May 28, 2004

Ms. Carmen Perez
Community Board Member, Health Committee
Manhattan Community District #9
565 West 125th Street
New York, NY 10027

Dear Ms. Perez:

Thank you for conferring with Ms. Deepali Weyand and I via telephone on May 4, 2004. As discussed, the intent of the meeting was to introduce the City of New York Department of Sanitation's (DSNY) enhanced Environmental Justice public outreach program for the Draft Environmental Impact Statement (DEIS) for the New Comprehensive Solid Waste Management Plan (New SWMP) and the permitting process for the proposed Converted Marine Transfer Stations (MTS) and alternatives, as well as to confirm information about the project area.

Specifically, DSNY has asked Ecology and Environment, Inc. to assist its efforts to encourage meaningful public participation and substantive comment. To date, your input has helped us to:

1. obtain public repositories for the Draft Scoping Document and project-related materials;
2. identify potential local newspapers for notice publications;
3. secure easily accessible meeting venues; and
4. assemble local demographic data and special needs of your community.

We have also developed, and continue to update, a potential stakeholder list for the project area.

A Public Scoping Meeting for the New SWMP DEIS will be held in your community at I.S. 195 on June 16, 2004 from 5:30 to 8:30 PM to obtain public comment on the scope of the environmental impacts to be studied in the DEIS. At the Meeting, DSNY will also provide an outline of the New SWMP and describe the proposed Converted MTS or alternative to be evaluated in the DEIS for your project area.

If you have questions before then, please contact Ms. Weyand or me. Thank you for making this a successful outreach effort. We look forward to seeing you at the Public Scoping Meeting.

Sincerely,

Thierry Garcy
Project Manager

Mr. Howard Feuer
Community District Manager
Brooklyn Community District 11
2214 Bath Avenue
Brooklyn, NY 11214

Dear Mr. Feuer:

Thank you for meeting with Ms. Deepali Weyand and I on April 22, 2004. As discussed, the intent of the meeting was to introduce the City of New York Department of Sanitation's (DSNY) enhanced Environmental Justice public outreach program for the Draft Environmental Impact Statement (DEIS) for the New Comprehensive Solid Waste Management Plan (New SWMP) and the permitting process for the proposed Converted Marine Transfer Stations (MTS) and alternatives, as well as to confirm information about the project area.

Specifically, DSNY has asked Ecology and Environment, Inc. to assist its efforts to encourage meaningful public participation and substantive comment. To date, your input has helped us to:

1. obtain public repositories for the Draft Scoping Document and project-related materials;
2. identify potential local newspapers for notice publications;
3. secure easily accessible meeting venues; and
4. assemble local demographic data and special needs of your community.

We have also developed, and continue to update, a potential stakeholder list for the project area.

A Public Scoping Meeting for the New SWMP DEIS will be held in your community at I.S. 227 on June 17, 2004 from 5:30 to 8:30 PM to obtain public comment on the scope of the environmental impacts to be studied in the DEIS. At the Meeting, DSNY will also provide an outline of the New SWMP and describe the proposed Converted MTS or alternative to be evaluated in the DEIS for your project area.

If you have questions before then, please contact Ms. Weyand or me. Thank you for making this a successful outreach effort. We look forward to seeing you at the Public Scoping Meeting.

Sincerely,

Thierry Garcy

November 17, 2004

Elizabeth McKee, District Manager
Manhattan Community Board 8
505 Park Avenue, Suite 620
New York, NY 10022

Dear Ms. McKee:

Thank you for your assistance in the selection of a venue for the upcoming public hearing on the Draft Environmental Impact Statement for the City of New York Draft Comprehensive Solid Waste Management Plan. As discussed, we sought a location in Community District 8 that would offer easy access to attendees and have the capacity for a large number of people. Also, the hearing date could not conflict with or precede your December 15th Full Board Meeting. In this way, your community and constituents would be able to meet and prepare for the public hearing.

When we last spoke, E&E had confirmed the availability of the Rockefeller University venue on December 16th, but had not yet contracted for the space. Because the University's rental agreement sought over broad indemnification by the City that would require a time-consuming redraft and negotiations, the NY Blood Center was determined to be a better venue for the City. The site of the June Public Scoping meeting, it is both familiar and accessible to residents and has a capacity for 350+ people. The first available date after your Full Board meeting was December 20th. As a result, the public hearing for the 91st Street Converted MTS community is scheduled for Monday, December 20th at 5:30 pm.

Working together with the Blood Center's personnel and the Department of Sanitation, we will make every effort to accommodate all meeting attendees over the course of the hearing. Thank you for your assistance.

Sincerely,

Deepali Kaur Weyand
