DEPARTMENT OF FINANCE.

WARRANTS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE THURSDAY, JUNE 27, 1918.

Below is a statement of warrants made ready for payment on the above date, showing therein the Department of Finance voucher number, the dates of the invoices or the registered number of the contract, the date the voucher was filed in the Department of Finance, the name of the payee and the amount of the warrant.

Where two or more bills are embraced in the warrant, the dates of the earliest and latest are given, excepting that, when such payments are made under a contract, the registered number of the contract is shown in the place of the second invoice date.

Where the word "final" is shown after the name of the payee, payment will not be made until thirty days after the completion and acceptance of the work, but all of the other warrants mentioned will be forwarded through the mail unless some reason exists why payment is to be made in person, in which event written notice will be promptly given to the claimant.

In making a written or verbal inquiry at this office for any of the above mentioned warrants, it is requested that reference be made by the Department of Finance voucher number.

CHARLES L. CRAIG, Comptroller.

STATE INDUSTRIAL COMMISSION—DEPARTMENT OF LABOR.

Resolution Adopted.

Whereas, the Bureau of Inspection has submitted to this Commission appeals filed by the appellants noted from orders issued by the Division of Factory Inspection against the premises stated, the granting of which appeals would necessitate a variation of law; and
 Whereas, the Division of Factory Inspection has had a reinspection made of the premises in each case, and upon the reports submitted gives the existing conditions and recommends as follows:
 No. 1. Premises affected, Amsterdam, Building, 21; appellant, Stephen Sanford & Sons, Inc. 1—Prohibit occupancy. 2—Additional exit. May 6, 1918. 4-story and cellar nonfireproof mill, constructed before Oct. 1, 1913; open lofts; sprinkler; no combustibles; fire alarm; occupancy, 7; above 1st floor, 1; exits, one interior stairway enclosed with fireproof material, doors to which open in and are not self-closing; no egress from roof. There is a large drying machine on 2d floor which makes it difficult to install stairway.
 Recommendation: Accept an interior straight ladder through floor at northeast corner of building, extending down to 1st floor, and from 1st floor on outside of building to ground, acceptance conditioned on occupancy remaining as is.
 No. 2. Premises affected, Buffalo, 1517 Niagara st.; appellant, Buffalo Ice Cream Cabinet Co. Provide an exhaust system for dust creating machinery. Feb. 21, 1917. When this order was issued there were from 8 to 10 men employed and several machines would be running at the same time, which would fill the shop with dust; for the past few months but two men have been at work, and no work will be done throughout the summer.
 Recommendation: While occupancy remains unchanged permit the boxing in of the under part of the dust-creating machines, with a door to be provided so that dust and dirt may be removed daily. If upon next reinspection it is shown that the dust hazard is eliminated to an extent to render same uninjurious to health, order for exhaust system to reissue at that time.
 No. 3. Premises affected, Buffalo, 18 Norris st.; appellant, J. G. Davidson. 2—Make roof of stairway enclosure of fireproof material 4 inches thick. 5—Enclosure of stairway fireproof. May 23, 1918. 2-story nonfireproof building, erected since Oct. 1, 1913; divided lofts; no sprinkler; combustibles carried; no fire alarm; occupancy, 32-37, 30 of whom are factory employees; above 1st floor, 10; exits, one interior fireproof stairway 42 inches wide, and does not extend to roof; exterior concrete stairs 48 inches wide built at westerly end, but not enclosed; exits remote; no safe egress from roof.

Recommendation: Accept present interior stairway as now constructed, and exterior stairway when same has been enclosed with partitions of fire-resisting material in accordance with Rule 504-C of the Industrial Code.

No. 4. Premises affected, Buffalo, 32-34 Churchill st.; appellant, Cutler Desk Co. Provide exits in accordance with section 79-a. Jan. 10, 1918. 2-story building erected since Oct. 1, 1913; measuring 50 by 150 feet, connected at northeast corner with 2-story office building by means of a bridge covered with metal, top, bottom and sides; a stairway at northwest corner enclosed fireproof and an exterior stairway unenclosed and constructed of wood located at southwest corner; at time of inspection 14 were employed in building, 10 on 2d floor.
 Recommendation: Accept as exits from building the horizontal exit, the fireproof enclosed stairway and the unenclosed wooden stairway.

No. 5. Premises affected, Cadonia; appellant, Cadonia Mfg. Co. 9—Two means of exit from all floors, as per section 79-a. 11—Prohibit occupancy. 2-story nonfireproof building, erected since Oct. 1, 1913; no sprinkler; combustibles carried; no fire alarm signal system; occupancy, 9; above 1st floor, none regularly. There is an unenclosed interior stairway doors to which open outwardly building measures 36 by 66 feet; used for the manufacture of brush backs; 2d floor used for storage, except occasionally one man works on said floor filing saws; otherwise only visited when removing or placing stock.
 Recommendation: Accept present stairway as one means of exit, and as additional exit accept an exterior wooden stairway located at northerly end of building, said stairway to be provided with proper handrails and roofed over; exits to be accepted so long as conditions and occupancy remain unchanged.

No. 6. Premises affected, Johnson City (Fibre Board Mill); appellant, Endicott-Johnson & Co. Appeal for variation to permit use of 3d floor for factory purposes on providing a 2d means of exit. This is a 6-story building, used above the 2d floor for storage purposes only. Variation heretofore granted accepting as one means of exit a fireproof enclosed stairway; on the 1st and 2d floors there is provided a horizontal exit 8 feet wide; on 3d floor is an outside counterbalanced stairway 30 inches wide which reaches to grade at 2d floor; two spiral chutes, 6 feet in diameter, protected at each floor by fire trap doors, which chutes extend from 3d to 6th floors; it is now desired to employ 60 people on 3d floor and continue the use of the 4th, 5th and 6th floors for storage.
 Recommendation: Accept as second means of exit from 3d floor a 44-inch exterior screened stairway, said stairway to be located at or near the location of the present counterbalanced stairway.

No. 7. Premises affected, Lynbrook, 47 Broadway; appellant, Atlantic Knitting Mills. 1—Change metal bars at windows so that same will be readily openable. 2—Provide rubber mat at switchboard. May 4, 1918. 2-story building measuring 50 by 100 feet, of nonfireproof construction, with one-story extension; there are 15 females and 10 males on 1st floor; 10 females and 3 males on 2d floor; 2d floor windows unobstructed; stationary iron bars are provided on outside of all first floor windows; exits, two inside and one outside stairs from 2d floor; two exit doors on front and one exit door at side of building to street; one exit door leading to first story extension, and thence to open lot; one 10-foot double door at rear, leading to open lot on 1st floor, flooring of 1st floor is cement.
 Recommendation: In view of the fact that there are five exits from 1st floor leading to open area, waive order No. 1 while present conditions obtain; order No. 2 to be complied with.

No. 8. Premises affected, McGraw; appellant, Central Paper Box Co. Provide suitable and convenient inside water closets for use of employees. No sewage in McGraw; number of employees makes it inadvisable to install chemical closets; present facilities located some ten feet from factory proper, and are reached by means of covered passageway; factory proper heated by steam; should pipes be laid to connect with building wherein closets are located they would be apt to freeze during the winter.

Recommendation: Accept a watertight concrete container with a superstructure properly screened at both windows and doors to keep out flies; in the construction, proper ventilation to be provided, and said privy to be located convenient and cleanly as regards both use and cleaning; concrete container to be emptied regularly and proper care taken as to cleanliness and sanitation to avoid possibility of nuisance being created; same to be accepted without providing means of heating in winter until the next regular inspection.

No. 9. Premises affected, Rochester, 158 St. Paul st.; appellant, L. Black Co. Fireproof openings on course of fire escape. 6-story building with a party balcony fire escape with non-fireproof openings; sprinkler heads installed over openings to form an adequate water curtain.
 Recommendation: Acceptance of sprinkler heads in lieu of fireproofing openings.

No. 10. Premises affected, Rochester, 160-162 St. Paul st.; appellant, Goldwater & Co. Fireproof openings on course of fire escape. 6-story building of nonfireproof construction, with occupancy above the 2d floor of approximately 40; one interior stairway enclosed as per variation heretofore granted; balcony type fire escape on front connecting with building 158 St. Paul st.
 Recommendation: Acceptance of sprinkler heads openings to fire escape in lieu of fireproofing said openings.

No. 11. Premises affected, Schenectady, 1 Mill Lane; appellant, Harrington Bros. Waste Co., Inc. 1—Additional exit. May 6, 1918. 3-story nonfireproof building, erected before Oct. 1, 1913; no sprinkler; combustibles carried; no fire alarm signal system; occupancy, 5; above 1st floor, 5; above 2d floor, 2. This building is 18 feet wide by 56 feet long; owner sorts rags on premises; there is one interior stairway; also egress from 3d floor to flat roof of adjoining building, from which a stairway leads through another building to street.
 Recommendation: Waive order No. 1, provided window opening to roof of adjoining building is changed to a door and occupancy above 1st floor be limited to not more than five persons.

No. 12. Premises affected, Syracuse, 214 Temple st.; appellant, J. Henry Walters. Provide additional means of exit in accordance with section 79-a. 2-story building, erected since Oct. 1, 1913; divided lofts; one interior stairway located in center of building; 2d floor is divided, half being occupied by owner and the other half rented to a tenant; a portion of the 1st or ground floor is now unoccupied, and owner contemplates removing his shop to the ground floor, which will permit the use of the entire 2d floor by one tenant.
 Recommendation: Construct a balcony along the center of the southerly wall, to be reached from a nonfireproof doorway at least 2 feet wide by 6 feet high; the partitions dividing 2d floor lofts to be so located to permit balcony being reached from both lofts, a counterbalanced cantilever stairway to be provided from balcony to safe landing place beneath. In lieu of balcony and counterbalanced stairway, accept a 44-inch interior stairway in northwest corner of building, same to be properly enclosed with fire-

proof partitions and openings thereto to be provided with proper self-closing fire doors, opening outwardly so as not to obstruct the stairway, with direct egress to outer air from foot of said stairway. If appellant elects to install this stairway an opening is to be provided in partition dividing these lofts, said opening to be equipped with proper door, which door is to be left open at all times when anyone is at work on the second floor, so that stairway will be accessible to both tenants.

No. 13. Premises affected, Webster, Railroad ave.; appellant, Monroe Mfg. Co. Remove present stairway at south end of east wing parallel with west wall and floor over opening on 2d floor; place present stairway in storage building at southwest corner of said building, etc. (April 29, 1917—variation.) 2-story nonfireproof factory building erected since Oct. 1, 1913; sprinkler; combustibles; no fire alarm signal system; occupancy, 23; above 1st floor, 16; exits, four interior stairways, one enclosed fire-resisting and one enclosed fireproof; doors open outwardly and are self-closing; exits remote; no egress from roof; two imperfect horizontal exits on each floor. All terms of variation granted April 29, 1917, have been complied with except above mentioned items; in lieu of removing the stairway along the south wall and providing fire-resisting enclosure and stairway at southeast corner, appellant has provided a fireproof exterior tower stair at southeast corner; stair in storage building has not been relocated.
 Recommendation: Permit stairway in easterly wing to remain as an auxiliary stair and permit stairway as installed in storage building to remain in its present location while said building is used for storage only.

And it appearing that there are practical difficulties and unnecessary hardships in complying with the strict provisions of the law and the rules and regulations of the Industrial Code on the above premises, and that in granting the variations herein set forth the spirit of the law and of the rules of the Industrial Code will be observed and public safety secured; and
 It further appearing that each of the appellants herein has been notified that he would be given an opportunity to appear and be heard at this time and place if he so desired, and such of the appellants who appeared having been given a hearing by the Commission, therefore
 Be it resolved by the State Industrial Commission, That each of the appellants herein be and he hereby is granted the variations noted for the premises stated, during the time that the conditions remain as of this date.

Dated, June 19, 1918.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of the City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
