No. 148.

Whereas, The Board of Rapid Transit Railroad Commissioners for The City of New York did, on the 22d day of December, 1904, grant to the New York and Jersey Railroad Company a certificate fixing and determining the routes, locations and plans of construction of a certain tunnel railroad in the Borough of Manhattan, in The City of New York, as an extension or extensions of the said company's tunnel railroad heretofore authorized, and also prescribing such terms, conditions and requirements as to the said Board of Rapid Transit Railroad Commissioners appeared to be just and proper for the grant thereby made, including the terms, conditions and requirements provided by section 32 of chapter 4 of the Laws of 1891, as amended by chapter 584 of the Laws of 1902; the action taken and the grant made by the said Board, the said locations and plans of the railroad, of the tracks and facilities, the compensation to be paid to the City, the terms, conditions and requirements subject to which the franchise was granted are fully set forth in the certificate, dated December 22, 1904, which said certificate, together with the franchise therein contained and all the terms, conditions and requirements thereof were duly accepted by the said New York and Jersey Railroad Company by an instrument executed in writing on the 27th day of December, 1904; and

Whereas, On the 10th day of January, 1905, the said certificate and the franchise therein contained, together with all the terms, conditions and requirements thereof and the said instrument of acceptance, were duly transmitted by the said Board of Rapid Transit Railroad Commissioners for The City of New York to the Board of Aldermen, on which day said Board of Aldermen referred the said certificate to the Committee on Bridges and Tunnels; and

Whereas, On the 31st day of January, 1905, the said Committee on Bridges and Tunnels reported to the Board of Aldermen that the said certificate be referred back to the Board of Rapid Transit Railroad Commissioners for The City of New York with the recommendation that paragraph 11 of said certificate be amended in certain particulars, which said report of the Committee on Bridges and Tunnels was accepted; and

Whereas, On the 7th day of February, 1905, the Board of Rapid Transit Railroad Commissioners for The City of New York returned to the Board of Aldermen the said certificate, in amended form, dated February 2, 1905, as follows:

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS FOR THE CITY OF NEW YORK TO NEW YORK AND JERSEY RAILROAD COMPANY.

### Certificate for Extensions.

The Board of Rapid Transit Railroad Commissioners for The City of New York does hereby certify as follows:

Whereas, The New York and Jersey Railroad Company (which is hereinafter called the Tunnel Company) is a railroad corporation which has been duly incorporated under the laws of the State of New York for the purpose, so declared in its articles of association, of owning and operating the tunnel and railroad in part within the limits of The City of New York formerly of the Hudson Tunnel Railway Company, and of constructing and operating a tunnel railroad in The City of New York (which City is hereinafter called the City) to be connected with a railroad or railroads within the State of New Jersey and thereby forming a continuous line for the carriage of passengers and property between a point or points within, and a point or points without the City, and more particularly a tunnel railroad having its eastern terminus in the block bounded by Christopher, West Tenth, Greenwich and Hudson Streets, in the Borough of Manhattan, in The City of New York, and thence extending westwardly and to be connected with a railroad or railroads in the State of New Jersey, and thus form a continuous line for the carriage of passengers and property between such terminus of the railroad of the Tunnel Company within the City and a point or points upon the lines of such railroads in the State of New Jersey, and other States and

Whereas, The Tunnel Company has been duly authorized by the Board of Rapid Transit Railroad Commissioners for The City of New York, by certificate dated July 10, 1902, with the consent and approval of the Board of Aldermen, the Mayor, the Commissioner of Docks and the Commissioners of the Sinking Fund, to lay down, construct and operate said tunnel and railroad to its proposed terminus in the said block bounded by Christopher, West Tenth, Greenwich and Hudson Streets, in the Borough of Manhattan; and

Whereas, The said Tunnel Company desires to extend its said tunnel and railroad along the route hereinafter mentioned to a point at the intersection of Christopher Street and Sixth Avenue, and thence with one branch to a terminal at or near the intersection of Sixth Avenue and Thirty-third Street, and with another branch to a terminal station at or near the intersection of Fourth Avenue and Ninth Street in the said Borough, as shown upon the plan hereto attached, and pursuant to section 32 of chapter 4 of the Laws of 1891, as amended by chapter 584 of the Laws of 1902 (which entire statute as amended by various acts and as now in force is hereinafter called the Rapid Transit Act), has made application to the Board of Rapid Transit Railroad Commissioners for The City of New York (which is hereinafter called the Board), for authority to establish, construct and extend its railroad tracks along a certain route from its present terminus at the corner of Greenwich and Christopher Streets, in said City, to its proposed terminals at or near the intersection of Sixth Avenue and Thirty-third Street, and at or near the intersection of Fourth Avenue and Ninth Street, and to have and maintain at said terminals terminal stations and such terminal and other facilities as may be necessary for the accommodation of the traveling public, and to construct and operate its railroad along the said route under lands, streets, avenues, highways and public places in the City, with necessary sidings, platforms, stations, facilities for access to the surface and other appurtenances, all as hereinafter particularly set forth, and to transport over the said railroad passengers or freight, or both; and

Whereas, The Board by a concurrent vote of at least six of its members has fixed and determined the locations and plans of construction of such extension of the railroad of the Tunnel Company upon such route and of such tracks and facilities, the times within which they shall be respectively constructed, and the compensation to be paid therefor to the City by the Tunnel Company; and

Whereas, The Board, by such concurrent vote has prescribed such terms, conditions and requirements as to the Board appear to be just and proper for the grant hereby made to the Tunnel Company, including the terms, conditions and requirements provided by the Rapid Transit Act, and has included among them a provision that the Tunnel Company shall from the time of the commencement of the operation of such railroad under such a determination, annually pay for such extension to the City a sum or rental for certain periods of years hereinafter mentioned, beginning with the operation of any part of the said extensions of the railroad of the Tunnel Company, and also providing for a readjustment of the amount of such sum or rental at the expiration of such period, and at intervals thereafter of twenty five years,—

Now, therefore, the Board has authorized and does hereby authorize, but subject, however, to the terms, conditions and requirements hereinafter set forth, the Tunnel Company—

1. To lay down, construct and operate a railway including two tracks, on a route beginning at the terminus of the railway of the Tunnel Company, as at present authorized, at the intersection of Greenwich and West Tenth and Christopher Streets, in the Borough of Manhattan, and thence running easterly under Christopher Street to Sixth Avenue; thence with one branch under Sixth Avenue to a terminal station at or near the intersection of Sixth Avenue and Thirty-third Street in said Borough, and with another branch crossing diagonally under Sixth Avenue to Ninth Street and thence easterly under Ninth Street to a terminal station at or near the intersection of Fourth Avenue and Ninth Street in said Borough.

2. To lay down, construct and operate in connection with its terminal station at or near the intersection of Sixth Avenue and Thirty-third Street two additional tracks for the convenient operation of its Railroad; and also in connection with the said terminal station but not more than two hundred and fifty feet southerly therefrom, and also in connection with the terminal station at or near the intersection of Fourth Avenue and Ninth Street, but not more than two hundred and fifty feet westerly therefrom, and also (in case the City shall exercise the option hereinafter reserved to it to purchase certain portions of the said tunnel and railroad) in connection with the station at or near the intersection of Christopher Street and Sixth Avenue, but not more than two hundred and fifty feet westerly therefrom, to lay under Sixth Avenue and under Ninth Street and under Christopher Street as many tracks, sidings and connections as may be found convenient for the operation of the railroad, with the right to use therefor said avenue and said streets to the entire width thereof.

3. To build, maintain and operate subway stations, and the necessary track connections therewith, contiguous to the said tunnel and railroad under Christopher Street between the East line of Greenwich Street and the East line of Hudson Street; at or near the intersection of Christopher Street and Sixth Avenue; under Sixth Avenue at or near its intersections with Fourteenth Street, Eighteenth Street, Twenty-third Street and Twenty-eighth Street; and also the said terminal station at or near the intersection of Sixth Avenue and Thirty-third Street; and also the said terminal station under Ninth Street between Broadway and Fourth Avenue; together with stairways leading from such subway stations to the surface of the streets and avenues and also together with a subway leading from said terminal station at Ninth Street and Fourth Avenue to the station of the Rapid Transit Subway at Fourth Avenue and Eighth Street.

4. To transport upon the said railways and through the said tunnel persons and property, and to use therefor and in connection therewith all suitable appliances.

5. To maintain and operate under the streets of the routes aforesaid and along the lines of the said railways composing the railroad, telegraph wires and wires, cables, conduits and ways for the distribution of power, heat and light and other appurtenances for the use of the railroad and for no other purpose.

6. To acquire and use for stations or station extensions, power plants, pumping stations, shafts for access to the surface and other necessary purposes of the railroad, private property as the same may be lawfully acquired within the scope of the corporate rights and powers of the Tunnel Company.

7. The Board may by written notice to be given to the Tunnel Company at any time before the construction of its railroad to the said terminal station at or near the intersection of Fourth Avenue and Ninth Street is completed, require the Tunnel Company to lay down, construct and operate a railway including two tracks extending from said station easterly under Ninth Street to a terminal station at or near the intersection of Ninth Street and the westerly side of Second Avenue; and the Board does hereby authorize the Tunnel Company to lay down, construct and operate such extension of its railway in case it shall give such notice as hereinbefore provided.

The rights hereinbefore granted to maintain and operate the railroad or necessary or convenient for that purpose shall be held by the Tunnel Company in perpetuity, except as may be herein otherwise expressly provided.

Provided, however, and it is expressly agreed that this authorization and the rights and privileges hereby granted are subject to certain terms, conditions and requirements which appear to the Board to be just and proper, and, as so subject, are hereinafter called the franchise hereby granted. The said terms, conditions and requirements are hereby prescribed as follows, to wit:

## I.

This certificate will be executed by the Board in four identical originals, so proved as to be entitled to be recorded in the office of the Register of the County of New York and to be filed in the office of the Secretary of State of the State of New York, all of which will be delivered by the Board to the president, vice-president, secretary or treasurer of the Tunnel Company. The franchise hereby granted shall be inoperative and this certificate shall be void unless within sixty days after such delivery or such further period as shall be prescribed in writing by the Board, the Tunnel Company shall have procured three of the said identical originals to be returned to the Board, each of them having an acceptance of the franchise and all the terms, conditions and requirements thereof subscribed at the foot thereof by the Tunnel Company, such acceptance being so proved as to entitle it to be recorded and filed as aforesaid.

## II.

The franchise hereby granted shall, if the Board shall so determine, become void unless within six calendar months after the time of the delivery to the Board of the acceptance of this certificate by the Tunnel Company, that Company shall, in due and lawful form, obtain or receive the consent of the Board of Aldermen of the City, being the local authority having the control of the portions of the streets and highways upon or under which it is proposed to construct the Railroad, together with the approval of the Mayor of the City.

The franchise hereby granted shall, if the Board shall so determine, become void unless within one year after the time of the acceptance of its certificate by the Tunnel Company, that Company shall further and in due and lawful form obtain the consent of the owners of one-half in value of the property bounded on each portion of the streets under or through which the Railroad or any part of the route thereof runs, to the construction and operation of the Railroad, or such part thereof, or in case the consent of such property-owners cannot be obtained, then the determination of commissioners to be appointed pursuant to law by the Appellate Division of the Supreme Court in the First Department that such portion of the Railroad ought to be constructed and operated, the said determination of such commissioners when confirmed by the Appellate Division which shall have appointed such commissioners to be taken in lieu of such consent of property-owners. Provided, however, and it is expressly stipulated, that the Board shall have power, upon reasonable cause shown, to extend by written certificate either of the periods hereinbefore in this article prescribed.

If the Tunnel Company shall be diligent in prosecuting applications for the consents aforesaid, and shall not have secured the same within the period of one year after its acceptance as aforesaid of this franchise, then and in such case the Tunnel Company shall, after a written notice of three months to the Board, be released from its obligations hereunder, unless within such three months such consent shall have been given.

## III.

The Tunnel Company shall begin the construction of the said extensions of the railroad hereby authorized (but not including the said extension from Fourth Avenue to Second Avenue unless the Board shall so determine and notify the Tunnel Company as hereinbefore provided), within six months after it shall have obtained the consents aforesaid and, within five years after such construction shall be begun, shall complete the construction of the said extensions.

In case the Tunnel Company, within the period of six months after it shall have obtained the consents necessary as aforesaid, shall not have begun the actual construction of the aforesaid extensions of its railroad, or if, after having begun such construction, it shall suspend the same prior to the completion thereof for a period exceeding three months, or if it shall not complete such construction and begin the operation of the railroad to said terminal stations within the said period of five years, then and in either of such cases the Board, upon a written notice to be delivered to the Tunnel Company not less than three months before the action of the Board, may annul the franchise hereby granted as to the railroad from the intersection of Christopher Street and Sixth Avenue to said terminal stations, and if the Tunnel Company shall not complete the construction and begin the operation of the railroad from the terminus of the railway of the Tunnel Company as at present authorized at the intersection of Greenwich and Christopher Streets to Sixth Avenue, within the said period of five years, then the Board upon the like written notice may annul the franchise hereby granted as to such portion of said railroad.

The Board shall have the power, upon reasonable cause shown, to extend by written order any of the periods in this article prescribed. Additional time shall be allowed by way of extension of any period for such commencement of construction, or for the completion thereof, or for the commencement of operation of the Railroad equal to the total period of delay caused by injunction or by necessary proceedings for condemnation of real estate, easements or other property, so far as such proceedings shall necessarily prevent the Tunnel Company from prosecuting such construction, but no delay to be so allowed for unless, during the same, such proceedings shall be diligently prosecuted by or for the Tunnel Company; and provided, further, that in no case shall such delay be deemed to begin until the Tunnel Company shall have given written notice to the Board of the injunction or other occasion of delay and delivered to the Board copies of the injunction or other orders and of the papers upon which the same shall have been granted, and unless, upon the request of the Board, the Tunnel Company shall in writing consent that the Board, either in its own name as a party or in the name of The City of New York as a party, may intervene in any such injunction proceedings, or other suit or proceeding; and provided, further, that in case of annulment of any part of the franchise the Tunnel Company shall have no right to any return of payments which it shall have made to the City by way of rental or otherwise.

## IV.

The Tunnel Company shall pay to the City for the rights, franchises and licenses in and under streets hereinbefore granted from Greenwich Street to the intersection of Christopher Street and Sixth Avenue and thence to its terminal stations at or near the intersection of Sixth Avenue and Thirty-third Street, and also near the intersection of Fourth Avenue and Ninth Street, together with such extension to Second Avenue in case the Board shall determine to require the building and operation of such extension as hereinbefore provided, and also for the right to build and maintain the subway stations hereinbefore mentioned, so far as said stations shall be constructed under said streets or avenues, the following sums of money, to wit:

1. The Tunnel Company shall pay to The City annually the sum of fifty cents per annum for each linear foot of single track of such railway track and of such subway station platforms which shall then be constructed or which the Tunnel Company shall be bound to have then constructed under any such streets or parts of streets within the City of New York during the period beginning on the day when the Tunnel Company shall first commence actual operation of the said extensions (but not later than the last day on which the Tunnel Company shall be bound to begin such operation) and ending on the day ten years after the day when any part of the said extensions of the Tunnel Company are in actual operation; and the sum of one dollar per annum for each linear foot of such tracks and of such subway station platforms during the period beginning on the last day of such period of ten years and ending on the day when the rentals payable under the above-mentioned franchise of July 10, 1902, shall next thereafter become subject to readjustment under the terms of said franchise. In case additional stations shall hereafter be constructed, additional rental for such station platforms shall be paid, to be computed at the rates above specified.

2. The Tunnel Company shall pay to the City annually, as rental for any vault space occupied by it (as the phrase vault space is hereinafter defined), such a sum as shall be equal to four per cent. upon the valuation of the horizontal area occupied by such vault space, said valuation to be at the same rate per square foot as the valuation of the land, exclusive of buildings, contained in the abutting property, fixed for purposes of taxation for the year 1904.

3. The Tunnel Company shall pay to the City for the rights under streets of the City hereinbefore granted, the further sum of nine thousand dollars (\$9,000) per annum (the same being three per cent. per annum on the gross earnings of said extensions of its railroad, said gross earnings being estimated and fixed for

the purposes of this grant at three hundred thousand dollars per annum) for each year, beginning on the date on which the Tunnel Company shall first commence the actual operation of any part of the said extensions (but such date not to be later than the last day on which the Tunnel Company shall be bound to begin such operation) and ending on the day ten years next thereafter.

After the expiration of the said ten years the Tunnel Company, instead of the said sum of nine thousand dollars (\$9,000) per annum, shall pay to the City for the routes under the streets of The City hereinbefore granted, such a sum as shall be equal to five per cent. per annum on the estimated annual gross earnings of said extensions of its railroad for the period of years between the date of expiration of the said ten years and the date when the rentals payable under the above mentioned franchise of July 10, 1902, shall next thereafter become subject to readjustment under the terms of said franchise. The estimated amount of the said gross earnings may be determined by an agreement in writing by the Tunnel Company and the Board. If the Tunnel Company and the Board shall not reach such agreement on or before the day one year before the expiration of such first ten year period, then and in that event the estimated amount of such gross earnings shall forthwith be determined by arbitration in the manner provided in Clause XI. of this certificate. If, at the expiration of the first ten year period, the annual rate thereafter payable shall not have been fixed, the Tunnel Company shall pay the nine thousand dollars (\$9,000) a year as above provided, until the new rate shall be determined, and shall make up to the City the amount of any excess of the annual rate then determined over the said nine thousand dollars (\$9,000).

All payments herein provided for shall be made to the Comptroller of the City in equal payments at the end of each quarter year on the first days of January, April, July and October in each year.

The annual amounts to be paid by the Tunnel Company as aforesaid shall be readjusted at the end of the last mentioned period of years, and shall thereafter be readjusted at intervals of twenty-five years, so as to make such readjustment contemporaneous with the readjustments to be made under the said franchise of July 10, 1902. The annual amounts to be paid by the Tunnel Company for each and every period of twenty-five years after such first period shall be determined as follows, to wit: Each such determination shall be had upon the application of either the Tunnel Company or the Board or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the preceding period of twenty-five years. The determination shall be sufficient if agreed to in writing by the Tunnel Company and the Board or such other authority in its place. If the Tunnel Company and the Board or such other authority in its place for the City shall not reach such agreement on or before the day one year before the expiration of such preceding twenty-five years' period, then the annual rate of compensation for such succeeding twenty-five years' period shall be reasonable; and either the City (by the Board or such other authority in its place) or the Tunnel Company shall be bound, upon request of the other, to enter into a written agreement with such other authority fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by the Supreme Court of the State of New York; and either party may in such case apply to the said Court to fix such rate. If, in any case, the annual rate shall not be fixed prior to the commencement of such succeeding twenty-five years' period, then the Tunnel Company shall pay the annual rate theretofore prevailing until the new rate shall be determined and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate.

But in no case shall any amount so readjusted be less than the greatest corresponding amount in force at any time during the preceding period of years.

## V.

The railways forming part of the railroad where the same shall occupy parts of streets, shall be in tunnel or tunnels or subways under the streets, and the Tunnel Company may construct the railways under Christopher Street and under Sixth Avenue, and under Ninth Street, hereinbefore mentioned in tunnels or subways containing one or more tracks as it may find most advantageous.

No part of the structure of the railroad except its terminal and other stations shall approach within five feet of the exterior line of any street, except streets which it shall cross, unless the abutting property shall be owned by the Tunnel Company or unless the owner or owners of the property so abutting shall consent. The tunnel or tunnels, except as hereinbefore limited, may be placed in such places under the streets as may be found most convenient.

The uppermost part of said tunnel shall not approach nearer than twenty feet to the surface of Christopher Street, nor nearer than three feet to the surface of Sixth Avenue, but in Sixth Avenue the roof of the tunnel shall be as near the surface of the street as street conditions and grades will permit; provided, however, that the Board may by written notice to be given to the Tunnel Company within one year after the date hereof, require the Tunnel Company to build any portion of its line in Sixth Avenue, north of Twenty-third Street, at such greater depth below the surface of the avenue, as the Board may fix by such notice. The uppermost part of said tunnel, where it crosses Fifth Avenue, shall not be at a higher elevation than five and one-quarter (5.25) feet above the level of mean high water; the uppermost part of said tunnel, where it crosses Broadway, shall not be at a higher elevation than sixteen and three-fourths (16.75) feet above the level of mean high water; the uppermost part of said tunnel, if it crosses Fourth Avenue, shall not be at a higher elevation at that point than nineteen (19) feet above the level of mean high water; and the uppermost part of said tunnel, if it crosses Third Avenue, shall not be at a higher elevation at that point than seventeen and one-fourth (17.25) feet above the level of mean high water.

Except as hereinafter provided, stations and station approaches may be built under streets or through private property to be acquired by the Tunnel Company for the purpose, or both under streets and through private property as aforesaid. The streets under which stations or station approaches are built may include, besides the streets of the route, portions of Hudson Street, Greenwich Avenue, Sixth Avenue, Fourteenth Street, Eighteenth Street, Twenty-third Street, Twenty-eighth Street, Thirty-second Street, Thirty-third Street, Broadway and Fourth Avenue; but no part of any of said last mentioned streets or avenues shall be used for a station or station approach at a distance greater than seventy-five feet from the exterior line or side of the street or avenue of the route.

In case any part of the said stations or station approaches shall be within the streets or avenues, and above a horizontal plane ten feet below the street surface, such space shall be deemed to be vault space within the meaning of this certificate.

The Tunnel Company may locate, construct and operate any one or more of such stations and station approaches at any other point or points along said route in lieu of or in addition to those hereinbefore authorized, provided that the consent and approval of the Board to any such new or changed location shall first have been obtained.

The Tunnel Company shall in the course of construction at its own expense maintain the care of all underground structures; and any necessary interference with underground structures shall be subject to reasonable regulation by the department of the government of the City in control or charge thereof.

No exit from the tunnel at the surface shall be constructed except through private property, unless the Board, by resolution, shall specially approve of an exit or exits situated within one or more of the streets or avenues above mentioned.

The Tunnel Company shall at all times, by suitable bridging or other supports, maintain and support in an entirely safe condition for their usual service and to the reasonable satisfaction of the owners, all elevated railroad structures, street tramways of whatever character, water and gas mains, steam pipes, pneumatic tubes, electric subways, sewers, drains, and all other surface or subsurface structures encountered during the progress of the work. The sidewalks, curbs, areas and stoops along the line of the work must also be protected from any injury; but should any injury occur to any sidewalk, curb, area or stoop, the Tunnel Company shall fully restore the same to as good a condition as existed before the injury was done. Notice is to be given by the Tunnel Company to all companies or persons and the proper city officials owning or having charge of surface or subsurface structures along any part of the work, of its intention to commence operations along such part of the route, at least one (1) week in advance, and the Tunnel Company shall file with the Board at the same time a copy of said notice; and it shall co-operate with the proper officers or officials or other persons lawfully in charge of such structures and shall furnish them

with all reasonable facilities to inspect the methods of caring for their property. Whenever it becomes necessary to cut, move, change, or reconstruct any such surface or subsurface structures, or connections therewith, such work shall be done according to the reasonable satisfaction of the owners of such pipes or other structures, or such persons lawfully in charge thereof, and, should they so desire, by the owners themselves, but at the expense of the Tunnel Company—such expense not to exceed the actual cost of labor and materials used, together with a reasonable allowance for the use of plant and tools, not exceeding seven and a half (7½) per cent. All such work of reconstruction or alteration of surface or subsurface structures if performed by the City or owners or persons lawfully in charge thereof, shall be done with reasonable dispatch, and facilities are to be provided so that said work shall interfere as little as possible with the practical working and use of the railroad of the Tunnel Company. The failure of the City or other such owners or persons lawfully in charge of such structure to make such alterations within what the Board shall determine to be a reasonable time may be considered by the Tunnel Company as a waiver on the part of the City or other such owners or persons of the priority of right to do said work. In the event of the City or other such owners or persons being required to make any alteration to their surface or subsurface structures as above provided, or in case the City or such owners or persons shall consider it necessary or desirable to make any further alterations in, or do any work to or in connection with surface or subsurface structures owned by or lawfully in charge of them, or any of them, at the time the work of the Tunnel Company shall be in progress, the Tunnel Company shall give said City or other owners or persons all reasonable opportunity to make such alterations or perform such work.

The Tunnel Company shall make good to the City all damage which shall be done to the property of the City by the construction or operation of the railroad, and shall make good to every owner of property abutting upon the railroad, or which shall be injured by the work of construction or by operation thereof, all physical damage which shall be done to such abutting or injured property through any act or omission of the Tunnel Company or successor thereof, or of any contractor, sub-contractor or other person in the course of any employment upon the construction or operation of the railroad or any part thereof.

The method of construction shall be generally as follows: The tunnels under streets shall be constructed in whole or in part of masonry or of steel or of iron or any two or more thereof combined. Excavations necessary in the course of construction by the Tunnel Company shall be made without disturbing the surface of the streets; provided, however, that the Board may, by resolution, wherever local conditions make excavations from the surface necessary for efficient construction, grant the right to make such excavations from the surface, subject to such conditions and regulations as the Board may prescribe.

All necessary permits for opening of streets, and other necessary departmental permits, shall be granted by the President of the Borough of Manhattan, or other officer, as provided by law.

The tracks shall be constructed of the most approved plan so as to avoid noise or tremor.

All plans for, and the method of doing, the work, including all plans for stations and station arrangements, shall from time to time be subject to the approval of the Board.

The Tunnel Company, before beginning the construction of any part of the extensions of its railroad hereby authorized, shall file with the Comptroller of the City of New York a bond in the penal sum of two hundred thousand dollars (\$200,000), in such form and with such sureties as shall be approved by the Board, conditioned for the faithful performance by the Tunnel Company of all the conditions and requirements of this certificate, so far as the same shall relate to the construction of the said extensions, or in lieu of such bond shall deposit with the Comptroller securities satisfactory to the Board, to the amount of two hundred thousand dollars.

#### VI.

The power to be used shall be electricity or such other power (not involving combustion in the tunnel) as may be approved by the Board.

#### VII.

The plan and profile of the railroad herewith attached are to be deemed a part of this franchise and to be construed with the text hereof. The same shall be substantially followed, but deviations therefrom not inconsistent with the other provisions hereof may be permitted by the Board.

#### VIII.

The railroad shall be diligently and skilfully operated with due regard to the convenience of the traveling public, so long as the franchise hereby granted shall remain in force.

In case at any time, in the opinion of the Board, the Tunnel Company shall fail to carry out the foregoing provision, the burden of proof in any proceedings which may be instituted by any proper authority to compel a compliance therewith shall be upon the Tunnel Company to show that it is discharging the duties and obligations imposed by this section.

#### IX.

The City shall have a lien upon the franchise and upon the real property of the Tunnel Company under the said streets to secure the payment of such compensation and rental.

In case of any failure to make such payment as herein prescribed, the lien aforesaid may be enforced by the Board either by entry, foreclosure or other proper proceeding and by sale of such franchise and real property.

The Board may, in its own name, or in the name and behalf of the City, bring action for specific performance, or may apply by mandamus or injunction or otherwise, to compel the performance by the Tunnel Company of the duties and obligations hereby imposed upon the said Company, or any of them. And the Board may, in behalf or in the name of the City, bring any action or proceedings to recover possession of any part of the property of the City to be used by the Tunnel Company as aforesaid, or to enforce the said lien of the City, or to enforce any part of this contract in the manner provided by section 9 of the Rapid Transit Act or any other proper action or proceeding.

#### X.

In case The City or the Board shall at any time or times hereafter determine that the portion of the tunnel and railroad hereby authorized under Sixth Avenue, between the north line of Ninth Street and the south line of Thirty-third Street, or the portion under Ninth Street east of Sixth Avenue, or either of them, is necessary or desirable for use as a part of some municipal system of rapid transit to be owned by The City, The City shall have, and the Tunnel Company, by the acceptance of this instrument, hereby grants to The City the right and option to purchase and take the said portion of the tunnel and railroad hereby authorized under Sixth Avenue, between the north line of Ninth Street and the south line of Thirty-third Street, or the said portion under Ninth Street east of Sixth Avenue, or either of them, at any time or times after the expiration of twenty-five years from the date when the operation of such portions shall actually begin. In case The City or the Board determines to exercise said option and acquire said portions of the tunnel and railroad hereby authorized, or either of them, The City or the Board shall give the Tunnel Company at least two years' notice in writing; and upon the day fixed by said notice for such acquisition, The City shall pay or tender to the Tunnel Company the value of such portion of the said tunnel and railroad (but not including the franchise hereby granted) as determined by agreement or by appraisal in the manner provided in clause XI. of this certificate; such value, however, not to exceed the actual cost in money of the construction of the said portion of said tunnel and railroad, including cost of stations, real estate, and any and all easements, structures and property connected therewith, as the same exist at the time when the said option shall be exercised.

In order that the Board may be fully advised as to the character of the construction of the portions of said railroad under Sixth Avenue and under Ninth Street and the cost of construction of the same, the Board shall not only have the right to inspect the said portions of said railroad during construction, but shall also have the right to inspect and approve of all materials used therein during the process of construction and otherwise; and the Board shall also have the right from time to time to examine the books, contracts and papers of the Tunnel Company relating to said portions of said railroad for the purpose of ascertaining the actual cost of construction thereof. As soon as said tunnel and railroad is completed under Sixth Avenue from Ninth Street to Thirty-third Street, and under Ninth Street east of Sixth Avenue, the Tunnel Company shall present to the Board a statement in writing, showing

the cost of construction of the said tunnel and railroad. In case the said statement is approved by the Board, both parties shall be estopped from raising any question that the same is the actual cost of construction of the said tunnel and railroad, so far as the same is completed at the date of the said statement. In case the Tunnel Company, after the date of any such statement, shall acquire or construct any other tunnel, railroad, tracks or stations on Sixth Avenue, between Ninth Street and Thirty-third Street, or under Ninth Street east of Sixth Avenue, or shall acquire or construct any additions or improvements therein, the same shall in every case be constructed with the approval and under the inspection of the Board and with the same right as hereinbefore provided to examine the books, contracts and papers of the Tunnel Company relating thereto, and a statement of the cost thereof shall be furnished to the Board by the Tunnel Company for the same purpose and with the same effect as the statement to be furnished upon the completion of the original construction of the road. In case the Board shall not approve any statement of cost of construction furnished by the Tunnel Company, the actual cost of construction of the work described or referred to in any such statement, shall be determined as soon as possible by arbitration in the manner provided by Clause XI. of this certificate.

The value of the said tunnel and railroad under Sixth Avenue between Ninth Street and Thirty-third Street, and under Ninth Street east of Sixth Avenue, or either of them, may be fixed and determined by an agreement in writing between the Tunnel Company and the Board. If the Tunnel Company and the Board shall not have reached such an agreement on or before the day one year before the date fixed for the purchase of the said tunnel and railroad by notice as aforesaid, then and in that event the value of the said tunnel and railroad shall forthwith be determined by arbitration in the manner provided in Clause XI. of this certificate.

The right and option hereinbefore mentioned to purchase the said portions of the said railroad is hereby expressly reserved by and for The City, and may be exercised on its behalf by the Board, or by such other authority representing The City as is now or may hereafter be vested with the power to purchase said portions of the said railroad or either of them. Upon the exercise of such option in the manner hereinbefore provided, the title to the said portion of the said tunnel and railroad so purchased, with all additions thereto and improvements thereon, shall forthwith revert to and vest in The City, free of and from all liens, mortgages or other incumbrances of what nature soever, and all right, title and interest of the Tunnel Company, or its successors or assigns, in such portion of the said tunnel and railroad shall at once cease and determine.

And the Tunnel Company, by the acceptance of this instrument, covenants and agrees that it will not hereafter question the right, power or authority of The City to exercise the said option or to acquire or hold such portions of the said tunnel or railroad, or either of them, whether any such right, power or authority be now possessed by The City or shall be hereafter acquired by it by virtue of future legislation or otherwise.

The option hereinbefore granted and the aforesaid covenant of the Tunnel Company is one of the principal moving considerations of The City in making the grant of the franchise hereby granted; and the Tunnel Company, by the acceptance of this instrument, is estopped from questioning the authority of The City to insert the said option as one of the terms and conditions of this grant or to exercise the said option or to acquire or hold said portions of said railroad. And the Tunnel Company, by the acceptance of this instrument, covenants for itself, its successors and assigns, that it will make any and all such further grants, conveyances or other instruments of assurance in order to carry out the purposes of this agreement, as may be demanded by The City or the Board.

In case The City shall purchase and acquire such portions of the railroad in Sixth Avenue and Ninth Street, or either of them, under the option herein granted, all payments by way of rental or otherwise, applicable to the portion so acquired, herein required to be made by the Tunnel Company shall, upon the date of consummation of such purchase, cease and terminate, and, upon payment in full of all rentals due in respect to the portion of the railroad so purchased up to the date of such purchase, the Tunnel Company shall be relieved from any further payment of rentals or otherwise in respect thereto. The proportion of rentals and other payments hereinbefore provided for, properly applicable to the portion of the railroad so purchased, shall be determined by agreement between the Tunnel Company and the Board, and, if they are unable to agree, by arbitration in the manner provided in Clause XI. of this certificate.

#### XI.

In case it should be necessary to submit to arbitration any question arising under the provisions of Clause IV. or Clause X. of this agreement, such arbitration shall be conducted as follows: Either The City or the Tunnel Company may give notice to the other that it requires the matter arising under one or the other of said Clauses, as the case may be, to be submitted to arbitration, and shall at the same time name an arbitrator, and accompany the notice by a written acceptance by the arbitrator of the appointment. Within ten days after the receipt of such notice, the party receiving the same shall name an arbitrator, and give written notice of such nomination to the other party, the notice to be accompanied by a written acceptance by the arbitrator of the appointment. If the party to whom notice of arbitration is given shall not so nominate an arbitrator, who shall so accept, then the arbitrator named by the party giving the first notice shall be the sole arbitrator. Any vacancy in the office of an arbitrator so appointed shall be filled by the party which shall have appointed the last incumbent thereof, and within five days after notice of the vacancy; during which five days the running of other periods of time prescribed for or in course of the arbitration shall be suspended. If not so filled, or if notice of the appointment be not given within such five days, the remaining arbitrator shall be the only arbitrator. The two arbitrators thus appointed shall select a third arbitrator; but if they fail to agree upon such third arbitrator within fifteen days after the date of the appointment of the second arbitrator appointed, the third arbitrator shall be nominated by the Executive Committee for the time being of the Chamber of Commerce of the State of New York; or if within thirty days after being requested by either of the parties to make such nomination, the said Committee shall decline or fail to make a nomination, then an arbitrator shall be named by the Executive Committee for the time being of the Association of the Bar of the City of New York. The arbitrators shall hear the parties and their counsel or any statements or evidence which the parties or either of them desire to submit, and may resort to any other sources of information in reference to the question submitted for determination. Within thirty days after the appointment of the third arbitrator, the arbitrators shall make their determination in writing in duplicate, one to be delivered to the Board and the other to the Tunnel Company. Any determination by a majority of the arbitrators to be final and conclusive. All fees and expenses of arbitrators shall be borne and paid equally by the Board and the Tunnel Company, by both of whom every such arbitrator shall be deemed to be employed. Every such arbitrator shall, before proceeding to consider the matter, be sworn as nearly as may be in the same manner as referees in actions at law are required to be sworn.

#### XII.

The Tunnel Company will not at any future time oppose, but shall at any time upon the request of the Board consent to, the construction of any rapid transit or street railroad over, along or under any portion of any of the said streets to be occupied by the Railroad of the Tunnel Company aforesaid, where the same shall not actually interfere with the structure of the Tunnel Company as herein authorized.

#### XIII.

The City, the Board and all duly authorized representatives of the City, shall have the right at all reasonable times to inspect the Railroad and any part thereof, as well during construction as afterwards, and to enter thereon when necessary for the examination, supervision or care of any property of the City, or of abutting property owners, or for any proper purpose. Nothing in this franchise shall be deemed to diminish or affect the sanitary or police jurisdiction which the public authorities shall lawfully have over property in the City.

#### XIV.

The Tunnel Company shall, from time to time, at its own expense maintain and strengthen all parts of the Railroad which shall be under any street or avenue, so that the same shall safely support any structure superimposed or which shall be superimposed thereon by the City or under its authority or under any other public authority.

#### XV.

The Tunnel Company shall have the right to grant, convey, mortgage, assign or transfer the franchise hereby granted, provided, however, that every grantee,

assignee or transferee thereof, not including, however, a mortgagee or mere lienor, but including any purchaser upon foreclosure of or under or by virtue of any provision of any mortgage or lien, shall be a corporation subject to the laws of the State of New York, and shall upon accepting the grant, assignment or transfer, and before such grant, assignment or transfer shall be valid, assume and agree to perform all of the obligations which by the provisions hereof are assumed by the Tunnel Company, and that no such grant, conveyance, assignment or transfer shall relieve the Tunnel Company of its obligations hereunder.

And provided further that, in case the Tunnel Company or any successor or future owner of the franchise shall be consolidated with or merged into any other corporation, the obligations of the Tunnel Company or such successor or future owner hereunder shall remain unaffected and this franchise shall pass to such new corporation only if the agreement or act of consolidation or merger shall effectively provide that the new consolidated or merging corporation shall assume all such obligations, or if such act or agreement shall not so provide, then if and when such new consolidated or merging corporation shall in writing expressly assume such obligations—it being the express intention of this franchise that no change in the incorporation of the Tunnel Company or of any such successor or future owner or in the ownership or control of the franchise hereby granted, or of any part thereof, shall diminish or affect the obligations of the holder of the same.

## XVI.

If, at any time, the powers of the Board shall be transferred by law to any other board, officer or officers, then and in such case such other board, officers or officer shall have all the powers, rights and duties herein reserved to or prescribed for the Board.

## XVII.

Inasmuch as it is provided in Article V. of said certificate of this Board, dated July 10, 1902, that the uppermost part of the tunnel in Greenwich Street north of the north line of Barrow Street, and in Christopher Street and West Tenth Street, opposite the terminal station of the Tunnel Company, may come within not less than thirty inches of the surface of the roadway or sidewalk, and in consideration thereof it was provided in Article IV. that the Tunnel Company should pay for such underground portions of Greenwich, Christopher and West Tenth Streets, contiguous to its terminal station aforesaid, \$3,224 per annum for the first ten years and \$6,448 per annum for the next fifteen years, such compensation being for street or vault rights in Greenwich, Christopher and West Tenth Streets aforesaid, at eleven cents per square foot per annum for the first ten years and twenty-two cents per square foot per annum for the next fifteen years; and, furthermore, it was provided in Article V. of said certificate, that the Tunnel Company should keep paved with smooth pavement those portions of Christopher and West Tenth Streets contiguous to its terminal station and that portion of Greenwich Street between the north line of Barrow Street and the south line of West Tenth Street; and, inasmuch as the extensions of the tunnel and railroad of the Tunnel Company herein authorized and provided for will make it necessary to locate said tunnel and railroad under Greenwich, West Tenth and Christopher Streets at such depth below the surface as not to require any encroachment upon or interference with vault space under Greenwich, Christopher and West Tenth Streets, as provided for in said certificate of this Board, dated July 10, 1902; said certificate is hereby amended by striking out the fourth paragraph of Article IV. thereof, which requires the payment by the Tunnel Company to the City for such underground portions of Greenwich, Christopher and West Tenth Streets of the sum of \$3,224 per annum for the first ten years and \$6,448 per annum for the next fifteen years, and also by striking out and omitting the fourth paragraph of Article V. of said certificate, which requires the Tunnel Company to keep paved with smooth pavement those portions of Christopher and West Tenth Streets contiguous to its terminal station and that portion of Greenwich Street between the north line of Barrow Street and the south line of West Tenth Street and by substituting in place thereof the following provision, that is to say: The Tunnel Company shall pay to the City for the rights, franchises and licenses in and under Greenwich Street from the north line of Barrow Street to the intersection of Greenwich and West Tenth Streets the sum of fifty cents per annum for each linear foot of single railway track which shall be then constructed or which the Tunnel Company shall be bound to have then constructed under such street within the City of New York during the period beginning on the day when the Tunnel Company shall first commence actual operation of the railroad (but not later than the last day on which the Tunnel Company shall be bound to begin such operation) and ending on the day ten years next thereafter, and the sum of one dollar per annum for each linear foot of such tracks constructed beginning on the last day of such period of ten years and ending on the day fifteen years next thereafter.

In witness whereof, this certificate has been prepared by the Board of Rapid Transit Railroad Commissioners for The City of New York, by and upon the concurrent vote of at least six of the members of the said Board, and is now attested by its seal and by the signature of its President, who is its presiding officer, and by the signature of its Secretary, this 2d day of February, 1905.

Approved by the Mayor, March 7, 1905.

## No. 161.

Whereas, The Board of Aldermen of The City of New York has learned with profound sorrow of the death of ex-Mayor Edward Cooper, our distinguished citizen, noted as merchant and man of affairs, who departed this life in the fulness of years of much fruit, in the eighty-first year of his age; therefore be it

Resolved, That we deem it eminently fit to mark our appreciation of the sterling merits of the deceased and of our sympathy with those near to him and who survive to lament his loss.

Edward Cooper was in public and private life a foremost citizen; in the business world a force of no mean order; among those who knew him, the true gentleman. He will be missed for qualities of heart and mind which made his counsel and advice most valuable. Without ostentation in his works he was deeply solicitous for the welfare and betterment of his fellow man. Son of that great philanthropist, Peter Cooper, whose benefactions have aided in building the fortunes of thousands by providing the means of technical education in that noble establishment, the Cooper Union, Edward Cooper, as President of the Institution, furthered the plans of his distinguished father and liberally added to his gifts.

In civic matters he was Street Commissioner in 1858, and in 1878 was elected Mayor of the old City of New York. He served the City and its people well in both capacities.

In business matters he shared largely in the development of the manufacturing and mercantile interests of the City by his versatile connection with many of its largest works.

Be it further Resolved, That the City Clerk be and he is hereby authorized and requested to forward a copy of this preamble and resolutions, suitably engrossed and duly authenticated, to the family of the late ex-Mayor Edward Cooper.

Resolved, further, That, as an additional mark of respect, this Board do now adjourn.

Adopted by the Board of Aldermen, February 28, 1905.

Approved by the Mayor, March 7, 1905.
