MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK,
NOVEMBER 6, 1908.

The following matters, not on the calendar for this day, were considered by unanimous consent:

New York and Queens County Railway Company.

In the matter of the petition of the New York and Queens County Railway Company for a franchise to construct, maintain and operate two extensions or branches to its existing street surface railway, one from the former Village of Flushing to the Village of Whitestone, and one from Inglewood to Bayside, Borough of Queens.

At the meeting of October 16, 1908, by resolution duly adopted, November 27, 1908, was fixed as the date for the final public hearing, and the form of contract was entered on the minutes of this Board, and ordered advertised in two daily newspapers and in the City Record previous to such date.

The Comptroller offered the following:

Resolved, That the resolutions adopted by this Board October 16, 1908, fixing November 27, 1908, as the date for final public hearing on the application of the New York and Queens County Railway Company for a franchise to construct, maintain and operate two extensions, in the Borough of Queens, be amended by striking therefrom the date “November 27, 1908,” in each and every instance where said date appears in said resolutions, and inserting in lieu thereof in each and every instance the date “December 11, 1908.”

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Third Avenue Railroad Company.

In the matter of the petition of the Third Avenue Railroad Company for a franchise to construct, maintain and operate a branch or extension to its existing line, upon and along Fort George and St. Nicholas avenues to West One Hundred and Ninetieth street, Borough of Manhattan.

At the meeting of June 26, 1908, a report was received from the Engineer in charge of the Division of Franchises to the Chief Engineer, together with a form of contract proposing terms and conditions to govern the grant, and at the conclusion of the public hearing, which was held on said day, the matter was referred to a Select Committee, consisting of the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan and The Bronx.

The Comptroller, as Chairman of the Select Committee, stated he had been visited by a representative of an institution holding property fronting on one of the streets proposed to be used by the railroad company, who strongly objected to such use, and he moved that the application be referred back to the Chief Engineer for further consultation with the applicant to obtain an acceptable line and agree upon terms and conditions to govern the grant.

Which motion was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Union Railway Company of New York City.

In the matter of the application of the Union Railway Company of New York City for franchises to construct, maintain and operate street surface railways as extensions to its existing system, as follows:

(b) From the intersection of Sedgwick avenue and Fordham road, Borough of The Bronx, to and across the University Heights Bridge and its approaches, to Broadway, Borough of Manhattan.

At the meeting of October 30, 1908, a public hearing was had upon the aforesaid petition, and a report was received from the Engineer in charge of the Division of Franchises to the Chief Engineer, together with separate contracts proposing terms and conditions to govern the franchises for both extensions, when the matter was referred to a Select Committee.

The letter stated that there were employed in the Department something over one hundred Nurses who were performing similar duties; that the Division of Child Hygiene was not a division that had been created by the Charter, and that no appropriations for the payment of salaries of persons assigned to duty in that division had been made by the Board of Estimate and Apportionment or the Board of Aldermen; that it was simply an office title and was a branch of the Division of Contagious Diseases; that Nurses in that branch of the service had been in the non-competitive class since the corps of Nurses was created in 1902, and that the Municipal Civil Service Commission had never required competitive examinations for appointment to those positions. In accordance with the rules fire drills have been held at all of the hospitals.

Dr. Le Roy J. Smith, Admitting Physician, complains of the crowded condition of the reception office, and it is recommended that a room be built in the yard near the cook house, where transfer cases may be placed until they are transferred to the Department of Public Charities.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment held on October 23, 1908, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of the City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required

State.—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successors or assigns, or by operation of law.

of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—The railway to be constructed under this contract may be operated by overhead electric power substantially similar to the overhead electric traction now in use by street surface railways in the Borough of Queens, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by owners of property, in accordance with the provisions of law, and by the Public Service Commission of the First District of the State of New York.

Eighth—The Company shall begin construction of the extensions herein authorized within the time prescribed by the Railroad Law of the State of New York, and such extensions shall be completed and shall be in operation on or before December 31, 1909; otherwise this grant shall cease and determine.

Ninth—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City; and the Company agrees to make application to the Commissioner of Water Supply, Gas and Electricity for permission to string and maintain its electrical conductors in the streets covered by this grant.

Tenth—The said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of the Company shall be maintained in good condition throughout the term of this contract.

Eleventh—Cars on the said railway shall run at intervals of not more than thirty minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Provided, however, that the Company during the first five years of its franchise shall not be required to operate its cars between the hours of 12 o'clock midnight and 5 o'clock a. m., each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Twelfth—The Company shall attach to each car run over the said railway proper fenders and wheel guards in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Thirteenth—All cars which are operated on said railway shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Fourteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which the railway shall be constructed under this contract, shall cause to be watered the entire roadway of such streets and avenues at least three times in every twenty-four hours, when the temperature is above thirty-five (35) degrees Fahrenheit, and shall provide for such portions at least one tank-car, to be propelled by electric power, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Fifteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Sixteenth—The Company, so long as it shall continue to use any of its tracks in any street or highway covered by this grant, shall have and keep in permanent repair that portion of each street or highway between its tracks and the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. In case of neglect by the Company to make repairs or repairs after the expiration of thirty days' notice to do so, the local authorities may make the same at the expense of such corporation, and such authorities may make such reasonable regulations and ordinances as to the rate of speed, mode of use of tracks and removal of ice and snow as the interest or convenience of the public may require.

Seventeenth—Any alteration which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, conduits, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Eighteenth—Should the grades or lines of the streets in which franchises herein granted be changed at any time during the term of this contract, the Company shall, at its own expense, change its tracks to conform with such new grades and lines, and during the construction of any public improvement upon said street, the Company shall take care of and protect the track at its own expense, all to be done subject to the direction of the President of the Borough of Queens.

Nineteenth—The Company shall at all times keep accurate books of account of the gross earnings from the privileges granted under this contract. The Company shall, on or before November 1st of each year, make a verified report to the Comptroller of the City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain a statement of the gross receipts from operation of the railway, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twentieth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever in either persons or property on account of the same, and the Company hereby agrees to pay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company, giving the Company notice and the right to intervene in any action or proceeding wherein such damage may be sought.

Twenty-first—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall file with the Comptroller of the City of New York the sum of ten thousand dollars (\$10,000), either in money or in securities to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, the payment of the annual percentages for the privilege hereby granted, the rendering of efficient public service at reasonable rates, the maintenance of the property in good condition throughout the full term of the grant,

the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railroad; and in case of default the performance by the Company of such terms and conditions, and such duties and obligations as may hereafter be imposed by the local authorities under this grant, or under the powers delegated by the Railroad Law, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the roadway, heating and lighting of cars, fenders, or wheel guards and watering of street pavements, or in case of failure to render efficient public service at reasonable rates, or to maintain the property in good condition, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of the violation of the provisions relating to those matters. In case of any default made upon the security fund, the Company shall, within thirty (30) days after written notice from the Comptroller, so to do, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars (\$10,000).

Twenty-second—No action or proceeding, or right under the provision of this contract shall affect any other legal rights, remedies or causes of action belonging to the City. The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Twenty-third—The words "notice" or "direction" wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided, shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

The Company agrees that notice printed in the City Record shall constitute sufficient notice within the meaning of this contract.

Twenty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers shall have all the powers, right and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-fifth—This contract is also upon the further and express conditions that the provisions of Article IV. of the Railroad Law applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the streets and highways and the surface railroads operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

ments and change of terminal are shown upon a certain map, dated June 17, 1908, entitled:

"Survey, Map and Profile of the New York, Westchester and Boston Railway Company for New York County, New York, Section 1, Section 2 and Section 3."

—and signed by the Chief Engineer, President, Secretary and ten directors; which map was filed in the office of the County Clerk of New York County on June 17, 1908; and

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, agent thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check, upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money in the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either included in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the tender envelope in which to include the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be retained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
