BOROUGH OF RICHMOND.

LOCAL BOARD, STATEN ISLAND DISTRICT.

Meeting February 23, 1909, 10.30 a. m.

Present—Aldermen Collins, Rendt and Cole and President Cromwell.

The minutes of the meeting of February 9 were approved.

Petition 905 (Resolution 62).

To construct sewer in Stuyvesant place and extension, First Ward.

The following resolution was moved by Alderman Collins and was adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Richmond, etc.

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To construct a combined sewer, with necessary appurtenances, in unnamed street (extension of Stuyvesant place) and Stuyvesant place, from Arrietta street to a point about six hundred and eighty-five (685) feet north of Weiner place, in the First Ward of the Borough of Richmond; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Affirmative—Aldermen Collins, Rendt and Cole and President Cromwell.

Negative—None.

Petition 906.

To construct a sewer in Wright street, Third Ward.

Referred to the Commissioner of Public Works to report.

Complaint.

A delegation of the Concord Property Owners' Association petitioned the Board for highway work in certain streets in the Fourth Ward, to relieve the surface drainage situation, and President Cromwell said that he would take the matter up at once with the Commissioner of Public Works, and it was so referred.

On motion, the Board adjourned.

MAYBURY FLEMING, Secretary.

DEPARTMENT OF DOCKS AND FERRIES.

New York, January 5, 1909.

The following communications were received, action being taken thereon as noted, to wit:

From the Department of Public Charities (79562, 79647)—Requesting repairs to the sheathing on the dock foot of Seventieth street, East River. Repairs ordered.

From the President of the Borough of Brooklyn—

1 (71517). Submitting statement showing the water-front owned by the City in the Borough of Brooklyn. Filed.

2 (79659). Requesting permission to berth free floating baths between Twenty-eighth and Thirty-fourth streets, Brooklyn. Permit granted, it being understood that the baths will be removed upon ten days' notice from this Department.

From the President of the Borough of Manhattan (79735)—Submitting report relative to the inadvisability of storing the free floating baths between Twenty-eighth and Thirty-fourth streets, Brooklyn. Filed.

From James Stewart (79597)—Requesting permission to store building material between West Fifty-second and Fifty-fourth streets, North River. Permit granted for a space 30 by 100 feet in dimensions, to continue during the pleasure of the Commissioner, but not longer than April 30, 1909, rental to be at the rate of $37.50 per month, payable monthly, in advance, to the Dockmaster.

From John A. Philbrick & Bro. (79676)—Requesting permission to store brick in rear of bulkhead, between One Hundred and Thirty-second and One Hundred and Thirty-third streets, North River. Permit granted for a space 30 by 100 feet in dimensions to continue during the pleasure of the Commissioner, but not longer than April 30, 1909, rental to be at the rate of $37.50 per month, payable monthly, in advance, to the Dockmaster.

From the Third Avenue Railroad Company, Dry Dock, East Broadway and Battery Railroad Company, and the Forty-second Street, Manhattanville and St. Nicholas Avenue Railroad Company (79700)—Requesting general permit to make repairs, from time to time, to their car tracks along the water-front of the North, East and Harlem Rivers. Permit granted, on usual terms, to continue during the pleasure of the Commissioner, but not longer than December 31, 1909.

From the Hamburg-American Line (79736)—Requesting permission to make repairs, from time to time, to Pier 55, North River, and to the shed thereon. Permit granted, on usual terms, to continue during the pleasure of the Commissioner, but not longer than December 31, 1909.

From the Occident Dock Company (79617)—Complaining of the congested condition of the slip between West Twenty-ninth and Thirtieth streets, North River. Answered that relief will be afforded by the Dockmaster.

From the Murray & Reid Company (79610)—Disclaiming responsibility for the damage to the top fender on the bulkhead between Sixty-first and Sixty-second streets, East River. Filed.

From John C. Groh (79584)—Requesting permission to occupy Lot No. 7 of Block 35, at Broad Channel, Jamaica Bay, Borough of Queens. Answered that permit will be granted upon payment of the rent at the rate of $36.60 per annum.

From the Taxpayers' Alliance of the North Shore of Richmond Borough (79564)—Calling attention to the absence of wind shields on the Staten Island ferryboats. Answered that the shields have been placed in position.

From the Chief Engineer (79734)—Reporting that William A. Cross, Dockbuilder, died January 3, 1909. Name dropped from list.

R. P. & J. H. Staats (79580) were authorized and directed to make certain alterations and changes in the work under Contract No. 1090, for the erection of sheds on Piers 57, 58 and 59, North River, and on the adjoining bulkhead platforms, at an additional cost of $8,315 over and above the contract price.

The Snare & Triest Company (79616) was authorized and directed to make certain alterations and changes in the work under Contract No. 1054, for the erection of sheds on Piers 54 and 56, North River, and on the adjoining bulkhead platforms, at an additional cost of $10,587 over and above the contract price.

The Maryland Steel Company (79621) was authorized and directed to make certain alterations and changes in the work under Contract No. 1091, for the erection of sheds on Piers 60, 61 and 62, North River, and on the adjoining bulkhead platforms, at an additional cost of $7,495 over and above the contract price.

DENIS A. JUDGE, Deputy and Acting Commissioner.

New York, January 6, 1909.

The following communications were received, action being taken thereon as noted, to wit:

From the Comptroller (79738)—Advising that on December 15, 1908, the sum of $153,551.81, was deposited to the credit of the Dock Fund, the principal amounting to $150,000, and the premium to $3,551.81. Filed.

From the Department of Parks for the Boroughs of Brooklyn and Queens (79701)—Submitting statement of water-front property under its jurisdiction. Filed.

From the Department of Parks, Borough of The Bronx (79706)—Submitting statement of water-front property under its jurisdiction. Filed.

From the Department of Bridges (79623)—Requesting that an addition be constructed to the platform along the westerly side of Pier 32, East River. Chief Engineer directed to construct the addition.

From W. E. Cleary (79755)—Requesting permission to dredge at the dumping board, between Ninety-fourth and Ninety-fifth streets, East River. Permit granted, work to be done under the supervision of the Chief Engineer.

From the Bouker Contracting Company (79745)—Requesting permission to repair the dump on the northerly side of the pier foot of Forty-seventh street, North River. Permit granted, work to be done under the supervision of the Chief Engineer.

From A. J. Forman (79725)—Requesting permission to tap the Department's water main at the foot of Seventy-eighth street, East River Permit granted, work to be done under the supervision of the Chief Engineer, the main to be properly metered in accordance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

DEPARTMENT OF PUBLIC CHARITIES.

REPORT FOR THE QUARTER ENDING SEPTEMBER 30, 1908

Department of Public Charities of The City of New York,
Foot of East Twenty-sixth Street,
January 27, 1909.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—Herewith I have the honor to transmit, pursuant to the provisions of section 1544, chapter 466, Laws of 1901, the report of the Department of Public Charities of The City of New York, for the quarter ending September 30, 1908, together with the reports of the heads of institutions under the jurisdiction of the Department for the same period.

CENSUS.

The average daily census of patients in the hospitals, schools for the feeble minded, asylums, home for the aged and infirm and other institutions of the Department for this quarter has been 8,683, as against 7,763 for the corresponding period of the preceding year, and 27 more than the preceding quarter, which was 8,656.

ESTIMATE FOR 1909.

During this quarter the yearly estimate for 1909 was compiled and under date of July 15 submitted to the Board of Estimate and Apportionment. The total amount asked for to cover the entire expenses of the Department for 1909 was $3,111,297.69, an increase of $742,855.18 over that allowed for 1908. The main items that go to make up this large increase are: Salaries and Wages, Supplies and Contingencies, Alterations, Additions and Repairs to Buildings and Apparatus.

Salaries and Wages—The aggregate increase desired in this appropriation for the year 1909 over the appropriation for the same item during 1908 is $297,679.16. Several considerations enter into the reasons for this large increase. The basis for such is in each case the desire to promote the efficiency of the Department by securing where necessary a better class of employees, required either because of increased demands or more adequately to meet those already existing, and paid employees to take the place of some of the unpaid workers, particularly in the hospital service. Paying the prevailing rate of wage to mechanics and others and the employment of competent workmen in the places of Hospital Helpers Additional employees are required to meet the enlarged service of the institutions, due in part to increased facilities at the Metropolitan and City Hospitals, as well as at the new Municipal Lodging House; and additional help required to run the new steamboat of the Department, "The Lowell," which went into commission on September 10, 1908.

Supplies and Contingencies—The increase of $248,463.94 for supplies and contingencies is requested over the appropriation for the current year, which is insufficient. The necessity for the increase asked for is shown by the distribution during the first five months of this year, indicating this large excess in the necessary expenditures of the Department. The principal reason for this increase is the abnormal increase in the census of the institutions of the Department, owing in large part to the acute business depression from which the community has been suffering. For the first six months of the present year this increase has amounted to a daily average of nearly 900, and the indications that it will exceed a daily average of 1,500 during 1909. The facilities of both the City Hospital and the Metropolitan Hospital on Blackwells Island have just been enlarged and the new Municipal Lodging House will be opened during the greater part if not during all of the year. These facts taken in connection with an almost constant rise in the price of important elements of the food supply, particularly of meat, clearly indicate the necessity for a considerable increase in the appropriation for supplies and contingencies.

Alterations, Additions and Repairs to Buildings and Apparatus—Increase desired, $241,200. The needs of the Department in this direction are shown in detail in the tables of this estimate. The Department has a large number of buildings in connection with its various institutions and many of them are in a poor state of repair, owing to long continuous delay in the work. A considerable sum is needed to put them in a good efficient condition. It is also desired to improve the grounds and the walks about the institutions. It will be more economical and satisfactory to have this work thoroughly done in the near future than to postpone action until a later time.

ADMINISTRATIVE IMPROVEMENTS GENERALLY.

During the latter part of this quarter a new official time table of the steamers of the Department was issued, to go into effect October 1, 1908. This service includes the new steamer of the Department, "The Lowell," launched on May 25 and which went into commission the early part of September.

NEW BUILDINGS AND PERMANENT IMPROVEMENTS.

New Nurses, Home and Training School, Kings County Hospital.

Under date of August 24, proposals were opened "For furnishing all the labor and materials required for the erection and completion of Nurses' Home and Training School, Kings County Hospital, Borough of Brooklyn, The City of New York." Sixteen proposals were received, the lowest being that of J. F. Walsh & Brother, No. 351 Park avenue, New York City, amount $240,951, to whom the contract was awarded on September 3, 1908.

New Waiting Room, East Fifty-third Street Pier.

Under date of September 14, proposals were opened "For furnishing all the labor and materials required for the entire completion of a new waiting room situated at the dock at the foot of East Fifty-third street, Borough of Manhattan, The City of New York." Fourteen proposals were received, the lowest being that of Albert Winternitz, amount $2,560, to whom the contract was awarded on September 21, 1908.

PROGRESS ON NEW BUILDINGS BEING CONSTRUCTED ON BLACKWELLS ISLAND.

CITY HOSPITAL DISTRICT.

Superintendent's Building.

Completed except final coat of paint on the roof, and radiators, cleaning up and connecting the leaders to the drains.

Staff Building.

Completed with the exception of replacing bluestone sill of rear door, installation of elevator car, erection of kalamined doors, setting of iron saddles, papering of the rooms and hall of first story, painting of roofs and radiators and connecting of leaders with the drains.

Service Building.

Plaster work complete except patching and repairing. Trim doors and hardware nearly completed. Kalamined doors of first floor corridor being hung. Granolithic floor laid in rooms of third story, the store room of second story and in part of cellar. Tile floor laid in pastry room and work going on in kitchens. Steam and water connections laid around areaway. Electric wire pulled. Refrigerating mains erected and being covered.

METROPOLITAN HOSPITAL DISTRICT.

New Nurses' Home.

Very little progress made on this building toward latter month of this quarter, due to contractor being unable to obtain material to complete trim throughout building and to defectively applied composite material in toilet and bath rooms, which were condemned and ordered removed. All these matters are now adjusted satisfactorily and greater progress should be made during the next quarter. Plaster work throughout building completed. All terrazza flooring completed except for small amount of honing to surfaces. All composite material applied and, except for waxing of surface, completed. All ornamental iron work completed, also roofing. All trim, except main hall, completed; finished floors yet to be laid, which will be done as soon as painting is completed. Two coats of paint yet to be applied to entire interior of building; also final coat to roof and exterior wood and iron work. All plumbing fixtures connected up and ready for testing. All electric wiring pulled and system is ready for setting panel boards. Grading yet to be done.

CITY HOME DISTRICT.

Operating Pavilion.

Plaster work completed and all flooring and wainscoting should be laid and finished beginning of following quarter. The operating room window glazed but not painted. All door jambs erected and approximately all the windows trimmed. Varnishing of connecting corridors started.

Male Reception Pavilion.

Plaster work completed and has received first two coats of paint. All wood and granolithic flooring laid. All trim erected, doors being hung and approximately all hardware set. Slate work, with exception of one slab, completed and all plumbing fixtures erected. All exterior window glazing completed. All lockers for clothing storage completed.

Female Reception Pavilion.

Plaster work completed and first two coats of paint applied. Painting of trim started. All finished wood floor laid. All slate work practically completed. All exterior window glazing completed. All trim completed and about three-quarters of lockers for clothing storage completed.

HOSPITAL PAVILION.

Work progressing favorably. Excavation for exterior wall completed and footings laid. Interior of building excavated to a level even with lap of footings and excavation for eight of the twelve column footings done and footings set. Approximately all dampproofing of footings of exterior wall completed and walls of south wing and west wall of centre section has approximately been built up to water-table level.

KINGS COUNTY HOSPITAL INSTITUTIONS.

Pathological Building.

Work during last month of this quarter has been chiefly preliminary, such as clearing the site and establishing the grades and lines of the building, the contractor having yet to complete the required temporary buildings necessary in connection with the construction of this building. Excavation commenced on September 28. Wall trenches almost ready for concrete.

Coney Island Hospital Plant.

Main Building.

All brickwork on this building completed up to level of third floor, and roof over second floor (except for walls supporting stairs on north and south end of building, also front stoop). Basement filled in, and have started to pour concrete for footings under pipe trenches along exterior walls of basement. Iron work completed up to roof trusses of third floor. Setting of all limestone completed up to third floor (except door sills). All bluestone door sills are set. Fireproof floors completed on first and second floor, and are now erecting forms and centres for third floor; also roof over second floor. Stairs in south end of building completed. Copper cornice has been erected on north and south wings, and wooden brackets have been built in wall for same. Piping for vacuum cleaning system completed. The erecting of window frames completed up to third floor and have been caulked with oakum (all except 12 on second floor). Steamfitter completed main and all risers to second floor. High pressure main completed to risers. Radiator connections on first and second floors completed. Plumber has completed all underground sewer work. All vents for fixtures completed in basement. Completed six stacks to second floor, also all leaders. Piping for gas completed in basement to partitions and centre outlets. Electrician completed ducts for wiring of basement and first floor to partitions and centre outlets (but not completed for partitions).

Outside Pipe Ducts.

On pipe ducts between buildings, the bottom and sides are completed between main building and power house and Nurses' and Help's buildings. Waterproofer completed bottom of tunnel and is now working on side walls. Plumber working on the hot water supply pipes and steamfitter has completed about 60 per cent. of his work in same.

Nurses' Building.

All brickwork on this building completed (except stoops on front and rear entrances). All iron work completed. Setting of limestone completed (except for coping on walls of porches and pediment on front of building, also all door sills). Fireproof floors completed. Copper cornice erected and wooden brackets have been built in walls for same. Window frames all erected and all caulked (except five on second floor). Steamfitter has completed risers and returns. All underground sewer work completed, also main stack and waste lines to second floor. Piping for gas completed for basement and first floor to centre outlets and partitions. Electrician completed ducts for wiring of basement and first floor, to partitions and centre outlets (but not completed for partitions).

Help's Building.

All brickwork on this building completed (except stoops to porchers and open areaway in rear). All iron work completed. Setting of limestone completed (except for coping on porch walls and on pediments on front and rear, also all door sills). Fireproof floors completed, also concrete stairs on interior of building. Copper cornice completed and wooden brackets have been built in wall for same. Window frames all erected and same have been caulked with oakum (except six on second floor). Steamfitter has completed main, risers and returns. Radiator connections about 50 per cent. completed. Plumber has completed all underground sewer work, soil line to second floor and about 50 per cent. of the waste line. Piping for gas completed for basement and first floor to centre outlets and partitions. Electrician completed ducts for wiring of basement and first floor, to centre outlets and partitions but not in partitions.

Morgue Building.

All brickwork on this building completed. All ironwork completed. Setting of limestone completed. Fireproof roof construction completed. Erecting of window frames completed but have not caulked same. Steamfitter has completed main and returns. Pipe for gas completed to partitions and centre outlets. Ducts for wiring of building completed to partitions and centre outlets but not in partitions.

Stable Building.

All brickwork on this building completed. All ironwork completed. Setting of limestone completed (except two pieces of coping on front of building). Fireproof floor and roof construction completed, also interior stairs. Window frames all erected and caulked. Ducts for wiring of building completed to centre outlets and partitions.

Power House.

All brickwork on this building completed (except for the interior 8-inch walls). All ironwork completed. Setting of limestone completed. Fireproof roof construction completed. Galvanized cornice erected and gutter lined. Window frames erected and caulked. Have set boilers and are building brick foundations under same. Plumber completed all underground sewer work, also the two stacks.

FIRE PROTECTION.

Monthly inspections of the fire apparatus in each institution and bi-weekly visits to each institution were made by the Fire Expert, Mr. Ross. The employees during the latter were put through the fire drill without previous notice and other proceedings necessary to insure efficient and prompt service in case of the discovery of fire in respective institutions of the Department.

The following General Orders were issued during this quarter:

General Order No. 112.

July 16, 1908.

(Re: Telephone Service.)

Ordered, That the following advice from the Comptroller with relation to the maintenance of telephones in the residences of officials of the Department, originally received under date of November 1, 1906, and now reaffirmed, be and it is hereby made the rule of the Department, and is to be respected and obeyed accordingly:

"In the matter of telephone service rendered at the residence of heads of departments and other officials at the expense of the City, I have to advise you that hereafter payment for such telephone service will be made only in instances where an absolute public necessity demands the maintenance of such telephones in private residences as a public convenience, and then only upon the basis of a contract entered into at the minimum rate. I therefore respectfully request that you take immediate steps to cancel all outstanding contracts for the use of telephones in residences of any of the officials of your department, and only where such telephone service is absolutely a public necessity, that new contracts be entered into at the lowest rate offered by the telephone company, as the cost for such service in excess of the minimum rate will have to be assumed by the officials in whose residences such telephones may be installed. In the payment of bills for telephone service rendered after January 1, 1907, a strict adherence to the position herein assumed will be maintained by this Department. A further requirement concerning these residential telephones will be that the telephone directory must contain the name, official title and the department in which the official is employed. I would ask therefore that you take the proper steps to provide for the adoption of the suggestions herein contained so as to avoid any unnecessary friction hereafter."

ROBERT W. HEBBERD, Commissioner.

Attest: J. McKee Borden, Secretary.

General Order No. 113.

July 25, 1908.

(Re: Analyses by General Drug Department.)

Ordered, That, hereafter, when analyses of food supplies, drugs and other articles are desired to be made by the General Drug Department, blanks like the accompanying copy, obtainable of the Chemist of the Department, shall be used for that purpose, and in each instance a duplicate copy is to be transmitted to the undersigned. The Chemist shall transmit a copy of his report to the Commissioner.

ROBERT W. HEBBERD, Commissioner.

Attest: J. McKee Borden, Secretary.

General Order No. 114.

August 4, 1908.

(Re: Promotion Examination for Registrar of Records.)

Ordered, That the following communication, under date of the 3d inst., from the Secretary of the Civil Service Commission with relation to the foregoing subject, be brought to the attention of all employees eligible for the promotion examination for the position of Registrar of Records, and that they be notified that all such wishing to take the examination can secure blanks at the principal offices of the Department in Manhattan and Brooklyn:

"In accordance with your request under date of July 17, the Commission has ordered an examination for promotion from Examiner of Charitable Institutions ($1,200 per annum) in your department to that of Registrar of Records ($1,500 per annum).

"Under the rules all the Examiners of Charitable Institutions who have served as such for a period of six months will be eligible to compete, and the examination will also be open to all clerks of the third grade ($1,200 up to, but not including, $1,800) who desire to compete.

"I have directed that a number of application blanks be forwarded to you under separate cover. Kindly distribute these to the eligibles and direct that they be filed in this office not later than August 15."

ROBERT W. HEBBERD, Commissioner.

(Re: Manifold Order Books.)

Ordered, That the following rules and regulations governing the drawing of supplies on granted requisitions, amending General Order No. 60, promulgated January 28, 1907, be and the same are hereby adopted, to take effect immediately:

(1) In drawing supplies from the Storehouse, drug stores and other sources of supply on granted requisitions, such orders shall in every case be written and approved on manifold order blanks, such as are contained in the manifold order books supplied for that purpose.

(2) Except in actual emergencies involving the health or safety of inmates, supplies shall not be drawn by any officer, employee or other person unless the same has been granted on requisition duly approved by the Commissioner or the Acting Commissioner. Nor shall any supplies be drawn by any officer, employee or other person except on physician's order or in actual emergencies, unless the manifold order shall have been approved in writing by the Superintendent or the Acting Superintendent of the institution, bureau or office in which such order originates.

(3) In order that every transaction shall be clearly shown from the beginning, all manifold orders are required to originate with the officers or employee by whom or under whose supervision the supplies called for are to be used. In every case the record must clearly show who made the order, who approved it and where the supplies went and where used.

(4) The original blank (on thin paper) is to remain in the book and the duplicate of the same number (on thick paper) is to be detached at the storehouse, drug store or other place of supply, and pasted in the scrap book provided for that purpose, which is to be kept on file. The manifold books of each kind are in each class to be numbered consecutively at the office of the institution and given out therefrom, a record being kept showing to whom each book is given. Whenever a book is entirely used it is to be delivered at the office of the institution, where it is to be kept on file, and a new book obtained and recorded as in the first instance.

(5) The books and duplicate orders and other records, together with all supplies, shall be subject to inspection by the Deputy Commissioner and the Auditor of the Department of his representative at all times.

ROBERT W. HEBBERD, Commissioner.

(Re: Absence of Commissioner on Vacation.)

Commencing to-morrow, August 20, and continuing until further notice, the undersigned Commissioner will be absent on vacation and First Deputy Commissioner Hon. Richard C. Baker will be in charge of the work of the Department, in accordance with the provisions of section 659 of the Greater New York Charter:

"The First Deputy shall, during the absence or the disability of the Commissioner, possess all the powers and perform all the duties of the Commissioner, except the power of making appointments."

All communications from officers and employees with relation to the business of the Department are to be addressed, until further notice, to

"Hon. Richard C. Baker, First Deputy and Acting Commissioner, Department of Public Charities, foot of East Twenty-sixth street, New York City, N. Y."

GENERAL NEEDS.

New quarters for the Central Office and the Bureau of Dependent Adults, located on pier foot of East Twenty-sixth street, New York City, are much needed to insure said offices being in a locality where they can be of easy access to the many applicants for relief and the large number of persons doing business with this Department.

Sufficient appropriation to eliminate the large number of changes occurring quarterly among the employees of the Department receiving small compensation for labor performed, these salaries ranging from $5 to $20 per month, and at which salary employees of a very low standard only can be obtained.

THE PRINCIPAL OFFICE OF THE DEPARTMENT.

Assignment of Work.

The following letters were sent to Raymond F. Almirall, Architect, No. 51 Chambers street, New York City, and Messrs. Helmle & Huberty, Architects, No. 190 Montague street, Brooklyn, New York, re: assignment of work to them for new buildings for the Department:

"New York, July 7, 1908.

"Mr. RAYMOND F. ALMIRALL, No. 51 Chambers street, New York City:

"Dear Sir—Subject to the approval of the specific contracts by the undersigned and the Comptroller, the following work is hereby assigned to you as architect, with the suggestions noted with respect thereto:

"(1) Heating plant, Metropolitan Hospital, Blackwells Island, $80,000. From the total amount of the appropriation of $100,000 the sum of $15,000 has been reserved to pay for the extension of the heating plant from its present terminal point to the new Nurses' Home, at the north end of the island. Please to prepare plans for the part of the work assigned to you in co-operation with the Supervising Engineer of the Department, Mr. Gavin Hamilton, foot of East Twenty-sixth street, New York City.

"(2) Fixtures for Nurses' Home, to be designated 'Furniture and Fixtures, New Nurses' Home, Metropolitan Hospital, Blackwells Island,' $23,000. Please to prepare the specifications for these fixtures in conference with Mrs. William K. Draper, Chairman of the Advisory Board of Managers of the Metropolitan Training School, No. 121 East Thirty-sixth street, New York City.

"(3) Pathological Laboratory, City Hospital, $45,000. Please to prepare these plans in conference with Dr. Theodore C. Janeway, No. 46 West Forty-eighth street, New York City, and Dr. Horst Oertel, of the Russell Sage Pathological Institute, Blackwells Island.

"(4) Fixtures at Staff House, Superintendent's Residence and Service Building, City Hospital, Blackwells Island, to be designated as follows: 'Furniture, etc., new building, City Hospital, Blackwells Island,' $23,000. Please to prepare these plans in conference with Dr. Theodore C. Janeway, Chairman of the Committee of Inspection of the Medical Board of the City Hospital, No. 46 West Forty-eighth street, New York City.

"(5) Hospital Pavilion, City Home, Blackwells Island, additional, $23,000. The further elaboration of these plans should be prepared in conference with Dr. L. Pierce Clark, President of the Medical Board of the Neurological Hospital, No. 23 West Fifty-eighth street, New York City.

"(6) Tuberculosis Infirmary, Blackwells Island, $273,000. Please to prepare these plans in conference with Dr. W. Sands Mills, of the Tuberculosis Infirmary, Blackwells Island, No. 324 West Eighty-ninth street, New York City.

"(7) Electric lighting, Metropolitan Hospital, Blackwells Island, $46,000.

"These plans are, I understand, substantially ready, but require modification to bring them within the appropriation.

"(8) Laundry, Metropolitan Hospital, additional, Blackwells Island, $46,000. These plans are to be prepared in conference with Mrs. William K. Draper, Chairman of the Advisory Board of Managers of the Metropolitan Hospital, No. 121 East Thirty-sixth street, New York City.

"(9) Fixtures, Municipal Lodging House, to be designated under the following title: 'Furniture, Municipal Lodging House,' $32,000. This is exclusive of the fumigating plant and the vacuum cleaning system, the appropriation for which has not yet been released by the Board of Estimate and Apportionment.

"Where necessary to have boring done I should like to have the work done by Watson G. Clark, No. 1123 Broadway, New York City, provided satisfactory arrangements can be made with him as to price.

"The amount stipulated for the work above specified does not include your fees, or the 5 per cent. extra usually provided for in contracts; these sums having been purposely reserved in order that the full amount available for the contract may be understood. As you know, I am very anxious to have all of this work started and pushed to a conclusion as soon as possible in order to meet the increasing and very urgent demands upon this Department.

"Respectfully yours,

"ROBERT W. HEBBERD, Commissioner."

FIRST QUARTERLY REPORT.

The first quarterly report for the year 1908 was sent to your Honor on July 22, 1908, and it appeared in full in the CITY RECORD of August 28, 1908.

PAYMENT OF THE BLIND.

Under date of August 5 the Superintendents of the Bureaus of Dependent Adults in Manhattan, Brooklyn and Richmond were directed to send in their bills for the payment of the blind for 1908, the accepted applicants being 1,125 divided into 625 for Manhattan, 486 Brooklyn and Queens and 14 for Richmond, these bills to be submitted to the Comptroller for payment. The annual amount allowed 1908 for this purpose amounted to $55,000, and as there were 1,125 accepted cases the per capita allowed each was $48.

These bills were received and transmitted to the Comptroller, but no payments were made during balance of quarter.

Decision re: Those Eligible to Receive Blind Pension.

Under date of June 15 we received the following letter from Hon. James J. McInerney, Second Deputy Commissioner of Brooklyn:

"Hon. ROBERT W. HEBBERD, Commissioner of Public Charities, New York, N. Y.:

"Dear Sir—I enclose herewith a communication from Clark & Taylor, counsellors-at-law, in reference to an application made for the blind pension by Henry A. Allen, who at present resides in the Industrial Home for the Blind, No. 516 Gates avenue, Brooklyn.

"This application is made in order to have the question decided as to whether or not the men who live in this Home are entitled to share in the blind pension fund. So far as the application of Mr. Allen is concerned, it seems to me that it might be thrown out on the ground that he is not blind, as he can apparently see a little with the left eye. It has always been the custom in the Brooklyn office to reject any application from an inmate of this Home on the ground that it was an institution within the meaning of section 676 of the Greater New York Charter.

"The facts in support of the contention of these attorneys that the Industrial Home for the Blind is not an institution are fully stated in the communication which accompanies the application of Mr. Allen, and I ask that you write the Corporation Counsel for an opinion as to whether a blind person residing in the Industrial Home for the Blind is entitled to share in the blind pension fund, in view of the provision of section 676 of the Charter that no money shall be paid to any person who is an inmate of a public or private institution in the City of New York. I think it would be well to get an opinion from the Corporation Counsel, in order that we may be in a position to state that under his opinion this Department is compelled to reject all applications for a pension from those who are resident in the Industrial Home for the Blind.

"Yours very truly,

"J. J. McINERNEY, Second Deputy Commissioner of Public Charities."

The following is a copy of letter received from Messrs. Clark & Taylor, attorneys:

"May 29, 1908.

"To the Commissioner of Public Charities, City of New York, N. Y.:

"Dear Sir—Enclosed herewith please find the application of Henry A. Allen for participation in the fund allowed by law for distribution among the poor adult blind. You will note that the application states that he was never in a private institution. It is on this point that Mr. Allen wishes us to call to your attention certain facts connected with his place of residence, as it will probably involve a construction of the Charter provision forbidding participation by inmates of public or private institutions. Mr. Allen resides in a house owned and run by a corporation organized under the laws of the State of New York under the name of "The Industrial Home for the Blind." He is also employed in a chair caning and broom manufactory run by the same corporation, and located at No. 516 Gates avenue, Brooklyn. In this chair caning and broom manufactory business the employees are paid by piece work. Some of them receive their entire weekly pay and pay their board elsewhere and others, of which Mr. Allen is one, board on the premises, and have their earnings credited against their board, receiving whatever may be owing to them, if anything, over and above the amount of their board. The resident workers register and vote from the premises and are given to understand by the management from first to last that the place is not a home, but a residence, and that those who live there are supposed to make enough to pay their board. Mr. Allen tells us that some years ago, when the question was raised as to the right of the resident workers to vote on the ground that they were the inmates of a private institution, the question was passed upon by

a Supreme Court Judge who issued a letter which has been shown on several occasions to the election officials in order to compel the acceptance of their votes.

"We are of the opinion that the place is neither a public nor a private institution within the meaning of the Charter provisions and other provisions of law relating to blind men's pension. Mr. Allen makes this application for the reason that he is practically destitute. He barely earns his board, and has no money with which to purchase clothing and other little necessities of life. He appears to be a worthy case, and on his behalf we submit this letter, trusting you will give it your prompt attention, and if the application should be rejected upon the ground that Mr. Allen resides in a private institution within the meaning of the aforesaid provisions of law, that you will specify such ground upon your rejection of the application, so that the point can be raised and adjudicated in mandamus proceedings. We trust, however, that you will agree that the applicant does not reside in an institution and will allow the application without the necessity of a judicial construction.

"Trust to hear from you in due time, we remain,

"Yours respectfully,

"CLARK & TAYLOR."

Under date of June 18 we answered the Second Deputy Commissioner's letter to the effect that he procure for us the report of this institution and a copy of their charter, which duly reached this office.

The following is a copy of said charter:

State of New York, County of Kings, ss.:

We, the undersigned, do, in conformity with chapter 319 of the Laws of 1848, and the several acts amendatory thereof, hereby certify to the following matters:

First—The name of the corporation intended to be formed by the filing of this certificate is "The Industrial Home for the Blind," of the City of Brooklyn.

Second—The objects of such corporation are to provide homes and an institution for teaching and employing the blind in the mechanical arts and trades, and to manufacture and sell the products thereof, and to provide necessary material and machinery therefor.

Third—The number of trustees of such corporation shall be fifteen.

Fourth—The names of trustees of such corporation for the first year of its existence, together with their post office addresses, are as follows, viz.:

William Berri, No. 401 Grand avenue, Brooklyn, N. Y.
John G. Jenkins, No. 830 Lafayette avenue, Brooklyn, N. Y.

I, Edward Bartlett, a Justice of the Supreme Court of the State of New York, of the Second Judicial District, in which the principal office of the aforesaid corporation shall be located, do hereby approve of the form and sufficiency of the within certificate of incorporation, and consent that the same be filed.

Dated Brooklyn, April 29, 1895.

WILLARD BARTLETT, J. S. C.

The history of this case, as found upon investigation, is as follows:

"Henry A. Allen, an applicant for the blind pension, was born in New York City about fifty-four years ago. He is a widower and he has been a resident of Brooklyn for forty-six years. He has been an inmate of the Industrial Home for the Blind, No. 516 Gates avenue, Brooklyn, for the past year, and prior to that he lived at No. 98 Bond street.

"He is totally blind in the right eye and almost blind in the left eye (the result of trachoma), and he needs an attendant to help him go about. He received the blind pension in Brooklyn last year for the first time. He was formerly in the liquor business at Third avenue and Wyckoff street, but has had no steady employment since 1903. He also worked for lawyers, and as a collector for the Colonial Life Insurance Company, and at times he has been interested in real estate. He has no living relatives. The applicant has no means."

The Commissioner of Public Charities, disapproving of this application, the lawyers for the applicant instituted mandamus proceedings to test the question involved. The matter was put in the hands of the Corporation Counsel by this Department, and his memorandum and the decision of the Supreme Court is quoted in full herewith:

SUPREME COURT, KINGS COUNTY.

The People ex rel. Henry A. Allen, against
Robert W. Hebberd, as Commissioner of Charities.

MEMORANDUM FOR RESPONDENT.

I.

The respondent has no suggestions to offer by way of direct precedent that may aid the Court in the construction of the section of the Charter involved in this proceeding. The section reads thus:

"The commissioner (of charities) is hereby authorized and empowered to insert in his annual estimate of expenditures an item of expenditure for the relief of the poor adult blind not to exceed in all $75,000. The commissioner shall distribute the sum so appropriated each year in uniform sums not to exceed one hundred dollars to any one person to such poor adult blind persons not inmates of any of the public or private institutions in the City of New York, who shall be in need of relief. * * *"

It will be observed that the phraseology of the section is broad and sweeping in its inhibition of all who are inmates of "institutions," either public or private.

It appears from the moving papers that the relator is an "inmate of an institution," but it is claimed for him that the industrial character of the same—the fact that he works there and pays board out of his earnings—takes him out of the inhibited class. That the institution is incorporated and has for its object a charitable end is apparent from the articles of incorporation found among the moving papers.

In view of the expressions of courts in adjudicated cases, the "Industrial Home for the Blind," of which the relator is an inmate, is a charitable institution.

"The term 'charity' does not extend to particular gifts to particular persons. A sum supplied from a private gift for any private or general purpose is a charity. The establishment of a school for learning of any description and donations for the establishment of colleges and schools are charities."

Yates vs. Yates, 9 Barb., 324.

"An institution for the education of the blind, a considerable portion of whose pupils are indigent, is to some extent a charitable institution."

Peo. vs. Fitch, 154 N. Y., 14.

It will be observed that the articles of association, forming a part of the moving papers, make instruction in manual work one of the objects of the incorporation of the home.

And finally, the City Charter empowers the Board of Estimate and Apportionment, in their discretion, to appropriate $2,500 annually to this particular institution. (Charter, section 230, subdivision 23, page 173.)

II.

It will be noted that the moving papers develop the fact that the relator here is practically self-sustaining. He is a wage earner and out of his earnings pays for his sustenance at the home. The extension to him of the relief he asks would in all probability lead to like applications from those in like case, and this, if granted, would decrease the small allowance made under existing laws to the large army of indigent blind who are absolutely without means of support.

We are certain that we voice the sentiment of Commissioner Hebberd when we say that he has absolutely no desire to discriminate unjustly against the relator in the matter under discussion or against others who are or may be similarly circumstanced.

The inhibition portion of the section of the Charter previously quoted has seemed so broad and general that he has deemed it his duty to refuse the application of the relator, unless instructed by the Court to include him among the beneficiaries under the section quoted.

Dated Brooklyn, N. Y., September 16, 1908.

FRANCIS K. PENDLETON, Corporation Counsel.

James W. Covert, of Counsel.

SUPREME COURT—SPECIAL TERM

By Aspinall, J., September 19, 1908.

People ex rel. Allen vs. Hebberd.

I have been unable to find any case or precedent which will aid or assist me in the construction of section 676 of the Charter of The City of New York. The section reads as follows: "The Commissioner is hereby authorized and empowered to insert in his annual estimate of expenditures an item of expenditure for the relief of the poor adult blind not to exceed in all $75,000. The Commissioner shall distribute the sum so appropriated each year in uniform sums not to exceed $100 to any one person, to such poor adult blind persons not inmates of any of the public or private institutions of The City of New York who shall be in need of relief." This section is very broad and rejects all persons from a participation in the fund who are inmates of any institution, either public or private. The complainant resides and certainly is an inmate of the premises owned and under the control of the "Industrial Home for the Blind," an institution regularly incorporated under the laws of this State and having for its object the "teaching and employing the blind in the mechanical arts and trades." To my mind the "Industrial Home for the Blind" cannot be considered in any other light than that of a charitable institution, and as the complainant is an inmate thereof he is not entitled to participate in the fund. I think this view is sustained and fortified by the fact that I find in section 230 of the Charter, subdivision 23, at page 150, that the Board of Estimate and Apportionment may in its discretion annually include the sum of $2,500 to be paid to the "Industrial Home for the Blind." Motion denied.

At a Special Term of the Supreme Court held in and for the County of Kings, at the Kings County Court House, Borough of Brooklyn, City of New York, on the 21st day of September, 1908.

Present—Hon. Joseph Aspinall, Justice.

People of the State of New York ex rel.
Henry A. Allen, against Robert W.
Hebberd, as Commissioner of Public
Charities of The City of New York.

An order having heretofore issued out of this Court requiring the respondent to show cause why an order should not issue for a peremptory writ of mandamus, directing respondent as Commissioner of Public Charities of The City of New York to permit the relator, Henry A. Allen, to participate in the funds annexed, to be distributed among the poor adult blind, as provided by section 676 of the Charter of The City of New York, and for such other and further relief as might be just and proper, and said order having come on to be heard, now on reading and filing the order to show cause; the affidavit of Henry A. Allen; and Exhibits A, B, C and D annexed thereto, and after hearing Frederick L. Taylor in favor of the motion and James W. Covert, Assistant Corporation Counsel, in opposition thereto, and after due deliberation;

Now, on motion of Francis K. Pendleton, Corporation Counsel, it is

Ordered, That the said motion for a peremptory writ of mandamus be and the same hereby is in all respects denied.

SURVEYS MADE.

During July the survey of the Kings County Hospital and grounds made by Mr. Homer L. Bartlett, City Surveyor and Civil Engineer, No. 189 Montague street, Brooklyn, was received and has been framed and hung on the walls of the Central office.

Under date of August 24, the survey of State Island made by Mr. Henry P. Morrison, City Surveyor and Civil Engineer, No. 21 Park row, was received at this office. The survey of Randalls Island received at this office and made by Mr. John G. Van Horne, Civil Engineer and City Surveyor, No. 165 Broadway, being in portfolio form, is filed in the Commissioner's office. The survey of Staten Island, being in map form, is hung in a frame on the walls of the Central office.

CO-OPERATION WITH STATE AND LOCAL AUTHORITIES.

State Board of Charities.

Under date of August 20, plans and specifications of the following work: Erection and completion of a new waiting room, situated on the dock foot of East Fifty-third street; estimated cost, $2,500. Erection and completion of an inclosed veranda at east end of the pavilion for male blind, New York City Home for the Aged and Infirm, Blackwells Island; estimated cost, $5,000; and erection and completion of two fire escapes on the School for Feeble Minded Children and iron balconies on the North Hospital, Ward 15, and old pavilions A, B and C, at the New York City Children's Hospitals and Schools, Randalls Island; estimated cost, $3,500; to be paid from issue of Corporate Stock; were sent to this Board for their approval, which was acknowledged and we were informed had been forwarded to the Committee on the Construction of Buildings for examination and approval. No further action took place on this matter during balance of quarter.

Under date of August 24, request for approval of plans for a 2-story power house, laundry, shop and storage building. The walls will be constructed of rubble masonry to harmonize with those existing buildings which are to be retained as parts of the ultimate development of the hospital. The trimmings will be sawed bluestone and the roof and cornice of sheet metal. An old power house with a dissimilar annex will be incorporated into this building, removing and rebuilding their exposed facade. Only part of the entire group is to be built at this time. Estimated cost, $150,000. Location, in Metropolitan district, Blackwells Island, along east side of main avenue, and about 100 feet north of male infirmary, Metropolitan Hospital. Approved on September 8.

Under date of September 5 request for approval of plans for a 4-story ward building for tuberculosis patients. The walls will be constructed of rubble masonry to harmonize with those existing buildings which are to be retained as parts of the ultimate development of the hospital. The trimmings will be of sawed bluestone, and the cornices of sheet metal. The roofs will be flat and made of tile for access by patients and broad iron verandas are arranged on both sides of wards. Estimated cost, $300,000.

This building will constitute the northwest pavilion of the new tuberculosis infirmary, Metropolitan Hospital District, and is to be situated on the river bank about 300 feet south of main building, Metropolitan Hospital, Blackwells Island.

Also under date of September 26, request for approval of plans for an electric substation for Blackwells Island. The building will be built of random ashlar trimmed with sawed bluestone, the cornice and roof will be sheet metal. Architecturally it will closely conform to the more important buildings now in course of construction. Estimated cost, $10,000. Location, at the foot of west pier to new Blackwells Island Bridge.

No action was taken on these last two requests during balance of quarter.

Reports of Inspection.

Copy of report of inspection of the Bradford Street Hospital Dispensary was received under date of July 17. The State Board commenting on this Department in its 1907 yearly report of the Board for the First Judicial District, which comprises the Boroughs of Manhattan and The Bronx, says in parts as follows:

The undersigned Commissioner of the Board for the First Judicial District, which comprises the Boroughs of Manhattan and The Bronx of The City of New York, respectfully reports that he has during the year 1907 personally visited, once or more, all of the public hospitals and asylums and the almshouse supported by the City, including those on Blackwells Island and Randalls Island, also that these institutions have, from time to time, been visited by the Vice-President of the Board, Commissioner Stephen Smith of New York County, some of them by the Secretary of the Board, and all of them by one of the Board's Inspectors of Almshouses, Miss Gertrude E. Hall, and on occasion also by other inspectors.

It is gratifying to be able to report a marked improvement in the provision made for the City's poor and sick during the twelve-month just past.

The two fold supervision and control of these institutions by the Commissioner of Public Charities and the Board of Trustees of Bellevue and Allied Hospitals continues, and therefore this report must fall under two heads.

The institutions in the district administered by the Commissioner of Public Charities, Hon. Robert W. Hebberd, long time the Secretary of this Board, are:

1. City Hospital on Blackwells Island.
2. Metropolitan Hospital on Blackwells Island.
3. City Home, Manhattan, on Blackwells Island.
4. Children's Hospital and Schools, Randalls Island.
5. Municipal Lodging House, No. 398 First avenue.
6. Dock at foot of East Twenty-sixth street.

Other hospitals and homes in Brooklyn and Richmond are also administered under the supervisory control of Commissioner Hebberd, and some of them have also been visited by your Commissioner, but as they are located in the Second Judicial District they are not mentioned in this report.

The noteworthy improvements at the City Hospital include a substantial new brick dormitory for female Helpers which was finished and occupied August 24, 1907. Although without architectural merit this building provides much needed and comfortable housing for its inmates. Near the hospital, on the north, at the close of the year, the well designed and constructed new buildings intended for the Superintendent's residence and the staff house were ready for their roofs, and south of the hospital a large service building, intended to provide a new kitchen and laundry for the institution, and dining rooms for the Helpers and Attendants was nearly as far advanced. These three new buildings are of approved modern construction, and the walls are of the same kind of stone (trap-rock) of which the hospital was built more than fifty years ago. Many of the buildings erected for the Department of Charities of this City in recent years have been of brick, not seldom of poor quality, and cheaply put up. Commissioner Hebberd has done well to ask the City to return to its old time standard of stone construction, and his success in obtaining the necessary appropriations should be a subject for general satisfaction.

Metropolitan Hospital, at the northern end of Blackwells Island, now cares for more patients than any other City hospital. For this institution a large and handsome Nurses' Home, beautifully placed near the northerly point of the island, with its well known light house, now approaches completion. The same kind of stone has been used for the walls as that of which the hospital was built in 1839. It comes from Mamaroneck. Several unsightly and useless old out-buildings have been removed, and the appearance of the grounds much improved during the year. The unsanitary and uncomfortable overcrowding of patients suffering from tuberculosis continues in the infirmary buildings assigned to their care, and increased accommodations here or elsewhere should be at once provided by the City. Your Commissioner has addressed a communication to his Honor the Mayor, calling attention to this need. He also attended the graduating exercises of the 1907 class of trained nurses at this institution.

The City Home for the Aged, Manhattan Division, lies between City and Metropolitan Hospitals. While crowded and with insufficient acreage for the large number of inmates sheltered, better provision for their comfort is made than in times past, and a new pavilion to be used as a sitting and smoking room for the old men will soon replace the dilapidated shed now used for this purpose. Your Commissioner is of the opinion that this institution should, as soon as practicable, be removed from the island to a larger site in the country, and the twenty acres it now occupies either added to the grounds of Metropolitan Hospital or converted into an island park. For this reason he advises against any City appropriations for new buildings of a permanent character.

Altogether, a visit to Blackwells Island now is fuller of encouragement for an inspecting official than at any period since 1882, when the undersigned first visited it. The grounds and roads are more neatly kept, and the evidences of slovenliness and neglect, formerly so common and discreditable, are no longer noticeable. Evident attention is now being paid to general effect and harmony in the appearance of the groups of buildings, which is being modified and improved by a better choice of colors, as repainting becomes necessary.

A survey of the island has been made and a lay-out of the buildings now erected upon it, and also of those in course of construction, or which are thought by the Commissioner to be needed to complete these hospitals; this, also, shows the proposed arrangement of the grounds and has received the approval of the Municipal Art Commission.

In conclusion, your Commissioner wishes to express his satisfaction at the generous consideration given by the administration of Mayor McClellan to the requests for appropriations for new buildings, for betterments, and for requests for more adequate maintenance made by the Commissioner of Public Charities and the Bellevue Trustees. The results are already almost marvelous. Should reasonable requests yet to be made by these departments of the City Government within the next few years meet with the same favorable action by the Mayor and the Board of Estimate and Apportionment, the reproach which has so long been laid at the door of our City that it neglected its sick poor while spending money lavishly for other purposes will be removed and our citizens can "point with pride" to well planned and maintained public hospitals and homes, as for a generation they have been able to call attention to the excellence of many of the charitable institutions here, supported by private benevolence.

SINKING FUND COMMISSION.

Our request made under date of June 24 that the premises owned by the City at No. 124 East Fifty-ninth street be turned over to this Department for the uses and purposes of the Children's Bureau, Manhattan, was approved by a resolution adopted on September 23.

Under date of September 8, we sent this Commission the following letter:

"Sinking Fund Commission, Office of the Secretary, Room 12, No. 280 Broadway, City:

"Gentlemen—The lease of the premises No. 398 First avenue, used by this Department as a Municipal Lodging House, expires on November 1, 1908. The present rental is $3,600 per annum. The renewal is asked for, because the new Municipal Lodging House, which is being built for this Department on the south side of Twenty-fifth street, 400 feet east of First avenue, will not be ready for the reception of lodgers before the expiration of the present lease. Owing to difficulties that were encountered in getting a suitable foundation for the said building, and also to the fact that the contractor went into the hands of a receiver, we were therefore compelled to readvertise for the completion of said building. The building will not be finished until some time during next year. We therefore request that this lease be renewed or extended until June 1, 1909, at the same rental. The owners of this building are Messrs. Hirsch & Roth, address Twenty-third street and First avenue, and we understand they are willing to renew the lease.

"By direction of the Commissioner.

"Respectfully yours,

"J. McKEE BORDEN, Secretary."

Which was approved by a resolution adopted at a meeting held on September 23, 1908.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY.

Requests Made.

Under date of July 27, we requested this Department to furnish light (electric if possible) for the new waiting room to be built at the foot of East Fifty-third street dock for the use of this Department, plan of which had been forwarded to the Chief Engineer of the Department of Water Supply, Gas and Electricity (Light and Power Division).

Under date of September 12, we requested the above Department to place six arc lights on the grounds of the New York City Farm Colony, Staten Island, as follows: One at reservoir, one on road to cottages, one in front of morgue, one outside of barn, one on the road at the rear of the main dormitory, one at pumping station.

No action occurred on these requests during the quarter.

FINANCE DEPARTMENT.

The following letter was sent to Hon. Herman A. Metz, Comptroller, under date of September 3, in answer to his letter of September 2, offering to place at the disposal of the Department various buildings acquired for public places, the latter offer being brought about by the appearance in the public press of an article, Re: The Housing of the Homeless Unemployed in the Morgue, foot of East Twenty-sixth Street, Manhattan:

September 3, 1908.

Hon. HERMAN A. METZ, Comptroller of The City of New York, No. 280 Broadway, New York City:

Dear Sir—Your valued favor of yesterday, offering to place at the disposal of this Department various buildings acquired for public purposes, but not as yet put

to the uses for which they were purchased, in order to provide for the homeless unemployed, is received, and I beg leave to thank you for the same.

The following is a copy of a letter that I have sent to the Acting Mayor on this subject, and which embodies my views with relation thereto:

"Brantingham, N. Y., September 1, 1908.

"Hon. P. F. McGOWAN, Acting Mayor, City Hall, N. Y.:

"Dear Sir—Your letter of the 28th ult., with relation to the overflow of lodgers at the Municipal Lodging House on the occasion of the severe storm last Wednesday night, has reached me at this point, where I am taking part of my vacation, and has had careful consideration.

"My advices are that a relatively small number of the men, but no women, who could not be accommodated at the lodging house on the occasion referred to were housed in the chapel connected with the Morgue, a large room entirely disconnected from the actual care of the dead. While we do not care to put the chapel to such use, it appears to have been the only means open for caring for the men in the sudden emergency, and was certainly more humane than it would have been to have left them to the mercy of the storm. Before such an emergency occurs again we hope to be able to make other arrangements of a temporary nature pending the completion of the new lodging house, which, it is hoped, will be ready by December 1, and which will have more than double the capacity of the present one.

"In this connection it is to be remembered, however, that the Municipal Lodging House is intended only for the care of persons temporarily without shelter. It is not intended for the continued care of vagrant persons who should, to the contrary, receive the attention of the police and the Magistrates and be committed to the Workhouse in accordance with the provisions of law. Were this policy carefully pursued I do not believe that the Municipal Lodging House would have any difficulty at this time in caring for those who are proper charges upon its bounty.

"I have no present means of knowing how many homeless people there are in the City, but have no doubt that the number is abnormally large for this time of the year. There are, of course, at all times in New York thousands of persons on the verge of homelessness, and in a time of financial depression like this many casual workers and others who, from various causes, are least desirable as employees, readily fall into this class.

"In my opinion, the practical nullification of the vagrancy laws by some of the City Magistrates particularly has had much to do with the apparent growth of vagrancy in the City. This is a serious matter, because if such laws lack proper enforcement, by which I mean sending vagrants to the Workhouse, they have to be cared for in other ways that simply cause them to increase to the point of becoming a menace to the good order of the community. Once allow the idea to spread abroad that vagrants from out of the City can continue to live in generous New York without having the enforced discipline of the Workhouse to confront them and we shall have more than can be cared for in ten municipal lodging houses, besides having great difficulty in ever getting rid of them, summer or winter.

"I shall, of course, be pleased to confer with the Charity Organization Society as you suggest, and am, in fact, in what is practically continuous conference with that and other charitable agencies with relation to this and kindred subjects, particularly the subject of the better discipline and care of the vagrant through the establishment of involuntary labor colonies such as have been so successfully conducted in Switzerland, Holland, Belgium and other countries of Continental Europe, where, through their operation, vagrancy has become practically unknown. In view, however, of the serious possibilities of the coming winter, which the occurrence of last Wednesday night foreshadows, I would respectfuliy suggest the advisability of an early joint conference of your Honor with the public officers whose work is affected by this question, together with the Corporation Counsel, namely, the Police Commissioner, the President of the Board of City Magistrates, the Commissioner of Correction and the undersigned Commissioner of Public Charities. I expect to be in the City on Thursday and would be glad to attend such a conference at any time thereafter.

"Respectfully yours,

"ROBERT W. HEBBERD, Commissioner."

I am about to leave the City for the remaining fortnight of my vacation, and will refer your letter to the Superintendent of the lodging house, Mr. William C. Yorke, with instructions to confer with the Collector of City Revenue with relation to any buildings that may be suitable for the purpose indicated.

Respectfully yours,

ROBERT W. HEBBERD, Commissioner.

ART COMMISSION.

Under date of August 24, request was made for the approval of plans for fireproof balconies and fire escapes to be erected on the old Pavilion A, B, C, North Hospital, Ward 15, and School for Feeble-minded Children, cost $35,000, at the New York City Children's Hospitals and Schools, on Randalls Island, approved September 8.

Under date of August 24, request for approval of plans for a one-story frame structure containing male and female waiting rooms, separated by an open section for general use in mild weather, with a porte cochere extending therefrom over the boat gangway. The roof is to be of asbestos shingles; lighting by electricity and heating by coal stoves, cost $2,500, and located on the new dock at the foot of East Fifty-third street, Borough of Manhattan. Approved on September 8.

OFFICE OF THE MAYOR.

Under date of August 28, we received the following letter from Hon. P. F. McGowan, Acting Mayor:

Hon. ROBERT W. HEBBERD, Commissioner of Charities, Foot of East Twenty-sixth Street, New York City:

Dear Sir—My attention has been called to reports in the daily press relative to the lodging of homeless men and women in the City Morgue. I would like to have a report from you in regard to this matter, together with such recommendations as you may deem necessary, with a view to correcting this unfortunate condition of affairs.

I have also communicated with the Secretary of the Charity Organization Society with a view to taking some steps in connection with the Department of Charities for the amelioration of this condition.

Respectfully yours,
P. F. McGOWAN, Acting Mayor.

To which letter, under date of September 1, we replied as follows:

Brantingham, N. Y., September 1, 1908.

Hon. P. F. McGOWAN, Acting Mayor, City Hall, N. Y.:

Dear Sir—Your letter of the 28th ult. with relation to the overflow of lodgers at the Municipal Lodging House on the occasion of the severe storm last Wednesday night, has reached me at this point, where I am taking part of my vacation, and has had careful consideration.

My advices are that a relatively small number of the men, but no women, who could not be accommodated at the lodging house on the occasion referred to were housed in the chapel connected with the Morgue, a large room entirely disconnected from the actual care of the dead. While we do not care to put the chapel to such use, it appears to have been the only means open for caring for the men in the sudden emergency, and was certainly more humane than it would have been to have left them to the mercy of the storm. Before such an emergency occurs again we hope to be able to make other arrangements of a temporary nature pending the completion of the new lodging house, which, it is hoped, will be ready by December 1, and which will have more than double the capacity of the present one.

In this connection it is to be remembered, however, that the Municipal Lodging House is intended only for the care of persons temporarily without shelter. It is not intended for the continued care of vagrant persons, who should, to the contrary, receive the attention of the police and the Magistrates, and be committed to the Workhouse in accordance with the provisions of law. Were this policy carefully pursued, I do not believe that the Municipal Lodging House would have any difficulty at this time in caring for those who are proper charges upon its bounty.

I have no present means of knowing how many homeless people there are in the city, but have no doubt but that the number is abnormally large for this time of the year. There are, of course, at all times in New York thousands of persons on the verge of homelessness, and in a time of financial depression like this, many casual workers and others who, from various causes, are least desirable as employees, readily fall into this class.

In my opinion, the practical nullification of the vagrancy laws, by some of the City Magistrates particularly, has had much to do with the apparent growth of vagrancy in the city. This is a serious matter, because, if such laws lack proper enforcement, by which I mean sending vagrants to the Workhouse, they have to be cared for in other ways that simply cause them to increase to the point of becoming a menace to the good order of the community. Once allow the idea to spread abroad that vagrants from out of the city can continue to live in generous New York without having the enforced discipline of the Workhouse to confront them, and we shall have more than can be cared for in ten Municipal lodging houses, besides having great difficulty in ever getting rid of them, summer or winter.

I shall, of course, be pleased to confer with the Charity Organization Society as you suggest, and am, in fact, in what is practically continuous conference with that and other charitable agencies with relation to this and kindred subjects, particularly the subject of the better discipline and care of the vagrant through the establishment of involuntary labor colonies such as have been so successfully conducted in Switzerland, Holland, Belgium and other countries of Continental Europe, where, through their operation, vagrancy has become practically unknown. In view, however, of the serious possibilities of the coming winter, which the occurrence of last Wednesday night foreshadows, I would respectfully suggest the advisability of an early joint conference of your Honor with the public officers whose work is affected by this question, together with the Corporation Counsel, namely, the Police Commissioner, the President of the Board of City Magistrates, the Commisioner of Correction and the undersigned Commissioner of Public Charities. I expect to be in the city on Thursday and would be glad to attend such a conference at any time thereafter

Respectfully yours,

ROBERT W. HEBBERD, Commissioner.

BOARD OF ALDERMEN.

Request to Repair Steamer "Thomas S. Brennan" Without Public Letting.

Uder date of September 15, the following request and draft of resolution was sent to this Board:

To the Honorable Board of Aldermen of The City of New York:

Gentlemen—Your favorable consideration and action upon the enclosed draft of resolution authorizing this Department to make a contract without public letting with James Tregarthen Son and Company for repairs to the steamer "Thomas S. Brennan," to the amount of $1,569. The facts which make necessary this contract for repairs are as follows:

On May 25, 1908, the steamer "Thomas S. Brennan," belonging to the Department, was damaged by collision with the steamship "Maraval." A joint survey was held May 27, when the extent of the damage was determined. As the "Brennan" was at that time the only boat of this Department capable of doing all the work required, it became necessary to hire a steamer at once, at a cost of $30 per day, to take her place. We therefore immediately invited bids or proposals from several firms for repairing the damage, and on June 1 the following proposals were opened by the undersigned:

James Shewan & Sons	$2,242 00
Shooter Island Shipyard Company	3,800 00
Columbia Engineering Works	2,200 00
Crescent Marine Engineering Company	2,387 00
Fredk. A. Verdon Company	3,120 00
The Griscom Spencer Company	3,300 00
James Tregarthen	1,569 00

And the award was made immediately to the lowest bidder, the said James Tregarthen Son Company. The steamer was repaired and ready for service in twenty-six days from the date of the award, which, if it had been advertised and a contract drawn, would have taken more than twice as long and probably cost more in the end.

The whole matter was referred to the Corporation Counsel, under date of August 15, 1908, with request that he take such action as he thinks advisable to compel the owners of the steamship "Maraval" to reimburse the City for the outlay in having the repairs made to the steamer "Thomas S. Brennan."

This request is made with the hope that favorable action may soon be taken thereon so that the bill for these repairs may be transmitted to the Comptroller of The City of New York for payment from the appropriations made to this Department.

Respectfully yours,

ROBERT W. HEBBERD, Commissioner.

Resolved, That, pursuant to the power conferred upon it by the provisions of section 419 of the Greater New York Charter, the Board of Aldermen, deeming such course to be in the public interest, hereby authorizes and empowers the Commissioner of the Department of Public Charities to execute a contract or agreement with James Tregarthen Son and Company for repairing the damage to the steamer "Thomas S. Brennan," caused by collision with the steamship "Maraval" on May 25, 1908, without public letting, and calling for a total expenditure of not more than fifteen hundred and sixty-nine dollars.

On which no further action occurred during the quarter.

Request for Issuance of Special Revenue Bonds

Under date of September 19, the following request was sent to the Board:

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, City Hall, New York City:

Dear Sir—Anticipating a deficiency in some appropriations of this Department for the year 1908, I beg leave to request an issue of Special Revenue Bonds, as provided in sub-division 8 of section 188 of the Greater New York Charter to the amount of $161,929.70, to meet such anticipated deficiencies in the following appropriations to this Department for the year 1908:

BOARD OF ESTIMATE AND APPORTIONMENT.

REQUESTS MADE.

Change of Title of Appropriation, New York City Farm Colony.

Under date of August 12 a request was made to this Board for the transfer of five hundred dollars ($500) from the appropriation to this Department for the year 1908, entitled "Department of Public Charities, General Administration, Transportation of Paupers," the same being in excess of the amount required therefor to the appropriation "Department of Public Charities, Additions, Alterations and Repairs to Buildings and Apparatus, Including Labor and Materials, New York City Farm Colony," to this Department for the year 1908, the same being insufficient, which was granted by said Board on September 18, 1908.

Change in Title of Appropriation, Kings County Hospital.

Under date of September 17 the following request was sent to this Board:

To the Board of Estimate and Apportionment:

Gentlemen—The undersigned, Commissioner of Public Charities, respectfully requests that the title of the items hereinafter specified, for which the issue of Corporate Stock has been authorized, namely, "Alterations, etc., to buildings recently vacated by New York State, Kings County Hospital, $75,000." by the Board of Estimate and Apportionment, June 21, 1907, with the approval of the Board of Aldermen July 23, 1907, and of the acting Mayor, July 30, 1907; "Repairs to Annex Building, Kings County Hospital, Brooklyn, $80,000," by the Board of Estimate and Apportionment June 26, 1908, with the approval of the Board of Aldermen June 30, 1908, and of the Mayor July 9, 1908, be changed to the following: "For new wing to the Kings County Hospital, $155,000."

The reasons for this desired change in the form of this authorization are that the Medical Board of the Kings County Hospital, after giving the question full consideration, is convinced that the Annex Building, even if repaired at the expense indicated, would not be a suitable place in which to care for the sick. It is a very old building, and would still be lacking in modern requirements for the care of the sick.

It was estimated that this building, with the repairs completed, would care for about 250 patients, and it is estimated by the architects, Messrs. Helme & Huberty, of No. 190 Montague street, Brooklyn, that a new wing of modern hospital construction, capable of caring for 200 patients, can be added to the Kings County Hospital for the same amount.

It is accordingly requested that permission be granted to make the desired change and that the resolutions providing for the authorization be amended accordingly. It is further recommended that the Comptroller be authorized, if such course is practicable and meets with his approval, to sell the Annex Building at the Kings County Hospital to the highest bidder with the requirement that the material be promptly removed therefrom and the remaining excavation filled to the surrounding level.

Respectfully yours,

ROBERT W. HEBBERD, Commissioner.

Change of Title of Appropriations, Metropolitan Hospital Heating and Laundry Plant.

Under date of September 17 the following request was also made:

To the Board of Estimate and Apportionment:

Gentlemen—The undersigned, Commissioner of Public Charities, respectfully requests that the resolution authorizing the issue of Corporate Stock for the following items, namely: "Heating plant, Metropolitan Hospital, Blackwells Island, $100,000; laundry, Metropolitan Hospital, Blackwells Island (additional), $50,000," authorized by the Board of Estimate and Apportionment June 26, 1908, with the approval of the Board of Aldermen June 30, 1908, and of the Mayor July 9, 1908, be amended so as to read as follows: "Extension of heating plant and laundry, Metropolitan Hospital, Blackwells Island, $150,000."

The reasons for this request are that the present laundry and heating plant are in one building, and it is considered to be necessary and desirable to continue the same arrangement in extending these plants.

Respectfully yours,

ROBERT W. HEBBERD, Commissioner.

Additional money requested for the Sea View Sanatorium, Staten Island. Under date of September 29 the following request was sent to this Board:

To the Honorable the Board of Estimate and Apportionment:

Adopted by the Board of Aldermen June 30, 1908, a majority unanimously of all the members elected voting in favor thereof.

Approved by the Mayor July 9, 1908.

P. J. SCULLY, Clerk.

Under date of July 2, we were notified by Mr. William M. Lawrence, Assistant Secretary of this Board, that at the meeting of the Board held on June 26, the following resolutions were adopted:

Certifying the claim of the Mutual Milk and Cream Company at the sum of $5,589.53, without interest, for milk supplied to the Department of Public Charities in the months of November and December, 1907, and authorizing the payment of same out of the appropriation made to the Department of Public Charities for the year 1907, entitled "Supplies and Contingencies."

Amending resolution adopted June 5, 1908, in relation to the issue of $41,322.60 Special Revenue Bonds to meet deficiencies in the appropriations made to the Department of Public Charities for the year 1907, by changing the amounts of certain items contained therein but not the total thereof.

Authorizing an issue of $15,680 Special Revenue Bonds to provide means for the payment of the prevailing rate of wages from June 1, 1908, and to meet an anticipated deficiency in the salaries and wages appropriation for the year 1908 in the Department of Public Charities (in addition to the $50,857.92 issue authorized on June 5, 1908), etc.

THE DEPARTMENT'S DOCKS.

Our applicaation, made under date of May 23, for permission to use landing at the foot of East Eighty-sixth street, Manhattan, and South Fifth street pier, in the Borough of Brooklyn, being not granted, under date of July 16, as suggested, permission was requested to land at the foot of East Ninety-first street, East River, Manhattan, and pier foot of Noble street, Borough of Brooklyn, and to place thereon suitable waiting rooms for the convenience of patients and passengers. With latter request was also forwarded a sketch of the new Fifty-third street pier, which is now being erected, showing the location of the proposed waiting room for the use of this Department.

Under date of August 12 we were notified that the sketch submitted of the waiting room on Fifty-third street pier was satisfactory, permission being granted to erect the building in accordance with the location, sketch as submitted, the work to be done under the direction and supervision of the Chief Engineer of this Department, and in accordance with detailed plans to be first submitted to and approved by him. Under date of August 18 we were granted permission to land our boats at the outer end of the north side of the pier foot of Ninety-first street, East River. Our request for permission to use the Noble street pier, Brooklyn, as a landing place for our boats was not acted upon before October 1, 1908.

Our request, made under date of September 7, to resheathe freight dock also coal dock; and to secure in place the backing log, which had been torn away from said freight dock, was approved and orders issued by the Department of Docks and Ferries to its Chief Engineer to make said repairs.

Our requests made during this year under date of July 12, 16 and September 7, remained unacted upon during current quarter.

THE STEAMBOAT SERVICE.

Statistics.

During this quarter 348,781 passengers were carried on the boats of the Department, making a total carried during the period of this year ending September 30, of 948,799 passengers.

The number of dead transported on the steamer "Fidelity" to Harts Island for interment in the City Cemetery was 1,619 for the quarter, and for the first three quarters of this year 4,616 bodies.

The disinterments were 11 during this quarter and 46 for the previous mentioned period ending September 30, 1908.

Changes.

During the quarter 98 changes took place among a daily average of 83 employees.

Improvements.

Addition of the new steamer "The Lowell" to the Department steamboat service, going into commission September 10, 1908.

THE BUREAU OF DEPENDENT ADULTS, MANHATTAN.

Statistics.

During the quarter 12,714 cases were passed upon for indoor relief. Transportation was afforded to 115 sick and destitute persons to reach their homes; 49 sick of the same class were committed to the State Almshouse on Blackwells Island for care and action by the State Board of Charities. The homeless were lodged and fed, epileptics sent to Craig Colony, feeble minded to the State Custodial Asylum, the Syracuse State Institutions and Rome State Custodial Asylum, and tuberculosis cases to Raybrook. Four hundred and eighty-five aliens were committed to the State Almshouse for care, awaiting the action of the State Board of Charities.

Three hundred and sixty-nine requests were made for examination as to the sanity of such cases; 32 deaf mutes admitted to institutions for same, and 2,150 tickets for meals given. This Bureau has taken 425 complaints of abandonment, of which 224 were granted requisitions and 201 treated at this office; 139 non-support applications were also taken for disposition. There were sent to the Court of Special Sessions 96 bastardy cases and 128 settled without being sent to Court. There were 14 discharges from the Workhouse during the quarter.

Sixteen thousand four hundred and sixty-seven passes were issued during the quarter to relatives and friends to visit patients and inmates of the institutions of the Department.

The receipts and disbursements during the quarter in the Alimony Department, one of the chief divisions of this Bureau, were as follows: Receipts, $36 450.96; disbursements, $35,807.86. As compared with the receipts and disbursements of the corresponding quarter for the preceding year, there shows a decrease in receipts of $3,149.34 and disbursements of $4,824.46. At the end of the quarter the balance on hand in this fund amounted to $17,709.05.

Changes.

Twenty-seven changes occurred during the quarter among a daily average of 64 employees.

Needs.

Lower office should be completely renovated and painted, additional floor space needed, new gates, doors, door springs and hinges, or all thoroughly repaired; new steam pipes should replace old, as latter have been repaired so often that a complete new plant is the only satisfactory solution of this much needed improvement; an additional Stenographer and Clerk, also an Office Boy.

THE CITY MORGUE.

During this quarter 1,463 adult and 1,248 infant bodies were received at the Morgue from Bellevue and Allied Hospitals and the institutions of this Department, making in all 2,711 bodies received. The number of bodies remaining in the Morgue at the beginning of the quarter was 103, of which 55 were adults and 48 infants making a total in all of 2,814 bodies. Of these, 998 adults and 117 infants were buried by friends and 344 adults and 1,157 infants were buried by the City; 117 bodies were distributed among nine institutions for anatomical purposes, leaving 81 bodies remaining in the Morgue at the end of the quarter.

THE HARLEM MORGUE.

This branch of the City Morgue received during the quarter 75 adult and 205 infant bodies from the Harlem Hospital and Fordham and other hospitals of the City, making a total of 280 bodies in charge of this Morgue during this quarter, all of which were sent to the City Morgue, foot of East Twenty-sixth street. The number of adults buried by friends 10, infants 3; by the City, 65; 202 infants being buried by the City also; a total in all of 280 bodies interred.

THE CHILDREN'S BUREAU, MANHATTAN.

Statistics.

Many of the cases handled are of children whose parents are able to pay in part for their care when committed by the Department. The total amount of money received through this channel reached the sum of $7,204.50 during the quarter, as against $8,016.71 during the corresponding period of 1907.

There were 2,891 children proposed for commitment as public charges, of which 68 were recurrent cases; of the number proposed, 880 were accepted as public charges, and 1,964 disapproved; of which 10 were referred to private charities and 1,954 unconditionally disapproved; 47 chinldren were approved and sent to institutions with their mothers. These figures show an increase of 429 in the number of children proposed for commitment over the corresponding period for the year 1907.

The reinvestigations made during the quarter of children in institutions amounted to 864, of which 381 were approved to remain one year, 236 for a period less than a year; 197 not located at address given, and 50 disapproved for further retention as public charges.

There were 322 applications made and investigated for the discharge of children, of which 295 were approved and 27 disapproved for the several reasons covering such cases, and as noted in the report of this Bureau. The number of children placed in families by indenture and under the supervision of the Department through this Bureau was 68, all of whom at the end of the quarter remained under supervision.

Transportation to homes was afforded to nine children and one mother, thereby relieving the City of any further expense.

Changes.

Two changes occurred during the quarter among a daily average of 30 employees, being as follows:

July 5, promotion of Anna Cottam, Pupil Examiner, $420 per annum to $480 per annum. August 19, promotion of Mary L. Morgan, Pupil Examiner, $420 per annum to $480 per annum.

THE BROOKLYN OFFICE OF THE DEPARTMENT.

Statistics.

The reports of the several heads of bureaus containing statistics showing in detail the amount of business handled during this quarter by this office, follow in detail, and under their separate headings:

Improvements.

Noticeable progress made during this quarter in the erection of the new Coney Island Hospital. When completed this building will be one of the best equipped in the City, and a worthy addition to hospital service in the Borough of Brooklyn. This is the first new public hospital erected in Brooklyn by the Department of Public Charities in over 50 years.

Work commenced on the new Nurses' Home, the Morgue and Pathological Buildings, Kings County Hospital.

Drawings completed for the new Bradford Street Hospital, and as soon as title to the property on which it is to be built has been decided by the Corporation Counsel, bids will be invited.

Minor repairs made throughout institutions in Brooklyn under jurisdiction of this office.

BUREAU OF DEPENDENT ADULTS, BROOKLYN.

The statistics of this Bureau during the quarter show a steady growth of business during the quarter. The number of cases investigated during this period amounted to 4,150. Three hundred and forty-nine ambulance calls were received at the office, of which 314 were sent to Kings County Hospital and 29 to the Cumberland Street Hospital; 404 petitions were received for cases for examination and observation as to their mental condition. The number of lunacy examinations made was 687; 71 cases of feeble-minded and epileptics were committed to Randalls Island and 22 to deaf and dumb institutions; 52 applications were received for deportation of dependents to their respective homes, and respectfully referred to the Department of State and Alien Poor; 5 persons being returned to their respective homes by this branch of the State Board of Charities; 9 foundlings were received and cared for during the quarter; 240 permits for burial in the City cemeteries of Brooklyn and Queens were issued and 43 applications received for relief of the blind.

The receipts in the Alimony Department amounted to $9,126.50, and the disbursements to $8,251.50. Balance on hand September 30 in this Court Fund amounted to $6,111.75. There were 561 warrants issued for abandonment and bastardy cases, of which there were 41 abandonment and 11 bastardy convictions.

CHILDREN'S BUREAU, BROOKLYN.

Statistics.

During the quarter, the number of children proposed for commitment was 1,653, of which 1,060 were approved and 593 disapproved. The number of applications received for the discharge of children under commitment was 213, and after being investigated, 199 were approved for discharge and 14 disapproved. The total number of reinvestigations made of children in institutions was 4,521, with the result that 390 were approved to remain for a year or longer, 46 for a period less than a year, and 85 were disapproved for further retention as public charges.

During the quarter, 44 children were committed for whom part payment was required. The amount received as part payment for these children was $192. The total amount received for county wards was $1,247.50. The total number of inmates committed amounted to 1,717, distributed among forty institutions; 8,184 were remaining in these institutions at the end of the last quarter, and 1,455 discharged during this quarter, leaving 8,410 remaining at the close of the third quarter ending September 30.

Changes.

Only two changes occurred in this Bureau during the quarter, being the promotion of a Pupil Examiner from $420 to $480 per annum, action to date August 1, 1908, and the changing of title of an Examiner of Charitable Institutions at $1,200 per annum to Clerk at $1,050 per annum.

Needs.

Additional help. Enlargement of present office, the room occupied by this Bureau being less than twenty feet square. Would recommend an arch being cut through to an adjoining room, the space thus acquired being a necessary adjunct to carrying on properly the work of this branch of the service.

THE BUREAU OF DEPENDENT ADULTS, RICHMOND.

At the beginning of the quarter, the number of children in institutions and family homes was 198. At the close of this quarter, 198 were remaining, 33 children being committed, and 33 discharged during the same period.

The number of cases investigated during the quarter was 681, comprising investigations for acceptance of patients in hospitals, of children in institutions and abandonment and bastardy proceedings; 36 permits for admission to the Farm Colony were issued, as were 21 burial permits for interment in the Richmond Potter's Field.

The receipts during the quarter for abandonment and bastardy cases, part payment for support of dependent children and the aged and infirm, insane examinations and clothing furnished patients, were $1,126, and the disbursements $1,178.25, leaving a balance on September 30 of $170. Compared with the corresponding quarter of the preceding year, the receipts were $1,053, and the disbursements $963.80, leaving a balance of $90.

ROBERT W. HEBBERD, Commissioner.

REPORT OF THE FIRST DEPUTY COMMISSIONER.

October 23, 1908.

Hon. ROBERT W. HEBBERD, Commissioner, Department of Public Charities:

Dear Sir—I have the honor herewith to submit to you my quarterly report for the period ending September 30, 1908. The following is a list of the bureaus, offices and institutions visited in the Boroughs of Manhattan and Richmond during this period.

Bureau of Dependent Adults, Manhattan.
East Twenty-sixth Street Morgue, Manhattan.
Harlem Morgue, Manhattan.
Municipal Lodging House, Manhattan.
Children's Bureau, Manhattan.
General Drug Department, Manhattan.
East Twenty-sixth street dock, Manhattan.
City Hospital Dock, Blackwells Island.
Storehouse dock, Blackwells Island.
City Hospital, Blackwells Island.
Metropolitan Hospital, Blackwells Island.
Metropolitan Hospital Tuberculosis Infirmary, Blackwells Island.
Metropolitan Hospital Training School, Blackwells Island.
New York City Home for the Aged and Infirm, Blackwells Island.
New York City Training School, Blackwells Island.
Storehouse, Blackwells Island.
New York City Children's Hospitals and Schools, Randalls Island.
Bureau of Dependent Adults, Richmond.
New York City Farm Colony, Richmond.

The visits made by me to these different bureaus, offices, institutions, hospitals, homes, etc., of the Department have been numerous, the result of all visits or inspections being covered by detailed reports to you thereon and containing over several hundred treated subjects. All suggestions and recommendations made by me in these reports for the betterment of the service and the Department at large have been approved by you, and, where necessary, the heads of the different institutions involved, directed to carry out such recommendations and suggestions as made by me.

The boats of the Department, namely, "Thomas S. Brennan," "Fidelity," "Thomas M. Mulry," "William H. Wickham," "The Bronx" and the new departmental boat "The Lowell," have been regularly inspected during the quarter. I have made numerous trips on each from the Twenty-sixth street pier, the new East Fifty-third street, East Seventieth street, East One Hundred and Twentieth street and East One Hundred and Twenty-fifth street landings to Blackwells Island and Randalls Island and the New York City Farm Colony, Staten Island.

The delivery of supplies at the East Twenty-sixth street pier for distribution to the respective institutions on Blackwells Island and Randalls Island have been regularly inspected and supervised by me. Early many mornings I have been on hand to make these inspections, seeing that the supplies arrived on time, that the employees were on duty and that the supplies were correct as to weight, quantity and quality. Regular visits have been made also to the different landings on said islands to await the arrival of supplies; seeing that the proper persons in charge of deliveries were on hand when the supplies arrived, that they worked quickly and handled everything with care and dispatch.

All new buildings undergoing construction on Blackwells Island, and the Municipal Lodging House, and the numerous repairs and improvements made on the other buildings of the Department during this period have been regularly inspected and reported upon by me.

All requisitions for supplies, repairs, alterations, etc., coming to my office daily during the quarter have only been approved by me after personal inspection and attention, where necessary, as to the absolute necessity of such requisitions, and then often not approved until I made investigation why such a request was made.

During this quarter large numbers of cases of insane committed through Bellevue and Allied Hospitals have been reviewed and approved by me. I have also reviewed and approved daily many commitments of children through the Children's Bureau of the Department to the different institutions of their faith.

The fire-fighting system of the institutions of the Department during this period have been enlarged by the addition of new fire-fighting paraphernalia. Drills of the employees of the different institutions continue to be given under the direction of the fire expert, Mr. Ross, drills being held frequently and unexpectedly, in which the employees have shown much ability and good results from constant schooling in handling a fire of an emergency nature. All hose in the respective institutions has been also inspected and tested by me, and when found old or rotten, or both, orders given for requisitions to be made for a new allotment.

During this quarter I also filled your position as Acting Commissioner while you were on your vacation.

The daily excursions given the patients and inmates of our institutions during this quarter on the steamer "Fidelity" have been looked after by me, as also the band concerts alternate Saturdays by the bands of the Immaculate Conception and the Catholic Protectory to the inmates and patients on Blackwells Island.

Of the numerous communications received and other complaints made to the Department and referred to me for investigation, all have been thoroughly investigated and action taken when necessary in the disposition of same.

All of which is respectfully submitted.

R. C. BAKER, First Deputy Commissioner.

REPORT OF THE SECRETARY.

November 2, 1908.

Hon. ROBERT W. HEBBERD, Commissioner, Department of Public Charities:

Dear Sir—Herewith I submit my report for the quarter ending September 30, 1908:

Statistics.

The daily average census of all the employees in the Department during the quarter was 2,199, the Nurses of the different institutions being included therein; their daily average census being 287 during this period.

There appeared 2,100 changes on the thirty payrolls rendered monthly during the quarter, the same being verified and O. K.'d by me. This large number of changes are noted and recorded in this office and means a great amount of work to keep the records correct and up to date.

The following table shows the causes and number of changes during the first, second and third quarters for 1908, being given for comparison:

	First Quarter.	Second Quarter.	Third Quarter.
Appointments	982	990	949
Promotions	161	246	194
Resignations	226	263	250
Transfers	9	22	25
Dismissals	683	741	682
	2,061	2,262	2,100

The figures of the third quarter show a slight increase over those of the first quarter, and compared with second a decrease. The salaries of the positions among which this large number of changes occur range from $60 to $240 per annum, and when sufficient money is granted the Department to pay higher salaries the vast number of changes will be gradually eliminated.

Changes.

On July 1, promotion, Examining Physician receiving $1,000 per annum to $1,500 per annum.
On July 23, appointment, Hospital Helper, $600 per annum.
On August 3, appointment (temporary), Hospital Helper, at $360 per annum.
On August 19, resigned, Dietitian, $1,200 per annum.
On September 4, appointment, Inspector of Foods (Milk Inspector), at $1,200 per annum.

In General.

During this quarter 1,800 letters were written and sent out by this office (of which 625 were signed by the Commissioner and 45 by the First Deputy Commissioner), covering the business transactions of this Department with other City Departments, the public, private charitable societies and institutions, hospitals and the State.

There were eleven General and fifteen Special Orders issued during this period, and nineteen propositions accepted and awarded for work costing not over $1,000 in each case.

On July 22 the first quarterly report of this Department ending March 31, 1908, was sent to his Honor the Mayor and later published in the CITY RECORD of August 28, 1908.

Needs.

The services of another Clerk and a Stenographer and Typewriter. Increased office room to meet the growth of business in this branch of the departmental service.

All of which is respectfully submitted.

J. McKEE BORDEN, Secretary.

REPORT OF GENERAL INSPECTOR.

December 15, 1908.

Hon. ROBERT W. HEBBERD, Commissioner, Department of Public Charities:

Dear Sir—I hereby respectfully submit my report for the quarter ending September 30:

The usual monthly inspections of the institutions of the Department were made during this period, reports being made thereon, in which over ninety-seven subjects were treated and acted upon.

The examinations of the inmates of the various institutions under the jurisdiction of the Department as to their sanity were made, being forty in number, of which twenty-seven were found to be insane and sent to the Psychopathic Ward, Bellevue Hospital.

The numerous matters referred to me for examination and report thereon have been attended to, and the proper action taken where necessary, all of which is respectfully submitted.

LOUIS W. SCHULTZE, M. D., General Inspector.

REPORT OF THE SUPERVISING ENGINEER.

November 4, 1908.

Hon. ROBERT W. HEBBERD, Commissioner, Department of Charities:

Dear Sir—I beg to report the number of passengers carried by the boats of this Department for the quarter ending September 30 to be as follows:

"Brennan"	32,546
"Bronx"	156,738
"Mulry"	94,243
"Wickham"	53,132
"Fidelity"	12,122
Total	348,781

Dead carried to Harts Island by the "Fidelity": Adults, 389; children, 1,230. Disinterments, 15.

The summer excursions for patients were conducted with the usual success and were discontinued on September 25.

The new steamer, "The Lowell," is now in operation, running on schedule time. The indications are that it is a valuable acquisition and will tend greatly to improve the service.

Respectfully submitted,

G. HAMILTON, Supervising Engineer.

REPORT OF THE EXAMINING PHYSICIAN.

September 30, 1908.

Hon. HOBERT W. HEBBERD, Commissioner:

Dear Sir—I have the honor of submitting the third quarterly report for 1908:

Four thousand eight hundred and sixty (4,860) applicants have been examined in this office to determine their physical disabilities, and were offered such relief and assistance as appeared to be indicated.

Three thousand seven hundred and ninety-eight (3,798) were assigned to our hospitals and seven hundred and seventy-seven (777) were found to be ineligible or not requiring hospital care and treatment. Of the latter number the majority were sent to their homes or referred to dispensaries for treatment, and one hundred and seventy-three (173) were sent to the Bureau of Dependent Adults in order that they might make application for admission to the New York City Home for Aged and Infirm.

Ten (10) applicants for "blind pension" were examined, of which number one (1) was found to be not totally blind.

Ninety-two (92) Bellevue transfer cases were discharged and ten (10) patients were returned to Bellevue; nine (9) of these appeared "too ill for transfer" and one (1) was returned for "mental examination" and later committed to Central Islip.

One (1) case of scarlet fever discovered in this office was placed in the custody of the Board of Health.

One hundred (100) applicants were examined for the Children's Bureau. These persons had made application to that Bureau to have the City board their children (two is the average number) free of charge for a year in homes or asylums. To the Children's Bureau these applicants had represented that they were so circumstanced that they could not maintain their children. Lay investigation having disproved their claims, the applicants were referred here for physical examination and written report. Only ten (10) applicants were found to be disabled and eighteen (18) partly or temporarily disabled. Seventy-two were not disabled, and the City was therefore saved the expense of maintaining one hundred and forty-four (144) children at two dollars ($2) per week for fifty-two (52) weeks, or fourteen thousand nine hundred and seventy-six dollars ($14,976).

Four hundred and forty-two (442) letters were written during the quarter, and many hundred inquirers were directed where to find their missing friends.

Respectfully yours,

F. M. BAUER, M. D., Examining Physician.

REPORT OF THE DEPARTMENTAL DIETITIAN.

January 22, 1909.

Hon. ROBERT W. HEBBERD, Commissioner:

Dear Sir—Herewith I have the honor to submit my third quarterly report:

Organization of the Dietary Department.

On July 7 Miss Margaret A. Proctor was appointed Acting Dietitian at the New York City Training School for Nurses, salary $600 per annum; this position had been vacant over three months.

From July 15 to August 15 Mrs. F. C. Aldred, Dietitian at Kings County Hospital, was absent on her annual vacation.

From July 1 to August 1 Miss L. F. Rogers, Dietitian at the Metropolitan Hospital, was absent on her annual vacation.

From July 15 to August 15 Miss Ada Holt, Dietitian at the New York City Children's Hospitals and Schools, was absent on her annual vacation.

From August 1 to August 15 Mr. Charles A. Ashenden, Dietitian at the principal office of the Department, was absent on his annual vacation.

On August 1 Miss Ethelwynne Adamson, Pupil Dietitian at the New York City Children's Hospitals and Schools, resigned before completing her term of service, in order to accept the appointment of Dietitian at the Newport Hospital, Newport, Rhode Island.

On August 11 Miss Gwendolyn Stewart was appointed Pupil Dietitian at the Metropolitan Hospital, in order to provide for the giving of vacations in the Dietitian's office.

On August 15 Miss Gwendolyn Stewart resigned as Pupil Dietitian at the Metropolitan Hospital.

On August 15 Miss Eva L. Morse was appointed Pupil Dietitian at the Kings County Hospital.

On August 15 Miss Mina Campbell resigned as Pupil Dietitian at the Kings County Hospital.

On August 15 Mr. Charles A. Ashenden, Dietitian at the principal office of the Department, was suspended from duty.

On August 19 Mr. Charles A. Ashenden, Dietitian at the principal office of the Department, resigned.

On August 19 Miss Marguerite Cain was appointed Pupil Dietitian at the Metropolitan Hospital.

On August 21 Miss Jessie M. Colvin was appointed Pupil Dietitian at the New York City Children's Hospitals and Schools, to succeed Miss Adamson.

On September 1 Miss Elizabeth C. Nickerson, Assistant Dietitian at the New York City Children's Hospitals and Schools, resigned to accept a position as Teacher in the Margaret Morrison Carnegie School at Pittsburgh, Pennsylvania. No arrangements have been made to fill this vacancy.

On September 1 Miss Margery Greenwood was appointed Pupil Dietitian at the Kings County Hospital.

On September 4 Mr. Morris Mason was appointed as Food Inspector at the principal office of the Department, to take up the duties formerly devolving upon the Dietitian, Mr. Ashenden.

On September 10 Miss Eva L. Morse resigned as Pupil Dietitian at Kings County Hospital.

On September 10 Miss Katherine Finneran was appointed as Pupil Dietitian at Kings County Hospital.

During the interval following the resignation of Mr. Ashenden and preceding the appointment of Mr. Mason the inspection of fresh fruits and vegetables was made by Miss Mollie F. McKenna, Acting Dietitian at the City Hospital, who came to the Twenty-sixth street pier daily for this purpose

The necessity for assistance being provided for the Dietitian at the New York City Training School for Nurses was recognized and my recommendation of the appointment of a Pupil Dietitian for this purpose was approved by yourself; however, it was impossible to secure a desirable candidate and the appointment was not made.

Under date of July 1 I addressed a letter to you, setting forth the urgent need for a Civil Service examination for Dietitians.

Equipment.

The work of equipping the kosher kitchens at City Hospital is practically finished.

As a result of a recent letter addressed to you by myself, on the need for more careful and sanitary handling of the Department's food supplies—especially bread—I was directed by yourself to investigate the different styles of baskets and hampers commonly used for the distribution of bread in large quantities, and to recommend the purchase of a few baskets of the most desirable style and size, for trial. This has been done.

In the Dietary Department of three of the institutions of the Manhattan branch of the Department, the Dietitians are endeavoring to make use of the principles of "Fireless Cookery" in the preparation of broths. From experiments so far made, it seems probable that ultimately all broths can be prepared by this process, thus insuring better results in the quality of the broths, reducing the usual over-heating of the diet kitchens in summer, and releasing space on the range. A patent "Cooker" has been purchased for trial in one of the institutions, with the idea of possibly preparing certain other articles of patients' diet in it, and accomplish economy in the handling of the foods and in the time required for distribution.

At the New York City Training School for Nurses, a special set of equipment for six trays was added to the equipment of the cooking laboratory, for the purpose of enabling the Teacher to give more thorough instruction in tray-setting and to afford the pupils more opportunity for practising tray-setting.

At the central office of the Department, a small library of a half dozen books on "Food Inspection" and "Analysis" was procured to afford the opportunity for a mutual understanding of the standards to be maintained in the food supply of this Department, on the part of the several heads of Departments who have to do with the inspection of the food supply.

Food Supply.

The usual quantity of fresh vegetables from the New York City Farm Colony on Staten Island was received by the Manhattan branch of the Department, deliveries being made three times each week during the summer.

The quality of fresh fruits and vegetables received in the Manhattan branch of the Department on contract during the summer months was decidedly poor at times, and it was necessary to make a great number of rejections, and sometimes to use an inferior quality of the supplies.

Teaching of Classes.

At the New York City Training School for Nurses arrangements were made to divide the teaching of classes between the Dietitian at the City Hospital and the Dietitian at the Nurses' Home. In the month of September Miss McKenna, Acting Dietitian at the City Hospital, taught twenty-two class periods of two hours each in dietetics; Miss Proctor, Acting Dietitian at the Nurses' Home, taught ten class periods of two hours each.

The above is respectfully submitted,

FLORENCE R. CORBETT, Departmental Dietitian.

REPORT OF EMPLOYMENT AGENT.

Twenty-third Street Branch, Y. M. C. A.
St. Bartholomew's Employment Bureau.
Bowery Branch, Y. M. C. A.
Metropolitan Training School, Blackwells Island.
Bakers' Labor Bureau.
Carpenters' Employment Bureau.

In reviewing the work of the Employment Bureau during the past quarter, I find the majority of applications received direct of a better class than formerly, many of whom have been engaged in some branch of skilled labor, but have lost their employment owing to the very dull season.

Work in the building line has been so very slack since October, 1907, that it has compelled a great number of men belonging to the unions throughout the City to make application at one or more of the City Employment Bureaus, where, formerly, work could be readily secured through the bosses of the various unions.

Several applications for employment have been received from both men and women with record of from three days to three months in the United States. Such applicants were advised and directed with a view of bettering their condition.

I am advised by several of the Superintendents and Supervising Nurses of various institutions under your supervision that the class known as the positive intemperate or general disturbers is gradually being weeded out and better conditions prevail through this change.

My duties and general routine of work here have considerably increased, necessitating more frequent visits to the various hospitals, asylums, organizations and employment offices which is very necessary to keep in touch with the several Departments, their routine of work and management of their male and female employees.

The recent request for office furniture which was granted is herewith gratefully acknowledged.

Respectfully submitted,

MARGUERITE D. CLAWSON, Employment Agent.

REPORT OF THE BUREAU OF DEPENDENT ADULTS, BOROUGHS OF MANHATTAN AND THE BRONX.

New York, November 12, 1908.

Hon. ROBERT W. HEBBERD, Commissioner, Department of Public Charities, Twenty-sixth Street and East River, New York City:

Dear Sir—In forwarding the report of this Bureau (Morgues included) for the quarter ending September 30, 1908, I beg to call your attention to the following facts:

During said quarter, 3,266 applicants for admission to hospitals were sent to the Examining Physician of this Department for examination as to their eligibility for admission to the hospitals connected with this Department; 421 children were sent to institutions for children on Randalls Island; 1,114 persons were sent to the New York City Home for the Aged and Infirm.

There were 336 children discharged from the institutions on Randalls Island; 871 persons were discharged from the New York City Home for the Aged and Infirm.

There were 115 sick and destitute persons sent to their homes by the State Board of Charities, thereby preventing them from becoming charges upon the City and County of New York.

There were 49 sick and destitute persons committed to the State Alms House, Blackwells Island, for care, awaiting the action of the State Board of Charities.

There were 485 Aliens committed to the State Alms House, Blackwells Island, for care, awaiting the action of the State Board of Charities.

There were 16,467 passes issued to Blackwells and Randalls Islands; 337 persons were sent to the Municipal Lodging House; 2,150 tickets for meals were given to persons awaiting disposition of their cases; requests were made for the examination as to sanity of 183 men and 186 women; 32 deaf mutes were admitted to institutions for same.

There have been sent from this Bureau 29 patients to the Craig Colony for Epileptics, Sonyea, N. Y.; 6 to the State Custodial Asylum for Feeble Minded Women, Newark, N. Y.; 2 to the Syracuse State Institution for Feeble Minded Children, Syracuse, N. Y.; 34 to the New York State Hospital for the Treatment of Incipient

Pulmonary Tuberculosis, Ray Brook, N. Y.; 1 person to the New York State Woman's Relief Corps Home, Oxford, N. Y.

In addition, this Bureau has examined 12,714 cases of applicants for admission to hospitals and homes other than our own, to be cared for there at the expense of the City and County of New York, of which 1,419 were rejected as improper charges.

This Bureau has taken 425 complaints of abandonment, of which 224 were granted requisitions, and 201 treated at this office; 139 non-support applications (aged parents and dependent children outside of institutions); 96 bastardy cases sent to the Court of Special Sessions; 128 bastardy cases not sent to court; 14 discharges from the Workhouse.

Payments in abandonment and bastardy cases during the quarter ending September 30, 1908, have amounted to $36,450.96, and disbursements in same, $35,807.86, thus saving that much to the taxpayers of The City of New York.

Total number of cases (including the passes issued to visit Blackwells and Randalls Islands) handled by the Bureau of Dependent Adults for the Boroughs of Manhattan and The Bronx, Department of Public Charities of The City of New York, during the quarter ending September 30, 1908, 39,600.

This Bureau has charge of the Morgue, foot of East Twenty-sixth street, Borough of Manhattan, and the Harlem Morgue, foot of East One Hundred and Twentieth street, Borough of Manhattan.

The total number of bodies received at the Twenty-sixth street Morgue during the quarter ending September 30, 1908, was 2,711, of which 1,115 were buried by friends, and at the Harlem Morgue, 280, of which 13 were buried by friends.

As mentioned in my report for the quarter ending March 31, 1908, I would again draw your attention to the fact that we receive no report as to disposition of cases referred to the State Board of Charities, and repeat the suggestion that the State Board of Charities be asked to report upon all cases referred to it in future.

The lower office should be completely renovated and painted, thereby creating a brighter and more cheerful appearance. Would again draw attention to the need for additional floor space, as we are very crowded at present.

The gates, doors, door springs and hinges should be either replaced by new ones or repaired at once, requisition having been sent in but nothing done. The steam pipes for heating the office are so old and have been repaired so often that a complete plant will be the only satisfactory solution of this difficulty.

An additional Stenographer and Clerk, also an Office Boy are needed.

Respectfully,

GEO. W. MEEKS, Superintendent.

New York, N. Y., November 12, 1908.

Mr. GEORGE W. MEEKS, Superintendent, Bureau of Dependent Adults:

Dear Sir—I respectfully submit the following report of the Division of Domestic Relations of this Bureau, for the quarter ending September 30, 1908:

REPORT OF THE CHILDREN'S BUREAU.

New York, September 30, 1908.

Hon. ROBERT W. HEBBERD, Commissioner, Department of Public Charities:

Dear Sir—I have the honor to submit herewith the report of the Children's Bureau for the quarter ending September 30, 1908.

During the quarter there were twenty-eight hundred and ninety-one (2,891) children proposed for commitment as public charges; of this number, after investigation, eight hundred and eighty (880) children were accepted as public charges for the periods varying from one month to one year; forty-seven (47) children were sent to institutions with mothers; ten (10) children were referred to private charities for care and nineteen hundred and fifty-four (1,954) children were disapproved unconditionally.

During the same period application was made for the discharge of three hundred and twenty-two (322) children, of which two hundred and ninety-five (295) were approved and twenty-seven (27) disapproved for the reasons stated in the statistical portion of the report.

During the quarter we received seven thousand two hundred and four dollars and fifty cents ($7,204.50) in part payment for children committed to institutions.

The statistical portion of the report follows, all of which is respectfully submitted.

FREDERICK C. BAUER, Superintendent, the Children's Bureau.

Changes.

During the quarter 494 changes took place among the employees.

Improvements.

The building known as the cow barn, being vacant since October, 1907, owing to the destroyal of our herd of cattle by order of the State Board of Agriculture, has, during the present quarter, been entirely renovated. The interior and exterior of the building has been painted throughout in two coats. A new floor of yellow pine wood has been laid covering an area of 4,800 square feet. A new ceiling of white pine wood has been put up and the building divided into two dining rooms by a frame partition, one for the Seamstresses and the other for a number of our female Ward Helpers, accommodating altogether about 125 female employees. New hot and cold water supply pipes, also new gaspipes, have been laid in the building. A steam table for the purpose of keeping the food warm, in addition to two kitchen sinks, have been erected. New closets in which to store the necessary kitchen utensils, etc., have also been built. Three new window openings have been made, and windows, one 5 feet by 2 feet 9 inches and two 3 feet by 3 feet each, have been placed in same for the admission of more light and ventilation. Six doors have been torn down, three closed up and rebuilt one. The grading around the building is going on. The roof of the building, portions of which were in bad condition, have been repaired, twenty-four bundles of shingles having been used.

At Dormitory 2 the 8-inch water main has been tapped and a new water line laid to supply the entire building.

A new metallic washing machine has been erected at the Infants' Hospital laundry and a new roof placed on the building.

At the central power house new mouthpieces have been placed on the three boilers. These, in addition to the other three boilers, have all been tested by the Police Department and found to be in good condition. All the fire hose has been tested to 100 pounds pressure and found to be in good condition.

A new roof has been placed on the fire engine house.

Wire screens have been placed on Wards 15, 16 and 17, Pavilions A, B, C, D, E and F, and the summer house attached to Ward 15.

The Doctors' quarters have been painted throughout in two coats, the woodwork grained and varnished, all pipes and radiators alumined and the floors shellacked.

The ceiling of cellar in day school building has been painted in two coats, the woodwork grained and varnished and all pipes and radiators alumined.

Painted the interior of the storehouse and varnished all the woodwork in gymnasium. Painted ward 15 throughout in two coats and grained and varnished all the woodwork. Painted the interior and exterior of the fire engine house in two coats.

Extensive repairs have been made at the greenhouse. The roof having been in such bad condition that it was necessary to replace some of the old joist with new material. A new floor has been laid covering an area of 355 square feet. New sand benches have been made and installed to replace the old ones which were in a dilapidated condition.

The roof of the cottage being in a very bad and leaky condition, it was necessary to remove all the old shingles and replace them with tin. The cornices which were also rotted away were replaced with new ones. The old lattice work on the side of the dining-room was removed and a new window placed instead, to admit more light and air which was greatly needed.

Among the articles made at the tin shop the following are the most important: One 20-gallon boiler, one 18-quart, one 12-quart and one 4-quart strainer; four 3-gallon milk pails, eighteen 6-gallon cans, 2 dozen wash basins, one dozen 6-quart, 6 dozen 4-quart and 1 dozen 2-quart saucepans with covers; one 8-quart, three 6-quart, twenty-seven 3-quart and forty-two 2-quart pails with covers; twenty-four 1-quart, twenty-six 1 pint and three 4-quart dinpers; four dozen 1 pint cups, seven 10-gallon galvanized iron tanks, one 3-quart dinner can and two dozen dustpans.

The roofs and gutters of the following buildings have been repaired during the quarter: Industrial school, drug store, cow barn, cottage and main office building.

Replaced in the various buildings 547 lights of natural and 154 lights of ground glass.

During the quarter many minor repairs have been made in the various labor branches as detailed in the weekly labor reports.

During the quarter 4,609 tons of coal and 516 tons of ice have been delivered at this institution.

Repaired 4,168 square feet of sidewalks with a mixture of tar and ashes, and made 270 square feet of cement walk.

Fire drills have been held regularly under the supervision of Mr. Ross, Fire Drill Instructor.

The following is a list of the work performed at the Industrial School during the quarter:

During the past quarter, a Painter at $4 per diem and a Carpenter at $5 per diem were appointed.

Improvements.

1. A toilet room adjoining the sewing room has been erected.
2. All the tin roofs, with the exception of the roofs of the male and female barracks, have been painted by the inmate help.
3. The repairs have been attended to punctually, as shown in the annexed labor report.
4. The male and female reception pavilions and the operation pavilion are nearly completed.
5. The painting of the ironwork and of the outside buildings has begun.
6. The additional help in the sewing room has proven to be adequate, and it is to be hoped that the tailor shop will be equipped in the same manner.

From the above figures, it can be seen the urgent need of additional buildings to house the male inmates. If such building is contemplated, it would be advisable to erect it with a view to accommodate cripples, who at the present time are housed on tthe second floor of the male barracks.

The employees of this institution have their sleeping quarters at different places, in fact, in every available corner. If we have, in the future, a better class of employees, a dormitory will have to be erected for their accommodation.

Respectfully yours,

JOSEPH D. FLICK, Acting Superintendent.

Daily average census of all in the institution during quarter, 1,877.

Improvements.

The Metropolitan Hospital was represented at the International Congress on Tuberculosis at Washington by an exhibition which was creditable, and received the praise merited. The entire exhibit was the work of the Pathologist, Photographer and mechanics of the institution.

The Nurses' New Home has progressed very slowly, and will not be finished in time to be opened on November 1.

Foundations and platforms have been erected, and two new shack tents have been started at the Female Tuberculosis Pavilion, which in size compare with those we already have, and will accommodate forty-eight people.

The contract work for repairing the roofs and gutters of the different buildings, as called for, has been finished, but we are obliged, from time to time, to call upon the contractors to make repairs again in the same places which they have repaired, showing that the condition of the roofs requires more careful attention than ordinary repairing of roofs and gutters.

The flower garden which was laid out and established for the benefit of the patients has been successful considering the fact that the work has been done by tuberculosis patients with one Attendant, without the assistance of a Gardener.

This fall the ground, which has been so unused to receiving cultivation, will be levelled and made more fertile for the coming season. The tuberculosis patients who worked in this garden were very few in number, although, when it was inaugurated, over fifty patients were willing to assist; but after a few days' trial in the sun, they found they were unable to withstand the heat, and begged to be excused, one after the other, until the number dwindled down to eight. These patients, however, were enough to take care of the garden, but did not carry out the idea of the original plan, that of giving work and exercise to as many of the patients as it could be laid out for.

The work, upon the grounds about the male dormitory, has been nearly completed; the outside walls of the male dormitory, the tuberculosis dormitory for women, the annex to the main hospital, the male medical building and the storehouse have been painted. The male dormitory and the female tuberculosis buildings have been blocked and made to represent stone, causing all the buildings to present a better appearance and correspond with the stone buildings of the institution.

Needs.

For a long time, this institution has been without proper telephone communication, owing to the fact that the telephone company refused to put in cables, but assured us that, as soon as the bridge was finished, cables would be laid, and that the extra connections necessary could then be made. The one wire which now connects this hospital with Twenty-sixth street is not sufficient to do the present work of this hospital. Two years ago, there were only thirteen or fourteen connections at the switchboard; these must be increased, as the institution has at least two hundred more patients now than at that time, and there are just so many more calls than at that time. In addition to all this service, the contractors who are working upon the different buildings of the institution have added to the already overladen wire and render it nearly impossible for those who desire to communicate with this institution to receive proper attention. In fact, friends of patients have notified us that it has required at different times four calls to get the hospital, and, as these people are poor, this means more than it would in an ordinary individual case. I would, therefore, suggest that two wires be added to the one which we have at the present time; one to be known as a pay wire for the benefit of the staff, Nurses and employees. This wire should be self supporting.

That a larger switchboard be installed to connect additional telephones in the different parts of the institution and the new buildings in course of erection.

Since patients have been landed at the hospital wharf, the necessity for filling in the centre of said wharf is becoming more and more apparent, inasmuch as the opening is a source of danger, and, if filled in, could be used to advantage for the placing thereon a reception building for patients and visitors.

The storehouse at the present time is not sufficiently large to accommodate the stores, and that part of the building now occupied by the lepers should be added to it; but, as we have no space for these lepers, it would be better to have a small house erected especially for them, so as not only to obtain the quarters which they now occupy, but to remove a source of comment due to the close proximity of these patients to the general stores.

The necessity for increased space for kitchens was taken up by the architect some time ago, and plans submitted to change the present kitchen building into an enlarged kitchen and dining rooms. Although this change was needed then, the large increase in the census at the present time demands it.

The annex to the main building is connected to it, on the ground floor, by a passageway, which causes a great deal of inconvenience on account of its location. To overcome this condition, a second story should be added to this passageway to connect the second stories of the two buildings and make the annex a part of the hospital proper, as soon as the employees, who are at the present time occupying the annex, are moved therefrom.

Respectfully submitted,

G T. STEWART, Superintendent.

Acknowledgments.

The school advertisement has been continued in the "Outlook" and the "Christian Herald," with good results. Six hundred and sixty-five circulars of information were sent to physicians in all states.

On July 4 the Training School Board arranged for a sleight of hand entertainment for the Nurses. It was a novel fourth of July entertainment and was greatly enjoyed and appreciated.

On August 26, through the efforts of Mrs. Ralph Trautman, a most delightful entertainment was given for the patients by the children of the summer playground schools. Between eight hundred and nine hundred were able to attend, and all seemed to enjoy it very much.

General Report.

During the quarter two Pupil Nurses completed their course and one returned for post graduate work. Two Head Pupil Nurses completed their post graduate work and one resigned to take up private nursing. Six Pupil Nurses were dropped temporarily on account of illness.

One Trained Nurse was dropped temporarily owing to illness at home.

One hundred and fifty-nine applications were received during the quarter. Fifteen took the entrance examination on September 1 and are now taking their preparatory course. Nine Probationers were appointed Pupil Nurses on July 1 and two on September 1. Two have since resigned, one owing to illness, the other thinking the work too hard.

The autumn class work was begun during the first week of September and the regular lectures and classes are now under way.

One Head Pupil Nurse position was increased from $360 to $600 and the title changed to Trained Nurse.

The work on the new Home progresses, but the date of the opening is still uncertain.

The report of the Metropolitan Training School is respectfully submitted.

AGNES S. WARD, Superintendent, Training School.

REPORT OF THE CITY HOSPITAL.

Hon. ROBERT W. HEBBERD, Commissioner, Department of Public Charities, New York City:

Dear Sir—I respectfully submit to you the quarterly report of the City Hospital for the third quarter ending September 30, 1908:

Statistics.

Census of Employees and Others at the Beginning of the Third Quarter.

Title.	Beginning.	Ending.
Hospital Helpers	200	200
Other employees	38	38
Total	238	238
House staff	24	24
Officers' family	2	2
Convalescent help	39	28
Unpaid help	21	34
Total	86	88

Daily average census of all in the institution during the third quarter, 855.

Improvements.

Have had made and placed doors at the foot of the stairway leading up into the reception office, to keep out the cold blasts of wind and storm every time the outer door opens, which was our experience last winter. This, I am sure, will prove beneficial.

Made new gang planks to replace old ones for use of launch at hospital dock.

Made two clothes closets for Female 8; had bracket shelves made and placed at the entrance to each ward in main building, erysipelas pavilion, and male and female dormitories, to place fire extinguishers on, that they might be accessible to each ward and room in case of need.

Have put heavy wire screens on all windows on the first floor of the male and female clothes rooms as a protection.

Have painted and put shelving and gas stove in the kosher milk kitchen; also painted and put up shelving, gas range and two large earthenware sinks in kosher meat kitchen.

As it was necessary that this room have a separate entrance, I have removed a window and made a doorway opening into the court yard in the rear of the building, so that it has an entirely separate entrance, as was desired.

Painted Wards 9 and 10, male, and kitchens attached; also all the ward furniture.

Painted and varnished the hallway and bathrooms of Female 13 and 14; also Female 8, the kitchen attached, and all the furniture.

Painted west side and north and south ends of male dormitory.

Have made concrete walk at south entrance to store house.

Superintendent's Building.

Is completed, with exception of touching up the woodwork and putting the finished paint on roof.

Janeway Hall.

Is complete, with exceptions as noted: The first floor has not been papered, and all floors and trim on the first floor need another coat of paint; the saddles of the elevator doors have not been set and the car itself has not been built; the roof still needs another finished coat of paint.

Service Building.

Masonry work, terra cotta work and plaster work have been completed throughout, the composite work is completed, the enamel brick work is up, men ar now laying tile and granolithic floors; the plumbing, steam, electric, gas and refrigerating work is nearly completed, and the work in general is progressing slowly.

The usual amount of painting, plumbing, plastering and repairs were carried on the same as is the usual custom.

Respectfully submitted,

ALBERT M. CONKLIN, Deputy and Acting Superintendent.

REPORT OF THE NEW YORK CITY TRAINING SCHOOL FOR NURSES.

September 30, 1908.

Hon. ROBERT W. HEBBERD, Commissioner, Department of Public Charities, Foot of East Twenty-sixth Street:

Dear Sir—The following report of the New York City Training School is respectfully submitted for the quarter ending September 30, 1908:

Ten Trained Nurses (3 male), 59 Pupil Nurses and 3 male Orderlies at City Hospital; 1 Trained Nurse and 4 Pupil Nurses at Maternity Hospital; 1 Trained Nurse and 28 Pupil Nurses at Gouverneur Hospital; 3 Pupil Nurses on vacation; 1 Supervising Nurse, 1 Trained Nurse, 5 men and 24 women at the Home.

On September 1 a class of 22 probationers took the entrance examination and entered on probation. All were accepted and one probationer withdrew on September 21.

Applications received	126	Pupil Nurses resigned	1
Pupil Nurses graduated	12	Pupil Nurses reappointed	8
Pupil Nurses resigned (illness)	9	Trained Nurse resigned	1
Pupil Nurses resigned (illness at home)	1	Trained Nurse appointed	1

Changes.

Miss Margaret Proctor was appointed Acting Dietitian for the Nurses' Home on July 7.

On September 1 the class schedules for the senior and junior classes were arranged in order to conform with the curriculum as revised and approved by the Commissioner and the Advisory Board on April 29, 1908.

Improvements.

The contractor completed the general repairs for the Nurses' Home by September 5.

Rooms on the ground floor of Schuyler Hall, formerly used as bedrooms, but abandoned for this purpose on account of their undesirable location, have been utilized for supply rooms, cloak room and laundry and tea room.

Respectfully submitted,

JANE M. PINDELL, R. N., Superintendent Training School.

For comparison sake as to our census I beg to present the following figures showing the total number of lodgings, etc., furnished for the third quarter of each year (institution opened December, 1896):

Quarter Ending—			
September 30, 1897	6,606	September 30, 1903	9,732
September 30, 1898	12,476	September 30, 1904	12,805
September 30, 1899	16,833	September 30, 1905	9,498
September 30, 1900	10,084	September 30, 1906	7,437
September 30, 1901	9,108	September 30, 1907	8,190
September 30, 1902	9,267	September 30, 1908	16,094

The largest number of applicants ever provided for in this institution was on December 14, 1907, when our census reached the enormous figures of 615; next to that, was on April 4, 1908, when we provided for 609 applicants.

Changes.

One temporary emergency Physician appointed for eleven days, salary $3 per day, during the illness of our regular Physician, and also for fifteen days, vice our Physician on vacation, salary at the rate of $1,000 per annum.

One Engineman, salary $4.50 per day, transferred to Borough President's Department.

One Engineman, salary $4.50 per day, appointed vice above action.

One temporary emergency Engineman, salary $4.50 per day, appointed for fourteen days to fill vacancy caused by vacation.

Improvements.

No improvements of any particular consequence, other than sufficient painting, kalsomining and ordinary repairs to keep this institution in its general good condition, took place during this quarter.

Needs.

While the contractor, the Thomas B. Leahy Company, appears to lose time in getting our new building on East Twenty-fifth street finished, it hardly looks reasonable to me to expect to be able to utilize the same before the early part of 1909. In the meantime some better provision should be made to shelter all those whom we cannot properly provide for in this institution during this coming winter other than sheltering them in the waiting rooms on Twenty-sixth street dock.

I have tried for several years past to secure one or more large lofts adjacent to or within a reasonable distance of this institution, but it seems no one cares to lease their property or any part of it for the purposes for which we require the same, even though in several instances they have been offered double the normal rent. I am still on the lookout for some place to shelter our overflow and trust I may be successful.

Respectfully,

WM. C. YORKE, Superintendent.

BOROUGH OF RICHMOND.

Hon. ROBERT W. HEBBERD, Commissioner, Department of Public Charities, Foot of East Twenty-sixth Street, New York City:

Dear Sir—I have the honor to herewith submit my report for the three monhs ending September 30, 1908.

The number of children (public charges) remaining in institutions June 30, 1908, was one hundred and eighty-six (186), and the number remaining in "Family Homes" was twelve (12), making the number remaining in institutions and "Family Homes" June 30, 1908, one hundred and ninety-eight (198). The number of applications for commitment of children during the quarter was fifty-two (52). Of this number thirty-two (32) were approved for commitment and twenty (20) were disapproved for the

reason that nineteen (19) were able to be supported at home and one (1) could not be located at address given. Of the number approved for commitment ten (10) were sent to the hospital on account of their physical condition, and are still remaining in hospital, and five (5) were placed in "Family Homes."

The number received in institutions were seventeen (17) committed by this Department, and eleven (11) by the court, making a total number of children in institutions and "Family Homes" during the quarter two hundred and thirty-one (231). Of this number twenty-seven (27) were discharged from institutions, and six (6) from "Family Homes"; thus the number of children remaining in institutions and "Family Homes" September 30, 1908, are one hundred and ninety-eight (198). One of the children (aged 16) was placed in a "Free Home."

The number of children remaining in "Free Homes" is nine (9). The children in "Family" and "Free Homes" have been visited once in each month.

The number of reinvestigations of children (public charges) in institutions for reacceptance were twenty-eight (28). Of this number fourteen (14) were approved to remain for a year, seven (7) were approved to remain for less than a year and seven (7) were disapproved for further retention as public charges.

The number of parents making part payments toward the support of children during the quarter was twelve (12).

Amount received in part payment toward the support of children during the quarter	$191 00	
Amount received during the quarter toward the support of aged and infirm	14 00

		$1,178 25
Balance on hand September 30, 1908		$170 00

The examinations in "lunacy" were thirteen (13). Of these nine were committed to Manhattan State Hospital and four (4) were certified as "not insane."

The number of requisitions in abandonment proceedings was twenty-two (22) and for non-support nine (9). The complaints in bastardy proceedings were two (2).

The number of admissions to hospital investigated was five hundred and seventy-three (573).

Miscellaneous visits and investigations were seventy-six (76).

The Department was represented in court thirty-nine (39) times.

The number of permits issued for the New York City Farm Colony was thirty-six (36).

The number of burial permits issued for the interment of poor and strangers at the Farm at New York City Farm Colony was twenty-one (21).

The number of applicants referred to the Bureau of Dependent Adults, Borough of Manhattan, was four (4).

Respectfully submitted,

JEREMIAH CONNELLY, Superintendent of Bureau of Dependent Adults.

Total	17

Improvements.

A one-story, 60 by 30 feet, paintshop has been built adjoining the carpenter shop and partitioned, for the painting of wagons and carriages.

The back road leading from the farm to Rockland avenue has been filled in and graded.

At the stable all stalls have been repaired; also the windows and blinds properly fastened.

All fire apparatus have been tested, such as chemical engine, fire hose and all extinguishers, and found in good condition.

Concrete sidewalks have been laid on the grounds surrounding the Superintendent's cottage. The morgue has been repaired and whitewashed.

At the cemetery the graves have been remounded, the walks graded and all stone and rubbish removed.

The paintshop and toolroom has been torn down to make room for the erection of a new dormitory.

The storeroom between the insane pavilion and the old stone building has been overhauled and is now used by the farmer for the storing of seeds and farming implements.

The painting of the interior of the cottages A, B and C started July 3, each room and hall receiving three coats of paint.

The following list of vegetables has been shipped to Blackwells Island this quarter; first shipment was on July 1, 1908:

Tomatoes, quarts	10,668	Cucumbers, dozen	765

Respectfully submitted,

HENRY JETTER, Superintendent.

BOROUGHS OF BROOKLYN AND QUEENS.

Brooklyn, November 12, 1908.

Hon. ROBERT W. HEBBERD, Commissioner of Public Charities, New York, N. Y.:

Sir—I submit herewith a statement of the work transacted at the Central Office for the Boroughs of Brooklyn and Queens, for the quarter ending September 30, 1908.

The reports of the several heads of Bureaus contain the statistics showing in detail the amount of business handled during that period.

Improvements.

During the summer months great progress has been made in the erection of the new Coney Island Hospital and nearly all the buildings are under roof. When completed, this building will be one of the best equipped in the city, and a great credit to the administration under which it was built. Inasmuch as it is the first new hospital constructed by the Department of Charities in Brooklyn in over fifty years, it is only natural that I am very anxious to see it completed and ready for inspection at the earliest possible date.

Work has also been commenced on the new Nurses' Home and the Morgue and Pathological Building at the Kings County Hospital.

Drawings for the new Bradford Street Hospital are completed, and as soon as the question of title to the property has been decided by the Corporation Counsel you will be in a position to advertise for bids.

Many minor improvements have been made in the various buildings under the control of the Department, as shown by the reports of the General Medical Superintendent, and the institutions are now in as good condition as could be expected with the amount of money available for alterations and repairs.

Respectfully submitted,

THOMAS W. HYNES, Second Deputy Commissioner of Public Charities.

Hon. ROBERT W. HEBBERD, Commissioner of Public Charities, New York, N. Y.:

M. A. McCARTY, Clerk.

Brooklyn, October 1, 1908.

Hon. ROBERT W. HEBBERD, Commissioner of Public Charities, New York, N. Y.:

Sir—I herewith respectfully submit the report of the Children's Bureau for the quarter ending September 30, 1908.

The following table will show the great increase in the number of applications for the commitment of children to institutions:

Statistics.

	1907.	1908.
First quarter	869	1,367
Second quarter	1,194	1,617
Third quarter	1,113	1,653

The foregoing does not include nearly two hundred applications of children under sixteen years for hospital treatment, each quarter, which were entered and investigated by the Examiners of the Children's Bureau.

In previous reports I have requested additional help. Our present force has been so severely taxed at times that we have been forced to take Examiners from reinvestigation work and put the whole force on the investigation of current cases of destitution, in order that we might thereby try to avert the suffering caused by delay. At least three more Examiners are needed.

Needs.

At trifling expense our present office could be enlarged. The room occupied by the Children's Bureau is less than twenty feet square, and often thirty people are crowded into it—some with sick children, others making applications, and more awaiting the disposition of their cases. I would respectfully recommend that an arch be cut through to the adjoining room and we would then have needed space and ventilation, and easy access to our files and records would be promoted.

Changes.

Mr. John J. O'Leary, who was appointed in 1900, during the past quarter has had his title changed from Examiner of Charitable Institutions to that of Clerk. His present title conforms to the duties performed by him as my assistant.

Mr. John T. Sesnon, a former Examiner of Charitable Institutions, has been appointed to the position of Registrar of Records in this office.

Respectfully submitted,

FRED GOODHUE, Clerk.

Improvements.

Some painting done during the quarter, although not so much as formerly, the restriction as to the employment of Hospital Helper Painters compelling us to employ only painters from the Civil Service list. The men who have presented themselves from this list for these positions have been advanced in age, the majority of them being over sixty years old.

Minor repairs have been made about the buildings. The Engineers have been doing considerable work in putting steam lines in condition for winter; the main high pressure lines have been gone over completely.

The contractor has commenced excavation for the new Nurses' Home.

The coal shed and carpenter shop in the rear of this hospital have been taken down, the grounds graded and seeded; the shop has been moved to the laundry of the old "annex."

Needs.

A storehouse for vegetables is badly needed, as the old storehouse, used as a vegetable cellar, is in a dilapidated condition and should be torn down.

There are not a sufficient number of Plumbers on the premises to properly look after the work; as a result, there are numerous faucets leaking, on account of which water is being wasted. The fact that two Plumbers have to look after the plumbing for all the buildings in the Department in the Borough of Brooklyn on the face of it shows the need of more Plumbers. The Plumbers who attend to this work are on the payroll of the New York City Home for the Aged and Infirm, Brooklyn Division.

The flooring in the front corridors of the Kings County Hospital should be repaired at an early date, as there are numerous crevices in it in which germs can lodge.

I would recommend that the stairways in these front corridors leading from one floor to another should be built of fireproof construction, as they would be at present extremely dangerous in case of fire.

The exterior of the Observation Building should be painted. This building has never been painted, and during the severe northeast storms the moisture penetrates to the interior of the building. It is impossible to paint this building with our present force unless we drop all other work.

I again desire to call your attention to the need of window guards in the Observation Building, which are needed to prevent the escape of patients detained in this building.

Respectfully yours,

JOHN F. FITZGERALD, General Medical Superintendent, Boroughs of Brooklyn and Queens, New York.

REPORT OF THE KINGS COUNTY HOSPITAL TRAINING SCHOOL FOR NURSES.

Hon. ROBERT W. HEBBERD, Commissioner Public Charities, New York:

Dear Sir—The following is the report of the Kings County Hospital Training School for Nurses for the quarter ending September 30, 1908:

Dr. JOHN F. FITZGERALD, General Medical Superintendent, Boroughs of Brooklyn and Queens, New York:

Dear Doctor—I respectfully submit the third quarterly report of the Kings County Hospital Training School for Nurses ending September 30, 1908. On this date the census of the Training School was as follows:

Superintendent of Training School	1	Probationers	10
Deputy Superintendent	1		
Supervising Nurses	3	Total	83
Trained Nurses	20		
Pupil Nurses	48		

Of this number two Trained Nurses are at the Bradford Street Hospital, one Trained Nurse and one Pupil Nurse are at the Coney Island Reception Hospital.

During the quarter eighty-three applications were received, sixty-eight of whom were eligible. Fourteen probationers were received, four were accepted and appointed Pupil Nurses, ten are still on probation. One Pupil Nurse was dropped owing to ill health, and one was dismissed for cause.

Practical demonstration and class work was continued during the summer months.

The general health of the Nurses has been very good, no serious illness having occurred.

Respectfully submitted, Isabell Burrows.

Respectfully yours,

JOHN F. FITZGERALD, General Medical Superintendent, Boroughs of Brooklyn and Queens, New York.

Borough of Brooklyn, New York City, October 1, 1908.

Dr. JOHN F. FITZGERALD, General Medical Superintendent of the Department of Public Charities for the Boroughs of Brooklyn and Queens:

Dear Sir—I have the honor herewith to submit to you the quarterly report of the Kings County Morgue, for the quarter ending September 30, 1908.

The number of bodies received was 167, of which number 123 were identified and 44 were not identified. Of the number identified 58 were interred by the County, making total interred by County 102, including the 44 unidentified. The remaining 65 were interred by relatives or friends.

Respectfully submitted,

P. MAGUIRE, Keeper.

REPORT OF THE NEW YORK CITY HOME FOR THE AGED AND INFIRM, BROOKLYN DIVISION.

Hon. ROBERT W. HEBBERD, Commissioner, Public Charities, New York:

Dear Sir—I submit herewith for your consideration the third quarterly report for the year 1908, of the New York City Home for the Aged and Infirm, Brooklyn Division:

Statistics.

Resigned	6

Improvements.

Considerable painting has been done in the interior of the buildings of this institution during the past three months. This work is done by inmates, as there are not sufficient painters supplied in Brooklyn to even supervise the work that has to be done of this character.

Considerable puttying and glazing of windows has been done by the inmates.

Hot water generators taken from the basement of the old "Annex" power house have been placed in the basement of the Neurological Hospital, and connected up, as the generator formerly in use there was so badly eroded as to permit of the escaping of steam through the shell.

The plumbing shop has been removed from the basement of the Neurological Hospital to the second story of the laundry building of the "Annex."

Needs.

The floors throughout the wards in both the building for males and females and Neurological Hospital are in a dilapidated condition and should be replaced by new flooring at the earliest date possible. This is especially true of the basement of the male building, used as dining rooms and shops. The flooring in the basement of the building for females, used as an office, is also in a dilapidated condition.

The condition of the present kitchen connected with this home is discreditable, the flooring being broken in numerous places and in a condition making it almost impossible to keep clean.

Very respectfully yours,

JOHN F. FITZGERALD, General Medical Superintendent, Boroughs of Brooklyn and Queens, New York.

REPORT OF THE CUMBERLAND STREET HOSPITAL.

Report of the Superintendent.

Brooklyn, N. Y., October 1, 1908.

Dr. JOHN F. FITZGERALD, General Medical Superintendent, Kings County Hospital:

Dear Doctor—The report of the Cumberland Street Hospital for the quarter ending September 30, 1908, is respectfully submitted:

Changes Among Employees.

Appointments	23
Resignations	10
Discharges	11
Graduated (Nurses)	1

Improvements.

Laying of new floors and sanitary base throughout hospital. Extension of elevator shaft, together with new operation in car. Removal of dirt, rubbish and old fence from east area, concreting all areas about the hospital. Also erecting of line fence. Construction of two manholes leading to sewers. New Butcher's block and table have been provided, also metal oil tanks. The usual repairs and painting to buildings and apparatus have been accomplished by our own employees, as set forth in our weekly reports.

Needs.

The acquisition of a new site for building and area purposes. Residence for Superintendent's family and house staff. Nurses' Home. Paid Resident Pathologist. Installation of electric ironing system in laundry department.

Explanatory remarks concerning the above items have been set forth in our former reports.

Alterations to male dressing room. The present room is too small; by inclosing a small portion of the balcony and cutting doorway, a sufficient increase of room could be afforded.

Respectfully submitted,

C. B. BACON, Superintendent.

Report of the Medical Board.

Brooklyn, N. Y., October 1, 1908.

Dr. JOHN F. FITZGERALD, General Medical Superintendent, Kings County Hospital:

Dear Doctor—We have the honor in behalf of the Medical Board of the Cumberland Street Hospital to submit the report for the quarter ending September 30, 1908.

We are pleased to note that the new floors and sanitary base throughout the hospital, alterations to passenger elevator, removal of dirt and rubbish from areas, also concreting of areas have been completed. All of this work very materially improves the sanitary conditions and general appearance of the hospital.

During this quarter there were no changes affecting the attending staff. Drs. Frederick R. Meeks, Henry Lee Good and Walter F. Appleton, members of the resident staff completed their services.

Again we urgently recommend the acquiring of a site for building and area purposes, together with the building of home for the Superintendent's family, house staff and Nurses. Also the appointment of a paid resident Pathologist.

During the quarter there were eighty-five major operations performed, and four hundred and seventeen visits made by the attending staff.

We are pleased to state that the general order, cleanliness, together with care and discipline of the institution, are well maintained.

Respectfully submitted,

WM. H. PIERSON, M. D.,
O. S. RETCH, M. D.,
Committee.

Report of the Training School for Nurses.

Dr. JOHN F. FITZGERALD, General Medical Superintendent, Kings County Hospital:

Dear Doctor—The following report of the Cumberland Street Hospital Training School for Nurses for the quarter ending September 30, 1908, is respectfully submitted:

These comprise 745 gallons fluid extracts, tinctures and elixirs, 1,320 gallons liniments, 425 gallons mixtures, 420 gallons syrups, 650 pounds ointments, 125 pounds powders and numerous other articles.

The preparation of sterilized catgut has been continued, and various analyses have been made of supplies received, and of such articles as were referred to the undersigned by the general storekeeper and the heads of the institutions.

Very respectfully,

FREDERICK KENNEY, Chemist.

BOARD OF WATER SUPPLY.

MINUTES OF THE MEETING OF THE BOARD OF WATER SUPPLY OF THE CITY OF NEW YORK, HELD JANUARY 19, 1909.

Present—Commissioners John A. Bensel (President), Charles N. Chadwick and Charles A. Shaw.

CIVIL SERVICE MATTERS.

Appointments.

On recommendation of the Chief Engineer in his communication 2949, January 4, 1909 (1830), the following Experts were employed, at compensations set opposite their names, respectively, such employment to commence from January 1, 1909, subject to the approval of the Municipal Civil Service Commission, the Mayor and the State Civil Service Commission:

George W. Fuller, Expert on Filtration; compensation, $100 per diem; yearly amount not to be exceeded, $5,000.

Allen Hazen, Expert on Filtration; compensation, $100 per diem; yearly amount not to be exceeded, $5,000.

Arthur West, Expert Mechanical Engineer; compensation, $50 per diem; yearly amount not to be exceeded, $1,500.

James F. Kemp, Expert Geologist; compensation, $50 per diem; yearly amount not to be exceeded, $1,500.

Charles W. Leavitt, Jr., Expert Landscape Engineer; compensation, $100 per diem; yearly amount not to be exceeded, $3,000.

W. O. Crosby, Expert Geologist; compensation, $25 per diem; yearly amount not to be exceeded, $5,000.

Charles P. Berkey, Expert Geologist; compensation, $25 per diem; yearly amount not to be exceeded, $1,500.

On motion of Commissioner Bensel, Ernst J. Lederle, No. 471 West One Hundred and Forty-third street, New York City, was employed as Expert Sanitary Engineer, with compensation at the rate of $10,000 per annum, subject to the approval of the Municipal Civil Service Commission, the Mayor and the State Civil Service Commission (1939), his duty as such Expert Sanitary Engineer to be the supervision and preparation of the necessary specifications and plans to accompany the contracts prepared by this Board, and the inspection and supervision at all times of the operation in carrying on of the contracts let by this Board, thus providing at all times an adequate sanitary supervision of the work done by the Board.

OTHER MATTERS.

Accounts.

A communication was received from the Executive Secretary of the Mayor, dated January 11, 1909 (2105), requesting that a complete inventory of all goods and supplies which were on hand January 1, 1909, be furnished to the Mayor. On motion, the Secretary was directed to request the Chief Clerk, Chief Engineer and the Chief of Patrolmen to make such inventory and forward the same to the Board.

Contracts 11 and 12.

A communication was received from Commissioner Bensel, dated January 8, 1909 (1938), transmitting report of Dr. Walter Bensel, Sanitary Superintendent of the Health Department, City of New York, dated January 7, 1909, as to the sanitary conditions at the camps of the contractors under these contracts.

The Secretary reported that on January 9, 1909, he had written Dr. Bensel, acknowledging receipt of this report (1975).

On motion, the Chief Engineer was requested to report to the Board in regard to this matter, and the Secretary was directed to write to the Department of Health of The City of New York, stating that this Board has already taken action looking to the correction of the abuses and evils outlined in said report, and that this Board will report further in the near future.

Contract 12.

Chief Engineer's communication 2956, January 7, 1909 (1948), transmitted report of Division Engineer White, dated January 4, 1909, as to the accident on January 3, 1909, to Otto Feth, Assistant Foreman. The Secretary reported that on January 11, 1909, he had written the State Department of Labor (1948), forwarding said report. On motion, the Chief Engineer was directed to investigate and report to the Board as to verbal allegations which have been made as to the excessive number of accidents and deaths on the work under this contract, and the Chief Engineer was also directed to report to the Board the details of every accident on any work under his jurisdiction and charge, and the Secretary was directed to communicate the facts reported to the necessary authorities.

Communications were received from the State Department of Health, dated January 8, 1909 (1982), and the Supervisor of the Town of Marbletown, dated January 9, 1909 (2019), in reference to the smallpox case at Marbletown. Commissioner Bensel reported that on January 12, 1909, he had directed the Chief Engineer to require the contractor on this contract to have all his employees vaccinated. The Chief Engineer reported, verbally, that this order was being carried out. On motion, the Secretary was directed to communicate this fact to the State Department of Health and the Supervisor of the Town of Marbletown.

Contract 15.

A communication was received from Dr. Walter Bensel, Sanitary Superintendent, Department of Health of The City of New York, dated January 14, 1909 (2073), as to the sanitary conditions on this contract. Receipt of said communication was acknowledged January 15, 1909.

Contracts 17 and 18.

Opinion 474, January 11, 1909 (1978), returned printed forms of contracts and combined proposal and advertisements, and declined to approve the same until it is indicated in writing that moneys have been appropriated for the purposes set forth. On motion, the Secretary was directed to write the Corporation Counsel, returning said forms of contracts and combined proposal and advertisements, and stating that money has been appropriated by action on October 27, 1905, taken by the Board of Estimate and Apportionment, authorizing $161,800,000 for the uses and purposes of this Board, and requesting that said forms and advertisements be examined and approved as to form.

Contract 30.

A communication was received from Consulting Engineers Freeman, Burr and Stearns, dated January 6, 1909 (1908), to the effect that the Hill View Reservoir is essential for the safe and efficient operation of the Catskill Aqueduct.

Chief Engineer's communication 2938, January 7, 1909 (1949), reported that the Bronx Valley sewer will pass through land acquired by The City of New York, and, if so, increased expense may be entailed not exceeding $25,000. On motion, the Secretary was directed to write the Corporation Counsel, forwarding copy of said communication and the accompanying map (Accession E. 61), and stating that as the proposed location of the sewer is within the property condemned by the City for the purposes of this Board, the Board will request that the necessary steps be taken to notify the Bronx Valley Sewer Commission of the facts in the case, and further, that said Commission be ordered to submit their plans and secure the approval of this Board before proceeding further with their work.

Contracts 36 and 37.

A report was received from Commissioner Shaw and the Secretary, dated January 11, 1909 (2011), as to the bids received January 7, 1909. On motion, the following resolution was adopted:

Resolved, That as the Board does not feel warranted in making an award of Contracts 36 and 37, owing to the fact that the low bidder is 10 per cent. or nearly $300,000 above the lowest bid received December 1, 1908, no action be taken by this Board on the bids submitted January 7, 1909, for Contracts 36 and 37 (north and south halves, respectively, of the Wallkill pressure tunnel), and that the Comptroller be requested to return to the bidders their deposits respectively, and that the Chief Engineer be directed to prepare and submit to the Board a contract for the construction of the aqueduct from the southerly limits of Contract 12 to the northerly limits of Contract 15, to be known as Contract 47.

Contract 40.

A communication was received from the Peter Keeler Building Company, dated January 18, 1909 (2104), requesting the return of its deposit.

A report was received from Commissioner Shaw and the Secretary, dated January 11, 1909 (2010), as to the bids received January 5, 1909. On motion, the Secretary was directed to write the Comptroller, requesting that he return to all the bidders their deposits respectively, except the lowest bidder, John J. Wilson, and to write Mr. Wilson that the Board is now prohibited from awarding any contracts, and that his deposit will be held a short time in the hope that such prohibition will be removed.

Contract "B."

Commissioner Shaw submitted form of supplemental agreement with Joseph N. Early, the contractor for Class D, giving the terms of the adjustment of differences with him, and extending his time to complete deliveries to February 14, 1909. On motion, said form of agreement was approved, subject to the consent of the surety on said contract.

Finances.

On motion, the following resolution was adopted:

Resolved, That the Secretary is to consider himself under orders to submit no contracts, except such as have been entered into prior to December 18, 1908, for execution or signature, until some action is taken by the Board of Estimate and Apportionment, relieving the Board from the prohibition of entering into contracts.

Real Estate, Buildings.

A communication was received from Mr. H. T. Dykman, special counsel, dated January 6, 1909 (1931), stating that if the Board desires possession of the buildings on Parcels 485, 486 and 489, Kensico, Section 7, Mr. Dykman will arrange the transfer thereof with Thomas W. Butts, the owner. On motion, this matter was referred to Commissioner Chadwick with power.

Real Estate, Taxes.

Commissioner Shaw submitted, with his approval, reports of the Adjuster of Taxes and Assessments, approving the bill for town taxes, 1908, Town of Phillipstown, $400.33, including collector's fee of 1 per cent., and the bill for school taxes, 1908, School District 5, Town of Olive, $1,106.34, including collector's fee of 1 per cent. On motion, vouchers for the payment of said bills were ordered to be prepared and forwarded to the Comptroller.

Real Estate, Timber.

A communication was received from W. W. Carman, dated January 13, 1909 (2044), asking whether he may cut timber on the City land. On motion, the Secretary was directed to write Mr. Carman that as the title to the land has vested in the City, he should cut no timber of any kind, even firewood.

Salaries.

A communication was received from the Board of Estimate and Apportionment, dated January 11, 1909 (2112), stating that on January 8, 1909, said Board had adopted the following resolution:

"Resolved, That the heads of the various departments, bureaus and offices of The City of New York and the counties included therein, be and they are hereby requested to furnish to the Board of Estimate and Apportionment a statement of all salary increases which have been made since the adoption of the Budget, to wit: October 30, 1908, up to and including January 8, 1909."

On motion, the Secretary was directed to write the Board of Estimate and Apportionment, giving a list of all salary increases between the dates specified in said resolution.

THOS. HASSETT, Secretary.

From the Board of Estimate and Apportionment—Assistant Secretary transmits certified copy of resolution adopted by the Board, which reads as follows:

Resolved, That for the purpose of providing means for the erection and equipment of dormitories for prison purposes on Harts Island, the Board of Estimate and Apportionment hereby authorizes the Commissioner of Correction to expend one hundred thousand dollars ($100,000) of the special fund created, pursuant to chapter 173 of the Laws of 1905, for the erection, furnishing and completion of a new city prison building or buildings upon any island within The City of New York, or the erection, furnishing and completion of an addition or additions to the present city prison building or buildings on any of said islands.

A true copy of resolution adopted by the Board of Estimate and Apportionment February 5, 1909.

WILLIAM M. LAWRENCE, Assistant Secretary.

File with General Bookkeeper and Auditor.

From the Comptroller—Approval of Comptroller given in matter of procedure for preparation of payrolls for detailed Policemen. Payrolls to be prepared by Inspector

of District in which Policemen are detailed, and submitted to Department to which detail is made, the following certificate to be attached:

"I hereby certify that the persons named on this payroll have been employed for the time specified on Police duty in this Department."

To be signed by head of Department or some person designated by him having knowledge of the facts. Necessary deductions to be made by the Police Department, and payroll to be returned to Finance Department. Also letter of similar import, and stating further that Patrolman John J. O'Brien has been detailed for duty at City Prison, received from Police Department. Police Department also asks for name and title of person designated to sign certificate. Copy of each of above communications sent to Warden of City Prison, who has been designated to certify to payroll of Patrolman John J. O'Brien.

From the Comptroller—Returning proposal of the Manhattan Supply Company for plug tobacco, with approval of the sureties. Award to be made and contracts drawn.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment, held on January 29, 1909, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to a strip of land between West Tenth street and West Eleventh street, extending from Avenue V to Gravesend Ship Canal, and to that portion of Gravesend Ship Canal between West Tenth street and the United States pierhead line of Gravesend Bay, for the construction of a drain, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required, at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement, to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on a line distant 1,327.4 feet northerly from and parallel with the northerly line of Canal avenue where the said line is intersected by a line distant 466.26 feet easterly from and parallel with the easterly line of West Thirty-fifth street, and running thence eastwardly in a straight line to a point on the westerly line of Warehouse avenue where it is intersected by the prolongation of the northwesterly line of Bay Forty-eighth street; thence northeastwardly along the northwesterly line of Bay Forty-eighth street to a point distant 100 feet northeasterly from the northeasterly line of Warehouse avenue; thence northwestwardly and parallel with Warehouse avenue to a line midway between Bay Forty-seventh street and Bay Forty-eighth street; thence northeastwardly along the said line midway between Bay Forty-seventh street and Bay Forty-eighth street to a point distant 311 feet southwesterly from the southwesterly line of Harway avenue; thence northwestwardly and parallel with Harway avenue to a point midway between Bay Forty-sixth street and Bay Forty-seventh street; thence northeastwardly along a line always midway between Bay Forty-sixth street and Bay Forty-seventh street to a point distant 511 feet southwesterly from the southwesterly line of Cropsey avenue; thence northwestwardly and parallel with Cropsey avenue to a line midway between Twenty-seventh avenue and Bay Forty-sixth street; thence northeastwardly along the said line midway between Twenty-seventh avenue and Bay Forty-sixth street a distance of 28 feet; thence northwestwardly and parallel with Cropsey avenue to a line midway between Bay Forty-fourth street and Twenty-seventh avenue; thence northeastwardly along the said line midway between Bay Forty-fourth street and Twenty-seventh avenue a distance of 168 feet; thence northwestwardly and parallel with Cropsey avenue to a line midway between Bay Forty-third street and Bay Forty-fourth street; thence northeastwardly along the said line midway between Bay Forty-third street and Bay Forty-fourth street a distance of 136 feet; thence northwestwardly and parallel with Cropsey avenue to a line midway between Twenty-sixth avenue and Bay Forty-third street; thence northeastwardly along the said line midway between Twenty-sixth avenue and Bay Forty-third street to a point distant 100 feet southwesterly from the southwesterly line of Cropsey avenue; thence northwestwardly and parallel with Cropsey avenue to the northwesterly line of Bay Forty-first street; thence northeastwardly along the northwesterly line of Bay Forty-first street to a point distant 100 feet northeasterly from the northeasterly line of Cropsey avenue; thence northwestwardly and parallel with Cropsey avenue to a line midway between Bay Fortieth street and Bay Forty-first street; thence northeastwardly along the said line midway between Bay Fortieth street and Bay Forty-first street to a point distant 355 feet southwesterly from the southwesterly line of Bath avenue; thence northwestwardly and parallel with Bath avenue to a line midway between Twenty-fifth avenue and Bay Fortieth street; thence northeastwardly along the said line midway between Twenty-fifth avenue and Bay Fortieth street a distance of 130 feet; thence northwestwardly and parallel with Bath avenue to a line midway between Bay Thirty-eighth street and Twenty-fifth avenue; thence southwestwardly along the said line midway between Bay Thirty-eighth street and Twenty-fifth avenue a distance of 60 feet; thence northwestwardly and parallel with Bath avenue to a line midway between Bay Thirty-seventh street and Bay Thirty-eighth street; thence northeastwardly along the said line midway Bay Thirty-seventh street and Bay Thirty-eighth street a distance of 150 feet; thence northwestwardly and parallel with Bath avenue to a line midway between Twenty-fourth avenue and Bay Thirty-seventh street; thence northeastwardly along the said line midway between Twenty-fourth avenue and Bay Thirty-seventh street to a point distant 100 feet southwesterly from the southwesterly line of Bath avenue; thence northwestwardly and parallel with Bath avenue to the northwesterly line of Twenty-fourth avenue; thence northeastwardly along the northwesterly line of Twenty-fourth avenue to a point distant 100 feet northeasterly from the northeasterly line of Bath avenue; thence northwestwardly and parallel with Bath avenue to the southeasterly line of Bay Thirty-fifth street; thence southwestwardly along the southeasterly line of Bay Thirty-fifth street to the northeasterly line of Bath avenue; thence westwardly in a straight line to the westerly building line intersection of Bath avenue and Bay Thirty-fifth street; thence southwestwardly along the northwesterly line of Bay Thirty-fifth street a distance of 100 feet; thence northwestwardly and parallel with Bath avenue to a line midway between Bay Thirty-fourth street and Bay Thirty-fifth street; thence southwestwardly along the said line midway between Bay Thirty-fourth street and Bay Thirty-fifth street to the northeasterly line of Cropsey avenue; thence northwestwardly along the northeasterly line of Cropsey avenue to a line midway between Bay Thirty-first street and Bay Thirty-second street; thence northeastwardly along the said line midway between Bay Thirty-first street and Bay Thirty-second street to a point distant 100 feet southwesterly from the southwesterly line of Bath avenue; thence northwestwardly and parallel with Bath avenue to the southeasterly line of Twenty-first avenue; thence northeastwardly along the southeasterly line of Twenty-first avenue to a point distant 100 feet northeasterly from the northeasterly line of Bath avenue; thence southeastwardly and parallel with Bath avenue to a line midway between Twenty-first avenue and Bay Twenty-eighth street; thence northeastwardly along the said line midway between Twenty-first avenue and Bay Twenty-eighth street to a point distant 100 feet southwesterly from the southwesterly line of Benson avenue; thence northwestwardly and parallel with Benson avenue to the southeasterly line of Twenty-first avenue; thence northeastwardly along the southeasterly line of Twenty-first avenue to a point distant 100 feet northeasterly from the northeasterly line of Benson avenue; thence southeastwardly and parallel with Benson avenue to a line midway between Twenty-first avenue and Bay Twenty-eighth street; thence northeastwardly along the said line midway between Twenty-first avenue and Bay Twenty-eighth street to a point distant 100 feet southwesterly from the southwesterly line of Eighty-sixth street; thence northwestwardly and parallel with Eighty-sixth street to the southeasterly line of Twenty-first avenue; thence northeastwardly along the southeasterly line of Twenty-first avenue to the southwesterly line of Eighty-second street; thence southeastwardly along the southwesterly line of Eighty-second street a distance of 276 feet; thence southwestwardly at right angles to Eighty-second street to a line midway between Eighty-second street and Eighty-third street; thence southeastwardly along the said line midway between Eighty-second street and Eighty-third street to a point distant 100 feet northwesterly from the northwesterly line of Twenty-second avenue; thence northeastwardly and parallel with Twenty-second avenue to the southwesterly line of Eighty-second street; thence southeastwardly along the southwesterly line of Eighty-second street to the northwesterly line of Twenty-second avenue; thence eastwardly in a straight line to the easterly building line intersection of Twenty-second avenue and Eighty-second street; thence northeastwardly along the southeasterly line of Twenty-second avenue to the southwesterly line of Sixty-fifth street; thence southeastwardly along the southwesterly line of Sixty-fifth street to the westerly line of West Fifth street; thence eastwardly in a straight line to the easterly building line intersection of Twenty-third avenue and Sixty-fifth street; thence northeastwardly along the southeasterly line of Twenty-third avenue to a line midway between Sixty-second street and Sixty-third street; thence southeastwardly along the said line midway between Sixty-second street and Sixty-third street a distance of 428 feet; thence northeastwardly and at right angles to Sixty-second street to a line midway between Sixty-first street and Sixty-second street; thence southeastwardly along the said line midway between Sixty-first street and Sixty-second street to a point distant 100 feet northwesterly from the northwesterly line of Twenty-fourth avenue; thence northeastwardly and parallel with Twenty-fourth avenue and the prolongation thereof, to the prolongation of the southerly line of Avenue N; thence eastwardly along the southerly line of Avenue N, and the prolongation thereof, to the westerly side of Gravesend avenue; thence northeastwardly in a straight line to the northeasterly building line intersection of Gravesend avenue and Avenue N; thence northwardly along the easterly line of Gravesend avenue a distance of 100 feet; thence eastwardly and parallel with Avenue N to a line midway between East Fourth street and East Fifth street; thence northwardly along the said line midway between East Fourth street and East Fifth street to a point distant 429 feet southerly from the southerly line of Avenue M; thence eastwardly at right angles to East Fifth street to a line midway between East Fifth street and Ocean parkway; thence northwardly along the said line midway between East Fifth street and Ocean parkway to the southerly line of Avenue M; thence eastwardly along the southerly line of Avenue M to the centre line of Ocean parkway; thence southwardly along the centre line of Ocean parkway to the northerly line of Avenue N; thence southeastwardly in a straight line to the southeasterly building line intersection of Ocean parkway and Avenue N; thence eastwardly along the southerly line of Avenue N to a line midway between Ocean parkway and East Seventh street; thence southwardly along the said line midway between Ocean parkway and East Seventh street, a distance of 240 feet; thence eastwardly and parallel with Avenue N to a line midway between East Seventh street and East Eighth street; thence northwardly along the said line midway between East Seventh street and East Eighth street to the southerly line of Avenue N; thence eastwardly along the southerly line of Avenue N to a line midway between East Eighth street and East Ninth street; thence southwardly along the said line midway between East Eighth street and East Ninth street to a point distant 100 feet northerly from the northerly line of Avenue O; thence eastwardly and parallel with Avenue O to the westerly line of East Ninth street; thence southwardly along the westerly line of East Ninth street to the northerly line of Avenue O; thence southeastwardly in a straight line to the southeasterly building line intersection of East Ninth street and Avenue O; thence eastwardly along the southerly line of Avenue O to a line midway between East Eighteenth street and East Nineteenth street; thence southwardly along the said line midway between East Eighteenth street and East Nineteenth street to the northerly line of Avenue U; thence westwardly along the northerly line of Avenue U to the easterly line of East Eighteenth street; thence southwestwardly in a straight line to the southwesterly building line intersection of Avenue U and East Eighteenth street; thence southwardly along the westerly line of East Eighteenth street a distance of 100 feet; thence westwardly and parallel with Avenue U to a line midway between East Sixteenth street and East Seventeenth street; thence southwardly along the said line midway between East Sixteenth street and East Seventeenth street a distance of 121 feet; thence westwardly and parallel with Avenue U to a line midway between East Fifteenth street and East Sixteenth street; thence southwardly along the said line midway between East Sixteenth street and East Fifteenth street a distance of 53 feet; thence westwardly and parallel with Avenue U to a line midway between East Fourteenth street and East Fifteenth street; thence southwardly along the said line midway between East Fourteenth street and East Fifteenth street to a point distant 100 feet northerly from the northerly line of Avenue V; thence westwardly and parallel with Avenue V to the easterly line of East Fourteenth street; thence southwardly along the easterly line of East Fourteenth street to a point distant 100 feet southerly from the southerly line of Avenue V; thence eastwardly and parallel with Avenue V to a line midway between East Fourteenth street and East Fifteenth street; thence southwardly along the said line midway between East Fourteenth street and East Fifteenth street to a point distant 100 feet northerly from the northerly line of Avenue W; thence westwardly and parallel with Avenue W to the easterly line of East Fourteenth street; thence southwardly along the easterly line of East Fourteenth street to the northerly line of Avenue W; thence southwestwardly in a straight line to the southwesterly building line intersection of Avenue W and East Fourteenth street; thence southwardly along the westerly line of East Fourteenth street a distance of 100 feet; thence westwardly and parallel with Avenue W to a line midway between Coney Island avenue and East Eleventh street; thence southwardly along the said line midway between Coney Island avenue and East Eleventh street to a line parallel with Avenue W, and passing through a point on the westerly line of Coney Island avenue distant 225 feet southerly from its intersection with the southerly line of Avenue W; thence westwardly along the said line parallel with Avenue W to the westerly line of Coney Island avenue; thence southwardly along the westerly line of Coney Island avenue to a line midway between Lancaster avenue and Crawford avenue; thence westwardly along the said line midway between Lancaster avenue and Crawford avenue to the easterly line of Ocean parkway; thence northwardly along the easterly line of Ocean parkway to a line parallel with Avenue W, and passing through a point on the westerly side of Ocean parkway distant 236 feet southerly from its intersection with the southerly line of Avenue W; thence westwardly along the said line parallel with Avenue W to a line bisecting the angle formed by the intersection of the prolongation of the easterly line of East Fifth street with the westerly line of Ocean parkway as laid out south of Avenue W; thence southwardly along the said bisecting line to a line parallel with Avenue W and distant 276 feet southerly from its southerly line; thence westwardly along the said line parallel with Avenue W to a line midway between East Fourth street and East Fifth street; thence southwardly along the said line midway between East Fourth street and East Fifth street a distance of 65 feet; thence westwardly and parallel with Avenue W to a line midway between East Third street and East Fourth street; thence northwardly along the said line midway between East Third street and East Fourth street a distance of 86 feet; thence westwardly and parallel with Avenue W to a line midway between East Second street and East Third street; thence southwardly along the said line midway between East Second street and East Third street to a point distant 161 feet southerly from the southerly line of Avenue X; thence westwardly and parallel with Avenue X to a line midway between East First street and East Second street; thence southwardly along the said line midway between East First street and East Second street a distance of 180 feet; thence westwardly and parallel with Avenue X to the easterly line of West street; thence westwardly in a straight line to a point on the westerly line of West street distant 350 feet southerly from the southerly line of Avenue X; thence westwardly and parallel with Avenue X to a line midway between West First street and West street; thence southwardly along the said line midway between West First street and West street to a point distant 100 feet northerly from the northerly line of Avenue Y; thence eastwardly and parallel with Avenue Y to the westerly line of West street; thence southwardly along the westerly line of West street to a point distant 100 feet southerly from the southerly line of Avenue Y; thence westwardly and parallel with Avenue Y to a line midway between West First street and West street; thence southwardly along the said line midway between West First street and West street to the northerly line of Avenue Z; thence westwardly along the northerly line of Avenue Z to the easterly line of West First street; thence southwestwardly in a straight line to the southwesterly building line intersection of Avenue Z and West First street; thence southwardly along the westerly line of West First street a distance of 185 feet; thence westwardly and parallel with Avenue Z to a line midway between West First street and West Second street; thence southwardly along the said line midway between West First street and West Second street a distance of 76 feet; thence westwardly and parallel with Avenue Z to a line midway between West Second street and West Third street; thence southwardly along the said line midway between West Second street and West Third street a distance of 60 feet; thence westwardly and parallel with Avenue Z to a line midway between West Third street and West Fourth street; thence southwardly along the said line midway between West Third street and West Fourth street a distance of 70 feet; thence westwardly and parallel with Avenue Z to a line midway between West Fourth street and West Fifth street; thence northwardly along the said line midway between West Fourth street and West Fifth street a distance of 171 feet; thence westwardly and parallel with Avenue Z

to a point distant 70 feet easterly from the easterly line of West Sixth street; thence southwardly in a straight line to a point on a line distant 440 feet southerly from and parallel with the southerly line of Avenue Z distant 50 feet easterly from the easterly line of West Sixth street; thence westwardly along the said line parallel with Avenue Z to a line midway between West Ninth street and West Tenth street; thence southwardly along the said line midway between West Ninth street and West Tenth street a distance of 20 feet; thence westwardly and parallel with Avenue Z to the westerly line of West Tenth street; thence southwardly along the westerly line of West Tenth street, and the prolongation thereof, to the southerly line of Canal Avenue South; thence eastwardly along the southerly line of Canal Avenue South to a line distant 500 feet easterly from and parallel with the easterly line of West Twelfth street; thence southwardly along the said line parallel with West Twelfth street to a point on the said line distant 1,150 feet southerly from its intersection with the southerly line of Neptune avenue; thence westwardly in a straight line to a point on the easterly line of Stillwell avenue distant 1,000 feet southerly from its intersection with the southerly line of Neptune avenue; thence westwardly in a straight line to a point on the centre line of Stillwell avenue midway between its intersection with the southerly line of Mermaid avenue and the northerly line of Surf avenue; thence westwardly along a succession of straight lines intersecting respectively the centre lines of each of the streets between Stillwell avenue and West Thirty-seventh street at points on the said centre lines which are midway between their respective intersections with the southerly line of Mermaid avenue and the northerly line of Surf avenue to the centre line of West Thirty-seventh street; thence northwardly along the centre line of West Thirty-seventh street to a point distant 750 feet northerly from the northerly line of Canal Avenue South; thence eastwardly and parallel with Canal Avenue South to a line distant 157.16 feet easterly from and parallel with the easterly line of West Thirty-fifth street; thence northwardly in a straight line to the point or place of beginning.

All distances are intended to be measured at right angles to the lines to which they are referred.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 12th day of March, 1909, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD and the corporation newspapers for ten days prior to the 12th day of March, 1909.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment, held on January 29, 1909, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Lawrence avenue, from Forty-seventh street to Ocean parkway; of Newkirk avenue, from Ocean parkway to Coney Island avenue; of East Thirteenth street, from Ditmas avenue to Foster avenue; of Newkirk avenue, from East Seventeenth street to Coney Island avenue; of East Eleventh street (Stratford road), from Cortelyou road to Ditmas avenue; of Third street, from Eighteenth avenue to Foster avenue; and of East Fifteenth street (Marlborough road), from Ditmas avenue to Foster avenue, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

1. Beginning at a point on the southwesterly line of Forty-seventh street where it is intersected by the prolongation of a line midway between Webster avenue and Lawrence avenue, and running thence eastwardly along the said line midway between Webster avenue and Lawrence avenue, and the prolongation thereof to the intersection with a line bisecting the angle formed by the intersection of the easterly line of Gravesend avenue with the prolongation of the westerly line of Third street; thence northwardly along the said bisecting line to a point distant 100 feet northerly from the northerly line of Eighteenth avenue, the said distance being measured at right angles to the line of Eighteenth avenue; thence eastwardly and parallel with Eighteenth avenue to the intersection with a line bisecting the angle formed by the intersection of the westerly line of Ocean parkway and the prolongation of the easterly line of Third street; thence southwardly along the said bisecting line to the intersection with a line midway between Webster avenue and Lawrence avenue to the westerly line of Ocean parkway; thence eastwardly in a straight line to a point on the easterly line of Ocean parkway midway between Webster avenue and Newkirk avenue; thence eastwardly along a line midway between Webster avenue and Newkirk avenue to the westerly line of Coney Island avenue; thence northeastwardly in a straight line to a point on the easterly line of Coney Island avenue midway between Ditmas avenue and Newkirk avenue; thence eastwardly along a line midway between Ditmas avenue and Newkirk avenue to the intersection with a line midway between East Twelfth street and East Thirteenth street; thence northwardly along the said line midway between East Twelfth street and East Thirteenth street to a point distant 100 feet northerly from the northerly line of Ditmas avenue, the said distance being measured at right angles to the line of Ditmas avenue; thence eastwardly and parallel with Ditmas avenue to the intersection with a line midway between East Thirteenth street and East Fourteenth street; thence southwardly along the said line midway between East Thirteenth street and East Fourteenth street to the intersection with a line midway between Ditmas avenue and Newkirk avenue; thence eastwardly along the said line midway between Ditmas avenue and Newkirk avenue to the intersection with a line midway between East Fourteenth street and East Fifteenth street; thence northwardly along the said line midway between East Fourteenth street and East Fifteenth street to a point distant 100 feet northerly from the northerly line of Ditmas avenue, the said distance being measured at right angles to the line of Ditmas avenue; thence eastwardly and parallel with Ditmas avenue to the intersection with a line midway between East Fifteenth street and East Sixteenth street; thence southwardly along the said line midway between East Fifteenth street and East Sixteenth street to the intersection with a line midway between Ditmas avenue and Newkirk avenue; thence eastwardly along the said line midway between Ditmas avenue and Newkirk avenue to the intersection with a line midway between East Seventeenth street and East Eighteenth street; thence southwardly along the said line midway between East Seventeenth street and East Eighteenth street to the intersection with a line midway between Newkirk avenue and Foster avenue; thence westwardly along the said line midway between Newkirk avenue and Foster avenue to the intersection with a line midway between East Fifteenth street and East Sixteenth street; thence southwardly along the said line midway between East Fifteenth street and East Sixteenth street, and the prolongation thereof, to a point distant 100 feet southerly from the southerly line of Foster avenue, the said distance being measured at right angles to the line of Foster avenue; thence westwardly and parallel with Foster avenue to the intersection with the prolongation of a line midway between East Fourteenth street and East Fifteenth street; thence northwardly along the said line midway between East Fourteenth street and East Fifteenth street, and the prolongation thereof, to the intersection with a line midway between Newkirk avenue and Foster avenue; thence westwardly along the said line midway between Newkirk avenue and Foster avenue to the intersection with a line midway between East Thirteenth street and East Fourteenth street; thence southwardly along the said line midway between East Thirteenth street and East Fourteenth street, and the prolongation thereof to a point distant 100 feet southerly from the southerly line of Foster avenue, the said distance being measured at right angles to the line of Foster avenue; thence westwardly and parallel with Foster avenue to the intersection with a line midway between East Twelfth street and East Thirteenth street; thence northwardly along the said line midway between East Twelfth street and East Thirteenth street to the intersection with a line midway between Newkirk avenue and Foster avenue; thence westwardly along the said line midway between Newkirk avenue and Foster avenue to the easterly line of Coney Island avenue; thence northwestwardly in a straight line to a point on the westerly line of Coney Island avenue where it is intersected by the prolongation of a line midway between Newkirk avenue and Washington avenue; thence westwardly along the said line midway between Newkirk avenue and Washington avenue, and the prolongation thereof, to the easterly line of Ocean parkway; thence westwardly in a straight line to a point on the westerly side of Ocean parkway midway between Lawrence avenue and Washington avenue; thence westwardly along a line midway between Lawrence avenue and Washington avenue to the intersection with a line bisecting the angle formed by the intersection of the westerly line of Ocean parkway and the prolongation of the easterly line of Third street; thence southwardly along the said bisecting line to the intersection with a line at right angles to Foster avenue and passing through a point on its southerly side where it is intersected by the easterly line of East Fifth street; thence southwardly along the said line at right angles to Foster avenue to a point distant 100 feet southerly from its southerly side; thence westwardly and parallel with Foster avenue to the intersection with a line bisecting the angle formed by the intersection of the easterly line of Gravesend avenue with the prolongation of the westerly line of Third street; thence northwardly along the said bisecting line to the intersection with a line midway between Lawrence avenue and Washington avenue; thence westwardly along the said line midway between Lawrence avenue and Washington avenue, and the prolongation thereof, to the southwesterly line of Forty-seventh street; thence southwestwardly at right angles to Forty-seventh street a distance of 100 feet; thence northwestwardly and parallel with Forty-seventh street to the intersection with a line at right angles to Forty-seventh street and passing through the point of beginning; thence northeastwardly along the said line at right angles to Forty-seventh street to the point or place of beginning.

2. Bounded on the north by a line distant 100 feet northerly from and parallel with the northerly line of Cortelyou road, the said distance being measured at right angles to the line of Cortelyou road; on the east by a line midway between East Eleventh street and East Twelfth street, and by the prolongation of the said line; on the south by a line distant 100 feet southerly from and parallel with the southerly line of Ditmas avenue, the said distance being measured at right angles to the line of Ditmas avenue and by the prolongation of the said line; and on the west by a line distant 100 feet westerly from and parallel with the westerly line of East Eleventh street, the said distance being measured at right angles to the line of East Eleventh street, and by the prolongation of the said line.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board, to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 12th day of March, 1909, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

COMMISSIONERS OF THE SINKING FUND.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, in accordance with the provisions of chapter 372 of the Laws of 1907, will hold a public hearing in Room 16, City Hall, Borough of Manhattan, at 11 o'clock a. m. on Tuesday, March 16, 1909, relative to a communication of the Commissioner of Docks, transmitting for the approval of the Commissioners of the Sinking Fund an amendment of the proposed plan of pier layout in South Brooklyn, between Twenty-eighth and Thirty-sixth streets.

There is but a single change to be considered, namely, the widening of the most northerly pier from 60 to 80 feet. The Dock Commissioner states that the width of 60 feet was sufficient under the old layout, which called for a pier about 380 feet shorter than is called for in the present plan. The present plan calls for a longer pier, which makes the change in width necessary.

The Chief Engineer of the Department of Finance, in his report to the Comptroller states that in his opinion the proposed amended plan may properly receive the approval of the Commissioners of the Sinking Fund.

GEO. B. McCLELLAN, Chairman, Commissioners of the Sinking Fund.

NOTICE OF SALE OF LANDS AND TENEMENTS WITHIN THAT PART OF THE CITY OF NEW YORK KNOWN AS THE FIRST WARD OF THE BOROUGH OF QUEENS (FORMERLY LONG ISLAND CITY), FOR UNPAID TAXES, WATER RATES AND RENTS, AND ACCRUED INTEREST THEREON.

UNDER THE DIRECTION OF HERMAN A. Metz, Comptroller of The City of New York, the undersigned hereby gives public notice, pursuant to the provisions of chapter 656 of the Laws of 1886 and section 937 of the Greater New York Charter:

That the respective owners of the lands and tenements within that part of The City of New York now known as the First Ward of the Borough of Queens (formerly Long Island City), on which taxes for the years 1870 to 1896, inclusive, and the tax of 1897, levied pursuant to chapter 532 of the Laws of 1898, and water rates and rents for the years 1875 to 1897, inclusive, have been laid and confirmed according to law and now remain unpaid, are required to pay the amount of the said taxes, water rates and rents so due and remaining unpaid to the Collector of Assessments and Arrears, at his office in the Department of Finance, Hackett building, Jackson avenue and Fifth street, in the First Ward (formerly Long Island City) of the Borough of Queens, of The City of New York, together with interest thereon at the rate of eight per centum per annum to the time of payment.

And if default shall be made in such payment the said lands and tenements will be sold at public auction at the Borough Hall, Hackett Building, Jackson avenue and Fifth street, in the First Ward (formerly Long Island City) of the Borough of Queens, of The City of New York, on

MONDAY, APRIL 12, 1909,

at 1.30 p. m., for the lowest term of years for which any person or persons shall offer to take the same in consideration of advancing the amount of the said taxes, water rates or rents, together with the interest so due and unpaid; or, if no person shall so offer to purchase, then in fee simple to the highest bidder; and such sale shall be continued from time to time until all the lands and tenements as advertised for sale shall be sold.

And notice is hereby further given that there has been published in pamphlet form a list of the several parcels of real estate so to be sold, in the same manner substantially as the same are described in the assessment rolls in which said taxes, water rates or rents are imposed thereon, together with the name of the person to whom such real estate is assessed and the amount of the taxes, water rates or rents assessed thereon in separate columns, which will be open to public inspection in the offices of the Collector of Assessments and Arrears, in the Department of Finance, that are situated respectively in the Boroughs of Manhattan and Queens, at the respective addresses hereinbefore stated, for a period of six weeks before said sale, and will be delivered free of all costs or charges to any person applying for same.

DANIEL MOYNAHAN,
Collector of Assessments and Arrears.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE BRIDGE Commissioner, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings now standing on the property owned by The City of New York, acquired by it for bridge purposes, in the

Borough of Manhattan.

Said buildings being situated upon land more particularly described as follows:

Being all those buildings, parts of buildings, etc., lying within the lines of property taken for bridge purposes between Monroe street and the Bowery, and more particularly designated as being all or part of those buildings known as No. 61 Division street, No. 71 Division street and the rear building at No. 69 Monroe street, all of which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held October 9, 1907, the sale of the above-described buildings and appurtenances thereto will be held by direction of the Comptroller on

FRIDAY, MARCH 5, 1909,

at 10.30 a. m., on the premises, upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check, drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

J. H. McCOOEY,
Deputy and Acting Comptroller.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF THE BRONX:

TWENTY-THIRD WARD, SECTION 9.

LAWRENCE AVENUE—REGULATING, GRADING, FLAGGING, LAYING CROSSWALKS, BUILDING APPROACHES AND ERECTING FENCES, from Lind avenue to One Hundred and Sixty-seventh street. Area of assessment: Both sides of Lawrence avenue, from Lind avenue to West One Hundred and Sixty-seventh street, and both sides of Graham square, from its intersection with Lawrence avenue south to its intersection with Lawrence avenue on the north, and to the extent of half the block at the intersections of Lind avenue and of One Hundred and Sixty-seventh street.

—that the same was confirmed by the Board of Assessors on February 16, 1909, and entered February 16, 1909, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1019 of the Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record." * * *

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before April 17, 1909, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessment became a lien to the date of payment.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE DEPARTment of Bridges, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction all the buildings, parts of buildings, etc., now standing upon property owned by The City of New York, acquired by it for bridge purposes, in the

Borough of Queens.

Being all those buildings, parts of buildings, situated on all those certain plots of ground with the buildings thereon from the east side of Vernon avenue to the west side of Jackson avenue, three hundred feet in width, in the Borough of Queens, and being more particularly designated as No. 426 Vernon avenue, which is more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held May 22, 1907, the sale of the above described buildings and appurtenances thereto will be held by direction of the Comptroller, on

WEDNESDAY, MARCH 3, 1909,

at 11 a. m., on the premises, upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Queens, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within sixty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion, as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

H. A. METZ, Comptroller.

DEPARTMENT OF DOCKS AND FERRIES.

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at the above office until 12 o'clock m. on

FRIDAY, MARCH 12, 1909.

Borough of Manhattan.

CONTRACT NO. 1156.

FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED FOR PREPARING AND REFENDERING PIER 53, NORTH RIVER, IN THE BOROUGH OF MANHATTAN, AND PREPARING FOUNDATIONS FOR STREET FRONT OF BULKHEAD BUILDING, AND FOR PREPARING FOR AND BUILDING FREIGHT SHED ON PIER 53, NORTH RIVER, NEAR THE FOOT OF LITTLE WEST TWELFTH STREET, WITH LATERAL EXTENSION ON THE ADJACENT BULKHEAD PLATFORM.

The time for the completion of the work and the full performance of the contract is on or before the expiration of 400 calendar days.

The amount of security required is One Hundred Thousand Dollars.

The bidders will state a price for furnishing and delivering all the materials and doing all the work, as called for in Classes 1 and 2; the bidders shall also state a total price for doing all of the work described and specified; the contract is entire and for a complete job, and, if awarded, will be awarded to the bidder whose total bid is lowest for doing the whole work, and whose bid is regular in all respects.

Work must be done at the time and in the manner and in such quantities as may be directed.

Blank forms and further information may be obtained and the plans and drawings may be seen at the office of the said Department.

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

FILLING PRIVILEGE.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks, at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

FRIDAY, MARCH 5, 1909.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL TO BE BUILT ON THE GOWANUS SECTION, BETWEEN THIRTY-FIRST AND THIRTY-SECOND STREETS, SOUTH BROOKLYN, BOROUGH OF BROOKLYN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereafter described, the area behind the bulkhead wall to be built on the Gowanus Section, between Thirty-first and Thirty-second streets, South Brooklyn. The filling will extend from the rear of the bulkhead wall to the crib bulkhead along the west side of Second avenue, and will be about 150 feet in width on top, bounded on the north and south by the lines of the proposed pier extended inshore; the exact limits being shown on the map at Pier "A," together with soundings and other data used, the said map being part of this agreement.

It is estimated that the area outlining the above described limits to be filled in, under this agreement, is equal, in net void space, to about 37,000 cubic yards.

This estimate is arrived at by computing the net void space between the face of the old crib bulkhead, along the west side of Second avenue and the rear of the riprap to be placed, in the rear of the bulkhead wall, 150 feet wide on top, with natural side slopes.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material, compression of or penetration into the mud.

Bidders are warned that the Department is not bound in any way by the above estimate, and must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises, or such other means as they may prefer, as all of the above work is to be done at the lump sum bid. Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling, as described above. The purchaser will be required to place the filling in accordance with the following specifications:

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the engineer, and wherever the word "Engineer" is used in these specifications, it refers to and designates the Chief Engineer of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Riprap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

The filling shall consist of any material satisfactory to the Engineer and may include ashes, earth, street sweepings or clean rubbish, and not considered objectionable by the Board of Health. Garbage and other wholly perishable material will not be considered satisfactory.

The filling shall be begun at the old crib bulkhead along Second aevnue and carried directly outshore, the centre line being kept well in advance of the sides until the centre reaches the back of the bulkhead wall, after which the filling shall proceed from the back of the wall inshore.

The filling shall be brought to a grade level with the deck of the proposed pier, sloping uniformly inshore to the grade of Second avenue.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, and the work shall proceed to completion at a rate satisfactory to the Engineer, but in no case will the contractor be ordered to deposit more than 100 cubic yards a day.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the Commissioner may at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties, in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety. If, in the opinion of the Commissioner, a sufficient amount of fill cannot be obtained by selling the privilege, the right is reserved to make this area a free dump.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work of guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser, in the sum of double the amount of the purchase price, as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

Dated The City of New York, February 24, 1909.

SUPREME COURT—FIRST DEPARTMENT.

FIRST JUDICIAL DEPARTMENT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of all the wharfage rights, terms, easements, emoluments and privileges not now owned by The City of New York, appurtenant to all that certain bulkhead, wharf or dock property situated on the SOUTHERLY SIDE OF SOUTH STREET, in the Borough of Manhattan, City of New York, commencing on the easterly side of Pier (old) 52, East River, and extending easterly to the westerly side of Pier (old) 53, East River, pursuant to the plan heretofore adopted by the Board of Docks and approved by the Commissioners of the Sinking Fund, as altered and amended by the Commissioner of Docks and approved by the Commissioners of the Sinking Fund.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, by virtue of an order of the Supreme Court, bearing date the 29th day of January, 1909, and filed and entered in the office of the Clerk of the County of New York on the 1st day of February, 1909, were appointed Commissioners of Estimate in the above-entitled proceeding, for the purpose of making a just and equitable estimate of the loss and damage to the respective owners, lessees, parties and persons entitled to or interested in the wharf property, wharfage rights, terms, easements, emoluments and privileges hereinafter described and not now owned by The City of New York, and situated in the Borough of Manhattan, in The City of New York, to be taken herein for the improvement of the water-front on the East River, in the Borough of Manhattan, and which said wharf property, wharfage rights, terms, easements, emoluments and privileges so to be taken are described as follows:

All the wharfage rights, terms, easements, emoluments and privileges not now owned by The City of New York appurtenant to all that certain bulkhead, wharf or dock property situate on the southerly side of South street, in the Borough of Manhattan, City of New York, bounded and described as follows:

Beginning at a point in the present bulkhead between Gouverneur slip and Jackson street, where the westerly side of Pier (old) 53, East River, intersects said bulkhead, said point of intersection being perpendicularly opposite or southerly of a point in the northerly line of South street distant 31.01 feet from the westerly line of Jackson street, measured along the said northerly line of South street, and running thence from said point of intersection westerly along the present bulkhead between Pier (old) 52, East River, and Pier (old) 53, East River, 573.08 feet westerly to the easterly side of Pier (old) 52, East River.

All parties and persons interested in the said wharf property, wharfage rights, terms, easements, emoluments and privileges taken or to be taken for the said improvement of the water-front of The City of New York on the East River, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate, at our office, Room 401, on the fourth floor of the building, No. 258 Broadway, in The City of New York, Borough of Manhattan, with such affidavits or other proofs as the said owners or claimants may desire within ten days after the date of this notice, when we, the said Commissioners, will be in attendance at our office above specified on the 15th day of March, 1909, at 2 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto, and at such time and place, or at such other and further times and places as we may appoint, we shall hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs or allegations as may then be offered by such owners or on behalf of The City of New York.

Dated New York, February 27, 1909.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, by the Corporation Counsel, for the appointment of Commissioners of Estimate and Assessment to ascertain and determine the compensation which should justly be made for the discontinuance and closing of WEST ONE HUNDRED AND FIFTY-FIRST STREET, from the easterly side of Riverside drive extension to the United States bulkhead line, Hudson River, in the Twelfth Ward, Borough of Manhattan, in The City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 13th day of March, 1909, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 15th day of March, 1909, at 4 o'clock p. m.

Second—That the abstract of our said estimate and assessment, together with our damage and benefit maps, have been deposited in the office of the Clerk of the County of New York, in the County Court House, in the Borough of Manhattan, in said City, there to remain until the 15th day of March, 1909.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in said City of New York, and contained within the lines of the discontinued and closed West One Hundred and Fifty-first street, extending from the westerly property line of the New York Central and Hudson River Railroad Company to the easterly line of Twelfth avenue, and from the westerly line of Twelfth avenue to the United States bulkhead line of the Hudson River. Also all those lands, tenements and hereditaments and premises situate, lying and being within the following-described limits: On the west by the easterly line of Riverside drive; on the north by a line midway between West One Hundred and Fifty-first street and West One Hundred and Fifty-second street; on the east by the westerly line of Amsterdam avenue, and on the south by a line midway between West One Hundred and Fiftieth street and West One Hundred and Fifty-first street.

Fourth—That our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 6th day of April, 1909, at the opening of the Court on that day.

Dated Borough of Manhattan, New York, February 20, 1909.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of DEKALB AVENUE, from East Two Hundred and Eighth street to Gun Hill road, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above-entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections, in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 13th day of March, 1909, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 15th day of March, 1909, at 2 o'clock p. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections, in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 13th day of March, 1909, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 15th day of March, 1909, at 3 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 14th day of June, 1907, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Bounded on the northwest by a line midway between DeKalb avenue and Jerome avenue, through that portion of the length of each located between East Two Hundred and Eighth street and Gun Hill road, and by the prolongation of the said line; on the northeast by a line 100 feet northeasterly from and parallel with the northeasterly line of Gun Hill road, the said distance being measured at right angles to the line of Gun Hill road; on the southeast by a line 100 feet southeasterly from and parallel with the southeasterly line of DeKalb avenue, through that portion of its length located between East Two Hundred and Eighth street and Gun Hill road, the said distance being measured at right angles to the line of DeKalb avenue, and by the prolongation of the said line, and on the southwest by a line always distant 100 feet southwesterly from and parallel with the southwest-

erly line of East Two Hundred and Eighth street, the said distance being measured at right angles to the line of East Two Hundred and Eighth street.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 15th day of March, 1909.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 11th day of May, 1909, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 18th day of March, 1909, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 19th day of March, 1909, at 3 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 11th day of January, 1907, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Richmond, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the intersection of the prolongation of a line midway between Eureka place and Amboy avenue with a line 100 feet westerly from and parallel with the westerly side of Bentley street, the said distance being measured at right angles to the line of Bentley street, and running thence northerly and parallel with Bentley street to the intersection with the prolongation of a line midway between Broadway and Eureka place, and through that portion of their length between Bentley street and Butler avenue; thence easterly along said line midway between Eureka place and Broadway and the prolongation thereof to the intersection with a line midway between Bentley street and Butler avenue; thence northerly along said line midway between Bentley street and Butler avenue and the prolongation thereof to a point 100 feet north of Broadway, said distance being measured at right angles to the line of Broadway; thence easterly, parallel with Broadway, to the intersection with the prolongation of a line midway between Butler avenue and Main street; thence southerly along said line midway between Butler avenue and Main street and the prolongation thereof to the intersection with a line midway between Broadway and Eureka place, through that portion of the length of the said streets between Butler avenue and Main street; thence easterly along said line midway between Broadway and Eureka place and the prolongation thereof to the centre line of Main street; thence along the centre line of Main street to the intersection with the prolongation of a line midway between Arents avenue and Broadway, through that portion of their length between Main street and Johnson avenue; thence northerly and along a line midway between Arents avenue and Chestnut street, and Broadway, and the prolongation of said line to a point distant 100 feet east of the easterly side of Church street, said distance being measured at right angles to the line of Church street; thence southerly and parallel with the line of Church street to the intersection with the prolongation of a line midway between Chestnut street and Amboy avenue; thence easterly along said line midway between Amboy avenue and Chestnut street and the prolongation thereof, and along a line midway between Arents avenue and Eureka place, and Amboy avenue, to the point described as the point or place of beginning. The said streets designated as Bentley street, Broadway, Church avenue, Amboy avenue, Johnson avenue and Main street being the streets thus known in the vicinity, although not yet placed upon the map of the City.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings, in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 19th day of March, 1909.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 18th day of May, 1909, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, January 27, 1909.

SUPREME COURT—NINTH JUDICIAL DISTRICT.

NINTH JUDICIAL DISTRICT, ORANGE COUNTY.

NORTHERN AQUEDUCT DEPARTMENT, CATSKILL AQUEDUCT.

SECTION No. 8.

TOWNS OF CORNWALL, NEW WINDSOR AND NEWBURG.

NOTICE OF APPLICATION FOR THE APPOINTMENT OF COMMISSIONERS OF APPRAISAL.

PUBLIC NOTICE IS HEREBY GIVEN that it is the intention of the Corporation Counsel of The City of New York to make application to the Supreme Court of the State of New York for the appointment of Commissioners of Appraisal under chapter 724 of the Laws of 1905, as amended, and the acts relating thereto.

Such application will be made to the Supreme Court at a Special Term thereof to be held at the Judges' Chambers in the City of Poughkeepsie, Dutchess County, N. Y., on the 27th day of March, 1909, at 10.30 o'clock in the forenoon of that day, or as soon thereafter as counsel can be heard. The object of such application is to obtain an order of the Court appointing three disinterested and competent freeholders, one of whom shall reside in the County of New York, and at least one of whom shall reside in the County of Orange, to act as Commissioners of Appraisal under said act and discharge all the duties conferred by said act and the acts amendatory thereof.

The following is a description of the real estate to be acquired, together with a reference to the date and place of filing the map:

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
