this Department seven steam fire engines, will be re-  
ceived at these Headquarters until 10 A. M., on Tuesday,  
the 22d instant, when they will be publicly opened and  
read.

The engines are to be what is known as fourth size  
single pump and cylinder "Crane Neck" vertical steam  
fire engines, and each engine is to be fully supplied with  
all necessary tools.

The boilers to be vertical, each 32 inches diameter and  
62 inches high, to be made of best steel boiler plate, hav-  
ing copper smoke-flues, and hanging tubes of lap-welded  
iron, each hanging tube having circulating strips. To be  
of sufficient strength to bear twice the pressure ever re-  
quired in doing fire duty, and to have ample steaming ca-  
pacity to keep up a full head of steam while doing the  
heaviest work. To be covered with Russia iron, properly  
banded with brass bands, nickel-plated. To have safety-  
valves made of composition, nickel-plated, and to be sur-  
mounted with domes of brass, bottom mouldings nickel-  
plated. They are to be hung on half elliptical springs,  
similar to those on engines numbers 7 and 33 of this De-  
partment, and are to be in all respects, as to form and con-  
struction, exactly similar to the boilers now on those en-  
gines, being M. R. Clapp's Circulating Tubular Boiler,  
patent of 1878.

Each engine is to have a steam cylinder, 9½ inches in  
diameter, and 6 inches stroke, to be fitted to a bed-plate  
containing the steam passages.

The steam cylinders, steam-chests, and bed-plates of  
each engine are to be based in brass, nickel-plated.

All stuffing-boxes are to be so constructed as to take up  
while engine is running.

The main pump of each engine is to be double acting,  
made entirely of composition, with cylinder 5½ inches in  
diameter and 6 inches stroke, and to have two (2) dis-  
charge gates.

The air-chamber of each engine is to be made of cop-  
per, nickel-plated.

Each engine is to have sixteen (16) feet (in two lengths)  
of smooth-bore suction hose; each length to have suitable  
couplings, with thread, the same as on suction and hy-  
drants in use by this Department. Also, to have a fresh-  
water tank to connect with feed-pumps, with suitable  
fresh-water connections.

The hydrant connection of each engine is to have two  
(2) female couplings, one 4½ inches diameter, and one 2½  
inches diameter, and to have same thread as suction on  
large coupling, and regulation thread on the 2½-inch.

The engines are to be drawn by horses, and are to be  
fitted up with poles and whiffletrees, with suitable seats,  
for drivers, on forward parts, and fitted with cushions and  
whip-sockets.

The wheels are to be made of selected timber, pre-  
pared in the best manner, and are to be painted with Eng-  
lish vermilion and striped with gold leaf; the tires to be  
2½ inches wide.

The brakes are to be so arranged as to bear upon the  
rear wheels, and so constructed as to be controlled by  
the driver.

The coal-bunkers are to be made of strong iron, and to  
have a step and are to be painted same as the wheels.

The axles, frames, braces, etc., are to be of Bessemer  
steel.

The safety-valves, throttle-valves, feed-pumps, eccen-  
tric-straps, connecting-rod bearings and pipe-holders are  
to be of composition.

All parts of the engines are to be painted with English  
vermilion and striped with gold leaf, except air-chambers,

parts of machinery.

Each engine to be supplied with—

Delivery will be required to be made from time to time, at such times and in such quantities as may be directed by the said Department; but the entire quantity will be required to be delivered on or before thirty (30) days after the date of the contract.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the estimated amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect, that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for his faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same respectively, at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, issued on the completion of the contract, or from time to time as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates it deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

The damages to be paid by the contractor for each day that the contract or any part thereof may be unfulfilled after the time fixed for the fulfillment thereof has expired, and for each day that the delivery of any part of the materials to be delivered under the contract has been delayed, through neglect to furnish the same within ten days after the delivery of the order therefor from the Engineer, Sundays and holidays not to be excepted, are, in all cases, by a clause in the contract, fixed and liquidated at Fifty dollars per day.

Bidders will state in their estimates the price per cubic yard, per 1,000 feet board measure, or per pound, as the case may be, for either or all of the above six classes of materials respectively, by which the bids will be tested. The price is to cover the expenses of freight, loading and unloading, towing, cartage, tools, run-ways, and all other expenses of furnishing all the necessary materials and labor, and the performance of all the work set forth in the approved form of contract and the specifications therein contained, including any claim that may arise through delay, from any cause, in the receiving of the material by the Department of Docks.

Bidders will distinctly write out in their bids, both in figures and in words, the amount of their estimates for furnishing this material.

Should the lowest bidder or bidders neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or estimate, or if, after acceptance, he or they shall refuse or neglect to execute the contract and give the proper security for forty-eight (48) hours after notice that the same is ready for execution, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if a contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation any difference between the sum to which said person or persons would be entitled on its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the material by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above his liabilities as bail, surety, and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if deemed for the interest of the Corporation.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the materials to be furnished, can be obtained upon application therefor at the office of the Department.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. At any time after the passage of this act, and before the first day of October, eighteen hundred and eighty, any person may pay to the Comptroller of the City of New York the amount of any tax upon real property belonging to such person, heretofore laid or imposed and now remaining unpaid, together with interest thereon at the rate of seven per centum per annum, to be calculated from the time that such tax was imposed to the time of such payment, provided, also, that the time when such payment may be made on the amount of any such tax laid or imposed in the years eighteen hundred and seventy-seven, eighteen hundred and seventy-eight, and eighteen hundred and seventy-nine shall extend to the first day of April, eighteen hundred and eighty-one. Sec. 2. Any revenue bond heretofore issued in anticipation of the taxes in the first section specified which may fall due and become payable before said taxes are collected, may be reissued by the comptroller of said city, in whole or in part, for such period as he may determine, not exceeding one year.
