v. City Funds	III-132

III. ACTION PLAN: ONE YEAR USE OF FUNDS

Introduction

The Action Plan: One Year Use of Funds contains a description of the City's use of entitlement funds to address affordable housing, homelessness, supportive housing services and community development needs. The Action Plan is divided into four sections: A) Statement of One-year Objectives; B) Use of and Funding Amounts Expected to be Received; and C) the Program Descriptions, a corresponding annotated description of every program listed in the Summary Table of Funding Sources.

Section A. Statement of One-year Objectives, summarizes the annual objectives the City expects to achieve during the upcoming program year. The proposed activities to be undertaken in the One-Year Action Plan are designed to address a majority of the City's strategic objectives articulated in Volume 2, Section II, Five-Year Strategic Plan for 2010-2014.

Section B. Use of and Funding Amounts Expected to be Received, is divided into two parts: 1., Funding Amounts Expected to be Received; and, 2., Use of Funds Expected to be Received. Part 1., Funding Amounts Expected to be Received summarizes the funding amounts expected from the various funding sources (federal, state, local and private); and includes the Summary Table of Funding Sources. The Summary Table list the sources by six categories: i. **HUD Formula/Entitlement Programs** including, Community Development Block Grant (CDBG), HOME Investments Partnership, Emergency Solutions Grant (ESG)(former the Emergency Shelter Grant), and Housing Opportunities for Persons with AIDS (HOPWA); ii. **NYCHA Funds**, including the Public Housing Capital Fund, and other public housing competitive programs; iii. **HUD Competitive Programs**, including the Section 202 Supportive Housing for the Elderly, Section 811 Supportive Housing for People with Disabilities Programs, among others; iv. **State Funds**, including funds that are provided to match federal and city funds, and non-matching funds; v. **City Funds**, including city funds to match federal funds, plus non-matching funds; and vi. **Private Funds (Total Funding Sources** is the aggregation of i-vi). Part 2., Use of Funds Expected to be Received provides a summary of the one-year affordable housing goals for the number of homeless, non-homeless, and special-needs households using the formula entitlement funds expected to made available in the upcoming Consolidated Plan Program year.

Included is Section C. Program Descriptions which is divided into two parts: 1., Description of Program Variables; and 2., Description of Programmatic Activities. Description of Program Variables consists of a chart for each program with the HUD-required variables. This chart includes the funding source and

funding amount, the administrating agency, program activity, eligible household types, and eligible income type. For each formula/entitlement program, the number of proposed accomplishments, a HUD requirement, has been reported. In addition, the formula/entitlement program variable tables have been expanded to include the newly-required performance outcome measurement system variable table data: the proposed outcome objective code; the proposed outcome and objective statement; and, the proposed performance indicator, respectively.

The definitions for the variables listed in the charts can be found in Appendix 4, titled, "Dictionary of Program Description Variables."

Description of Programmatic Activities provides a full explanatory narrative discussing the proposed activities for each of the respective programs as listed on the Summary Table of Funding Sources.

A. Statement of One-Year Objectives

For the 2010 Consolidated Plan program year the City of New York is required to provide a summary of its annual objectives the jurisdiction expects to achieve during the upcoming program year. The City's objectives are described in Volume 2, Section II, Five-Year Strategic Plan for 2010-2014. The activities undertaken for the 2010 Consolidated Plan One-Year Action Plan are designed to address a majority of the strategic objectives.

HUD Consolidated Plan regulations require localities receiving formula entitlement funds to implement and use its Performance Outcome Measurement System to report on its proposed activities for the given Consolidated Plan program year. The Performance Outcome Measurement System was developed to enable the U.S. Department of Housing and Urban Development to collect and aggregate standardized performance data on entitlement-funded activities from all entitlement grantees nationwide for use in reporting to Congress on the effectiveness of its formula entitlement programs in meeting the Department's strategic objectives.

In addition to determining the performance outcome measurement, the regulations require entitlement grantees to collect and enter into the HUD Integrated Disbursement and Information System (IDIS) accomplishment data according to eighteen (18) federally-defined Performance Indicator categories. Performance Indicator categories encompass housing construction and rehabilitation, public services and facilities, business/economic development, and homelessness prevention-related activities. Therefore, the City's proposed entitlement-funded activities for the 2010 Consolidated Plan Program Year were formulated to comply with the new reporting requirements.

The outcome performance measurement system includes objectives, outcome measures and performance indicators that describe the intended outputs of the various entitlement funded activities. There are three (3) objectives: providing Decent Affordable Housing; creating Suitable Living Environment; and Creating Economic Opportunities which, combined with the three (3) performance outcome categories, Accessibility/Availability; Affordability; and Sustainability, create nine (9) performance measurement statements. The nine performance outcome measurement statements are:

- Accessibility for the purpose of providing Decent Affordable Housing.
- Affordability for the purpose of providing Decent Affordable Housing.
- Sustainability for the purpose of providing Decent Affordable Housing.
- Accessibility for the purpose of creating Suitable Living Environments.
- Affordability for the purpose of creating Suitable Living Environments.
- Sustainability for the purpose of creating Suitable Living Environments.
- Accessibility for the purpose of creating Economic Opportunities.
- Affordability for the purpose of creating Economic Opportunities.
- Sustainability for the purpose of creating Economic Opportunities.

In addition to determining the performance outcome measurement objectives, the regulations require entitlement grantees to collect and enter into the HUD Integrated Disbursement and Information System (IDIS) accomplishment data according to eighteen (18) federally-defined Performance Indicator categories. Performance Indicator categories encompass housing construction and rehabilitation, public services and facilities, business/economic development, and homelessness prevention-related activities. Therefore, the City's

proposed entitlement-funded activities for the 2010-2014 Consolidated Plan Strategic Plan were formulated to comply with the new reporting requirements.

It is important to note there are limitations with articulating New York City's strategic objectives by the Performance Outcome Measurement System Statements that were not present in the City's 2005-2009 Consolidated Plan Strategic Plan strategic objectives. First, in the 2005 HUD Consolidated Plan regulations regarding the formulation of strategic objectives permitted the undertaking of a variety of activities which resulted in more than one strategic outcome. However, for the 2010 Strategic Plan, as a result of being required to categorize a strategic objective by a specific HUD Performance Outcome Measurement System Statement, the City of New York found it necessary to repeat several strategic objectives according to different Performance Outcome Objective Statements in order to properly assign a given program's activity its Performance Outcome Objective consistent with its intended (additional) outcome.

For the purposes of this section, the City of New York has attempted to collapse, and in certain cases, eliminate several its Five-Year Consolidated Plan Strategic Objectives which would appear to be redundant in order to be consistent with the three Performance Outcome Measurement System objectives.

Second, while the eighteen HUD-defined Performance Indicator Categories are designed to capture a majority of the eligible entitlement-funded activities a grantee may undertake, they do not capture every eligible activity. Therefore, due to the limitations of the Performance Indicators there are entitlement-funded activities which the City of New York intends to undertake in the 2010 Consolidated Plan Program Year which will not be captured by the Performance Outcome Measurement System. Consequently, the number of households and persons positively impacted by the City's overall efforts are expected to be much higher than can be identified under the Performance Indicator criteria. As a result of the Performance Outcome Measurement System's inability to categorize all eligible entitlement-funded activities, the amount of entitlement funds the City of New York expects to expend according to the nine performance outcome objective statements will be less than the total amount of entitlement funds the City of New York expects to receive for the 2010 Consolidated Plan program year. The total amount of funds from the respective entitlement grants and other funding sources (HUD Competitive, State funds, City funds and private funds) the City expects to receive are summarized in Section B., Use of and Funding Amounts Expected to be Received.

For the eligible activities not captured by the Performance Outcome Measurement System, program progress in addressing the City of New York's priorities and objectives as described in its five-year Consolidated Plan Strategic Plan will continue to be measured and reported in the Consolidated Plan Annual Performance Report (APR) by comparing its Proposed Accomplishment as described in the Consolidated Plan Action Plan Accomplishment Chart against its Actual Accomplishment.

Third, it is important to recognize that some households may benefit multiple times from various public service activities. Unlike activities such as rental assistance or housing production, where it is reasonable to expect that beneficiaries will not be double-counted, many households may receive multiple forms of assistance through a combination of either entitlement-funded public service, public facility or targeted area revitalization activities. As a result, the aggregated number of low-/moderate-income households and persons benefiting from these activities may actually be greater than the actual number of low-/moderate-income households and persons residing in New York City. Therefore, the reader is advised to interpret the aggregated data with caution.

Lastly, it should be noted the HUD Performance Outcome Measurement System objectives are not intended to replace the City of New York's strategic objectives which were formulated to address its own diverse, specific needs and requirements.

DECENT HOUSING (DH)

Community Development Block Grant and HOME Investment Partnership

- Continue to promote long-term, community-based residential options with supportive services for the elderly who need help with daily living activities, housekeeping, self-care, social services, and other assistance in order to continue to live independently in the community.
- Continue to fund the removal of architectural barriers in rental dwellings and owner occupied residences, thereby helping people with disabilities to remain in their homes and to maintain their independence.
- Continue to educate builders, landlords, architects, and people with disabilities about fair housing issues as they relate to people with disabilities.
- - Create new markets for affordable housing by strategically investing in new housing construction.
- Prevent discrimination in housing and promote expanded housing opportunities for racial and ethnic minorities. Provide fair housing counseling services to effectuate compliance in the public and private housing markets, conduct educational workshops about landlord/tenant rights, assist people with disabilities to find accessible housing, identify housing discrimination and provide assistance in determining eligibility or qualifications for tenancy and/or social service programs.
- Improve neighborhood quality through the elimination of vacant blighted properties and the promotion of greater community involvement and investment through the provision of new homeownership opportunities and stimulation of concerned local businesses to perform housing management and rehabilitation functions. Expand the supply of affordable housing. Facilitate the production of new rental housing for low-income households, including special needs populations; and also the homeless population, through substantial rehabilitation of vacant City-owned properties and new construction. Create new homeownership opportunities for existing renter households through a variety of approaches, including rehabilitation, construction and acquisition. Assistance may also take the form of down payment assistance to first-time homebuyers; employer-assisted housing down payment assistance; and other financing measures to create affordable homeowner units.
- Preserve and improve the existing supply of both occupied and vacant privately-owned affordable housing. Administer a variety of loan and grant programs, through the Department of Housing Preservation and Development (HPD), to enable nonprofit groups and qualified for-profit owners to rehabilitate and improve the existing supply of occupied and vacant privately-owned residential properties (including the reduction of potential hazards such as lead paint poisoning) for very low-, low- and moderate-income New Yorkers. Pursue a special intervention strategy of education (including education on the City's new Lead Paint law), investment, and enforcement for targeted projects that have been identified as in jeopardy of being abandoned.
- Maintain the stock of HPD-managed, City-owned buildings until they are ready to be transferred to the Division of Alternative Management Programs (DAMP).
- Use CDBG funds to maintain and then City Capital funds to rehabilitate and return the stock of City-owned buildings to a range of responsible private owners in order to improve living conditions in these buildings while maintaining affordability for very low-, low-, and moderate-income tenants. Continue, through HPD, to accelerate the sale of its in rem buildings to tenants, nonprofit organizations, and selected for-profit owners.

- Prevent displacement and reduce cost burdens for low- and moderate-income New Yorkers by finding ways to enable special needs populations, such as youth aging out of foster care and formerly homeless households, to afford to live in permanent housing.
- Implement an aggressive and targeted anti-drug effort in multi-unit residential buildings.
- - Rehabilitate and return the stock of City-owned (in rem) buildings to a range of responsible private owners in order to improve living conditions in these buildings while maintaining affordability for low- and moderate- income tenants. Continue, through HPD, to accelerate the sale of its in rem buildings to tenants, non-profit organizations and selected for-profit owners. This initiative focuses on clusters of buildings in selected neighborhoods and packages both vacant and occupied properties.
- Protect, preserve and improve the existing sound housing, including City-owned (in rem) residential structures, privately-owned buildings in deteriorating neighborhoods, and conventional public housing, so that this housing can remain or become stable tax revenue-generating residential stock.

Housing Opportunity for Persons with AIDS

- Ensure the availability of transitional and permanent supportive housing for Persons Living with HIV/AIDS (PLWH) in congregate and scattered-site settings, especially for special populations such as persons diagnosed with a mental illness or a substance abuse disorder that is primary barrier to independent living.
- Ensure the availability of short-term and long-term rental assistance to assist PLWH maintain stable, appropriate housing.
- Ensure the availability of housing information services that assist persons that are HIV-infected who are homeless, unstably housed or at-risk of becoming homeless in finding housing.
- Provide start-up rental assistance (permanent housing placement services) to qualified PLWH so that they may establish permanent housing.
- Ensure the availability of supportive services within supportive housing programs such as case management, counseling, and other related services that ensure that PLWH are connected to HIV primary care.
- Ensure the availability of entitlements coordination and client advocacy services that allow PLWH to access medical insurance, home care, and related public benefits that allow PLWH to access HIV primary care.

Summary of Decent Housing (CDBG, HOME, ESG, HOPWA)

CDBG

- Four programs expect to receive an accumulative total of \$1,040,000 for the purpose of providing accessibility to decent affordable housing.
- Nine programs expect to receive an accumulative total of 57,076,000 for the purpose of providing affordability for decent affordable housing.
- Four programs expect to receive an accumulative total of \$39,745,000 for the purpose of providing sustainability of decent affordable housing.

HOME

- Eight programs expect to receive an accumulative total of \$92,504,742 for the purpose of providing accessibility to decent affordable housing.

- Four programs expect to receive an accumulative total of \$18,392,125 for the purpose of providing affordability of decent affordable housing.
- One program expects to receive approximately \$1,363,110 for the purpose of providing sustainable decent affordable housing.

HOPWA

- Three programs expect to receive an accumulative total of approximately \$48,487,000 for the purpose of providing affordability of decent affordable housing.

SUITABLE LIVING ENVIRONMENT (SL)

Community Development Block Grant

- Provide comprehensive community development services to community residents in low- and moderate-income areas through academic enhancement, recreational, cultural, and substance abuse prevention programs.
- Improve the quality of life for senior citizens through the rehabilitation of senior centers.
- Assist mentally ill homeless persons in and around the Staten Island Ferry Terminal and other areas throughout Staten Island to obtain shelter or housing and treat them for psychiatric or substance abuse problems.
- Assist crime victims through counseling, document replacement, court services, and emergency lock repair.
- Help to prevent discrimination based on race, creed, color, national origin, sex, marital status, age, disability, lawful occupation, sexual orientation, familial status, lawful source of income, alienage, and citizenship status by enforcing the laws which prohibit such discrimination. Accomplish this goal through the investigation and prosecution of individual and systemic complaints.
- Strengthen neighborhoods by fostering positive inter-group relations among residents of diverse racial, ethnic, and religious backgrounds.
- Support operations of adult and family shelters.
- Provide recreational services to low- and moderate-income people by funding staff to coordinate and manage programs at parks facilities.
- Create and maintain neighborhood gardens.
- Support housing and economic development efforts by providing day care services so low- and moderate-income mothers may secure employment.
- Help the elderly maintain and retain their homes through the provision of home repairs.
- Assist local arts organizations that primarily serve low- and moderate-income areas by providing targeted technical assistance to build capacity and better serve their respective communities.
- Promote the preservation of historic residential and non-residential buildings through grants for facade renovation.

- Oversee the revitalization of the Bronx River and educate the public to be environmentally-responsible in its use.
- Improve neighborhood quality through the elimination of vacant blighted properties.

Emergency Solutions Grant

- Provide outreach and engagement services, temporary emergency services, and placement services to reduce the number of people living on the streets.
- Provide employment, mental health, substance abuse, and counseling services in shelters to facilitate a return to independent or supported living in the community.
- Provide housing placement services to assist families and individuals to return to the community and minimize the length of stay in shelter.
- Assist homeless persons in shelters with resolving specific issues to facilitate a return to independent or supported living in the community.
- Support operations of adult and family shelters.
- Through a partnership with HPD, provide case management services to households at risk of homelessness to maintain housing stability.
- Provide recreational services with an integrated educational curriculum to youth in shelters.

Summary of Suitable Living Environment (CDBG, HOME, ESG, HOPWA)

CDBG

- Eleven programs expect to receive an accumulative total of \$25,487,000 for the purpose of creating/improving accessibility to suitable living environments.
- One program expects to receive a total of \$3,292,000 for the purpose of creating/improving affordability for suitable living environments.
- Five programs expect to receive an accumulative total of \$7,348,000 for the purpose of creating/improving sustainability of suitable living environments.

ESG

- Three programs expect to receive an accumulative total of approximately \$7,925,600 for the purpose of creating accessibility to suitable living environments.

CREATING ECONOMIC OPPORTUNITIES (EO)

Community Development Block Grant

- Improve the employment and economic opportunities for low-skilled, low-income New Yorkers through the provision of literacy, educational, or vocational services.
- Facilitate business creation, development, and growth; provide technical assistance; maximize entrepreneurial development services to vendors and other micro-enterprises by providing courses on business basics; creating alternative markets; and developing vacant storefronts.
- Revitalize commercial streets via facade and security improvement of commercial businesses and through the use of market studies, marketing assistance, architectural design, and development strategies.

Summary of Economic Opportunity (CDBG, HOME, ESG, HOPWA)

CDBG

- Four programs expect to receive an accumulative total of \$5,996,000 for the purpose of creating/improving accessibility to economic opportunity.

ELIGIBLE PROGRAM ACTIVITIES FOR WHICH THERE IS NO APPROPRIATE HUD PERFORMANCE INDICATOR / APPLICABLE HUD DEFINED OUTCOME/OBJECTIVE STATEMENT

CDBG

- The remainder of CDBG funds, \$107,341,000 will be used for program administration and planning and, therefore, is not applicable to HUD defined outcome/objective statements.

B. Use of and Funding Amounts Expected to be Received

1. Funding Amounts Expected to be Received

The 2010 Consolidated Plan summarizes the City's strategy in utilizing federal, state, city and private funds expected to be received for the 2010 calendar year from HUD and allocated by the City of New York, and other entities for housing, homeless services, supportive housing and community development programs. The Summary Table of Funding Sources lists the amount expected to be received for each program. Consolidated Plan regulations require program descriptions, and other details for the entitlement programs. For most program descriptions, the HUD-required information from HUD's Table of Proposed Projects (a.k.a. Table 3), such as, administrating agency, funding source, funding amounts, program activity, eligible income types, eligible household types and proposed program accomplishments, are provided in a chart in addition to the program description. An Addenda, Description of Additional Program Variables, was submitted to HUD on November 16, 2009, is on file and available upon request. The Addenda, together with the programmatic data contained within the Consolidated Plan satisfy HUD data requirements previously satisfied by the submission of HUD Table 3.

In addition, the fund allocations are presented in two columns, A. and B., of the Summary Table. If Column A is designated, the funds will come directly through a City agency; if Column B is selected, the money will be received by another entity in the City, such as NYCHA or a not-for-profit organization. The figures in the columns refer only to funds expected to be awarded in 2010, not to funds which were previously awarded or still available.

It is important to note that the numbers on the Summary Table of Funding Sources reflect the anticipated 2010 allocations rather than available or previously awarded funds for several reasons. In many cases, while the City expects to receive a 2010 allocation, programs may not be funded in 2010, funding from the federal government may be reduced, or Congress has yet to appropriate funds. And while the City may have received funding in previous years for some programs, it is not yet possible to determine what amount of funds, if any, will be awarded.

The fiscal year for the amounts reported on the Summary Table of Funding Sources depends on which government entity is providing the funds. For the most part, the estimates provided are expected to be made available in the Consolidated Plan Year which is January 1 to December 31. However, each governmental entity (e.g., federal, state, and city) uses a different 12 month period to define its fiscal year, and the various estimates are based on the amount appropriated for that fiscal year of the relevant level of government. For example, the projections for the City's contributions are based on the funding projections for the City Executive Capital Budget for the second half of City Fiscal Year 2010 (January-June 2010), and the first half of City Fiscal Year 2011 (July-December 2010), while the State figures are reported according to the State fiscal year (April 1 to March 31). In the case of Federal HUD Competitive programs, the fiscal year is October 1 to September 30.

Specific priorities for funds budgeted reflect the outcome of the City Charter mandated budget process that began with community board consultations in September 2008 and ended with adoption of the budget by the City Council in June 2009. These specific allocations reflect consensus on the need to achieve the City's annual goals. Funds in the Action Plan originally budgeted in City Fiscal Year 2010 are subject to reallocation in the budget process for CFY11. Please note that the projections in the table should be considered as such. In no event should these initial estimates be misconstrued as a firm commitment on the part of the City to allocate these funds in the exact manner specified. If there are substantial changes, an amendment to the Consolidated Plan will be provided as described in the Citizen Participation Section.

i. HUD Formula/Entitlement Programs

Listed and described are the funds the City of New York expects to receive in Federal Fiscal Year 2010 (FFY 2010) allocations for the four U.S. Department of Housing and Urban Development Office of Community Planning and Development (HUD-CPD) entitlement programs: Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), Emergency Solutions Grant (ESG), and the Housing Opportunities for Persons with AIDS (HOPWA).

In 2010, the City expects to receive **\$251,179,000** in Community Development Block Grant funds to be used in over 50 programs for housing, supportive housing and community development activities throughout the City; approximately **\$124,733,300** in HOME funds to further homeownership opportunities to low- and moderate-income households and to promote rental assistance to households in need; **\$7,925,600** in Emergency Solutions Grant funds for homeless prevention and services to the homeless; and approximately **\$52,654,400** in HOPWA funds for programs which provide housing opportunities and supportive housing to persons with HIV/AIDS and their families. (For information regarding HOPWA funds expected to be received by the New York EMSA localities, please refer to Volume 4, Part IV., Other Actions, Section I., HOPWA Eligible Metropolitan Statistical Area Grantee Requirements.) The Summary Table of Funding Sources lists the Proposed 2010 Consolidated Plan Year allocation for each program; and the subsequent program descriptions provide the details concerning the program's use of funds. The page number for each program description is provided on the Summary Table of Funding Sources.

The sub-total of HUD Formula/Entitlement funds expected to be received in 2010 Consolidated Plan Year is approximately **\$436.492 million** (Column A).

ii. NYCHA Funds

In addition to the formula entitlement programs, the City of New York receives Federal public housing funds through the New York City Housing Authority (NYCHA), one of the City's two public housing authorities (HPD is also considered a PHA). Since NYCHA is a quasi-City agency (see NYCHA chapter, Part II), the funds expected to be received by NYCHA are listed in Column B. The Summary Table of Funding Sources lists the Proposed 2010 Consolidated Plan Year allocation for each program and the subsequent program descriptions provide the details concerning the program's use of funds. The page number for each program description is provided on the Summary Table of Funding Sources.

For the descriptions of the NYCHA programs, please refer to Volume 4, Part IV., Other Actions., NYCHA. Lastly, NYCHA's lead-based paint abatement activities in its public housing developments are described in Volume 4, Part IV., Other Actions., Elimination and Treatment of Lead-Based Paint Hazards.

In 2010 Consolidated Plan Year, NYCHA expects to receive approximately **\$756.738 million** from the programs listed in the table.

iii. HUD Competitive Funds

Competitive grant program funds augment the City's entitlement funds. Competitive Grants are programs designed to provide funds to specifically address a particular housing, supportive housing, community development, or special needs population concern. Funds are awarded to applicants on a competitive basis through a Notice of Funding Availability (NOFA). HUD releases notices of funding availability several times a year; the allocation of these funds is made on a competitive basis. In addition to the City of New York, NYCHA and not-for-profit organizations are eligible to apply for funds. In some cases, the City of New York has applied for this money and been awarded funds. Listed are the funds expected to be received during the 2010

Consolidated Plan Year. Column A lists the funds that City agencies expect to receive directly, and Column B lists the funds to be received by NYCHA, or a not-for-profit organization.

The programs include: the Homeless Continuum of Care SuperNOFA which includes -- the Supportive Housing, the Shelter Plus Care, and the Section 8 Moderate Rehabilitation SRO Programs; Section 202 Supportive Housing for the Elderly; Section 811 Supportive Housing for People with Disabilities; Section 8 Rental Certificates and Vouchers; Housing Opportunities for Persons with AIDS (HOPWA) Program; and others. The Summary Table of Funding Sources lists the Proposed 2010 Consolidated Plan Year allocation for each program and the subsequent program descriptions provide the details concerning the program's use of funds. The page number for each program description is provided on the Summary Table of Funding Sources.

In 2010 Consolidated Plan Year the amount of dollars the City (Column A), NYCHA and not-for-profit organizations ((Column B) expect to receive in competitive funds for supportive housing programs is to be determined.

iv. State Funds

The State of New York provides funding through City agencies and not-for-profit organizations for housing, homeless and supportive housing services. These programs create affordable housing within the City of New York, particularly the Affordable Homeownership Development Program; Homeless Housing and Assistance Program; Low Income Housing Tax Credit (LIHTC); Low-Income Housing Trust Fund Program; Public Housing Modernization; and the RESTORE Program. The State funds listed in Column A are administered by a New York City agency. Column B lists the programs which are operated by NYCHA and not-for-profit entities. The Summary Table of Funding Sources lists the 2010 Consolidated Plan Year allocation for each program and the subsequent program descriptions provide the details concerning the program's use of funds. The page number for each program description is provided on the Summary Table of Funding Sources.

In the 2010 Consolidated Plan Year, the City expects to receive \$14,000,000 (Column A) and, Not-for-profits and NYCHA expect to receive approximately \$17,700,000 (Column B) in State funds.

v. City Funds

Federal guidelines require municipalities receiving HOME and ESG entitlement funds to provide matching funds to the respective grants. The City of New York far exceeds the federal guidelines in its commitment to the production of affordable housing. The matching funds for HOME and ESG are described in this Section. The Summary Table of Funding Sources lists the Proposed 2010 Consolidated Plan Year allocation for each program and the subsequent program descriptions provide the details concerning the program's use of funds. The page number for each program description is provided on the Summary Table of Funding Sources.

Most of the City (capital and expense) Funds are described in Volume 1, Part I., Section C., Supportive Housing Continuum of Care for Homeless and Other Special Needs Populations. The Relevant Public Policy subsection of Other Actions describes the City's tax abatement and tax exemption programs, overseen by the Department of Finance (DOF) with the assistance of the Department of Housing Preservation and Development (HPD), and the Department for the Aging (DFTA). These tax abatement and exemption programs bring the City's contribution to affordable housing and supportive housing services to approximately \$1 billion. Many of the funding amounts have been identified in the text. Please refer to the City of New York Fiscal Year 2010 Budget and the Mayor's Management Report for a description of the City's budget, goals, and accomplishments.

In the 2010 Consolidated Plan Year, DHS, HPD and HRA expect to allocate approximately \$839,410,600 (Column A) in City funds to be used to address the City's needs for affordable housing and homelessness prevention.

vi. Private Funds

Approximately \$100,230,100 in private funds are expected to be received in the 2010 Consolidated Plan Year, as represented in Column B. This figure only includes private funds to be used in conjunction with federal HOME funds, such as private bank loans used in conjunction with tax credit equity.

vii. Total Funding Sources

Total Federal Sources: As seen in, Column A, the City expects to receive a combined total of at least \$436,492,200 in HUD Formula/Entitlement and Competitive Funds. As shown in, Column B, NYCHA expects to receive approximately \$756,738,400 primarily in federal public housing authority funds.

Total State Sources: As shown in, Column A, \$14,000,000 are expected to be received by the City, and in Column B, \$17,700,000 in State funds are expected to go to other entities, such as NYCHA and not-for-profit organizations.

Total City Sources: As seen in, Column A, \$839,410,600 of City tax-levy and City capital dollars are expected to be used in the 2010 Consolidated Plan Year.

Total Private Funds: See private funds above. (Column B, **\$100,230,100**)

viii. Total All Sources

As seen in, Column A, approximately \$1,289,902,800 in Federal, State, and City funds are expected to be administered by City agencies for housing, homeless, supportive housing services and community development needs.

As shown in, Column B, approximately \$874,668,500 Federal, State, City and Private funds are expected to be received by City Agencies, NYCHA and not-for-profit organizations.

The 2010 Consolidated Plan documents that approximately \$2,164,571,300 (Total All Sources Column A plus Column B) are expected to be used by City agencies, NYCHA, and not-for-profit organizations to meet the housing, homeless, supportive housing services and community development needs within the City of New York.

2. Use of Funds Expected to be Received

Proposed Provision of Affordable Housing

i., Section 215 Affordable Housing Goals

For the 2010 Consolidated Plan program year the City of New York is required to provide a summary of its one-year goals for the number of homeless, non-homeless, and special-needs households to be provided affordable housing using funds made available to the jurisdiction and one-year goals for upcoming program year for the number of households to be provided affordable housing through activities that provide rental assistance, production of new units, rehabilitation of existing units, or acquisition of existing units using funds made available to the jurisdiction

Section 215 Affordable Housing refers to housing activities which comply with the definition of affordable housing as described in Section 215 of the HOME Investment Partnership regulations in the Cranston-Gonzalez National Affordability Housing Act (NAHA).

The information provided in the following HUD Table 3B., Annual Housing Completion Goals is derived from data provided in Part I.D.1.i., Action Plan, Description of Program Variables - the HUD Formula Entitlement Funds which describes the federally-required proposed accomplishments data for the City's respective formula entitlement-funded activities. It is important to note that while the City's proposed accomplishments for its federally-funded housing programs are designed to benefit low- and moderate-income households and are therefore, considered to provide "affordable" housing under the generally accepted definition (less than 30 percent of the household's gross income expended on housing expenses), they may not meet the more stringent Section 215 affordable housing definition. As a result, the number of Section 215 proposed accomplishments for the respective programs described in the narrative for Table 3B may be less than the number of proposed accomplishments indicated in the Description of Program Variables.

In addition, it is important to note the data on the Table 3B reflect housing goals to be funded with monies from the anticipated 2010 allocations rather than available or previously awarded funds for several reasons. In many cases, while the City expects to receive a 2010 allocation, programs may not be funded in 2010, funding from the federal government may be reduced, or Congress has yet to appropriate funds. And while the City may have received funding in previous years for some programs, it is not yet possible to determine what amount of funds, if any, will be awarded.

Furthermore, funds budgeted in the One-Year Action Plan reflect the outcome of the City Charter mandated budget process that began with community board consultations in September 2008 and ended with adoption of the budget by the City Council in June 2009. These specific allocations reflect consensus on the need to achieve the City's annual goals (housing and non-housing related). Funds in the Action Plan budgeted in City Fiscal Year 2010 are subject to reallocation in the budget process for that year. Please note that the projected affordable housing goals listed in the Table 3B funded with these monies should be considered as such. In no event should these initial estimates be misconstrued as a firm commitment on the part of the City to allocate funds necessary to achieve these goals in the exact manner specified. Therefore, the proposed number of households to be provided affordable housing may be subject to revision. If there are substantial changes, an amendment to the Consolidated Plan will be provided as described in the Citizen Participation Section.

Narrative for Table 3B., Annual Housing Completion Goals

BENEFICIARY GOALS (Homeless and Special Needs Households) (SEC. 215)

Homeless Households - A total of 316 homeless households are expected to be assisted with housing through the HOME-assisted Supportive Housing Program (316) program.

Non-Homeless Households - A total of 1,026 non-homeless households are expected to be assisted with housing through the following formula entitlement programs: CDBG-assisted 7A Program (45); HOME-assisted

Neighborhood Entrepreneurs Program (7); HOME-assisted Neighborhood Redevelopment Program (13); HOME-assisted Third Party Transfer (17); HOME-assisted Participation Loan Program (Gut/Mod) (9); HOME-assisted Multifamily Homeownership (Cornerstone) Program (85); HOME-assisted Article 8A Loan Program (44); HOME-assisted Small Homes Scattered Sites (New Foundations) (16); HOME-assisted Low Income Rental Program (*formerly New MIRP*)(461); HOME-assisted Multifamily New Construction (16); HOME-assisted Multifamily Rental Mixed Income (39); HOME-assisted HUD Section 202 Program (224); and HOME-assisted HomeFirst Down Payment Assistance Program (50).

Total Section 215 Beneficiaries – A total of 1,342 homeless and non-homeless housing are expected to be assisted with housing.

AFFORDABLE RENTAL HOUSING GOALS (SEC. 215)

Production of new units – A total of 882 rental housing units are expected to be produced through the following formula entitlement programs: HOME-assisted Supportive Housing Program (158); HOME-assisted Low Income Rental Program (*formerly New MIRP*)(461); HOME-assisted Multifamily Rental Mixed Income (39); and HOME-assisted HUD Section 202 Program (224).

Rehabilitation of existing units – A total of 309 rental housing units are expected to be rehabilitated through the following formula entitlement programs: CDBG-assisted 7A Financial Assistance Program (45); HOME-assisted Neighborhood Entrepreneurs Program (7); HOME-assisted Neighborhood Redevelopment Program (13); HOME-assisted Participation Loan Program (9); HOME-assisted Third Party Transfer (17); HOME-assisted Article 8A Loan Program (44); HOME-assisted Supportive Housing Program (158); and HOME-assisted Multifamily New Construction (16).

Total Section 215 Affordable Rental Housing Goals – A total of 1,191 rental housing units are expected to be assisted through formula entitlement program-funded activities.

AFFORDABLE OWNER HOUSING GOALS (SEC. 215)

Production of new units - A total of 101 homeowner units are expected to be produced through the following formula entitlement programs: HOME-assisted Small Homes Scattered Sites (New Foundations) Program (16); and HOME-assisted Multifamily Homeownership (Cornerstone) Program (85).

Homebuyer Assistance – A total of 50 new homeowners are expected to be provided with homebuyer assistance through the HOME-assisted HomeFirst Downpayment Assistance Program.

Total Section 215 Affordable Owner Housing Goals – A total of 151 homeowner units are expected to be assisted through formula entitlement program-funded activities.

TOTALS

ANNUAL AFFORDABLE HOUSING GOALS by ACTIVITY (SEC. 215)

Production of new units – A total of 983 housing units (rental and homeownership) are expected to meet Section 215 Goals using formula entitlement funds in 2010.

Rehabilitation of existing units – A total of 309 housing units (rental and homeownership) are meet Section 215 Goals using formula entitlement funds in 2010.

Homebuyer Assistance – A total of 50 new homeowners are expected to be provided with homebuyer assistance using formula entitlement funds in 2010.

ANNUAL AFFORDABLE HOUSING GOALS by TENURE

Annual Rental Housing Goals - A total of 1,191 new and existing renter households are expected to be provided with housing assistance using formula entitlement funds in 2010.

Annual Owner Housing Goals - A total of **151** new and existing homeowners are expected to be provided with housing assistance using formula entitlement funds in 2010.

Total Section 215 Affordable Housing Goals – A total of 1,342 housing units are expected to meet Section 215 Goals as outlined in the National Affordable Housing Act of 1990.

* The total amounts for "Combined Total Sec. 215 Goals" and "Total Sec. 215 Beneficiary Goals" should be the same number.

ii., Proposed Provision of Supportive Housing for Persons with HIV/AIDS

For HOPWA funds, the jurisdiction must specify one-year goals for the number of households expected to be provided housing through the use of HOPWA activities for:

- short-term rent, mortgage, and utility assistance payments to prevent homelessness of the individual or family;
- tenant-based rental assistance; and
- units provided in housing facilities that are being developed, leased, or operated with HOPWA funds and shall identify the method of selecting project sponsors.

The following table outlines the proposed provision for the New York City EMSA HOPWA-funded programs.

**Proposed Supportive Housing Accomplishments for Persons with AIDS
New York City Eligible Metropolitan Statistical Area (EMSA)**

	Fiscal Year: 2010

C.2., Description of Programmatic Activities

i. Formula Entitlement Programs

Community Development Block Grant

The Community Development Block Grant Program (CD) was established by Congress through the Housing and Community Development Act of 1974. CD Program funds may be used to provide housing, economic development, neighborhood facilities and public services that will principally benefit low- and moderate-income persons, prevent or eliminate slums and blight, or meet an urgent need.

Under the CD Program the City of New York is entitled to receive a grant in each federal fiscal year (October 1 through September 30) for eligible Community Development activities. The City's projected Federal Fiscal Year (FFY) 2010/CD 36 Entitlement is \$180,347,000.

The City projects that \$69,478,000 in additional revenues will be made available to supplement the CD 36 grant. Additional revenues expected to be available include prior year accruals and program income. Thus, the total CD 36 budget is \$249,825,000. However, it is projected that the Neighborhood Housing Services (NHS) Program will have \$1,354,025 (rounded to \$1,354,000) available for loans in 2010/CD 36. Although NHS is not receiving an allocation in 2010/CD 36, the program's available revolving loan funds are added to the CD budget to satisfy the HUD reporting requirements. Therefore, the total 2010/CD 36 budget is listed in the Summary Table of Funding Sources as \$251,179,000.

7A Program

As part of HPD's Division of Alternative Management Programs (DAMP), the 7A Program provides loans to fund systems replacement and repair work using both CD and City Capital funds. CD and Tax Levy funds are also used to pay for staff within the 7A Financial Assistance Unit and the Counseling Assistance Unit.

Article 7A of the Real Property Actions and Proceedings Law authorizes the Housing Court to appoint administrators to operate privately-owned buildings where delinquent owners have abandoned their buildings and dangerous conditions exist that affect the life, health, and safety of the tenants. HPD's Housing Litigation Division, upon referral from the 7A Program, brings legal actions against privately-owned buildings where the owner has neglected to provide essential services and maintain the property for its tenants. The 7A Administrator is authorized to collect rents; make repairs necessary to stabilize the building and address hazardous conditions; correct violations; provide heat, hot water, and utilities; and improve rent collections and maintenance services. The buildings that enter the 7A Program are severely distressed and are often buildings in which owners have no interest and, in fact, have abandoned. The 7A Program functions to stabilize and preserve these housing units and provide habitable and affordable housing for the tenants.

7A buildings are generally located in blighted areas. The buildings tend to be under-occupied, and occupants tend to have very low incomes. For the most part, all 7A buildings enter the Program after years of neglect and deferred maintenance. In almost every case, serious emergency conditions exist in these buildings, which, if not corrected immediately, impair the ability of the Administrator to collect rent. The conditions contribute to the rapid deterioration of the building and, ultimately, the loss of those units from the housing stock.

7A Intake Liaison

7A Intake Liaison responds to intake referrals by visiting the buildings and conducting an evaluation of the property to determine if the conditions meet the Article 7A Proceeding Law criteria. If a building is recommended for intake, the unit prepares legal documents and refers buildings to HPD's Housing Litigation Division to commence a 7A Proceeding. CD funds pay for the Intake Liaison and Tax Levy is used for the remaining staff members.

7A Financial Assistance Unit

7A Financial Assistance (7AFA) loans are available for 7A Administrators to use for substantial stabilization and repair or to replace systems where collected rents cannot support the cost of this work. The 7AFA loans are exclusive to 7A Administrators who, through their court order of appointment, are authorized to borrow funds from

HPD. The staff underwrites the loan for the 7A buildings and prepares loan packages. As work is completed, the 7AFA loan and any emergency repair charges take the form of liens that are placed on the property. In addition, the 7A Financial Assistance Unit manages and services the portfolio and is directly involved in the delivery of services. The staff makes sure liens are recorded with the Department of Finance (DOF) and supplies loan balances to facilitate the discharge of the buildings to the owners. CD funds pay for the loan coordinators and staff whose activities support CD-funded loans.

Counseling Assistance Unit

7A Counselors are involved in reversing emergency conditions and solving building maintenance problems occurring in 7A buildings. These counselors ensure that the buildings do not deteriorate further or develop new emergency conditions. 7A Counselors meet with tenants, coordinate building repair plans, monitor compliance with court stipulations, and work with Administrators to remove Building Code violations. In addition, they conduct emergency inspections as needed and refer Administrators to obtain legal assistance funds to aid them in bringing court proceedings against tenants for non-payment. The staff makes sure that 7A meets all annual building filing requirements such as Lead Local Law 1. The Counseling Unit is primarily Tax Levy-funded.

7A Program Services Unit

The Program Services Unit provides Administrators with legal assistance funds to initiate court actions against tenants for non-payment of rent. The staff also reviews applications from organizations seeking court appointment as 7A Administrators. The staff conducts extensive research on owners seeking discharge of buildings that are under 7A Program management. In addition, the staff makes sure that 7A Administrator buildings are registered annually and submit violations for emergency repairs and prepares preliminary documents for the 7A Regulatory Agreement. This unit is Tax Levy-funded.

Adult Literacy Program

Through the New York City Adult Literacy Initiative (NYCALI), five City agencies provide basic adult educational services, such as Adult Basic Education and English for Speakers of Other Languages, throughout the five boroughs. Because limited funding has traditionally only allowed these programs to reach about 55,000 individuals per year, NYCALI has been exploring opportunities to reach more residents. Accordingly, CD funds are used to fund the following innovative services within the Department of Youth and Community Development (DYCD) aimed at finding a cost-effective means of significantly increasing the number of beneficiaries.

CUNY Television/Video Programming

In response to a large unmet need for English language instruction in the context of important City messages for and about immigrants, the Mayor's Office of Adult Education worked with the City University of New York (CUNY) to create the English as a Second Language Television (ESL TV) Project. The ESL TV Project comprises a 9-episode series designed to be broadcast on public television. Each of the episodes presents information on how immigrant and low-income New Yorkers can access City services and other resources related to health, education, and other important needs. The show uses a format that is accessible to limited English speaking adults and helps them improve their English by modeling the language and communication skills needed to access services. To better serve New Yorkers who speak no English at all, the show was also dubbed into the most common languages spoken by immigrants in New York City.

Researching, writing, filming, and production of the series was completed in late 2008. The show has been tested in ESL classrooms throughout the City and in other community settings. Feedback from viewers and ESL teachers confirms that the ESL TV Project has achieved its goal of presenting important information that is relevant to low-income and immigrant New Yorkers in ways that support their English language learning.

The project includes a range of print and web materials, as well as DVDs for use in settings such as classrooms, community centers, and City agency sites. Viewers will be able to watch at home and use "self-study" materials, access content on-line, or visit one of a range of community sites hosting viewer groups facilitated by volunteer instructors. It is anticipated that, through the use of the televised series and the ancillary materials, the tens of thousands of adults in New York City who are underserved through current classroom ESL programming will

achieve greater English language proficiency and will have more knowledge of information important to their lives and those of their families. While the educational impact on these adults will not be as great as being in a formal ESL class with a trained professional instructor, it is anticipated that this low-cost hybrid approach of distance learning, web-based learning solutions, and volunteer-led discussion groups will reach many New Yorkers who are not being served in the current system.

Pilot Programs

CD funds are used to pay for contracts with Adult Basic Education (ABE) providers that offer literacy instruction and college transition support to individuals who were formerly incarcerated. Programs serving ex-offenders have demonstrated good educational outcomes and a remarkable success in substantially reducing rates of re-arrest and re-incarceration. The reduction in criminal recidivism has a dramatic impact on the lives of participants, their families, and the communities where they live. The pilot programs will use a variety of teaching methods, including hands-on and contextualized learning modalities, as well as mentoring and peer counseling. All pilot programs will offer career counseling and supportive services to help support their students' overall success.

It is anticipated that the pilot programs will serve approximately 500 formerly incarcerated individuals per year, assisting them to improve their literacy skills, find jobs, and get into college.

Classroom Programming

CD funds are used to pay for contracts with Adult Basic Education (ABE) providers that offer literacy instruction in a classroom setting.

CD funds also pay for a position within DYCD that oversees both the Adult Literacy Program and the Beacon Schools Program. This position is charged under CD Administration.

Alternative Enforcement Program

The Alternative Enforcement Program (AEP) is intended to alleviate the serious physical deterioration of the most distressed buildings in New York City by forcing the owner to make effective repairs or have the City do so in a more comprehensive fashion so that emergency conditions are alleviated and the underlying physical conditions related to the emergency Housing Code violations are addressed.

Using criteria set forth in the law, HPD will annually designate 200 different multiple dwellings for participation in AEP. The multiple dwellings selected to participate in the program are high consumers of HPD's enforcement services, which includes the HPD Emergency Repair Program (ERP). This ERP recidivism demonstrates that owners of the multiple dwellings selected for AEP are not correcting the underlying conditions and that more extensive work is required.

As described in the law, an owner will be notified by HPD that based upon the law's criteria, his or her multiple dwelling has been chosen for participation in AEP. An owner will have four months to repair the violations, pay all outstanding HPD emergency repair charges and liens, submit a current and valid property registration statement, and request an HPD re-inspection. If the owner fails to meet all of the requirements for discharge within the first four months, HPD will perform a building-wide inspection and issue an Order to Correct outlining the building systems that need to be replaced in order to address the underlying conditions and cause of the violations (to minimize recurrence of those conditions). HPD will prepare a scope of work that will address the conditions cited in the Order. Should an owner fail to comply with the Order, HPD will perform the work.

Avenue NYC Program

The Avenue NYC Program promotes the economic viability of neighborhood business districts. This program is intended to not only help local businesses directly, but also to preserve neighborhoods. The Department of Small Business Services (SBS) funds a limited number of projects that promote commercial revitalization in the areas of planning, commercial development, and district management. The project areas selected for funding are experiencing varying degrees of stagnation, deterioration, or disinvestment, and the income of the areas' populations are low to moderate. The Program is based on a public/private partnership model of economic development.

Projects usually have a local community sponsor, frequently a local development corporation (LDC) comprised of local merchants, property owners, and other community leaders. The sponsor contracts with SBS to carry out the neighborhood revitalization strategy and set the foundation for the area's long-term prosperity.

The Program's goals are to:

- attract, retain, and expand businesses and business opportunities throughout New York's neighborhoods;
- stimulate private investment;
- create and retain jobs;
- foster collaboration among businesses in a neighborhood and between the business community and government on local economic development initiatives.

In meeting these program goals, staff from SBS assigned to this program work with the local sponsor to plan, develop, and administer comprehensive revitalization. Although each project is designed to reflect the unique characteristics of each neighborhood, the following eligible activities represent some of the basic program elements established to deal with the most common problems confronting commercial streets:

- Neighborhood economic development planning and feasibility studies assess the needs and strengths of a commercial district. Included in those activities can be planning for commercial development sites strategically located along the corridor, new business targets, and infrastructure improvements.
- Placemaking is a comprehensive program that focuses on creating or enhancing a sense of place that captures or reinforces the unique character of the commercial corridor. The program entails developing a new or solidifying a current placemaking strategy that identifies unique attributes of the target commercial district and planning and executing projects that take advantage of or capitalize upon unique or distinct characteristics of the area. All of these efforts have the goal of increasing consumer spending in the district.
- Business attraction efforts will work to attract new businesses and investment into the targeted district. Business attraction activities include creation of commercial business/real estate databases, organization of community planning sessions, analysis of retail mix and business growth opportunities, and coordinated events with the real estate community and property owners to highlight opportunities that exist in the commercial district.
- The Façade Improvement Management Program covers costs related only to program design, administration, and marketing for sponsors that have or will have dedicated funding for the capital costs of façade improvement activities. The sponsor will be required to use the services of a design consultant and produce model storefronts with a combination of open mesh security gates, retractable or faux-retractable awnings, high quality storefront signs, and an exterior finish (paint or other material).
- Business Improvement District (BID) planning to explore the creation of a BID in the neighborhood or the expansion of an existing BID.
- Merchant organizing will have selected sponsors lead the planning, outreach, and organizing efforts for the creation of a new merchants association or the revitalization of an existing organization in their area. Sponsors are expected to develop a plan for organizing merchants and accomplish concrete organizing milestones within the contract year.
- Special Commercial Revitalization Initiatives will have selected sponsors carry out an innovative program that draws on the strengths and distinctiveness of their respective commercial districts and produces a measureable improvement in the commercial life of the community. Special projects are those that do not duplicate services available elsewhere nor fit into one of the other Avenue NYC project categories. Initiatives may include joint projects with multiple organizations, growing new or emerging organizations through capacity building, and/or unique technical assistance programs.

- Website Development will have selected sponsors receive a professionally-designed website with design and development services and a series of trainings on how to manage and update a website. SBS will not enter into a contract with a sponsor, but rather a website developer.

In selecting streets for the Avenue NYC Program, the City is guided by the following criteria:

Eligibility

- Project must primarily benefit low- and moderate-income areas; or
- Project/Program must qualify as a planning or capacity building activity.

Need

- Indications of decreasing retail activity.
- Deteriorating physical conditions of streets and shop fronts.
- Inadequate public facilities.

Economic Viability

- Population and total family income sufficient to support a viable commercial area.
- Sufficient current commercial activity on which to base a revitalization effort.
- Existence of other activities which could reinforce commercial revitalization.

Local Support and Capability

- Existence of local merchants' groups committed to supporting and participating in commercial revitalization.
- Support of local community groups.
- Evidence of private financial commitment or interest.
- Existence of or potential for local organizational capability to participate in implementation.

Following is a list of those areas/sponsors proposed for funding in City Fiscal Year 2010 (7/1/09 to 6/30/10). The program seeks to identify new areas and sponsors but only after evaluating applications and awarding funds. Additional sponsors may be identified during the program year. The boundaries as shown are subject to change depending on project scope.

Bronx

Bathgate

An area bounded by:

Tremont Avenue on the north, Claremont Parkway on the south, Third Avenue on the east, and Webster Avenue on the west.

Sponsor: Bathgate Industrial Park Local Development Corporation

Fordham

An area bounded by:

196th Street on the north, 183rd Street on the south, the Bronx River on the east, and Jerome Avenue on the west.

Sponsor: Bronx Council for Economic Development
 Fordham Road District Management Association
 Belmont Small Business Association
 Belmont District Management Association

Highbridge/University Heights

An area bounded by:

161st Street on the south, Cross Bronx Expressway on the north, Major Deegan Expressway on the west, and Grand Concourse on the east.

Sponsor: Davidson Community Center

Hunts Point

An area bounded by:

149th Street on the south, the Bronx River on the north, the East River on the east, and Bruckner Boulevard on the northwest.

Sponsor: Hunts Point Economic Development Corporation
The Point Community Development Corporation

Kingsbridge

An area bounded by:

240th Street/Van Cortlandt Park on the north, 230th Street on the south, Jerome Park Reservoir on the east, and Riverdale Avenue on the west.

Sponsor: Kingsbridge District Management Association
Kingsbridge/Riverdale/Van Cortlandt Development Corporation

Morris Park

An area bounded by:

Pelham Parkway on the north, East Tremont Avenue on the south, the Bronx River on the west, and Hutchinson River Parkway on the east.

Sponsor: Morris Park Local Development Corporation
Association of Merchants & Business Professionals of Westchester Square

Mott Haven

An area bounded by:

167th Street on the north, Bruckner Boulevard service road on the south, Major Deegan Expressway on the west, and Bruckner Boulevard on the east.

Sponsor: Bronx Council on the Arts

Norwood

An area bounded by:

211th Street on the north, Amtrak Railroad/ East Kingsbridge Road on the south, Jerome Avenue on the west, and Bronx River Parkway on the east.

Sponsor: 204th Street/Bainbridge Merchants Association
Mosholu Preservation Corporation
Mosholu/Jerome/East Gunhill Road District Management Association

Parkchester

An area bounded by:

East Tremont Avenue on the north, Bruckner Boulevard on the south, Castle Hill Avenue on the east, and White Plains Road on the west.

Sponsor: Castle Hill Merchants Association

Pelham Parkway

An area bounded by:

Pelham Parkway North on the north, Neill Avenue on the south, Williamsbridge Road on the east, and Bronx Park East on the west.

Sponsor: White Plains Road District Management Association

South Bronx

An area bounded by: Cross Bronx Expressway on the north, the East River on the south, the Harlem River on the west, and the Bronx River on east.

Sponsor: South Bronx Overall Economic Development Corporation

Business Improvement Districts (BIDs)

CD funds are also used to assist local sponsors in feasibility and planning for Business Improvement Districts (BID).

A BID gives property owners and merchants a means to organize and raise revenue through the use of the City's tax collection powers, "assessing" themselves in order to purchase supplemental services (sanitation, security, promotions, and special events) and capital improvements (street furniture, trees, signage, and special lighting) beyond those provided by the City. A BID is created through a grassroots effort of merchants, business people, and property owners who develop a plan and scope of services for the improvement of a targeted area, garner community support for the plan, and assist with the approval process through the creation of the district. Following are the local sponsors and target areas in which they will undertake BID planning with CD funds in CFY 2010.

Bronx

Victory Boulevard:

Bradley Avenue to Leonard Avenue

Planning for Financial Sustainability will be implemented in CFY '10 as a Technical Assistance and Planning program. The goal of the initiative is to help the organizations identify and secure alternative sources of funding in order to increase their financial stability and decrease their reliance on SBS as their sole source of financial support. In addition, SBS is developing additional Technical Assistance and Planning course work to provide organizational development services to local economic development groups in eligible areas.

Beacon School Program

The Beacon School Program provides comprehensive services to youth and community residents. Services are provided along major core service areas that include: Academic Enhancement, Life Skills, Career Awareness/School-to-Work Transition, Civic Engagement/Community Building, Recreation/Health and Fitness, and Culture/Art. The core areas are delivered through three distinct activities: structured, drop-in, and community events. Typical program activities include homework help, tutoring, literacy programming, arts and crafts courses, and leadership development opportunities such as the Youth Council. Beacons operate services for youth and community residents year round. All Beacons are required to operate a minimum of 42 hours a week over 6 days, in the afternoons and evenings, on weekends, school holidays, and during school recess. During the summer, Beacons operate for a minimum of 50 hours per week, Monday through Friday. All Beacons have an Advisory Council consisting of community residents, principals, local police officers, and program participants to foster and enhance communication among all stakeholders and improve community resources.

There are 80 operating Beacon programs located throughout the City. CD funds support the following schools, which serve low- and moderate-income areas.

<u>School</u>	<u>Location</u>
	<u>Bronx</u>

Bronx River Project

The Bronx River Project is an expansion of the activities previously conducted by the Bronx River Restoration. In 2001, the Department of Parks & Recreation (DPR), Bronx River Restoration, and the Bronx River Working Group launched the Bronx River Alliance as the next step in efforts to restore the River and create a continuous greenway along its length. The program has several funding sources including City Tax Levy, private grants, and other federal grants. CD funds are used to purchase education and outreach materials, office supplies, field equipment, and restoration supplies; to print and mail newsletters and brochures; and for the support of program consultants and ecological restoration personnel. The CD funding fully covers the Bronx River Conservation Manager position and two assistant crew leader positions. DPR coordinates closely with the Bronx River Alliance to implement programs along the River as follows:

Education: The Education Program works to incorporate the Bronx River as a critical component of school and community education curricula through the promotion of the River and its watershed as an educational resource. Guided by a Bronx River Education Team, a committee of teachers, scientists, and community educators, its mission is advanced through three specific programs. The *Bronx River Stewards Volunteer Monitoring Program* supports and trains more than 80 teachers, community educators, and students that collect water quality parameter data; monitor the status of macro-invertebrate, tree, fish, and wildlife species in the watershed; and report pollution incidents and spills. The *Bronx River Classroom* helps teachers and community educators use the River and its watershed as a living laboratory, and provides equipment, materials, and services to teachers and community educators to encourage their pursuit of Bronx River educational activities. *Public Education* efforts include educational and recreational canoe tours, slideshows, public events, information tables, and interpretive signage in key Bronx River parks.

Community Outreach Program: The Community Outreach Program engages community organizations and residents in the restoration and stewardship of the Bronx River. The Program offers: river-wide events (including the Amazing Bronx River Flotilla, the Bronx River Festival, and walks and cycling events, such as Pedal & Paddle the Bronx River Greenway and the Bronx River start for the annual Tour de Bronx) to increase awareness and offer

opportunities to experience the River and the emerging greenway; volunteer opportunities (including clean-ups and planting days); and community engagement in the Bronx River Greenway to involve youth and community residents in the process of developing new parkland and implementing greenway projects.

Ecology Program: The Ecological Restoration and Management Program works to protect, restore, and manage the terrestrial and aquatic resources of the Bronx River corridor through rigorous and sound planning, research, and community stewardship. The Bronx River Alliance Conservation Crew maintains a full-time presence on the Bronx section of the Bronx River corridor and Greenway monitoring and managing river conditions. Its activities include implementing ecological restoration projects that improve water quality; stabilizing the banks and improving river habitat; and tackling long-term opportunities and threats to the river's health that result from land use planning and policy issues, such as stormwater runoff, pollution incidents, etc.

Greenway Program: The Greenway Program promotes and supports the implementation and development of a safe and continuous green space along and public access to the Bronx River. The program is coordinating completion of the 10 miles of greenway in the Bronx and is working with Westchester County agencies to make a full connection with the Westchester portion of the Bronx River Greenway. The Greenway Program is guided by an active Greenway Team that brings together community leaders, activists, and government representatives in equal footings to discuss the development of the Bronx River Greenway. The Team plans and builds consensus through the Bronx River Greenway Plan, which clearly describes greenway projects, their status, and the challenges that must be overcome to complete them. The office uses the plan to maintain momentum and support for the Greenway's completion, and to garner the resources necessary for a fully realized and well-maintained trail. The Alliance is committed to making the plan work by tracking and coordinating funded projects to make sure that they are implemented effectively and in the way the community envisions.

In February 2009, DPR began phased consolidation of the parkland along the entire New York City length of the River into a single Bronx River District (District 14). The first phase includes existing parks in the Bronx River Greenway north of Pelham Parkway. The district will expand southward as new, contiguous parks come into being. A single Bronx River District will foster more effective river- and greenway-wide programming, implementation of river-length ecological projects, and maintenance activities to uphold the environmental standards of the Greenway's parks and pathways.

Building Maintenance For Youth Training Program

CD funds an initiative that targets low- and moderate-income youth between the ages of 17 and 25, providing participants with basic building management, maintenance, and construction skills. HPD's Building Maintenance for Youth Training Program builds upon proven training programs already in place in Housing Education Services.

The training program, an intensive 8-week course, consists of 22 theory classes and 8 hands-on sessions. The 22 theory classes cover human relations, math skills, measuring and reading blueprints, sanitation and recycling, pest control, building security, NYC's Housing Maintenance Code, Lead-Safe Work Practices, general repair techniques, electrical systems, plumbing systems, heating systems, and janitorial responsibilities. In addition, there are components on resume writing and job interviewing skills. Hands-on classes cover: framing, sheet rocking, plumbing installation and repair, electrical wiring and repair, floor and wall tiling, boiler maintenance, and janitorial techniques. Participants who successfully complete this course are certified as Assistant Superintendents in accordance with the New York City Housing Maintenance Code (Section 27-2055). These certificates may be used as documentation for future employment searches. In addition to the above-mentioned subjects, participants receive a 10-hour OSHA course on safety in the workplace and a 6-hour course on fire safety.

Participants graduating with a 90 or better average and who possess a high school diploma or GED are provided access to EPA Lead Abatement Worker classes, leading to EPA certification as Lead Abatement Workers. With changes in both federal and city lead laws, there is a demand for individuals with this certification.

CDBG Administration

This function provides administrative and support services for planning, management, and citizen participation necessary to formulate, implement, and evaluate the City's Community Development Program. These activities include:

- Preparation and implementation of the Citizen Participation Plan, including technical assistance to Community Boards and other interested groups and citizens.
- Development of Community Development plans and policies.
- Preparation of the City's Consolidated Plan.
- Preparation of the Consolidated Plan Annual Performance Report.
- Preparation of Environmental Reviews.
- Monitoring of the expenditures for CD-funded programs.
- Delineation of population groups served by CD programs.
- Liaison function with HUD and other federal departments.
- Certification and maintenance of the necessary records that demonstrate that federal requirements for environmental review, relocation, equal opportunity, and citizen participation are met.

In order to meet this mandate, as well as to plan effectively the City's future Community Development effort, a portion of the block grant is used to fund planning and management activities within the Office of Management and Budget, the Department of City Planning, the Department of Cultural Affairs, the Department of Youth and Community Development, the Landmarks Preservation Commission, and the Mayor's Office for People with Disabilities.

Code Violation Removal In Schools

CD funds will be used by the Department of Education to prevent or remove code violations in New York City schools. The activities may include the installation, repair, or replacement of emergency lighting, elevator guards, corridor doors, door closers, fire rated doors and hardware, panic hardware, fire alarm systems, fire suppression systems, fire extinguishers, sprinklers/standpipes, radiator shields, potable water systems, sewage systems, kitchen ventilation/exhaust systems, and heating/cooling/refrigeration systems; flame-proofing curtains; building elevator and sidewalk elevator upgrades; and the repair of bleachers, retaining walls, interior masonry, plaster, damaged flooring, ceilings, electrical fixtures, and wiring.

Commission on Human Rights Law Enforcement Program

The Law Enforcement Bureau of the New York City Commission on Human Rights is responsible for the enforcement of the City Human Rights Law prohibiting discrimination in employment, housing, and public accommodations on the basis of race; color; creed; age; national origin; alienage or citizenship status; gender; sexual orientation; disability; marital status; partnership status; status as a victim of domestic violence; whether children are, may be, or would be residing with a person; conviction or arrest record; lawful occupation; relationship or association; and retaliation. The Law Enforcement Bureau also enforces the law prohibiting bias-related harassment. In accordance with the mandate of the Human Rights Law, the Law Enforcement Bureau provides comprehensive services to members of the public. It addresses their complaints of discrimination through a process that includes intake, investigation, mediation, prosecution, and monitoring. The goal of this multi-faceted enforcement mechanism is to vindicate the rights of those complainants who have been victimized by unlawful discrimination and to prevent unlawful discrimination from playing any role in actions relating to employment, housing, and public accommodations.

Commission on Human Rights Neighborhood Human Rights Program

The Community Relations Bureau of the New York City Commission on Human Rights administers the Neighborhood Human Rights Program (NHRP). The Program's goals are to encourage positive inter-group relations among residents of diverse racial, ethnic, and religious backgrounds through community-based activities and reduce

discrimination through education, advocacy, and law enforcement. NHRP is implemented citywide through Community Service Centers in all five boroughs.

Staff from the five Community Service Centers operates several projects in school and community settings reflecting the Commission's larger mandate.

- The School Program is available to grades 6-12 and offers classes such as “NYC Human Rights Law”, “Sexual Harassment”, and “Resolving Conflict”. The program also includes presentations for schools and youth organizations. Additionally, Peer Mediation Trainings (8-10-weeks in duration) are available for students at selected middle and high schools throughout the City to establish programs in schools and certify students to serve as peer mediators. These programs reduce conflicts between fellow students before they escalate.
- Immigrant Rights offers workshops to alert immigrant workers, employers, and advocacy organizations to the employment protections provided under the NYC Human Rights Law and relevant federal laws. The immigrant rights curriculum has been tailored for English for Speakers of Other Languages (ESOL) classes and includes a workbook for ESOL teachers and students.
- Project Equal Access educates the disabled community, senior citizens, and others about city, state, and federal laws providing for accessibility in housing and public accommodations. The project also offers advocacy and resolution (structural modifications, policy changes) in individual cases.
- Mortgage Foreclosure Counseling deters discrimination in housing, supports neighborhood stabilization, and detects predatory lending practices through counseling those in danger of defaulting on their mortgages. Groups that are vulnerable to discriminatory lending practices – notably immigrants, African-Americans, and older people – are targeted for education and counseling by Commission field offices. The Commission is a HUD-certified housing counseling agency.

These programs provide expansive community education and link community relations with the Commission's law enforcement functions. The Center's staff also addresses situations of community unrest by assisting groups with leadership development, mediation, and conflict resolution.

The Neighborhood Human Rights Program includes the following broad areas:

A. Community Education

- Presentations on the protections against discrimination in employment, housing, and public accommodations to raise awareness of legal rights, increase civic involvement, and help the people in these communities become better connected. As an outgrowth of its 50th Anniversary celebration, the Commission developed an annual Civil Rights Public Lecture Series that features prominent thinkers in the areas of civil rights and intergroup relations. The series marked its fourth year in April, 2009.
- School and youth-based programs, including workshops in school classes and peer mediation training for middle and high school students.
- Training for merchants, landlords, consumers, and community leaders on the Human Rights Law.
- Inter-group and community-based activities.

B. Fair Housing - Through the major project areas of equal access and services and fair lending, fair housing activities reduce discriminatory real estate practices.

- Educating the disabled community and senior citizens about their rights to accessible housing and public accommodations, and advocating, in specific cases, through pre-complaint intervention.
- Informing homeowners and prospective buyers about predatory and discriminatory lending practices and providing foreclosure-prevention counseling for homeowners in danger of losing their homes. As a certified Housing Counseling Agency, this includes providing housing and mortgage foreclosure counseling for clients referred by lenders and HUD.

- Educating housing providers (i.e., real estate agents and landlords) and consumers (i.e., tenants at Housing Court and prospective renters or homeowners) on the fair housing laws.
- Cooperating with the Commission’s Law Enforcement Bureau in housing investigations to determine the extent of discriminatory real estate practices, including testing of illegal rental and sales practices.

C. Public Outreach - Public outreach is the public face of the Commission and is a part of all programmatic efforts. Outreach efforts consist of locating appropriate audience venues, forming partnerships with relevant community organizations, distributing informational materials summarizing the protections under the Human Rights Law, and publicizing the services of the Commission and its Community Service Centers. The materials include newsletters, infocards, annual reports, resource guides, booklets, brochures, and other multilingual materials. Most of these materials are made available on the Commission’s website.

D. Bias Prevention and Response - The Neighborhood Human Rights Program addresses inter-group tensions through mediation and conflict resolution, community-based activities that bring people together, and community leadership development. Anti-bias activities are emphasized in neighborhoods with diverse or shifting populations and new immigrants who face isolation and bias. Staff members conduct community mediation and conflict resolution and provide organizing assistance to block, community, business, religious, and neighborhood/tenant associations and groups.

E. Planning - Planning and research activities support the various project areas in the Neighborhood Human Rights Program through:

- Neighborhood- and/or group-specific projects, such as surveys of each borough to locate housing stock or businesses inaccessible to wheelchair users;
- Collaborative research projects, such as a study of the relationship between incarceration, race, and employment discrimination with Princeton University and a study of the expanded role of Human Rights Commissions with Harvard University;
- Publication of research findings, including making current and archival reports available on DVD;
- Public hearings; and
- Grant writing.

The Community Relations Bureau is based at the Commission’s central office at 40 Rector Street, Manhattan. Community Service Centers are located at the following addresses:

<u>Office</u>	<u>Location</u>
Bronx	1932 Arthur Avenue
Brooklyn	275 Livingston Street
Manhattan	40 Rector Street
Queens	153-01 Jamaica Avenue
Staten Island	60 Bay Street

Community Arts Development Program (CADP)

Cultural organizations play a vital role in creating and maintaining healthy, vibrant communities. This is particularly true when revitalizing low-income, underserved neighborhoods. As communities go through significant physical changes, cultural organizations often take on renovations as well. When managed well, the physical changes can introduce a positive impact on the institution and its community. However, some groups are not ready to meet the operational and financial demands of project planning and implementation, or, perhaps more importantly, the challenges of organizational sustainability.

As a result, DCA has created an initiative, *Building Sustainability*, to increase the effectiveness of cultural organizations undergoing a capital project and to prepare them for the challenges ahead. The initiative takes the position that investment in leadership and planning capacities, timed early in the capital process, can have positive

long-term results. Once these core capacities are in place, groups are better equipped to address programmatic, management, and financial issues, as well as function as a stable and vital presence in their communities.

It is anticipated that 8-12 groups will receive grants for an intensive capacity-building project that involves working with a management consultant over a 6-12 month period. Selected groups may choose to focus on board development, strategic planning, or business planning depending on the organization's priority needs. Working individually with each grantee CADP staff will develop a customized scope of services and then bid out each project to qualified arts management consultants. New projects should begin mid-summer. Additionally, participants convene for complementary workshops and peer exchanges throughout the 18-month initiative to share experiences and knowledge as well as explore group identified issues pertaining to their capacity building experiences.

In order to be eligible for assistance, an organization must serve a primarily low- and moderate-income community and have

- a mission and programs that substantially focus on the arts and cultural activities;
- an allocation in the City's five-year capital budget; and
- an operating budget of \$1 million or less in one of the last two completed fiscal years.

By helping organizations improve their own capabilities, the City can affect the productivity of more than its own resources. The value created extends beyond the impact of the technical assistance provided and raises the overall effectiveness of the organization, including the impact it has on its community. Groups emerge better prepared to meet the challenges of sustaining their organizations in the newly renovated facility.

For further information regarding *Building Sustainability*, please contact Perian Carson at pcarson@culture.nyc.gov.

Please note that no new small capital improvement grants will be distributed through this program. However, DCA staff will continue to monitor projects from prior years' grants that are currently underway or in the planning phase. CD funds two staff members at DCA (under Administration) that will oversee both components of the program.

DCP Comprehensive Planning

CD funds pay for staff that performs citywide comprehensive planning functions within the following divisions:

Strategic Planning

Strategic Planning oversees the Department's functional planning activities and coordinates land use planning policy based on identified planning issues and strategies. Economic, housing, infrastructure, and community facility planning staff help formulate long-term development and policy objectives for the City. Activities also include preparation of key strategic planning documents, directing major citywide studies, and working closely with the City Planning Commission on planning and development issues.

Borough Offices

The Department's five borough offices develop zoning and land use policy on local issues and prepare comprehensive neighborhood plans. Borough offices maintain links to the City's varied communities by providing outreach and technical assistance to the borough's community boards, civic organizations, and elected officials regarding zoning and land use. Borough Offices participate in the review of public and private development actions to ensure conformance with local area needs and plans.

Housing, Economic, and Infrastructure Planning (HEIP)

HEIP develops citywide plans and policies addressing housing, economic, and infrastructure issues. It conducts comprehensive economic, employment, and housing analyses and studies. The division reviews and analyzes land use proposals, assists in initiating zoning text and map amendments, and coordinates preparation of the Consolidated Plan and Annual Report on Social Indicators. The Population Section within HEIP conducts demographic studies and advises on demographic, immigration, and census policy issues. It distributes census data, analyses, and maps on the Department's website and is the City's liaison to the U.S. Census Bureau.

Planning Coordination

The Planning Coordination Division is responsible for monitoring and coordinating implementation of the Department's planning initiatives, managing review of community-based plans, providing analysis and technical assistance for community facility planning, preparing charter-mandated reports including the Citywide Statement of Needs, and providing support for the Department's strategic plans.

Waterfront and Open Space

The Waterfront and Open Space Unit prepares comprehensive and local area plans, advises on citywide waterfront and open space policy issues, and reviews proposed actions on the City's waterfront for consistency with the Waterfront Revitalization Program.

Zoning and Urban Design (ZUD)

Zoning is responsible for maintaining the Zoning Resolution, the laws governing land use in New York City. The Division conducts planning studies to modify and update the Resolution so that it better addresses the needs of the City. The planning studies range in scope from those focused on a specific site to facilitate its development to those that deal comprehensively with large sectors of the development and business communities or with areas of the City where special purposes are identified. These studies result in major modifications to the Zoning Resolution. On a daily basis, the Division provides general zoning information to the public and other City agencies.

DCP Information Technology

CD funds pay for support staff, contractual and professional services, supplies, materials, equipment, and software and hardware maintenance (including subscription services), within the following sections of the Department of City Planning's (DCP) Information Technology Division (ITD).

A. ITD/Geographic Systems Section (GSS)

GSS is responsible for developing and maintaining specialized geographic data processing capabilities that support the planning activities of DCP and other City agencies, including federally-funded programs such as CD. Major products include:

- The Geosupport System: Developed and maintained by GSS as a citywide service, Geosupport is currently used by more than 30 agencies to support their planning and operational activities. Geosupport processes New York City geographic locations, such as addresses and street intersections, standardizes and validates locations, and relates these to various political and administrative districts such as community districts, census tracts, and school districts. The system provides CD-eligibility for any location in the City (whether it is within a census tract that is more than 51% low- and moderate-income).
- Linear Integrated Ordered Network (LION): Digital street maps and administrative and political district boundary files are maintained by GSS. Many of the Geosupport System's functions are based on the data in LION. LION is widely used for computer mapping of community facilities, demographic data, and other data supporting planning analysis.
- Property Address Directory (PAD): PAD contains geographic information about New York City's approximately one million tax lots (parcels of real property) and the buildings on these lots. PAD serves as one of the foreground component files in City Planning's Geosupport System, and it is formatted specifically for use with the Geosupport software. New releases of PAD are usually created four times a year, reflecting tax geography changes, new buildings, and other property-related changes.
- Community Oriented Geopositional Illustration Structure (COGIS): Digital map files of the City's property parcels (tax block and lot outlines) are maintained by GSS. COGIS is used widely for computer mapping of property-related data, including land use, public ownership, and public facilities, supporting a wide variety of community planning activities.
- Computer Mapping: Computer maps are generated for planning and presentation purposes and are produced on request internally, as well as for other City agencies. Both LION and COGIS digital map files are used as base maps for computer mapping. GSS sells licensing agreements for use of its mapping products. The

B. ITD/Database and Application Development (DAD) Section

DAD collects, processes, and provides land use, housing, economic, and demographic data that are used for developing neighborhood and community development plans, major citywide studies, and tax revenues and economic studies. The data are provided in different formats, including report tables, listings, and data files. Specifically, data files and reports are produced for the Consolidated Plan Annual Performance Report, the Statement of Needs' Gazetteer and Maps, the Community District Needs Statement, and the Agency's Neighborhood Rezoning and Planning Studies. DAD is also responsible for developing and maintaining on-line database systems that provide easy access to data. These database systems include:

- Land Use and CEQR Application Tracking System (LUCATS): provides browser-based access to mission critical data entered into DCP's mainframe legacy system, LUMIS. It tracks applications for land use changes through New York City's Charter mandated review processes, including the Uniform Land Use Review Process (ULURP) and the City Environmental Quality Review (CEQR). Links are available to relevant data on other web sites.
- Primary Land Use Tax Lot Output (PLUTO): contains extensive land use, zoning, and geographic data that are used with micro-computer database and mapping software.
- Land Use Management Information System (LUMIS): tracks applications for private and public development that require discretionary approvals through the City's Uniform Land Use Review Process.
- MISLAND: database used to obtain population information on the City's neighborhoods.

DAD is assisting DCP's Population Section in the Local Update of Census Addresses (LUCA) for the 2010 Census. Work was recently completed on the first phase of the LUCA process, the review of the Census Master Address File (MAF), which included providing the Census Bureau with corrections, additions, and potential deletions to the MAF. During CFY 2009, DAD developed and implemented the Land Use and CEQR Application Tracking System (LUCATS), which makes LUMIS data available to DCP staff on a local server and through an intranet application. During the coming year, DAD will begin the design and development of LUCATS as a Web application available to the public.

DAD also designed and implemented the Land Use Application Status Reports on DCP's website. The reports display the status and identifying information, such as project name, location, and description, for land use applications received by DCP. The reports are updated biweekly, usually during the first and third weeks of the month.

DAD assists other divisions within DCP involved with citywide comprehensive planning functions by developing and/or maintaining various PC databases. DAD developed and maintains the Waterfront Database, which tracks proposed actions on the City's waterfront for consistency with the Waterfront Revitalization Program. DAD also developed and maintains the Geosupport Systems User Database, which tracks both Geosupport Users and User feedback.

DAD generates CD Program Revenue by licensing the PLUTO data and application for use with micro-computer software, and by licensing the PLUTO data merged with COGIS data in different mapping software formats.

DAD is currently completing the design and development of a Zoning Database. This database will provide the planners with up-to-date accurate zoning information on a tax lot basis. Eventually a Web application will be developed to give the public easy access to reliable zoning information. Work will also begin on developing a Web application to provide the public with easy access to current and historical reliable information on the status of land

use applications through the Uniform Land Use Review Process (ULURP) and City Environmental Quality Review (CEQR).

C. ITD/Web Team

The City Planning Web Team is responsible for designing, building, and maintaining DCP’s website. It coordinates with the Department of Information Technology and Telecommunications (DOITT) to assure adherence with citywide standards and requirements for the website. The Web Team works with professional staff throughout the agency to assure timeliness and accuracy of the content presented. The Web Team maintains content in six major sections.

- About Us: the agency’s strategic plan, contact information, press releases, and employment opportunities.
- Zoning: the full text of the Zoning Resolution, up-to-date zoning maps including sketch maps of proposed and recently adopted rezonings, and general information on zoning concepts, including a reference section with an overview of regulations for zoning districts.
- Land Use Process: calendars and disposition sheets for the City Planning Commission (CPC) public meetings and review sessions; status reports and CPC reports on land use applications; forms and information on the land use review process; information on community-based planning and the Waterfront Revitalization Program; environmental impact statements; and other environmental review documents.
- Projects & Proposals: detailed explanations with text, maps, diagrams, and photographs of City Planning rezoning initiatives and other studies and projects.
- Reference: profiles of community districts; neighborhood maps; population data from the U.S. Census Bureau and other sources; land use facts; housing, socioeconomic, and transportation planning resources.
- Products: publication excerpts and order forms for reports and other products available in the City Planning Map and Bookstore; digital files of data and geographic base maps for free download and for licensing; subscription information.

In addition, the Web Team is responsible for the design and development of web applications. These include the Census Fact Finder, the Address Translator, GOAT on the Web (an intranet application), and the CPC Report application.

DFTA Senior Center Improvements

CD funds are used for the renovation of the physical plant and the rectification of code violations in senior centers. Activities may include plumbing upgrades, installation of lighting and emergency lighting systems, security systems, air conditioning/heating/ventilation systems, kitchen fire extinguishing systems, hot water heaters, and fire doors; installing ramps; window upgrade/replacement, ceiling and roof rehabilitation, kitchen upgrade, bathroom renovation, rewiring, floor replacement, handicapped access, and security and elevator improvements. Approximately 20 percent of the total allocation will be used for consultant services. Work may take place at the following senior centers in 2010.

DHS Homeless Services (formerly called DHS Homeless Families Services)

The Department of Homeless Services (DHS) will use CD funds to provide shelter and services to homeless individuals and families in its shelter system.

Through the Family Services component, families in need of assistance receive apartment style units, most of which contain private baths and kitchens. For those apartments that do not have kitchens, DHS provides food service. Services provided to families range from money management, consumer awareness, food management, housekeeping, housing search, transportation, educational planning, job skills, and child care, among others. In their time of crisis, families are placed in a stable environment and given services that are designed to move them toward independence.

Most of the families in the system have active public assistance cases under the Temporary Assistance for Needy Families program. However, DHS does not receive any reimbursement from the federal government or New York State for the families that do not have active cases. DHS will use CD funds for families without active PA cases who will be in the citywide shelter system.

The Department of Homeless Services' Adult Services provides a continuum of programs, which aim to return clients to permanent housing, for single homeless adults. Adult Services operates temporary, emergency shelter and related social services. Four shelters are directly operated by DHS Adult Services staff, with the remaining operated by contracted nonprofit providers.

All of the Adult Services programs offer numerous services that meet the needs of individuals who are homeless and help them to achieve permanency as rapidly as possible. Such services include medical, mental health, substance abuse treatment, job training, employment, entitlement/benefits enrollment assistance, and housing placement.

Day Care Center Services

The Administration for Children's Services' (ACS) Division of Child Care and Head Start provides oversight to one of the largest municipal child care systems in the country. Approximately 105,000 children are provided child care services in different types of service settings. The most recent data for group center-based programs operated under contract with the City estimates 23,181 enrollees. CD funds will pay for approximately 393 day care slots in CFY 2010.

All subsidized programs affiliated with ACS' Division of Child Care are designed to ensure that quality services are provided to children. Individualized and group educational instruction, group play, trips, and special projects are a few of the activities offered. A parent advisory committee is an integral part of the program. Community participation is encouraged by the program staff and parents. The goal is to provide a safe learning environment for the delivery of group and family day care services that are designed to address the developmental, social, educational, and nutritional needs of children from ages 2 months to 12 years old.

The following sites will be funded with a combination of CD and non-CD funds:

<u>Site</u>	<u>Location</u>
New Life Child Development	295 Woodbine Street, Brooklyn
As the Twig is Bent	355 East 183 rd Street, Bronx
Rena Day Care Center	639 Edgecombe Avenue, Manhattan
Malcolm X Day Care Center	111-12 Northern Boulevard, Queens

Elderly Minor Home Repair Program

In recent years, abandonment of privately-owned homes by senior citizens has become a serious concern. Such abandonment has a negative impact on individual citizens, neighborhoods, and the cost of local government services. The causes of senior citizen housing abandonment include the homeowner's lack of money to pay for needed repairs and maintenance, their physical inability to handle the maintenance needs of their property, and the lack of information on available resources and services for home maintenance. As the demographic profile of New York continues to age, and as senior homeowners themselves experience declining health, this social problem will require increasing attention and action. As homes fall into ill-repair, often leading to abandonment, there are substantial public costs as the City deals with increasingly deteriorated neighborhoods and increased social service costs for displaced individuals. A cost effective approach is to provide senior citizens with the means to maintain their homes, thereby preserving neighborhoods.

This program, administered by the New York Foundation for Senior Citizens, attempts to address many of the conditions that lead to home abandonment. Some of the services that are included are minor home repairs and outreach and coordination with other agencies handling senior citizen problems. The program is available on a citywide basis to persons 60 or older who are at or below the Section 8 income limits.

Household income is defined as: benefits of Social Security, Supplemental Security Income (SSI), pension, employment, rental income, declared interest/dividend income, and contributions from family on a regular basis. Clients must submit photocopies of income and homeownership records (tax bill, mortgage bill, or copy of deed). Condo and co-op clients must have their board's permission for work to be done.

The Elderly Minor Home Repair Program is publicized with the assistance of the Department for the Aging, senior citizens centers, elected officials, and through the use of local newspapers. In addition, flyers are posted in libraries, post offices, and barbershops/beauty salons. Presentations are also given at senior centers, clubs, retiree groups, etc.

Elderly Safe-At-Home Program

The Elderly Safe-At-Home Program provides services to residents in a cluster of New York City Housing Authority housing developments in the South Bronx with concentrations of elderly residents. The program uses trained paraprofessionals to assist the elderly in a variety of ways. A Supervisor I (SW) provides on-going supervision for the program.

The staff provides crime prevention education; crisis intervention; assistance with benefits and entitlements; referral for transportation services; meals-on-wheels and homecare; and escort to medical facilities, banks, and light emergency shopping. Resident volunteers augment staff support by monitoring the seniors' well being and engaging and assisting other residents in getting involved in community and program-related activities, thus enhancing their safety and viability.

The program sites are as follows:

- McKinley Houses - 731 East 161st Street (Provides services to residents of the McKinley and Forest Houses)
- Butler Houses - 1408 Webster Avenue (Provides services to residents of the Morris, Butler, and Webster/Morrisania Houses)
- Jackson Houses - 799 Courtlandt Avenue (Provides services to the Jackson and Courtlandt Houses)

Emergency Demolition Program

The Demolition Unit within HPD's Division of Maintenance has the authority to perform emergency demolitions when an owner fails to do so pursuant to a Department of Buildings (DOB) declaration of emergency, as established by the New York City Administrative Code. The Code requires the treatment of any structure that may become "dangerous or unsafe, structurally or as a fire hazard, or dangerous or detrimental to human life, health, or morals." Pursuant to DOB guidelines, this would include deteriorated residential and commercial structures determined to be unsafe and/or debilitated in any area, including urban renewal areas. The Demolition Unit is responsible for surveying the site, providing a scope of work, and overseeing and approving all demolition, cleaning, and grading of land. CD funds are expended for all full and partial demolition of privately-owned residential and commercial properties, and some City-owned properties.

DOB issues Unsafe Building violations for buildings or properties that are dangerous or unsafe throughout the City. If the owner does not correct the unsafe condition, DOB may initiate an Unsafe Building proceeding in Supreme Court. The court may issue a precept, which is an order to correct the condition. Often the precept provides an owner with options regarding how to ensure the safety of the structure. These options include sealing the property, making repairs such that the condition of concern is addressed, or demolishing the structure. When DOB refers the precepts to HPD, HPD engages a contractor to take the appropriate action to correct the condition. Correcting the condition may include demolition (which would be CD-funded), shoring/bracing (which would be funded by Tax Levy dollars), or sealing for commercial properties (which would be funded by Tax Levy dollars).

Emergency Repair Program

HPD's Division of Maintenance's (DOM) Emergency Repair Bureau (ERB) is comprised of the Emergency Repair Program (ERP) and the Demolition Unit.

In response to referrals from the Emergency Services Bureau (ESB), ERP works to correct immediately hazardous emergency conditions for which the Division of Code Enforcement has cited an emergency repair generating "C" violations in a privately-owned residential building, including lead-based paint hazard violations. In addition, this unit monitors repairs in City-owned properties.

Intake Unit staff are responsible for receiving emergency repair referrals from ESB. Field inspectors are sent to buildings to prepare work scopes for repairs. All lead-based paint violations not certified by the owner as corrected are re-inspected within 10 days. The unit may perform XRF testing to verify the existence of lead paint hazard violations that have not already been tested. The field inspectors determine whether the necessary repair work should be assigned to a vendor or to in-house maintenance mechanics. Lead clearance dust wipes are conducted as warranted. Vendor Tracking Unit staff are responsible for monitoring the progress of jobs awarded to outside vendors. Staff maintains contact with the vendors on all open jobs to ensure that they start and complete their work according to dates established by the Procurement Unit. By law, HPD must remediate lead-based paint conditions not addressed by the owner within 45 days of a re-inspection of the condition. Vendor tracking staff also arranges for technical staff to inspect contractors' work while in progress and upon completion. In addition, the vendor tracking staff attempts to resolve access issues, tracks service charge requests, and obtains vendor affidavits for both refused access and no access situations.

Repair crews perform the more common repairs such as installing window guards and plastering. Lead abatement workers perform all tasks of lead hazard reduction/abatement including room preparation, moving furniture, covering surrounding areas with plastic, removing paint, washing down walls, using HEPA vacuums on various surfaces, and removing window sashes and moldings when necessary.

ERP is also responsible for processing referrals received from the DOHMH Lead Poisoning Prevention Program (LPPP), scoping and then contracting out for lead-based paint abatement and dust clearance testing.

ERP conducts asbestos surveys, laboratory analysis of bulk material, and asbestos air sampling for City- and privately-owned buildings. Responsibilities include developing specifications and cost estimates for asbestos and lead abatement activities, and monitoring contractor performance and compliance.

DOM also uses CD funds to seal vacant, open, and accessible privately-owned residential buildings that threaten the safety of the public. Accessible openings at these buildings are sealed with stucco, plywood, and/or concrete blocks to prevent illegal entry and occupancy, eliminate associated potential fire hazards, and preserve the physical structure of buildings in low- and moderate-income areas. HPD uses City Tax Levy funds for buildings that are not in CD-eligible areas. Sealing these buildings protects against further deterioration and abandonment of neighborhoods. Boarding up vacant buildings using CD funds is a component of the City's code enforcement effort along with other activities such as public improvement, rehabilitation, and services that are expected to prevent the decline of an area. Sealing activities in *in rem* buildings are eligible for CD funding as part of maintenance initiatives under the In Rem Maintenance and Repair Program.

ERB's Utilities and Fuel Unit responds to violations issued for a lack of electricity, gas, or fuel. The unit works with the utility companies to ensure that basic services are restored to buildings where the owner has failed to provide them. This unit is also responsible for arranging delivery of fuel oil in privately-owned buildings in order to provide heat and hot water to buildings for which Code Inspectors have written violations indicating a lack of fuel. The Fuel Unit works closely with the fuel vendors to ensure completion of any additional repair required for restoration of heat and hot water.

Bureau of Maintenance Procurement

The Bureau of Maintenance Procurement has several tasks, including awarding open market orders to vendors, approving and monitoring a vendor panel, and registering requirement contracts between the City and private vendors with the Comptroller's office.

Research and Reconciliation

Owners are entitled to question repairs made through DOM. The Research and Reconciliation Unit provides an independent review to ensure that all requirements and procedures were followed appropriately. The office examines ESB and DOM's records to substantiate the charges/liens imposed against privately-owned buildings where DOM has abated an emergency condition.

Empowerment Zone Administration

The New York Empowerment Zone (NYEZ/Zone), created to revitalize Upper Manhattan and the South Bronx, is an economic development initiative that uses public funds and tax incentives to encourage private investments in these areas. The NYEZ is the only corporate entity of its kind in the nation with a public investment pool of \$300 million equally allocated from the city, state, and federal governments. The NYEZ's goal is to provide its residents with the necessary tools to revitalize their community and build new inroads to economic self-sufficiency.

CD funds will help pay for the Mayor's Office of the New York Empowerment Zone, which manages the City's interest in the Empowerment Zone under the authority of the Deputy Mayor for Economic Development. Its mission is to work with the two Local Development Corporations (LDCs), the Upper Manhattan Empowerment Zone Development Corporation (UMEZ) and the Bronx Overall Economic Development Corporation (BOEDC), to coordinate and approve investments.

The NYEZ will:

- Serve as staff to the Deputy Mayor for Economic Development on all Zone matters related both to the City and the Deputy Mayor's role as Chair of the New York Empowerment Zone Corporation.
- Interface with UMEZ and BOEDC.
- Vet all projects and proposals to be implemented with Empowerment Zone funds.
- Assist the LDCs with Vendex and procurement services.
- Assist and facilitate the LDCs' interaction with State and City government agencies.
- Assist the LDCs in obtaining technical information for preparation of benchmark documentation.
- Assist the Office of Management and Budget in developing the City's annual appropriation to the New York Empowerment Zone Corporation.

CFY 2010 Goals:

- Assist the LDCs in leveraging Empowerment Zone resources for investment in projects that meet both the strategic goals of the LDCs and the City's goals for economic development in the Empowerment Zone.
- Evaluate administrative budgets and levels of support for LDC staff and overhead.
- Evaluate compliance of approved initiatives with contracted benchmarks.
- Evaluate and assess job creation in the Empowerment Zone.
- Assist the LDCs in workforce development and job creation.

The NYEZ has targeted the stabilization and growth of cultural institutions in Harlem and the Bronx as part of an overall strategy to revitalize these areas as unique cultural and shopping destinations. To support business expansion and job creation for local residents, UMEZ and BOEDC have also focused on implementing development strategies in several industries including ethnic and specialty food manufacturing, recycling, business services, retail, entertainment, and tourism.

Upper Manhattan Empowerment Zone Development Corporation (UMEZ)

UMEZ continues to be instrumental in supporting the economic and cultural revitalization of 125th Street and Upper Manhattan. UMEZ investments are facilitating the creation of distinct retail and cultural destinations to provide local residents with jobs and a greater diversity of quality goods and services. EZ funds are also directed to provide entrepreneurs with greater access to capital. UMEZ focuses on:

- Making catalytic investments in large-scale commercial real estate projects by providing bond financing and loans to large-scale projects that generate a significant number of jobs for Upper Manhattan residents and bring much-needed goods and services to Upper Manhattan.

- Assisting entrepreneurs by providing access to low-interest loans for small businesses that are expanding but not traditionally bankable, yet have strong cash flows and demonstrated ability to pay debt service.
- Investing in the cultural industry and promoting tourism by providing technical assistance grants for organizational capacity-building and capital grants for expansion projects in support of emerging and mature arts and cultural organizations.

UMEZ is a key institutional partner in supporting the City's efforts to restore and enhance the historic importance of Harlem as the center of African-American culture and entertainment. For the last five years, the City worked with the community to develop a balanced rezoning framework for strengthening the 125th Street corridor as a regional business district and premier arts, entertainment, and cultural destination, while providing affordable housing for local residents. The rezoning is integrated with a strategy designed to encourage more retail and entertainment uses, and to support the creation and expansion of signature cultural and entertainment destinations. To help spur retail development in Harlem, UMEZ has offered no interest, forgivable loans to qualified small businesses through 2009 as an incentive for them to relocate or expand their businesses intersecting at 125th Street.

UMEZ has continued to support small businesses through the Business Resource and Investment Service Center (BRISC), which provides access to capital for small businesses, and targeted investments in organizations that provide training and assistance to small businesses and entrepreneurs in Upper Manhattan.

The NYEZ approved a \$1.5 million loan and \$510,352 grant for BRISC. Established first in 1996 and re-established in 2004, BRISC offers \$50,000 to \$250,000 accommodative loans and administers technical assistance resources to unbankable small businesses in the EZ. Since 2004, BRISC has approved 18 loans totaling \$3.13 million, with another six totaling \$1.1 million in the pipeline.

Bronx Overall Economic Development Corporation (BOEDC)

BOEDC maintains its commitment to supporting small business development and promoting environmentally sustainable industries, while also developing new initiatives to provide funding and technical assistance for nonprofit organizations.

In CFY 2010, BOEDC initiatives will include the following:

- Promoting sustainability by providing grants and low-interest loans to businesses to use energy-efficient equipment, solar panels, and other environmental enhancements that will also help reduce operating costs.
- Providing access to low-interest loans for small businesses that are expanding but not traditionally bankable, yet have strong cash flows and demonstrated ability to pay debt service.
- Catalyzing industrial growth in Hunts Point by providing low-interest loans to support capital projects by food-related businesses.

GreenThumb

Established in 1978, GreenThumb remains the nation's largest urban gardening program, assisting 600 neighborhood groups in the creation and maintenance of community gardens aimed at increasing civic participation and encouraging neighborhood revitalization. GreenThumb was initiated in response to the City's severe financial crisis during the 1970's, which resulted in a serious loss of population and housing in neighborhoods throughout the five boroughs. A tremendous amount of public and private land was left vacant, adding an unattractive and unsafe element to these devastated communities. GreenThumb's assistance helped neighborhood volunteers transform derelict land into active and attractive community resources.

Administered by the Department of Parks and Recreation, GreenThumb provides materials and technical support and manages the license applications for all community garden properties located on City land. Most of these properties are under the jurisdiction of the Department of Parks and Recreation, the Department of Housing Preservation and Development, and the Department of Education.

GreenThumb primarily serves communities through its technical support, general warehouse distribution, seasonal workshops, and distribution of specialty supplies. GreenThumb offers material assistance only to those groups gardening in Community Development-eligible census tracts. This year, GreenThumb continues to focus resources and staff on making capital improvements to permanent Parks garden sites. GreenThumb is replacing poor garden fences and broken sidewalks to the extent funds are available. The goal is to complete all major garden renovations by the end of 2010. This helps to ensure that community gardens remain safe spaces for the community and limits city lawsuit exposure.

GreenThumb annually sponsors its Spring GrowTogether conference with over 70 garden workshops that attract approximately 1,500 city gardeners. In the fall, GreenThumb hosts its annual September Harvest Fair where gardeners show off their summer bounty and compete for blue ribbons in 30 vegetable, flower, and herb categories. GreenThumb links the distribution of all materials to educational workshops that are developed in partnership with gardeners and other greening organizations. All workshops are designed to enhance gardeners' horticultural, construction, and community development expertise, thus increasing the sustainability of their gardens and communities. In CFY 2010, GreenThumb expects to offer approximately 50 educational workshops and events that will serve approximately 5,000 participants. As part of its educational programming, GreenThumb maintains an informational website, www.GreenThumbnyc.org.

The majority of GreenThumb garden communities are located in community districts that request and receive federal financial support for a combination of affordable housing, business development, and open space projects. As a result, active garden sites create a stable force in the community and serve as anchors for area re-development initiatives.

GreenThumb gardeners are interested in public safety, environmental quality, housing, and educational opportunities in their communities. The gardeners either live or work near the garden and many are schoolteachers, students, retirees, local business owners, artists, and/or active community residents. GreenThumb gardens are managed by community and block associations that are interested in improving their neighborhood through a complement of open space, affordable housing, and economic development opportunities.

After 30 years, GreenThumb is a success in responding to a crisis and making a positive contribution in the City's neighborhoods and in the lives of people that live and work there. Over 80% of GreenThumb's current inventory is comprised of permanent community garden resources in New York City. GreenThumb gardens have a track record of community involvement and accomplishment. Registered GreenThumb gardens offer consistent public programming aimed at improving the quality of life for residents of all ages.

HPD Administration

Staff in the following units performs administrative functions for several of HPD's CD-funded programs:

Administration and Support

Staff within Administration and Support oversees and coordinates all property management and maintenance operations. They are responsible for the oversight of contractual repairs and for ensuring the proper allocation of resources to the *in rem* program. Automated tracking systems are used to evaluate the progress of work. Staff also interacts with tenants and community groups.

Central Operations

This office monitors the performance of city and contractual staff in managing and maintaining City-owned properties. It monitors fuel, utility, and building service needs; maintains and organizes central files for building repair contracts; and prepares scopes of work, work orders, and related documents. Staff interacts with tenants, contractors, and community groups to resolve problems. The Central Operations Office also maintains records regarding rent payments and arrears and monitors spending under the expense and capital budgets.

HLD Administration

The support staff within HLD oversees and coordinates a number of administrative functions. These functions include data operations, management services, office management, bill processing, and supervision of all administrative units within the Division.

Invoice Review

Units within the Division of Accounts Payable are responsible for receiving, reviewing, and approving all contractor invoices submitted for payment related to the Office of Housing Operations' Repair Bureau, which includes repair work for both City- and privately-owned properties. In addition, the Division of Accounts Payable reviews invoices and processes vouchers for work done by the Neighborhood Preservation Consultants, utility and fuel payments for *in rem* properties, advertising, supplies, construction, and the Handyperson and Superintendent Contracts.

Fiscal ERP Accounting

Program income from the Emergency Repair Program is generated through the collection of owner payments for billed invoices issued by the Fiscal ERP Accounting Unit. When the bill is not satisfied, a lien is placed on the property. The tax lien is removed when the landlord makes full payment or at the time of property sale.

Bureau of Maintenance and Procurement

The Division of Maintenance's Bureau of Maintenance and Procurement, through a pre-qualified vendor list and requirements contract, bids out and awards repair work to private contracts for both privately-owned (under the Emergency Repair Program) and *in rem* buildings.

Timekeeping and Payroll

The Timekeeping Unit tracks and inputs timekeeping data for HPD employees, including review, verification, adjustments, and input of employee time. The unit also tracks and monitors leave balances and issues, processes resignations and terminations, and responds to employee inquiries. The Payroll Unit processes payroll changes for employees, including direct deposit changes, refunds or changes of union deductions, processing of assignment differentials and jury duty payments, research and resolution of discrepancy inquiries, processing of monetary settlements for grievances, and processing of requests for changes in federal, state, and city withholdings. The CD-funded Timekeeping Unit and Payroll Unit staff is assigned to work units comprised of employees who perform only CD program functions, such as the Division of Property Management, Division of Maintenance, and Neighborhood Preservation Offices.

Home Program Project Support

CD funds support positions for CD-eligible activities funded under the City's HOME Investment Partnership Program (HOME). HOME funds may be used to develop and support rental housing and homeownership affordability through tenant-based rental assistance (which is not eligible as CD project support), rehabilitation, conversion, and acquisition of real property and new construction.

Preservation Planning & Analysis Unit

The Preservation Planning & Analysis Unit (PPA) within the larger Office of Preservation Services is responsible for analysis and preservation planning for all operations and initiatives within the Office of Preservation Services. Using performance based indicators, the unit performs various strategic management assessment analyses and forecasting, which are utilized to alter and re-design program planning in order to achieve the agency's preservation and enforcement mission.

HPD Emergency Shelters

The Department of Housing Preservation and Development's (HPD) Division of Property Management (DPM) operates the Emergency Housing Response Team (EHRT) and Client and Housing Services (CHS), which provide temporary emergency shelter and housing relocation services to residential tenants displaced as a result of fires or vacate orders issued by the Department of Buildings, Fire Department, Department of Health, or HPD.

Emergency Response

DPM contracts and coordinates with the American Red Cross (ARC) on emergency response and sheltering services for displaced households. ARC, as a first responder, assesses human services needs, including re-housing and sheltering needs. ARC provides initial shelter services through their contracted hotels for the first two to three days of displacement. During this time, ARC attempts to relocate households back to their units of origin or with friends and relatives. Households that are not relocated by ARC would be referred to HPD or the Department of Homeless Services as appropriate. ARC hotel costs for households who are eligible for HPD services are reimbursable through the HPD contract.

Shelter Placement

EHRT's Central Intake assesses ARC-referred households for eligibility and assigns shelter placements based on unit and household size, matching school affiliation, other community support systems, and other special needs as appropriate. Households with children are placed in one of three Family Living Centers located in three boroughs (one in Manhattan, one in Brooklyn, and one in the Bronx). Households with no children are placed in privately-owned hotels in four boroughs (Manhattan, Bronx, Brooklyn, and Queens) that have entered into a verbal agreement with HPD for sheltering services.

Case Management and Housing Relocation Services

Storage Services

EHRT Responders coordinate with clients and their case managers to provide storage services through a contracted vendor for clients who have furniture and other items that are not needed during their stay in shelter. Clients must arrange to remove their stored items upon shelter exit.

Family Living Centers (FLC)

Each FLC is staffed by social service contractors and HPD Relocation Managers. Contractors provide case management services to ensure a household's housing and relocation readiness. Services include benefits advocacy, employment and/or vocational assistance and support, counseling and referrals for other needed services, documentation gathering, and family support activities.

Hotels

Households residing in participating hotels are serviced by CHS Case Managers who provide case management services to ensure a household's housing and relocation readiness and to assist in identifying and securing alternative permanent housing. Services include housing search and placement, applying for subsidized housing programs and rent subsidies, benefits advocacy, employment and/or vocational assistance and support, counseling and referrals for other needed services, documentation gathering, and family support activities.

DPM also contracts with the Center for Urban Community Services (CUCS), which primarily works with households who have resided in hotels for more than two years. CUCS provides full case management services as described above. With expertise in mental health and substance abuse issues, CUCS has begun to provide early intervention services for newly displaced households with members who display significant health issues that may otherwise prolong their length of stay in hotels.

Homeless Rental Unit

The Homeless Rental Unit (HRU) under CHS coordinates rental processes for apartment units that have been set aside for homeless households. These units are a combination of renovated apartments and newly-constructed apartments in housing projects that have been subsidized by HPD and/or Housing Development Corporation financing.

Displaced households who are income-eligible may apply for these units. HRU coordinates with CHS and FLC's on housing and HRU application submissions, screening appointments, and lease signing appointments.

HPD Fair Housing Services Program

HPD'S Fair Housing Unit provides housing counseling, educational, and mediation services through CD-funded consultant contracts with community-based organizations covering the five boroughs at the following locations:

<u>Group</u>	<u>Borough</u>	<u>Location</u>
South Bronx Action Group	Bronx	384 East 149 th Street
Brooklyn Housing & Family Services	Brooklyn / Staten Island	416 Albermarle Road
Chinese-American Planning Council	Manhattan	165 Eldridge Street
New York Urban League	Manhattan	204 West 136 th Street
New York Urban League	Queens	89-25 Parsons Boulevard

HPD's Fair Housing Service Consultants provide counseling to individuals and families of low- and moderate-income. The Consultants assist with housing-related issues such as landlord/tenant rights and responsibilities and housing locator services, including accessible housing for people with disabilities. The Consultants also help clients in determining eligibility for tenancy and/or social service programs. Program clients with jurisdictional discrimination complaints are referred to the New York City Commission on Human Rights for enforcement.

HPD and the Consultants provide dispute resolution services in Brooklyn and Manhattan Housing Courts. This program is designed to facilitate the resolution of landlord-tenant disputes through the use of trained mediators. The goals of the program are to solve routine housing problems and thereby prevent unnecessary displacement of tenants and to assist pro-se litigants, who are unfamiliar with court procedures. The mediation services provided are informal forums for cases that appear not to require direct judicial supervision and/or are likely to be quickly resolved.

Public awareness of Fair Housing Laws is central to promoting fair housing practices and enforcement. HPD and the Consultants plan and implement an annual Citywide Fair Housing Education campaign. This campaign consists of various elements: informational flyers and brochures, the placement of press releases and ads in local papers to advertise consultant services, radio and television broadcasts, and a grassroots effort to interact with the public through workshops and conferences.

CD funds also pay for HPD staff responsible for the management and oversight of the Fair Housing Service Providers. Responsibilities include counselor training, management of Housing Court schedules, contract compliance, providing information on City-assisted housing opportunities, requisition review/approval, and monthly productivity reports.

HPD Housing Policy Analysis And Statistical Research

The Division of Housing Policy Analysis and Statistical Research (DHPASR) plans and conducts data-intensive research and analysis of housing issues requiring advanced concepts and methods and/or large-scale data processing. DHPASR plans, designs, and implements the projects necessary to conduct the legally mandated New York City Housing and Vacancy Survey (HVS) and provides reliable data needed for sound planning, policy analysis and research, and program development. The Division prepares and submits to the City Council the Initial Report on the HVS, presenting and analyzing data on the rental vacancy rate, housing inventory, housing conditions, and other housing market situations required for the Council's determination of whether a housing emergency exists, as the condition necessary for continuing rent control and rent stabilization in the City. The DHPASR prepares the main HVS Report, a comprehensive housing market analysis, presenting and analyzing in-depth data from the HVS on the City's population, households, housing stock, vacancies, housing conditions, and other characteristics, such as household incomes, rents, and neighborhood conditions. The Division provides customized HVS data to other Divisions of HPD and other City agencies (Mayor's Offices, Department of Homeless Services, Corporation Counsel, etc.) to support planning, program development, defense of the Housing Maintenance Code, legal and legislative analysis, and public information; and to respond to federal grant applications and reporting requirements.

The DHPASR provides justification of the need and substantiates eligibility for use of CD funds for agency programs. CD funds pay for the staff that conducts these activities.

HPD Neighborhood Preservation Offices

The Division of Neighborhood Preservation's (DNP) Neighborhood Preservation Offices, located in the Bronx, Brooklyn East, Brooklyn West (which also covers Staten Island), Manhattan, and Queens, identify residential buildings at risk of abandonment at an early stage in the process and then develop a range of interventions designed to improve building conditions and prevent owner abandonment. Buildings are selected for assessment mainly in Community Districts judged to be in particular distress. Additionally, buildings are referred through several citywide initiatives such as Targeted Cyclical Enforcement Policy (T-CEP), Major Owners, Alternative Enforcement Program (AEP), and Third Party Transfer (TPT). The Neighborhood Preservation Offices also monitor distressed properties.

TPT buildings are selected through Local Law 37. This Local Law allows the City to convey distressed tax delinquent residential properties to a qualified third party after the court renders an *in-rem* judgment due to the failure of the owner to pay outstanding tax arrears and other municipal charges within the timeframes specified by the law.

DNP's Neighborhood Preservation Offices also work with community-based nonprofit organizations through the Neighborhood Preservation Consultants Program (NPC). These NPCs are under contract with HPD to identify buildings in distress and then provide early intervention assistance, preservation, and anti-abandonment services throughout the five boroughs.

HPD Program Planning

The Division of Planning (DOP) is responsible for facilitating housing development and comprehensive neighborhood revitalization through community-based planning. DOP builds the pipeline for affordable housing by selecting City-owned sites for development, identifying available privately-owned sites, arranging for acquisition funding when necessary, and collaborating with other agencies that have land and buildings suitable for housing development. DOP secures the approval of housing proposals through the City's land use review process, working closely with local Community Boards and the Department of City Planning.

In addition, DOP is responsible for reviewing all HPD projects that require environmental review pursuant to city, state, and federal laws and regulations. DOP assures that HPD projects comply with requirements for the remediation of hazardous materials, noise attenuation, and other environmental conditions.

DOP consists of four borough offices and an environmental review unit. The borough offices coordinate development efforts in Manhattan, Brooklyn, Bronx, and Queens/Staten Island.

Business Planning Unit

The Business Planning Unit (BPU), in HPD's Division of Technology and Strategic Development, is responsible for identifying a specific set of actions (including the establishment and refinement of computerized information systems) to assist the Office of Development, including the Division of Planning, to better implement the Mayor's New Housing Marketplace Plan. In the course of this work, the BPU collects a range of data and studies the various processing systems of HPD programs to determine their effectiveness and how they can be amended to better serve the City's housing needs.

BPU participates in the analysis and design of workflow, processing needs, and business operations of the programs within the Office of Development. It participates in the assessment of the current systems of business operations (manual and computerized) and develops appropriate new computer systems based on housing finance methods, municipal ordinances, codes, and regulations pertaining to planning, zoning, community, and economic development programs. A new comprehensive technology solution is being built for the Office of Development that will revamp its business processes and automate many of the more routine labor intensive processes. Once all of the

programmatic data from this effort is included in HPD's existing centralized database, all of the various divisions will benefit from the ease of access to this new information.

Strategic Planning Unit

The Division of Strategic Planning facilitates the agency-wide strategic planning process with the Commissioner and his senior management team, including the identification and management of strategic priorities and change initiatives, the creation and management of work plans for targeted change projects, and the monitoring of key performance measures against established targets.

Homeless Outreach And Housing Placement Services

A contract with the New York City Department of Homeless Services, in collaboration with the New York City Department of Health and Mental Hygiene, allows Project Hospitality to provide homeless outreach and housing placement services to homeless, mentally ill persons who also may have substance use/dependence problems and occupy the Staten Island Ferry Terminal or other locations throughout Staten Island. The primary goal of the Homeless Outreach and Housing Placement Services Program is to move mentally ill homeless and dually diagnosed clients out of the Ferry Terminal and off the streets into transitional or permanent housing settings. This represents a difference from the outreach approaches of past years, which focused on treatment and housing preparedness. This program now focuses on providing housing accompanied by wrap-around treatment and support services. The program is designed to respond effectively to the psychiatric and substance abuse issues that impair a person's ability to secure housing by arranging housing and treatment services fairly concurrently. If homeless persons need to come indoors to the drop-in center or safe haven first, they are able to receive a full complement of case management, treatment, and support services.

Homeless Outreach and Housing Placement Workers approach, engage, and try to intensively work with homeless people to move them out of the Staten Island Ferry Terminal or off of the streets. Outreach workers engage and counsel such persons, perform assessments, and refer homeless persons to a variety of services to address their most immediate needs. They organize such emergency services as medical detoxification, psychiatric evaluation, bed respite, and emergency health care.

The goal of this model is to reduce the number of homeless persons who live in places not meant for human habitation, in and around the Staten Island Ferry Terminal and throughout the borough of Staten Island, and to expeditiously place them in transitional settings or permanent housing.

Housing, Information and Education

This program, operated by the Mayor's Office for People with Disabilities, seeks to increase opportunities for people with disabilities to obtain or retain accessible, affordable housing. It provides:

- Information and referrals relating to housing discrimination, fair housing laws, and barrier removal programs;
- Technical and legal guidance relating to the design and construction of accessible, affordable housing;
- Technical training, including statutory and regulatory compliance, regarding barrier removal targeted to (but not limited to) housing real estate brokers, landlords, co-op boards, condominium associations, small neighborhood businesses, developers, architects, and engineers;
- Housing referrals to disability advocacy and service organizations that operate housing locator programs and maintain a list of accessible affordable housing; and
- Outreach to architects, builders, and community groups.

Housing Litigation Division

HPD has two units that conduct litigation in the Housing Court of the New York City Civil Court: the Housing Litigation Division (HLD) and the Landlord Tenant Litigation Division (LTLT). LTLT is part of the Office of Legal Affairs. The Certificate of No Harassment Unit in the Housing Litigation Division also conducts investigations and, where appropriate, administrative hearings at the Office of Administrative Trials and Hearing.

Housing Litigation Division

HLD initiates actions in the Housing Court against owners of privately-owned buildings to enforce compliance with the housing quality standards contained in the New York State Multiple Dwelling Law and the New York City Housing Maintenance Code (the "Housing Code"). The attorneys and support staff assigned to HLD are approximately 75% CD-funded. HLD attorneys also represent HPD when tenants initiate actions against private owners. HPD is automatically named as party to such actions. The goal of all of these court proceedings is to obtain enforceable Orders to Correct, Civil Penalties (fines), and, where appropriate, Contempt Sanctions in order to compel owners to comply with the Housing Code.

HLD institutes a variety of Housing Code compliance cases. When owners do not provide heat and/or hot water to tenants, HPD's Division of Code Enforcement inspectors place violations. HLD then initiates heat and/or hot water cases, seeking orders directing owners to restore the heat and/or hot water. HLD attorneys will also ask that civil penalties be assessed and, in the case of extremely recalcitrant owners, may seek an order of contempt with incarceration.

Comprehensive cases seek the correction of all outstanding violations in a building. Typically, comprehensive cases are initiated against owners of buildings with substantial Housing Code violations or against owners who fail to provide building services. HLD initiates comprehensive litigation against owners of "Single Room Occupancy" buildings (SROs), as well as owners with apartment units.

A comprehensive case could also involve claims against an owner who has filed a false certification or failed to register with HPD as required by law (see below). After a Housing Code violation is placed on a building, the owner has the opportunity to certify that the violation has been corrected. Code Enforcement staff re-inspects the building to determine the validity of that certification. Owners who falsely certify are subject to further fines, and are ordered to correct the outstanding violations. Additionally, owners of multiple dwellings are required to register annually with HPD. This registration requirement is designed to facilitate HPD enforcement efforts by allowing easy identification of building ownership. Owners who fail to register their buildings seriously impede HPD's enforcement efforts.

HLD also brings litigation to have Article 7A Administrators appointed to buildings. The goal of the 7A program is to improve the quality of life for low-income people living in buildings that have experienced severe decay and/or a lack of services because of landlord neglect or abandonment. HLD attorneys seek to have the Court appoint 7A Administrators who will have interim management control, oversee required repairs to privately-owned buildings, and obtain Court authorization for HPD-funded repairs. HLD also represents HPD when the owner seeks to have the 7A Administrator discharged and the building returned to the owner's control.

HLD seeks access warrants based upon violations issued pursuant to Local Law 1 of 2004 by DHMH or HPD, where owners have denied access to HPD inspectors to investigate the presence of lead paint in buildings or to contractors and crews sent by HPD's Emergency Services Bureau to correct overdue lead paint hazard violations. In addition, HLD commences false certification cases, where the owners have falsely certified correction of lead paint violations. The attorneys and staff assigned to the enforcement of Local Law I of 2004 are 100% CD-funded.

HLD also seeks access warrants to permit HPD to inspect and, if appropriate, make emergency repairs in buildings where owners have denied access to HPD inspectors to inspect or have denied access to representatives from HPD's Emergency Services Bureau or its contractors to take necessary action to correct immediately hazardous conditions in a building.

Through its Judgment Enforcement Unit, HLD collects money judgments from owners and tracks Orders to Correct (violation correction) compliance for settlement purposes. In many cases, enforcement of judgments entails locating assets of responsible individuals/companies and restraint and/or seizure of accounts and property.

HLD's Data and Records Management Unit is staffed with administrative personnel who track cases, docket files, make inquiries to outside agencies, file and store case records, and receive and file building violation notices.

Code Enforcement Inspectors work with HLD on its cases and tenant-initiated actions. Inspections directly supporting HLD's litigation efforts are requested at various stages of court proceedings to document and support legal positions. The inspectors are responsible for researching complaints prior to court proceedings, providing testimony in court, and doing case follow-up to ensure compliance with court-ordered actions. Code Enforcement support staff provides clerical back-up for the inspectors from the Code Enforcement borough offices.

HLD Administration

Other support staff within HLD oversees and coordinates a number of administrative functions. These functions include data operations, management services, office management, bill processing, and supervision of all administrative units within the Division. Under the Community Development regulations, these activities are eligible administrative expenses and are thus reflected in the HPD Administration description.

Landlord Tenant Litigation Division

The Landlord Tenant Litigation Division (LTLT) advises the agency on all legal issues concerning residential and commercial occupants of City-owned properties under HPD jurisdiction. Part of the management of the *in rem* properties involves the collection of rent from tenants and ensuring that a safe environment is maintained. LTLT staff conducts all tenant-related legal actions in buildings managed by the Division of Property Management (DPM).

The division litigates Housing Court and Civil Court Cases in which the agency seeks to recover unpaid rent, evict drug dealers or other disruptive tenants, and remove illegal occupants. In addition, LTLT staff handles a small volume of cases defending DPM against actions brought by tenants in DPM-managed buildings. Both the professional and support staff responsible for these actions are paid for with CD funds as part of the cost of operating *in rem* properties.

Certification of No Harassment Unit

Under local law, the owner of an SRO multiple dwelling must obtain a "Certification of No Harassment" from HPD before applying to DOB for a permit to demolish or reconfigure the building. This process is intended to ensure that the owner did not further its proposed demolition or construction project by harassing tenants into leaving. HLD investigates to determine whether harassment occurred during the statutory review period. If HPD determines that there is reasonable cause to believe that harassment occurred, an Office of Administrative Trials and Hearings (OATH) hearing is held at which HLD presents HPD's case. A finding of harassment prevents the owner from obtaining a demolition or alteration permit for three years. HPD also performs this function for applications filed with respect to property in various special zoning districts, including the Special Clinton Zoning District, Greenpoint Williamsburg anti-harassment district, the Special West Chelsea District, the Special Hudson Yards District, and a portion of the Special Garment Center District, which are subject to similar provisions (though not limited to SROs) under the Zoning Resolution.

In Rem Alternative Management Program

When tax-foreclosed buildings managed by HPD are ready to be transitioned into ownership by tenants, nonprofit organizations, or private entrepreneurs, they are transferred from the Division of Property Management to the Division of Alternative Management Programs (DAMP). DAMP takes advantage of community and private sector expertise and is an alternative to long-term City management. The following CD-funded components of this effort help achieve the City's goal of selling the buildings to the tenants, nonprofits, or private entrepreneurs and returning the buildings to the tax rolls.

Tenant Interim Lease

Under the supervision of the Tenant Interim Lease Program (TIL), tenant associations maintain and manage the City-owned buildings in which they live under an interim lease with HPD. The rental income is used to cover operating expenses, limited repairs, and management fees. HPD and the tenants negotiate a comprehensive building rehabilitation plan for repair or replacement of the building's major systems (funded with City Capital). CD funds are used for building stabilization and to offset part of the operating costs, including fuel and utilities, as well as to provide training and assistance for tenants to learn how to establish and manage a co-op. CD funds are also used to pay for relocation services and for the rental costs of apartments in other buildings to which tenants have been relocated due to rehabilitation. The ultimate goal of the program is to sell the building to the tenants. Rents are

restructured, if necessary, before the building is sold. Program income is generated through the sale of the buildings to the tenants.

HPD contracts with a nonprofit organization to provide after-sales support services to tenant organizations that have purchased their buildings from HPD. Services provided include technical assistance, rent restructuring, and mediation techniques.

Division of Alternative Management Project Support

Program support is especially important in DAMP. Professional planning and technical staff provides ongoing assistance to the varied groups under contract with HPD. Sales staff oversees the sale of DAMP buildings to tenant associations, nonprofits, and private managers, and provide technical assistance to DAMP building tenants after sale.

Other staff performs support functions related to the Neighborhood Redevelopment and the Neighborhood Entrepreneur Programs (funded by Federal HOME funds), and the Neighborhood Homes Program. Support staff in TIL works closely with tenants and monitors their activities from the intake stage, where they assist tenants in putting together TIL applications, throughout a building's tenure in the program. In addition, they provide technical assistance during the sales process.

In Rem Building Maintenance And Repair Program

Repairs that may require greater skill than is available through the Handyperson or Superintendent Contracts are let to private vendors through open market orders and requirements contracts. Open market orders are used for repairs that cost up to \$100,000. Repairs include plumbing and electrical work, seal-ups, boilers, and roofs. Funds are also provided to renovate common building areas such as hallways. Finally, CD funds pay for the costs of fuel and utilities in *in rem* buildings.

HPD also uses CD funds to provide individuals with training and transitional vocational work in building maintenance through competitively bid contracts. The trainees perform maintenance activities such as rubbish and debris removal and surface preparation/painting in and around occupied *in rem* buildings.

In Rem Building Maintenance And Repair Project Support

Within DPM, CD-funded support staff is responsible for the oversight of maintenance and repair efforts in *in rem* buildings. Responsibilities include:

- Responding to emergency complaints regarding heat and other essential services;
- Organizing, processing, and filing work order requests;
- Performing field inspections, holding technical interviews with potential contractors, and processing contractor pre-qualification applications and re-certifications;
- Inspecting, monitoring, and surveying repairs for *in rem* properties;
- Managing the process of bidding, awarding, and processing of publicly competitive sealed bids above \$90,000; and
- Supervising fiscal support operations and processing invoices for inspection and payment.

In Rem Handyperson Contract

Through a competitive process, private vendors bid on contracts to provide services for handypersons (also known as maintenance mechanics) doing work in HPD-managed buildings. Specifically, the contract provides payroll processing for wages and fringe benefits earned by the handypersons (whose wages are also CD-funded), and for labor relations. The handypersons perform the majority of minor repairs, such as fixing doors, installing locks, and replacing plumbing fixtures in City-owned residential buildings citywide. Handypersons also perform repairs such as installing window guards and plastering and fixing plumbing leaks in privately-owned buildings under the Emergency Repair Program. Potential repairs are identified via on-site inspections by HPD's Real Property Managers (RPMs) or by tenants, who then notify the RPM of repairs they believe are needed in their apartment. HPD's maintenance staff (Construction Project Managers) evaluates the condition, draws up a scope-of-work, determines if one or more handypersons can correct the condition, and monitors the work until it is completed.

Additional contracted staff provides support for handyperson and maintenance activities, such as materials management, data entry, contract administration, and personnel processing.

In Rem Material Management And Procurement

HPD incorporates the stockroom functions for DPM, Bureau of Environmental Hazards (BEH), and the Emergency Repair Program (ERP) into the Material Management and Procurement Unit. The Unit utilizes CD funds to procure tools and materials to support HPD's property management, lead abatement, asbestos abatement, and emergency repair programs. To procure and distribute the majority of materials to site locations for CD-eligible programs, HPD obtains maintenance and repair items from the Department of Citywide Administrative Services (DCAS) and private vendors.

CD funds are also utilized for staff to manage these procurements from either DCAS or private vendors. Staff develops specifications, orders supplies, and maintains ongoing contact with private contractors and DCAS to ensure prompt delivery of repair materials to stockrooms. Upon receipt of these materials, staff prepares all necessary paperwork to process the payment requests from the contractors. They are also responsible for the timely distribution of the repair materials and tools upon request from the various HPD programs, maintaining the ability to respond to emergencies throughout the year. They account for the integrity and security of all procured items and maintain the computer inventory management system.

In Rem Property Management

CD funds pay for HPD's Real Property Managers (RPMs), who are responsible for coordinating the management and maintenance of the City's occupied *in rem* housing stock. The RPMs and related personnel conduct surveys on the condition of an *in rem* building upon intake, prepare work orders, and respond to tenants' requests. They visit tenants regularly and maintain good tenant relations, attend tenant and community meetings, ensure the installation of health and security measures (window guards, smoke detectors, etc.), respond to emergencies, and maintain superintendent services. They inspect completed repairs, validate invoices for payment, secure vacant apartments, update tenant rosters, and coordinate evictions. CD funds also pay for the rent at HPD's field offices that support the *in rem* operations.

In Rem Superintendent Contract

Under the competitively bid contract with a private vendor as referenced in the section above, superintendents are employed by the vendor to provide services in City-owned residential buildings. CD funds pay for the salaries and fringe benefits of the superintendents, as well as for payroll services provided by the vendor. The superintendents perform on-site janitorial services and alert HPD's Real Property Managers when building problems arise.

LPC Planning

CD funds pay for Landmarks Preservation Commission staff that conducts various planning activities such as environmental reviews and architectural, archaeological, and historical analyses. CD-funded staff also researches and plans for potential landmark districts, which includes photographing buildings and streetscapes to document significant features.

Land Restoration Program

The Land Restoration Program (LRP) is administered by the NYC Department of Parks and Recreation (DPR). Established in 1982, the program's primary focus addresses New York City's problem of vacant lots within CD-eligible areas.

LRP adopts sites for treatment on a rolling basis as the result of strict inspection parameters and/or at the request of Borough Presidents, Community Boards, and City Council Members. LRP routinely targets sensitive areas near public housing, playgrounds, community centers, churches, and schools for inclusion on the "Target Site List" for vacant lot restoration and site improvements. The vacant lots are often polluted with drug paraphernalia, domestic litter, and industrial debris and frequently contain hazardous materials, rats, and severe vegetative overgrowth. Sites for improvement may additionally have structures to be demolished and removed. The LRP crew works with other City agencies including DOT, HPD, and DSNY to get sites cleaned and fenced. Sites are then graded, tilled, planted

as needed with specialty mixes customized for the City, and put into a rotational maintenance plan or turned over to community groups for continued care. Sites are then revisited throughout the season for mowing, cleaning, or other improvements in order to prevent them from falling into disrepair again.

Lot treatment by LRP provides communities:

- Increased safety by removing tall weeds that are often used as cover for illegal activity;
- Decreased harborage for insects, rodents, and the associated diseases;
- Reduction in vacant lot or site health hazards;
- Reduction in the cost of re-cleaning or reclaiming treated sites; and
- Property that is attractive to residents and potential developers.

The site selection and improvement process begins in the fall with the review of requests from various groups, agencies, or individuals. Sites are inspected and compared against the CD-eligible census tract maps and the roster of City-owned property. Site lists are regularly updated through the season to ensure the program reaches the most communities possible. LRP routinely tries to find local community partners to help with site maintenance in between visits.

Due to the changing nature of New York City's vacant lot inventory, LRP has begun expanding its objectives to include partnership projects with other programs such as GreenThumb gardens and other DPR divisions. Some of these projects may include habitat restoration, invasive species removal, debris removal, and other site preparation work. LRP also continues to focus its attention on improving/upgrading established gardens and other City-owned properties that have become run down or damaged, as well as assisting the GreenThumb program with community education. LRP is also forming partnerships with other agencies such as DSNY, DCAS, HPD, and DEP on open space projects that will complement local development efforts in CD-eligible areas. To this end, LRP continues to expand its equipment inventory and staff training efforts.

Landmarks Historic Preservation Grant Program

The Historic Preservation Grant Program provides financial assistance to rehabilitate, preserve, and restore publicly-, privately- or nonprofit-owned or -leased historic properties and sites that are designated or calendared individual New York City landmarks, within designated New York City historic districts, or listed on or eligible for listing on the National Register of Historic Places. To qualify for an interior restoration grant, the building's interior must be designated.

Eligible properties cannot have unpaid real estate taxes, water/sewer charges, or un-rescinded notices of violation issued by the Landmarks Preservation Commission or the Department of Buildings.

Homeowners Grants

This component provides grants to homeowners who reside in their buildings, or whose buildings are occupied by low- to moderate-income individuals. The grants are intended to assist homeowners in repairing and restoring the facades of their buildings. Homeowners are eligible to receive historic preservation grants if they meet one of the following criteria:

- Their income, or the incomes of at least 51% of their tenants, does not exceed Section 8 low- or moderate-income limits; or
- The condition of the façade of their home is detrimental to the public's health and safety. Such conditions address HUD eligibility criteria for activities that aid in the prevention or elimination of slums and blight on a spot basis. Homeowners' incomes under this category may not exceed the Area Median Income. In addition, depending on the level of their income, homeowners must contribute at least 25%, 37.5%, or 50% of the value of the LPC grant towards the cost of their project. This contribution may be from owner equity, loan proceeds, or other grants.

Nonprofit Grants

This component provides historic preservation grants to nonprofit organizations organized under Section 501(c)(3) of the Internal Revenue Code.

Subject to certain restrictions set forth in the CD regulations, nonprofit organizations that own or have a long-term lease on their designated buildings are eligible to receive historic preservation grants if they meet one of the following criteria:

- They serve a low- and moderate-income area that is deemed to be CD-eligible; or
- Their buildings require work to eliminate specific conditions detrimental to public health and safety. Organizations that do not serve low- and moderate-income areas must contribute at least 50% of the value of the LPC grant towards the cost of their project.

Both homeowner and nonprofit applicants are identified through general LPC outreach and publications, direct mailings, and through staff presentations to block and neighborhood associations. CD also funds staff to administer the program, which is charged to Administration.

Minipools

The New York City Department of Parks and Recreation's Minipool Program offers safe swimming opportunities for children ages 6 to 11, as well as for toddlers accompanied by an adult. CD funds are used to pay for seasonal lifeguards, Parks Enforcement security personnel, and the staff that operate the filtration systems to maintain water quality and perform custodial services. The 11 CD-funded Minipools are operated during the summer months and are located near New York City Housing Authority projects. These sites are:

<u>Sites</u>	<u>Locations</u>	<u>Adjacent NYCHA Sites</u>

NYC Business Solutions

NYC Business Solutions is a suite of services from the NYC Department of Small Business Services (SBS) that provides small businesses with a range of assistance including access to financing and business planning, incentives and contracting opportunities, navigating government, and assistance finding qualified employees. CD-funded staff develops a curriculum of business training courses for delivery at six NYC Business Solutions Centers, oversees the operation of two vendor markets, and provides direct business counseling at the Customer Service Center and through outreach conducted by the Business Outreach Team.

Curriculum Development

Free training in business planning and computer applications is provided to micro-entrepreneurs and small business owners at the NYC Business Solutions Centers citywide, with the goal of providing them with the skills they need to effectively plan, manage, and expand their business. SBS staff supports the development of effective curricula to meet the business owner's needs, manages consultants who conduct classes, and works with NYC Business Solutions Center staff to market and promote the classes. Classes are currently offered in English, Mandarin, and Cantonese.

Vendor Markets

NYC Business Solutions provides, at nominal cost, spaces to former street vendors in which they can conduct business legitimately and transition on as entrepreneurs. The program currently sanctions the operation of the Flatbush-Caton Market in Brooklyn.

Direct Business Counseling

NYC Business Solutions provides direct business counseling and technical assistance in person at one of six NYC Business Solutions Centers, on the phone via its Customer Service Center, or on-site by its Business Outreach Team. The Business Outreach Team will assist businesses in low- and moderate-income target areas in Queens and Manhattan. Clients may access a range of services including business plan development, financing assistance, legal guidance, workforce development services, and government licensing. NYC Business Solutions staff is able to provide individuals with access to services in English, Spanish, Mandarin, Cantonese, Italian, French, Haitian Creole, Hindi, Urdu, Nepalese, and Tamil.

Narcotics Control Program

The CD-funded Narcotics Control Unit (NCU) identifies and develops information based on field investigations as well as interviews with tenants, property managers, and other informants. This information is corroborated to the greatest degree possible, and then shared by NCU with the NYPD Narcotics Division. Evidence in the form of arrests and related documentation forms the basis of eviction cases against drug dealers. NCU provides property owners and their attorneys with detailed referrals upon which the drug-related eviction cases can be commenced. These are the initial steps taken by NCU at privately-owned buildings and City-owned buildings where drug dealing operations are conducted. Building-wide strategies to root out entire drug operations are routinely developed.

NCU also works regularly with other CD-funded programs at HPD such as the Division of Neighborhood Preservation's Neighborhood Preservation Offices; the Divisions of Code Enforcement, Maintenance, and Lead Abatement; and the 7A Program. Almost 75% of NCU's workload of 650 residential buildings annually comes from other housing programs at HPD. Most of the other referrals come from the NYPD, and the remaining ones come from "311" and HPD's website.

Neighborhood Housing Services

Neighborhood Housing Services (NHS) is a nationwide non-profit organization. The aim of the program is support for neighborhood revitalization through housing preservation. NHS of New York City and its seven divisional offices will provide below market rate interest financing for the moderate rehabilitation of 1-4 family houses to low- and moderate-income homeowners. NHS operates a variety of loan programs. The standards for these loans are approved by HPD.

Emergency Repair Loans – loans not exceeding \$10,000 which are needed to correct an immediate threat to the health and safety of the occupants of the subject building anywhere in New York City.

Revolving Loan Fund (RLF) Core Loans – loans made to borrowers citywide. Borrowers' annual income must be at or below 80% of the median or the property must contain spot conditions of slums and blight, the removal of which will eliminate hazards to public health or the property must be located in a slum or blighted area. NHS also leverages CDBG funds with private funds in order to maximize the productivity of the RLF Core Loan Program.

Home Improvement Program (HIP) Option Loans - Homeowners who have been turned down for a city-sponsored Home Improvement Loan due to their insufficient income or credit history are eligible to apply. Homeowners may borrow a maximum of \$30,000 at below market rates. Additionally, borrowers income must be at or below 80% of the median or the property must contain spot conditions of slum and blight, the removal of which will eliminate hazards to public health or the property must be located in a slums or blight area.

Lead-Based Paint Remediation Grants – These grants, not to exceed \$20,000, may be used towards the testing for the presence of lead-based paint and risk assessment. The grant may also cover interim controls or abatement activities as determined by the risk assessment. Eligible grant recipients are those whose annual income is at or below 80% of the area median, currently \$61,450 for a family of four. The lead-based paint requirements at 24 CFR Part 35 will be followed.

A Revolving Loan Fund (RLF) has been established through prior years' CDBG allocations. The loan fund only consists of program income in the form of loan re-payments, interest from notes receivable, and interest from the financial institution in which the revolving loan funds are held. The program is not receiving any new allocation in 2010. The balance of the revolving loan fund on 3/31/09 was \$1,285,603. Program income during 2010 is projected to be \$68,422. The revolving loan fund balance and program income (\$1,354,025 rounded to \$1,354,000) will be used to fund new loans during 2010.

The main office of NHS is located at 307 West 36th Street in Manhattan (phone: (212) 519-2500) and neighborhood offices are at the following locations:

Bronx
1178 E. Gun Hill Road
200 E. 161st Street

Brooklyn
2806 Church Avenue
1012 Gates Avenue

Queens
89-70 162nd Street
60-20 Woodside Avenue

Staten Island
770 Castleton Avenue

Neighborhood Preservation Consultants

The Neighborhood Preservation Consultants Program is aimed at increasing the involvement of local nonprofits in planning and preserving the City's affordable housing stock, particularly by assisting HPD in implementing its Neighborhood Preservation strategy. Through this program, HPD has contracted with community-based organizations to perform a range of housing preservation functions including educating owners in housing-related matters to maintain or restore buildings to a structurally and fiscally sound condition. The role of the consultants is to assess buildings to determine if they are distressed, develop and recommend remedial and intervention strategies to prevent owner abandonment, assist owners in improving their properties, and encourage owners to pay their taxes.

Neighborhood Vacant Lot Clean-Up Program

The Department of Sanitation (DSNY) cleans vacant lots and the surrounding premises of City-owned, abandoned buildings that are littered with garbage, debris, and bulk refuse to meet the City's Health Code standards. CD funds pay for those cleanings that are performed in CD-eligible areas. Monthly cleaning schedules are keyed to community boards and based on the following priorities: health emergencies, preparatory cleaning for other CD-funded lot-related programs, and community board requests.

The program also conducts tire removal operations. In addition to removing a blighting influence, tire removal assists in the effort to battle the West Nile Virus as mosquitoes often breed in water that collects in discarded tires. Tires and metal are recycled to private vendors with a stipulation that they are to be reincorporated as a substitute for goods made from virgin materials.

The Lot Inspection Unit investigates all requests for lot cleaning services, including 311 requests. Lot Inspectors prepare work orders, eliminate duplicate requests, and, where appropriate, refer non-lot-related conditions to the proper agency for corrective action.

The operational procedure of the recovery of top soil is in compliance with the Department of Environmental Conservation's regulations, which monitors soil being transferred from one property to another. Bulk items such as refrigerators, washing machines, stoves, etc., are diverted to source separation/recycling sites rather than to landfills.

During the final quarter of 2008, the Lot Cleaning Division began a new initiative that captures "Diversions". In addition to cleaning vacant lots, crews service other dump out conditions on streets and sidewalks and uncut/unpaved streets, etc. These incidents are identified as being in CD or non-CD areas and recorded accordingly.

CD funds also provide private security for the Neighborhood Vacant Lot Clean-Up Program's operations, for mechanics to repair the program's equipment, and for waste disposal costs for debris removal from CD-eligible areas.

During periods deemed as snow emergencies by the City, CD resources may be re-directed to snow clearing duties. Personnel and equipment will be utilized in CD-eligible areas. Snow clearing work may involve opening streets in the service district to allow for the passage of ambulances, police, and fire vehicles; fuel oil deliveries; food delivery vehicles; public transportation; school buses; and other emergency personnel (non-Sanitation Department) to make emergency repairs to infrastructure such as water mains, sewers, and residential buildings. Personnel and equipment may also be assigned to pedestrian and public safety needs such as the salting and clearing of crosswalks, step streets, bus stops, and fire hydrant areas. When a trash collection backlog develops as a result of a snow emergency, personnel will be used for emergency trash removal for as long as the emergency condition exists. All work will be closely monitored to ensure that lot cleaning resources are used in program areas. A return to lot cleaning duties will be ordered as soon as possible when meaningful and productive work can be accomplished on those properties.

The Neighborhood Vacant Lot Clean-up Program operates in Environmental Target Areas in all five boroughs. Program income is generated from payments by private lot-owners for the cost of lot cleaning services and from interest (fees charged for late payments).

Primary Prevention Program

The Primary Prevention Program, a joint initiative between HPD and the Department of Health and Mental Hygiene (DHMH), uses funding from the U.S. Department of Housing and Urban Development (HUD) to offer grants to building owners for lead treatment. CD funds are used for projects in which at least 51% of the households are at or below the low- and moderate-income levels. This initiative addresses a serious environmental threat to young children that results from deteriorated lead-based paint in apartments. The program, part of a broad City strategy to lower the hazards from lead-based paint, provides grants to owners of multi-unit apartment houses and one-, two-, and multi-family homes built before 1960, the year New York City banned the use of lead-based paint. In addition to federal funds, the Primary Prevention Program is also supported by City Capital funds to address lead-based paint hazards citywide.

The Program gives owners the means to make their buildings lead-safe through low-level interim treatment work. Treatment concentrates on friction surfaces such as door jams, window sills and wells, and cabinets because friction creates lead dust. Common areas and fire escapes are also treated. Building owners apply for forgivable loans valued at \$9,000 to \$10,000 per apartment, the average cost of lead treatment work. Some units may receive up to \$11,000 in conjunction with other moderate rehabilitation work. Owners, in turn, hire contractors who are trained in EPA-certified courses in lead treatment. HPD inspects the work. The loan amount is secured by a mortgage on the property that evaporates after three years, provided the owner is in full compliance with the terms of the loan.

The buildings involved in the initiative must meet the following criteria:

- Multi-unit apartment buildings and one-, two-, and multi-family homes built prior to 1960;
- Household income requirements vary based on funding sources. For CD-funded projects, 51% of the households must be at low- or moderate-income levels (the current threshold for a family of four is \$61,450). For other federally-funded lead project grants, 80% of the households must be very low- and low-income households. It should be noted that the CD terminology “low- and moderate-income levels” is the equivalent of “very low- and low-income levels” used by other federally-funded programs. The owner must continue to rent to these income level tenants for three years in order for the lien to be forgiven;
- Due to the preventive nature of the grant program, buildings with many families with children six years of age or under, including pregnant mothers and families who provide day care services to children six years of age or under for at least six hours a week, are ideal for participation in the grant program;
- Under federal funds, the targeted areas are Central and West Bronx, West Queens, and Bedford Stuyvesant, Crown Heights, East New York, East Flatbush-Flatbush, Williamsburg, and Bushwick in Brooklyn. City funds will support buildings citywide; and
- The owner(s) must be current on all City taxes at the time of identification.

Project Open House

Under the Project Open House contract, CD funds are used by the Mayor’s Office for People with Disabilities to remove architectural barriers from the homes of New York City residents who have mobility impairments. The extent of the work depends on the physical condition of the applicant and their particular needs. Projects include grab bar installations, main entry components (ramp, chair lift, and door), and kitchen and bathroom modifications. Project Open House affords program recipients greater independence through greater accessibility of their living environment.

The following criteria are used to determine grant recipients:

- Income eligibility under Section 8 income limits.
- Need for increased independence.

Prospect Park Special Administrator’s Office

The Prospect Park Special Administrator’s Office provides the following services for the Park, which serves the

borough of Brooklyn:

- Coordination of conservation and recreation activities;
- Coordination of educational programs;
- Coordination and implementation of volunteer programs;
- Coordination and implementation of special projects and events;
- Administrative and liaison functions with the nonprofit Prospect Park Alliance;
- Public relations and community outreach;
- Coordination of capital planning and investments; and
- Delivery of services to ensure park security and upgrading.

Funds may also be used to purchase equipment when available.

The Prospect Park Audubon Center in the Boathouse has developed a year-round curriculum of urban environmental education programs open to academic groups and the general public. The Center combines exhibits, nature trails, and citizen science projects to meet the varying instructional levels required for educators, students, Parks' employees, and the public.

The Lefferts Historic House interprets everyday life in the farming village of Flatbush as Dutch, African, and Native American children experienced it early in the Nineteenth Century. Through the development of an Exhibit Master Plan, Lefferts offers the most effective interpretation of the House for Brooklyn's children and families through a series of seasonal special events that highlights the traditions of the period and the people.

The Prospect Park Alliance has taken over management of the Prospect Park Parade Ground. With its restored fields, it is a sports center for Brooklyn youth. The Prospect Park Tennis Center's Junior Development program serves the diverse population within Brooklyn communities, including many underserved youth that participate on a scholarship basis. In addition, the Youth Council, based at Bowling Green Cottage at the Parade Ground, participates in a leadership program that includes training in a variety of skills.

A federally-funded user study of Prospect Park indicated the majority of park visitors come from CD-eligible Brooklyn census tracts.

Rent Guidelines Board Support Staff

The Rent Guidelines Board (RGB) is mandated to establish rent adjustments for more than one million units subject to the Rent Stabilization Law in New York City. The Board holds an annual series of public meetings and hearings to consider research from staff and testimony from owners, tenants, advocacy groups, and industry experts.

RGB staff is responsible for providing administrative and analytic support to the Board and prepares research regarding the economic condition of the rent stabilized and other residential real estate industry areas including operating and maintenance costs, the cost of financing, the housing supply, and cost of living indices. RGB staff engages in research efforts; publishes its reports for use by the public, other governmental agencies, and private organizations; and provides information to the public on housing questions considered by the Board. CD funds pay for the RGB staff and associated program administration costs.

Safe Horizon

Safe Horizon is a nonprofit organization that provides a continuum of services to New York City crime victims, witnesses, and their families in order to reduce the psychological, physical, and financial hardships associated with victimization. The mission of Safe Horizon is to provide support, prevent violence, and promote justice for victims of crime and abuse, their families, and communities. Safe Horizon offers support and concrete services through its 24-hour Crime Victims Hotline, Domestic Violence Hotline, borough-based community programs in all five boroughs, family and criminal courts, shelters, schools, and police precincts and police service areas throughout the

City. Services include: safety assessment and risk management; crisis intervention; advocacy; information and referral; individual, family, and group counseling; document replacement; emergency lock repair; assistance in applying for Crime Victim Board Compensation for uninsured medical care, lost income, and funeral expenses; assistance with obtaining an order of protection; restitution; mediation; transportation for the elderly, disabled, and intimidated victims and witnesses; reception centers; and day-care for children at court. CD-funded services are targeted to low- and moderate-income persons.

Safe Horizon's headquarters is located at 2 Lafayette Street in Manhattan. The Criminal Justice Coordinator's Office provides administrative oversight for the program. The CD-funded office locations are:

Scorecard Program

Through the Scorecard Program, Service Inspectors employed by the Mayor's Office produce monthly street and sidewalk cleanliness ratings for a sample of streets in City neighborhoods. A visual rating scale is used to determine the percent of acceptably clean streets and sidewalks. Figures are reported monthly to the Department of Sanitation (DSNY), Community Boards, the Office of Management and Budget, elected officials, and outside observers, and quarterly to selected Business Improvement Districts (BIDs) for which ratings have been requested by DSNY or the Department of Small Business Services. The Mayor's Office of Operations has run the program since 1978.

CD funds pay for eight full-time staff members, including seven Service Inspectors. Funds are also allocated for the upgrading of the Scorecard system database, replacement of hand-held computers by which inspection data is collected, and OTPS expenses (e.g., tolls).

The main purpose of the Scorecard Program is to help DSNY develop policy, plan changes to its cleaning and enforcement programs, and evaluate its methods and the performance of its field managers. Community Boards and

other members of the public use the data to learn about cleanliness conditions in their neighborhoods and participate with DSNY in planning or negotiating operational and enforcement changes (including Alternate Side Parking regulations, street/sidewalk inspections, vacant lot cleaning, and the placement and emptying of street corner litter baskets). Changes requested by the community are often implemented by DSNY on a pilot basis, with the stated criterion for continuation being no negative Scorecard impact.

Currently, 28 BIDs, Local Development Corporations, and certain Industrial Parks receive quarterly Scorecard ratings to help evaluate their self-funded sanitation programs aimed at raising or maintaining cleanliness levels. These organizations use the data to judge the efficacy of contracted cleaning firms and/or their own cleaning staff, and to work with merchants and other commercial tenants to improve local cleaning practices. The data has been requested by the City Comptroller’s office in conjunction with audits of the BIDs, and is currently supplied to them quarterly. Baseline ratings have also been supplied on a pilot basis to organizations that are considering applying for BID status or that are implementing self-funded cleaning programs for commercial areas without BID designations.

Scorecard feedback has been associated with substantial long-term gains in city cleanliness levels overall and in specific neighborhoods. Over 96% of New York’s streets are now rated acceptably clean, the highest level in 34 years. The citywide trend can be seen on the Office of Operations’ website (www.nyc.gov/html/ops) through the “Learn More About Scorecard” link, which also explains inspection procedures and the visual rating scale.

Scorecard has long been a model for other U.S. localities that consider using the “trained observer” approach to performance measurement for sanitation or other services. Information on Scorecard is included in the U.S. Conference of Mayor’s Best Practices handbook and in material circulated by the Urban Institute in Washington D.C. on performance measurement techniques for local government.

Senior Resident Advisor Program

The Housing Authority operates a program through which trained paraprofessionals, called Senior Resident Advisors (SRAs), work in housing developments that are exclusively for elderly and disabled tenants. The Advisors provide 24-hour care at selected live-in sites and 9 a.m. to 5 p.m. coverage at non-live-in sites. The SRAs are available to intervene in crisis situations and provide case management according to the plan devised by the program’s Social Work Supervisor.

Advisors are assisted by a network of trained tenant volunteers, each of whom maintain daily contact with all elderly tenants on their floor. This continuity of care and support prolongs a senior citizen’s period of independent living, eliminates costly institutionalization, and relieves housing managers of the demanding job of meeting the greater needs of the housing project’s elderly population. SRAs have also been an excellent resource and valuable support persons for senior residents who have increased levels of anxiety, fear, and vulnerability as a result of tragedies, such as the attack on the World Trade Center on September 11, 2001. The program operates in 22 NYCHA senior buildings. The following 12 are CD-funded.

Targeted Code Enforcement

CD funds are used by HPD for code enforcement initiatives in deteriorated and deteriorating neighborhoods where 51% of the population are at or below 80% of the area median income. HPD has designated 26 areas in the City as deteriorated or deteriorating, each of which exhibits at least one of the following characteristics of deterioration:

- 15% or more occupied rental units in dilapidated multiple dwellings; or
- 15% or more occupied rental units in multiple dwellings with three or more building defects; or
- 15% or more occupied rental units in multiple dwellings with three or more maintenance deficiencies.

In most cases the areas line up exactly with a specific sub-borough area, as defined by the U.S. Census for purposes of the New York City Housing and Vacancy Survey. Tenants call 311 to lodge their complaints regarding conditions that violate the Housing Maintenance Code or the Multiple Dwelling Law. The 311 operators work for the Department of Information Technology and Telecommunications (DOITT) and are CD-funded under the Targeted Code Enforcement Program for the time they spend on CD-eligible emergency housing complaint calls from these 26 areas. The 311 operator enters the details of the tenant's complaint into the complaint module of the HPD computer system, which classifies the complaints by severity.

CD funds are used by HPD to provide for housing inspectors, clerical staff, and personnel who perform code-related activities in CD-eligible areas. Located within HPD's Office of Preservation Services, Enforcement Services is one division that performs housing code enforcement-related activities. Enforcement Services is comprised of two Divisions: the Division of Code Enforcement (DCE) and the Division of Maintenance (DOM).

Division of Code Enforcement (DCE)

DCE is responsible for assuring owner compliance with the New York City Housing Maintenance Code and the New York State Multiple Dwelling Law in privately-owned, multiple-unit dwellings and tenant-occupied apartments in one- and two-family houses throughout the City to promote quality housing for New Yorkers. DCE is comprised of the Code Enforcement Unit, which includes the Borough Office, Special Enforcement Unit, the Lead-Based Paint Hazard Inspection Unit, and the Registration Assistance Unit. Housing inspectors are assigned to both the Code Enforcement and Lead-Based Paint Hazard Inspection Units. With the exception of the Special Enforcement Unit, the Registration Unit, the Lead-Based Paint Hazard Inspection Unit, and those working under the Alternative Enforcement Program, all Division of Code Enforcement units are 80% CD-funded. This percentage is based on a HUD-approved cost allocation plan for the time that inspectors spend on emergency housing complaints in CD-eligible areas.

Clerical staff performs functions such as tenant callback (to verify that a condition still exists prior to sending an inspector out to a building), the processing of owner certifications, and dismissal requests.

Housing inspectors are available 24-hours a day, 7 days a week to respond to emergency conditions; the majority of complaint inspections take place between 12:00 p.m. and 10:00 p.m. Inspectors investigate complaints made by tenants through the 311 system, Housing Court, Community Boards, elected officials, etc. Where appropriate, inspectors issue violations of the New York City Housing Maintenance Code and the New York State Multiple Dwelling Law. Inspectors also re-inspect violations certified as corrected by the owner, conduct dismissal request

inspections (for owners wishing to clear their record of existing violations), provide in-office services to tenants and owners, and support the Housing Litigation Division (HLD) and the New York State Housing Court system in tenant–landlord actions. Code Enforcement inspectors also may issue vacate orders and respond to Fire Department- and Buildings Department-issued vacate orders in emergency situations such as fires and structurally unsafe buildings.

During each inspection visit, apart from the complaint condition(s), Code Enforcement inspectors are required to check an apartment for six conditions affecting tenant health and safety:

- Illegal locking window gates or obstruction of a fire escape window;
- Child-proof window guards on non-egress windows;
- Double cylinder locks requiring a key to unlock the door from the inside;
- Local Law #1 of 2004 violations for lead-based paint hazards;
- Lack of smoke detectors; and
- Lack of carbon monoxide detectors.

Inspectors are instructed to issue any immediately hazardous violations that they observe in their line of sight. Upon the issuance of most “C” violations (immediately hazardous violations), requests for emergency repairs are transmitted electronically to the Emergency Services Bureau (ESB).

Registration Unit

The New York City Housing Maintenance Code requires that all multiple dwelling owners register their property annually with the Department of Housing Preservation and Development (Housing Maintenance Code §27-2097). With the passage of Local Law 56, owners of one- and two-family dwellings will also be required to register if the owner does not live on the premises. The Multiple Dwelling Registration (MDR) process is a pivotal step in the code enforcement and emergency repair process. Without the registration requirement, HPD would be unable to contact owners or managing agents regarding complaints, notices of violation, or emergency repairs. HPD’s Registration Assistance Unit has primary responsibility for the MDR process. The Registration Unit retrieves suspected owner information for owners who have sold their property to a new unregistered owner, generating suspected owner letters, explaining registration errors, assisting owners with correcting registration errors, processing payments for certified copies of registration forms, and certifying copies of registration forms for both owners and tenants.

Special Enforcement Unit

The Special Enforcement Unit (SEU), staffed by housing inspectors and Real Property Managers, provides essential code enforcement support to the Emergency Housing Services Bureau (EHSB). EHSB provides housing and social services to singles and families displaced by fire or otherwise evacuated from unsafe housing. The goal of the unit is to decrease the length of stay of EHSB clients by restoring households to their original apartments more quickly. SEU monitors landlords’ performance in correcting the hazardous conditions that caused the vacate order, and performs termination hearings for EHSB households that are no longer eligible for services (either due to the refusal of housing placements, behavioral issues, or any other statutory grounds for termination). SEU also files Code Enforcement vacate orders with the County Clerk’s Office to place owners on notice of possible relocation liens that may be filed against their properties as a result of the relocation cost expended by the Agency. The housing inspectors and support staff are CD-funded.

Lead-Based Paint Hazard Inspection Unit

Housing inspectors are also assigned to the Lead-Based Paint Hazard Inspection Unit. In addition to inspecting for all violations of the Housing Maintenance Code and Multiple Dwelling Law, these inspectors conduct inspections for lead-based paint hazards with X-Ray fluorescence (XRF) analysis machines. These machines allow the inspector to test peeling/deteriorated painted surfaces for lead content. If the lead content exceeds the level allowed by Local Law #1 of 2004, the inspectors issue a lead-based paint violation, which the landlord cannot contest. These

inspectors also re-inspect lead-based paint violations certified as corrected by building owners, as required by Local Law 1 of 2004. Also, a small group of inspectors conduct inspections in buildings where a lead-poisoned child has been identified by the Department of Health and Mental Hygiene. Because these inspectors primarily complete XRF inspections for lead-based paint, the staff assigned to this unit is 100% CD-funded.

Division of Maintenance (DOM)

DOM is responsible for emergency repairs, which are CD-funded under the Emergency Repair Program, including lead hazard reduction work in privately-owned residential buildings and for monitoring vendor repair work in City-owned buildings. The primary goal of DOM is to secure voluntary corrective action by the landlord, eliminating the need for direct City involvement. When there is no voluntary compliance, repairs may be made using CD funds.

DOM is comprised of the Emergency Services Bureau (100% CD-funded under Targeted Code Enforcement), the Emergency Repair Bureau (100% CD-funded under the Emergency Repair Program) the Research and Reconciliation Unit (100% CD-funded under the Emergency Repair Program), the Utilities and Fuel Unit (100% CD-funded under the Emergency Repair Program), the Demolition Unit (approximately 85% CD-funded under the Emergency Demolition Program), and the Bureau of Maintenance Procurement (see description under HPD Administration).

DOM's Utilities and Fuel Unit responds to violations issued for a lack of electricity, gas, or fuel. The unit works with the utility companies to ensure that basic services are restored to buildings where the owner has failed to provide them. This unit is also responsible for arranging delivery of fuel oil in privately-owned buildings in order to provide heat and hot water to buildings for which Code Inspectors have written violations indicating a lack of fuel. The Fuel Unit works closely with the fuel vendors to ensure completion of any additional repair required for restoration of heat and hot water.

Emergency Services Bureau

The staff of the Emergency Services Bureau (ESB) is responsible for contacting owners or managing agents for buildings where "C" violations requiring emergency repair(s) have been issued by Code Enforcement Inspectors. These violations are electronically transmitted to the ESB through the HPD Info computer system. In addition, the Intake Unit of the ESB interacts with outside agencies, such as the Department of Health and Mental Hygiene, the Department of Buildings, and the Department of Environmental Protection, when requested to perform emergency repairs such as sewer lines, building seal-ups, and missing or defective window guards.

ESB's Owner Notification Unit performs research to identify the current owner or managing agent of a property. The sources used to determine ownership include HPD's Property Registration & Emergency Management Information System (PREMISYS), HPD's computer system (HPD Info), the Department of Finance, the Department of Buildings, the New York State Division of Housing and Community Renewal, utility companies, and, if necessary, calls to the tenants (using an on-line, reverse telephone directory) to determine to whom they are paying rent.

In cases when the unit successfully contacts the building owner and the owner agrees to perform the emergency repair work, the unit is subsequently responsible for contacting tenants via telephone and mail to determine whether the owner actually complied as agreed. In the standard letter, tenants are instructed to call the unit if the owner does not perform the agreed-upon repairs. If tenants do not respond to the mailing, ESB staff attempts to verify the status of repairs by telephone. If ESB is unable to verify landlord compliance during the day, the Enforcement Call-Back Unit staff attempts to confirm compliance by calling the tenants during evening hours or weekends. If the Enforcement Call-Back Unit is unable to contact the tenants, the Citywide Inspection Unit will attempt at least two inspections to confirm landlord compliance. Whenever the tenants state that no work has been done, or an inspector observes that the condition has not been corrected, the violation is forwarded to the Emergency Repair Program (ERP) for corrective action.

Emergency conditions that the owner fails or refuses to abate, or for which an owner cannot be identified, are referred to ERP for correction, either by in-house workers or contractors. ESB supervisory staff reviews all such

referrals to ensure that all avenues for contacting the owner have been exhausted and all necessary information is present on the electronic referral.

Van Cortlandt / Pelham Bay Parks Special Administrators' Office

The Van Cortlandt/Pelham Bay Parks Administrators' Offices provides services for two major parks serving low- and moderate-income residents of the Bronx. The Pelham Bay Administrator is covered by Tax Levy funds and the Van Cortlandt Administrator is CD-funded. However, the two administrators collaborate closely and substitute for each other in the absence of one, to the benefit of both parks. The CD-funded Natural Areas Manager is solely dedicated to Pelham Bay Park, while a forest restoration team funded by the Department of Environmental Protection is meeting Van Cortlandt's naturalist needs. Each park also has a CD-funded position dedicated to the area of special events. The remaining staff supports the efforts of both parks through community outreach, wildlife management, and clerical assistance. The two administrators jointly supervise the office, which offers the following services:

- Coordination of conservation and recreation activities;
- Coordination and implementation of special projects and events;
- Coordination of public programs;
- Coordination and implementation of volunteer programs;
- Administrative and liaison functions with the Van Cortlandt Park Conservancy, the Friends of Van Cortlandt Park, Friends of Pelham Bay Park, and other community and user groups;
- Public relations and community outreach;
- Coordination of capital planning; and
- Delivery of services to ensure park security.

Funds may also be used to purchase equipment when available.

A federally-funded user study of Van Cortlandt and Pelham Bay Parks indicated the majority of visitors to the Parks come from CD-eligible Bronx census tracts. Van Cortlandt Park is adjacent to the Kingsbridge, Norwood, and Woodlawn communities; Pelham Bay Park is adjacent to the neighborhoods of Co-op City, Pelham Bay, and City Island. Both parks are easily accessible by public transportation.

HOME Investment Partnerships

HOME is a Federal grant program designed to serve low-income renters and owners, as well as, homeless families and individuals. HPD estimates that the majority of its grant will be targeted for substantial and moderate rehabilitation activities designed to benefit a range of small and large households, homeless families and individuals, and elderly families. In addition, the HOME grant may be used toward homeownership, rental assistance, planning, administration and to refinance loans. During calendar year 2010, HPD will use HOME funds in the following programs:

HPD Administration;
Neighborhood Entrepreneurs Program (NEP);
Neighborhood Redevelopment Program (NRP);
Participation Loan Program (PLP);
Supportive Housing Program;
Third Party Transfer Program;
Multifamily Homeownership (formerly the Cornerstone Program);
Article 8-A Loan Program;
Small Homes Scattered Sites (New Foundations);
HUD Multifamily;
HUD Multifamily Rental Mixed Income;
Low Income Rental Program (formerly New MIRP);

HUD Section 202 Program; and
HomeFirst Down payment Assistance Program.

HUD HOME regulations require municipalities which receive program entitlement funds to disburse the funds within five (5) years from the start of the given year's grant agreement. Therefore, the City is expected to completely expend 2010 program year funds by the end of 2014.

Please refer to the descriptions of these HPD programs in this section of the Consolidated Plan.

HPD Administration

HOME administrative funds are used for overall program management, coordination, monitoring, and evaluation. HOME-funded HPD staff perform primarily HOME-related functions, such as conduct the planning reviews to determine which buildings and units should be included in the program; working with contractors to resolve issues related to the rehabilitation of buildings; reviewing information and acting as liaison between tenant and landlord; and coordinating compliance with additional regulations, such as lead paint notification.

HPD staff also perform functions for developing agreements with entities receiving HOME funds; prepare required HOME reports and forms; perform loan underwriting; including all preliminary feasibility reviews based on hard and soft cost estimates and other variables; coordinate various tenant briefing and notice functions; provide advisory and other relocation services to persons temporarily displaced by HOME projects; ensure adherence to all rent, income and affordability requirements; verify that all other federal requirements, such as equal opportunity and environmental reviews, have been met; conduct reviews of outside contractors, perform complete marketing of projects; provide information and other resources to residents and citizen organizations participating in the planning implementation or assessment of projects being assisted with HOME funds; preparation of the Consolidated Plan; coordinate the resolution of audit and monitoring findings; perform accounting and record keeping functions; manage or supervise staff whose primary responsibilities with regard to the program include such assignments as those described above.

HPD also utilizes the administrative funds for fringe benefits and citywide indirect costs for HOME-funded staff.

Neighborhood Entrepreneurs Program (NEP)

The Neighborhood Entrepreneurs Program (NEP) identifies neighborhood based property managers and developers to manage and oversee the rehabilitation and subsequently own occupied and vacant City-owned buildings. By focusing on small locally based entrepreneurs, the program hopes to rebuild local real estate capacity in addition to ensuring quality management and maintenance for the buildings. Buildings selected for this program are net leased to the Neighborhood Partnership Housing Development Fund Company (NPHDFC) who simultaneously enter into a management agreement with the entrepreneurs. During the lease period, the NPHDFC provides financial and technical assistance to the entrepreneurs and links the owners and managers to participating construction lenders. HPD will then lease the buildings to the NPHDFC along with a commitment for the major portion of its financing. Proceeds from the sale of Federal Low Income Housing Tax Credits provide for the remaining portion of the construction loan financing as well as operating reserves to ensure that the tenants can pay affordable rent while the project is economically viable.

Neighborhood Redevelopment Program

The Neighborhood Redevelopment Program (NRP) provides financing to enable experienced locally-based not-for-profit organizations to acquire and rehabilitate occupied City-owned buildings. Federal HOME and City Capital funds constitute the construction loans that provide the financing for the rehabilitation of these buildings. The loans are funded by HPD and serviced by the NYC Housing Development Corporation (HDC) and carry a nominal interest rate of one percent of which the federally funded portion is for the term of the loan up to 15 years. Buildings and the not-for-profit participants are selected by HPD based on technical and planning criteria. The selected buildings receive an HPD approved scope of work for substantial rehabilitation, which includes the installation, replacement or repair of building systems, the correction of inadequate, unsafe, or unsanitary conditions and the creation of lead safe apartments. Post-rehabilitation rents are set by HPD at a level affordable to generally

low and moderate-income existing tenants and the apartments are then entered into the New York Rent Stabilization System. Federal Low Income Housing Tax Credits provide operating reserves to ensure that tenants can pay affordable rent while the project is economically viable. Existing tenants (70% to 75% of total units) are overwhelming very low income households; however, vacant units may be rented to moderate or even middle income families with incomes not to exceed 80% of the area median. All renter types benefit from this program.

Participation Loan Program (Gut/Mod)

The Participation Loan Program provides low-interest loans to private owners for the moderate-to-gut rehabilitation of multiple dwellings with more than twenty units. City funds at one percent interest are combined with market-rate bank financing to provide a below market interest rate loan. Funds may also be used for refinancing in conjunction with rehabilitation.

After rehabilitation, real property taxes may be eligible for abatement through the J-51 Program and all apartments are placed under New York State's Rent Stabilization System. In vacant buildings, depending on the allocation of funding sources, rents are set either at HOME Program levels or up to the area market rate. The program provides an average combined City and HOME subsidy per unit of approximately \$55,000.

The Supportive Housing Program

HPD's Supportive Housing Program (formerly known as SRO Loan Program) funds the acquisition and new construction or rehabilitation of properties by not for profit organizations for the purpose of developing new permanent housing for homeless and low income single adults. Many projects also provide for the supportive services needs of those residents with special needs, i.e., mental illness histories of substance abuse and AIDS related illness.

The required tenant mix of all SRO Loan Program funded projects is 60 percent homeless (referred by DHS's Shelter Placement Division, HRA's HIV/AIDS Services Administration (HASA) or HPD's Division of Relocation Operations) and 40% low income and community referrals. Most homeless rentals are to individuals with annual gross incomes of no greater than 50 percent of median; non homeless rental eligibility requires individual median incomes of no greater than 60 percent of median.

Loans are funded under Article 8, and 11 of the State Private Housing Finance Law and are provided at zero or one percent interest for terms of up to 30 years. Support and operating subsidies are funded through the use of Section 8 and McKinney Program Rental Assistance, DHS SRO Support Services contracts, Department of Mental Health Community Support Service contracts, or HRA contracts for support services for PWAs. In addition, many projects obtain an allocation of tax credits from the Federal Low Income Tax Credit Program. Proceeds of the sale of these credits are used to fund social service and operating reserves.

Third Party Transfer

The Third Party Transfer Program (TPT) is result of landmark 1996 City of New York legislation (Local Law 37) designed to improve real property tax collection while more effectively preserving residential housing in the City. The legislation allows the City, pursuant to a judgment of foreclosure by the court, to transfer title of tax delinquent and distressed residential properties directly from former owners to responsible new owners without ever taking title itself. The new owners remove housing code violations and rehabilitate the properties without permanently displacing existing tenants, thus improving the City's stock of decent and affordable housing.

HPD creates a list of "Qualified Developers" through a Request for Qualifications process. The Qualified Developers typically seek HPD financing to rehabilitate the properties through an appropriate loan program, such as the Participation Loan Program (PLP), the Small Buildings Loan Program, the Article 8A Loan Program, or the Supportive Housing Loan Program. Qualified Developers will be required to meet applicable program guidelines and have scopes of work approved by HPD. In addition, projects may be eligible for HPD tax incentive programs. HOME funds may also be used, but their use will be restricted to buildings that are fully vacant during the construction period and whose after-rehab rents will conform to HOME guidelines.

Once a loan has been closed and title has been transferred to the Qualified Developers, rehabilitation, lease-up, and management of the properties must commence in accordance with the terms and schedules. Upon completion of rehabilitation, rents are established which are affordable to current tenants and all rents will be stabilized.

Multifamily Homeownership (formerly the Cornerstone Program);

Under HPD's Multifamily Homeownership Loan Program, sponsors may be selected to construct buildings to create 1-4 family homes, multifamily cooperative units and developments and multifamily condominium units and developments. The buildings may also contain commercial space and community facilities. The objective of the program is to provide funds to facilitate that creation of low-income, moderate-income and middle-income homeownership opportunities for new construction projects on City-owned land and private property. Eligible borrowers include limited partnerships, corporations, trusts, joint ventures, limited liability corporations, and 501(c) 3 corporations. The development team must have demonstrated a record in successfully developing and marketing the type of facilities proposed.

Construction financing may be provided through loans from private institutional lenders and, in some cases, loans from public sources including, but not limited to, New York City Department of Housing Preservation and Development (HPD), the New York City Housing Development Corporation (HDC), the New York State Housing Finance Agency (HFA), and the United State Department of Housing and Urban Development (HUD). For lease-to-purchase projects, financing may also be provided from the syndication of low income housing tax credits (LIHTC).

Upon completion of construction, the sponsor sells the homes to eligible purchasers.

Article 8-A Loan Program

The Article 8-A loan Program provides low-interest funding for the rehabilitation for privately owned multiple dwellings and is authorized by the New York State Private Housing Finance Law. Loan proceeds are to be used for the replacement of systems that prolong the useful life of the building or to remove substandard conditions that are violations of either the New York State Multiple Dwelling Law or local housing code including but not limited to Lead Law 1. They cannot be used for acquisition or debt refinancing. The owner must demonstrate an inability to obtain private financing. The buildings must be occupied by low-income tenants with rents not to exceed the average rent or carrying charges in New York City-aided Article 2 housing companies.

The maximum loan amount is currently \$35,000 per dwelling unit; this cap is inclusive of any of HPD' subsidy, capital or federal funds. The interest rate for the loan is generally 3% with the maximum loan term being 30 years regardless of size or funding level. The owner/developer may leverage any warranted funds in excess of the maximum with private financing sources.

Small Homes Scattered Sites (New Foundations)

HPD has established this Program as a streamlined model to make homeownership a reality for more New Yorkers and, in turn, enhance the City's community revitalization efforts. By capitalizing on the strong real estate market, created in part by previous and current HPD investment through the New Foundations program, the New York City Housing Partnership and other City initiatives, the program targets infill sites in city neighborhoods to provide affordable homeownership opportunities. To accomplish this, assemblages ("Clusters") of City-owned vacant lots ("Sites") are conveyed to qualified respondents who in turn construct one-to-four family homes or cooperative/condominium units and sell them to eligible low, moderate and middle-income purchasers. The Program strives to increase the opportunities for small, neighborhood-based developers as well as not-for-profits to participate in the development process and encourages such entities to apply. New Foundations is a mixed-income program that seeks to maximize homeowner affordability and income diversity. The intent is to develop projects that include sales prices that are affordable to a range of incomes and provide as many affordable units as is financially feasible for low, moderate and middle-income purchasers. Within a project at least one third of the units must be affordable to households earning up to 80 percent of area median income (AMI). Additional consideration is given to those projects that target an additional one-third of the units to households earning between 80 percent and 100 percent of AMI, and the balance to households earning between 100 and 130 percent of AMI.

HUD Multifamily Program

HPD has created its HUD Multifamily Preservation Loan Program to facilitate workouts of troubled projects with existing HUD mortgages and/or use restrictions that are facing HUD foreclosure, at risk of a market conversion, or facing similar challenges to financing acquisition or rehabilitation while maintaining affordability. As part of the program, HUD requires assisted projects to be restricted to families at or below 80% of Area Median Income (AMI) for extended time periods pursuant to use agreements and/or by requiring long-term renewal of a Housing Assistance Payments contract. HPD's HUD Multifamily Preservation Loan Program will provide a low-interest loan (1%) to preserve and rehabilitate housing for low- to moderate-income households.

Multifamily Rental Mixed Income

Multifamily Rental Mixed Income sponsors the new construction of mixed income multifamily rental projects on public or privately owned land that will be affordable to low income and middle income households up to 165% of New York City's HUD Income Limit. The buildings may also contain commercial space and/or community facilities. HPD will provide a direct subsidy of up to \$85,000 per unit to leverage construction and permanent financing from sources such as private institutional lenders, taxable or tax exempt bond financing from the New York City Housing Development Corporation, and the syndication of low income housing tax credits.

Low Income Rental Program (formerly New MIRP)

Low Income Rental Program sponsors the construction of multifamily rental projects on public or private land that will be affordable to households earning up to 60% of New York City's HUD Income Limit. Projects must have a unit set aside of at least 20% for formerly homeless families or 20% for households earning up to 40% New York City's HUD Income Limit. HPD will provide a direct subsidy of up to \$60,000 per unit to leverage construction and permanent financing from sources such as private institutional lenders, tax exempt bond financing, and the syndication of low income housing tax credits.

HUD Section 202 Program

The HUD Section 202 Program develops permanent affordable housing for low-income elderly individuals. Tenants must earn no more than 50% of the Area Median Income (AMI). Tenants pay 30% of their income in rent and HUD pays for project-based rental assistance to cover remaining operating costs. Eligible Borrowers: Not-for-profit organizations. Terms: HUD Section 202 provides forgivable loans that are repayable only in the event that the sponsor does not comply with the regulatory agreement. The term of the loan is 40 years. Sites: Projects may be on city-owned or privately owned sites. Design: A typical project consists of studio and one-bedroom apartments. Rehabilitation of existing buildings is also eligible but these cases are relatively rare. An average project is between 60-90 units. Eligible Tenants: 100% of apartments must be for senior citizens earning less than 50% of Area Median Income. Because the HUD Section 202 program includes rental assistance, tenant income can be far lower than the 50% of AMI income cap. Rental Assistance: HUD Provides a Project Rental Assistance Contract (PRAC) for HUD Section 202 projects. Sponsors submit an operating budget for HUD's review, and HUD pays the difference between the operating costs and the tenant rent. Typical Loan: Presently the HUD Section 202 maximum is approximately \$124,000 for a studio and \$142,000 for a one-bedroom apartment. Pipeline HPD Subsidy: In the past, HPD subsidy was provided by City Council subsidies. In 2008, gap financing on many projects will be provided through HOME funds.

HomeFirst Down Payment Assistance Program

The Homefirst Program offers down payment assistance to first-time homebuyers. Eligible homebuyers can qualify for a forgivable loan to use toward down payment and/or closing costs on a one- to four- family home, condominium, or cooperative purchased in one of the five boroughs of New York City. The amount of the forgivable loan will be up to six per cent (6%) of the purchase price of the home.

Eligible borrowers must be first-time homebuyers with a maximum annual household income up to 80% of Area Median Income (AMI) (as of February 2009 that amount is \$61,450 for a family of four, adjustable for family size); purchase a one- to four-family home, condominium, or cooperative in one of the five boroughs of New York City; have a satisfactory employment history to qualify for a mortgage loan; have their own savings to contribute toward

down payment and closing costs; successfully complete a homebuyer education course with an HPD-approved counseling agency; and occupy the property as their primary residence for at least ten years.

Emergency Solutions Grant

The Emergency Solutions Grant (ESG) Program, formerly the Emergency Solutions Grant, is one of several federal grant programs authorized by the Stewart B. McKinney Homeless Assistance Act. Unlike other McKinney Programs, it is a formula grant to the City, rather than a competitive award. The administering agency for the City of New York is the Department of Homeless Services. ESG funds are also dispersed to other city agencies and to non-profit providers. There are five categories of eligible activities under ESG regulations: homelessness prevention, rapid rehousing, services to the homeless, shelter renovations, operating costs, and grant administration.

The City will divide the funds among three HUD eligible activities as follows: 10 percent for homeless prevention, 82 percent for services to the homeless, and the rest (8 percent) to shelter operations. The prevention programs target individuals or families at risk of homelessness, or those who have been recently placed into permanent housing and are at risk of returning to the shelter system. Services for these homeless programs primarily target sub-populations, such as the mentally-ill living on the street, as well as those living in shelters, recovering substance abusers and others, which would otherwise not receive special assistance (for example, victims of domestic violence who are staying in family homeless shelters rather than domestic violence shelters for reasons of space or security). A complete description of ESG-funded programs is in the Supportive Housing Continuum of Care section.

HUD ESG regulations require municipalities that receive Emergency Solutions Grant entitlement funds to disburse the funds within two years from the start of the given year's grant agreement. The City of New York expends ESG funds on a 'first-in-first-out' (FIFO) basis. Therefore, the City will not use 2010 ESG monies to fund homeless shelter-related activities until the 2009 funds are fully expended. However, the requested 2010 ESG program year funds will be completely expended by the end of 2011.

Homeless Prevention

HPD will release an RFP for Homelessness Prevention Services in CFY 2010 for services to establish a comprehensive evaluation process to identify households receiving Section 8 rental subsidies administered by HPD who are at risk of losing their Section 8 voucher and becoming homeless due to: being in arrears on rent; either Housing Assistance Payments ("HAP") owed by HPD or the tenant portion thereof; Housing Quality Standard ("HQS") failure (subsidy suspended); failure to recertify; unprocessed rent increases; building foreclosure; or building conversion. Other households eligible for services would be tenants at risk of losing their vouchers due to mental illness, substance abuse, domestic violence or other cognitive problems due to age or health.

HPD's overall goals and objectives for the services solicited through this RFP are:

- Realization of short- and long-term housing stability for existing and relocated Section 8 voucher holders;
- Reduction in the use of shelters for housing;
- Maintain family and employment continuity;
- Reduction to the human and social costs of homelessness;
- Target population to receive short term/crisis intervention, and general services to prevent HCV families from risk of homelessness due to voucher loss;
- Target population to receive case management services focused on maintaining Section 8 housing subsidy status to tenants who are at risk of losing their voucher and becoming homeless under specific circumstances; and
- Target population would receive funding to secure short term financial assistance under specific circumstances.

HPD awarded three community based service providers, Citizens Advice Bureau in the Bronx, Catholic Charities in Manhattan and Church Avenue Merchants Block Association Inc. in Brooklyn three year contracts to provide these services in their respective boroughs. The contracts are in the registration process now.

Services to the Homeless

ESG-funded services to the homeless include programs serving a wide range of discrete subpopulations of the homeless, including: programs providing support for recovering substance abusers; substance abuse treatment; mental health services; services for battered women and their children; transitional housing for youth; interim housing for street homeless who are awaiting permanent supportive housing placements; employment services, intensive housing placement service; and other programs that would not otherwise exist to provide special assistance.

These programs are integrated into the City's overall Supportive Housing Continuum of Care, filling gaps in funding and programming. The programs include:

Employment Programs

Manhattan	Harlem I/Doe Fund
Citywide	DHS Employment/Intake & Assessment
Citywide	DHS Employment Counselors

The Harlem I program, operated by the Doe Fund, is expected to be funded at \$266,392. The Employment/Intake & Assessment Program, serving the entire City, is expected to be funded at \$215,000, and the Citywide DHS Employment Counselors are expected to be funded at \$341,853.

The Harlem I program in Manhattan serves 198 adult men in a substance-free environment, and stresses the importance of saving money and behaving responsibly. The program assists residents with employment readiness, including career counseling, job search assistance and placement services. To ensure a smooth and lasting transition to employment, stable housing and substance-free independent living, residents who have moved out of the facility are encouraged to meet with aftercare counselors at least twice monthly. The Performance Incentive Program sets targets for long-term housing placements that are to be achieved annually. Harlem expects to place 198 clients in 2010.

Employment/Intake & Assessment – Four (4) DHS staff members provide employment counseling at various adult shelters throughout the system. Workshops on employment readiness, resume writing, and interviewing techniques are conducted.

Five (5) DHS staff members in the Adult Services Division provide case management and placement services to clients through DHS initiatives to move the homeless single adult population into permanent housing more expeditiously. These initiatives are all focused on reducing the length of stay and averting chronic homelessness in DHS shelters.

Interim Housing Program

Manhattan	The Grand Central Drop-In Center
-----------	----------------------------------

In drop-in centers, clients are provided food, showers/bathroom facilities, clothing, and chairs to rest. Clients are also provided on-site case managers and housing specialists who work with them to provide transitional shelter or optimally, permanent housing. Drop-in centers also provide various support systems to enable clients to live independently and to be reconnected to the community in a positive way. Clients are advised as to the various entitlements they may be eligible and are assisted in navigating the system to attain them. Clients are also provided episodic medical care and psychiatric assessment. Many clients are also linked to the emergency faith bed network system which provides dinner and overnight sleeping accommodations at participating churches and synagogues.

Approximately \$65,550 is requested for this activity at The Grand Central Drop-in Center.

Mental Health Programs

Brooklyn	Mental Health Program-Brooklyn Help Women's Center/HELP USA
Manhattan	Valley Lodge/West Side Federation for Senior and Supportive Housing
Manhattan	Project Renewal's Fort Washington Shelter

Manhattan Park Avenue Shelter/Lenox Hill Neighborhood House
Brooklyn Park Slope Shelter/CAMBA

The Mental Health Program at the Help Women's Center - TLC is expected to be funded at \$97,175, Valley Lodge is expected to be funded at \$141,467, Project Renewal's Fort Washington Shelter is expected to be funded at \$286,294, the Park Avenue Shelter is expected to be funded at \$239,549 and the Park Slope Shelter is expected to be funded at \$246,056.

The Mental Health Program at the Help Women's Center - TLC provides intensive clinical case management to seriously and persistently mentally ill residents at the Help Women's Center. Services include individual counseling, therapeutic group work, crisis intervention, psycho-education, community meetings and recreational activities. Program services include entitlement advocacy, psychiatric evaluations, clinical case management, referrals to medical, psychiatric, and substance abuse treatment, medication monitoring and enhancing ADL skills and money management. This program is administered by the Department of Health and Mental Hygiene Health (DoHMH). HWC-TLC expects to place 52 clients into permanent housing in 2010.

Valley Lodge is a transitional shelter serving 50 homeless men and 42 homeless women fifty years of age and older, including those with medical problems, mental illness, and a history of alcohol and substance abuse. An array of services is available to residents on-site, including assistance with medication management, a medical team, visiting nurse, psychiatric services from psychiatrists, podiatry clinic, glucose level and blood pressure monitoring, smoking cessation, diet and nutrition information, money management, case management services, entitlement advocacy, referrals for housing placement and recreational activities. Valley Lodge expects to place 92 clients into permanent housing in 2010.

Project Renewal's Fort Washington Shelter provides shelter and mental health services to two hundred adult male mentally ill clients. There are three psychiatric treatment programs on site. These programs include the Social Service Treatment Team, Project Pride and Project Steps. Each program offers psychiatric and nursing care, case management, individual and group therapy, recreational activities, entitlements advocacy and housing referrals. Each team has its own case managers and psychiatrists. Each client is expected to visit a psychiatrist while at the facility. Case managers work with clients to assist them in achieving therapeutic goals. Fort Washington expects to place 200 clients into permanent housing in 2010.

The Park Avenue Shelter operated by the Lenox Hill Neighborhood House serves 84 homeless adult women 45 years of age and older with a primary psychiatric diagnosis and long-term history of homelessness. Women currently using drugs or alcohol are not appropriate. The goal of the program is to create a safe, clean and motivating environment to engage women in treatment. A variety of social and recreational services are available for client participation. Park Avenue expects to place 84 clients into permanent housing this year.

The Park Slope Shelter operated by CAMBA is a 70-bed facility for women with serious mental illness and a co-existing substance abuse problem. The shelter provides an array of social services to enable women to stabilize their condition. Medication management, behavior modification, psycho-education, literacy services, substance abuse services, money management, housing readiness skills development, recreational activities, and other therapeutic programs assist residents in making progress towards a goal of independent or supportive housing. Park Slope expects to place 70 clients into permanent housing this year.

Outreach Programs

DHS and DOHMH jointly fund 4 outreach programs that serve all 5 boroughs of New York City (Brooklyn and Queens are combined). The contracts are organized in such a way that provides a single point of accountability for street homeless clients in each borough. These contracts are based on a milestone payment structure where a percentage of program's budget is paid when a retention period in housing is met. Outreach programs are to focus primarily on transitional and permanent housing placement of chronically homeless clients in an effort to reduce the street census. Teams coordinate services and make placements in drop-in centers, safe havens, stabilization beds, reception centers, shelters and many different permanent housing options. Many of these placements also provide

homeless individuals with meals, counseling, medical/psychiatric services, showers, laundry facilities, some clothing, recreation space, referrals for employment, assistance in applying for benefits, and other social services.

The projected target for Calendar Year 2010 is approximately 900 individuals, which is calculated based on the number of chronically homeless street clients placed, instead of the number of clients contacted. The new projected accomplishment numbers will be a better measure of the work these outreach programs are doing as they now focus on quality contacts and placements rather than just the quantity of contacts.

\$140,798 is requested for the Bronx, \$278,996 is requested for Queens and Brooklyn, and \$362,156 is requested for Citywide.

Program and Housing Placement

Citywide	DHS Placement Facilitation Unit
Citywide	SCO Family Services

DHS Placement Facilitation Unit is expected to be funded at \$347,322, and SCO Family of Services is expected to be funded at \$98,217.

DHS Placement Facilitation Unit is responsible for developing and helping to fund supportive SROs and other transitional and permanent housing options for clients exiting the transitional system. This unit works closely with shelter staff to identify, engage, and place as many shelter residents as possible into programs and housing. The projected target for Calendar Year 2010 is at least 8000 single adults.

SCO Family of Services operates a transitional independent living program, which offers services for mothers and their children. The program also provides emergency shelter and other supportive services for young adults between the ages of 16 – 21. DHS contracts out this service to the Department of Youth and Community Development (DYCD). The projected target for CFY 2010 is approximately 30 young people.

DHS Office of Client Advocacy

DHS's Office of Client Advocacy (OCA) provides a voice for clients within DHS by mediating conflicts between shelter staff and clients, assisting clients to overcome barriers to permanent housing, interacting with other agencies and organizations on behalf of clients, and addressing phone and walk-in inquiries. The OCA is responsible for assisting clients in navigating the service system and bringing systemic issues to the attention of DHS and providers. The staff assists clients with a wide array of challenges. The staff encourages clients to first work with caseworkers or shelter staff to resolve individual issues. The OCA also facilitates monthly Client Meetings with both single adults & families. Individuals and families can contact a staff member between the hours of 9:00 A.M. to 5:00 P.M., Monday through Friday, and the OCA has a hotline that records messages 24 hours a day. Messages left after hours are responded to the next business day. The OCA works with clients who come to our office for emergencies Mondays through Thursdays from 9-5. Staff is located at Beaver Street as well as the Family Intake Center – PATH. The OCA travels to shelters, drop-in facilities and street locations to work with clients make presentations and participate in case conferences. During CFY 2009, the unit had a total of completed 5,953 cases.

This program will be funded at \$914,438.

Substance Abuse Counselors

Citywide	Addiction Treatment Counselors
----------	--------------------------------

Addiction Treatment Counselors are members of the Clean and Sober Program, serving 46 homeless adult clients, at Barbara Kleiman Residence . These programs stress peer-support and substance abuse counseling in the framework of work-readiness training and job experience. The Performance Incentive Program housing placement target for calendar year 2010 is 46 placements for this program.

This program will be funded at \$431,096.

Substance Abuse Programs

Manhattan Kenton Shelter
Manhattan Forbell Shelter

The Kenton Shelter is expected to be funded at \$202,952, and the Forbell Shelter is expected to be funded at \$239,761, respectively.

The Kenton Shelter provides substance abuse services to 100 men. These services include substance abuse prevention, education, and drug prevention workshops. Both individual and group counseling are provided. The program expects to place 100 clients into permanent housing in 2010.

The Forbell Shelter provides substance abuse services to 194 men. These services include substance abuse prevention, education, and drug prevention workshops. Both individual and group counseling are provided. The site expects to place 194 clients into permanent housing this year.

Next Step Programs

Manhattan Willow Next Step Women’s Shelter /Palladia
Brooklyn Pamoja House/Black Vets for Social Justice
Queens Jamaica Next Step Women’s Shelter /VOA

Willow, Pamoja, and Jamaica House are Next Step shelters. These programs serve clients in a more structured and service intensive environment, who have not been successful in the completing the goals of their independent living plan. Some of the highlights of the Next Step programs are the establishment of a detailed independent living plan (ILP) with clear, concrete deliverables with specific target dates for completion; a rich array of life skills-building workshops and motivational group work; rewards for compliance with the ILP and consequences for non-compliance; and intensive case management and daily client engagement.

The Willow Next Step program serves 50 clients, and 50 clients are expected to be placed into permanent housing in 2010. This program is expected to be funded at \$220,000.

The Pamoja House program in Brooklyn, operated by Black Veterans for Social Justice, serves 200 adult men. The shelter expects to place 200 clients in 2010. It is expected to be funded at \$218,534.

Jamaica Next Step Women’s Shelter provides services to 50 chronically homeless women. This program is expected to be funded at \$212,698.

Social Services

Police Athletic League Play Street
Brooklyn Flatlands Fernandez Family Center
Bronx Eddie Fernandez Family Center
Manhattan Jennie Clark Family Center
Bronx University Family Center
Bronx Michael Breslin Family Center

PAL - Police Athletic League Play Street sites operate at the above shelters. Activities include team sports, arts and crafts, counseling and training. These programs operate from July through August.

\$12,500 is requested for each of the above mentioned facility for CFY 2010.

Safe Haven Programs

Manhattan BRC Safe Haven
Manhattan The Lexington Safe Haven

Bronx VOA Safe Haven

Safe Havens are a low threshold transitional housing alternative, developed with feedback from clients who repeatedly refused to enter shelter. Safe Havens tend to be smaller, with fewer rules. They also have private or semi-private client rooms. Outreach teams are the sole referral source for these programs.

The BRC Safe Haven program expanded to 52 beds in January 2009, which was originally opened with 19 beds. This program is expected to be funded at \$226,000.

The Lexington Safe Haven program opened in January 2009 as a 36 person facility, which includes room for 3 couples. The facility is currently expanding to a capacity of 41. This program is expected to be funded at \$200,000.

The VOA Safe Haven program is an 80-bed facility in the Bronx. 40 of the 80 beds are reserved for homeless veterans and are partially funded by the Grant Per Diem program from the VA. This program is expected to be funded at \$432,651.

Shelter Operating Costs

ESG funds are used to provide basic operating costs for City-operated shelters housing homeless individuals and homeless families. This may include supplies and equipment, food, transportation, or other operating costs other than staff costs. Operating funds are also used to support the operations for the adult shelter programs. Please refer to the Supportive Housing Continuum of Care for more information. DHS is expected to budget \$639,995 for this activity.

Housing Opportunities for Persons with AIDS

The Housing Opportunities for Persons with AIDS (HOPWA) Program provides the resources and the incentives to devise and implement comprehensive, long-term strategies to meet the housing needs of persons living with HIV/AIDS and their families.

The HOPWA Program differs from other formula grant programs insofar as the City receives an allocation for the entire Eligible Metropolitan Statistical Area (EMSA). The EMSA is comprised of the five boroughs of the City of New York plus five upstate jurisdictions, including the cities of Mount Vernon, Yonkers, and the counties of Putnam, Rockland and Westchester. The EMSA jurisdictions expect to receive approximately \$2,667,783 of this grant. The County of Westchester administers the allocation for the cities of Mount Vernon and Yonkers since both municipalities are located in Westchester County. See the section titled, HOPWA EMSA for a complete description of each jurisdiction's proposal.

HUD HOPWA regulations require municipalities that receive program entitlement funds to commit funds no later than September 30, 2011 and to expend funds within three (3) years of the commitment. Therefore, the City is expected to completely expend 2010 program year funds by September 30, 2014.

Human Resources Administration: HIV/AIDS Services Administration (HASA) Case Management and Support Services

HASA case workers facilitate client access to – and maintenance of – emergency, transitional, and permanent supportive housing, as well as on-going rental assistance. In addition to housing issues, HASA clients and their families often present a multiplicity of other needs. Case management and support staff conduct needs assessments for all clients to determine the need for other appropriate benefits and services, such as cash assistance, nutrition and transportation payments, and housing related benefits (e.g., rent arrears payments, home furnishings, moving costs, and security deposits). Case workers refer clients to Medicaid, home care, homemaker services, Food Stamps, federal disability benefits, and community based mental health and substance abuse programs.

In Grant Year 2010, HASA anticipates supporting over 30,000 cases. HASA's caseload will include over 25,000 single cases, nearly 5,000 family cases, and over 14,000 family members (i.e., non-medically eligible members of cases). As of July 2009, over 30,000 individuals and families were receiving direct housing services through HASA.

\$1,000,000 in HOPWA funds will support HASA case management and support service personnel. Eligible

activities include:

- Housing information services including, but not limited to, counseling, information and referral to assist an eligible person to locate, acquire, finance and maintain housing;
- Supportive services including, but not limited to, assessment, permanent housing placement, assistance in gaining access to local, State and Federal government benefits and services.

Number of Persons Served and Timeframe: Over 44,500 individuals and their family members will receive coordinated case management and support services in Calendar Year 2010.

**Human Resources Administration: HIV/AIDS Services Administration (HASA)
Supportive Housing Contracts**

Transitional and permanent supportive housing remain significant and necessary components of the continuum of housing opportunities for New Yorkers living with HIV/AIDS. This funding will support contracts administered by HASA for transitional congregate facilities, permanent congregate facilities, and permanent scattered-site supportive housing programs.

During Grant Year 2010, of the \$32,545,847 HOPWA grant funds awarded to HASA, \$31,545,847 is allocated to HASA supportive housing contracts, while the remaining \$1,000,000 is allocated to HASA case management and support services.

Eligible activities include:

- Operating costs for housing including maintenance, security, operation, insurance, utilities, furnishings, equipment, supplies and other incidental costs;
- Supportive services including, but not limited to, assessment, permanent housing placement, assistance in gaining access to local, State and Federal government benefits and services.

Number of Persons Served and Timeframe: This funding will support an estimated 2,388 transitional and permanent supportive housing units.

Department of Health and Mental Hygiene: Bureau of HIV/AIDS Prevention & Control

The NYC Department of Health and Mental Hygiene – Bureau of HIV/AIDS Prevention & Control (BHAPC) directly administers 22 subcontracts with 15 nonprofit community-based organizations throughout New York City. HOPWA services that will be provided under the supervision of BHAPC in Grant Year 2010 include the following:

Housing Placement Assistance:

Bronx	Osborne Association
Brooklyn	Brooklyn AIDS Taskforce
Manhattan	African Services Committee
Queens	AIDS Center of Queens County
Staten Island	Project Hospitality

The housing placement assistance programs provide housing information services to persons living with HIV/AIDS (PLWHA). These programs assist PLWHA locate and secure permanent housing; however, emergency/transitional housing may be used while permanent housing is being actively sought. Services also include short-term case management services, securing housing subsidies, and providing short-term rental, utility and security deposit payments to prevent or end homelessness as needed.

Administration of a Sustainable Living Fund

Citywide	Gay Men's Health Crisis
----------	-------------------------

The Sustainable Living Fund distributes short-term rental subsidies, long-term rental subsidies, and rental start-up. Short-term rental subsidies are provided as emergency assistance to prevent eviction and homelessness.

Emergency Low-threshold Supportive Housing for Adolescents/Young Adults

Citywide

Ali Forney Center

This supportive housing program targeting adolescents and young adults provides low-threshold emergency housing for HIV-infected and at-risk homeless street youth. This program links homeless young adults to appropriate case management, medical care, and other supportive services. Other services provided include workshops and training in basic skills, basic educational and literacy, and employment readiness.

Permanent Supportive Housing

Queens	AIDS Center of Queens County (Dually-Diagnosed/Harm Reduction)
Citywide	AIDS Center of Queens County (Parolees/Releasees)
Brooklyn	CAMBA, Inc. (Dually-Diagnosed/Harm Reduction)
Brooklyn	CAMBA, Inc. (Dually-Diagnosed/Harm Reduction)
Brooklyn	CAMBA (Dually-Diagnosed/Mental Illness/Harm Reduction)
Citywide	Catholic Charities Neighborhood Services (Difficult to Serve Individuals)
Citywide	The Fortune Society (Parolees/Releasees)
Citywide	FECS (Dually-Diagnosed/Mental Illness/Harm Reduction)
Citywide	Harlem United (Women with Mental Illness)
Citywide	Harlem United (Women with Children)
Citywide	Institute for Community Living (Dually-Diagnosed/Mental Illness/Harm Reduction)
Citywide	MTI Residential Services (Dually-Diagnosed/Mental Illness/Harm Reduction)
Staten Island	Project Hospitality (Dually-Diagnosed/Harm Reduction)
Staten Island	Project Hospitality (Dually-Diagnosed/Mental Illness/Harm Reduction)
Citywide	Services for the Underserved (Persons with AIDS Age 55 and Over)

These adult supportive housing programs identify, secure, and provide appropriate emergency, transitional, and permanent housing for the following target HIV/AIDS populations: women with mental illness; women with children; persons with AIDS age 55 and over; difficult to serve individuals; parolees and releasees; dually diagnosed individuals and families in need of harm reduction services; and dually- and/or triply diagnosed individuals and families with mental illness in need of harm reduction services. Other service elements include on-site case management, harm reduction, care coordination, mental health, substance abuse, and other supportive services as needed.

The City of New York intends to allocate \$15,941,132 of HOPWA funding to these programs. Eligible activities include:

- Housing information services including, but not limited to, counseling, information, and referral to assist an eligible person to locate, acquire, finance and maintain housing;
- Tenant-based rental assistance;
- Short-term rent rental assistance to prevent homelessness of the tenant of a dwelling;
- Supportive services including, but not limited to, assessment, mental health counseling and assessment, drug and alcohol abuse counseling, permanent housing placement, permanent housing placement, assistance in gaining access to local, State and Federal government benefits and services;
- Operating costs for housing including maintenance, security, operation, insurance, utilities, furnishings, equipment, supplies and other incidental costs.

Number of Persons Served and Timeframe: Approximately 3,750 low-income individuals and families will receive assistance during Grant Year 2010 from the array of services provided by 15 community-based organizations under 22 subcontracted programs.

BHAPC programs will include service to the following special needs populations:

- Adolescents/young adults;
- Seniors age 55 and over;
- Non-HASA eligible difficult-to-serve individuals;

- Women with children;
- Women with mental illness;
- Parolees and releasees;
- Dually diagnosed HIV+ individuals and families in need of harm reduction services.

Grantee General Program Administration

The City of New York Department of Health and Mental Hygiene – Bureau of HIV/AIDS Prevention & Control administers the HOPWA program for the New York City (NYC) Eligible Metropolitan Statistical Area (EMSA). The administrative component of the HOPWA grant supports the staff of the Bureau of HIV/AIDS Prevention & Control that coordinates, monitors, evaluates, and reports to HUD on the use of HOPWA funds in the NYC EMSA.

The Bureau of HIV/AIDS Prevention & Control also maintains responsibility for negotiation and oversight of the HOPWA programming proposed and implemented by the Lower Hudson Valley jurisdictions, which include the Counties of Putnam, Rockland, and Westchester, and the Cities of Mount Vernon and Yonkers. The Cities of Mount Vernon and Yonkers programming is administered by Westchester County, since both cities are located there.

ii. New York City Housing Authority Funds – Capital and HOPE VI

Public Housing Capital Fund Program

The New York City Housing Authority uses funds from the Public Housing Capital Fund Program, an annual grant program administered by the United States Department of Housing and Urban Development (HUD), for major physical improvement work at its 336 developments and for other capital eligible NYCHA activities. Funds are used to bring these developments up to modernization and energy-conservation standards. The largest component of the program involves the rehabilitation of occupied residential structures. The program also provides for the construction of non-dwelling structures, such as community centers, as well as for projects aimed at improving NYCHA’s management and technology infrastructure.

The following is a use-of-funds breakdown of the most recent Capital Fund grant (Federal FY 2008 funds):

Dwelling Equipment and Structures	\$109,110,317
Non-Dwelling Equipment and Structures	\$8,030,443
Site Improvements	\$0
Administration and Fees	\$43,645,402
Management Improvements	\$11,177,376
Relocation Costs	\$500,000
Construction Contingency	\$41,779,679
Bond Debt Obligation	\$52,520,000
Operations	\$66,690,804
TOTAL	\$333,454,021

Public Housing Capital Fund

American Recovery and Reinvestment Act of 2009

The American Recovery and Reinvestment Act of 2009 (“Recovery Act”) provides \$4 billion in supplemental “stimulus” funding for the public housing capital fund. HUD has allocated \$3 billion of the appropriation using the current formula; \$1 billion of the appropriation will be awarded through competitive grants targeting the leveraging of private sector funding, renovations, or energy retrofits. On March 4, 2009, NYCHA’s Board authorized the execution of an Amendment to the Annual Contributions Contract, between NYCHA and HUD. The Amendment allows HUD to provide NYCHA with the additional formula allocation of \$423 million in capital funds authorized under the Recovery Act. On April 10, 2009 NYCHA requested approval from HUD to amend the FY 2009 Annual Plan to incorporate additional projects to be funded under the Recovery Act.

Statutory priorities for funding under the Recovery Act include the rehabilitation of vacant public housing units, capital projects already under way or capital projects included in the NYCHA’s five-year capital plan. NYCHA will use the \$423 million in Recovery Act funds for a total of 75 public housing capital projects, including elevator repairs, boiler replacements, other maintenance, repair, and energy efficiency projects in developments across the five boroughs. The total value of NYCHA projects benefiting from stimulus funding is \$518 million and the projects are expected to create or preserve jobs for New Yorkers. The addition of these stimulus funds increases NYCHA’s 5-year capital plan to more than \$2 billion.

HOPE VI

Initiated in 1992, HUD’s HOPE VI Urban Revitalization Demonstration Program (HOPE VI) aims to address the problem of severely distressed public housing in a comprehensive manner through recommendations for social, economic, and physical improvement, as well as, community service. Permitted activities under the demonstration program include a) funding of the capital costs of major reconstruction, b) the provision of replacement housing, c) management improvements, and d) planning and technical assistance. Other permitted activities include implementation of supportive services and economic development initiatives, and the planning for any such activities

Ocean Bay Apartments

Overview

Ocean Bay Apartments HOPE VI Revitalization Project has a current overall project budget of approximately \$229 Million, including both on-site improvements and surrounding neighborhood investment that are aimed at comprehensively revitalizing the Arverne/Edgemere area of the Rockaway Peninsula, in Queens. The overall project budget is broken down as follows:

Overall Project Budget: \$228.9 Million
Funding Sources: \$ 67.7 Million Hope VI Funds
\$143.2 Million Capital Funds
\$ 5.8 Million NYCHA Reserve Funds
\$ 12.2 Million Leveraged Funds

On-Site Physical Improvements

Phase I Work at Ocean Bay, which was completed in 2004, included the modernization and reconfiguration of 1,803 apartments, under a Construction Management/Build firm (CM/Builder) under NYCHA's CM/Build Program.

Phase II Work entails the first stage of new construction, which began on April 22, 2005. This phase is being performed under a CM/Builder. Phase II work includes:

- Lobby improvements at Oceanside - 100% complete
- Day care center renovation and expansion at Oceanside - 100% complete
- Senior/social center renovation at Oceanside - 100% complete
- Brickwork at Oceanside - 100% complete
- Stair towers at Bayside – 100% complete
- Lobby improvements at Bayside – 100% complete
- Masonry Repair at Bayside – ongoing
- Exterior Lighting at Bayside - ongoing

Phase III Work includes new roofs, apartment renovations, entrance and brickwork, and grounds improvements. This phase is being performed under a CM/Builder. The Phase III includes:

- Roof Replacement for buildings at Oceanside and Bayside are under construction;
- Apartment renovations for 64 units will start as soon as the building permits are obtained and the contract bid for renovations for an additional 10 apartments is expected to be complete in September 2009;
- The contract award for the entrance renovation and brickwork at 20 buildings at Bayside is pending as of August 2009;
- The grounds improvements contracts for Oceanside and Bayside are scheduled to be bid by September 2009.

Off-Site Development

There are a number of off-site work components in the Ocean Bay Revitalization Plan. These are intended to provide new amenities to the residents, as outlined below:

- Retail Sites Development (“Sites A and C”): Development of two retail sites, acquired near Ocean Bay by NYCHA, will be managed through a Development RFP in conjunction with other NYC Agencies; this will bring local convenience retail, office space, and possibly additional housing units to meet the Mayor’s Affordable Housing Plan goals;
- Addabbo Health Center: A \$12 million neighborhood health facility opened in October 2006; NYCHA provided a grant of \$1.5 million in HOPE VI funds towards the hard costs; and

- Home Ownership: A Resident training and subsidy program is available to assist up to 24 qualified, first-time home-buyers (each eligible to receive \$25,000 for down payment and closing costs). To date, 12 residents have received a subsidy.

Community & Supportive Services

The HOPE VI Community and Supportive Services (CSS) program was completed at the end of June 2005. NYCHA's Family Resource Center provided job training, job placement and social services to assist families moving from public assistance to self-sufficiency through employment. Economic development opportunities included the formation of several resident-owned businesses (ROB), which are continuing to provide services to the Rockaways. NYCHA's Resident Employment Services (RES), which provides employment services to all NYCHA residents, also provides services in the Rockaways through the Ocean Bay Computer Lab and a partnership with the resident-governed Ocean Bay Community Development Corporation (OBCDC). Founded in September 1999, OBCDC serves as a partner to NYCHA by providing community supportive services and will continue after funding from the US Department of Housing and Urban Development HOPE VI initiative ends.

OBCDC offers a number of programs and services: the Volunteer Education, Training and Placement Program contains training modules for the program that consists of Life Skills Training components as well as Hard Skills modules to develop and enhance specific work related capabilities; OBCDC also publishes and distributes a quarterly newsletter, "Tidings", which is a vehicle for residents, elected officials, community based organizations, health providers, and others to notify the community of the services and programs that are offered on the peninsula and throughout Queens. Five thousand copies are distributed throughout the Rockaways. OBCDC provides free tax preparation during the tax season and is a designated VITA (volunteer income tax assistance center). Volunteers, who have become IRS certified tax preparers, operate the center. OBCDC operates a Youth Leadership Institute for 13 to 19 year olds which focuses on teaching the roles and responsibilities of leadership. The organization obtained funding and purchased a van to meet the transportation needs of elderly and disabled residents and operates a Senior Community Service Employment Program (SCSEP) which provides residents, over 55 years old, with job experience and a chance to enhance their skills and obtain a competitive edge in today's job market. OBCDC also continues to prepare proposals to raise additional funding from non-NYCHA public and private funding and to partner with other community, borough-wide and city-wide institutions to connect residents with existing service providers. In 2009, OBCDC received funding of \$150,000 for Youth Leadership, and \$27,000 for its Workforce development, programs. Additionally, OBCDC was awarded a HUD grant of \$693,000. Finally, the OBCDC conducts three financial literacy workshops annually.

The RES Ocean Bay Computer Lab staff operates an After-School Program (ASP) for 5-13 year olds to assist them in reading, mathematics and computer basics through individually structured computer tutorials and individual instruction. In the summer, the ASP services are incorporated into the summer camp program. The RES Ocean Bay Lab offers workshops and individual training in basic computer and job readiness skills on an ongoing basis.

NYCHA's Department of Resident Employment Services also offers programs to help residents obtain self-sufficiency through provision of employment and training services. RES maintains a Resource Directory that contains 115 educational and training program offerings by over 28 providers. Recent programs have included pre-apprenticeship training programs; three HUD ROSS grant funded programs that offer a variety of training and educational opportunities; and GED and ESL classes. RES has also held several successful job and career fairs.

Prospect Plaza

In March 1999, NYCHA was awarded a HOPE VI grant for the revitalization of Prospect Plaza Houses located in the Ocean Hill/Brownsville section of Brooklyn. HUD approved NYCHA's Revitalization Plan in November 1999. The project budget for the Revitalization Plan includes: HOPE VI funds, NYCHA Capital Funds, private

equity, public and private financing, along with City Capital funds. This Project is divided into three sites: A, B and C.

- Site A – The construction of 37, two-family, three story brick townhouses on City-owned parcels dispersed among Dean Street, Saratoga Avenue and Sterling Place. Within each two-family home, upper floors are owner-occupied and the ground-floor unit is for rental. By April 2005, all homes were sold. The total development cost was over \$11,557,000. NYCHA contributed a total of \$4,640,000, comprised of \$3,440,000 from the Authority and \$1,200,000 of City Capital funds, which together with a construction loan from Washington Mutual, provided financing of the project.
- Site B - The second phase has been completed by a private developer and the developer is leasing the new units to residents, including former Prospect Plaza residents who wish to move back to the site and qualify for section 8 rental subsidies.

It is anticipated that the balance of the Prospect Plaza Houses redevelopment will be accomplished through mixed-finance, mixed-income projects, comprised of rental units owned and managed by private, third party development and management entities. The proposed scope includes development of rental units, with public housing and other affordable units mixed across the site. It is further intended that any non-public housing units will be affordable to low- and moderate-income households, and incorporate federal Low Income Housing Tax Credits and Section 8 vouchers. A new, multi-use community, educational and day care center is also planned at Prospect Plaza.

Preference for the lease up of the public housing apartments will be given to relocated Prospect Plaza public housing residents in good standing, who wish to return to the redeveloped community. A site-based waiting list created from the Authority's existing public housing waiting list for the public housing units will be used to tenant the public housing units.

NYCHA's Department of Resident Employment Services (RES) implemented a successor program to the Community and Supportive Services (CSS) activities previously managed by Goodwill Industries in the latter part of 2007. Activities are focused on providing opportunities for higher education and vocational training and job placement. To implement these activities, RES has carried out an extensive effort to locate relocated Prospect Plaza residents who were no longer participating in CSS programs, the Employment and Educational Training Assistance Program (EETAP), and other RES educational, vocational training and job placement programs. Services are offered to relocated residents whether or not they reside in a NYCHA development.

Outreach to Relocated Residents

RES has taken a multi-faceted approach to locate and engage relocated Prospect Plaza residents no longer participating in CSS programs. RES has collaborated with NYCHA's Leased Housing Department to locate residents receiving Section 8 both from NYCHA and from other PHAs across the country. RES has worked with the NYC Human Resources Administration (HRA) to obtain the last known address of relocated residents. Finally, RES has reached out to the Social Security Administration which has agreed to send letters, on behalf of NYCHA, to the last known address of all relocated residents. There have been multiple mailings and telephone calls to these residents. Recently, an outreach worker was assigned to canvass geographic areas with a large concentration of relocated residents in an attempt to engage them.

Employment and Educational Training Assistance Program (EETAP)

A grant fund has been established to provide residents with an opportunity to attend accredited colleges and universities or New York State Education Department licensed training facilities offering: academic degree or certificate programs; vocational training; and/or apprenticeship training leading to economic self-sufficiency. Funds are available for eligible educational expenses including fees, tuition, books, transportation and tutoring.

Self-Sufficiency Programming

Career specialists will enroll former Prospect Plaza residents in self-sufficiency programs and make appropriate referrals to educational, vocational training, and job placement programs. RES has formed a number of referral partnerships to leverage resources for NYCHA residents. These partnerships are with: Workforce 1 Career Centers, Culinary Arts Training Programs, Minority Worker Training Programs, the STRIVE Construction Opportunities Center and Non-Traditional Employment for Women.

iii. HUD Competitive Funds

Homeless Continuum of Care SuperNOFA

Since 2002, DHS has coordinated the City's response to the annual HUD Notice of Funding Availability (NOFA) for Continuum of Care Homeless Assistance, working in partnership with the New York Coalition on the Continuum of Care Steering Committee. The New York City Coalition on the Continuum of Care (The Coalition) encompasses an extraordinarily broad range of homeless stakeholders to ensure a decision-making process that is inclusive of and relevant to the City's evolving needs and resources and avoids an overlap, duplication or contradiction of efforts. The Coalition is the representative body of providers, consumers, community members and government that regularly meets to handle all the details involved with the HUD Targeted Homeless Assistance Grants. Representation on the Coalition Steering Committee by the provider coalitions (each of which serves a unique element of the homeless population) ensures that the needs and concerns and the planning activities of all homeless providers are carried to the Steering Committee. The Coalition's overall structure is designed to foster an ongoing exchange of information among consumers, direct providers, advocates, and the committees represented by the Coalition.

The funds made available under the NOFA are designed to help communities create systems to combat homelessness. Funding is provided in the three program areas: Supportive Housing Program, Shelter Plus Care, and Section 8 Moderate Rehabilitation for Single Room Occupancy Dwellings.

The Coalition and City's submission to HUD is based upon a single Continuum of Care strategy and funding priorities, but project funding is requested through individual applications submitted by providers. The competition process for the 2009 HUD NOFA for Continuum of Care Homeless Assistance began in August 2009 and the Coalition expects HUD to announce the 2009 grant awards in early 2010.

Supportive Housing Program

The Supportive Housing Program (SHP) promotes the development of supportive housing and services that help homeless people transition from homelessness and live as independently as possible. The components of the Supportive Housing Program are transitional housing, permanent housing for persons with disabilities, supportive services only, and safe havens. All SHP funding in New York City goes directly to non-profit provider agencies. For the 2009 NOFA, the Coalition has 181 SHP programs applying for a total of \$64,229,460. In 2008, these SHP grantees provided housing and services at a point in time to approximately 13,223 households: 1,341 families and 8,806 single adults.

Section 8 Moderate Rehabilitation SRO

The Single Room Occupancy (SRO) Moderate Rehabilitation Rental Assistance program provides rental assistance to specific SRO projects. The assistance is provided in 10-year funding increments that are renewable, at HUD's discretion, on a year-by-year basis. Rental assistance provided under the program covers operating costs for the projects. Eligible participants include homeless individuals.

Since 1988, the New York City Department of Housing, Preservation and Development (HPD) Supportive Housing Loan Program (SHLP) has been awarded Section 8 Moderate Rehabilitation rental assistance for 22 projects containing 1162 contract units. Of these, 21 projects containing 1,145 units have been completed and 1 project containing 17 units under construction.

Shelter Plus Care Program

The Shelter Plus Care Program is a Homeless Continuum of Care Program awards have enabled HPD to build new housing with supportive services for homeless individuals with disabilities, including mental illness, histories of substance abuse, and AIDS with incomes of less than 50 percent of the area median. Rental assistance subsidies provided under this program, cover operating costs and exclude the cost of supportive services. Supportive services are provided by sponsoring non-profit organizations and are funded with other government contracts or private funds.

Program guidelines require that the cost of supportive services at least equal the amount of the rental assistance provided by the grant. To date, HPD has received rental assistance of \$117,988,200 through the Shelter Plus Care Program for 54 projects, with a total of 2,424 contract units for the homeless. Of these, 46 projects containing 2,082 units have been completed and 8 projects containing 342 units are in construction or in design.

Section 202 Supportive Housing for the Elderly

Section 202 Supportive Housing for the Elderly is a federally funded program which provides interest free capital advances, (rather than direct loans as previously provided under Section 202), to eligible non-profit sponsors to finance the development, either new construction or substantial rehabilitation, of rental housing with support services for very low income persons age 62 or over. Funding is awarded directly to non-profit developers; the City is not an eligible applicant. Repayment is not required as long as the housing remains for very low income elderly for 40 years.

The program also includes rental assistance contracts to cover the differences between the HUD-approved operating cost per unit and the amount the resident pays, which is one-third of their income. All residents must be very low income. Project based rental assistance contracts for Section 202 projects are initially 3 years, renewable after that time on a yearly basis.

A small portion of the cost for supportive services is provided by the Section 202 program, but the major financing for services provided by the operator. Services offered in some Section 202 sites may include social service coordination, recreation and social activities, transportation services, and other services deemed necessary for maintaining independent living.

Approximately \$22,196,100 in capital advances from Section 202 Supportive Housing for the Elderly funding was awarded to two New York metropolitan non-profits (this does not include upstate or Long Island counties) in January 2009 for 146 units. For FY2009, US HUD will make available approximately up to \$420.9 million for the Section 202 program. Of this amount, \$32,228,879 will be made available for the New York metropolitan area for a total of 205 units. The application deadline date is November 13, 2009. Therefore, the amount expected to be received is **TBD**.

For additional information on the elderly, see the Supportive Housing Continuum of Care.

Section 811 Supportive Housing for the Disabled

HUD provides direct federal capital advances to private, non-profit corporations and consumer cooperatives for the new construction or substantial rehabilitation of City-owned or private sites for accessible housing for persons with a disability. Grants usually cover 100 percent of the project's cost, within HUD limits. HUD also provides Project Rental Assistance Contracts (PRACs) to pay the difference between tenant rents (30 percent of income) and mortgage amortization. The mortgage term is 40 years, during which time the project must operate as supportive housing for persons with a disability. Sponsors must provide at least \$10,000 in equity towards the project.

Either the applicant wishing to reside in a Section 811 development, or a household member aged 18 or over, must have some physical or developmental disability or some chronic mental illness. The income of project residents must be below 50 percent of area median income. Projects may be in the form of group homes of up to 15 units, or independent living facilities of up to 40 units. Sponsors must provide a support service plan appropriate for the target population, and evidence of state, local or other funding for these services. Independent living facilities may also be in the form of a cooperative owned by the residents. Sites must be in close proximity to employment and educational opportunities, shopping, recreation, etc., or be reachable by accessible mass transportation. They should be in a residential neighborhood and integrated into the community. Sites must meet HUD's site and neighborhood standards regarding areas of minority concentration.

For FY2009, US HUD will make available approximately up to \$3,484,100 for the Section 811 program for the New York metropolitan area for a total of 23 units. The application deadline date is November 13, 2009. Therefore, the amount expected to be received is **TBD**.

For additional information on the disabled, see the Supportive Housing Continuum of Care.

Section 8 Vouchers

Section 8 is a Federal program that provides rental assistance to tenants. The City of New York's major rental assistance programs are administered by NYCHA and HPD. The following is a brief explanation of the Section 8 programs administered by these two agencies.

1. NYCHA's Section 8 Program

NYCHA's Section 8 Housing Choice Voucher Program provides tenant-based assistance to low and very low income households. NYCHA operates the largest Section 8 rental assistance program in the nation with approximately 97,426 vouchers as of June 30, 2009. Under the Section 8 Housing Choice Voucher program all tenants pay at least 30% of their adjusted gross income for rent, plus any amount the contract rent is above the payment standard. In general, Housing Choice Vouchers are issued for a 180 day period, although an extension may be granted as a reasonable accommodation. This includes vouchers issued by other housing agencies outside New York City which are being used in New York City.

In February 2007, NYCHA temporarily reopened the waiting list for non-emergencies due to the availability of 22,000 new vouchers over two years. During the three months that the waiting list was reopened NYCHA handed out 469,284 applications for Section 8 across the City. When the list was closed on May 14, NYCHA had received 231,101 applications back. As of June 30, 2009, the Section 8 waiting list consisted of 124,724 eligible applicants.

The U.S. Department of Housing and Urban Development (HUD) awarded NYCHA an additional 1,015 Section 8 vouchers specifically for homeless veterans under the Veterans Affairs Supportive Housing (VASH) initiative. Budget authority has been reserved to support 455 vouchers in partnership with the Brooklyn Medical Center, 385 vouchers in partnership with the Bronx Medical Center, and 175 vouchers in partnership with the New York Medical Center. The HUD-VASH program in NYC will combine HUD Housing Choice Voucher rental assistance for homeless veterans with case management and clinical services provided by the Veterans Affairs at the three noted medical centers and in the community. Ongoing VA case management, health and other supportive services will be made available to homeless veterans. As of August 21, 2009, there have been 327 rentals through this program.

On May 8, 2009, HUD notified NYCHA that the Authority's Section 8 subsidy award for 2009 will be \$65 million less than expected, primarily as a result of the recapture of net restricted assets (reserve funds). The amount - \$58 million - results from a Congressional mandate in the 2009 Omnibus Appropriations Act (enacted in March) that HUD must offset subsidy funding to housing agencies based on reserve funding levels accumulated by those agencies. In addition, NYCHA lost another \$7 million through a national proration of 0.9% for each housing agency's funding award. This subsidy reduction is forcing NYCHA to immediately suspend issuance of new vouchers to all but DHS, ACS, domestic violence victims and intimidated witnesses in order to curtail expenditures, especially with respect to our applicant pipeline. NYCHA still projects to complete about 12,700 applicant rentals. However, assuming continued low program turnover, NYCHA's total Section 8 program size would then be approximately 99,000 at year-end, which would be the Authority's maximum unit allocation.

2. HPD's Section 8 Program

HPD operates Section 8 project-based programs for Moderate Rehabilitation and Shelter Plus Care and tenant-based Housing Choice Voucher Programs for its local preferences, which include Homeless and Near-Homeless Prevention, HPD Building Renovation - Relocation and Rent Restructuring, and Special Needs Housing. HPD administers enhanced vouchers for tenants opting out of HUD contracts such as Mitchell-Lama and Moderate

Rehabilitation. HPD also administers the Section 8 Family Self-Sufficiency Program and the Section 8 Homeownership Program. Applicants for Section 8 assistance must meet eligibility criteria, which specify the requirements for income qualification, family composition and citizenship status all within Federal guidelines.

Under Section 8, most families pay between 30% - 40% of their adjusted household income toward rent and utilities and HPD pays the difference up to the payment standard. All units that receive Section 8 assistance must pass an annual Housing Quality Standards Inspection. Section 8 families must have income that does not exceed 50% of the area median income for New York City (there are exceptions for certain preference categories that allow income up to 80% AMI. Additionally, at least 75% of the households that are accepted into the voucher program (in New York City programs combined) in a fiscal year must have income that is below 30% of the area median for New York City.

Rules for families receiving enhanced vouchers are different in several respects including income limits (95%), tenant contribution toward rent (30% of adjusted income, or whatever the tenant was paying prior the building's conversion, whichever is greater), and payment standard (Section 8 will pay up to the gross rent, subject to rent reasonability standards, as described below.

Participating owners must charge rents that are no more than rents charged for comparable unassisted apartments in the owner's building (if applicable) or for similarly sized apartments in the particular neighborhood where the voucher holder intends to rent. Rent regulations apply for apartments that fall under rent stabilization. Except in the case of enhanced vouchers, rents may not exceed the payment standard established by HPD (currently set at 110% of the Fair Market Rent set by HUD for New York City).

Families may use their subsidy in any part of the United States. Moves within HPD jurisdiction are permitted once per year. In administering this program, HPD provides a local preference to low-income occupants with significant rent burdens who reside in buildings that were rehabilitated by a government sponsored program so that these tenants can afford either to stay in their existing unit or to relocate to new housing. The program also targets subsidies to homeless families and individuals in an effort to enable them to afford the permanent housing that is available to them, most of which is being produced with city subsidies. Section 8 is also used to address unique and critical local housing needs generated as a result of an unforeseen catastrophe beyond the scope of the individual family, and other unforeseen catastrophes.

The project-based programs listed above allow families to receive rental assistance if they occupy specific apartments in buildings rehabilitated by a government sponsored rehabilitation program. As in the tenant-based program, all families pay at least 30% of their adjusted incomes on rent and utilities and the program subsidy pays the balance. Unlike the tenant-based program, families with project-based assistance forfeit their subsidy when they move from the building. The next family that is approved to occupy the apartment receives the subsidy.

HPD did not receive any additional tenant-based voucher funding in 2009 because HUD did not offer any Notices of Funding Availability in that year. However, HPD has received additional conversion vouchers since 2003.

Housing Opportunities for Persons with AIDS (HOPWA)

The HOPWA competitive grant program provides states, localities and nonprofit organizations with the resources and incentives to devise long-term comprehensive strategies for meeting the housing and related supportive service needs of low-income persons with HIV/AIDS and their families. Funds under this program are divided into two categories: (1) grants for Special Projects of National Significance (SPNS) that, due to their innovative nature or their potential for replication, are likely to serve as effective program models in addressing the housing and related supportive service needs of low-income persons living with HIV/AIDS and their families and (2) grants for projects that are part of Long Term Comprehensive Strategies (Long Term) which provide housing and related supportive services for low-income persons living with HIV/AIDS and their families in areas not eligible for HOPWA formula entitlement funds.

Eligible applicants include States, units of local government and nonprofit organizations under SPNS. States and units of local government may apply for projects that will serve areas that are not eligible for HOPWA formula allocations under the Long Term category of grants.

Eligible program activities include: housing information services (including fair housing counseling); project-based or tenant-based rental assistance; new construction of a community residence or SRO dwelling; acquisition, rehabilitation, conversion, lease or repair of facilities to provide housing and services; operating costs for housing; short-term rent, mortgage and utility payments to prevent homelessness; supportive services designed to enhance access to needed services such as health care, AIDS drug assistance, and other services funded through the Ryan White CARE Act or other Federal, State, local or private funds; administrative expenses; and resource identification to establish, coordinate and develop housing assistance resources and technical assistance in establishing and operating a community residence (if the funded amount is less than 20 percent of the proposed program activity costs). In addition, applicants may request funds for collecting, analyzing and reporting project outcomes.

Recipients may receive up to \$1,300,000 for program activities. An additional 3% may be added for the grantee administrative costs, and up to 7% may be added for project sponsor-related administrative costs. As HOPWA SPNS grants are national competitive grants, applicants apply directly to HUD for this funding.

Lead-Based Paint Lead Hazard Control Program

In May 2009 HUD issued a Super Notice of Funding Availability (SuperNOFA) to fund applicants under HUD's Lead-Based Paint Lead Hazard Control Program. The purpose of the program is to assist states, Native American Tribes, and local governments in undertaking comprehensive programs to identify and control lead-based paint hazards in eligible privately owned housing for rental or owner-occupants.

HPD applied for the maximum amount allowable, \$3,070,000. As of the date of this publication, no announcement by HUD has been made as to the awardees. Therefore, the amount expected is TBD.

Lead-Based Paint Lead Hazard Reduction Demonstration Grant Program

In May 2009 HUD issued a Notice of Funding Availability to fund applicants under HUD's Lead Hazard Reduction Demonstration Grant Program. The purpose of the program is the same as the Lead-Based Paint Hazard Control, but the Lead Hazard Reduction Demonstration Grant Program is targeted for urban jurisdictions with the highest lead-based paint hazard control needs.

HPD applied for the maximum amount allowable, \$4,000,000. As of the date of this publication, no announcement by HUD has been made as to the awardees. Therefore, the amount expected is TBD.

iv. State Funds

Affordable Homeownership Development Program

The Affordable Homeownership Development Program (AHDP) is administered by the Affordable Housing Corporation (AHC), a subsidiary corporation of the New York State Housing Finance Agency (HFA). This program provides grants that can be used for acquisition and/or rehabilitation (both substantial and moderate), home improvements, and new construction of owner-occupied housing units. Most of the new construction and acquisition/rehabilitation activities undertaken with AHDP funds serve first-time homebuyers. The Housing Partnership Development Corporation (HPDC) serves as an intermediary for the New York City Department of Housing Preservation and Development (HPD) and developers in applying for the AHC subsidies.

Most projects serve households at or between 80% and 150% of the area median income. Grants are available between \$25,000 and \$40,000 per unit, depending on income. Funds are awarded competitively based on the AHC's funding availability. AHDP funds are generally used in conjunction with HPD's Partnership New Homes, New Foundations and Cornerstone Programs to increase affordability. Each year, HPD uses the awarded AHDP funds to construct new homeownership units for moderate-income households. These monies in some instances are combined with City capital dollars. In addition, the City also provides the land, which is also considered a subsidy. Since AHDP is a competitive grant program, the amount HPD will be awarded in 2009 has yet to be determined.

Homeless Housing and Assistance Program

The Homeless Housing and Assistance program expands the supply of housing for homeless persons through the provision of capital grants and loans for housing development and preservation. Grants are provided to not-for-profit organizations and may be used to develop emergency, transitional and permanent housing for the homeless. Eligible costs include land/building acquisition; capital improvements (rehabilitation and new construction); professional fees (i.e. architectural, legal); and other costs associated with project development.

Approved projects must be operated as homeless housing for a period of not less than twenty-five years and rents cannot exceed the public assistance shelter allowance or 30% of income. In SFY '09 – '10, \$30,000,000 is expected to be available statewide, including \$5,000,000 specifically dedicated for the development of housing for persons living with AIDS. SFY '09-'10 funding will be made available statewide via an Open Request for Proposals process which means that proposals will be accepted for consideration on a continuous basis until funds are no longer available for award. Because applications will be reviewed and awards considered in the order in which applications are received, the level of funding expected to be available for New York City projects and number of units to be developed cannot be estimated.

Low Income Housing Tax Credit

The low income housing tax credit is a means by which the federal government provides funding, indirectly, for the construction and rehabilitation of low-income housing. Developers (and their investors), who build developments or rebuild buildings and rent to a specified percentage of low-income tenants, receive a credit against their federal income taxes. By federal statute, eligible projects must target at minimum 20 percent of the units to households earning less than 50 percent of the median income or in New York City at least 25 percent of its units to households earning less than 60 percent of the median.

There are two types of tax credits, 4% credits and the more valuable 9% credits. The 4% credits are available to projects that are financed through private activity bonds while the 9% credits that are awarded through a competitive process. To obtain 9% credits developers must apply to the state housing agency in which their project is located, which decides which projects will receive the limited pool of tax credits allocated to their state.

The State of New York delegates a portion of its allocation authority to the New York City Department of Housing Preservation and Development. HPD received approximately \$14 million in 2010 credit authority. Since the State Division of Housing and Community Renewal can allocate credits to projects in New York City

as well as throughout the rest of the State, additional projects may receive credits besides those allocated by HPD.

HPD has an Allocation Plan that specifies the criteria used to select projects for allocation. Points are awarded to those projects based on the degree to which they satisfy criteria such as amount of subsidy required, sponsorship by non-profit organizations, and housing those with very low income, and the homeless. Any developer can compete for tax credits available, and credits are awarded on a competitive basis, so it is impossible to know in advance which projects will receive credits in a given year. In practice, most low-income housing projects in New York City require not only tax credits but also additional public funds, such as low interest loans provided by the City.

Among the programs likely to utilize the tax credit as a funding source in calendar year 2008 are the Neighborhood Redevelopment (NRP), Neighborhood Entrepreneurs (NEP), Supportive Housing Loan Program and Participation Loan Program (PLP). Typically, HPD's tax credit allocations help fund rehabilitation or construction of 1,000 low-income units per year.

Low Income Housing Trust Fund Program

This program was created to address the shortage of decent, affordable housing for low-income people. It provides funding to non-profit corporations, municipalities, counties, housing authorities, private developers and partnerships to build or rehabilitate housing or convert non-residential properties to house low-income homesteaders, tenants, tenant cooperators or condominium owners. It provides housing for the homeless and those with special needs, large families, the elderly and disabled, and persons with incomes with income less than 80 percent of median in New York City. Applications for funding are processed through the Division of Housing and Community Renewal's Unified Funding Application Process. The estimated SFY '09 – '10 New York City allocation is \$11,000,000. It is estimated that 250 units will be started in New York City in SFY '09 – '10.

Public Housing Modernization

The New York State Division of Housing and Community Renewal, acting as agent for the Housing Trust Fund Corporation, provides the New York City Housing Authority with modernization and rehabilitation funds. These funds are used to improve buildings, grounds and dwelling units at NYCHA's State funded developments. Activities may include: window replacement, re-roofing, asbestos abatement, plumbing upgrade, kitchen and bathroom renovation, electrical upgrading, lighting upgrades, entrance and lobby rehabilitation, door replacement, grounds upgrade, elevator replacement, boiler and heating system upgrades, facade and terrace rehabilitation and compactor installation.

RESTORE Program

RESTORE, administered by the New York State Housing Trust Fund Corporation, is targeted to low-income elderly homeowners and provides grants and loans of up to \$7,500 per unit for emergency home repairs. Funds are made available to non-profit organizations and municipalities for projects. Applications are processed through notice of funds available. It is projected that a total of \$300,000 will be made available in SFY '09 – '10 to program sponsors in New York City.

v. City Funds

DHS City Funds

The City of New York is required to provide a dollar for dollar match to the ESG award. In the Variables chart, these funds are listed as City Expense Budget (matching ESG funds) \$7,925,555.

In addition to the required matching funds, the City of New York provides an additional \$362,313,485 in expense and capital funds. These funds are used for family facilities and for overall agency administration.

Not listed in the chart are the additional monies DHS receives, approximately \$169.3 million in Federal Temporary Assistance to Needy Families (TANF). DHS also receives from the State of New York approximately \$221.5 million in Homeless Assistance Funds and \$9.5 million for the Local Administrative Fund. The State dollars, along with the City funds are used for both single adult and family facilities and programs. A combination of all funding sources is dedicated to addressing the needs of homeless families and overall agency administration.

For a detailed description of how the City uses the funds listed above, see the Supportive Housing Continuum of Care for the Homeless section.

HPD City Funds

HPD Capital matching Federal Funds

HPD's total capital budget for calendar year 2010 from all funding sources (including HUD) is approximately \$556,187,000. Of that amount \$404,295,000 comes from the City. Of the City funds, **\$162,822,000** are scheduled for programs that use City funds in conjunction with Federal funds (CDBG, HOME, Section 8, etc.).

The remaining \$241,473,000 of City funds are used in programs that do not receive Federal funds.

The City uses a portion of this \$162,822,000 figure to meet its 12.5% requirement to match HOME funds, in addition to using the appraised value of tax exemptions. The latest full year for which match data are available indicate that the City's match was \$88,680,544 as reported in the FY 2008 Match Report, published in the 2008 Consolidated Plan Annual Performance Report (APR). The City thus exceeded the 12.5% minimum, all of which was calculated as the cash value of Capital funds. Estimates for next year's match amount and the portion constituting the cash value of Capital funds are not available at this time.

HPD Expense matching Federal Funds

HPD's total expense budget for calendar year 2010 from all funding sources (including HUD) is approximately \$530,886,642. Of that amount approximately \$83,956,087 comes from the City (tax levy, Inter-Fund Agreement (IFA), and Intra-City). Of the City funds, approximately **\$46,288,073** is scheduled for programs that use City funds in conjunction with Federal funds (CDBG, HOME, Section 8, etc.). The remaining approximate \$37,668,013 of City funds are used in programs that do not receive Federal funds.

HPD Capital without Federal Funds

In Calendar Year 2010 HPD expects to budget approximately **\$241,473,000** in programs that receive no Federal funds.

HPD Expense without Federal Funds

In Calendar Year 2010 HPD expects to budget approximately **\$37,668,013** in programs that receive no Federal funds.

HPD Capital and Expense

As the primary housing agency in the City of New York, HPD has used both City capital and tax levy funds to develop housing programs to address the needs of low-and moderate-income households. Although the funds received from the federal government are an essential element in the City's housing policy, HPD has created

over 10 housing programs with no direct federal funds for the purposes of increasing housing production and maintaining the existing housing stock through the following activities: new construction, substantial and moderate rehabilitation, code enforcement, operating and maintenance costs, planning and administration, homeless prevention, infrastructure improvements, public service improvements, homeless assistance, rental assistance and other activities.

Non-federally funded HPD Programs

Small Homes Large Scale Program	New Housing Opportunities Program (NewHOP)
Asset Control Area Program (ACA)	New York City Partnership New Homes Program
Home Improvement Program	Senior Citizen Home Assistance Program (SCHAP)
Housing Education Program (HEP)	Tenant Support Services
Inclusionary Housing	Urban Renewal
Multifamily Rental Mod/Mid	

HRA City Funds

The amounts below reflect the City's FY '10 adopted budget and include \$35,207,000 of HOPWA funding. It is HASA's understanding that the HOPWA funding was subsequently reduced to \$32,546,000. This reduction of \$2.66 million is not shown in the update below. HRA's HASA services are funded with a combination of the funding sources outlined below. In City Fiscal Year 2010, the total HASA budget is projected to be \$219.7 million for case management, housing, support services, and expenses.

In City Fiscal Year 2010, Projected City Tax Levy funding for HASA is approximately \$70.4 million.

HASA is also budgeted to receive the following additional money: approximately \$85.9 million in New York State matching funds; and \$63.4 million in federal funds. The numbers do not include expenditures for rental assistance and enhanced rental assistance, housing related special grants, or nutrition and transportation benefits, all of which are paid through public assistance, and not through HASA's budget.
