AQUEDUCT COMMISSIONERS OFFICE,
 STEWART BUILDING, 280 BROADWAY,
 NEW YORK, February 1, 1886.

Hon. Wm. R. Grace, Mayor and Chairman of the Board of Estimate and Apportionment of the City of New York :

DEAR SIR—Herewith I transmit an agreement made with Jeremiah Mahony for certain lands belonging to him in the town of Mount Pleasant, Westchester County, and now required to facilitate the proper and prompt construction of the New Croton Aqueduct, its blow-off, and other appurtenances at the Pocantico river crossing of said aqueduct; and you are respectfully requested to submit the same to the Board of Estimate and Apportionment for its approval, as required by section 23, chapter 490, Laws of 1883.

The quantity of land to be taken is one $\frac{1}{10}$ acres, with a dwelling-house, barn, and other improvements; and the consideration money to be paid by the City is the sum of two thousand dollars (\$2,000).

Accompanying this agreement is a diagram of the property, showing its location with respect to the grounds already acquired in fee by the City (which are colored in pink); also extracts from the proceedings of this Commission in relation to this property.

Any further information that may be desired by the Board will be promptly furnished upon notice.

Very respectfully,

JAS. W. McCULLOH, Secretary.

(Copy.)

NEW YORK, January 6, 1886.

To the Aqueduct Commissioners :

GENTLEMEN—We have now to report that the negotiation with Jeremiah Mahoney for the parcel of land owned by him, and required for additional dumping-grounds at the Pocantico Blow-off of the New Aqueduct, in the town of Mount Pleasant, has resulted in an arrangement for the purchase of said land for the sum of twenty-two hundred and fifty dollars, of which sum Brown, Howard & Co. are to pay two hundred and fifty dollars—and the City two thousand dollars—consideration of which the said lands are to be conveyed in fee to the City; and as the acquisition of said land will greatly facilitate the construction of the New Aqueduct at that place, we deem it to the interest of the City that the purchase be made at once by agreement, as provided for in section 23, chapter 490 of the Laws of 1883.

Signed,

Respectfully,

JAMES C. SPENCER, Chairman Committee on Construction.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the contract, they will be bound to pay the difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded, to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety.

The adequacy and sufficiency of the security offered, to be approved by the Comptroller of the City of New York. No bid or estimate will be considered unless accompanied by either a certified check upon one of the National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be enclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and if the contract shall be awarded to the person or persons for whom he consents to become surety, he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept it and do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be reawarded and let as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same, respectively, at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in a accordance with the terms of the contract, from time to time, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

No bid or estimate will be accepted for, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

NEW YORK, January 29, 1886.

TO THE PUBLIC.

THE CHIEF ENGINEER OF THE CROTON Aqueduct reports to me to-day that during the past twenty days the water in the city reservoir has gone down three feet three inches, equal to 98,000,000 gallons, showing that this amount of water was used and wasted over and above the supply received through the Croton Aqueduct and the Bronx river conduit. The Department has no means to stop this enormous waste, which is caused by consumers keeping faucets open day and night to prevent freezing in the service-pipes, and can only do so by the most direct appeal to them to stop it, and notify them that unless it is stopped the pressure in the water-mains will be so much reduced that in a few days the water will not rise to the basements and cellars in thousands of buildings.

Respectfully,

ROLLIN M. SQUIRE,
Commissioner of Public Works.
