DEPARTMENT OF HEALTH.

REPORT FOR WEEK ENDING JULY 18, 1914.

DONATES ICE TO SAVE THE BABIES.

Each year, with the coming of hot weather, there is an appalling increase in the number of infant lives sacrificed; this is particularly the case when there is a continued hot wave, such as we are now experiencing. That all corporations are not soulless is shown by the fact that the Knickerbocker Ice Company has generously sent to the Department of Health over 5,000 booklets, each good for a month's supply of ice, for free distribution among the deserving poor.

This is the sixth year in which this very practical aid has been donated to the work of saving infant lives in this city. The number of books of free ice coupons given out by nurses of the Department of Health in previous years is as follows:

1909.....	600 books
1910.....	819 books
1911.....	876 books
1912.....	1,059 books
1913.....	994 books

During the year 1913 the distribution was made through the Babies' Welfare Association, so that all agencies affiliated with that association benefited by the donation of free ice to the needy families under their supervision.

MICROSCOPICAL DIAGNOSIS OF CANCER.

Physicians desiring to have specimens of tissue examined by the State Institute for the Study of Malignant Disease, should observe the following directions for preserving the specimen:

Directions for Preserving Specimen.

Specimen should be put at once into 10 per cent Formalin in a wide-mouthed bottle. A piece the size of a chestnut is sufficient. This should be cut from the suspicious-looking area, viz.: where there seems to be a solid mass of tissue whitish or grayish in color. Avoid the broken down areas. A section from the edge of the tumor is the best. In flat tumors, as those from the skin, stomach, intestine, etc., the specimen should be cut at right angles to the surface, that the relation of the normal tissue may be preserved. Where metastases are present a portion of these should be included, marked properly or put in a separate bottle. When two pieces from different parts of a growth are placed in one bottle cut them of different shape and properly describe them, stating from where taken.

Specimens should be securely packed to prevent breakage. The following information should be supplied:

Name.....	Age.....	Sex.....	Married.....
Physician's name and address.....			Single.....
Clinical diagnosis.....			
Origin of tumor.....			
Description of tumor as to duration, size, shape, rapidity of growth, etc.....			

WHAT IT COSTS TO PRODUCE SMALLPOX VACCINE.

The smallpox vaccine sold by the Department of Health is prepared at the Department of Health Laboratory at Otisville, N. Y. After collection, the original product is sent to the Vaccine Laboratory, foot of E. 16th street, where it is prepared for use. One gram of the vaccine pulp is ground, diluted with 4cc. of glycerine and tested. The virus is then drawn into capillary tubes, or vials of different sizes, dated, numbered and kept on ice until used. It is estimated that one cc. of the finished product costs 80 cents and that one cc. of bulk vaccine will fill 80 capillary tubes, each containing sufficient virus for one vaccination.

The outfit for one vaccination, including a capillary tube filled with virus, a sterilized needle encased in a paper cylinder, rubber bulb, wooden cylinder box, cardboard carton costs to produce 6 cents, an outfit for five vaccinations with the vaccine in individual capillary tubes costs 16 cents, and one for ten vaccinations 27 cents. An inspector's outfit for ten vaccinations, including one vial of virus, needles, etc., costs to produce 22 cents. A similar outfit for fifty vaccinations costs 90 cents.

70,729 capillary tubes for single vaccinations were distributed in 1913. Cash receipts, \$7,269.68, the money being turned into the city treasury.

DAILY LIST OF INFECTIOUS DISEASES.

Beginning July 13th, 1914, the daily printed list of Contagious Diseases which the Department furnishes to schools, libraries, Branch Offices, medical inspectors, nurses and institutions, and which formerly was printed in four sections, was radically revised and combined into a single list.

This change is a distinct economy in several ways; it reduces the number of files kept in the various offices, effects a substantial saving in postage and gives at a glance a comparative picture of the incidence of Contagious Diseases in the various boroughs.

NURSES' SERVICES BY THE HOUR.

The Central Registry, maintained by the New York County Registered Nurses' Association announces the establishment of an "Hourly Nursing Service" for those who require the skilled attention of a trained nurse to administer certain necessary parts of the treatment, but who do not need to go to a hospital or to have the constant care of a trained attendant. Inasmuch as the charge is only seventy-five cents per hour, it is certain that this service will meet with a hearty welcome both from physicians and patients. We recommend the new policy to nurses generally.

NOTICE TO PATENT MEDICINE FAKERS.

The sale of "fake" patent medicines is forbidden in this City under a section of the Sanitary Code, which declares it to be a misdemeanor to make any false or deceptive representation as to the quality, purpose or effect of any drug, medicine, decoction, drink or other article intended to be taken as medicine. Vigorous efforts to enforce this section of the Code have not heretofore been made by the Department of Health, but it is felt that the interests of the public demand that attention be given to this matter, and it is believed that public opinion is now sufficiently enlightened to insure the success of a determined attack upon those who, by fraudulent and misleading statements, not only cheat the unwary, but injure the health of so many persons as to impair the vitality of the community as a whole.

If it should be found that the Code, as it now stands, or the ordinance against fraudulent advertising recently enacted by the Board of Aldermen, is not sufficiently clear and definite to enable the Department, with the aid of the Courts, to put a stop to the extravagant claims of patent medicine fakirs, the Department will consider the advisability of adopting an amendment similar to the recently enacted law of the Philippine Islands, where the sale of patent medicines and secret formulæ is absolutely forbidden, upon grounds of public health. Perhaps there is no better avenue of approach to the cure of this evil than the avenue of publicity. If the manufacturer of a patent medicine is compelled to name the ingredients of his mixture, and if such ingredients prove to be either inert substances, as they often are, or harmful drugs or stimulants, as they are known often to be, it will be difficult to claim for preparations concocted of such ingredients, the miraculous powers that continue to be ascribed by daring and unscrupulous advertisers to many of the secret formulæ now on the market.

In dealing with the patent medicine evil, the Department asks for and expects to receive the cordial support of conscientious druggists.

FIELD WORK BY ATTENDING PHYSICIANS.

One of the difficult problems confronting the Bureau of Infectious Diseases is efficient organization of the field work.

The opinion of the leading authorities on health and on social welfare is so markedly in favor of intensive work in small districts and so opposed to division and consequent reduplication of effort, that any attempt to carry on the field work on the old basis, namely, by a separate force for the Division of Contagious Diseases and for the Division of Communicable Diseases, seems unwise.

Each nurse, therefore, has been required to familiarize herself with all the activities and routine procedures of the entire Bureau, and now receives daily assignments relative to all infectious diseases in her sub-district.

Early in the year it became apparent that visits to tuberculosis patients were falling in arrears, under press of the more urgent cases of contagious diseases. While this was doubtless due somewhat to the unfamiliarity, on the part of the nurse, with some part of her work, it is chiefly caused by lack of sufficient nursing force to accomplish the work assigned it, since the situation has not improved with increasing experience and better organization. It is also evident that the diminution of contagious diseases during the summer months will avail little, for vacations must be taken and the usual fall increase in typhoid fever cases adds to the number of inspections necessary. The nursing staff must be increased, if all this work is to be continued.

In order to use as effectively as possible the present available force, instructions have been issued to all Physicians-in-Charge of Tuberculosis Clinics, to use their medical staff for field work, whenever the ordinary work of the clinic happens to be light.

PROGRESS AGAINST VENEREAL DISEASES.

The Department work against venereal diseases is increasing by leaps and bounds. Since the venereal diagnostic clinics were established on May first, 1912, the average daily attendance has increased from two or three patients a day to an average of more than 38. At the present time there are being made about 120 Wassermann tests a day and 30 complement fixation tests for gonococcus infection. Seventy-five per cent. of the specimens examined are sent in by private physicians and institutions.

During the month of May, 1914, 127 patients were seen by the Medical Adviser and of these 15 had been previously treated by quack physicians. This is a very important phase of the anti-venereal work. It is being reinforced by advertising in one of the afternoon papers and by placards placed in toilets of saloons and various other places in the City. The advertisements and placards call attention to the fact that confidential advice regarding gonorrhea, syphilis and sex diseases can be obtained free at Room 10, Department of Health, No. 149 Centre Street, certain days of the week from two to four p. m.

A very difficult problem in connection with the work of the Medical Adviser is the reference of patients seeking treatment and having no family physician. Patients obviously entitled to clinic treatment are referred to one of the various genito-urinary clinics maintaining the standard set by the Associated Out-Door Clinics. Patients able to pay a private physician are given a list of the attending physicians of the various genito-urinary and dermatological clinics maintaining the required standard as already mentioned.

Popular education, of course, is indispensable. Cards of instruction to those having gonorrhea or syphilis have been printed and there is now in press a circular on the dangers of these diseases and on the methods of the advertising quack.

HOW TO WRITE A PROPER DEATH CERTIFICATE.

(Article No. 5.)

Many of the practicing physicians of this city are not fully advised as to their legal responsibility in furnishing or refusing certificates where death has occurred in their practice. The deaths occurring in this city may be divided into two classes: those which come under the jurisdiction of the Coroners of the City, who furnish the certificates of death to the Department of Health, and those in which death results from natural causes, the physician in attendance being responsible under the law to this Department for the filing of the death certificate.

Taking up the so-called "Coroners' cases," the following State laws which apply are quoted:

"When in the City of New York any person shall die from criminal violence, or by a casualty, or suddenly when in apparent health, or when unattended by a physician, or in prison, or in any suspicious or unusual manner, the coroner shall subpoena one of the coroner's physicians, who shall view the body of such deceased person, externally, or make an autopsy thereon as may be required."

"It shall be the duty of any citizen who shall become aware of the death of a person who shall have died in the manner stated in the previous section, to report the death forthwith to one of the coroners or to the clerk in attendance at the coroner's office, or to any police officer, and such officer shall without delay notify the coroner or clerk in attendance at the coroner's office, of such death; * * *"

The physician is sometimes in doubt as to whether certain cases that come to his attention should be reported to the Coroner, or whether in such cases he shall write

a certificate of death for filing at the Department of Health. We may consider these points in the order following the section quoted above:

Deaths from Criminal Violence.

The duty of the physician is very plain in these cases; in fact, if possible, he must notify the Coroner's Office before the death of the patient in order that an ante-mortem statement may be obtained.

Deaths Resulting from Casualty.

Deaths resulting from casualties need not be referred to the Coroner's Office in certain cases: for instance, if a death results from septicaemia following the scratch of a pin, or some such minor abrasion; the Department of Health will accept the certificate of death issued by the physician. Although technically such cases may be regarded as under the Coroner's jurisdiction, practically it is inadvisable to construe the law so strictly as to include cases where the originating cause is of such innocent origin. Again, if an extremely old person fractures the neck of the femur while turning in bed, the case is not to be referred to the Coroner, but the certificate of death presented for filing at the Department of Health should contain full information concerning the case. On the other hand, deaths resulting from major accidents, should always be reported to the Coroner's Office. In case of doubt, it is always advisable to telephone to the office of the Registrar of Records at the Department of Health and be guided by its advice.

Sudden Deaths While in Apparent Health.

It is evident from the language stated that all these cases come under the jurisdiction of the Coroner and should at once be reported at the Coroner's Office.

Deaths Occurring When Unattended by a Physician.

Occasion arises in medical practice in this city where the physician, by reason of the hopelessness of the case, and his disinclination to exact fees from extremely poor patients, makes an arrangement with the relatives or friends to keep in touch with the case, to be apprised of the condition of the patient, and to suggest and prescribe remedies without actually visiting and seeing the patient. Certificates of death written by the physician in these cases will be accepted by the Department of Health, provided the disease is one of long standing, and the physician supplies in addition to the certificate of death, a note stating that the case was a hopeless one and that no accident occurred since the last time he saw the patient alive.

Deaths in Prison.

Deaths in prison, as a matter of routine procedure, are always referred to the Coroner's Office for investigation.

Deaths in Any Suspicious or Unusual Manner.

If there exist in the mind of the physician a suspicion that there has been foul play, or that the death of the patient has been hastened by the negligence or the actions of any individual, immediate notice should be sent to the Coroner. Deaths in an unusual manner may or may not be Coroner's cases, and it is suggested that in these cases the physician telephone to the office of the Registrar of Records in the Department of Health and act on the advice there given.

The question is often asked as to what period of medical attendance is required before death, in order that the physician may file a certificate of death. Under the law no specified time is required; each individual case must be governed by the circumstances or condition which may affect the acceptance or refusal of a certificate from the physician. The Department of Health holds that if a physician has attended a person within an hour of death, even though he has never attended the person before, a certificate of death will be accepted if the physician is able to make a positive diagnosis.

Notice of Public Hearing.

FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN PURSUANT to law that at a meeting of the Board of Estimate and Apportionment held July 2, 1914, the following petition was received:

Kings County Refrigerating Co. (Wallabout Stores), 22-38 Hall Street at Wallabout Market, Brooklyn, N. Y., June 25, 1914.
Board of Estimate and Apportionment, New York City:

Gentlemen—On August 13, 1907, we entered into a contract under a franchise granted by your Honorable Board for laying certain pipes and supplying refrigeration to the Wallabout Market District. This franchise was for a period of 15 years with certain privileges of renewal for ten years on the following basis:

\$500 cash payment.
An annual payment for the first five years, 5% of gross earnings with a minimum of \$750.
An annual payment for the second five years, 6% of gross earnings with a minimum of \$1,000.
An annual payment for the third five years, 7% of gross earnings with a minimum of \$1,300.
25 cts. per running foot of conduit laid.
\$2 for each manhole.

At the time this contract was made our Company had no way of ascertaining as to whether this contract would be favorable one or not other than the fact that it was the best that could be obtained from your Honorable Board on the recommendations of the Bureau of Franchises.

The Bureau of Franchises undoubtedly at that time were not fully conversant with the value to the grantee of such a franchise and especially as applied to a scattered district.

Our Company installed machinery and equipment at the expense of about \$100,000 and have given to the district in the territory covered by our franchise good service to all that have asked for it.

This operation has resulted in a loss to the Company in direct operation during the six years of over \$110,000, as shown by an audit made by Certified Public Accountants employed at the direction of a committee, independent of the officers, which was appointed by the stockholders to investigate the causes of the Company's depressed financial condition. There is over and above this amount a considerable additional loss on depreciation of machinery and equipment.

Early this spring the stockholders and directors of the Company found themselves in

financial difficulties, their quick liabilities being several times more than their quick assets, and the fixed assets being fully covered by mortgage and their first mortgage bonds being sold as low as 50 cts. on the dollar.

The Company at that time was indebted to the City in Taxes on its real estate, and on this franchise to the extent of about \$13,000. While it was argued by a great many that the Company should be liquidated, it was finally decided by men who were active in the welfare of Brooklyn and Wallabout Market to get together and pay off the indebtedness of the Company and endeavor to put the business on a paying basis; such a Committee has been actively at work for the last three months, and on June 11, 1914, the committee turned over to the Honorable W. H. Prendergast, Controller, the last payment of the taxes on this franchise amounting to about \$3,600, covering 25 cts. per running foot for four years, from 1910 to 1914.

In consideration of the foregoing and in view of the terms under which other franchises are now being granted in more densely built up sections of New York City, we hereby request that your Honorable Board grant us a franchise for a term of fifteen (15) years, with the privilege of renewal on re-valuation of ten years, based on the following principal points:

Annual payment 1st 5 years: 2% of gross earnings with a minimum of \$500.

Annual payment 2nd 5 years: 3% of gross earnings with a minimum of \$600.

Annual payment 3rd 5 years: 3% of gross earnings with a minimum of \$700.

Payment for conduit per linear foot: 10c.

Payment for each manhole: \$2.

Maximum rates to be charged for refrigeration to be furnished under properly insulated conditions: 32 degrees Fahrenheit, freezing:

500 cu. ft. or less, 4c. per month.

500 to 1,500 cu. ft. 2c. per month.

1,500 to 2,500 cu. ft., 1½c. per month.

2,500 cu. ft. and over, 1c. per month.

The basis of percentage on gross earnings noted above is in line with the franchises that are at present being given by the City in the densely populated section of lower Manhattan, and the minimum payments specified are greater than are provided for in those franchises.

The rate of 10c. per linear foot is asked for as equitable on account of the long distances of pipe which are required in this district as compared with the densely built up section of lower Manhattan; for instance, on one section of our line 1,300 feet long, there are only four customers, and on another section 700 feet long, there is only one customer. Many of these boxes are very small and the franchise tax per running foot of piping is entirely out of proportion to the returns.

It will be necessary in the near future to replace the present pipe line system with a new brine pipe line of larger diameter, to overcome the friction consequent upon the long distances the pipe is carried; and a large amount will have to be expended for new machinery.

It is generally admitted that the pipe line refrigeration which we have supplied to Wallabout Market is a public necessity, and it has been the most important single factor in the success of this Market, and if the service can be continued, it will still further aid in the growth of a very important public institution.

As before stated the men connected with this reorganization are paying to the City the full amount agreed upon, and are making an endeavor to keep the Company a going concern in the belief that your Honorable Board will give relief from the burden of the onerous terms of the franchise which has resulted in such great losses to the Company.

Very truly yours,
KINGS COUNTY REFRIGERATING CO.

P. MAXWELL, SAYFORD, Treasurer.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES

thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-ends, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
