AQUEDUCT COMMISSION.

Minutes of Adjourned Meeting of the Aqueduct Commissioners, Held at Their Office, No. 280 Broadway, New York City, on Wednesday, September 2, 1903, at 2 o'clock p. m.

Present—Commissioners Ten Eyck (President), Ryan, Windolph and Curtis. The minutes of meetings of August 11 and 13, 1903, were read and approved.

The Acting Chief Engineer submitted the following report:

REPORT No. 720.

September 1, 1903.

To the Aqueduct Commissioners:

GENTLEMEN—In reconstructing the old aqueduct between the old and new dams, we find it necessary to cut "foot holes" in the side walls of the present old aqueduct at the invert line in order to get the most effective result from the concrete thickness to be laid on the invert; also it will be necessary for us to wash with neat Portland cement the extrados to the present arch over the aqueduct in order to properly fill cracks and to make a good junction between the present arch and the reinforcement of concrete or arch to be placed on it.

The expense of this cannot be definitely known at present, but will amount to considerable, approaching possibly three thousand dollars (\$3,000).

An appropriation for this work is necessary, as it does not come within the limits of the contract and must be done to insure proper construction. I therefore recommend that this work be authorized.

Respectfully yours,

F. S. COOK, Acting Chief Engineer.

Which was approved and the authority given to proceed with the work by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The Acting Chief Engineer submitted Report No. 721, dated September 1, 1903, in relation to procuring a list of Inspectors of Masonry and Superintendents of Dam Construction from the Civil Service Commission.

Whereupon the Secretary was directed to procure such a list.

The Acting Chief Engineer also submitted the following report:

REPORT No. 722.

Bill of Peter H. Hayey for Transportation.

September 2, 1903.

To the Aqueduct Commissioners:

GENTLEMEN—I hereby report that it was necessary for me to have transportation to and about the Jerome Park Reservoir Division in order to get over the work and properly keep it in hand.

I therefore ask your approval as to incurring the expense of \$10.50, the amount of Peter H. Hayey's bill for the months of July and August, 1903.

Respectfully yours,

F. S. COOK, Acting Chief Engineer.

Whereupon the above bill was approved and the Secretary was directed to prepare the necessary voucher, by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The Acting Chief Engineer also submitted the following report:

REPORT No. 723.

September 2, 1903.

To the Aqueduct Commissioners:

GENTLEMEN—I hereby report that by changing from rubble and brick to concrete construction in building the remaining portion of the dividing wall in the Jerome Park Reservoir, we can greatly accelerate the progress and at the same time save about eight thousand dollars (\$8,000). This I propose to you for your consideration and recommend that you authorize such change, conditional on the approval, in writing, of the Consulting Engineer.

Respectfully yours,

F. S. COOK, Acting Chief Engineer.

Which was approved and the authority asked for granted, provided the Acting Chief Engineer obtain from Professor Burr his written approval, by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

Which was ordered filed.

A communication was submitted from S. M. Devanny, No. 1692 Park avenue, New York City, dated August 13, 1903, in relation to property belonging to Theophilus and Marion Wood, situated at Nigger Hill, in the Village of Armonk.

Which was referred to the Acting Chief Engineer for report.

A communication was submitted from the Corporation Counsel, dated September 1, 1903, in regard to the observance of the eight hour law by the contractors for the construction of the Muscote Dam, with an opinion thereon.

Which was referred to the Acting Chief Engineer with the request that he report any violations of the Labor Law during the month of August.

A communication was submitted from the Corporation Counsel, dated September 1, 1903, in regard to the construction of a 48-inch pipe passing through the right of way and under the tracks of the New York Central and Hudson River Railroad Company, just south of the Van Cortlandt Station, and approving of form of agreement thereto attached.

Which was laid over.

The following communication was submitted from the Commissioner of Public Works:

August 19, 1903.

Hon. JOHN P. WINDOLPH, Vice-President Aqueduct Commission:

DEAR SIR—I am in receipt of your communication of the 14th instant in relation to the desired transfer of Thomas J. Fallon from the position of Inspector of Masonry in this Department to the same position in the Aqueduct Commission.

The force on the reservoir for the week was as follows:

Friday, August 21, 850 men.

Saturday, August 22, 827 men.

Sunday, August 23, 126 men.

Monday, August 24, 828 men.

Tuesday, August 25, 846 men (work stopped at 4 p. m., rain).

Wednesday, August 26, 852 men.

Thursday, August 27, 831 men.

On the west side during the week in excavation 1,721 days' work was done by men, 83 days' work by drills, 99 days' work by derricks; also, in masonry, 146 days in stonemasons, 60 days by bricklayers and 7 days by horse and cart.

On the east side during the week in excavation 996 days' work was done by men, 70 days' work by drills, 42 days' work by derricks, 12 days' work by steam shovels and 19 days' work by horses and carts.

The balance of the men are office force, repair shop force, superintendents, train crews, track gang, force at dump stonecutters, blacksmith shop and employed in various other capacities.

The progress in excavation has remained about the same. The progress in masonry has improved from last week, as the contractors have succeeded in securing more non-union stonemasons and bricklayers, but the union stonemasons and bricklayers are still on a strike; more masons will be needed in a few days, as two points, one on the face wall and another on Aqueduct Division wall south of Gate House No. 5, will be ready for masonry.

The force employed on the reservoir proper shows an increase for this week.

Aqueduct, North Station 7 00.

The force employed on this section did excavation only at or near Stations 0 50 and 18 00, also between Stations 42 00 and 45 00.

The following force was employed:

Friday, August 21, 52 men, 6 teams, 2 derricks.

Saturday, August 22, 49 men, 6 teams, 2 derricks.

Sunday, August 23, 4 men.

Monday, August 24, 55 men, 6 teams, 2 derricks.

Tuesday, August 25, 54 men, 6 teams, 2 derricks.

Wednesday, August 26, 51 men, 6 teams, 2 derricks.

Thursday, August 27, 39 men, 6 teams, 1 derrick.

Work stopped at 4 p. m. on account of rain on 25th.

Since the strike among the laborers last week the contractors had difficulty in securing men, and the force has been somewhat less than it was two weeks ago.

The contractors have secured ties for the railroad, and this is being extended. I am also told that a concrete mixer will soon be on the ground, and that forms and centres are being made and sheeting has been ordered for the construction of the concrete aqueduct.

The Acting Chief Engineer submitted Report No. 724, dated September 3, 1903, based on a report from Division Engineer Wegmann, dated August 18, 1903, in relation to the Flanagan contract for building the boundary walls, which was returned to the Acting Chief Engineer for amendment.

The Acting Chief Engineer also submitted Report No. 725, dated September 4, 1903, being report of the Acting Chief Engineer on Report No. 706, referred back to him on September 1, 1903, "to make inquiry as to the cause for such a report and what, if any, report the Division Engineer has made thereon."

Which was referred to the Acting Chief Engineer with instructions to direct the Division Engineer to make a more complete and accurate report of the conditions said to exist in the westerly wall of the Jerome Park Reservoir, and to use therein the engineering terms necessary to convey to the Commissioners the exact state of affairs in such way that it cannot be misconstrued.

The Acting Chief Engineer also submitted Report No. 726, dated September 4, 1903, in relation to Daniel P. Lenahan, formerly an Inspector of Masonry in the Department of Health, but appointed Inspector of Masonry in this Commission August 13, 1903, and the communication of the Civil Service Commission in regard thereto.

A communication was received from the Municipal Civil Service Commission, dated September 4, 1903, in response to a request of the Commissioners dated September 3, 1903, for an eligible list from which to appoint two Inspectors of Masonry, stating that the present eligible list for those positions was entirely exhausted, and suggesting that the Commissioners avail themselves of the privilege of Rule 7, paragraph 1, and request the Civil Service Commission to authorize temporary appointments, and at the same time name the persons whom they wish to have appointed temporarily.

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The Secretary submitted a report, dated September 8, 1903, stating that the sum of \$14.75 had been received from Division Engineer Wegmann for rents collected on the Croton River Division, as set forth in his communication dated August 10, 1903; and that said amount had been transmitted to the City Chamberlain for the credit of the Additional Water Fund, and his receipt therefor received.

Commissioner Curtis stated that he had conferred with the Corporation Counsel and also with the counsel for the railroad company and had arranged that if the Aqueduct Commissioners would execute the proposed agreement in regard to the laying of said pipe and send it to the railroad company, with a letter asking the railroad company to commence work at once, but stating that the bill should not be presented for the work until it is completed, the railroad company would then execute the said agreement and begin the work immediately.

Whereupon the President was authorized to execute the said agreement in duplicate and on behalf of the Aqueduct Commissioners, and directed to accompany the same with a letter setting forth the above statement, by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The following communication received from Prof. William H. Burr was read:

September 3, 1903.

Hon. WILLIAM H. TEN EYCK, President, Aqueduct Commissioners, No. 280 Broadway New York City:

DEAR SIR—I acknowledge the receipt of your communication of September 2, submitting for my advice the accompanying report, No. 715, from the Acting Chief Engineer of the Aqueduct Commission. This report recommends for the construction of the southerly end of the New Croton Dam a grade of masonry for that portion of the work between the two granite facings composed mainly of concrete and large fragments of stone as they come from the quarry, the latter being carefully bedded in and surrounded by the former. This type of masonry, sometimes called cyclopean concrete, is now being used near Boonton, N. J., in a large dam for the East Jersey Water Company. When properly constructed it has the advantage of probably as high a degree of imperviousness as can be obtained in any class of rubble work. It can also be put in place with greater rapidity than the ordinary type of rubble masonry, such as has heretofore been used for the hearting of the New Croton Dam. The concrete used should be put in place "wet" rather than dry, and the foreman or superintendent having it in charge on the part of the contractor should be well instructed as to proper methods of working in order to secure the best results.

I have already conferred with the Acting Chief Engineer in regard to the use of this type of masonry in the New Croton Dam, and I fully concur in his recommendation. I believe that its use will be conducive even to an improved quality of masonry, and to a more rapid progress in the remaining construction. It is to be understood that my recommendation includes the use of Portland cement in the concrete in the preparations of 1 cement, 2 sand, 4 broken stone.

In adjusting this matter with the contractor prices should be so arranged as to secure less cost than with the ordinary type of rubble masonry laid in Portland cement.

Respectfully,

WM. H. BURR, Consulting Engineer.

Which was referred to the Construction Committee.

The following letter from Prof. William H. Burr was also read:

September 5, 1903.

Hon. WILLIAM H. TEN EYCK, President, Aqueduct Commissioners, No. 280 Broadway New York City:

DEAR SIR—I acknowledge receipt of your communication of September 3, accompanied by Report No. 723 of the Acting Chief Engineer.

I have already conferred with Mr. F. S. Cook, Acting Chief Engineer, regarding the substitution of concrete for rubble and brick work in the construction of the remaining portion of the dividing wall in the Jerome Park Reservoir. I recommend that change, it being understood that the concrete to be used will be composed of the proportions, 1 Portland cement, 3 sand and 5 broken stone, by measure. I further recommend that the broken stone be of a wide range of size, as from 1-4 inch to the maximum dimensions allowed in the specifications, rather than of a more nearly uniform size. The purpose of this recommendation is to reduce the voids in the broken stone, and thus attain a concrete more nearly impervious to water and of greater strength.

Respectfully,

WM. H. BURR, Consulting Engineer.

Whereupon, after discussion, it was directed that the suggestions contained in Report No. 723, together with the letter of Prof. Burr in regard to it, be approved, and that the Acting Chief Engineer be requested to proceed with the work in accordance therewith, by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

Which was referred to the Secretary for reply.

The following communication was also submitted:

CROTON FALLS, N. Y., September 4, 1903.

Hon. Aqueduct Commissioners, No. 280 Broadway, N. Y. City:

DEAR SIR—We have selected a site for a school building on the grounds formerly owned by Louis Ettlinger, Croton Falls, N. Y., and it being the most easterly point of the low lands with no access to same from the said easterly end, excepting over the property of New York City, we would respectfully request that you entertain an application for a right of way over the City's land, to be used only for the purpose of an access to the school house for the teachers and pupils.

The roadway leading to same for the supplying of fuels and other necessary articles will have to be brought in from the northwest, thus you see we will not be obliged to have a highway, simply a path three or four feet wide.

Trusting that we may hear favorably from your Honorable Board in this matter in the very near future, I remain

Very respectfully yours,

GEO. JUENGST, Jr., Trustee, District No. 1, Somers.

Which was referred to the Acting Chief Engineer for information as to whether this will be within the 250-foot limit.

A communication was submitted from the Corporation Counsel, dated September 8, 1903, in regard to the status of the proceeding to remove the persons now in occupation of what is known as the Nelson Brothers' property, and referring to certain proceedings relative thereto before Supreme Court Justice Keogh in July last, advising the Aqueduct Commissioners that they may now proceed to take possession of the property referred to without any suit or proceeding at law for that purpose, and that they may call upon the Sheriff of Westchester County if necessary to protect their agents and employees and to prevent any breach of the peace, etc., also that he had requested Special Counsel Dykman to render such assistance as the Commissioners may desire in case the occupants of the property should attempt any forcible resistance.

Whereupon, after discussion, the Acting Chief Engineer was directed in writing to take possession forthwith of the property of Nelson Brothers, taking such steps as are necessary therefor, and in case of any opposition on the part of the occupants to consult with Mr. Henry T. Dykman as to the course to pursue and to act in accordance with his advice, by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

A communication was received from McDonald & Onderdonk, contractors for Jerome Park Reservoir, dated September 8, 1903, transmitting a copy of their reply to a letter of the Mayor of July 31, 1903, in reference to increased facilities for removing material from the Jerome Park Reservoir.

The Law Committee submitted reports upon the following matters:

The question whether employees of the Department of Education are eligible to compete for higher positions in the office of the City Superintendent of Schools, or whether the City Superintendent of Schools has power to fill vacancies in his office without considering those persons employed in lower grades in other bureaus or offices of the department.

Section 15 of the Civil Service Law provides that vacancies in positions in the competitive class shall be filled, so far as practicable, by promotion from among persons holding positions in a lower grade in the department, office or institution in which the vacancies exist.

The office of City Superintendent of Schools is not, in the opinion of the Committee, an independent office such as is contemplated by the Act, but is part of the Department of Education.

Section 1078 of the Charter gives the City Superintendent the power to appoint such clerks as he may deem necessary and as are authorized by the Board of Education. This section does not make the City Superintendent's office a separate department.

This is evident from the provisions of section 1060 of the Charter. We are of opinion, therefore, that while the City Superintendent has the right to appoint clerks as authorized by the Board of Education, vacancies in positions in his office must be filled, so far as practicable, by promotion from among those holding positions in a lower grade in the Department of Education.

The request of the Secretary for information regarding the disposition to be made of names of persons appointed from the list for temporary clerk formed as a result of the examination held September 24, in the Department of Finance, Department of Taxes and Assessments and Bureau of Elections, their services in such departments having ceased, and a subsequent examination having been held for temporary Clerk.

The Committee are of the opinion that there is but one list of temporary Clerks, and that the Clerks appointed as a result of an examination of September 24, 1902, are entitled to be restored to the list of temporary Clerks in force at the time their temporary employment ceases.

The Law Committee also recommended that the Secretary be instructed to inform the Board of City Magistrates, First Division, that the services of the Stenographer appointed temporarily heretofore could not be continued after the period of three months had elapsed.

On motion, duly seconded, the report of the Law Committee was adopted, and it was

Resolved, That the Secretary be and he is hereby instructed to place the names of temporary Clerks who are laid off upon a special list for re-employment.

BOARD OF REVISION OF ASSESSMENTS.

A meeting of the Board of Revision of Assessments was held in the Governor's Room, City Hall, on Monday, October 19, 1903, at 2.10 o'clock p. m.

Present—N. Taylor Phillips, Deputy and Acting Comptroller; George L. Rives, Corporation Counsel; James L. Wells, President of the Department of Taxes and Assessments.

The reading of the minutes of the previous meetings not yet approved was dispensed with.

BOROUGH OF MANHATTAN.

The Deputy and Acting Comptroller presented the assessment list for paving, with asphalt block pavement, Audubon avenue, from the intersection of Kingsbridge road and West One Hundred and Sixty-fifth street to One Hundred and Seventy-third street, and objections of Alois Gutwillig and another, by John C. Shaw, attorney, received from the Board of Assessors under date of September 3, 1903.

Mr. Shaw was heard in opposition to the charge included in the assessment for curb, and claimed that the same is in violation of the statute.

Decision reserved.

BOROUGH OF THE BRONX.

The Deputy and Acting Comptroller presented the assessment list for regulating, grading, curbing, flagging and laying crosswalks in Timpson place, from One Hundred and Forty-fourth street to One Hundred and Forty-ninth street, together with a list of awards for damages caused by a change of grade, with objections of Mary Dunn and others, by Lexow, MacKeller, Guy & Wells, attorneys; Rudolph Doherr and others, by A. C. Hottenroth, attorney; Anthony McOwen, No. 515 Wales avenue, The Bronx, and petition for damages of Babetta Doherr, by A. C. Hottenroth, attorney, received from the Board of Assessors under date of September 10, 1903.

Mr. Andrews, attorney, was heard as representative of Mr. McOwen and of Mr. Hottenroth, attorney, and objected to the awards allowed for damages and to

the charge for masonry, and also to the excessive expenses of the work, and in behalf of Mr. McOwen claimed that an allowance had not been made to him for the filling done by him on the street in 1890.

Mr. Guy, attorney, was heard in opposition to the apportionment of the assessment and to the amount of the awards which he claimed should be borne by the City, and also referred to the excessive assessments which had heretofore been laid and are now proposed to be laid upon the property of his clients, and asked that some relief be granted.

Decision reserved.

The Deputy and Acting Comptroller presented the assessment list for regulating, grading, curbing, flagging and laying crosswalks in Boston road, from Tremont avenue to Kingsbridge road, together with a list of awards for damages caused by a change of grade, with objections of S. Busby Allen and others, by Charles P. Hallock, attorney; Edward and Martha L. Tree, by A. C. Hottenroth, attorney; Rapid Transit Subway Construction Company, by Joseph A. Flannery, attorney, and petitions for damages of S. Busby Allen and others, by Charles P. Hallock, attorney; Charles H. Weigle, by Charles V. Gabriel, attorney, having been received from the Board of Assessors under date of September 10, 1903.

Mr. Hallock, attorney, was heard in opposition to the apportionment of the assessment, on the ground that, as the road is a public thoroughfare 80 feet in width, leading to the main entrance of the Zoological Gardens at Bronx Park, a part of the expense should be made a public charge. Mr. Hallock also objected to the excessive charge for inspection.

Mr. Andrews, representing Mr. Hottenroth, attorney, was also heard in opposition to the cost of the work and the expenses connected therewith.

Mr. Flannery, attorney, also appeared.

Decision reserved.

BOROUGH OF MANHATTAN.

The Deputy and Acting Comptroller presented the assessment list for paving West One Hundred and Fifty-ninth street, from Edgecombe avenue to Amsterdam avenue, with asphalt block pavement, and objections of Richard P. Messiter and others by John C. Shaw, attorney, received from the Board of Assessors under date of September 3, 1903.

Mr. Shaw, attorney, was heard in opposition to the charge for concrete, as the same is not embraced in the ordinance under which the work was done; and also to the charge for new curb, on the ground that it is a repavement and consequently illegal.

Decision reserved.

BOROUGH OF THE BRONX.

The assessment list for sewer and appurtenances in Townsend avenue, from East One Hundred and Seventy-second street to Belmont street, and objections of Morris B. Schurck and another, by A. C. Hottenroth, attorney, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of September 3, 1903.

Mr. Andrews, representing Mr. Hottenroth, attorney, was heard in opposition to the assessment on the ground that the amount charged is in excess of the benefit derived by the property of his clients.

On motion of the Deputy and Acting Comptroller, the objections filed were overruled and the assessment list was confirmed, all the members voting in the affirmative.

BOROUGH OF MANHATTAN.

The assessment list for regulating, grading, curbing and flagging Ninth avenue, from Two Hundred and First street to Kingsbridge road, and objections of William B. Isham, by Lord, Day & Lord, attorneys; American Real Estate Company, by Joseph A. Flannery, attorney; T. G. & W. R. Patten and others, by John C. Shaw, attorney; C. Middleton and others, by John H. Judge, attorney; Third Avenue Railroad Company, by Henry A. Robinson, attorney; Archibald Rogers, by James A. Deering, attorney; Robert J. Hoguet and others, by Walter B. Hopping, attorney; H. Scudder, by Truman H. Baldwin, attorney; Horace S. Ely & Co., agents; Archibald Rogers, by J. Romaine Brown, agent, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of October 15, 1903.

The original objections filed against the assessment set forth that the cost of the work had been largely increased by the abandonment of the contract by the original contractor, and the reletting of the same at prices greatly in excess thereof, and that by reason of delay the charge for interest has been largely increased.

The Board of Assessors reported that after a consideration of the objections it decided to revise the list by deducting from the total of \$99,271 the sum of \$36,959.59 pro rata, that having been determined as the amount by which the cost of the improvement had been increased over what it should have cost had the first contract been completed according to its terms.

Mr. Flannery was heard and objected to the excessive cost of the work and to the principle adopted by the Board of Assessors in levying the assessment, and claimed that in consequence of the small amount of work which was done in front of the property of his clients it should not be charged in the same proportion as the other property where the larger portion of the work was required.

Mr. Judge, attorney, was heard and opposed the views of Mr. Flannery with reference to the apportionment which had been made.

Mr. A. C. Charles, representative of Henry A. Robinson, attorney for the Third Avenue Railroad Company, appeared and objected to the cost of the work, and also to assessing the said company, as it is not benefited by the improvement.

Mr. H. DeForest Baldwin, attorney, appeared in support of the objections which had been filed in behalf of William B. Isham against the assessment.

Mr. Vreeland of the Board of Assessors was also heard.

No others appearing in opposition after notice, the hearing was closed and decision reserved.

The assessment list for alteration and improvement to sewer in Third avenue, west side, between Thirteenth and Seventeenth streets, with connections, and in Thirteenth street, between Third and Fourth avenues, and objections of Schade Bros. and others, by John C. Shaw, attorney, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of September 3, 1903.

Mr. Shaw was heard in opposition to the assessment on the ground that the expenses are excessive, and that in consequence of the underground trolley the sewer was built on the west side of the avenue, no part of the cost of which has been assessed on the railroad company, and that another sewer on the opposite side of the avenue will be required.

Mr. Squire, representative of Mr. James A. Deering, attorney, also appeared.

On motion of the President of the Department of Taxes and Assessments, the assessment list was referred to the Corporation Counsel for his consideration of the objections filed in said matter.

BOROUGH OF THE BRONX.

The assessment list for regulating, grading, curbing, flagging and laying crosswalks in Ittner place, from Park avenue to Webster avenue, and objections of Mary F. O'Donnell, by A. C. Hottenroth, attorney, and Jacob Leitner, by Arthur Knox, attorney, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of September 3, 1903.

Mr. Arthur Knox, attorney, was heard in opposition to the charge against the property of Mr. Leitner for retaining wall, as he had constructed a wall at his own expense along the whole front of his property, thus saving the cost thereof to the City, for which he had received no credit.

Mr. Andrews, representing Mr. Hottenroth, attorney, was heard and objected to the charge for rubble wall, and to the excessive cost of the work and the expenses connected therewith.

On motion, the assessment list was laid over to afford Mr. Knox an opportunity of furnishing for the information of the Board an affidavit from Mr. Leitner of the extent and cost of the retaining wall built by him in front of his property, for which an allowance to him in the assessment is asked for.

The assessment list for paving East One Hundred and Thirty-sixth street, from St Ann's avenue to Cypress avenue (Trinity avenue) with granite block pavement, and objections of Sophie Fensteris and another by A. C. Hottenroth, attorney, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of September 3, 1903.

Mr. Andrews, representing Mr. Hottenroth, attorney, was heard, and objected to

the amount proposed to be levied on the property of his clients, on the ground that it exceeds the value of the benefit derived from the work.

On motion of the Deputy and Acting Comptroller, the objections filed were overruled and the assessment list was confirmed, all the members voting in the affirmative.

At 3:45 o'clock p. m., on motion, the Board adjourned.

HENRY J. STORRS,
Chief Clerk, Board of Revision of Assessments.

BOARD OF EXAMINERS.

October 27, 1903.

Present—Messrs. William J. Fryer, Warren A. Conover, William C. Smith, Charles G. Smith, Charles D. Purroy, Charles Buck and Walter Cook (Chairman). Meeting called to order at 2 p. m.

On motion, minutes of meeting of the 20th instant approved as read.

Appeal No. 210; on presentation of report and on motion appeal was approved.

Appeal No. 211; on presentation of report and on motion appeal was approved on condition that fire shutters be placed on five windows (three on extension, first floor, and two on cellar).

Appeal No. 213; on presentation of report and on motion appeal was approved on condition that fire shutters be placed on the windows in the west wall of the building (Canal street side), overlooking dwelling houses fronting on Canal street.

Appeal No. 214 of 1903, New Building No. 215 of 1903, Nos. 656-658 Broadway, Manhattan; Rossiter & Wright, architects and appellants.

The Superintendent of Buildings for the Borough of Manhattan having disapproved of the application No. 325 New Building of 1903, with the following objections, viz.:

"That the proposed roof house will make the building thirteen stories high and over 150 feet in height."

This appeal from the decision of such Superintendent is made on the ground that the provisions of the Building Laws do not apply in this case.

The question which the appellant desires to have passed upon is as follows:

A favorable decision on the application to erect this building, with a release from conditions imposed on a thirteen-story building.

The appellant's reasons for desiring a favorable decision on the question to be passed upon are as follows:

1. That the roof house covers less than 35 per cent. of the roof area and does not practically make a thirteenth story.

2. That the construction of the roof house in every particular, including doors, windows, etc., will be strictly fireproof.

3. That the roof house is built entirely within the coping lines, as shown by the drawings on file.

4. That it is the intention to make all the floors throughout the building, with the possible exception of second and third floors, of cement, in place of wood.

The amount involved in this appeal exceeds \$1,000.

Mr. E. K. Rossiter appeared before the Board.

On motion, approved on condition that the pent house shall be thoroughly fireproof; that all woodwork shall be kalamined; that the standpipe shall be carried into the pent house; that the glass of the skylights shall be wire-glass; that the glass of the windows shall be either wire-glass or plate-glass; that the floors throughout the building shall be tile, concrete, or other incombustible material; or that, if the first, second or third story floors are to be of wood, said wood shall be fireproofed by a process approved by the Bureau of Buildings.

Appeal No. 215 of 1903, Fireproof Shutter Case No. 39 of 1903, Nos. 231 and 233 East Forty-third street, Manhattan; George M. McCabe, architect and appellant.

On motion, referred to Chief Purroy for examination and report, with recommendation.

Appeal No. 216 of 1903, New Building No. 435 of 1902, Nos. 461 to 465 West One Hundred and Forty-second street, Manhattan; O'Reilly Brothers, builders and appellants.

The Superintendent of Buildings for the Borough of Manhattan having disapproved of the application No. 435 New Building of 1902, with the following objection, viz.:

Length of columns supporting roof trusses is excessive. Section 138 of the Code.

This appeal from the decision of such Superintendent is made on the ground that—

It is proposed to omit the gallery floor at both east and west sides where indicated on plans, thereby reducing the load of the column from 23 tons to 11 tons, the latter being but the load on the roof only. While the length of the column divided by the radius of gyration exceeds that prescribed by section 139 of the Code, the bearing capacity of the column is still not less than 25 tons, while the load on the column is but 11 tons. The upper and lower part of the column will be thoroughly and securely bolted at the gallery level.

The question which the appellant desires to have passed upon is as follows:

To be permitted to omit the gallery floor and retain the columns, as shown on original drawings, without intermediate bracing by means of gallery floor beams and girders.

The appellant's reasons for desiring a favorable decision on the question to be passed upon are as follows:

That it has been found that the seating capacity of the main floor is ample and fully sufficient to accommodate the congregation at the present time.

The amount involved in this appeal exceeds \$1,000.

Mr. Wynne appeared before the Board.

On motion, laid over, the Chairman being requested to communicate with the Superintendent of Buildings in regard thereto.

Mr. Martin J. Hackett appeared before the Board in re Appeals Nos. 204 and 205 of 1903 (heretofore laid over pending amendment), and presented letter from Charles Frohman, dated the 22d instant, accompanied by explanatory diagram.

The Chairman was then excused.

On motion, Mr. Buck was designated as Chairman pro tem.

On motion, Appeals Nos. 204 and 205 were laid over, the appellant being directed to file amendments thereto.

The Clerk was instructed to call the next meeting for Wednesday, November 4, at 2 p. m. (next Tuesday being Election Day).

Adjourned.

JAMES GAFFNEY, Clerk.

OFFICE OF THE DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon, on

THURSDAY, NOVEMBER 5, 1903.

for the right to dump and fill in behind the new bulkhead wall between the northerly side line of West One Hundred and Thirty-first street and the southerly side line of West One Hundred and Thirty-third street, on the North river, Borough of Manhattan, beginning at a point in the rear of the bulkhead wall near the northerly side of the pier at the foot of West One Hundred and Thirty-first street, North river; thence extending northerly along the rear of the bulkhead wall to the southerly side of West One Hundred and Thirty-third street; thence inshore or westerly along the southerly side of West One Hundred and Thirty-third street about 67 feet to the face of the old crib bulkhead thereat; thence extending southerly along the face of the old crib bulkhead to a point where said crib bulkhead intersects the bulkhead near the northerly side line of West One Hundred and Thirty-first street; thence extending westerly about 78 feet along said crib bulkhead, or close row piles, approximately along the northerly side of West One Hundred and Thirty-first street, to the point of beginning.

TERMS AND CONDITIONS OF SALE.

The filling will be put in to a height of about 5 feet or less above mean high-water mark over the above-described area.

The privilege to fill in the said described area will be sold to the highest bidder, one-half the price for such right or privilege must be paid at the time of sale and the remaining half when one-half of the work of filling in has been completed.

The total estimated quantity to be filled in is about 23,750 cubic yards, more or less. This total estimated quantity of 23,750 cubic yards is approximate only and is estimated without allowance for sinkage or settlement below the mud line. The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall, and no allowances will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 40 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling may be commenced from the shore toward the crib.

All material must be dumped and filled in only in such manner, at such points and in such order or procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and whenever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the top of the coping at such section, and no higher, unless otherwise directed, and will be placed at such grade at its inshore end as may be directed by the Engineer.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, and shall be completed within one hundred and fifty days from the date of the receipt of said notification. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling by the reason of the non-completion of the bulkhead wall, or for any other cause that the Commissioner of Docks may deem fit and proper, the time for the completion of said filling shall be extended so much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner may at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper.

The purchaser shall, during the work of filling in and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

The Commissioner reserves the right to reject all bids or estimates if he shall deem it to be for the interest of the City so to do.

The lease will contain a covenant providing that upon the expiration or sooner termination of the said term of ten years the lessee may, and upon demand, in writing, by the Commissioner of Docks, or other proper officer or Department of The City of New York thereto duly authorized shall, at the cost and expense of the lessee, forthwith and at the utmost practicable speed wholly remove from the premises herebefore described buildings, platforms, floats, bridges, ferry racks, piling and fixtures which shall have been erected or placed by the lessee, his successors or assigns, upon or within the limits of the wharf property leased, so that there shall be in the slip adjacent to the herebefore described wharf property used for the purposes of said ferry, and in every part thereof, from the bulkhead out, at least ten feet of water at mean low water.

The rates of ferrage and charges for vehicles and freight shall not exceed the rates now charged on the ferry to and from the foot of East Ninety-ninth street, Borough of Manhattan, from and to College Point, Borough of Queens.

The lessees shall provide such lifeboats, floats, racks and life preservers as may be directed by the Commissioner of Docks.

The form of lease which the purchaser shall be required to execute can be seen at the office of the Commissioner of Docks.

The right to reject all bids is reserved, if deemed by the Commissioner of Docks to be for the best interests of the City so to do.

By order of the Commissioner of Docks.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
