prepared drange in the system of pulloing the small parks will supply enough men to police the two per tert. The cherne parkway, in the Borough or Broaklyn, from Prospect Park to Coney Island, bas been shown evened by the Park Paller. These own will be transferred to the precents through which the Orean parkway passes. The Eastern parkway, extending from Prospect Park to Easter shown has been similarly over d, and the men thereon will also be transferred to the precincts through which the Paners parkway passes, while the parkway will be brought within the boundary lines of the president. The Borough of Queens I have decided to divide into six precincts, forming one Iospection Pharter, and the boundary lines of the Seventeenth and Twentieth Precincts of the Borough of Broaklyn will be changed to optend into the Borough of Queens, taking in that portion formerly known as Fast Williamburg, for the reason that there is ample accommodation for men in the Seventeenth and Twentieth Precincts, and the accommodations for men in the Newtown Precinct any Linear.

With further reference in the Bonogh of Queens, I beg to call your attention to a report which I made us you on January 30, 1505, in which I recommended that three hundred and ten Parcolners he assigned to duey there. I am still of the opinion that that number is needed. The Baranett of Richmond will constitute one precinct, with three sub-precincts and stations, and will be included with the precincts comprising the Second Inspection Precinct.
