## BOARD OF EXAMINERS.

Meeting held at the office of the Board, Rooms 516 and 517, No. 1 Madison avenue, New York, March 11, 1902.

Meeting called to order at 3 p. m.

Present—Messrs W. J. Fryer, W. A. Conover, W. C. Smith, C. O'Reilly, Chief Croker and A. F. D'Oench, Chairman.

Alteration 73 of 1902, appeal No. 35 of 1902, premises Nos. 32 to 42 East Forty-second street and Nos. 45 and 47 East Forty-first street, William B. Tubby & Bro., architects and appellants. "It is asked that the permissible live load on the portion of the building fronting on Forty-first street, and designated on the filed drawings as 'C,' be reduced from 120 to 75 pounds per square foot. It is proposed to add only one floor to what at present exists in this portion of the building, for the purpose of bringing the whole building to one common level."

Approved.

Alteration 190 of 1902, appeal No. 38 of 1902, premises No. 31 West Twenty-third street, John I. Downey, builder and appellant. Mr. Downey's representative appeared before the Board in explanation. "To use a 12-inch wall on westerly side of front instead of a 16-inch wall, said wall is only 37 feet high, as shown on drawings, for the reason that a 12-inch wall was allowed for the same alteration adjoining easterly side, and a 16-inch wall would change design of front which is desired to be continued same as easterly building, owned by same party."

Approved.

New building 875 of 1902, appeal No. 40 of 1902, premises Nos. 50 and 52 Pine street, James B. Baker, architect and appellant. Mr. Baker appeared before the Board in explanation. "To allow the building of a new print house 11 feet 6 inches by 19 feet 6 inches by 10 feet high on main roof. This house to be constructed of angle and Tee iron, and filled in with 4-inch terra cotta partition blocks, plastered on the inside and covered with galvanized iron on the outside. Roof of blue print house to be supported by 7-inch 93/4 pound beams on which will be fastened 2 1/2 inch by 2 1/2 inch by 1/4 Tee irons 21 inches o. c. for roofing blocks on which will be laid flat Ohio vitrified tile."

Approved on condition that two walls be carried up of brick not less than 8 inches thick, instead of angle iron construction.

Alteration 120 of 1902, appeal No. 41 of 1902, premises No. 165 East Broadway, Meyer Jarmulowsky, architect and appellant. "To use party walls with adjoining buildings as inclosure walls below the fifth floor in proposed alteration. Present building to be raised two stories, and of skeleton construction; sidewalls in fifth and sixth stories will be supported independently in each story, and not built on old walls; said party walls are 12 inches in basement, 8 inches thick above, and lined with 12-inch and 8-inch brickwork when adjoining buildings were erected, making walls now 24 inches and 20 inches and 16 inches; additional inclosure walls would not add strength or safety to the building."

Approved.

New building 72 of 1902, appeal No. 42 of 1902, premises east side of Broadway, 75 feet south of Ninety-fifth street, Ross & McNeil, architects. Charles G. Judson, owner and appellant. Messrs. Ross & McNeil appeared before the Board in explanation. "To have the exterior stairway at end of main corridor accepted as second flight of stairs, required by section 75 of the Code, for the reason that we consider the outside of staircase a better protection in case of fire; it is proposed also to place a fire-escape in side court."

Denied.

Letter from A. B. Jennings, relative to appeals No. 20 and No. 25 was then read by the Chairman. On motion, duly seconded, referred to the Chairman with full power.

Opinion of Hon. Geo. L. Rives, Corporation Counsel, in re necessary employees of the Board of Examiners, read by the Chairman.
