NOTICE

On Wednesday, July 10, 2019, at 10:00 A.M., at CUNY John Jay College of Criminal Justice, Gerald W. Lynch Theatre, located at 524 West 59th Street, New York, NY in Midtown Manhattan, a public hearing is being held by the City Planning Commission in conjunction with the above public hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by the New York City Department of Correction (DOC). DOC is proposing to implement a borough-based jail system as part of the City's continued commitment to create a modern, humane and safe

justice system and close the jails on Rikers Island. This proposed project would establish four new detention facilities located in the Bronx (745 East 141st Street), Brooklyn (275 Atlantic Avenue), Manhattan (124-125 White Street), and Queens (126-02 82nd Avenue). Each of the proposed facilities would provide approximately 1,437 beds to house people in detention. In total, the proposed project would provide approximately 5,748 beds to accommodate an average daily population of 5,000 people in a system of four borough-based jails. The proposed project would ensure that each borough facility has ample support space for quality educational programming, recreation, therapeutic services, publicly accessible community space, and staff parking.

Written comments on the DEIS are requested and would be received and considered by DOC through Monday, July 22, 2019.

This hearing is being held, pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 18DOC001Y.

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)

NYC SENTIMENT METER - Negotiated Acquisition - Other - PIN# 05619N0004 - Due 7-19-19 at 3:00 P.M.

The New York City Police Department ("NYPD" or "Department"), is seeking to enter into a contract for a Sentiment Meter, to measure indicators of public satisfaction with the NYPD. The NYPD seeks to use technology to enable the Department to use these indicators of public satisfaction to assess whether specific policy changes and interventions impact public confidence in police and the feeling of safety among residents of New York City. This technology will enable continuous and accurate local measurement of various indices of public sentiment in every neighborhood of New York City. The NYPD anticipates that introducing these measurements will be position the Department to hone the allocation of resources, setting of priorities, and deployment of programs to best meet the needs and expectations of New York City residents.

Specifically, the NYPD is looking for a set of scores that quantify multiple dimensions of community sentiment about policing (trust and perception of safety), at a fine granularity/level of detail for geography and time. These indices are designed to serve as performance management metrics, and they enable benchmarking both internally (neighborhood-by-neighborhood) and externally (City A vs. City B). Moreover, the NYPD is looking for a web-based data analysis platform that can be used to visualize the Sentiment Meter Indices alongside demographic and concern data, and allow for the generation of reports, alerts providing actionable insight around sentiment trends.

At this point, the NYPD knows of only one vendor that offers a Sentiment Meter to measure indicators of public satisfaction with the NYPD that meets all of the above requirements. This vendor is Elucid, Inc., located at 81 Prospect Street, Brooklyn, NY 11201. Thus, the NYPD, intends to negotiate with Elucid, Inc., and any other qualified vendors that express interest in this procurement for the provision of a Sentiment Meter, to measure indicators of public satisfaction with the NYPD. The NYPD anticipates that the contract awarded through this procurement will commence on August 1, 2019 and expire on July 31, 2022.

The NYPD is processing this procurement through the Negotiated Acquisition source selection method, pursuant to § 3-04(b)(2) of the New York City Procurement Policy Board Rules ("PPB Rules"), after determining that (1) there is a time-sensitive situation where a vendor must be retained quickly because a compelling need for services exists that cannot be timely met through competitive sealed bidding or competitive sealed proposals, and (2) there is a limited number of vendors available and able to provide the required services. See Sections 3-04(b)(2)(i)(D) and 3-04(b)(2)(ii) of the PPB Rules.

Vendors who wish to express an interest in this procurement should contact Deputy ACCO Jordan Glickstein, at jordan.glickstein@nypd.org or submit a written request to: Deputy ACCO Jordan Glickstein, NYPD Contract Administration Unit, 90 Church Street, Suite 1206, New York, NY 10007. The Deadline for receipt of any such expressions of interest is July 19, 2019, at 3:00 P.M.

PROVISION OF VESSEL CLASSIFICATION SERVICES FOR THE NYCDOT STATEN ISLAND FERRY (SIF) FLEET OF PASSENGER AND MISCELLANEOUS VESSELS - Sole Source - Available only from a single source - PIN#84119SISI323 - Due 7-17-19 at 2:00 P.M.

The New York City Department of Transportation (NYCDOT), intends to enter into a sole source agreement with ABS for the provision of vessel classification services for the NYCDOT Staten Island Ferry (SIF) Fleet of passenger and miscellaneous vessels.

On October 2018, the Agency Chief Contracting Office's office determined, in accordance with Section 3-05(b) of the Procurement Policy Board Rules, that ABS is the only classification society that can issue vessel certification documentation demonstrating compliance with these rules. This includes initial certificates and ongoing compliance verified by in-service surveys. Accordingly, ABS must be the classification society to perform these ongoing surveys and classification activities. ABS is a marine classification society. The purpose of a marine classification society, is to provide classification and statutory services and assistance to the Maritime industry and regulatory bodies with regard to maritime safety and pollution prevention. The objective of ship classification is to verify the structural strength and integrity of essential parts of a ship's hull and its appendages, and the reliability and function of the propulsion and steering systems, power generation, and other essential features and auxiliary systems. A vessel that has been designed and built to the appropriate rules of a society may apply for a certificate of classification from that society following completion of relevant surveys. For vessels in service, the classification society carries out surveys to verify that the vessel remains in compliance with the rules of the society. These rules have been established in concert with other international classification societies and are held in common. All SIF vessels, including passenger ferries and miscellaneous vessels, are designed and built in accordance with the relevant ABS Rules for Steel Vessel Construction.
