number of females treated, 633; total, 1,701.
New cases, 708; revisits, 993.

Improvements.
This quarter is a notable one for the Kings County Hospital because of the many improvements under way.

New Nurses' Home.
The new Nurses' home was occupied by the training school for the first time on May 30, and before the week was out all were comfortably settled in their new quarters. We believe that this building will be a feature in the Department for some time to come, and, with the facilities now afforded, the work of the training school should be most efficient.

New West Wing.
This magnificent addition of modern construction to the hospital is practically completed. There are a few details which need attention, but to a casual observer the building is complete. With the furnishings under way, and an appropriation requested for additional help to maintain this building, we ought surely to be ready to open its wards for patients in September, as contemplated. This building will afford accommodations for at least 160 more patients, a welcome relief to our overcrowded conditions.

Children's Hospital.
This building is progressing nicely, and bids well to be completed on time. The old annex, which occupied the ground between the new children's hospital and the street, has been removed, except the basement walls of one end. The complete disappearance of this old ramshackle rookery seems now a matter of but a few days.

Staff House.
Work on the new staff house has been begun, and has progressed as far as the digging of the cellar. Reasonably favored, we should see this building up and enclosed before the severe weather.

Addition to Psychopathic Building.
Plans and specifications of this new addition have been approved, and the work is now ready for advertising.

Addition to Bakery.
Here, too, the preliminary work of plans and specifications has been done, and soon this needed addition should be under way.

Addition to Heating and Power Plant.
Work on this improvement has been started in a businesslike way. Already a considerable extension of the tunnel has been built, the new steampipes installed, and the work on the four boilers begun. Trenches for the electric conduits have been dug, and the erection of the tracks for the coal conveyor has progressed materially.

Cement Walks at Nurses' Home.
This work was started with all evidences of a quick job, but, unfortunately, conditions arose which necessitated the stopping of the work. About 200 feet of the walk has been condemned, and for more than a month the work has been delayed, due, I understand, to financial troubles of the contractor.
The mechanical force of the institution has kept busy during the quarter with the usual minor repairs necessary for the general upkeep.

Needs.
One of the most important needs is a new building suitable to the housing of our female employees. Many of these people are compelled to seek quarters outside of the grounds, a condition which lessens their earning capacity, and gives us smaller opportunities in the selection of help for the money we pay.

Another urgent need is a suitable workshop for our mechanics. The lack of such facilities hampers their work by increasing the difficulties with which they have to contend.
To the storehouse, to the stable and to the laundry extensions are needed to relieve crowded and congested conditions, and to enable the plant to keep on a par with its growth.

Fire Alarm System.
As the institution grows, this need becomes a more prominent one. The several minutes' delay in getting out the alarm, a condition which prevails at the present time in spite of the efforts made toward remedying it, might, in the event of a real fire, result in serious consequences.

Repairs to Roofs.
The roofs of the main hospital, the domestic building, Annex No. 1, and the Steward's building are in need of a general overhauling and painting.

Miscellaneous and Major Repairs.
There are about twenty doors and casing in the main hospital, the domestic building, the children's hospital and the nervous ward, which should be fireproofed in the opinion of the Inspector from the fire prevention contractor. There is need of cement walks leading from the main road on the grounds to the new morgue and laboratory. In Annex No. 1 and the Steward's building the plumbing needs a general overhauling and replacement.

There should be an overhead water supply in the autopsy room of the morgue. The woodwork of the main entrance of the hospital needs overhauling and general repairs.

Our elevators throughout the plant should be provided with safety locks on all elevator doors, thus obviating many chances of accident.

Porte cocheres at the receiving wards for the protection of patients admitted during inclement weather.

Wire screens for the new morgue and pathological laboratory building, and an iron fence surrounding our grounds are all necessary improvements.
Respectfully submitted, MORTIMER D. JONES, M.D., Superintendent.

Report of the Medical Board of the Cumberland Street Hospital.

Brooklyn, July 17, 1912.

Hon. THOMAS L. FOGARTY, Second Deputy Commissioner:

Dear Sir—In behalf of the Medical Board of the Cumberland Street Hospital, I have the honor to submit the following quarterly report for the quarter ending June 30, 1912.

On April 1, 1912, the dispensary was given over to the visiting staff and the hours changed from 9—12 a. m. to 2—4 p. m., daily. This arrangement gives opportunity of having several clinics daily and our dispensary has gradually increased, so that now the quarters are overcrowded, and an enlargement and remodelling of the dispensary is necessary to furnish sufficient room and light to do the work of the clinics under the proper condition.

During the quarter there were seven hundred and thirty-eight visits made by the visiting staff and two hundred and forty-eight operations were performed.

Respectfully yours, O. S. RITCH, W. H. PIERSON.

Report of the Superintendent, Training School.

The work in the hospital is going along smoothly. There are no complaints from the patients, although we will be glad to have more Pupil Nurses, to be able to divide the work a little more evenly. There have been many changes among the employees, particularly among the men. This is due to the nearness to Coney Island and the class of help we are obliged to employ, and cannot be helped until the summer season is over. Respectfully submitted,

J. F. SCOFIELD, M.D., Deputy Medical Superintendent.

All of which is respectfully submitted,

THOMAS L. FOGARTY, Second Deputy Commissioner, Brooklyn, N. Y.

The Committee on Elementary Schools respectfully reports that it has had under consideration the following preamble and resolution, adopted by the Board of Aldermen on February 27, 1912, and referred to it by the Board of Education on March 13, 1912:

"Whereas, The curriculum of Public School No. 44 in the Borough of Brooklyn includes instruction of certain students in the arts of cooking and woodworking, and

"Whereas, Owing to the limited capacities of the kitchen and shop now in use in said school building it is impossible for each student to have assigned to him or her the necessary utensils, tools, benches and other accessories to make a proper study of the subjects sought to be taught therein, and

"Whereas, It is possible to relocate said kitchen and shop in other parts of said school building, whereby it will be rendered practicable and possible for the students to properly pursue their prescribed course of study; therefore be it

"Resolved, That the Board of Education, through its appropriate committee, be, and it is hereby, requested to take the necessary steps and do all things proper to remedy said conditions now existing in said Public School No. 44 in the Borough of Brooklyn, to the end that said school may be provided with a more spacious kitchen and a more spacious shop."

In connection with the foregoing a report was submitted by Associate City Superintendent Meleney, who is assigned to the division in which Public School 44 is located, as follows:

"The communication calling the attention of the Board of Education to the matter of better facilities for shopwork and cooking in Public School 44, Brooklyn, has been under consideration by District Superintendent Griffin and myself, to ascertain whether a recommendation should be made that an addition to the building be erected in which a larger shop and kitchen could be provided.

"We are agreed that, while the facilities are not as ample as provided in the new buildings, they are equal to and in some respects more commodious than have been provided in other schools in the city. The shopwork for boys and the cooking for girls have been conducted with excellent results and in a satisfactory manner. At present it would be impossible to provide any additional room or to enlarge the present rooms in that building.

"It does not seem advisable to recommend an addition to Public School 44 at the present time, for the reason that the school is located in a district where there is no congestion, and it is thought that the Board of Education would not be justified in asking for additional facilities for that school when so many other parts of the City need better accommodations."

Your Committee concurs in the views set forth in the above quoted report, and submits the following resolution for adoption:

Resolved, That a copy of the foregoing report be transmitted to the Board of Aldermen.

To the Board of Education:

The Committee on Sites respectfully reports that at the meeting of the Board of Education held on March 27, 1912, the following preamble and resolution adopted by the Board of Aldermen on March 19, 1912, was referred to the Committee on Buildings and the Committee on Sites:

"Whereas, The elevated and subway extensions of the proposed rapid transit system will create a vast increase in the number of school children and overtax the already limited school facilities in the Highbridge section of The Bronx; be it

"Resolved, That the Board of Aldermen recommend to the Board of Education that they apply at once to the Board of Estimate and Apportionment for a sufficient appropriation to purchase a site and build a school for the accommodation of the children living in the Highbridge section of The Bronx, lying within the 25th School District."

At a meeting held on April 1, 1912, the Committee on Buildings had said preamble and resolution under consideration and referred the matter to the Committee on Sites, with the request that a site be acquired in the neighborhood mentioned. In addition, requests and recommendations

for the acquisition of a site as indicated have been received from the Local School Boards of Districts Nos. 24 and 25, the Board of Superintendents and the High Bridge Tax Payers' Alliance.

Your Committee is of the opinion that a new school building is needed in the locality referred to, and has made provision for a site therefor in the vicinity of Woodcrest ave. and 165th st., High Bridge, in its corporate stock estimate presented to the Board of Education on April 24, 1912 (see Journal, page 663).

The following resolution is submitted for adoption:

Resolved, That a copy of the foregoing report be transmitted to the Board of Aldermen.

The following preambles and resolutions were also adopted:

Whereas, The Board of School Trustees of the Fifth Ward of New York City did in the year 1890 open an account with the Irving Savings Institution, No. 115 Chambers st., New York, and did deposit therein the sum of \$15.30; and

Whereas, Said Board of School Trustees was abolished on June 30, 1896, under the provisions of Section 5 of Chapter 387 of the Laws of 1896; and

Whereas, The rights, powers and duties of said Board were devolved upon the Board of Education under Section 33 of said Chapter, and the rights, powers and duties of the Board of Education as then existing have since been and are now vested in the Board of Education of The City of New York as at present constituted; therefore be it

Resolved, That the Irving Savings Institution be and it is hereby requested to turn over to the Board of Education the above mentioned deposit of \$15.30 in account No. 29745, with the accrued interest thereon.

Resolved, That it be referred to the Committee on Finance to determine to what object the moneys above referred to shall be applied.

Whereas, Since the enactment of the so-called "Davis Law," which became law April 3, 1900, and was incorporated in the Charter of The City of New York as Section 1091, all printed matter approved and distributed by the Board of Education in connection with the ratings of members of the supervising and teaching staff has stated that "B" is a "meritorious" rating; and

Whereas, All instructions to Associate City Superintendents, District Superintendents, principals and directors in the same connection have been that "B" is a "meritorious" rating; and

Whereas, The "schedule conditions" included in Chapter 902 of the Laws of 1911 involve or contain no changes in connection with the approval of service of teachers, assistants to principals or principals in the elementary schools, except that services are to be approved for the third, sixth, ninth, twelfth and fifteenth years, instead of the third, seventh and twelfth years; therefore

Resolved, That it is the sense of this Board of Education that the service of no teacher, assistant to principal, or principal in the elementary schools should be disapproved on account of ratings, if said teacher, assistant to principal or principal in the elementary schools has received no rating lower than "B" during the preceding three years.

On motion, the Board adjourned at 6.35 o'clock p. m.

(Action taken at this meeting in reference to Civil Service appointments, promotions, etc., has already been printed in the CITY RECORD).

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a

certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
