FOR CHARITABLE INSTITUTIONS.

All such appropriations being made subject to the following conditions:

1. The accounts of all charitable institutions receiving public moneys shall be so kept as to show the receipts of and disbursements from public money separately from the other funds of such institutions, and all institutions shall keep an exact record, to be corrected from time to time, in a form to be approved by the Comptroller, showing the addresses of the parents, guardians or nearest relatives of inmates, and other information designed to facilitate inquiry into their financial inability to provide for such inmates.
2. Moneys received from the City Treasury shall be used by such institutions only for recurring expenses of "care, support and maintenance."
3. All institutions receiving public moneys shall be at all reasonable times open to the visitation and inspection of duly authorized representatives of the Department of Public Charities and the Department of Finance.
4. Upon it appearing to the satisfaction of the Comptroller that it would be to the public interests to withhold payments to any charitable institution for which an appropriation has been made, he shall give written notice to such institution of his intention to apply to the Board of Estimate and Apportionment for authority to so withhold such payments, and upon the determination of said Board that such payments should terminate, the right of any such institution to receive payment for services rendered thereafter shall thereupon cease.
5. Except where appropriations are made in bulk and not upon a per capita basis, no payment shall be made for inmates of private charitable institutions unless the same shall have been accepted by the proper Commissioner of the Department of Public Charities as a proper charge against the City, and, except in emergency

cases, Commissioner of Charities shall not accept as proper charges against the City inmates capable of paying for their own support, or for whose care adequate provision can be made in public institutions. The City shall not become liable for any payment to a charitable institution in excess of the appropriation which may have been made to such institution, notwithstanding any per capita rates of payment that may have been fixed for the inmates thereof.

6. All institutions receiving money from the City are required to state specifically the amount so received, as from the City Treasury, in their printed annual reports.

7. "That no money be paid to any private charitable institution which pays any salary to or gives any consideration, financial or of any kind, for services to, or that has any business dealing with, or secures goods or merchandise, directly or indirectly, from any officer or trustee or member of its Board of Managers."

8. The rates of payments to private charitable institutions, unless otherwise specially provided for, are fixed for the various classes of inmates as follows:

For infants under two (2) years of age, and in infants' hospitals also between the ages of two and five, per day...	\$0 38
For dependent children from two (2) to sixteen (16) years of age, per week .....	2 00

For adult inmates of Reformatories, committed by the Courts, per annum .....	110 00
For inmates in homes for fallen and friendless women, per annum .....	110 00
*For maternity cases, per case .....	18 00
*For homeless mothers, nursing infants, per month .....	12 00
To hospitals for medical treatment, per day .....	60
To hospitals for surgical treatment, per day .....	80
To hospitals for chronic, incurable or infirm patients, per day .....	30

\* Institutions shall be paid \$18 for the care of the mother and child during fifteen days of her confinement, and for every day thereafter shall be paid at the rate of 38 cents per day for the support of the child, and also \$12 per month for the maintenance of the mother, if she remain in the institution nursing her own infant after the expiration of the fifteen days.

That charitable institutions for children now carried in the Budget and not sending their inmates to the Public Schools, and not sharing in the Corporate School Fund, and not receiving Teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institutions, shall be paid a per capita of 35 cents per week for each child receiving such instruction of four years of age and over during ten months in the year. This money to be paid under the authorization of section 230 of the Charter, but under the general conditions relating to institutions receiving Corporate School money, as provided in section 1154.

## MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 2608.

City of New York—Office of the Mayor.

The Honorable the Board of Aldermen of The City of New York:

The authorities of the cities of Mount Vernon and New Rochelle have requested me to ask for the favorable action of your Honorable Board upon the application of the New York and Port Chester Railroad for the permission to cross certain streets in the Borough of The Bronx, above and below grade. I have asked the Engineer of the Board of Estimate and Apportionment and the Chief Engineer of the Board of Rapid Transit Railroad Commissioners to report to me upon the subject. Both of these gentlemen concur in saying that, in their opinion, the interests of the City would be in no way jeopardized if this permission were granted. They think, on the contrary, that the road would furnish welcome transit facilities in a section of the City not otherwise likely to be provided for in the near future. The application, therefore, appears to be a proper one to be granted.

I call the attention of your Honorable Board, however, to the fact that the proposed road will cross, either above or below grade, sixty-eight streets already open or dedicated, thus using 5,026 linear feet of property belonging to the City. At the rates charged to the Pennsylvania Railroad, this would necessitate a charge of 50 cents per foot of single track for the first ten years, and of \$1 per foot for the next fifteen years, with the right to readjust terms every twenty-five years thereafter. In this case, also, streets not now opened will later become the property of the City, and the conditions attaching to the consent should provide properly for this contingency.

Favorable action would be highly appreciated, not only by our neighbors to the north, but also by our own people of the Borough of The Bronx, who have made known to me, through their local authorities and through the voluntary action of public-spirited bodies without a dissenting voice, their very great interest in this project.

SETH LOW, Mayor.

New York, October 26, 1903.

Which was referred to the Committee on Railroads.

## MOTIONS, ORDINANCES AND RESOLUTIONS.

Alderman Owens asked for and obtained unanimous consent to introduce the following:

No. 2609.

Resolved, That it is recommended to the Commissioner of Water Supply, Gas and Electricity that Welsbach burners be placed on the lamp-posts along the line of East One Hundred and Twenty-ninth street, between Third and Fifth avenues, in the Borough of Manhattan, and also in front of All Saints' Church.

Adopted.

## PETITIONS AND COMMUNICATIONS.

Which was ordered on file.

Which was laid over and made a special order for 2.15 o'clock p. m.

Subsequently the hour of 2.15 o'clock having arrived, Alderman John T. McCall called up the resolution and moved its adoption.

The President put the question whether the Board would agree with said resolution.

Which was decided in the negative by the following vote, four-fifths of all the members elected failing to vote in favor thereof:

Negative—Aldermen Alt, Baldwin, Behrmann, Bennett, Bill, Brenner, Bridges, Chambers, Coggey, Devlin, Dickinson, Diemer, Dietz, Donohue, Doull, Downing, Florence, Foley, Gass, Goldwater, Goodman, Haggerty, Harburger, Harischfeger, Higgins, Holler, Holmes, James, Jones, Keely, Kennedy, Kenney, Klett, Lundy, John T. New York City, November 7, 1903.

To the Honorable the Board of Aldermen:

Gentlemen—We beg to respectfully present to you a preamble and set of resolutions unanimously adopted by the Association of Engineer Janitors of the Public Schools of the Greater New York at a regular meeting held November 7, 1903, and do petition you for speedy and favorable action upon the same.

Whereas, The Board of Education has, with the approval of the Municipal Civil Service Commission, appointed Mr. Harry M. Devoe as Deputy Superintendent of School Buildings at an annual salary of \$2,500, and such action has been approved by the Board of Estimate and Apportionment, and the resolution of said Board is now before the Board of Aldermen for ratification; and

Whereas, The Board of Education has assigned Mr. Devoe to supervise the care of buildings, and he having at all times acted in a manner to justify our confidence in him; therefore be it

Resolved, That we, the Association of Engineer Janitors of the Public Schools in the City of New York, do hereby earnestly petition the Board of Aldermen to act favorably upon the resolution of the Board of Estimate, ratifying the action of the Board of Education in appointing Mr. Harry M. Devoe as Deputy Superintendent of School Buildings, and fixing his salary at twenty-five hundred and fifty dollars per annum, and that a copy of this preamble and resolution be forwarded to the Board of Aldermen, be printed in the official organ of this association and be furnished to Mr. Devoe.

No. 2618.

Gentlemen—Please pass an ordinance, to go into effect immediately, ordering all horse cars off all the streets of all the boroughs—and prohibiting their use in future.

These cars are unclean and unsanitary.

They are slow in motion, except where a driver is rushing along to make time, and then are more dangerous to life and limb than any electric car.

The stables and barns are offensive with manure odors, and the streets are contaminated with horse droppings along their routes.

These antique methods of horse-car transit may do in some country town, but are not good enough for the people of this great city.

The corporations owning or controlling these horse-car systems should be forced into progressive lines whether they like it or not.

Yours truly,

MARTIN WATTERSON.

City Island Board of Trade, Library Building,

To the Honorable Board of Aldermen, Aldermanic Chamber, City Hall, New York City:

At a regular meeting of the City Island Board of Trade held at Library Hall, City Island, Bronx Borough, City of New York, Monday, October 19, 1903, it was unanimously resolved as follows:

Whereas, The rapid transit facilities in this portion of the borough are totally inadequate; and

Whereas, The cost for said facilities are exorbitant; and

Whereas, The natural growth and increase in property values are retarded because of the lack of better transit; now therefore be it

Resolved, That the Honorable Board of Aldermen be and hereby are most respectfully petitioned to grant the Port Chester Railroad the franchise petitioned for by them.

WILLIAM ANDERSON, President.

HOWARD L. HORTON, Secretary.

The Republican City Committee of New Rochelle, N. Y., No. 222 Main Street, New Rochelle, October 20, 1903.

Hon. CHAS. V. FORNES, New York Board of Aldermen, City Hall, New York:

Honorable Sir—Upon behalf of the public of Westchester County and the Borough of The Bronx, the Republican City Committee of New Rochelle requests the Honorable Board of Aldermen of The City of New York to act favorably upon the application of the New York and Port Chester Railroad, which has been before that body since the 5th of May, 1903, at the next meeting of the Board of Aldermen, to be held on October 27, 1903.

At a recent hearing given by the Railroad Committee the importance of this enterprise to the Borough of The Bronx and Westchester County was set forth at length by the public through their representatives. Owing to the fact that not one representative of the public raised a voice against it, but, on the contrary, the entire public united in asking the Railroad Committee for immediate favorable action, we feel that we are justified in requesting the Board of Aldermen to take action upon this matter at the next meeting of that Board.

Upon behalf of the public in this section, we ask you to assist us in this matter, and to communicate with the Board of Aldermen the imperative necessity for immediate favorable action.

Thanking you and assuring you of our appreciation, we have the honor to remain,

Respectfully yours,

THE REPUBLICAN CITY COMMITTEE OF NEW ROCHELLE,

Hugh M. Harmer, Chairman.

The Republican City Committee of New Rochelle, N. Y., No. 222 Main Street.

Resolutions Unanimously Adopted by the Republican City Committee of New Rochelle on October 19, 1903.

Whereas, No public representative or property owner or citizen of Westchester County or The Bronx appeared in opposition to the New York and Port Chester Railroad at the hearing before the Railroad Committee of the New York Board of Aldermen on October 12, 1903, but that instead there was unanimous public appeal for immediate favorable action by the Railroad Committee and the Board of Aldermen on the application of the New York and Port Chester Railroad to cross over or under the public streets of The Bronx which its line will cross; now be it

Resolved, That the Republican City Committee of New Rochelle does hereby, upon behalf of the citizens and taxpayers of New Rochelle, ask the Railroad Committee of the Board of Aldermen to report the petition favorably at the next meeting of the Board on October 27; and it is further

Resolved, That the Board of Aldermen are hereby requested to insist upon the matter of the New York and Port Chester Railroad being submitted to it at its next meeting on October 27, and the Board is further requested to act favorably upon the application at its meeting on October 27.

New York, October 22, 1903.

Hon. CHARLES V. FURNES, No. 425 Broome street, Manhattan:

Honorable Sir—I beg herewith to enclose you resolutions unanimously passed at a meeting of the Chester District Alliance, held on October 20, 1903.

Respectfully yours,

CHESTER DISTRICT ALLIANCE,  
William Cokeley, President.

Resolutions Adopted by the Chester District Alliance of the Borough of The Bronx on October 20, 1903.

Whereas, The Chester District Alliance was represented by a large delegation at the meeting of the Railroad Committee of the Board of Aldermen on October 12, although it was not afforded the opportunity of being heard in favor of the immediate favorable action on the petition of the New York and Port Chester Railroad Company at that meeting; and

Whereas, At the said meeting perfect unanimity of desire for an immediate favorable report was evidenced by the absolute absence of objection from any citizen, taxpayer or public representative of the Borough of The Bronx or elsewhere; and

Whereas, The representatives of the Chester District Alliance were in a position to present facts that would have greatly strengthened the arguments which were made before the Railroad Committee of the Board of Aldermen on October 12; now therefore be it

Resolved, That the Chester District Alliance, upon behalf of its members, all of them being taxpayers and citizens of the Borough of The Bronx, does most respectfully and urgently request the Railroad Committee of the New York Board of Aldermen to report favorably the matter of the New York and Port Chester Railroad Company at the next meeting of the Board of Aldermen, to be held on October 27; and it is also

Resolved, That the Chester District Alliance, upon behalf of its members and the citizens of the eastern part of the Borough of The Bronx, does hereby respectfully and urgently request the Board of Aldermen, at the meeting of that body on October 27, to take up the matter of the New York and Port Chester Railroad Company and to act favorably on that matter at that meeting, and thereby relieve a long-standing and existing intolerable condition, to which the Borough of The Bronx has been and is being subjected; and it is further

Resolved, That President Louis F. Haffen, of the Borough of The Bronx, is hereby requested to, with all The Bronx Aldermen, insist that the Port Chester Railroad matter be brought before the Board of Aldermen at its next meeting and favorable action thereon be taken; and it is further

Resolved, That copies of these resolutions be and are hereby ordered sent to President Haffen and each member of the Railroad Committee and to the Board of Aldermen; and it is further

Resolved, That this Alliance be represented at the next meeting of the Board of Aldermen by a delegation which will assist in the securing of favorable action at the meeting on October 27, 1903.

Honorable Sir—I herewith enclose you resolutions passed by the Throgg's Neck Taxpayers' Association, at a meeting held on October 21, 1903.

Throgg's Neck, New York City, October 21, 1903.

Hon. CHARLES V. FURNES, President, Board of Aldermen, No. 425 Broome street, Manhattan:

Honorable Sir—At a meeting of the Throgg's Neck Taxpayers' Association of the Borough of The Bronx, held on October 21, 1903, resolutions were adopted calling upon the Railroad Committee to report favorably the New York and Port Chester matter at the next meeting of the Board of Aldermen, to be held on October 27, 1903. The resolutions also request the Board of Aldermen to insist that this matter be then brought before them and further request the Board of Aldermen to act favorably upon the matter on October 27.

We write to you upon behalf of our vast membership, all of whom are citizens and taxpayers of this borough, for the purpose of asking you whether you will not in the interest of the public of this section insist that the Port Chester Railroad matter be taken up by the Board of Aldermen at the next meeting of that Board and favorable action thereon taken.

Within the past ten days the New Haven road has added further insult and injury to this section by taking off two of its daily trains. To the vast public of this section and especially to the property interests of the Borough of The Bronx, this action of the New Haven road is a serious blow.

The entire public of The Bronx and Westchester County have continually supported this Port Chester enterprise for the reason that the public, through their representatives, have satisfied themselves of the integrity of the men and interests connected with it, and are satisfied that their only hope in securing redress is through this enterprise, upon which work has been already delayed for six months by the hold-up of the Board of Aldermen.

We feel now that immediately before the coming election is the time for the public to find out whether the Board of Aldermen will by any of the usual dilatory tactics and tricks attempt to further thwart or deceive the public.

We look upon you as a representative of good government, and ask you to lend us your aid at the next meeting of the Board of Aldermen by insisting that this matter be brought up and acted upon favorably notwithstanding any excuse which may be urged by a questionable opposition.

Thanking you, we remain,

Respectfully yours,

THROGG'S NECK TAXPAYERS' ASSOCIATION.  
William Cokeley, Secretary.

Throgg's Neck Taxpayers' Association, Skennison's Hall, Fort Schuyler Road,  
Throgg's Neck, New York City.

Unanimous Action of the Throgg's Neck Taxpayers' Association of the Borough of The Bronx, Taken on October 21, 1903.

Whereas, The Throgg's Neck Taxpayers' Association has, through its central organization, the Chester District Alliance, already requested the Railroad Committee of the Board of Aldermen to report favorably and at the earliest moment the petition of the New York and Port Chester Railroad Company, which has been in the hands of the said Railroad Committee since May 5, 1903; and

Whereas, The main reason for the urgency of our request was, and is, the present inadequacy of transportation facilities which are now furnished by the Union Railway and the New York, New Haven and Hartford Railroad Company with its hourly train service; and

Whereas, The New York, New Haven and Hartford Railroad Company has now added insult to injury by taking off two daily trains since the New York and Port Chester Railroad Company entered the field, and by so doing has greatly injured the prospects and future development of the eastern part of the Borough of The Bronx, and which injury has been deliberately inflicted upon this section notwithstanding earnest public protests; therefore be it

Resolved, That the Throgg's Neck Taxpayers' Association does hereby urge the Railroad Committee of the Board of Aldermen to report the New York and Port Chester ordinance favorably to the Board of Aldermen at the next meeting of that Board on October 27, 1903, as an answer to the insolent indifference and utter disregard of the rights, requirements and interests of the people of the Borough of The Bronx; it is also hereby

Resolved, That the Board of Aldermen be and hereby are petitioned and requested to insist that the New York and Port Chester Railroad matter be reported at the next meeting of the Board on October 27, 1903; and it is further

Resolved, That the Board of Aldermen are hereby earnestly requested to, in the interest of the public of the Borough of The Bronx, act favorably upon the New York and Port Chester Railroad ordinance at the next meeting of the Board of Aldermen on October 27, 1903, by passing the said ordinance; and it is further

Resolved, That the President of the Borough of The Bronx and the Aldermen of the Borough of The Bronx be and hereby are requested, upon behalf of the Borough of The Bronx, to insist that the matter be favorably acted upon by the Board of Aldermen at the next meeting, and to insist that the matter be taken from the hands of the Railroad Committee by the Board of Aldermen, upon behalf of the Borough of The Bronx, should the said Railroad Committee show a disposition to further delay the matter by not reporting it at the next meeting; and it is further

Resolved, That copies of these resolutions be and hereby are ordered sent to the President of the Borough of The Bronx and to each member of the Railroad Committee and to the Board of Aldermen.

Property Owners' Association of the Twenty-third Ward, Borough of The Bronx,  
Protection Hall, Courtlandt avenue and One Hundred and Fifty-second street,

New York, October 20, 1903.

Hon. CHAS. V. FURNES, President Board of Aldermen, City Hall, Manhattan:

Honorable Sir—I have the honor to inclose you copy of preamble and resolutions unanimously adopted at a joint meeting of the Building Trades Employers' Association of The Bronx, the Twenty-third Ward Property Owners' Association of The Bronx and the South Bronx Property Owners' Association, held on Thursday, October 15, 1903.

We feel that on account of the magnitude of the public interest in this matter, your Committee should report it without fail at the meeting of the Board of Aldermen to be held on October 27. We ask you upon behalf of the entire public of this borough to do so.

All of The Bronx public bodies will be represented at the next meeting of the Board of Aldermen by delegations.

Respectfully yours,

CHAS. BAXTER, Chairman.

Resolutions unanimously adopted at a joint meeting of the delegates representing the Building Trades Employers' Association of The Bronx, the Twenty-third Ward Property Owners' Association of The Bronx and the South Bronx Property Owners' Association, held Thursday, October 15, 1903:

Whereas, The Borough of The Bronx is now one of the most important sections of New York City, containing at present a population of nearly three hundred thousand people, which number is increasing at a relatively greater ratio than the increase of any other borough, and if proper railroad facilities existed the ratio of increase would be still greater; and

Whereas, It is apparent to observant men and men acquainted with the great advantages of the borough that it will in the near future become one of the most, if not the most important manufacturing, commercial and shipping centre within the limits of Greater New York; and

Whereas, Such advantages to the manufacturing, commercial and shipping interests will accord an influx of thousands of mechanics and other workmen, who will require homes wherein to live, and railroad facilities wherewith to reach such homes; and

Whereas, Such homes for workmen—homes at moderate cost and within the limits of the workmen's wages—cannot now be found in any other section of Greater New York as readily as they will be found in the northerly and easterly sections of the Borough of The Bronx, provided suitable railroad accommodations are extended to those sections of the Borough of The Bronx; and

Whereas, Such homes and requirements for wage earners' homes will revive the building enterprises now dormant in The City of New York and the Borough of The Bronx on account of the lack of transportation facilities in the Borough of The Bronx, and create work for those mechanics now idle; and

Whereas, The committee, after most careful investigation, has failed to discover a single citizen, property owner or resident opposed to immediate favorable action by the Board of Aldermen on the application of the New York and Port Chester Railroad Company; and

Whereas, All of The Bronx representatives of the Board of Aldermen having declared themselves in favor of the immediate favorable action upon this matter; and

Whereas, This joint meeting, representing thousands of taxpayers and residents in all parts of the Borough of The Bronx, fail to see the justice and fairness in longer protracting this delay, so detrimental to the interests of the Borough of The Bronx, especially as the matter is purely a local one and of essential local interest and benefit to all of the wage earners, business men, citizens and the public generally of the Borough of The Bronx; now be it

Resolved, That the Committee on Railroads of the Board of Aldermen is hereby respectfully requested to now consider the great importance to the people of the Borough of The Bronx of the New York and Port Chester Railroad, and to report favorably the application of that Company now before it and the Board of Aldermen at the next meeting of that Board, to be held on October 27, 1903; and

Resolved, That the Board of Aldermen of The City of New York be and hereby are requested, upon behalf of the Borough of The Bronx, to call up the New York and Port Chester Railroad application at the next meeting of that Board to be held on October 27, 1903, and, upon behalf of the united public of this borough, to act favorably upon that application at the said next meeting of the Board; and it is

Resolved, That the President of the Borough of The Bronx and all the Aldermen of this borough be and hereby are requested to insist that the matter be called up before the Board of Aldermen as a whole at the next meeting of that body on October 27, 1903, and to request, upon behalf of the wage earners, citizens and united public of this borough, that favorable action be taken upon the New York and Port Chester Railroad application at the said next meeting of the Board of Aldermen; and it is

Resolved, That a copy of these resolutions be at once forwarded to each member of the Railroad Committee of the Board of Aldermen, to the President of the Borough of The Bronx, to The Bronx Aldermen and to the Honorable Mayor of The City of New York, with the further request that the Honorable Mayor do communicate with the Board of Aldermen at the next meeting of that Board, calling their attention to the imperative necessity of the immediate favorable action upon this matter.

New Rochelle Board of Trade, New Rochelle, N. Y.,  
October 20, 1903.

Hon. CHARLES V. FURNES, President, New York Board of Aldermen, City Hall, New York City:

Honorable Sir—Enclosed herewith I have the honor to transmit to you resolutions passed by the New Rochelle Board of Trade on October 19, 1903.

This Board was represented at the public hearing in the matter of the New York and Port Chester Railroad before the Railroad Committee on October 12. The entire public of this section feel that, on account of the fact that not one public interest appeared in opposition, but that the public, as a unit, through their representatives, and in addition that political organizations of both parties, through their representatives, at this hearing, asked for the immediate favorable action of the Board of Aldermen on this application, the Railroad Committee should report this application to the Board of Aldermen for consideration at the meeting to be held on Tuesday, October 27. The public feeling in this matter is that if the Railroad Committee do not report it, the matter should be brought before the Board of Aldermen for action at the meeting on October 27. We feel that we are justified in this position, in view of the fact that there was absolutely no public opposition, and that no reason whatever can be given for any further delay.

Upon behalf of the public of this section we ask the active support of yourself and the Board of Aldermen of The City of New York in this matter, and sincerely trust that it will be called up and favorable action taken thereon at the meeting of the Board of Aldermen on Tuesday, October 20, 1903.

Thanking you in advance, and assuring you of our appreciation, we have the honor to remain

Respectfully yours,

NEW ROCHELLE BOARD OF TRADE,  
By H. E. Colwell, President.

Whereas, At the hearing held before the Railroad Committee of the Board of Aldermen in the Aldermanic Chamber in The City of New York, on October 12, 1903, in the matter of the application of the New York and Port Chester Railroad for the assent of the Board of Aldermen to cross such public highways in the Borough of The Bronx as will be crossed by the line of its road, it was shown indubitably that the public welfare of the Borough of The Bronx and Westchester County demand the immediate construction of this railroad, and, consequently, the immediate favorable action by the Railroad Committee and the Board of Aldermen on the application of the New York and Port Chester Railroad Company; and

Whereas, At the hearing before the Railroad Committee of the New York Board of Aldermen not one citizen or representative of the public or public interest raised his voice in opposition, but, on the contrary, the united public, through their representatives at the hearing above referred to, did pray and petition the Railroad Committee and the Board of Aldermen to immediately grant to the New York and Port Chester Railroad Company the required assent; and

Whereas, The next meeting of the Board of Aldermen will be on the 27th of October, 1903; now therefore be it

Resolved, By the New Rochelle Board of Trade, at a meeting held October 19, 1903, that the Railroad Committee of the New York Board of Aldermen be and hereby is requested to report favorably the New York and Port Chester application to the Board of Aldermen on or before the meeting of the New York Board of Aldermen, to be held on Tuesday, October 27, 1903; and it is further

Resolved, That the New Rochelle Board of Trade does hereby respectfully petition and pray the New York Board of Aldermen to call up the application of the New York and Port Chester Railroad Company at the meeting of that Board to be held on Tuesday, October 27, 1903, and to act favorably on the New York and Port Chester Railroad application on account of the vastness and importance of the public interests of the Borough of The Bronx and Westchester County which will be benefited by such immediate action; and it is further

Resolved, That copies of these resolutions be at once transmitted to the Honorable Mayor of The City of New York, and to the Honorable Board of Aldermen of The City of New York, and to each member of the Railroad Committee of the Board of Aldermen of The City of New York.

State of New York, County of Westchester, ss.:

Henry Scherp, being duly sworn, deposes and says that he resides in the City of New Rochelle, New York; that he is the secretary of the New Rochelle Board of Trade; that he has compared the annexed copy of preamble and resolutions with the original thereof, now in his custody as such secretary, and that the same is a true copy of the same and the whole thereof; that said preamble and resolutions were duly unanimously adopted by the said New Rochelle Board of Trade, at a meeting held October 19, 1903.

HENRY SCHERP.

Sworn to before me this 20th day of October, 1903.

H. E. COLWELL, Notary Public.

Port Chester, N. Y., October 21.

Hon. CHARLES V. FORNES, President, Board of Aldermen, City Hall, New York City:

Dear Sir—As a representative of the public of Rye and Port Chester, of Westchester County, we appeal to you, as a representative of good government and as a public man interested in and ready to do what may be required to further the interests of the public and as a member of the Board of Aldermen, to secure the favorable action of the Board of Aldermen, by the passage of the New York and Port Chester Railroad Ordinance now in the hands of the Railroad Committee, at the meeting of the Board of Aldermen on October 27.

The entire public of the Borough of The Bronx and Westchester County which will be benefited by this railroad, and representing between 300,000 and 400,000 people, appeared at the hearing before the Railroad Committee in this matter on October 12, 1903, and unanimously, through their representatives, asked the Railroad Committee to take immediate favorable action on this measure. The Railroad Committee have had the matter since May 5, 1903, and at the close of the hearing announced that they would immediately take the matter up in executive session. So far as we can learn the Railroad Committee have not yet acted upon the matter. The public feel that, on account of the fact that there was not a single citizen, taxpayer or representative appeared in opposition, but that, on the contrary, the public as a unit pleaded with the Committee for immediate favorable action, and, by argument, gave their reasons therefor, there is absolutely no necessity for any further delay. We all feel that if the Railroad Committee will not report this matter favorably on the 27th of this month the matter should then be taken from their hands, and we appeal to you to see that such a course is taken.

The entire public of this section have, through their representatives, communicated with every member of the Railroad Committee since the hearing, asking them to report it favorably at the next meeting, on October 27.

We trust that you will commence work upon this matter at once, and that you and your associates will appear at the next meeting of the Board of Aldermen organized and prepared to take vigorous action in this matter, and that you will not brook any excuse whatever the object of which will be to secure further delay or to secure delay until after the coming election. The public bodies of the eastern part of Westchester County and the Borough of The Bronx will be represented by delegations at the next meeting of the Board of Aldermen.

Assuring you of our appreciation and assuring you of our readiness to support you in this matter and thanking you in advance, we remain,

Respectfully yours,

Taxpayers' Alliance, Third Avenue and Four Hundred and Seventy-Fifth Street, New York, October 21, 1903.

Hon. CHARLES V. FORNES, President, Board of Aldermen, City Hall, New York:

Dear Sir—Enclosed herewith I send you resolutions adopted by the Taxpayers' Alliance on October 19, 1903.

The entire Bronx is of the opinion that there is absolutely no cause for further delay in this matter, and that the matter should be taken up by the Board of Aldermen at the next meeting of that Board, on October 27, and favorable action taken thereon by the Board at that time.

The Borough of The Bronx is now looking to its representatives and friends to secure for it a termination of this unwarranted delay by securing the passage of the ordinance at the next meeting of the Board. We trust that you will assist us in this matter by demanding that the matter be taken up and acted upon by the Board of Aldermen on October 27.

Thanking you upon behalf of the Taxpayers' Alliance and the Borough of The Bronx, we remain,

Respectfully yours,

Whereas, On the 12th day of October, 1903, the Railroad Committee of the Board of Aldermen of The City of New York gave a public hearing in the matter of the application of the New York and Port Chester Railroad, which has been before that body since the 5th of May, 1903; and

Whereas, At that hearing the Taxpayers' Alliance of the Borough of The Bronx was represented by its President, its Committee on Freight, Transportation and Railroads, and a delegation from this body; and

Whereas, At the hearing above referred to no public opposition whatever developed, but, on the contrary, the public as a unit, through their representatives, did impassionately urge the Honorable Railroad Committee and the Honorable Board of Aldermen to immediately act favorably upon the application then and now before them; now therefore be it

Resolved, That the Railroad Committee of the Board of Aldermen are respectfully asked and petitioned by the Taxpayers' Alliance of the Borough of The Bronx to report favorably the application of the New York and Port Chester Railroad Company, so that action thereon may be taken at the next meeting of the Board of Aldermen of The City of New York, to be held on Tuesday, October 27, 1903; and it is further

Resolved, That the Taxpayers' Alliance of the Borough of The Bronx do hereby, on account of the unity of public appeal, both before and at the hearing before the Railroad Committee, request the Honorable Board of Aldermen of The City of New York, at its next meeting on Tuesday, October 27, 1903, to call up this matter and act favorably thereon; and it is further

Resolved, That a copy of these resolutions be and hereby are ordered sent to the Honorable Board of Aldermen of The City of New York, to the Mayor of The City of New York and to each member of the Railroad Committee of the Board of Aldermen, and to the President of the Borough of The Bronx; and be it further

Resolved, That the President of the Borough of The Bronx and all of The Bronx Aldermen be and are hereby earnestly urged and requested to insist that this matter be brought up before the Board of Aldermen at the meeting of that body on Tuesday, October 27, 1903.

Respectfully submitted,

October 21, 1903.

This is to certify that at a meeting of the Executive Committee of the North Side Board of Trade of The City of New York held this day the following resolutions were adopted:

Whereas, The application of the New York and Port Chester Railroad Company for permission to cross the streets and highways of the Borough of The Bronx is now pending before the Railroad Committee of the Board of Aldermen; and

Whereas, Said Railroad Committee is to report on said application at the meeting of the Board of Aldermen on October 27 next; therefore be it

Resolved, That the Executive Committee of the North Side Board of Trade earnestly request said Railroad Committee to make a favorable report on this subject, and respectfully and urgently request the Board of Aldermen to adopt the ordinance granting the application of the New York and Port Chester Railroad Company; and be it further

Resolved, That a copy of these resolutions be forwarded to his Honor Mayor Low and to Hon. Charles V. Fornes, President of the Board of Aldermen, and to each member of the Railroad Committee of the Board of Aldermen, and that the members of the North Side Board of Trade be notified to attend the meeting at the City Hall on October 27, at 1 p. m.

Taxpayers' Alliance, Third Avenue and One Hundred and Seventy-fifth street,  
New York, October 24, 1903.

Hon. CHARLES V. FORNES, President, Board of Aldermen, City Hall, New York City:

Dear Sir—The Railroad Committee will meet next Tuesday at 11 o'clock a. m. for the purpose of acting on the matter of the New York and Port Chester Railroad. We ask you to see that the ordinance which the Committee now has before it be reported favorably to the Board on the same day. We have had that ordinance examined by the best lawyers in the City and are satisfied that the ordinance is right, fair and proper. We are satisfied that the matter is not a franchise and that the City will receive far more than the Railroad Company by the passage of the ordinance now in the Railroad Committee.

We estimate that the Railroad Company will pay to the City annually for taxes on its right of way the sum of \$8,000 at the outset. All that the Railroad Company will receive for this will be the right to pass over or under the streets of The Bronx in such manner as not to interfere with their use. The Railroad Company will give to this retarded section what we have been striving to secure for the past twenty years and the entire public want to do everything now to encourage this enterprise. We again ask you to intercede for us and see that the Railroad Committee reports the ordinance favorably which it now has, and without change.

We understand that President Haffen has the assurance of the support and active assistance of Leader Charles F. Murphy in his determination to secure the final favorable action of the Board on the ordinance now in the Railroad Committee at the meeting of the Board next Tuesday. We have asked Leader Murphy to have Leader McCall and his associates in the Board actively support President Haffen next Tuesday. We now also ask you to rally your associates for the support of President Haffen in the passage of the ordinance next Tuesday. We understand that our President will also have the support of Alderman Parsons and his associates. We ask our friends to tolerate no excuse or objection or attempt to refer to any other Board or committee. Any such move will be made solely for the purpose of throwing the matter over until after the election, which we will not submit to quietly. We are as a unit resolved that this shall not be made an occasion for bargaining or sharp practices which are resorted to by an iniquitous opposition under the guise of virtue.

The Bronx will be represented by a number of representative delegations at the next meeting of the Board, all of which will support their friends for the securing of the final and favorable action of the Board on the ordinance now in the Railroad Committee.

Thanking you for your support, we remain,

Respectfully yours,

The Committee on Finance respectfully reports that the Committee on Buildings has requested, through its Chairman, in a letter hereto annexed, that provision be made for the renting of additional school premises, owing to the large increase in attendance, by requesting the Board of Estimate and Apportionment and Board of Aldermen to issue Special Revenue Bonds to the extent of \$25,000 for the purpose. The Committee on Finance concurs in the request of the Committee on Buildings, and submits for adoption the following resolution:

Resolved, That the Board of Estimate and Apportionment and the Board of Aldermen be, and they hereby are, respectfully requested to authorize the Comptroller to issue Special Revenue Bonds to the extent of twenty-five thousand dollars (\$25,000), the proceeds thereof to be deemed appropriated to the Department of Education and applied exclusively to the renting and maintenance of additional school premises, made necessary by the large increase in the school population.

Hon. SETH LOW, Chairman, Board of Estimate and Apportionment:

Dear Sir—The Department of Parks, Boroughs of Brooklyn and Queens, has suffered a very great disaster in the terrific rainstorm and flood of the last twenty-four hours.

The lake in Prospect Park has overflowed its banks and destroyed the main drive and the walks on the westerly and southerly sides of the park. The bridle path on the westerly side has been utterly ruined and must be reconstructed.

The banks of Sunset Park have been seriously washed, great masses of earth have been dislocated and carried into the streets.

Institute Park has suffered very greatly in the same manner, and also the Shore road. In many places the bank on the water side is so badly washed that parts of the road have collapsed, and it is in an exceedingly dangerous condition. I have barricaded portions, which makes it almost too narrow for a single vehicle to pass.

The bulkhead which was constructed at Coney Island a year ago has again saved the Concourse, the Ocean parkway and the Park, but it has been seriously injured and needs immediate repair. The stone wall separating the Concourse from the beach has been undermined and a portion of it fallen, the sea having beaten over the wall and bulkhead with terrific force that was irresistible.

The top soil has been washed from large areas of Prospect Park, necessitating immediate resurfacing.

For these reasons I come before your Honorable Board for an emergency appropriation of \$50,000, and below give specifications.

I sincerely hope there is some fund from which this amount can be taken without the delay which would be necessary if it should have to await the approval of the Board of Aldermen; and if it is possible to do so, I would like the authority to make the repairs without waiting for the formality of public letting.

Trusting that action may be taken on this most important matter on Monday, I remain

Yours very truly,

Subsequently the Committee on Finance reported as follows:

The Committee on Finance, to whom was referred on November 10, 1903, the annexed communication from the Park Commissioner of the Boroughs of Brooklyn and Queens, requesting authorization to contract for repairs to parks without public letting, respectfully

#### REPORT:

That, having examined the subject, they believe the proposed authorization to be necessary.

They therefore recommend that the annexed resolution be adopted.

Whereas, The Department of Parks for the Boroughs of Brooklyn and Queens has suffered great disaster from the recent terrific rain storm and flood, making it necessary and urgent that repairs be begun at once without proceeding through the formality of advertising for public contracts; therefore

Resolved, That the Commissioner of Parks for the Boroughs of Brooklyn and Queens be and he is hereby authorized, in pursuance of the provisions of section 419 of the amended Greater New York Charter, to enter into contracts for such emergent repairs as may be necessary, without advertising therefor, to an amount not exceeding fifty thousand dollars (\$50,000), the said sum to be charged to and made payable out of the most available appropriation.

The President laid before the Board the following communication from the Fire Department transmitting resolution:

No. 2625.

Headquarters Fire Department, City of New York, Nos. 157 and 159 East Sixty-seventh Street,

Borough of Manhattan, November 6, 1903.

Hon. CHARLES V. FORNES, President, Board of Aldermen, City Hall, Borough of Manhattan, New York City:

Sir—I enclose herewith draft of preamble and resolution to permit this Department to have done, otherwise than by contract at public letting, certain additional work required in connection with the existing contract for general repairs to the fireboat "Seth Low."

When the specifications for the work were prepared and present contract made the boat was in service, and the necessity for further requirements could not be determined until it was placed in the dry dock, which was but recently done. When the boat was stripped it was found that exposed portions of the hull were in very bad condition, making necessary the expenditure of a much larger sum than was originally estimated, and as the United States Inspectors may require still further additional repairs, it becomes difficult to formulate a specification or to approximate the cost, although the estimated cost of the work ordered by the United States Inspectors is three thousand dollars in addition to existing contract.

The boat is still in the dry dock, at an expense of twenty dollars a day, as it cannot be launched until the repairs ordered to the hull are completed.

A copy of report from the Chief of Battalion in charge of the Repair Shops, boroughs of Brooklyn and Queens, to the Hon. Richard H. Laimbeer, Jr., Deputy Commissioner, and copy of report of the Assistant Inspector, United States Steamboat Inspection Service, are forwarded herewith. This emergency requires immediate action.

Respectfully,

THOS. STURGIS, Commissioner.

Mr. E. DOUGHERTY, care Steamer "Seth Low," Main Street, Brooklyn, N. Y.:

Sir—We enclose herewith copy of report of our assistant inspector as to condition of steamer "Seth Low" and the work required to put her in proper shape. Please notify this office when the vessel is in condition as ordered for further examination.

Respectfully yours,

Steamboat Inspection Service,

Port of New York, October 31, 1903.

Messrs. DUMONT AND BARRETT:

In accordance with your instructions I examined the steamer "Seth Low" on dry dock at Gokey's, Erie Basin. Her bottom planking and butts are in good condition. I also examined her internally, and found her in very poor condition forward. There are ten floor frames and cants that are in very poor condition and should be taken out. What can be seen of her dead wood is in good condition, but main keelson, as far aft from stem as can be seen, is very poor. At her annual inspection I considered this vessel in poor condition and bored her. Borings proved to be good. Two main-deck beams forward and one carline are gone on the ends under the covering boards and must come out. The bosom knees are also rotten and must be replaced. Tank bulkhead will have to be removed and replaced with new. The knees of after towing bitts are poor and should be replaced with new ones. Several rail stanchions beside the ones already taken out should be renewed. The men's quarters forward should be entirely removed, including the water closet. In view of the generally poor condition of her forward part, I recommend that her garboards and two or three strakes of plank full length on both sides be taken off to allow a more thorough and extended examination of frames, especially under boiler and engine space.

Yours respectfully,

(Signed)

GEO. S. TUTHILL, Assistant Inspector,

Fire Department of The City of New York, Boroughs of Brooklyn and Queens,

Brooklyn, November 2, 1903.

Hon. RICHARD H. LAIMBEER, Jr., Deputy Commissioner:

Sir—Referring to Fireboat "Seth Low" Engine 123, now on dry dock for repairs, would say that it was discovered after same was docked that the repairs as per specification and contract do not cover all the work that is necessary to have done.

The Government Inspectors have examined a portion of the hull and have found that parts already uncovered are in very bad condition, and they have given directions that other parts will have to be uncovered so that they can make a further survey, and all such found defective will have to be replaced by new. To do this work, including opening of hull, will cost about \$3,000, making a total cost, including original contract, of about \$5,000.

I do not think it possible to have this work done by contract and for that reason I would ask for authority to direct the contractor to proceed to do the same by day's work.

Respectfully submitted,

(Signed.) PATRICK NEVINS, Chief of Battalion in Charge of Repair Shops.

Whereas, It appears by a communication from the Fire Commissioner to this Board, dated November 6, 1903, that he is advised by the officer in charge of the making of extensive repairs and alterations to the fireboat "Seth Low" of the Fire Department of The City of New York, boroughs of Brooklyn and Queens, under contract dated August 5, 1903, that certain additional work will be indispensably necessary in connection therewith, which it would be in the interest of the Department and The City of New York to have performed by the present contractor to avoid delay; therefore

Resolved, That this Board, in pursuance of the authority conferred upon it by the provisions of section 419 of the Greater New York Charter, deeming such course to be for the best interest of the City, hereby authorizes and empowers the Fire Commissioner to have such additional work done without contract at public letting and by the present contractor, the total expenditure therefor not to exceed the sum of three thousand five hundred dollars (\$3,500).

Which was laid over and made a special order for 2.20 o'clock, p. m.

Subsequently the hour of 2.20 o'clock having arrived, Alderman John T. McCall called up the resolution, and moved its adoption.

The President put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Alt. Tenement House Department of The City of New York, No. 61 Irving Place, southwest corner Eighteenth Street.

New York City, October 5, 1903.

Hon. CHARLES V. FORNES, President, Board of Aldermen, New York City:

Dear Sir—I transmit to you, in common with other members of the Board of Estimate and Apportionment, a copy of the application of the Tenement House Department for an appropriation for the coming year, which comes before that Board on October 7. As it was not possible to reproduce in the "City Record" the photographs which accompanied it, I have had them printed in connection with the application of which they form part, and this has been done without any expense to the City.

Respectfully yours,

ROBERT W. DE FOREST, Commissioner.

September 1, 1903.

To the Board of Estimate and Apportionment, No. 280 Broadway, New York City:

Gentlemen—In accordance with your resolution of July 15, and with the provisions of section 226 of the Greater New York Charter, I beg to transmit herewith the Departmental Estimate of the Tenement House Department for the year 1904.

The Tenement House Department respectfully requests that the Board of Estimate and Apportionment appropriate the sum of \$796,650 for the expenses of the Tenement House Department for the year 1904, made up as follows:

Rents.....	\$35,000 00
Supplies and Contingencies.....	25,000 00
Salaries.....	736,650 00
Total.....	\$796,650 00

This is a considerable increase over the appropriation for the present year. It is also largely in excess of the annual appropriation which will be needed by the Department after the tenement houses of New York have been once made to conform to law. That excess is partly the inherited cost of many years of continual violation of the old law and partly the cost of bringing the tenements to the higher sanitary standard of the new law. Once paid, the current expenses in the Department can be reduced to a normal standard.

It is now for the first time possible to base such an estimate on full knowledge of existing violations of law and actual experience in the task of remedying them, and of transacting at the same time the every-day work of the Department.

About a year has now passed since the organization of the Department was first made possible by the qualification of its employees. During that time all the tenement houses in New York have been examined and their conditions ascertained. During that time, also, the volume of the current work of the Department has become manifest. The situation which confronts the Department with its present force should be clearly stated so that its bearings upon the Departmental Estimate for the coming year may be fully understood.

Tenement conditions in many instances have been found to be so bad that the most sensational newspapers of the City would hesitate to publish photographs of them. Vile privies and privy sinks; four cellars full of rubbish, in many cases of garbage and decomposing fecal matter; dilapidated and dangerous stairs; plumbing pipes containing large holes emitting sewer gas through the houses; rooms so dark that one cannot see the people in them; cellars occupied as sleeping places; dangerous bakeries, without proper protection in case of fire; pigs, goats, horses and other animals kept in cellars; dangerous old fire-traps without fire escapes; disease-breeding rags and junk stored in tenement houses; halls kept dark at night, endangering the lives and safety of the occupants; buildings without adequate water supply—the list might be added to almost indefinitely.

To illustrate the nature of the conditions that exist, I have appended to this statement a number of photographs taken by the official Photographer of the Department, showing some of these conditions. The photographs, however, do not do justice to the real facts, for it is not possible to thus produce nauseous and unhealthy odors.

The Department has done and is doing everything in its power to remedy these conditions. The Inspectors work in the field from 9 to 4 steadily, at the most fatiguing and exhausting kind of labor, and then are obliged to work two or three hours at home at night, writing up their reports. Many of the Clerks, Stenographers and office force of the Department will be found at their desks nearly every evening until 5.30 and even 6. The volume of work is so tremendous and the present force so inadequate that in several divisions if a single Clerk is absent for one day the work of the entire Department is seriously clogged and interfered with.

A realization of the volume of the work may be obtained when it is known that the normal number of current pending violations is 12,000 in Manhattan alone, and that in one Bureau of the Department 11,707 violations were filed in one month, each

violation representing on an average ten matters that required remedying in a particular house, thus making a total of 117,070 matters to be remedied, reported on in thirty days. From June 1, 1902, till June 1, 1903, the Department has made 269,691 inspections, and made 299,294 reports, and filed 138,270 violations.

Everything that could be done to minimize labor and systematize work has been done; Typewriters are used wherever possible in place of Clerks, printed forms have been prepared so as to simplify work and economize time, and yet the Department with its present force is able to do little more than keep up with current work brought to it on the new building side by new construction and on the old building side by citizens' complaints of unsanitary conditions, and cannot even make inspections as frequently as made mandatory by the City Charter.

The Tenement House Law includes a comprehensive and important plan for the structural improvement of the old tenement houses, letting light into dark rooms and halls, doing away with unsanitary privies and privy sinks, and generally improving the condition of these buildings.

One of the early tasks of the Department has been therefore to ascertain where the tenement houses were that needed such structural improvements, and the nature of such improvements in each case. This has been a colossal task. The Department has inspected 43,580 houses to ascertain these facts, and now has on its files the detailed information in regard to each house. It has, however, only to a limited extent been able thus far to issue the necessary orders to owners to make the improvements required by law, because of insufficient force.

It is of paramount importance that this work should be started and progressed as rapidly as possible. Even with a large force of employees it will probably be one or two years before the greater part of it can be accomplished.

The conditions disclosed by these inspections are appalling. It was known to the framers of the law that there were a great many dark rooms and many unsanitary conditions in the old houses, but no one had any conception of the real extent of these evils.

There are in Greater New York over 350,000 dark rooms, without any windows opening to the outer air or even to another room, which itself has windows opening to the outer air. Moreover, these rooms are located in over 40,000 different tenement houses scattered throughout the different boroughs. Under the law a large window 3 feet by 5 feet must be cut into each such room.

Leading physicians and experts who testified before the New York State Tenement House Commission in 1900 stated that the dark interior rooms in the tenement houses of New York were largely responsible for the very great prevalence of pulmonary tuberculosis in this City, that sunlight and fresh air were the two most important factors in its cure, and that a measure by which light and air could be let into the dark rooms of the tenement houses would do more to reduce the mortality from this disease than any other single measure. They also stated that there were 8,000 deaths annually in New York City from pulmonary tuberculosis, and 20,000 new cases of sickness.

In view of these facts, the importance of proceeding with these improvements cannot be overstated.

Because of inadequate force the Department has been compelled to neglect many other important phases of the work. There are many rear tenement houses in the City which, because of their age and structural condition, are in a very unsanitary condition. A careful and systematic canvass of such houses should be made, so as to discriminate carefully between those that are sanitary and those that are not, and to have permanently vacated those that are actually unfit for habitation. This requires the services of a number of men of special skill and of a high order of intelligence. The work is of great importance and has been practically neglected since 1897.

A special and systematic examination of cellar living-rooms in tenement houses should be made, so that those which do not conform to the law may be vacated. The Department has already on its files a list of 2,500 such houses, but as yet has no force with which to secure the necessary detailed information required to enable it to act.

A similar examination should be made of the bakeries located in tenement houses. There are several thousand of these in the City, many of which are a menace to the life of the occupants of the houses through lack of proper fire protection.

A special night force is needed to see that the law requiring a light to be kept burning in the public hall is observed. At present this provision of law is very frequently violated.

The law forbidding the incumbrance of fire escapes has practically never been enforced in this City. The Board of Fire Underwriters has upon several occasions urged the Department to take up this work. To do it properly necessitates a special squad.

There are several thousand tenements still unprovided with adequate fire escapes, in spite of the progress already made by the Department in enforcing compliance with these provisions of law, as a result of which several thousand have been installed.

Moreover, the work of the Department on the new building side is increasing rapidly. In 1902 the Department supervised the erection of 643 new tenement houses and of 1,468 alterations to old houses. In 1903, up to July 1, it has had to supervise the erection of 699 new houses and the alteration of 1,266 old houses—that is, it has in 1903 practically double the amount of work. The same force is unable to handle this year twice the amount of work it handled last year, and must be enlarged, for next year the work will be still greater.

In addition, under the provisions of chapter 439 of the Laws of 1903, which took effect on July 1, twenty-three different sections of the Tenement House Act, which had in the past been enforced by the Bureau of Buildings, were required to be enforced by the Tenement House Department. This was a desirable change in the interest of builders, because it concentrated the enforcement of the whole Tenement House Law in a single Department, but it necessitates an increase in the force of this Bureau.

In this connection it is not inappropriate to point out that in the Borough of Manhattan the Tenement House Department now has available but eight Inspectors to supervise new buildings and alterations to old buildings, whereas the Bureau of Buildings had sixty-seven men for similar work. In The Bronx the Tenement House Department has available but two men for this purpose, while the Bureau of Buildings has twenty men. It is obvious that the present force in the Tenement House Department for this work is inadequate and should be materially increased.

The Department has always planned the establishment of a branch office in The Bronx, and an office was rented for that purpose last October. Owing to the insufficiency of the departmental appropriation and the great volume of work, it has not been possible to open this office to the public. It is important that this should be done, as it is a hardship to the citizens of The Bronx to require them to spend an hour and a half's time in traveling from their borough to the Manhattan office of the Department to transact business.

The present offices of the Department are entirely inadequate for the transaction of the tremendous volume of work required by the Department, and it is necessary that additional space be secured.

There are other needs of the Department which should be met, and other work that the Department should do, but I have limited myself in this statement to those needs which are imperative and which must be satisfied if the health and welfare of the great masses of the people are to be properly safeguarded.

It should be borne in mind, as was stated at the outset, that a large part of the money asked for is to enable the Department to do what may be termed initial or abnormal work, which is temporary in its nature, and which, once done, will not have to be done again; and that the present volume of such initial work is due, not only to the higher sanitary standard of the present Tenement House Law, but to the fact that many important provisions of former laws had been for many years neglected by the different municipal departments charged with their enforcement. The increase over last year's appropriations would therefore be a temporary and not a permanent addition to the City's expenses for public health and public safety.

As an illustration of this initial work due to neglect of former laws, I mention the entire absence of adequate fire escapes on many thousand tenements, a condition which is rapidly being remedied.

As an illustration of such initial work due to the new Tenement House Law, I mention the cutting of windows into dark rooms. Such matters once attended to will require but little attention from the Department hereafter.

The changes recently made by the Legislature in the Tenement House Laws also added largely to the initial work of the Department, because it will be necessary to reinspect most of the old tenements on points included in these changes to supplement the examinations already made before orders can be properly issued. In each house it is estimated that it will be necessary to verify an average of five different items because of these changes of the law.

The Tenement House Department is practically the Health Department for all tenement houses. It enforces in them not only the Tenement House Law, but many sanitary laws as well. Every consideration of public health and safety demands that these laws and regulations should be carried into effect, and the extent to which death and disease have already been diminished in the tenements by the work already done by this Department, in co-operation with that of other City departments, indicates how much more satisfactory results can be obtained by complete enforcement of these sanitary laws.

I respectfully ask that the full estimate be appropriated. Comparison is made with August instead of July, because the comparison with July would be misleading, in view of the temporary employees then on the Department payroll.

No amount of this year's appropriation will remain unexpended.

Yours respectfully,

ROBERT W. DE FOREST, Tenement House Commissioner.

The City of New York, Department of Parks, Arsenal, Central Park,  
October 26, 1903.

Hon. CHARLES V. FURNES, President, Board of Aldermen:

My Dear Sir—By direction of the Commissioner of Parks for the Boroughs of Manhattan and Richmond, I beg to transmit copy of a letter to the Board of Estimate and Apportionment, under date of October 23, requesting that the sum of \$16,000 be added to the amount heretofore requested for Labor, Maintenance and Supplies, Department of Parks, Boroughs of Manhattan and Richmond, for the year 1904, to enable the Department to fix the pay of certain employees mentioned therein.

Respectfully,

GEORGE S. TERRY, Secretary, Park Board.

The City of New York, Department of Parks, Arsenal, Central Park,  
October 23, 1903.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—This Department has received applications from its Stable Workers, Cleaners (males in charge of Public Comfort Stations), Carpenters, Steam Engineers and Painters that their pay be fixed at the rates paid by other departments and firms for similar services.

We have carefully investigated the question and it is believed that the rates of pay paid by this Department for the classes of services above described are below those paid for similar services by some other employers.

In order that this Department may pay the several classes of employees the wages they ask for an additional appropriation will be required.

I beg to request that your Honorable Board will add to the amount asked for Labor, Maintenance and Supplies, Department of Parks, Boroughs of Manhattan and Richmond, for the year 1904 (\$496,000) the sum of \$16,000, required as follows:

	Number Employed.	Present Pay.	Proposed Pay.	Days.	Increase.
Stable Workers.....	9	\$2 25	\$2 50	365	\$821 25
Stable Workers.....	1	2 00	2 50	365	182 50

## MUNICIPAL EXPLOSIVES COMMISSION.

Proceedings of the Municipal Explosives Commission at meeting held Tuesday, October 13, 1903.

Present—Fire Commissioner and Chairman Thomas Sturgis and Commissioners Charlton, Eaton and McKenna.

Minutes of meetings held October 7 and 8 were read and approved. Commissioner Charlton, as a sub-committee of one to inquire into the operation of certain sections of the fireworks regulations, submitted a report, which was read, approved and ordered on file.

The matter of the filing of bonds as provided in the regulations governing the sale, storage, use, etc., of fireworks was discussed, the Inspector of Combustibles being present. The advisability of requiring pyrotechnists to file only a single bond for numbers of small displays at certain seasons of the year was particularly considered, and a communication on the subject was prepared for transmission to the Inspector of Combustibles.

Further consideration was given to the proposed regulations governing the use, sale, storage, etc., of inflammable and volatile oils.

Upon motion, the Commission adjourned till October 14, 1903.

EUGENE STEPHENS, Acting Secretary.

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
