BOARD OF EXAMINERS.

May 14, 1907.

Present—Messrs. Warren A. Conover, Charles Buek, Lewis Harding, Charles G. Smith, Edward F. Croker, Henry R. Marshall and William J. Fryer, Chairman.
 Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Chief Croker excused by the Chairman.

Charles Buek announced that the Real Estate Owners and Builders Association had reappointed him as its representative member of this Board of Examiners for the ensuing year, and had so certified him to the Mayor, that he had taken the usual oath of office before the Mayor, and that his certificate of appointment had been duly filed in the City Clerk's office.

Appeal 20, of 1907, Alteration No. of 1907, premises No. 142 Willow street, Brooklyn; Howard S. Hadden, architect and appellant. Laid over at last meeting.

Mr. W. Mottram appeared before the Board.

On motion, denied.

Appeal 21 of 1907, New Building, 110 of 1907, premises Nos. 56 and 58 West Twenty-second street, Manhattan; Messrs. Maynicke & Franke, architects and appellants.

Additional stairs should be provided for the reason that an equally good or more desirable form of construction can be employed.

Also because section 75 of the Code is complied with, as the requisite number of staircases is provided, as shown on plans.

The Building Code, section 75, requires two staircases for 5,000 square feet in the building. The building contains but 4,140 square feet, and two staircases are provided, one interior and one exterior.

The question which the appellants desire to have passed upon, is to approve the staircases, i. e., one interior and one exterior staircase, as shown on plans.

First—Because section 75 of the Code is complied with.

Second—Because an exterior staircase, in addition to the one interior staircase, is an improvement upon having two interior staircases for the reason that the smoke in case of fire will not be dangerous on the exterior staircase.

Third—Because the exterior staircase has a fire proof door on each story, leading to a platform on the staircase. The staircase is not built as an ordinary fire escape, but is a regular staircase, and is enclosed with heavy wire screens, and has a fire-proof passageway on the first story to the street.

Mr. J. Franke appeared before the Board.

On motion, approved on condition that the outside stairs shall be built with rise not to exceed 9 inches in height, and that the treads shall be not less than 10 inches in width, and that the platforms shall be at least 3 feet in width.

Appeal 22 of 1907, New Building 193 of 1907, premises Nos. 22 to 28 West Twenty-first street, Manhattan; Messrs. Maynicke & Franke, architects and appellants.

"Additional stairs are required" (section 75 of Code).

For the reason that an equally good or more desirable form of construction can be employed. Also because section 75 of the Code is complied with, as the requisite number of staircases is provided, as shown on plans.

The Building Code, section 75, requires three staircases for 10,000 square feet in a building. The building contains but 8,400 square feet, and three staircases are provided, two interior and one exterior.

The question which the appellants desired to have passed upon is to approve the staircases, i. e., two interior and one exterior staircase, as shown on plans.

First—Because section 75 of the Code is complied with.

Second—Because an exterior staircase, in addition to the two interior staircases, is an improvement upon having three interior staircases, for the reason that the smoke in case of fire will not be dangerous on the exterior staircase.

Third—Because the exterior staircase has a fire-proof door on each story, leading to a platform on the staircase.

The staircase is not built as an ordinary fire escape, but is a regular staircase, and is enclosed with heavy wire screens, and has a fire-proof passageway on the first story to the street.

Mr. J. Franke appeared before the Board.

On motion, approved on condition that the outside stairs shall be built with rise not to exceed 9 inches in height, and that the treads shall be not less than 10 inches in width, and that the platforms shall be at least 3 feet in width.

Appeal 23 of 1907, New Building 257 of 1907, premises Nos. 32 to 36 West Eighteenth street, Manhattan; Messrs. Maynicke & Franke, architects and appellants.

"Additional stairs are required" (section 75 of Code).

For the reason that an equally good or more desirable form of construction can be employed.

Also because section 75 of the Code is complied with, as the requisite number of staircases is provided as shown on plans.

The Building Code, section 75, requires three staircases for 10,000 square feet in the building. The building contains but 6,300 square feet, and three staircases are provided, two interior and one exterior.

The question which the appellants desire to have passed upon, is to approve the staircases, i. e., two interior and one exterior staircase, as shown on plans.

First—Because section 75 of the Code is complied with.

Second—Because an exterior staircase, in addition to the two interior staircases, is an improvement upon having three interior staircases for the reason that the smoke in case of fire will not be dangerous on the exterior staircase.

On motion, approved on condition that the outside stairs shall be built with rise not to exceed 9 inches in height, and that the treads shall be not less than 10 inches in width, and that the platforms shall be at least 3 feet in width.

A communication was received from Mr. S. A. McGuire, in reference to Alteration 3121 of 1906, asking for modification bearing upon the fireproof doors enclosing the stair-hall, which was

On motion, laid over.

Adjourned.

EDWARD V. BARTON, Clerk.

BOARD OF EXAMINERS.

May 21, 1907.

Present—Messrs. Warren A. Conover, Charles G. Smith, Lewis Harding, Charles Buek, Edward F. Croker, Henry R. Marshall and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

A communication from Mr. S. A. McGuire, referring to Appeal 8 of 1907, Alteration 3121 of 1906, was withdrawn by request.

Appeal 24 of 1907, New Building No. of 1907, premises No. 478 Sterling place, Brooklyn; Albert Ullrich, architect.

Application was denied by the Superintendent of Buildings for the Borough of Brooklyn, on the ground that said building would cover more than 8,000 square feet and that section 32 of the Building Code requires that any such building erected on an interior lot shall not cover more than 8,000 square feet unless said building is constructed of fire proof material or is divided by a fire-wall, so that none of each section would cover more than 8,000 square feet.

It is claimed that the rules and regulations of the President of said Borough, or the provisions of law, or ordinances do not apply for the reason that the proposed building would be only two stories in height and that said building would cover only 9,300 square feet or 1,300 square feet only over the allowed 8,000 square feet. This said building will be used for light manufacturing purposes and that the cost of making such building fire proof would be prohibitive.

That the appellant be permitted to build said building covering an area of 9,300 square feet, being 1,300 square feet over the 8,000 square feet permissible area.

That section 32 of the Building Code gives power to the Board of Examiners to allow such building when not more than three stories in height to cover a greater area than 8,000 square feet.

Mr. Ullrich appeared before the Board.

On motion, approved.

Appeal 25 of 1907, Alteration 691 of 1907, premises No. 34 East Twenty-third street, Manhattan; Charles I. Berg, appellant.

No. 1. Building should be made fireproof if same is to be raised in height as proposed.

The Superintendent of Buildings rejects and refuses to approve the mode, manner of construction and materials proposed to be used.

Permission is asked to add a partial story on top of a non-fireproof building. The height of said building is 75 feet.

The addition asked for is to cover only about 25 per cent. of the rear portion of said building, and is what is commonly termed a "pent-house"; it is the intention to make the walls of brick, and the roof to be made fireproof with beams and fireproof arches.

The old roof beams are not to be disturbed, and will remain in their present position, and are to be used for the flooring of new story. Fireproof arches to be of type attached herewith, using 9 inch I's, No. 21.

This addition is made for the sole purpose of supplying adequate living quarters for the superintendent of the building.

The owner believes that the security of the building is materially enhanced thereby, and the appellant further believes that heretofore permission for such structure when made fireproof as above indicated has been granted by the Department.

Would therefore ask for a like ruling in this case.

Mr. Charles I. Berg appeared before the Board.

On motion, denied.

Appeal 26 of 1907, new structure, premises southeasterly end of Dreamland Park, Coney Island, Brooklyn; Edward H. Marhoefer, appellant.

That said structure, being of frame, and a part thereof being over 40 feet in height, does not comply with section 146 of the Building Code.

Section 146 of the Building Code does not apply, for the reasons:

That no part of said structure is to be used or occupied as a dwelling, nor is it designed for occupancy as a dwelling.

That, of said structure, no portion exceeding a height of 40 feet is to be covered or enclosed, but is to remain entirely open.

That said structure is, by specification, and in fact, to be constructed of heavy spruce and yellow pine timber, and can be safely classified as slow burning construction.

That said structure is to be erected upon a pier ending 480 feet into the ocean (which pier is to be reinforced in compliance with the rules of the Department of Docks and Ferries). The north end thereof to be 25 feet distant from the nearest building thereof, while the nearest structures thereto on the east and west sides thereof will be more than 100 feet away, the ocean being on the south side of said structure.

Said structure is not within the fire limits.

Section 146 was apparently adopted as a precautionary anti-fire measure for safeguarding life, and intended to apply only to structures erected for purposes of habitation.

To be allowed to build said structure to the height of 67 feet as shown on the plans, with spruce and yellow pine timbers, instead of with fire-proof materials.

The length of said scenic railway structure being about 400 feet, and the distance to be traveled around the same being about 1,600 feet, it is absolutely necessary that said structure at the point from where the car starts be built to a height of 58 feet (bracing timbers to a height of 9 feet being above), in order to obtain the necessary grade per centum to create sufficient momentum for the progress of the car.

And the cost of a fire-proof construction of said structure is prohibitive as a business investment for the earnings that the operation of the structure will bring.

Messrs. M. A. Rue, E. H. Marhoefer and F. C. Harbour appeared before the Board.

On motion, referred to Chief Croker for examination and report.

Adjourned.

EDWARD V. BARTON, Clerk.

BOARD OF EXAMINERS.

May 28, 1907.

Present—Messrs. Warren A. Conover, Charles Buek, Charles G. Smith, Lewis Harding, Edward F. Croker, Henry R. Marshall and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

On motion, Mr. Conover was elected temporary Chairman.

Messrs. Fryer and Buek were excused.

Appeal 26 of 1907, new structure premises southeasterly end of Dreamland Park, Coney Island, Brooklyn; Edward H. Marhoefer, appellant.

On motion, laid over for one week.

Appeal 27 of 1907, New Building, No. of 1907, premises south side of Hanson place, 213 feet 6 inches east of Ashland place, Brooklyn; Long Island Railroad Company, appellants; J. R. Savage, Chief Engineer.

Would cover more than 8,000 square feet contrary to section 32 of the Building Code for a building on an interior lot.

An area greater than 8,000 square feet may, considering location, driveways and purpose, be allowed by the Board of Buildings when the proposed building does not exceed three stories in height.

Is the area prohibitive considering location, purpose and ample driveway facilities, giving free access to three sides of the proposed building and giving practically as much frontage as if the building was surrounded by streets upon three sides.

A building with area of 50,000 square feet without partition walls, is absolutely essential to the conduct of the appellant's freight business in the Borough of Brooklyn.

Mr. J. R. Savage and General Wingate appeared before the Board.

On motion, approved on the following conditions:

That the sleepers on the first floor be filled in solid with concrete, and that the roof be made thoroughly fireproof.

Appeal 28 of 1907, New Building No. of 1907, premises west side of Manhattan avenue, 100 feet north of Calyer street, Brooklyn; William H. McElpatrick, appellant.

No. 1. The exit court on the north side of building does not lead directly to Manhattan avenue, free and unobstructed.

The architect considers that the present arrangement of said exit court is more conducive to the quick dismissal of the audience after each performance; also, that the owner has but 25 feet frontage on Manhattan avenue, it will be impractical to leave but 13 feet of this space on which to erect an entrance building.

Whether the said Superintendent of Buildings of the Borough of Brooklyn will not grant a permit for the erection of this building with the present arrangement of exits and courts, as shown on ground plan.

That this theatre, as at present arranged and in proportion with the seating capacity as shown on attached plans, will have better means of exit and will be safer in point of fire-proof construction and in compliance with present Building and Fire Laws than any building of similar character in The City of New York.

On motion, laid over for one week by request of the appellant.

Appeal 29 of 1907, Alteration No. of 1907, premises northeast corner of Meeker avenue and Van Dam street, Brooklyn; Andrew Rissler, appellant.

In that building not being fireproof will cover an area of more than 12,500 square feet, section 32 of Building Code.

The structure being only one story high and to be used for temporary storing of sawdust only.

Building is to be erected eighteen blocks outside of the fire limits in a location suitable for manufacturing plants only.

Building Code, under section 32, states an area greater than 12,500 square feet may, considering the location and purpose, be allowed by the Board of Buildings when the proposed building does not exceed three stories in height.

To permit the erection of said building to cover entire area of nineteen lots or 29,000 square feet, one story high.

First—As owner of said premises according to section 32 could only cover 12,500 square feet and properly being so irregular and too valuable to leave lay idle.

Second—Entire property being enclosed will be safer as to fire resistance than leaving open space or the building of open sheds.

Mr. Andrew Rissler appeared before the Board.

On motion, denied.

Adjourned.

EDWARD V. BARTON, Clerk.

Phelan, Secretary, copy of which is annexed hereto and made a part of this grant.

Sec. 2. The grant of this privilege is subject to the following conditions:

First—The said right to lay one conduit line in each of the streets, avenues or highways, and between the limits as hereinbefore described, and the privilege to maintain and operate the same shall be held and enjoyed by the said Company, its lessee or successors, for a term of fifteen years from the date of the signing of this contract, with the privilege of renewal of said grant for a further period of ten years upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board of Estimate and Apportionment of The City of New York, or any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the Company and the Board of Estimate and Apportionment, or such other authority in its place. If the Company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding ten years shall be reasonable, and either the City (by the Board or such other authority in its place) or the Company shall be bound upon request of the other to enter into a written agreement with such other authority, fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successors in authority; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the contract, and their report shall be filed with the Board of Estimate and Apportionment or its successors in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of this original grant. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—Upon the termination of this contract, or if the same is renewed, then at the termination of the said renewal term or upon the termination of the rights hereby granted, or for any other cause, all conduit lines and appurtenances thereto, constructed pursuant to this contract, shall be and become the property of The City of New York, without compensation therefor, and the same may be used by the City for any purpose whatsoever. If, however, at the termination of this grant, as above, the City, by the Board of Estimate and Apportionment, or its successors in authority, shall so order by resolution, the said Company shall remove, at its own expense, said conduit line and all appurtenances thereto, and shall restore the streets and pavements to their original condition.

Third—The Company, its successors or assigns, shall pay for this privilege to The City of New York the following sums of money, to wit:

1. Five hundred dollars (\$500) in cash within thirty (30) days after the signing of the contract.

2. During the first five years of this contract an annual sum which shall in no case be less than seven hundred and fifty dollars (\$750), and which shall be equal to 5 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of seven hundred and fifty dollars (\$750).

During the second five years of this contract an annual sum which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to 6 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of one thousand dollars (\$1,000).

During the third and remaining five years of this contract an annual sum which shall in no case be less than thirteen hundred dollars (\$1,300), and which shall be equal to 7 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of thirteen hundred dollars (\$1,300).

The gross receipts as above shall be the total receipts of the Company from all business of furnishing refrigerant to consumers outside of its warehouse at No. 30 Hall street, and outside of the lands of the Wallabout Market. The minimum sums provided to be paid annually shall include the percentages of such gross receipts as above and also such sums as may be paid under any agreement made with the Comptroller for privileges in the lands of the Wallabout Market.

3. An annual payment of twenty-five (25) cents for each linear foot of conduit line and two dollars (\$2) for each manhole constructed within the limits of any street, avenue or highway. The sums due shall be calculated from the day when permit is obtained to open the streets for any section of the work.

All sums herein provided for shall be paid into the Treasury of The City of New York on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Any and all payments made by the terms of this franchise to The City of New York by the Company shall not be considered in any manner

in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other company, providing for payments for refrigerating rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgage or mere lienor, but shall apply to any purchaser upon foreclosure, or under or by virtue of any provision of a mortgage or lien.

Fifth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to, or vest in any other person or corporation whatsoever, either by the act of the Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Sixth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways on the route heretofore described.

Seventh—The Company shall complete the entire conduit line along the route hereinbefore described, and have the same in operation within one (1) year from the date of the signing of this contract; otherwise this grant shall cease and determine.

Eighth—All construction which shall be made under this grant shall be done in a manner solely upon the terms and conditions hereafter to be imposed by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, or their respective successors in authority. The said Company shall submit a working plan of construction to the said President and to the said Commissioner, which shall include and show in detail the method of construction of said pipe line, connections, manholes and other appurtenances, and the mode of protection of all subsurface construction under the streets, avenues and highways described in the route.

Ninth—The said Company shall bear the expense of keeping in repair for one year after it has been replaced all pavement which may at any time be removed by said Company, either for the purpose of construction or for the repairing of the pipe line and its appurtenances.

Tenth—The said Company shall bear the expense of inspection, which may be required by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, of all the work of construction required, or removal of the said pipe line, which shall be done under this grant.

Eleventh—The Company shall cause a test to be made of the pipes laid under this grant before said pipes shall be used for the conveyance of gas or fluid under pressure for refrigerating purposes. The pipes so tested shall be submitted to a pressure of 450 pounds per square inch, and such test shall be made under the supervision of the Commissioner of Water Supply, Gas and Electricity. A certificate showing that such a test has been made without injury to the pipes shall be executed by an officer of the Company, indorsed by the Commissioner of Water Supply, Gas and Electricity and filed with the Board of Estimate and Apportionment.

Twelfth—During the term of this contract the Board of Estimate and Apportionment or its successor in authority shall have absolute power to regulate the maximum rates, provided that such rates shall be reasonable and fair.

The Company, upon the application for refrigeration of any person or corporation located along the routes herein authorized, shall extend its conduit to such premises and furnish to said applicant refrigerant at the prices which may be hereafter fixed; otherwise this contract shall cease and determine at the option of the Board of Estimate and Apportionment.

Thirteenth—A correct map shall be furnished to the Board of Estimate and Apportionment by the Company, showing the exact location of all the conduit lines and manholes laid with reference to the curb lines of the streets and the street surface, and the same shall be furnished on the first day of November of each year until all pipe lines which are authorized by this grant are constructed, or until the right hereby authorized to construct pipe lines along the routes described have ceased by limitation, as herein provided.

Fourteenth—The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Fifteenth—The Company shall assume all liability by reason of the construction and operation of the conduit line, and the City shall assume no liability whatsoever to either persons or property by reason of its construction.

As a condition of this grant the Company, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the Company, its successor or assigns.

Sixteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, except as otherwise herein specifically provided, this contract may be forfeited or avoided by The City of New York by a suit brought by the Corporation Counsel, on notice of ten days to the said Company.

Seventeenth—The conduit line hereby authorized shall be used only by the Kings County Refrigerating Company, and for no other purpose than for supplying refrigeration by the ammonia process, or such other process as may be consented to by the Board of Estimate and Apportionment.

Eighteenth—The Company shall at all times keep accurate books of accounts of the gross earnings from the privileges granted under this contract. The Company shall, on or before November 1 in each year, make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain the number of feet of conduit laid and the number of manholes constructed during the year, and also a statement of the gross receipts from all business of furnishing refrigerant to consumers outside of its warehouse at No. 30 Hall street, together with such other information and in such detail as the Comptroller may require.

The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Nineteenth—The Company shall comply with the existing provisions of Article V. of chapter 566 of the Laws of 1890, and future amendments thereto, except in so far as the same are inconsistent with the provisions of this contract, and provided that all powers of the Company shall be limited by the provisions of this contract.

Twentieth—If the said Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed or fails to maintain its structures in good condition throughout the full term of its occupancy of such streets, the Board of Estimate and Apportionment of The City of New York may give written notice to the said Company specifying any default on the part of said Company and requiring said Company to remedy the same within a reasonable time, and upon the failure of the Company to remedy the said default within a reasonable time, said company shall, for each day thereafter during which the default or defect remains, pay to The City of New York a sum of \$50, as fixed or liquidated damages, or the said City, in case such structures, which may affect the surface of the streets, shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the said Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund hereinbefore provided.

Twenty-first—This grant is upon the express condition that the Company within thirty days after the execution of this contract and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of five hundred dollars (\$500), either in money or in securities, to be approved by him, which fund shall be security for the performance by the Company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the privilege and the penalties herein provided, and in case of default in the performance by said Company of such terms and conditions, The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges, shall collect the same, with interest from said fund after ten days' notice in writing to the said Company. In case of any drafts so made upon this security fund, the said Company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of five hundred dollars (\$500), and in default thereof, the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Twenty-second—The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held in the Old Council Chamber, Room 16, City Hall, Borough of Manhattan, on Friday, May 24, 1907, the following proceedings were had:

Whereas, The Nassau Electric Railroad Company has, under date of May 29, 1905, made application to this Board for a grant of the right, privilege and franchise to construct, maintain and operate a street surface railroad upon and along Livingston and other streets, in the Borough of Brooklyn; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Nassau Electric Railroad Company and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Nassau Electric Railroad Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Nassau Electric Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

This contract, made this day of 1907, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Nassau Electric Railroad Company, incorporated for the purpose of building, maintaining and operating a railroad (hereinafter called the Nassau Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Nassau Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double-track street surface railroad, with the necessary wires and equipment, crossovers, switches and turnouts, for the purpose of conveying persons and property in the Borough of Brooklyn, City of New York, upon the following route:

Commencing at the intersection of Livingston street and Court street; thence through and along Livingston street to Flatbush avenue; thence through and along Flatbush avenue to Lafayette avenue; thence through and along Lafayette avenue to Fulton street, together with the right to connect the aforesaid tracks with the existing tracks of the Brooklyn City Railroad Company upon Court street, Flatbush avenue and Fulton street; with the existing tracks of the Nassau Electric Railroad Company upon Boerum place, and with the existing tracks of the Brooklyn City and Newtown Railroad Company upon Smith street.

The said route, with crossovers, switches and turnouts, is illustratively shown upon the plan and profile herewith attached, entitled "Map showing plan of tracks of Nassau Electric Railroad Company on application for franchise from City of New York," dated May 29, 1905, and signed E. W. Winter, President; approved, Eugene Keapp, Chief Engineer; which plan and profile are to be deemed and hereby are made a part of this franchise. Provided that deviations therefrom and additional crossovers, switches and turnouts which are consistent with the foregoing description and other provisions of this franchise, may be permitted by resolution of the Board of Estimate and Apportionment.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Nassau Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Nassau Company within six months of the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained, the Nassau Company shall, within two months thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and terminate.

Second—The said right to construct, maintain and operate a double track street surface railroad and the connections as herein described shall be held and enjoyed by the Nassau Company, its successors or assigns, for the term of ten (10) years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for a further period of ten (10) years upon a fair revaluation of such right and privilege. Such revaluation shall be of the right and privilege to maintain and operate the said railroad by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the Nassau Company, its successors or assigns.

If the Nassau Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Nassau Company and the Board.

If the Nassau Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten years shall be reasonable, and either the City (by the Board) or the Nassau Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall

be chosen by the Nassau Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgments upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Nassau Company and its officers under oath. The valuation so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Nassau Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expense of the said appraisers shall be borne jointly by the City and the Nassau Company, each paying one-half thereof.

Third—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, the tracks and appurtenances, including sub and superstructure, poles, wires and subways for electrical conduits, constructed pursuant to this contract, within the streets and highways hereinafter described, may be acquired by the City in the manner hereinafter described, and, if so acquired, the same may be used or disposed of by the City for any lawful purpose whatsoever, or may be leased to any company or individual. In case the City should decide, by resolution of the Board, to acquire said tangible property constructed in connection with and pertinent to the franchise hereby conferred, a certified copy of the resolution of the Board declaring such intention shall be served upon the Nassau Company at least six months prior to the termination of this contract; or, if the same be renewed, then at least six months prior to the termination of the said renewal term; or, in case of the termination of this contract for any other cause than by expiration, within thirty days after such termination. If the City (by the Board) and the Nassau Company, after the declaration of such intention by the Board and the receipt of said resolution by the Nassau Company, can agree as to the then value of such tangible property, the amount thus agreed upon shall thereupon be paid by the City to the Nassau Company, and the property thus acquired shall become the property of the City from and after the date of termination of this contract or any renewal thereof. Nothing shall be included in such amount for any value derived from the franchise. In case, however, the City (by the Board) and the Nassau Company shall not agree as to the then value of said property within a reasonable time, such value shall be determined by appraisal in the manner hereinafter described in connection with the revaluation of the terms of this franchise in case of a renewal thereof. If, however, within the time or times hereinafter mentioned, the City shall not declare its intention of acquiring said tangible property, the Nassau Company shall, at the termination of this contract or of any renewal thereof, remove any and all of its tracks and appurtenances constructed pursuant to this contract in said streets and avenues, and said streets and avenues shall be restored to their original condition, at the sole cost and expense of the Nassau Company. In case the Nassau Company shall neglect, after due notice from the City (by the Board) to remove said tracks and appurtenances after the expiration of this contract or any renewal thereof, then the City shall have the right to make such removal and to collect the expense thereof from the Nassau Company.

Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways, and the right to make the requisite and necessary connections with the tracks of the Nassau Company, its successors or assigns, which shall be constructed under this contract.

The use of the railroad which shall be constructed and maintained in the streets, avenues and highways under this contract including the tracks, wires and other equipment used in connection therewith, shall be permitted by the Nassau Company, its successors or assigns, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways for street railroad purposes, upon payment of an annual sum by such individual or corporation to the Nassau Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railroad, and such proportion of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation, and such proportion of the cost of laying and repairing of pavement and removal of snow and ice, and of all the other obligations imposed upon the Nassau Company by the terms of this contract, in connection with the maintenance or the operation of the said railroad so used, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies using the same. And, in addition to the said annual sum, computed as aforesaid, the Nassau Company shall have the right to charge such corporation or individual a portion of the original cost of said railroad—the amount so charged to be in proportion to the respective use of said railroad, and to be also based upon that proportion of such part of the original cost as the unexpired portion of the franchise shall bear to the entire period thereof.

If at any time during the terms of this contract the City shall operate a street surface railroad over the whole or any portion of the railroad which shall be constructed under this contract, the Nassau Company shall allow the City to use the whole or any part of the track and track equipment upon payment by the City of an annual sum, which shall be no greater in proportion to the use than is provided above in the case of the use of said tracks and track equipment by other street railroad companies.

Each individual and corporation shall be charged by the Nassau Company a rental for the use of the aforesaid railroad tracks and appurtenances thereof that shall be uniform in proportion to use with that which the Nassau Company charges any other individual or corporation.

Fifth—The Nassau Company, its successors or assigns, shall pay for the right to construct, maintain and operate the tracks hereby authorized and described for and during the first five years after the commencement of the operation

of this extension, into the treasury of the City, to the credit of the Sinking Fund thereof, three per cent. (3%) of its gross receipts for and during the year ending September 30 next preceding; and after the expiration of such five years make a like annual payment into the treasury of the City, to the credit of the Sinking Fund, of five per cent. (5%) of its gross receipts, such percentages to be paid only upon such portion of the Nassau Company's gross receipts as shall bear the same proportion to its whole gross receipts as the length of its extension shall bear to the entire length of its railroad.

The president and the treasurer of the Nassau Company shall, on or before November 1 in each year, make a verified report to the Comptroller or chief fiscal officer of the City of the gross amount of its receipts for the year ending September 30 next preceding, and the books of such corporation shall be open to inspection and examination by such Comptroller or officer, or his duly appointed agent, for the purpose of ascertaining the correctness of its reports as to its gross receipts, and shall state in such report the total mileage of its extension herein authorized and the total mileage of the Company.

All payments provided for under this paragraph shall be made on or before November 1 in each year.

The annual charges of payments shall continue throughout the whole term of the contract hereby granted, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, or of any part thereof, or of any of the routes mentioned herein, or of any parts thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, especially said conditions as to payments, anything in the statute or in the charter of such assignee or lessee to the contrary notwithstanding; and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim, by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this contract.

The rights and privileges granted hereby shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right of interest or property therein, pass to or vest in any other person or corporation whatsoever, either by act of the Nassau Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding. And the granting, giving or waiving of any two or more of such consents shall not render unnecessary any subsequent consent or consents.

Nothing in this contract shall interfere with or prevent the Nassau Company making traffic arrangements for cars of the Brooklyn Rapid Transit system, and shall not be construed to prevent other companies or the City operating over the tracks of this extension hereby granted.

All compensation received by the Nassau Company from other railroad companies or from the City for the use of the tracks covered by this agreement shall be included in the amount of gross receipts upon which the Nassau Company is required to pay to the City annually the percentage provided above.

Sixth—The Nassau Company shall commence construction of the railroad herein authorized within three months from the day upon which the consents of the property owners are obtained, or from the decision of the Appellate Division of the Supreme Court, that such railroad ought to be constructed, and shall complete the construction of the same within six months from the same date, otherwise this grant shall cease and terminate, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided, further, that if the commencement or completion of said construction shall be prevented by legal proceedings in any Court, or by works of public improvement or from any other different cause not within the control of the Nassau Company, the time for the commencement or completion of such construction shall be extended for a period covered by such prevention.

Seventh—The said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City, who have jurisdiction in such matters, as provided in the Charter of the City.

Eighth—The said railroad shall be constructed and operated in the latest improved manner of street railway construction and operation for overhead trolley railroad, and the railroad and property of the Nassau Company shall be maintained in good condition throughout the term of this contract.

Ninth—The rate of fare charged for any passenger upon such railroad by any corporation operating thereon not to exceed the rate lawfully chargeable by such corporation for any passenger for one continuous ride from any point on its railroad, or of any road, line or branch operated by it or under its control, to any other point thereof, or of any connecting line or branch thereof within the limits of the City.

Tenth—The cars of each of the lines of the Nassau Company shall be run both day and night, as often as the reasonable convenience of the public may require, or as directed by the Board.

Eleventh—The Nassau Company shall attach to each car run over the said railroad proper fenders or safeguards, in conformity with such laws and ordinances as are now enforced, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Twelfth—All cars which are operated on said railroad shall be heated during the cold weather, in conformity with such laws and ordinances as are now enforced, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Fifteenth—The Nassau Company shall at all times keep the streets, avenues or highways upon

which the said railroad is constructed, between its tracks, the rails of its tracks, and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Nassau Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season or part thereof to clean an equivalent amount of street surface from curb line to curb line.

Sixteenth—The Nassau Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railroad is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities and whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the corporation to make pavements or repairs after the expiration of thirty days' notice to do so, the local authorities may make the same at the expense of such corporation. The Company agrees that notice printed in the City Record shall constitute sufficient notice within the meaning of this contract. And the City shall have the right to change the material or character of the pavement of any such street, avenue or highway, and in that event the Nassau Company, its successor or assigns, shall be bound to replace the pavement on the portion of the street it is responsible for in the manner directed by the proper City officer at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Seventeenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, where not otherwise provided by self-executing penalties, this contract may be forfeited by a suit brought by the Corporation Counsel on notice of ten days to the Nassau Company, or at the option of the Board by resolution of said Board.

Eighteenth—If the Nassau Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed or to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Nassau Company, specifying any default on the part of the Nassau Company, and requiring the Nassau Company to remedy the same within a reasonable time; and upon failure of the Nassau Company to remedy such default within a reasonable time the Board of Estimate and Apportionment shall, after the hearing hereinafter provided for, fix such an amount that said Nassau Company shall pay as a penalty as shall seem just and fair to said Board, or the Board, in case such structures which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board, as aforesaid, shall have the right to make all needed repairs at the expense of the Nassau Company, in which case the Nassau Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided.

Nineteenth—The Nassau Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Nassau Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twentieth—This grant is based upon the expressed condition that the Nassau Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of ten thousand dollars (\$10,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Nassau Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice, and the quality of the construction of the railroad; and in case of default in the performance by the Nassau Company of such terms and conditions, the City shall have the right to cause the work to be done and material to be furnished for the performance thereof, after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceeding; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund, after ten days' notice in writing to the Nassau Company. Or in case of failure to keep the said terms and conditions of this contract relating to the headway, heating and lighting of cars, fenders, wheelguards and watering of street pavements, the Company shall pay a penalty to be fixed by the Board of Estimate and Apportionment after the hearing hereinafter provided for.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Nassau Company, through its president, to appear before the Board of Estimate and Apportionment on a certain day, not less than ten days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Nassau Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board of Estimate and Apportionment to be in fault, said Board of Estimate and Apportionment shall forthwith impose such an amount as a penalty as appears to it to be just and fair, and without legal procedure instruct the Comptroller to withdraw the said amount of such penalty from the security fund deposited with the Comptroller. In case of any drafts made upon the security fund the Nassau Company shall, upon ten days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars, and in default thereof this contract shall be canceled and null, at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any of the legal rights, remedies or causes of action belonging to the City.

The Company agrees to make application to the Commissioner of Water Supply, Gas and Electricity for permission to string and maintain its electrical conductors in the streets covered by this grant.

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and of the terms and conditions, including the provision as to rates, fares and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right;
