MEMORIAL.

Alderman Hawes presented the following memorial from Dexter A. Hawkins, Esq., in reference to public instruction:

THE BOARD OF APPOINTMENT AND THE PUBLIC SCHOOLS.

To the Honorable the Board of Aldermen:

GENTLEMEN—The public sentiment of this city is undoubtedly in favor of enabling all school-children to acquire a fair English education at public expense.

The Board of Apportionment express the same view; but last year, to the surprise of the friends of public education, the Board cut down the appropriation for Public Schools half a million—and did it at a time when there were many thousand children seeking admission to public schools, but could not get in for want of room, and were compelled to grow up in ignorance and in its accompanying vices.

This year the Board have cut down the appropriation nearly four hundred thousand dollars. These two disastrous and unstatesmanlike acts are probably the consequence of not understanding the facts.

I wish now to call the attention of your Honorable Board to a few of these facts:

On the first day of June, 1880, there were in the city of New York 385,000 children of the public-school age. The United States census shows this fact. The entire seating capacity of the public school-houses and rooms in the city at that time, did not exceed 130,000. The records of the Board of Education show this fact.

This excluded 255,000, or say two-thirds of the school children of the city, from the public schools.

The population of the city, in the last two years and a half, has increased very fast; at least 100,000 have been added to it.

This would give an addition of 32,000 school children; making to-day in the city 417,000 school children; but with accommodations in the public schools sufficient for only 130,000, thus excluding now from the public schools of the city 287,000 children who have a legal right to attend. It is the duty of the city government to provide accommodation for them.

This is about 70 per cent. of the whole number.

No new school-houses have been built in the last two years for the want of money in the hands of the Board of Education to build them.

The money appropriated by the Board of Apportionment for public education is less than ten dollars per head for each child having a right to attend the public schools.

So small an appropriation means the dwarfing of the intellects of the great majority of the rising generation in this city, and the reducing of their capacity to earn a living, from what it would be if properly educated, from twenty-five to fifty per cent.

It means an annual prevention of the increase of property, the result of industry and economy in the city, that comes of education, equal to many times the amount saved by cutting down the appropriation.

Children grown up in ignorance in this city, produce nine times as many criminals, and twenty times as many paupers as they would if provided with a good common school education. The statistics of pauperism and crime show this fact.

The annual expense entailed upon the city by the pauper and criminal classes, in supporting the one and protecting society against the other, amounts to five millions of dollars a year. An analysis of the annexed expenses shows the fact. This false economy of the Board of Apportionment will soon add annually to the pauper and criminal expenses of the city much more than the amount saved.

Unwise and imperfect administration of the School Department of the City Government is held up as a reason for cutting down the appropriation.

It is quite clear that the administration of the Board of Education is not what it should be.

As in other cities and countries that have a public school system, the Board of Education should take an annual census of the school children and their residence, so as to know for how many they have to provide.

They should divide the city into proper and convenient school districts, with a school-house in each district, instead of having it all one district, with school-houses located without regard to proximity of scholars. Then they would know when and where they have an excess, or a deficiency of school accommodation for the pupils that should attend school.

In this census they should take the names of the parents and the ages of all the children of the compulsory school-age, so that it might be possible for the Truant Officers to tell how many and who are growing up in ignorance, and where they are, and who are responsible for them, and what school they should attend.

By proper regulations as to attendance, they should bring the per capita expense of the different schools in the same grade to something near a uniformity, instead of as now expending four or five times as much per capita in some schools as in others of the same grade.

As corporal punishment is not allowed, but when the pupils become incorrigible they are thrust into the street to prey upon society, the Board should establish a truant or bad boy school, where this class could be properly instructed and reformed.

But these shortcomings of the Board of Education are no reason why the Board of Apportionment should reduce the appropriation so much as to make an efficient and universal common school system in the city impossible.

Such unwise economy is reducing the average grade of education of the children brought up in this city to such an extent that it places the city at a great disadvantage in comparison with other cities that do better by their children; and were it not for the educated people that come into the city from without, and the youth of the city that are sent out of the city to get the education that should be furnished them in the city, this unwise course would in a few years result in very serious consequences.

Public evils, social and industrial demoralization, and incompetent and corrupt administration of public affairs, are not only possible, but constant in this city; but would not be if proper attention were paid to public education.

The duty of the Board of Apportionment in this regard is simply to appropriate the money. When this is done the whole responsibility will be upon the Board of Education. The Aldermen should restore the appropriation to the amount asked for by the Board of Education.

To the Board of Aldermen Councils of New York City:

GENTLEMEN—In view of the great loss of life that has recently taken place in your city and Philadelphia and other populous centres, where of necessity immense crowds are gathered, as in theatres and other public places of amusement, and in large manufacturing establishments, I most respectfully address your Honorable Bodies as to the practicability of devising some plan or system by which such disasters may be avoided in the future; and I would suggest a special corps or organization for the saving of human life, auxiliary to the Fire Department proper, and similar to the Special Fire Insurance Patrol for the saving of goods and merchandise.

Such a system is in operation in Paris (France) and in many of the large cities on the continent, and there are deemed indispensable.

Of the system I am fully conversant, being a member of the Corps de Sauvetege of Chaux de Fonds in Switzerland, and later having formed a similar corps in the Canton de Vaux, of which the instructor.

The details and workings of this system I would be pleased to fully explain at any time that would suit the convenience of your Honorable Body.

COMMUNICATIONS FROM THE DEPARTMENTS AND CORPORATION OFFICERS.

The President laid before the Board the following communication from the Department of Public Parks:

CITY OF NEW YORK—DEPARTMENT OF
PUBLIC PARKS, 36 UNION SQUARE,
November 22, 1882.

To the Honorable the Board of Aldermen:

At a meeting of the Board governing the Department of Public Parks, held this day, a committee from your Honorable Body was received, requesting that the pay of park-keepers be increased from \$2.40 to \$2.75 per day; of gate-keepers from \$2.00 to \$2.40; of sergeants from \$3.00 to \$3.30 per day.

I was directed to respectfully call your attention to the estimate of the Department as submitted to the Board of Estimate and Apportionment, in which an appropriation of \$116,000 was asked for the payment of salaries and the purchase of supplies for park and gate-keepers during the year 1883, and which amount has been reduced by the Board of Estimate and Apportionment to \$100,000—\$94,000 for salaries and \$6,000 for supplies. I am directed to state that, in the opinion of the Department, this amount should be increased, and that the amount originally asked for is necessary to pay the salaries and maintain a force of park and gate-keepers for the proper preservation of the parks, and to respectfully request that the amount may be restored to that as asked for by this Department.

Respectfully yours,

E. P. BARKER, Secretary D. P. P.

15. Labor of framing and carpentry, including all moving of timber, jointing, planing, bolting, spiking, painting, oiling or tarring, and furnishing the materials for painting, oiling or tarring, and labor of every description, for an area of about 20,700 square feet of pier, and about 90 feet of bulkhead.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as is possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become part of every estimate received:

(1.) Bidders must satisfy themselves, by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

(2.) Bidders will be required to complete the entire work contracted for to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed at the price therefor, or to be specified by the lowest bidder, shall be due or payable for the entire work.

The bidder to whom the award is made shall give security for the faithful performance of his contract, in the manner prescribed and required by ordinance, in the sum of Three Thousand Dollars.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work to be done under the contract is to be fully completed on or before the 15th day of February, 1883, and the damages to be paid by the contractor for each day that the contract, or any part thereof, may be unfulfilled after the time fixed for the fulfillment thereof have expired, Sundays and holidays not to be excepted, are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

All the old material taken from the said pier and bulkhead to be removed under the contract, will be relinquished to the contractor, and bidders must estimate the value of such material when considering the price for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work. The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet, and so on until it is accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to the approval of the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the national banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be enclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him by the Comptroller.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief. No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if deemed for the interest of the Corporation of the City of New York.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

 JACOB VANDERPOEL,
 JOHN R. VOORHIS,
 Commissioners of the Department of Docks.

No estimate will be received or considered unless accompanied by either a certified check upon one of the National Banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be enclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk, and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him by the Comptroller.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Groceries, Dry Goods, and Sundries," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the head of said Department and read.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates if deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, at such times and in such quantities as may be directed by the said Department.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials for the effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the estimated amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk thereof, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as its sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the national banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same respectively, at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the prices for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate, in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, issued on the completion of the contract, or from time to time, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 10 to 3 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only) under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt.

Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement, and every case will be fully prosecuted.
