

Figure 1. The total number of opioid antagonist trainings offered by DOHMH to an employee of a nightlife establishment

In 2024, 56 trainings were offered by the department to employees of a nightlife establishment.

These trainings include trainings hosted in partnership with the Office of Nightlife, trainings held on behalf of a nightlife organization, and DOHMH's community trainings, which are open to the public and which nightlife employees who cannot attend nightlife -specific trainings are directed to attend.

Table 1. The total number of opioid antagonist kits provided to an employee of a nightlife establishment in 2024, disaggregated by zip code
