#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

AT THE REQUEST OF THE COMMISSIONER OF DOCKS, public notice is hereby given that the Commissioners of the Sinking Fund of the City of New York, pursuant to the resolution adopted at their meeting held March 8, 1906, and by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for dock purposes, in the Borough of Manhattan, the property being the steel freight shed now located on Pier, old 10, between Cuyler's alley and Old Slip, East river, Borough of Manhattan, which consists of two parts—the office portion at the inshore end and the shed proper. The office portion is about 60 feet long by 37½ feet wide, and is built in two stories; the centre height from the dock of the pier is about 35 feet. The shed proper is a single story structure, about 384 feet long and about 37 feet wide; its centre height from the dock of the pier is about 20 feet. The entire shed covers an area of about 16,458 square feet.

All the posts, studs, purlins, trusses and bracing composing the framing of the shed are of structural steel. The roof sheathing, window frames, partitions, walls, ceiling, office doors, etc., of the second story of the office portion are of woodwork, in first class condition. The sides of the building, not taken up by doors, are covered by galvanized corrugated steel. The roof of the office portion is covered with roofing tin laid on boards which rest on the wooden purlins. The roof of the shed proper is composed of double spruce covering and laid over with 1½-inch tongue and grooved yellow pine flooring.

The principal parts or items composing the shed on Pier, old 10, East river, are all the trusses, columns, studs, purlins, bracing, corrugated steel folding doors, corrugated steel sheeting composing sides and end of shed, steel frames and all material of every description comprising the shed proper and office portion down to the decking of the pier, excepting the backing log, and any portion or portions of the pier proper which may be above the level of said decking of the pier.

The items enumerated above are believed to be approximately correct, but bidders must satisfy themselves as to the quantity, quality and condition of the material composing the shed, at the time of sale.

By direction of the Comptroller, the sale of the above-described shed and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

MONDAY, APRIL 16, 1906,

at 11 a. m., on the premises, the property being sold in the condition in which it is in on the day of the sale, possession of which will be given immediately, upon which date the purchaser shall begin the work of removal and shall complete all such work within thirty days from that date, and will be sold for the highest marketable price at public auction on the following

#### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures of every class and description, within the described area, are to be torn down to the decking of the pier, excepting the backing log and any portion or portions of the pier proper which may be above the level of said decking of the pier. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and oil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or any portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
