MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Council the following message from his Honor the Mayor:

No. 1071.

CITY OF NEW YORK—OFFICE OF THE MAYOR, }
October 25, 1898. }

To the Honorable the Council:

GENTLEMEN—I return herewith, without my approval, a resolution adopted by you on October 4, 1898, transferring from the Fire Department to the Park Department, Boroughs of Brooklyn and Queens, La France Fire Engine (Builder's No. 110).

My objection to this resolution is that the transfer in question has not been submitted to or approved by the Fire Commissioner.

ROBT. A. VAN WYCK, Mayor.

Resolved, That the La France Fire Engine (Builder's No. 110), which has heretofore been used by the Department of Parks of the Boroughs of Brooklyn and Queens, under permission granted by Ex-Commissioner Bryant of the Fire Department, be and it is hereby transferred to the said Department of Parks of the Boroughs of Brooklyn and Queens.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Council the following message from his Honor the Mayor:

No. 1111.

CITY OF NEW YORK—OFFICE OF THE MAYOR, }

To the Honorable the Council:

I return herewith, without my approval, a resolution adopted by you on October 11, 1898, suspending the ordinances relating to fireworks so far as to permit the John M. Sheehan Association to display fireworks in First avenue, between Fifty-ninth and Sixty-first streets, Borough of Manhattan, until November 10.

My objection is that this resolution is unnecessary in view of the general resolution suspending the ordinances as to fireworks passed by the Municipal Assembly on October 11, 1898, and now in force.

ROBERT A. VAN WYCK, Mayor.

Resolved, That the ordinance relating to the discharge of fireworks in The City of New York be and the same is hereby suspended so far as to permit the John M. Sheehan Association to display fireworks in First avenue, between Fifty-ninth and Sixty-first streets, in the Borough of Manhattan, from the date of the approval of this resolution by his Honor the Mayor until November 10, 1898.

The President laid before the Council the following message from his Honor the Mayor:

No. 242.

CITY OF NEW YORK—OFFICE OF THE MAYOR, }

My objection to this resolution is that the procedure prescribed in sections 416 and 417 of the Charter has not been followed in that the work has not been first authorized by resolution or ordinance of the Board of Public Improvements.

ROBERT A. VAN WYCK, Mayor.

Resolved, That gas-mains be laid, lamp-posts erected and street-lamps placed thereon and lighted on East One Hundred and Sixty-seventh street, from Southern Boulevard to Westchester avenue, in the Borough of The Bronx.

OFFICE OF THE BOARD OF EDUCATION,

NEW YORK, August 17, 1898.

To the Board of Education:

The Finance Committee respectfully reports that the following correspondence has taken place between the Chairman and the Comptroller, viz:

NEW YORK, April 13, 1898.

Hon. BIRD S. COLER, Comptroller:

DEAR SIR—In the conduct of the business of the Department of Education, the item of expenditure for postage, car fares, etc., is considerable. The Department of Education, in common with other departments, does not disburse its own funds, which are in your custody. A difficulty—and it may even be said to be a hardship—is occasioned by the fact that postage stamps, car fares, etc., have to be paid for in cash, which necessarily is advanced by the officials.

Correspondence with the Postmaster on the subject of procuring postage stamps and cards on requisition has elicited the fact that the postal regulations do not permit of such a course.

The matter is presented to you with the object of asking whether you will favor the passage of a resolution by the Municipal Assembly authorizing the advance of such necessary sums for the purposes indicated as may be required by the Department of Education for the proper conduct of its business, such advance to be accounted for by vouchers to be submitted from time to time to your Department.

Yours truly,

HUGH KELLY, Chairman of the Finance Committee of the Board of Education.

NEW YORK, April 16, 1898.

HUGH KELLY, Esq., Chairman, Finance Committee, Board of Education:

DEAR SIR—In reply to your communication of the 13th instant, I beg to state that I will not object to the adoption of a resolution by the Municipal Assembly authorizing the Comptroller to advance a sum not to exceed two hundred and fifty dollars at any one time for petty cash expenses of the Board of Education.

Very truly yours,

BIRD S. COLER, Comptroller.

The above letters are self-explanatory. It therefore remains for the Committee to submit for adoption the following resolution:

Resolved, That the Municipal Assembly be and it is hereby respectfully requested to authorize the Comptroller of The City of New York to advance to the Board of Education of The City of New York, from the fund entitled "Incidental Expenses," the sum of two hundred and fifty dollars (\$250), said sum to be used for petty cash expenses of the Board of Education, and to be accounted for by vouchers to be subsequently submitted to the Comptroller for his approval.

MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 257:

CITY OF NEW YORK—OFFICE OF THE MAYOR,

To the Honorable the Board of Aldermen:

I return herewith, without my approval, an ordinance adopted by you March 15, 1898, entitled "An Ordinance to provide additional water-mains in Elm street in The Borough of Manhattan."

My objection to the same is that the procedure prescribed by sections 416 and 417 of the Charter has not been followed in that the resolution adopted by the Board of Public Improvements authorizing this work differs in material points from the ordinance passed by you.

ROBERT A. VAN WYCK, Mayor.

AN ORDINANCE to provide additional water-mains in Elm street, in the Borough of Manhattan.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

That three thousand (3,000) lineal feet of additional water-mains be laid in Elm street, Borough of Manhattan, City of New York, under the direction of the commissioner of water supply, and the comptroller is hereby authorized to issue bonds to the extent of six thousand dollars

\$5,000 for the purpose of defraying the cost of such work, the amount to be charged to the appropriation for laying Cotton pipes in 1898.

Sections 415 and 416, chapter 378, Laws of 1897.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

No. 349.

CITY OF NEW YORK—OFFICE OF THE MAYOR,

To the Honorable the Board of Aldermen:

I return herewith, without my approval, an ordinance passed by you April 12, 1898, entitled "An Ordinance to provide water-mains in Napier avenue, between Two Hundred and Thirty-third street and Mount Vernon avenue, Borough of The Bronx."

My objection to this ordinance is that the procedure prescribed by sections 416 and 417 of the Charter has not been followed in that the work has not been first authorized by resolution or ordinance of the Board of Public Improvements.

ROBERT A. VAN WYCK, Mayor.

AN ORDINANCE to provide water-mains in Napier avenue, between Two Hundred and Thirty-third street and Mount Vernon avenue, Borough of The Bronx.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

That water-mains be laid in Napier avenue, between Two Hundred and Thirty-third street and Mount Vernon avenue, Borough of The Bronx, according to law.

This is to certify that the above was recommended by Board of Local Improvement of the Twenty-first District at a regular meeting held on March 3, 1898.

LOUIS F. HAFEN, President.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

No. 418.

CITY OF NEW YORK—OFFICE OF THE MAYOR,
October 25, 1898.

To the Honorable the Board of Aldermen:

I return herewith without my approval an ordinance passed by you May 17, 1898, and entitled "An Ordinance to provide for the laying of water-mains in East One Hundred and Sixty-seventh street, between the Southern Boulevard and Westchester avenue, in the Borough of The Bronx."

My objection to the same is that the procedure prescribed by sections 416 and 417 of the Charter has not been followed, in that the resolution adopted by the Board of Public Improvements regulating and authorizing this work differs in material points from the ordinance passed by you.

ROBERT A. VAN WYCK, Mayor.

AN ORDINANCE to provide for the laying of water-mains in East One Hundred and Sixty-seventh street, between the Southern Boulevard and Westchester avenue, in the Borough of The Bronx.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

That water-mains be laid in East One Hundred and Sixty-seventh street, between the Southern Boulevard and Westchester avenue, under the direction of the commissioner of water supply.

In pursuance of chapter 378, Laws 1897.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

No. 1002.

CITY OF NEW YORK—OFFICE OF THE MAYOR,
October 25, 1898.

To the Honorable the Board of Aldermen:

I return herewith, without my approval, a resolution passed by you on June 28, 1898, authorizing the Commissioner of Highways to amend a contract made by the City of Brooklyn with McKee & Brother for grading and improving Clinton avenue bulkhead so as to provide for a concrete foundation under the granite pavement, and directing the cost of the work so required be paid from the Wallabout Improvement Fund.

My objection to this resolution is, that the Commissioner of Highways has not requested authority to make the amendment authorized, that no limitation is put upon the cost of the work which may be required under the contemplated changes in the contract, and that the contemplated change in the work has not been approved by the Board of Public Improvements.

ROBERT A. VAN WYCK, Mayor.

Resolved, That the Commissioner of Highways be and he hereby is authorized to amend the contract heretofore made by the Commissioner of City Works of the City of Brooklyn and E. J. McKee & Brother, which contract was, on or about December 31, 1897, assigned by said E. J. McKee & Brother to E. J. McKee, for grading, preparing for and otherwise improving Clinton avenue bulkhead, the approaches to the same through Lemon street and Clinton avenue extension and Freeman avenue, from Flushing avenue to Lemon street, so as to provide for a concrete foundation under the granite pavement, with tar and gravel joints in the section known as the Clinton avenue bulkhead, and for about one hundred and fifteen feet south of same on Clinton avenue extension, and known as part "A" of the contract, cost of same to be paid from the Wallabout Improvement Fund.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

No. 1399.

CITY OF NEW YORK—OFFICE OF THE MAYOR,
October 25, 1898.

To the Honorable the Board of Aldermen:

I return herewith, without my approval, a resolution passed by you on October 11, 1898 giving permission to the Liberty Club to place transparencies on various lamp-posts in Eighth, Ninth and Tenth avenues, in the Borough of Manhattan.

My objection to this resolution is that there is nothing to show that the advertisement to be placed on the transparencies relates to a religious or charitable object, and that the use of lamp-posts for advertising purposes should be restricted to advertisements of that character.

ROBERT A. VAN WYCK, Mayor.

Resolved, That permission be and the same is hereby given to the Liberty Club to place and keep transparencies on the following lamp-posts in the Borough of Manhattan:

Northeast corner of Thirty-fourth street and Ninth avenue;
Northeast corner of Forty-second street and Ninth avenue;
Northeast corner of Thirty-fourth street and Tenth avenue;
Northeast corner of Forty-second street and Tenth avenue;
Northeast corner of Thirty-third street and Tenth avenue;
Southeast corner of Forty-second street and Eighth avenue;
Southeast corner of Twenty-fourth street and Eighth avenue;
Southeast corner of Thirty-third street and Eighth avenue;
Southeast corner of Twenty-third street and Tenth avenue;
Northwest corner of Thirty-fourth street and Eighth avenue;
Southwest corner of Thirty-seventh street and Tenth avenue;
—the work to be done at their own expense, under the direction of the Commissioner of Highways; such permission to continue only until November 3, 1898.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

No. 1373.

CITY OF NEW YORK—OFFICE OF THE MAYOR,
October 25, 1898.

To the Honorable the Board of Aldermen:

I return herewith, without my approval, a resolution passed by you on October 11, 1898, permitting the Riverside Republican Club to place a transparency on a lamp-post in front of No. 74 West Seventy-ninth street, Borough of Manhattan.

My objection to this resolution is that the use of lamp-posts for business advertising purposes by the public generally, and by political organizations, should not be permitted. It is the extension of a privilege which may well be limited to religious or charitable objects.

ROBERT A. VAN WYCK, Mayor.

Resolved, That permission be and the same is hereby given to the Riverside Republican Club to place and keep a transparency on the lamp-post in front of the premises No. 74 West Ninety-seventh street, in the Borough of Manhattan, the work to be done at their own expense, under the direction of the Commissioner of Highways; such permission to continue only until November 10, 1898.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

DEPARTMENT OF WATER SUPPLY—COMMISSIONER'S OFFICE,
NO. 150 NASSAU STREET,
NEW YORK, JUNE 23, 1898.

Hon. RANDOLPH GUGGENHEIMER, President, Municipal Assembly:

DEAR SIR—Repair Company No. 1, of this Department, in charge of water-mains, stopcocks and hydrants in the lower part of the city, is now located in the old public school building, No. 72 Elm street, which is also occupied by the repair gangs of the Departments of Sewers and Highways, causing it to be so much crowded as to be detrimental to the efficiency of the work to be done.

The premises No. 128 Worth street, owned by the City, and formerly used by the Fire Department and the Health Department, are now unoccupied, and present an excellent location for the Pipe Repair Company.

I therefore respectfully ask that the inclosed resolution, assigning the premises No. 128 Worth street to this Department, for the use of Repair Company No. 1, be adopted.

Very respectfully,

WILLIAM DALTON, Commissioner of Water Supply.

No. 1451.

CITY OF NEW YORK,
DEPARTMENT OF HIGHWAYS—COMMISSIONER'S OFFICE,
No. 150 NASSAU STREET,
BOROUGH OF MANHATTAN, October 24, 1898.

D. W. F. McCOW, Esq., Deputy and Acting Clerk, Board of Aldermen:

SIR:—I am requested by Commissioner Keating to return herewith the inclosed resolution of the Board of Aldermen, requesting the Bureau of Incumbrances to report to said Board at its next meeting if any ordinance is necessary to remedy the evils recited in the preamble of the resolution, viz.: That the sidewalk in front of buildings now in course of construction at the northwest corner of Eightieth street and West End avenue, Borough of Manhattan, has been torn up and no temporary sidewalk laid in its place, and that no protection overhead is afforded passing pedestrians, although an iron building is in course of construction.

An exhaustive report by the Superintendent of Incumbrances is herewith transmitted in compliance with the resolution.

Very respectfully,

JOHN D. CREAMER, Secretary.

Whereas, it appears from a communication from the Good Government Club of the Nineteenth District that the sidewalk in front of buildings now in the course of construction at the northwest corner of Eightieth street and West End avenue, Borough of Manhattan, has been torn up and no temporary sidewalk laid in its place; and that no protection overhead is afforded passing pedestrians, although an iron building is in the course of construction; be it

Resolved, That the Bureau of Incumbrances be and it hereby is requested to report to this Board at its next meeting if any ordinance to remedy the above or kindred evils be necessary.

Adopted by the Board of Aldermen, October 18, 1898.

D. W. F. McCOW,

Deputy and Acting Clerk.

New York, October 24, 1898.

Hon. JAMES F. KEATING, Commissioner of Highways:

SIR:—Referring to the resolution of the Board of Aldermen, requesting a report from this Bureau relative to the framing of ordinances to remedy existing evils in sidewalk obstructions, which has been suggested by the receipt of a communication from the Good Government Club, complaining of the condition of the street and sidewalk at northwest corner Eightieth street and West End avenue, where now buildings are in course of construction, the sidewalk flagging removed, and no shield or overhead protection erected to insure safety to pedestrians passing, I deem it my duty to submit an ordinance relating to the placing of building material upon streets and avenues during the erection and alteration of buildings and for other purposes connected therewith, providing the present ordinances and providing, where necessary, department rules governed, was presented to the Board of Aldermen for their consideration on July 13, 1898, and was, I believe, subsequently referred to the Committee on Law. As it is now over three months since the ordinance was presented the national resolution, adopted October 18, affords a favorable opportunity to dispose of this question, which has been made of the matter and what are the ultimate prospects of its becoming a law.

The complaint received by the Board of Aldermen is only one of the thousands received by this Department calling attention to some sidewalk, street or avenue, the deplorable condition of which causes annoyance to the pedestrians, and is often a menace to health as well as life and limb. We are continually receiving reports where violations are brought to our notice, and numerous cases difficulties in obtaining the desired result for such violations, owing to the absence of proper and effective penalties. The new ordinance contains many new provisions not in existence at present, and also provides penalties for violations, which are not at present provided for.

Referring to the matter of overhead shields during the construction of buildings over five stories in height, I find that this ordinance is evaded whenever it can be done without detection. Even when permits are issued for their erection, the shields are not always constructed if the obligation can be evaded. The secret of the enforcement of this ordinance, as well as all other ordinances, lies solely with the Police Department, whose force is sufficiently large to inspect every building in course of erection throughout the city and to observe its height as the work progresses. The new ordinance amends this regulation, which we think will result in overcoming the possibilities to shirk this responsibility.

The sidewalk question is one of grave importance, and one which the ordinances are not sufficiently mandatory to enable the Department having charge and supervision over them to maintain and provide them when necessary. Builders and contractors seem to have an utter disregard for pedestrians in front of buildings in course of erection or being removed. The flagstones are usually removed while work is in progress, and it is with much difficulty that we are able to compel them to plank the sidewalk until the flags are laid. Second-hand dealers in building material, who remove old buildings, but remove the sidewalk flagging, complete their work and go away, leaving no provision whatever for pedestrians, except a muddy walk. A communication was sent to all dealers in this class of material a short time ago, notifying them that the practice of taking up the flagstones in front of buildings about to be razed must cease, and that the sidewalk must not be disturbed until the new one is ready to replace it. While it has been the desire of some good, it has not had the desired effect, because no penalty is provided by law. The same reason may also be offered for the violations referred to in the inclosed resolution, and in fact numerous other violations which we are constrained to believe would rapidly decrease if penalties were provided which were sufficiently severe to deter many persons who violate the law from force of habit and absent consciences.

Respectfully,

F. J. SULLIVAN, Superintendent of Incumbrances.

Which was referred to the Committee on Law.

COMMUNICATIONS.

The President laid before the Board the following communications:

No. 1452.

THE BUILDERS' LEAGUE OF NEW YORK (INCORPORATED),
No. 74 WEST ONE HUNDRED AND TWENTY-SIXTH STREET,
NEW YORK, October 22, 1898.

The Honorable the Board of Aldermen, New York City:

GENTLEMEN:—You have before you for consideration two resolutions in re to the proposed "Building Code Commission."

Representing the consensus of opinion of our League, composed as it is of over four hundred firms, all actively engaged in the building trades, we ask your approval of the original resolution, as opposed to the amendment (offered, I believe, by Mr. Fox).

Our main objection to the latter is that it proposes that the Commission shall be composed largely of "doctrinaires," and not practical men. Again, under its provisions the Commission would be so large that it would be unwieldy.

On the other hand, the original resolution provides for a commission of specialists, each in his particular line, and each one (except, perhaps, the plumber) an absolutely necessary part of a body whose duty it shall be to provide a general building law, which law shall be the absolute guide for the construction of over ninety per cent. of the work in this city. The remaining ten per cent. of the work will be executed by civil engineers; and, owing to the constant change in methods of engineering, it is possible to lay down in the law only the general rules as to strength of materials for this class of work. Our present building law is an excellent one, and has stood the test of many years experience. What it now requires is a more elaborate and definite text in order to meet the various problems which are presented. It may surprise you to know that at each meeting of the Board of Examiners an average of fully forty questions are submitted to this board for their decision, and these are questions which could be answered by making the laws more definite.

The composition of this board is very similar in that proposed by the resolution we favor, and the very excellent service rendered the trades by this board is the best argument we can advance in support of our views.

In offering these suggestions we have no candidate to present; we only ask for the general good that the Commission shall consist of a few level-headed men who shall command our confidence, and that the trades shall have the right to appear before it and offer such suggestions as practical experience would justify.

We would also ask that prompt action be taken. Nearly ten months have elapsed since the new charter went into effect, and as the interests of nearly three hundred thousand wage-earners are affected, we feel justified in our protest against unnecessary delay.

Yours very respectfully,

JOHN P. LEO, President Builders' League.

No. 1453.

WILLIAM J. FRYER,
CONSULTING ARCHITECT AND ENGINEER,
No. 105 HAYMEYER BUILDING,
NEW YORK, October 25, 1898.

To the Honorable the Board of Aldermen of The City of New York, Hon. THOMAS F. WOODS, President:

SIR:—At the hearing given by the Joint Committee on Law, Public Buildings, Light and Supplies and Public Health on Friday last on the resolutions in favor of establishing a Commission of Experts to prepare and report a building code, as required by the Charter, I had the honor to appear as chairman of a committee consisting of three delegates from each of practically all the building trade and real estate associations in this city.

At that hearing we expressed the hope that you would not adopt the resolution offered by Alderman Folke, for the reasons in brief that a commission of nineteen would be too large; that the names of the greater number of the Commission was, in effect, to be left to various associations; and that no representation was provided either for the building interests nor for the real estate interests in said resolution.

We also stated at the hearing that while we favor broadly the composition for the commission recited in the Council resolution, we suggested certain changes to be made therein, viz.:

1. That the three Commissioners of Buildings be added to the list.
2. That all reference to trades and professions be eliminated.
3. That the resolution be so worded as to provide for the appointment, in addition to the three Commissioners of Buildings, of one representative of the Corporation Counsel and seven other men qualified for the work under requirements of the Charter; thus, these seven men might be all lawyers, all architects, all masons, all carpenters, or representative men in various lines might be selected, although it does not necessarily follow that a man is an expert in drafting building laws simply because he is a lawyer or an architect or a builder.

4. But if the resolution is to specifically name the several trades, then we suggested that the plumber be stricken from the list, for the reason that all matters relating to plumbing is to be contained in rules and regulations that the Charter directs the Commissioners of Buildings to establish for plumbing and light and ventilation, and the new building code is therefore to contain no reference to plumbing.

5. In lieu of the plumber we suggested one representative real estate owner be named.
6. We also suggested that instead of allowing the Board of Fire Underwriters to name a representative the appointing power should select one fire underwriter.

Inasmuch as the Charter (in section 647) provides that a Commissioner of Experts is to be employed, we express the hope that the Commissioner would not be required to serve without pay. We expressed the opinion that the payment to the members of the Commission of ten dollars each for each sitting was inadequate, inasmuch as continuous work would be required from the members for at least three months' time fairly to the exclusion of their other duties. Adequate compensation should be made to the members at the conclusion of their work, say upon the advice or recommendation of the Corporation Counsel, who would naturally be the best qualified person to decide such a question. No provision in the Council's resolution is made for office quarters, clerical help or printing.

At the hearing we urged the Joint Committee to remember that a new building code is one of the most important powers conferred upon the Municipal Assembly, and that a good building code would reflect great credit upon the City Government while the reverse would be the case if an unjust and complex code should be adopted. We expressed our belief that as the responsibility will be upon the Municipal Assembly for a good or a bad building code, the experts who are to be named to prepare the code should be only such men as would consider their obligations to the city far above the obligations to any association or society with which they might be connected.

Very respectfully,

WM. J. FRYER, Chairman of Builders' Committee on New Building Code.

Which were referred to the Joint Committee on Law, Public Buildings, Lighting and Supplies, and Public Health.

REPORTS ASSUMED.

No. 1454.

The Municipal Assembly:

Upon receipt of the following resolution:

Resolved, That the members of the Municipal Assembly represented in the Local Board of the Ninth Senatorial District of the Borough of Brooklyn, be and the same are hereby directed to investigate and ascertain by what authority the Brooklyn Union or any other elevated railroad company is now running cars to Rockaway Beach over tracks from Fulton street to Atlantic avenue, in the Borough of Brooklyn, and report back to the Municipal Assembly.

The Local Board of the Ninth Senatorial District met and notified the elevated railroad company referred to therein, and has investigated as required in such resolution, and reports as follows:

The Receiver of the Brooklyn Elevated Railroad Company has transmitted a plan, together with a statement of the position of such company and of the Long Island Railroad Company, co-operating with it in making the connection of the two roads from Fulton street to Atlantic avenue, which plan and communication we attach hereto.

It appears that the land lying between Fulton street and Atlantic avenue is private property. Neither the Brooklyn Elevated Railroad Company nor the Long Island Railroad Company has ever obtained any authority whatsoever from any city department for the construction of the structure referred to. Two permits, one of April 20, 1898, and one on June 10, 1898, were obtained by the Brooklyn Elevated Railroad Company from the Highway Department in the Borough of Brooklyn, which simply permitted the placing of building materials on Fulton street and on Atlantic avenue, the permit, we understand, being of the same character as that which would be obtained by a builder constructing any edifice.

The structure of these railroad companies not only runs through Fulton street, for which the elevated road has a franchise, and through Atlantic avenue, for which the Long Island Railroad Company has a franchise, but also runs from Fulton street across the sidewalk into the private property in the block owned by the railroads and out of such private property on Atlantic avenue across the sidewalk to the land in the center of the street which belongs to the Long Island Railroad Company. This structure is not within the terms of any franchise granted by The City of New York, or its predecessor the City of Brooklyn. The railroad companies claim the right to do as they have done, however, notwithstanding the provisions of the Charter. The facts being without dispute, the question involved is wholly a question of law, and we recommend that this communication, with accompanying papers, be submitted to the Corporation Counsel, with the request that he act in such manner as the law permits in the premises. We believe that the structure is an injury to the adjoining and neighboring property, and we believe that the course of these railroad companies is such as to prevent the City from obtaining the compensation for franchises for which the Charter of the City provides, and, if the law will permit it, action should be taken against the continuance of this structure without the permission of the City authorities and without compensation to the City.

Respectfully,

EDWARD M. GROUT,
President, Borough of Brooklyn.

Dated BROOKLYN, October 7, 1898.

RECEIVED BROOKLYN ELEVATED RAILROAD COMPANY,
LEGAL DEPARTMENT, No. 31 SANDS STREET,
BROOKLYN, N. Y., September 28, 1898.

Hon. E. M. GROUT, President of the Borough of Brooklyn, Borough of Brooklyn, N. Y. City:

DEAR SIR—At the request of Mr. Uhlmann I send you herewith a plan showing the connection between the tracks of the Brooklyn Elevated Railroad Company in Fulton avenue over private property and the tracks of the Long Island Railroad Company in Atlantic avenue.

The title to the land in question is held by a trustee for the joint benefit of the Long Island Railroad Company and the Brooklyn Elevated Railroad Company or its successor.

The Brooklyn Elevated Railroad Company was chartered by a special act of the Legislature, chapter 585 of the Laws of 1874, and enacted, you will observe, prior to the Constitutional Amendment of 1875, so that under the rights secured by said act it is not necessary to secure the consents of abutting owners or of the municipality for the construction of said railroad or appurtenances along the route specified in said act, which includes Fulton street, east of Broadway.

The act in question gives the company full power to construct, maintain and operate such turnouts, switches, sidings, platforms, depots, stairways, telegraph and signal apparatus and repair shops as may be necessary and proper for the successful maintenance and operation of such railway, etc. The act also provides that said corporation shall possess all the rights, powers and privileges and be subject to all the provisions of the General Railroad Act, chapter 120 of the Laws of 1850, and the acts amendatory thereof.

With the provisions of the General Railroad Act of 1850, and the amendments thereof you are doubtless familiar, so that you will readily recall the statutory provisions which authorize railroads to unite and connect their lines when co-terminus or constructed in the same vicinity, and require the granting of facilities for transporting passengers over each other's lines. You have also, doubtless, observed that the settled policy of the courts is to favor all arrangements between existing railroads whereby the convenience of the traveling public may be promoted as by making connections of this sort. A good case in point is *Beekman vs. Brooklyn and Brighton Beach Railroad Company*, 80 Hun, 14. The Court of Appeals has held, *Matter of Union Elevated Railroad Company*, 113 N. Y., 275, that a company organized under the Rapid Transit Act of 1875 had the right to connect its routes with the routes of an existing elevated railroad, and run continuous trains thereover, so as to promote the convenience of the traveling public. The connection in the case last cited was between the Hudson avenue route of the Brooklyn Elevated Railroad Company and the Myrtle avenue route of the Union Elevated Railroad Company.

I understand that the Long Island Railroad Company claims the same authority to make the connection in question under their chartered rights, that is cited in behalf of the Brooklyn Elevated Railroad Company. The work of constructing the connection in Atlantic avenue and over the private property between Atlantic avenue and Fulton avenue was done under the exclusive supervision and control of the Long Island Railroad Company. All that the Receiver of this Company did under the order of the Court was to put in the girders and tracks connecting our Fulton avenue line with the structure on the private property in question, which was completed as far as the house line on Fulton avenue. It was unnecessary to erect any additional supporting columns for this purpose; consequently no excavations of any kind were made in the street, and no permit was secured except for the purpose of placing material in the street pending construction.

(Signed) ALEX. S. LYMAN.

Alderman Byrne moved that the report be referred to the Corporation Counsel, with the request to report thereon at the next meeting of the Board.

The President put the question whether the Board would agree with said motion. Which was decided in the affirmative.

UNFINISHED BUSINESS.

Alderman Stewart called up G. O. 110, being a report of the Local Board of the Fourth Senatorial District of the Borough of Brooklyn, as follows:

No. 1300.

To the Municipal Assembly:

Upon receipt of the following resolution:

Resolved, That the members of the Municipal Assembly represented in the Local Board of the Fourth Senatorial District of the Borough of Brooklyn, be and the same are hereby directed to investigate if any franchise exists for the purpose of establishing a cold storage plant at the Wallabout Market or for any part of the said Fourth Senatorial District, with power to send for persons and papers, and to make their report at the next regular meeting of the Municipal Assembly.

The Local Board of the Fourth Senatorial District duly met, and at a subsequent session, held on the 15th of September, 1898, investigated as required in the resolution. We report as follows:

On December 10, 1896, one Charles F. Smith made application to the Commissioner of City Works of the City of Brooklyn for a permit to erect a building on market lots, and to lay pipes for refrigerating purposes. On January 10, 1897, Mr. Smith made an additional application.

On February 11, 1897, Mr. Smith with others incorporated in the State of West Virginia the Market Refrigerating Company, whose purpose was solely refrigerating and cold storage in the Wallabout Market in the City of Brooklyn. Mr. George L. Murphy, one of the incorporators of such company, was at that time an employee of the Department of City Works, having special charge of the market and being known as the Market Clerk. These companies this report a copy of a letter of his of January 22, 1897, written as Market Clerk, recommending Mr. Smith's petition. He cautioned to hold such position, we understand, until after the first day of January, 1898.

On March 26, 1897, the Department of City Works issued its permit No. 72,108, to the Market Refrigerating Company to open various market streets to lay refrigerating mains. It does not appear that the Mayor of Brooklyn issued in this permit.

We have not been able to discover that any application was made direct by the Market Refrigerating Company or any other application other than the two set forth, made by Mr. Smith.

On April 5, 1897, the Common Council directed an investigation as to the authority for opening streets and laying pipes without a franchise from the Common Council.

On April 12, 1897, the Committee on Law made report condemning broadly the action of the Department of City Works, and the Common Council thereupon adopted a resolution declaring that permits should not be issued by any City Department without adequate compensation to the City.

On May 18, 1897, Corporation Counsel Barr rendered an opinion to the effect that the granting of a permit to use the market streets was not within the jurisdiction of the Common Council, but of the Mayor and Commissioner of City Works, and should be upon a compensation to be fixed. He held that the permit of March 26 did not properly confer a right to use the streets of the market.

It would appear that this action on the part of the Common Council was effectual at that time in stopping the use of the streets by this company, for, on September 27, 1897, the company addressed a communication to the Mayor of the City of Brooklyn urging that it be allowed to proceed.

The Mayor thereupon on September 30, 1897, made inquiries of the Commissioner of City Works, looking toward the attainment of a fair price for the company to pay the City for the privilege of placing pipes in the market. No determination appears to have been reached by the officials of the City on that question.

Subsequently, and in December last, we understand that the Market Refrigerating Company laid refrigerating pipes under, through and across various of the streets and highways within the boundaries of Wallabout Market. This action appears to have been taken under the repudiated permit of March 26, 1897, and without any objection or interference on the part of any official. We find no record of any action on the part of the Mayor, although the same would appear to be necessary under Mr. Barr's opinion.

Having thus obtained possession of the streets in the market, the Market Refrigerating Company, on July 20, 1898, made application to the Comptroller of the City of New York, offering to pay the City five per cent. upon its gross receipts. Nothing appears upon which it can be said that such a payment is adequate or inadequate.

We attach hereto, as part of this report, copies of the following papers above referred to:

1. Application of Smith, December 10, 1896.
2. Application of Smith, January 10, 1897.
3. Letter of Murphy, January 22, 1897.
4. Certificate of incorporation of Market Refrigerating Company, February 11, 1897.
5. Permit of Department of City Works, April 7, 1897.
6. Resolution of Common Council of Brooklyn, April 5, 1897.
7. Report to Common Council and resolution, adopted April 12, 1897.
8. Opinion of Corporation Counsel Barr, May 18, 1897.
9. Communication of Refrigerating Company to Mayor Wurster September 27, 1897.
10. Communication of Refrigerating Company to Comptroller Coler, July 20, 1898.

We beg leave to report the following conclusions:

1. That no franchise was ever granted to the Market Refrigerating Company by the former City of Brooklyn or by its Board of Aldermen, and no other permit or action of the officials of the said city, except that above set forth. We believe that the Market Refrigerating Company has no lawful right to occupy or use the streets of the market as it is now doing, the permit of March 26, 1897, having been held insufficient for that purpose by the Corporation Counsel, and the Mayor of Brooklyn having never aided with the Commissioner of City Works in any other permit.

2. We believe that the possession of any such franchise or privilege by foreign corporations is of doubtful legality and obviously against proper municipal policy.

3. We condemn the action of the Department of City Works of the former City of Brooklyn in permitting a person employed by it to engage in an outside corporation, and to obtain for such corporation a favorable and profitable action of the Department. We cannot believe that this company could have succeeded in its unlawful intrusion upon the market property had it not been for George L. Murphy, Clerk of the Market and officer of the company.

We recommend that a copy of this report and accompanying papers be transmitted to the Comptroller and to the Corporation Counsel.

We recognize fully the necessity of refrigerating and cold storage appliances for the Wallabout Market, but the fullest realization of such necessity cannot serve to clothe with legality the present use of the streets in the market without compensation to the City. If the Market Refrigerating Company reorganizes as a corporation of the State of New York, and makes application for a franchise or a permit, if a franchise be not necessary, to use the streets of Wallabout Market, offering properly to compensate the City therefor and complying in all respects with the City Charter, prompt and favorable action thereon should be had. At present it is a mere trespasser, having no justification but official favor. We understand that this company has not yet commenced business, nor paid any ground rent to the City for the market lots which it leases.

President, Borough of Brooklyn.

No. 252 CARLTON AVENUE,

BROOKLYN, N. Y., December 10, 1896.

Hon. THEODORE B. WILLIS, Commissioner of City Works.

DEAR SIR—I hereby make application for a permit to erect a building on lots Nos. 503, 504, 603 and 604, "Official Map of the Wallabout Market Lands" for the necessary boilers and compressors, and to lay the necessary pipes to convey pure dry air under pressure for refrigerating purposes in the market. The system is proposed to employ will require but very little opening of the streets throughout the market, is not liable to explosions or accidents of any kind, will require no subsequent opening of the streets, but will be of great benefit to the market and it is intended for the use of the marketmen.

It comprises only the necessary boilers, air compressors and receivers, no chemicals of any kind being used. It is in use on our war vessels, Sound steamers, yachts and steamships of various kinds with entire satisfaction. I append herewith a request from many of the prominent marketmen for the installation of the plant.

As I am prepared to commence operations at once, I hope the above may be favorably considered at an early date.

Very sincerely yours,
(Signed) CHAS. F. SMITH, Mechanical Engineer.

No. 252 CARLTON AVENUE,

BROOKLYN, N. Y., January 10, 1897.

Hon. THEO. B. WILLIS, Commissioner of City Works.

DEAR SIR—I present herewith additional names to my petition of December 10, 1896, for permission to install a refrigerating system in Wallabout Market, also plans of the proposed pipe line.

I have changed my original plan somewhat, and propose to locate the plant on Lots Nos. 507, 508, 509, 607, 608 and 609. An inspection of the plan will show the pipe line starting from Lot No. 609 and running across the space reserved for stables to and under the sidewalk, not yet laid, along East street, to the lots beginning with No. 362, and along under the buildings to Flushing avenue, with a branch crossing East street and opposite the tower and running to Washington avenue, with branches under the buildings. It will thus be seen that only the cross streets are opened, and they only for a narrow trench, which will be opened and closed the same day.

The marketmen are particularly anxious to have the system in operation early in the spring, and as it will take from two to three months to complete it, I respectfully urge your early consideration in the matter.

Yours respectfully,
CHAS. F. SMITH.

WALLABOUT MARKET BUREAU—DEPARTMENT OF CITY WORKS,
No. 34th EAST AVENUE, WALLABOUT MARKET,
BROOKLYN, N. Y., January 22, 1897.

Hon. THEO. B. WILLIS, Commissioner, Department of City Works, Brooklyn.

DEAR SIR—Referring to your communication of 19th instant, relative to application of Mr. Chas. F. Smith for permit to operate a cold-air refrigerating system in the market, I beg to say that I think such a system would be of great benefit to the marketmen. From conversations had with the marketmen I judge that there would be very little objection to running the pipes through the buildings, but that there would be objections if any other system than a cold-air system was introduced.

I can recommend no improvement on proposed pipe line. I would, however, suggest that in case a permit is issued, that an agreement be made with Mr. Smith to the effect that the relaying of the pavement torn up be done by the City, under the supervision of the head of this Bureau, and that the cost of same and repairs for the period of one year be charged to him.

Yours respectfully,
GEORGE L. MURPHEY, Clerk of the Market.

DEPARTMENT OF CITY WORKS—BUREAU OF STREETS,
ROOM 38, MUNICIPAL BUILDING,
BROOKLYN, March 26, 1897.

No. 72108.

Special Permit.

Permission is hereby granted to Market Refrigerating Company. Open street, lay mains for refrigerating purposes, as per plans filed D. C. W. Restoration of pavement to be done by Commissioner of City Works at expense of company. Market Square, Market avenue, East avenue, West avenue, A, B, C, and D streets.

It is understood that the above permission is granted upon the condition that all the work performed under it shall be in conformity with the ordinances of the Common Council, and in accordance with the regulations that have been or may be adopted by the Board of City Works governing this Department, and under the direction of the Superintendent of the same.

The Board of City Works reserves the right to revoke this permit upon failure or neglect of the party to whom it is issued to comply with any of its conditions.

Time, three months.

A. J. DAYTON,
Per W. T. C., Permit Clerk.

(Extract from the Minutes of the Common Council of The City of Brooklyn, of April 5, 1897.)

"Resolved, That the Law Committee be and the same is hereby directed to inquire by what authority an employee of the city, or by whom he was authorized, to permit the opening of streets and the laying of pipes for the introduction of cold air for storage purposes at the Wallabout Market, without first having obtained the right of franchise, this Common Council, and the Committee is directed to report to this Board their findings at its next regular meeting."

(Extract from Minutes of Common Council of the City of Brooklyn, of April 12, 1897.)

"The Law Committee, to whom was referred Resolution No. 74 of Minutes of April 5, 1897, page 79, relative to an inquiry to be made as to what authority existed for the laying of cold-air pipes in the streets of Wallabout Market without having obtained the consent of this Common Council for said franchise, have carefully examined into the matter, and find as follows:

First—That the care and control of Wallabout Market is vested in the Mayor and Commissioner of City Works by law.

Second—That the Department of City Works did lease to one Charles F. Smith a plot of ground on which he was to erect certain buildings.

Third—That the Department of City Works did issue a permit to the Wallabout Refrigerating Company to cross streets in laying their pipes for the purpose of furnishing cold storage.

Fourth—While the law provides that the Mayor and Commissioner of City Works are authorized to make rules and regulations for the proper government of the market and market property, we are informed that the Mayor was not consulted in this case, and the permit issued without his consent.

Fifth—That no pipes have as yet been laid, and the Mayor has referred the matter to the Corporation Counsel for a legal opinion; we are also informed by the Corporation Counsel that the permit issued is null and void.

Sixth—That a person in the employ of the city and receiving a large salary for duties performed in the Wallabout Market has a personal and financial interest in said Refrigerating Company, and was largely instrumental in the obtaining of this valuable franchise.

A City franchise is public property and must not be given away without just and full return for value received.

Heads of departments should not assume singly those duties that the law makes effective only on joint action with the Mayor.

Persons in the employ of the city should not use their positions to assist corporations in securing special privileges in valuable grants.

Great credit is due his Honor the Mayor for his quick discernment and prompt action in this matter, thus securing to the city the right to dispose of this franchise to the highest bidder.

Your Committee recommend for adoption the following:

(Resolution No. 18.)

Resolved, That permits shall not be issued to corporations by any city department which, as in the present instance, carries with it the facilities for establishing and conducting a large and valuable business, without a just and reasonable financial consideration being paid to the City therefor.

Respectfully submitted,

OFFICE OF THE CORPORATION COUNSEL,
CITY HALL,
BROOKLYN, May 18, 1897.

Hon. THED. B. WILLIS, Commissioner of City Works:

DEAR SIR—As requested by you, I have carefully examined the proceedings in connection with the lease of six lots forming part of the Wallabout Market plans to Charles F. Smith, and the granting of a permit to him to lay pipes in various parts of the said lands for the purpose of conducting cold air to be furnished the different occupants of the market for refrigerating purposes. Under the provisions of chapter 569 of the Laws of 1894, the Commissioner of City Works, with the consent of the Mayor, is authorized to make proper rules and regulations for the use of the market property; and the Mayor and the said Commissioner are required to fix and establish rents for the use of said lands, and, with the consent of the Mayor, the said Commissioner is authorized to lease the same. The leases in question (six in number), which were executed on the 16th day of March, 1897, leased lots on the "official map of the Wallabout Market lands on the east side of Washington avenue," by numbers designated on the said map. No rights are conferred upon the lessee by the said leases to use any other portion of the market lands except that he would have the right to pass over that portion of the lands laid down on the map as market streets for the purpose of obtaining access to the said lots.

I am of the opinion, therefore, that the permit granted by you on the 26th day of March, 1897, to lay pipes to conduct cold air for refrigerating purposes over other portions of said lands, according to the plans filed with your Department, confer the privilege which the lessee was not entitled to by virtue of his lease. It is true that the written application for the lease did refer to an intention to lay such pipes, but all prior negotiations were merged in the written leases which contained no such privilege. Inasmuch as the rent received for the lots is the same as that for other lots in that neighborhood, it cannot be claimed that the City has received any compensation for such use of the lands in question. If this privilege has any value the City should be paid for it. I think, however, it is within the power of the Mayor, acting in conjunction with you, to fix a price which shall be a fair and reasonable one for the use of the lands for such purposes, and to lease the right to such use at the price fixed. This is not in the nature of a franchise. There is nothing exclusive in the privilege. There is nothing to prevent the Mayor and Commissioner of City Works from leasing other lots in the market lands to other refrigerating companies and leasing to them for a like reasonable sum a like privilege, to the use of the lands for the purpose of putting down pipes.

Inasmuch as such pipes are wholly within the territory bounded by Washington and Flushing avenues, and do not cross any public streets, I am of the opinion that the granting of these rights does not fall within the province of the Common Council, but that the matter is in the hands of the Mayor and of the Commissioner of City Works. I would suggest, therefore, that you, in connection with the Mayor, fix upon the sum which shall be a just and fair compensation to the City for the right to lay pipes in the market lands for the purpose of conducting cold air for refrigerating purposes, and that you lease such rights to any proper parties who may desire to acquire the same at the rental fixed.

I remain,

Very respectfully yours,

(Signed)

JOS. A. BURR, Corporation Counsel.

BROOKLYN, September 27, 1897.

Hon. F. W. WURSTER, Mayor of the City of Brooklyn:

SIR—In accordance with your request of the 22d instant, we submit herewith a statement of the estimated yearly receipts and expenses of the refrigerating branch of the Market Refrigerating Company, based on the total consumption of ice in the market last year, amounting to about \$5,000.

Expenses—
80 million cubic feet free air, at 4 cents per 1,000 cubic feet at station..... \$3,200 00
Interest on refrigerating branch of plant, \$30,000, at 6 per cent..... 1,800 00
Taxes on refrigerating branch of plant, about..... 700 00
Labor on refrigerating branch of plant..... 1,620 00

Total..... \$7,320 00
Receipts..... 8,000 00

Balance..... \$680 00

Depreciation of plant and other charges will reduce this somewhat.

The cold storage branch depends to a large extent upon the operation of the refrigerating branch for profit; in fact they are dependent upon each other.

The cold storage would be profitable alone, were it not for the unusual limitations of the lease and restrictions of the rules and regulations governing the market, which limit the height of the building to two stories.

The usual practice was followed in this case. All the papers were on file in the Department of City Works as required by law, showing the purpose for which the property and permit was wanted when the leases were signed and the permit issued. We therefore at once executed contracts for the complete plant at a cost of about \$70,000. You will see in what an embarrassing position the company has been placed by it being forbidden to proceed under its leases.

We claim the installation of a cold storage and refrigerating system will be of inestimable benefit to the market. It is a convenience so much desired by the marketmen that the City should be willing to make very liberal concessions to any one installing such a plant, or at least charge merely a nominal sum, say one dollar per year, for privilege, particularly as the leases expire by limitation in 1909, and we shall have, in addition to the ground rent, heavy taxation on the plant.

Other cities are glad to accord all necessary privileges to their markets. It would seem a pity to deprive Wallabout Market, the finest in the country, and made so entirely by the business enterprise of the dealers themselves, of privileges and conveniences which would tend to the upbuilding and establishing of a really great market.

Your Honor will notice that the application is dated December 10, 1896, more than ten months ago. Certainly our City authorities cannot justly be accused of exercising undue haste in consideration of a matter vitally affecting the interests of a large body of citizens and taxpayers.

Of course you will see that the purpose for which this property was wanted was known to the City before the leases were executed, and the contracts were entered into by the company after the consent of the City had been given.

The case has been resting in your Honor's hands for several months, in face of repeated appeals of the marketmen by committee and communication; how much longer it will be held in abeyance depends entirely upon your Honor's sense of right and justice, to which we respectfully appeal.

We append hereto a copy of the petition of the marketmen to the Commissioner of City Works. The original is on file in the Department, and may only be had on your Honor's order. Awaiting your consideration, we are,

Yours respectfully,

WEDNESDAY, NOVEMBER 2, 1898,

at 12 o'clock M., when they will be publicly opened and read, for

CONSTRUCTING A TEMPORARY PRIVATE SEWER IN EIGHTEENTH AVENUE, BETWEEN FIFTY-SEVENTH AND SEVENTY-FIFTH STREETS, for the drainage of the Disciplinary Training School, Borough of Brooklyn.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or in the work to which it relates or in any portion of the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent in writing, of two householders or freeholders in The City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for his faithful performance, and that if he shall refuse or neglect to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in a sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of the deposit will be returned to him.

THE COMMISSIONER OF SEWERS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED, IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

Blank forms of bids or estimates, the proper envelope in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at the office of the Deputy Commissioner of Sewers, Municipal Building, Borough of Brooklyn.

Commissioner of Sewers.

- The Board of Public Charities reserves the right to reject all bids or estimates if deemed to be for the public interest, as provided in section 64, chapter 410, Laws of 1884.
- No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.
- The award of the contract will be made as soon as practicable after the opening of the bids.
- Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioners.
- Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by him or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.
- Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 19 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.
- No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.
- Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation and the contract will be re-advertised and relet, as provided by law.
- The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department, or, in the absence of samples in the printed specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates, and are cautioned against referring to any samples or specifications other than those furnished by the Department. Such references are cause for rejecting bids when the facts are written, and will in no case govern the action of the Department officers in passing upon tenders.
- Bidders will state the price for each article, by which the bids will be tested.
- Bidders will write out the amount of their estimates in addition to inverting the same in figures.
- Each article when delivered shall have a tag attached bearing line number.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Proposals must be made for all the work contained in the specifications.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The building is to be completed and delivered within one hundred and twenty (120) days after the execution of the contract.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired are fixed and liquidated at Two (2) Dollars.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall present the same in a sealed envelope at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The Fire Commissioner reserves the right to decline any and all bids or estimates if deemed to be for the public interest.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and it is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof.
