Certificate No. 59—I hereby certify that the work done and materials furnished under contract dated February 21, 1900, for the construction and operation of the Rapid Transit Railroad of The City of New York, for which requisition No. 59, of date July 31, 1905, is made by John B. McDonald, the contractor, has been done and furnished, in accordance with the terms of the contract to the value of sixty-seven thousand dollars (\$67,000); that such value has been ascertained relatively to the contract value of the whole work, and that no certificate has previously been made for such work and materials.

Chief Engineer of the Board of Rapid Transit Railroad Commissioners.

NEW YORK, August 10, 1905.

BION L. BURROWS, Esq., Secretary, Rapid Transit Board:

DEAR SIR—On July 31 last I received from the contractor Requisition No. 59, for work done and materials furnished under contract dated February 21, 1900 (Contract No. 1), such requisition covering regular work performed during the month of June and amounting to \$67,000.

Referring to the account of extra work—Contract No. 1—I find the total amount paid to January 31, 1905 (the date of last payment), to be \$2,894,314.75. Upon estimating the total amount of extra work done to June 30, 1905, I find its value to be \$2,834,889.50, thus making an overpayment of \$59,425.25, which overpayment is due mainly to the transference of various items of work from the account of extra work to that of regular work. In order, therefore, to render to the contractor the amount of money due him for work performed under Contract No. 1 during June, 1905, I have deducted this overpayment of \$59,425.25 on account of extra work from the amount due on regular work—viz.: \$67,000—and respectfully recommend that the balance, \$7,574.75, be approved by the Board as the net amount due under Requisition No. 59, on account of work done on Contract No. 1 during the month of June, 1905.

Very truly yours,

(Signed) GEORGE S. RICE, Chief Engineer.

The following resolution was moved:

Whereas, John B. McDonald, the contractor, has made requisition on this Board, dated July 31, 1905, and numbered Requisition No. 59, for work done and materials furnished under contract dated February 21, 1900, for the construction and operation of the Rapid Transit Railroad of The City of New York, to the 30th day of June, 1905, amounting to the sum of sixty-seven thousand dollars (\$67,000); and

Whereas, The Chief Engineer of the Board has made a report thereon, dated August 10, 1905, showing that an overpayment of fifty-nine thousand four hundred and twenty-five dollars and twenty-five cents (\$59,425.25), has been made under the said contract for extra work to the 30th of June, 1905, leaving a balance of seven thousand five hundred and seventy-four dollars and seventy-five cents (\$7,574.75), which he reports to be the net amount due under the said contract to the said date, said amount having been ascertained relatively to the contract value of the whole work, and no certificate having previously been made for such work and materials.

Resolved, That this Board hereby approves the said amount as so certified by the Chief Engineer, to wit: seven thousand five hundred and seventy-four dollars and seventy-five cents (\$7,574.75), and directs that a voucher be drawn in due form on the Comptroller for the said amount.

Ayes—The Vice-President, Mayor, Comptroller and Commissioners Langdon and Claflin.

Nays—None.

McDonald, the contractor, has been done and furnished in accordance with the terms of the contract to the value of one hundred and fifty-one thousand, nine hundred and seven dollars and one cent (\$151,907.01); that such value has been ascertained relatively to the contract value of the whole work, and that no certificate has previously been made for such work and materials.

Chief Engineer of the Board of Rapid Transit Railroad Commissioners.

August 23, 1905.

Mr. BION L. BURROWS, Secretary, Rapid Transit Board:

DEAR SIR—I transmit herewith, duly approved, Contractor's Requisition No. 6, for work done in connection with the laying of ducts on Contract No. 1, from November 1, 1904, to April 30, 1905, amounting to \$151,907.01. I have formally approved this requisition, and desire to state that the various charges made on account of laying these ducts and aggregating the amount mentioned above have been carefully checked from the records on file in the office of the contractor, and it is possible that as the account contains numerous charges under the heading of extra bills, which may include expenditures not wholly due to the laying of ducts, but partially due to regular or extra work, it may be wise for the Board to make at this time only a partial payment, on account, of, say, \$100,000.

Yours very truly,
(Signed) GEORGE S. RICE, Chief Engineer.

The following resolution was moved:

Whereas, John B. McDonald, the contractor, has made requisition on this Board, dated July 12, 1905, and numbered Requisition No. 6, Ducts, for extra work done and materials furnished under contract dated February 21, 1900, for the construction and operation of the Rapid Transit Railroad of The City of New York, to the 30th of April, 1905, amounting to the sum of one hundred and fifty-one thousand nine hundred and seven dollars and one cent (\$151,907.01); and

Whereas, George S. Rice, Chief Engineer, has certified that the work done and materials furnished has been done and furnished in accordance with the terms of the said contract; that such value has been ascertained relatively to the contract value of the whole work, and that no certificate has previously been issued for such work and materials, and has also recommended that, owing to the possibility that the said amount might include certain payments which should be otherwise charged under the said contract, only the sum of one hundred thousand dollars (\$100,000) should be now paid on account of the said total sum;

Resolved, That this Board hereby approves of the said requisition to the extent only of one hundred thousand dollars (\$100,000), such sum to be paid on account thereof, and directs that a voucher be drawn in due form on the Comptroller for the said sum of one hundred thousand dollars (\$100,000).

Ayes—The Vice-President, the Mayor, the Comptroller and Commissioners Langdon and Claflin.

Report of the Chief Engineer was read as follows:

NEW YORK, August 24, 1905.

JOHN H. STARIN, Esq., Vice-President, Rapid Transit Board:

DEAR SIR—I respectfully report progress in connection with the studies that are being made for the ventilation of the subway. The careful observations which we have been making of the temperature, humidity, carbon dioxide and bacteria along the whole line of the subway are being continued and extended.

The air inside of the subway has generally been slightly warmer and drier, freer from bacteria, and has contained more carbon dioxide than the outside air; the differences being dependent upon the conditions of the outside air and the amount of travel on the trains.

We have been conducting the experiments principally at the stations, but more recently these examinations have been made to include points between the stations, samples of air having been taken for chemical analyses at a great many places.

We have also made some observations in the men's toilet rooms in the different stations, to obtain the temperature and the humidity in these rooms, in order to compare with the stations themselves. These temperatures have usually been intermediate between the temperatures of the stations and those of the outside air. The humidity has generally been slightly higher in the toilet rooms than in the stations or above ground.

We are pursuing this work with a great deal of care, and hope before long to be able to come to some definite conclusions to afford the fullest measure of relief that can be given at present. At the express stations there are pockets of air which are not readily changed by the movement of the trains, and we have made provisions to render the air less objectionable by having holes cut in the vault lights over the main express stations.

Very truly yours,
(Signed) GEORGE S. RICE, Chief Engineer.

Report of the Chief Engineer on the progress of the work in Joralemon street was read as follows:

NEW YORK, August 24, 1905.

JOHN H. STARIN, Esq., Vice-President, Rapid Transit Board:

DEAR SIR—It is with pleasure that I report progress in reference to the restoration of the stoops and the street surface on Joralemon street, Brooklyn, caused by the work of the tunnel, which has been in a bad condition for a long time. Arrangements have been made by which the contractor is replacing the stoops for a considerable portion of the street; and the pavement on Joralemon street is to be restored with asphalt,

from Clinton street to Hicks street, the City doing one-half of the work and the contractor the other half.

A reorganization of the New York Tunnel Company has taken place following the death of Mr. Onderdonk, who was the principal figure in connection with this work. Progress is being made not only in the restoration of the defective work, but the conditions existing now under the water are such that very much better results can be obtained. From the commencement of operations there has been trouble occasioned by loss of air, but the material now is of such a nature that the air can be maintained with a very small amount of the machinery in use. Steps will be taken immediately to continue the driving of the south tunnel, which has been delayed owing to the necessity for having a large amount of compressed air for the two headings.

I now look for much faster progress on this work, and I see no reason, if conditions continue as at present, why this work of tunneling should not be completed within the next nine or ten months.

Very truly yours,
(Signed) GEORGE S. RICE, Chief Engineer.

The following are the several communications transmitted, as authorized, to the Board of Aldermen and Board of Estimate and Apportionment, and not hitherto printed in these minutes, with resolutions laying out additional rapid transit lines:

To the Honorable the Board of Aldermen of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York heretofore, and on or about the 4th day of February, 1897, submitted to the Common Council of The City of New York, as then constituted, a report with respect to then proposed rapid transit railway in the said City.

After the said report was made, the routes and general plan for the rapid transit railroad above mentioned were duly approved by the municipal authorities of The City of New York and by the Appellate Division of the Supreme Court for the First Judicial Department; and on the 21st day of February, 1900, a contract for the construction and operation of said rapid transit railroad was duly made with John B. McDonald.

The said railroad is now nearly completed, and the greater part of it has been in operation for a period of about six months.

On or about the 10th day of July, 1902, the said John B. McDonald assigned the operating part of the said contract to the Interborough Rapid Transit Company, which company guaranteed the performance by the said John B. McDonald as such contractor of the other provisions of the said contract.

The said Interborough Rapid Transit Company desires, and the said Board of Rapid Transit Railroad Commissioners having duly made the enquiries and investigation proper in the premises, approves an addition to the routes and general plan for the said railroad (such addition being known as the Van Cortlandt Park Extension) and has determined and established the said addition by resolutions adopted the 12th day of May, 1905, by the concurrent vote of seven of its members. The said resolutions and the addition to the routes and general plan therein mentioned, are now submitted to your Honorable Body for approval.

The western branch of the railway as now authorized crosses Spuyten Duyvil creek at Kingsbridge into the Borough of The Bronx, and is described in the above mentioned route and general plans as running "over Kingsbridge avenue or Broadway as now proposed to Riverdale avenue, and thence easterly over Riverdale avenue to a point within five hundred feet of the present Kingsbridge station of the New York and Putnam Railroad Company."

The proposed addition consists in an extension running along Broadway from its intersection with what was formerly Riverdale avenue—now called Two Hundred and Thirtieth street—to a point about 288 feet north of Two Hundred and Forty-second street, opposite Van Cortlandt Park. It is included as "Route No. 14" in the comprehensive scheme which this Board has provisionally approved, a copy of which is sent this day to your Honorable Body with another communication.

The railway heretofore authorized and now almost entirely constructed is an elevated structure north of Fort George, and the proposed extension, if built, would necessarily be also an elevated structure. This Board has considered whether it would not be possible to build such an extension either along some other route or by means of a subway, but they are satisfied that either of these measures would be impracticable. The portion of Broadway in question is at present very little built upon, and the elevated structure proposed would merely be a continuation of the one which already exists in the same street.

A large and increasing number of citizens desire to reach Van Cortlandt Park, and the extension now proposed would therefore be of considerable public benefit. It would also enable more satisfactory terminal facilities to be provided than would otherwise be practicable.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be signed by its President and Secretary this 15th day of May, 1905.

A. E. ORR, President.
BION L. BURROWS, Secretary.

[Resolution Adopted May 12, 1905—Van Cortlandt Park Extension—Enclosed.]

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,
No. 320 BROADWAY, NEW YORK.

To the Board of Estimate and Apportionment of The City of New York:

On Tuesday, the 16th day of May, 1905, the Board of Rapid Transit Railroad Commissioners for The City of New York transmitted to the Board of Aldermen of The City of New York copies of resolutions duly adopted by the said Board of Rapid Transit Railroad Commissioners on the 12th day of May, 1905, approving an addition to the routes and general plan of the Rapid Transit Railroad established by resolutions of said Board adopted January 14 and February 4, 1897. The said addition is known and described as "Van Cortlandt Park Extension."

The said Board of Aldermen did not on or before the 27th day of May, 1905, take any final vote upon a resolution to approve such plans and conclusions, or to consent to the construction of a railway or railways in accordance therewith.

On the said 27th day of May, 1905, a certain act of the Legislature of the State of New York was approved by the Governor, which act is entitled "An Act to further amend chapter four of the laws of eighteen hundred and ninety-one, entitled 'An Act to provide for rapid transit railways in cities of over one million inhabitants.'" By its terms the said act took effect immediately.

The said act amends section 5 of the Rapid Transit Act, and among other things provides as follows:

"The board of estimate and apportionment of the city of New York shall, with respect to that city, be hereafter for all purposes of this act and be deemed to be the local authority in control of the streets, roads, bridges, viaducts, highways, avenues, boulevards, driveways, parks, parkways, docks, bulkheads, wharfs, piers and public grounds and waters which are within or belong to the said city; and the consent of such board of estimate and apportionment and the mayor, without the consent of the common council, board of aldermen or other board or officer of the city, shall be the only consent of local authorities required hereunder."

It also provides that the said amendatory act and all amendments thereby made to the original act

—shall be applicable to every grant, franchise or contract heretofore made, authorized or issued by the said board of rapid transit railroad commissioners, but not yet consented to by the common council or board of aldermen of the city, as well as to all grants, franchises and contracts hereafter made, authorized or issued by the said board of rapid transit railroad commissioners."

The said Board of Rapid Transit Railroad Commissioners now transmits to your Honorable Body the annexed certified copies of the said resolutions adopted as aforesaid on the 12th day of May, 1905. There is also annexed hereto a copy of a communication dated the 15th day of May, 1905, which was addressed to the Board of Aldermen, briefly describing the proposed extension and stating the reasons why it was thought desirable.

The approval and consent of your Honorable Body to the proposed extension as set forth in the resolutions, of which copies are now transmitted, is hereby requested.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be signed by its President and Secretary this 15th day of June, 1905.

A. E. ORR, President.
BION L. BURROWS, Secretary.

To the Honorable the Board of Aldermen of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York was heretofore duly organized pursuant to chapter 4 of the Laws of 1891, as amended, and since such organization it has conducted the inquests and investigations necessary to determine whether it is for the interest of the public and of the City that a rapid transit railway or railways for the conveyance of persons and property should be established therein; and after such inquests and investigations has duly determined by resolutions adopted the 18th day of May, 1905, by the concurrent vote of at least six of its members, that a rapid transit railway hereinafter described, in addition to any already existing, authorized or proposed, is necessary for the interest of the public and the City, and has duly determined and established the routes thereof and the general plans of construction; and it herewith transmits to your Honorable Body certified copies of the routes and general plans so determined and established.

Briefly stated, the proposed route runs through Thirty-fourth street, in Manhattan, from the East river to the Hudson river, passing under the present subway in Fourth avenue and at a sufficient depth under the several North and South avenues to permit other subways to be constructed over it. It will have no track connections with any rapid transit lines in Manhattan, but it is expected that joint stations will be placed at the intersections of the principal avenues so as to facilitate transfers of passengers. So far as this Board has power to do so, it will require free transfers at all such points.

A separate section diverges from the main stem of this route between Second and Third avenues and runs on a descending grade to pass under the East river to what was formerly Long Island City. The terminus in Queens will be in Jackson avenue, near Borden avenue. At this point the various trolley lines converge, thus making transfers easy to and from the proposed subway. A physical connection can also be arranged, if it is found desirable, with Route No. 10 in the comprehensive scheme of this Board—that being a subway uniting the Williamsburg Bridge with the Blackwell's Island Bridge.

The route now submitted to your Honorable Body is entirely in subway or tunnel, the rails being for the most part about forty feet under the surface. In all respects except its depth, and possibly some minor details of construction, it will be very similar to the subway now in operation.

It is proposed to take authority to build four tracks in Manhattan and two under the East river and in Queens.

This route forms a part of the comprehensive scheme which has already been called to the attention of your Honorable Body in a communication from this Board, dated May 15, 1905, relative to routes on Third, Lexington and Seventh and Eighth avenues in Manhattan.

It is intended to transmit to your Honorable Body at an early day the First avenue and Ninth avenue routes in Manhattan, and also several routes in Brooklyn and Queens and further routes in The Bronx. Reference may be made to the above communication for the general considerations which have led this Board to the adoption of so large a project, and also as to the intentions of the Board respecting contract requirements.

So far as the present route is concerned its advantages appear to be too obvious to call for argument. It will reach and serve such important points in Manhattan as the new Pennsylvania Railroad station, Herald square, with its neighboring shops and theatres; the Waldorf-Astoria Hotel, and the East Thirty-fourth Street Ferry. In Queens it will enable passengers by any of the steam or trolley lines now coming to the ferry to get quickly, and with only one change, to Manhattan; and it will carry them without change to points in Manhattan where they can transfer to any of the north and south railroads, and thus reach rapidly and conveniently any part of the City.

The proposed route is therefore submitted to your Honorable Body for approval.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be signed by its President and Secretary this 22d day of May, 1905.

A. E. ORR, President.

BION L. BURROWS, Secretary.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS, }
No. 320 BROADWAY, NEW YORK.

To the Board of Estimate and Apportionment of The City of New York:

On Tuesday, the 16th day of May, 1905, the Board of Rapid Transit Railroad Commissioners for The City of New York transmitted to the Board of Aldermen of The City of New York certified copies of the routes and general plans of certain rapid transit railways which the said Board of Rapid Transit Railroad Commissioners had duly adopted on the 12th day of May, 1905.

The said Board of Aldermen did not on or before the 27th day of May, 1905, take any final vote upon a resolution to approve such plans and conclusions, or to consent to the construction of a railway or railways in accordance therewith.

On the said 27th day of May, 1905, a certain act of the Legislature of the State of New York was approved by the Governor, which act is entitled "An Act to further amend chapter four of the laws of eighteen hundred and ninety-one, entitled 'An Act to provide for rapid transit railways in cities of over one million inhabitants.'" By its terms the said act took effect immediately.

The said act amends section 5 of the Rapid Transit Act and among other things provides as follows:

"The board of estimate and apportionment of the city of New York shall, with respect to that city, be hereafter for all purposes of this act and be deemed to be the local authority in control of the streets, roads, bridges, viaducts, highways, avenues, boulevards, driveways, parks, parkways, docks, bulkheads, wharves, piers and public grounds and waters which are within or belong to the said city; and the consent of such board of estimate and apportionment and the mayor, without the consent of the common council, board of aldermen or other board or officer of the city, shall be the only consent of local authorities required hereunder."

It also provides that the said amendatory act and all the amendments thereby made to the original act

—shall be applicable to every grant, franchise or contract heretofore made, authorized or issued by the said board of rapid transit railroad commissioners, but not yet consented to by the common council or board of aldermen of the city, as well as to all grants, franchises and contracts hereafter made, authorized or issued by the said board of rapid transit railroad commissioners."

The said Board of Rapid Transit Railroad Commissioners now transmits to your Honorable Body the annexed certified copies of the said routes and general plans adopted as aforesaid on the 12th day of May, 1905. The said routes are situated in Manhattan and The Bronx, and may be briefly described as the Third avenue route, the Lexington avenue route and Seventh and Eighth avenue route. There is also annexed hereto a copy of a communication dated the 15th day of May, 1905, which was addressed to the Board of Aldermen, briefly describing the said three routes, and explaining the general considerations which have actuated the Rapid Transit Board in determining and establishing the said routes and general plans. Copies of the maps therein referred to and of the final report of the Committee on Plans and Contracts of the Rapid Transit Board, setting forth the comprehensive scheme of which the routes now submitted form a part, are also sent herewith.

The approval and consent of your Honorable Body to the several routes and general plans now transmitted is hereby requested.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be signed by its President and Secretary this 1st day of June, 1905.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS, }
No. 320 BROADWAY, NEW YORK.

To the Board of Estimate and Apportionment of The City of New York:

On Tuesday, the 23d day of May, 1905, the Board of Rapid Transit Railroad Commissioners for The City of New York transmitted to the Board of Aldermen of The City of New York certified copies of the route and general plans of a rapid transit

railway which the said Board of Rapid Transit Railroad Commissioners had duly adopted on the 18th day of May, 1905.

The said Board of Aldermen did not, on or before the 27th day of May, 1905, take any final vote upon a resolution to approve such plans and conclusions, or to consent to the construction of a railway or railways in accordance therewith.

On the said 27th day of May, 1905, a certain Act of the Legislature of the State of New York was approved by the Governor, which Act is entitled, "An Act to further amend chapter four of the laws of eighteen hundred and ninety-one, entitled, 'An Act to provide for rapid transit railways in cities of over one million inhabitants.'" By its terms, the said Act took effect immediately.

The said Act amends section 5 of the Rapid Transit Act, and among other things provides as follows:

"The board of estimate and apportionment of the city of New York shall, with respect to that city, be hereafter for all purposes of this act and be deemed to be the local authority in control of the streets, roads, bridges, viaducts, highways, avenues, boulevards, driveways, parks, parkways, docks, bulkheads, wharfs, piers and public grounds and waters which are within or belong to the said city; and the consent of such board of estimate and apportionment and the mayor, without the consent of the common council, board of aldermen or other board or officer of the city, shall be the only consent of local authorities required hereunder."

It also provides that the said amendatory Act and all the amendments thereby made to the original Act

—shall be applicable to every grant, franchise or contract heretofore made, authorized or issued by the said board of rapid transit railroad commissioners, but not yet consented to by the common council or board of aldermen of the city, as well as to all grants, franchises and contracts hereafter made, authorized or issued by the said board of rapid transit railroad commissioners."

The said Board of Rapid Transit Railroad Commissioners now transmits to your Honorable Body the annexed certified copies of the said route and general plans adopted as aforesaid on the 18th day of May, 1905. The said route is situated in Manhattan and Queens, and runs under Thirty-fourth street and the East river to a point in Jackson avenue, Long Island City, near the southerly end thereof. There is also annexed hereto a copy of a communication, dated the 22d day of May, 1905, which was addressed to the Board of Aldermen, briefly describing the said route and explaining the general considerations which have actuated the Rapid Transit Board in determining and establishing the said route and general plans. Copies of the maps therein referred to are also sent herewith.

The approval and consent of your Honorable Body to the route and general plans now transmitted is hereby requested.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be signed by its President and Secretary this 1st day of June, 1905.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS, }
No. 320 BROADWAY, NEW YORK.

To the Board of Estimate and Apportionment of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York was heretofore duly organized pursuant to chapter 4 of the Laws of 1891, as amended, and since such organization it has conducted the inquests and investigations necessary to determine whether it is for the interest of the public and of the City that a rapid transit railway or railways for the conveyance of persons and property should be established therein; and after such inquests and investigations has duly determined by resolutions adopted on the 1st day of June, 1905, by the concurrent vote of at least six of its members, that certain rapid transit railways, hereinafter described, in addition to any already existing authorized or proposed, are necessary for the interest of the public and the City, and has duly determined and established the routes thereof and the general plans of construction; and it herewith transmits to your Honorable Body certified copies of the routes and general plans so determined and established.

The routes herein referred to are situated wholly within the Borough of The Bronx and comprise Routes 15, 16, 17, 18 and 19 as contemplated and described in the general scheme of the Board, which is set forth in detail in the final report of its Committee on Plans and Contracts submitted May 12, 1905, a copy of which has been transmitted with another communication to your Honorable Body.

The routes referred to in the resolutions now transmitted may be briefly described as follows:

Route 15—Jerome Avenue Subway.

This route consists of a four-track subway running through Jerome avenue, from about One Hundred and Sixty-fourth street near its southerly end, to the junction with Woodlawn road opposite Woodlawn Cemetery. From the southerly end of this line, two connections are provided with railways in Manhattan. The first is a three-track connection leading to the bridge over the Harlem river belonging to the Putnam Division of the New York Central and Hudson River Railroad Company. The other is a two-track subway passing under the East river to a point in Eighth avenue near One Hundred and Fifty-fourth street, so as to connect with a subway to be hereafter constructed under that avenue. A third spur is planned to connect with One Hundred and Fifty-third street near Cromwell avenue, so as to afford a means of junction with the proposed Lexington avenue subway as proposed by this Board.

Route 16—Jerome Avenue Elevated Road.

The line here proposed consists of a three-track elevated structure running northerly from Jerome avenue near its intersection with Clarke place, to the junction of Jerome avenue with Woodlawn road. It is provided that connections may be made with Route 15 above referred to, and also Route 17, being the Gerard avenue subway described below.

Route 17—Gerard Avenue.

This proposed line is a subway beginning at One Hundred and Thirty-eighth street and Third avenue, at which point connections can be made with several other lines planned by this Board, and running thence west through One Hundred and Thirty-eighth street and Gerard avenue to Jerome avenue, near its intersection with Clarke place. At this point a connection can be made either with the Jerome avenue subway of Route 15 mentioned above, or the Jerome avenue elevated road of Route 16.

Route 18—White Plains Road.

This route is practically an extension of the present rapid transit elevated viaduct. It is to begin at One Hundred and Seventy-seventh street and West Farms road near the Bronx Park, and thence a three-track elevated structure is planned to run along West Farms road, Morris Park avenue and White Plains road to the former village of Wakefield.

Route 19—Westchester Avenue.

This route begins at Third avenue and One Hundred and Thirty-eighth street, at which point connections may be made either with subways coming from Manhattan or with the Gerard avenue subway of Route 17 above described. From this point a subway is to run east under One Hundred and Thirty-eighth street to the Southern Boulevard. At that point the road is planned to emerge from the ground and continue as a three track elevated structure on the Southern Boulevard and Westchester avenue to the former Village of Westchester.

General Considerations.

The five routes briefly described above are set out in full technical detail in the resolutions annexed hereto. As already stated, they form a part of the comprehensive scheme contained in the final report of the Committee on Plans and Contracts of this Board, dated May 12, 1905, and they are submitted for approval at this time in accordance with the general policy which has been heretofore explained and urged upon the City authorities in the communication to the Board of Aldermen, dated May 15, 1905, relative to certain Manhattan and Bronx routes, a copy of which has been sent to your Honorable Body. It is unnecessary to repeat here what is fully set forth in the two documents above referred to.

The three main lines which these routes cover are Jerome avenue, White Plains road and Westchester avenue. These three divergent lines would not alone be practicable from an operating or financial point of view. They are of value chiefly as extensions of routes now or hereafter to be built in the Borough of Manhattan. With the exception of the White Plains road, these lines may form an extension of two or more systems, and it is believed that competition between bidders would exist as to these several lines.

The Board recommends that elevated structures be authorized along a part of Jerome avenue and along the White Plains road and Westchester avenue. It has done so with hesitation, but it is satisfied that its action in this regard is approved by a large majority of the residents of the Borough of The Bronx. The construction of subways in The Bronx, owing to the irregular and rocky character of the soil, would be extremely expensive, much more so, for example, than in the Borough of Brooklyn, where subway construction is comparatively cheap. It is thought, therefore, that while bids for elevated structures might be obtained, it would probably prove very difficult at the present time and probably for several years to come, to obtain bids for rapid transit subways. So far as the White Plains road is concerned, that would be merely an extension of an elevated structure already existing. And so far as the Westchester avenue road is concerned, it may be said that this road will be in appearance and effect simply an extension of the rapid transit viaduct already existing in other adjacent parts of both the Southern Boulevard and Westchester avenue.

The routes described in the resolutions hereto annexed, taken together with the other routes now existing or proposed by this Board, will form a rapid transit system which it is believed will be adequate to the needs of the Borough of The Bronx for many years to come, and which can readily be extended in that borough by means of spurs or connecting links.

The approval and consent of your Honorable Body to the several routes and general plans now transmitted is therefore requested.

In witness whereof, this Board has caused its seal to be hereto affixed and these presents to be signed by its President and Secretary this fifth day of June, 1905.

A. E. ORR, President.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,
No. 320 BROADWAY, NEW YORK.

To the Board of Estimate and Apportionment of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York was heretofore duly organized pursuant to chapter 4 of the Laws of 1891, as amended, and since such organization it has conducted the inquiries and investigations necessary to determine whether it is for the interest of the public and of the City that a rapid transit railway or railways for the conveyance of persons and property should be established therein; and after such requests and investigations has duly determined by resolutions adopted on the 1st day of June, 1905, by the concurrent vote of at least six of its members, that certain rapid transit railways hereinafter described, in addition to any already existing, authorized or proposed, are necessary for the interest of the public and the City, and has duly determined and established the routes thereof and the general plans of construction; and herewith transmits to your honorable body certified copies of the routes and general plans so determined and established.

The routes described in the resolutions annexed hereto are situated mainly in the Borough of Manhattan, but with extensions or possible extensions in the Borough of The Bronx. They comprise two of the routes contemplated in the general scheme of this Board as set forth in the final report of its Committee on Plans and Contracts submitted May 12, 1905, a copy of which has been transmitted with another communication to your Honorable Body. These routes may be briefly described as the First avenue route and the Ninth avenue route.

First Avenue Route.

This route begins in The Bronx, at the intersection of One Hundred and Thirty-eighth street and Alexander avenue. At or near this point connections can readily be made with various other rapid transit routes in The Bronx. From this point the line runs southerly along Alexander avenue or just west of it, so as to avoid the Willis Avenue Bridge approaches; and then passing under the Harlem river it turns into First avenue, near One Hundred and Twenty-fourth street. From this point it runs southerly under First avenue to First street, then curves easterly and runs under Essex, Rutgers and Madison streets to the New Bowery. It then runs southerly under the New Bowery and Pearl street by the side of the proposed Third avenue line, to a point near Dover street. From there it curves easterly under private property to Water street, and runs south under Water street to Pine street. It there passes under private property in the block bounded by Water street, Pine street, Wall street and Pearl street, and then runs under Beaver street, Bowling Green and Battery place to Greenwich street.

From the northerly end of the line at One Hundred and Thirty-eighth street a separate section is added, which will run northerly under Alexander avenue, Melrose avenue, Webster avenue and Claremont Park, with a loop under the park.

This line, as will be seen, affords a very direct connection between the more thickly settled parts of the Borough of The Bronx and the lower east side of the Borough of Manhattan.

Ninth Avenue Route.

This route is in effect a continuation of the First Avenue line, above described. It begins at the southern terminus of that line in Battery place and runs thence under Battery place and under West street to Gansevoort street, where it curves into Ninth avenue and then runs directly north under Ninth avenue to Morningside Park, and thence under Manhattan avenue, St. Nicholas avenue, Kingsbridge road, Broadway and Sherman avenue to Amsterdam avenue at about Two Hundred and Eleventh street.

The two routes referred to in this communication are set forth in technical detail in the resolutions of which copies are hereto annexed. Together with the Third avenue, Lexington avenue and Seventh and Eighth avenue routes, which are submitted to your Honorable Body with a separate communication, they form the additional north and south lines in the Borough of Manhattan which this Board now contemplates, and which are all that it believes can wisely be planned for at the present time. In the communication relative to the other Manhattan routes above referred to, and in the report of the Committee on Plans and Contracts of this Board above mentioned, the policy in regard to the new rapid transit routes which this Board recommends to the City authorities is set forth.

It is only necessary to add that the routes herewith submitted are all in subway, and that if they are approved, it is proposed to provide in the contracts for construction such modifications and improvements as the valuable experience already gained in such work may suggest.

The approval and consent of your Honorable Body to the two routes and general plans herewith transmitted is requested.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be signed by its President and Secretary this 5th day of June, 1905.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,
No. 320 BROADWAY, NEW YORK.

To the Board of Estimate and Apportionment of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York was heretofore duly organized pursuant to chapter 4 of the Laws of 1891, as amended, and since such organization it has conducted the inquiries and investigations necessary to determine whether it is for the interest of the public and of the City that a rapid transit railway or railways for the conveyance of persons and property should be established therein; and after such inquiries and investigations has duly determined by resolutions adopted the 25th day of May, 1905, and the 1st day of June, 1905, in each case by the concurrent vote of at least six of its members, that certain rapid transit railways hereinafter described, in addition to any already existing, authorized or proposed, are necessary for the interest of the public and the City, and has duly determined and established the routes thereof, and the general plans of construction; and it herewith transmits to your Honorable Body certified copies of the routes and general plans so determined and established.

The routes transmitted with this communication are situated mainly in Brooklyn, but they extend to and embrace important lines in the boroughs of Manhattan and Queens. They comprise all of the Brooklyn routes contemplated in the general scheme of the Board and set forth in detail in the final report of its Committee on Plans and Contracts, submitted May 12, 1905, a copy of which is this day transmitted with another communication to your Honorable Body—and they may be generally described as follows:

Brooklyn and Manhattan Loop Lines.

The system embraced under this title essentially consists of a railroad beginning in East New York at the eastern extremity of Broadway, and running straight through Broadway across the Williamsburg Bridge to Manhattan; and then running south in Manhattan to a series of tunnels between the Brooklyn Bridge and the Battery, which lead the line back to the Brooklyn Borough Hall Park; and from there easterly along Lafayette avenue and Gates avenue back to Broadway. In addition, a line running north and south through Bedford avenue, from the Williamsburg Bridge plaza to the Eastern parkway serves the purpose of an interior loop.

The route in Manhattan from the Williamsburg Bridge passes underground in Delancey street near Norfolk; and then runs west under Delancey street to the Bowery, and under the proposed extension of Delancey street to the corner of Centre and Grand streets. The line then continues southerly through Centre street and William street.

Provision is made for three tunnels, which may be described as the Old Slip Tunnel, the Maiden Lane Tunnel and the Beekman Street Tunnel.

The route of the Old Slip Tunnel is under William street, Exchange place and Beaver street in Manhattan and under Montague street in Brooklyn.

The Maiden Lane Tunnel begins at the corner of William street and Liberty street and then passes under Maiden lane in Manhattan and Pineapple street in Brooklyn.

The Beekman Street Tunnel passes under Beekman street in Manhattan and Cranberry street in Brooklyn.

All three tunnels, as above stated, come together at the northerly end of the Brooklyn Borough Hall Park. From this point a route runs under Willoughby street, the Flatbush avenue extension, Fulton street and Lafayette avenue to its intersection with Bedford avenue. From this point one line continues out Lafayette avenue to Stuyvesant avenue. Another line runs out through Bedford avenue and Gates avenue to Broadway.

There are several spurs forming a part of this route. The longest begins at Grand and Centre streets in Manhattan and runs west under Grand street and Desbrosses street to the Desbrosses Street Ferry and intersects all the north and south lines of travel in Manhattan. Another spur forms a connection, by means of a line under Canal street, with the Manhattan end of the Manhattan Bridge. A third connects with the City Hall loop of the present subway by means of a line under Beekman street. In Brooklyn, connections may be made with the subway now building in the neighborhood of Borough Hall Park and at the corner of Lafayette and Flatbush avenues.

The construction of such a system will undoubtedly serve to relieve the pressure upon the Brooklyn Bridge, as well as to utilize the possibilities of the Williamsburg Bridge. It will bring almost all parts of the Borough of Manhattan south of Houston street within easy reach of those parts of Brooklyn which may be described as East New York, Williamsburg, the Lafayette avenue district and the Bedford avenue district, besides affording numerous opportunities for transfers to the north and south lines in Manhattan.

Fourth Avenue.

This line extends from Fort Hamilton straight through Fourth avenue to Flatbush avenue, where connections can be made with the subway now constructing and with the Prospect Park extension heretofore authorized. Connections are also provided for with the Brooklyn and Manhattan loop lines above described, either directly by a line under Ashland place, or by a line curving from Fourth avenue and running under Atlantic avenue and Court street to the Borough Hall Park.

Manhattan Bridge Route.

This route is designed to occupy chiefly the Brooklyn and Manhattan Bridge and its approaches. Provision is made for a direct connection under the Flatbush avenue extension with the subway now constructing, at the junction of Flatbush avenue and Fulton street. Provision is also made for a connection with the loop line running easterly under Fulton street and Lafayette avenue. As stated above, a spur in Manhattan will run from the proposed loop line under Centre street to the Manhattan Bridge terminus in that borough.

By making the Manhattan Bridge an independent rapid transit route, this Board in making a contract for its construction and operation will be enabled to utilize it in connection either with the subway now constructing or with the Fourth avenue line, or with the Lafayette avenue line, or other lines, as may prove to be most desirable hereafter.

Eastern Parkway.

This line is planned to extend from the Prospect Park plaza under the Eastern parkway to East New York avenue. Near that point a loop begins, running out by Howard avenue, Hunterly road, Blake avenue and Georgia avenue, and returning by Pitkin avenue. A spur is planned to run along Georgia avenue to the intersection of East New York avenue and Broadway, where the line running to the Williamsburg Bridge will begin. An extension is also provided to run from the Prospect Park plaza along Flatbush avenue to Atlantic avenue, there connecting with the route to Court street and the Borough Hall Park.

The Eastern parkway route, in connection with the Broadway line, would form still another or exterior loop in Brooklyn, reaching a rapidly growing section of the City.

Brooklyn, Manhattan and Long Island City.

This system consists essentially of two lines: One running from the Williamsburg Bridge plaza to the Blackwell's Island Bridge through the boroughs of Brooklyn and Queens, and the other running from Williamsburg under the East river to Fourteenth street in the Borough of Manhattan.

The first of these two lines, beginning at the Williamsburg Bridge plaza, runs through Driggs avenue and Manhattan avenue and under Newtown creek; and then under Jackson avenue in Long Island City.

The other line begins at the corner of Lafayette avenue and Stuyvesant avenue, which is a point on the Lafayette avenue line above described. From there it runs through Stuyvesant avenue, Bushwick avenue, Metropolitan avenue and North Seventh street in Greenpoint and by a tunnel under the East river to the foot of Fourteenth street in Manhattan. Physical connections will be provided at the corner of Driggs avenue and North Seventh street, so that cars may be run from either Long Island City or the Williamsburg Bridge plaza direct to Manhattan by this route.

The route also includes two spurs; one running from the corner of Stuyvesant and Lafayette avenues under Lafayette avenue, Stanhope street and Cypress avenue to Palmetto street. Another from the junction of Metropolitan avenue and North Seventh street along Union avenue to Broadway.

Fourteenth Street, University Place, Greenwich Street, etc. (Manhattan).

This route is intended to be operated in connection with the route last above described, crossing from Greenpoint to the foot of East Fourteenth street. The line now proposed runs along Fourteenth street as far as Ninth avenue. Two branches run southerly. One runs under Ninth avenue, Greenwich street and Liberty street to connect with what has been called above the Maiden lane tunnel. The other branch from Fourteenth street runs through University place, Wooster street and Canal street to a connection at Canal and Centre streets with the Brooklyn and Manhattan loop lines above described.

It will be seen that these two routes last described form still another loop (taken in connection with the Lafayette avenue line), by which cars could be run in either direction between the boroughs of Brooklyn and Manhattan—not only reaching all points in Manhattan at least as far north as Fourteenth street, but also intersecting every north and south line of travel in that borough.

Jamaica Route.

This line is planned to start at the intersection of East New York avenue and Broadway—which is the beginning of the loop lines first mentioned above—and is to run out under Jamaica avenue to Grand street in the former village of Jamaica. When built, it will, in connection with the Broadway and Delancey street line, afford a very direct means of communication between Jamaica and the lower part of the Borough of

Manhattan, by means either of the Broadway or the Eastern parkway lines in Brooklyn, and will also enable passengers to reach almost any part of Brooklyn.

General Considerations.

The seven routes briefly described above are set out in full technical detail in the resolutions annexed hereto. As already stated, they form a part of the comprehensive scheme contained in the final report of the Committee on Plans and Contracts of this Board dated May 12, 1905; and they are submitted for approval at this time in accordance with the general policy which has been heretofore explained and urged upon the City authorities in the communication to the Board of Aldermen dated May 15, 1905, relative to certain Manhattan and Bronx routes, a copy of which is also submitted this day to your Honorable Body. It is unnecessary to repeat what is fully set forth in the two documents above referred to.

The geographical conditions of Brooklyn necessitate a different solution of the rapid transit problem from that which has been attempted in Manhattan. Instead of a series of independent straight lines running north and south, Brooklyn rapid transit railways must have as their most important feature a series of large loops. In several cases like the Fourth avenue line to Fort Hamilton, the Flatbush and Ocean avenue line, the East New York and Jamaica line, and the line connecting the Williamsburg and Blackwell's Island bridges, railways radiating out into the more suburban neighborhoods are desirable; but the controlling and essential feature of any Brooklyn system must inevitably consist of loop lines, embracing large areas in Brooklyn and comparatively small areas in Manhattan. In Manhattan, these loops should be so far extended as to connect with as many as possible of the main north and south lines of travel.

The bridges across the East river should be utilized for rapid transit purposes. For this purpose the consent of the Department of Bridges is essential. The general plans now transmitted provide that all work of construction upon either the Williamsburg Bridge or the Manhattan Bridge, or their approaches, must be done in accordance with the requirements of the Commissioner of Bridges.

In addition, the plans hereto annexed provide for four tunnels under the East river, with a total capacity of ten tracks. There are, besides these, the proposed Thirty-fourth street two-track tunnel, and the two-track tunnels already contracted for and in course of construction. If all these plans are carried out, there will be fourteen rapid transit railway tracks in tunnel under the East river, and at least four such tracks over it on the bridges.

It is believed that the plans now submitted for consideration will, when fully constructed, afford a complete and adequate solution of the difficult rapid transit problem in Brooklyn.

The time has not yet come for dealing fully with rapid transit in the Borough of Queens. All that can be done at the present moment is to provide, as has been done in some of the routes transmitted this day to your Honorable Body, for lines connecting Queens with Manhattan and Brooklyn. Such connecting lines are three in number, namely: First, a tunnel under the East river running from East Thirty-fourth street to Long Island City; second, a subway running from the Williamsburg Bridge plaza in Brooklyn to the end of the Blackwell's Island Bridge in Queens; and third, a subway running from East New York to Jamaica.

The extensive scheme of railroad construction contemplated by the various plans adopted by this Board, and now submitted to the City authorities for approval, could not all be constructed at once, even if it were desirable to do so. But a general and comprehensive scheme is almost essential in dealing with a situation such as exists in Brooklyn, so that every route, or part of a route, that may hereafter be built, shall fit into a symmetrical system to be ultimately developed.

If the seven routes submitted herewith shall be approved by the City authorities and by the property owners or the Courts, this Board intends to make contracts for routes or parts of routes as rapidly as the means at the disposal of the City will permit and as satisfactory contractors can be found; and all such contracts, in accordance with the law as it now stands, must be submitted to your Honorable Body for its approval and consent.

The policy which this Board recommends is in its essential features the policy very successfully pursued by the City of Paris, where a series of loop-line subways have been planned and are being built by the city in sections.

Many details as to the mode of construction of the lines now proposed, the location of stations and station entrances, the character of rolling stock, the method of operation, and other important matters, must be left to be settled hereafter in the contracts to be submitted for approval. It need only be said at present that it is the intention of this Board to avail itself fully of the valuable experience gained in the subways now constructed or constructing, and of the better knowledge which prospective bidders possess as to the possibilities of subsurface passenger railways.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be signed by its President and Secretary this fifth day of June, 1905.

Communication of the Rapid Transit Subway Construction Company as to the Lenox avenue matter, with opinion of Counsel of the Board thereon, was presented, as follows:

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,
No. 23 NASSAU STREET,
NEW YORK, July 15, 1905.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,
No. 320 Broadway, New York City:

DEAR SIR—Our Chief Engineer sends me a communication received from the Chief Engineer of the Board of Rapid Transit Railroad Commissioners transmitting a resolution adopted by the Board at its meeting held on June 29, 1905, in the following language:

"Resolved, That the Chief Engineer notify the contractor to immediately replace the tracks and restore the pavement, in accordance with the plans and specifications prepared by the Chief Engineer, along Lenox avenue, between One Hundred and Sixteenth and One Hundred and Forty-second streets, and, in case of the refusal of the contractor to comply with said order, that the said work be done under the direction of the Chief Engineer but at the expense of the contractor."

He also transmits to me a further letter from your Chief Engineer, in which he writes:

"There is no doubt as to the fact that conditions are due to rapid transit construction, and it is only proper that the contractor should place the surface railroad tracks and street surface in as good condition as before the work on the subway was commenced. The work should be done without further delay. Sufficient money has been retained from estimates to cover this work, and it appears that on account of the persistent delays on the part of the subcontractor that the Subway Construction Company should immediately take the matter in hand and have the street restored to its original condition. I feel that it is due to the Rapid Transit Commission that an immediate and definite reply to this, stating:

"First—Will the contractor for the construction of the subway do the work which is clearly a part of the contract?

"Second—If the contractor will do the work, when will it be taken in hand and completed?"

This surprising communication wholly ignores the fact that for upwards of a year and a half the New York City Railway Company has been endeavoring, without avail, to compel the rapid transit contractor to do work in this street which the contractor and his engineers and counsel were unanimously of the opinion was not incumbent upon the contractor to do, and which your Board, at its meeting on January 26, 1905, disposed of by directing its Secretary to inform the New York City Company that that company should have redress to the courts, the fact being that the condition of the tracks of that company was the result, not of the rapid transit work, nor of such interference during the rapid transit work as imposed upon the contractor any obligation to make the same good, but, as I am advised, was the result of the imperfect construction by the street railway company when the tracks were laid.

The communication in question also ignores the fact that by two separate certificates transmitted to the Chief Engineer of your Board by the Department of Public Works on December 11, 1903, and August 2, 1904, respectively, that Department has certified that Lenox avenue, from building line to building line, has been restored to as good condition as existed before being disturbed for the purpose of rapid transit construction.

In view of this record I must express my surprise at the terms of the resolution and the character of the communication referred to. Of course, I am aware of the provisions of the contract whereby it is provided that the contractor should promptly obey and follow every direction within the purview of the work which shall be given by the Engineer, and that in case of any dispute, question or doubt as to what is the obligation of the contractor the determination of the Engineer shall be binding upon both the contractor and the City, so far as that the contractor shall, as the case may be, proceed or refrain from proceeding and without any delay obey the requirement of the Engineer; but it is further provided that a determination of the Engineer shall not be finally conclusive as to the question whether the contractor is entitled to additional payment for anything additionally required by the Engineer; and I beg therefore to respectfully notify you that this company claims that the requirement of the Engineer to do additional work upon the surface railroad tracks and street surface in Lenox avenue is outside of the purview of the work; is not within the obligations of this company to perform, and that it will hold the City liable for the additional cost of doing that work. I have also earnestly to urge upon you a reconsideration of the subject, as I am advised and believe that the work in question is not work which should be done by this company or for which it or the City is liable, but that the obligation to do it is upon the New York City Railway Company.

I remain,

Yours very truly,
(Signed) AUGUST BELMONT, President.

No. 32 NASSAU STREET, NEW YORK, }
August 5, 1905. }

Hon. JOHN H. STARIN, Vice-President, Rapid Transit Commission, No. 320 Broadway:

DEAR SIR—We have examined the letter of Mr. Belmont, President of the Rapid Transit Subway Construction Company, addressed to Mr. Orr and dated July 15, 1905, which you have referred to the Counsel and Chief Engineer of the Board for report.

In this letter Mr. Belmont urges the Board to reconsider a resolution adopted on June 29, directing the Chief Engineer to replace the tracks and restore the pavement in Lenox avenue, between One Hundred and Sixteenth and One Hundred and Forty-second streets, and further directing the Chief Engineer in case of the contractor's refusal to do this work, to cause it to be done at the contractor's expense. Mr. Belmont bases his request for reconsideration upon three separate grounds.

First, he says that the Board on January 26, 1905, disposed of the subject by causing the New York City Railroad Company to be informed that it should have redress to the Courts, etc.

The answer to this suggestion is quite plain. The New York City Railroad desired to have a great deal of work done besides merely restoring the surface of the street and the level of its tracks. It desired to have its yokes and electrical connections practically rebuilt in accordance with the best engineering practice. The Subway Construction Company objected upon two grounds—first, that their work was not the cause of whatever damage had been done, and second, that the demands of the New York City Company went far beyond the mere replacing of their old structure. Upon this latter ground, the Commission decided not to compel the contractor to comply with the demands of the City Company. The Board did, however, cause a large sum to be withheld from the contractor until the questions relative to the Lenox avenue paving were disposed of.

As ample time has now been afforded and as the bad condition of Lenox avenue is notorious, it has become necessary for the Board to act. If, as a matter of fact, the contractor has not restored the street surface to the condition in which he found it, the Board is bound to see that the work is done. The public cannot be made to suffer because of controversies between two corporations as to which of them should do certain underground work, in which the City and the taxpayers have no particular interest.

Second, Mr. Belmont says that the Department of Public Works on December 11, 1903, and August 2, 1904, wrote to the Chief Engineer of your Board, to the effect that Lenox avenue, from building line to building line, had been restored to as good condition as existed before being disturbed for the purpose of rapid transit construction.

These certificates, which we have examined, exclude certain spaces between the rails of the surface railroad, so that they are not quite as sweeping as Mr. Belmont supposes.

But even if they covered the whole ground, the certificates of the Department of Public Works would not be conclusive on your Board. The work of relaying pavements is to be done by the contractor to the satisfaction of your engineer, who has the sole responsibility of certifying the contractor's bills. The fact that Mr. Olney, the Chief Engineer of the Commissioner of Public Works of Manhattan, and Mr. O'Connor, his Chief Inspector, think that the work is finished, is entirely irrelevant. They have no duties and no responsibilities in the matter.

Moreover, the contract provides (page 36) that no acceptance of any part of the work or materials in construction or equipment shall relieve the contractor of his obligation to furnish sound material and perform sound work; so that even if your own Chief Engineer had certified to the completion of this work, the contractor would still have to finish it if, in fact, it was not properly done.

Third, Mr. Belmont insists that the contractor is not bound to obey the orders of your Chief Engineer, because they are not "within the purview of the work." We do not perceive on what grounds Mr. Belmont bases this assertion. There is no doubt that the restoration of street surfaces and of surface and subsurface structures is a part of the work the contractor has agreed to perform. The contract says so, in so many words. There is at present a dispute of fact as to whether the precise work now required is really a restoration of former conditions, or whether it goes beyond that and calls for improved conditions. It seems to us that such a dispute is precisely what the contract anticipates where it provides (page 37) that in case of any dispute, question or doubt as to what is the obligation of the contractor, he must obey the orders of your Chief Engineer, and have his remedy by a claim for extra work.

We see no legal reason why your Board should reconsider the subject.

Respectfully yours,
(Signed) G. L. RIVES.

Hon. JOHN H. STARIN, No. 320 Broadway:

DEAR SIR—I have examined the letter of the Secretary of the Rapid Transit Subway Construction Company, dated July 20, 1905, requesting the consent of the Rapid Transit Board to the reduction of the bond given by the Bridge Company to Mr. McDonald.

By the supplemental agreement of February 21, 1900, Mr. McDonald agreed to assign to the City any bonds he received from his sub-contractors, the same to be held as additional security for construction, etc.

I am of the opinion that the Rapid Transit Board have full power to consent to a reduction in any such bond if in their judgment it is no longer of any value to the City as security. That would seem to be the case in the present instance.

The consents are in proper form, and I see no legal objection to the passage of a resolution in the form herewith inclosed.

Very respectfully yours,
(Signed) G. L. RIVES.

Complaint of B. L. M. Bates, lessee of the Murray Hill Hotel, and letter of the Department of Water Supply, with report of the Chief Engineer and opinion of counsel thereon, as to the condition of pavement growing out of the break in the water main on June 11, 1905, on Park avenue, between Forty-first and Forty-second streets, was presented as follows, and on motion, the matter was referred to the Acting Mayor for consultation with the Departments referred to, with a view to obtaining the restoration of the pavement in question:

EVERETT HOUSE,
UNION SQUARE,
NEW YORK, August 7, 1905.

Hon. JOHN T. OAKLEY, Commissioner, Department of Water Supply, Gas and Electricity, No. 19 Park Row, New York City:

DEAR SIR—Permit me to enter a bitter complaint on the condition of the street on Park avenue from Forty-first to Forty-second street.

The driveway on this block caved in, and was made dangerous and impassable by a water main break on June 11 last, since which time (now eight weeks) nothing has been done in the way of repair. As a thoroughfare, this section of the street in question is an important one, and should be put in proper shape forthwith.

We rightfully look to our City for remedy in these cases, and as the lessee of the Murray Hill Hotel and a taxpayer, I appeal to you for the relief desired.

Believe me, my dear sir,

Very truly yours,
(Signed) B. L. M. BATES.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,
Nos. 13 TO 21 PARK ROW,
CITY OF NEW YORK, August 9, 1905.

Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, New York City:

GENTLEMEN—I send you herewith, by direction of Frank J. Goodwin, Deputy and Acting Commissioner, communication of August 7, from B. M. Bates, of the Everett House, complaining of the condition of the street at Park avenue, from Forty-first to Forty-second street, resulting from the recent break in the water main.

On the advice of the Chief Engineer, I. M. de Varona, this Department denies the responsibility for the relaying and repair of the street pavement. The writer has been notified that his letter has been forwarded to your Board.

Very respectfully,
(Signed) JOSEPH F. PRENDERGAST, Secretary.

August 17, 1905.

BION L. BURROWS, Esq., Secretary, Rapid Transit Board:

DEAR SIR—I return herewith the communication, under date of August 9, received from the Secretary of the Department of Water Supply, Gas and Electricity, in reference to the condition of the street at Park avenue, from Forty-first to Forty-second street. In this connection I would refer you to my letter of June 15, 1905, in which I refer to the report of the Chief Engineer of the Rapid Transit Subway Construction Company, enclosed therewith, and also to my detailed report of same date. It appears to me that, under the circumstances, this matter should be submitted to counsel without delay.

Very truly yours,
(Signed) GEORGE S. RICE, Chief Engineer.

No. 32 NASSAU STREET,
NEW YORK, August 23, 1905.

Hon. JOHN H. STARIN, Vice-President, Rapid Transit Commission, No. 320 Broadway:

DEAR SIR—On the 7th inst. Mr. Bates, the lessee of the Murray Hill Hotel, wrote to the Commissioner of Water Supply, Gas and Electricity complaining of the condi-

tion of the pavement on the west side of Park avenue, between Forty-first and Forty-second streets. Mr. Bates states that "the driveway on this block caved in, and was made dangerous and impassable by a water-main break on June 11 last, since which time (now eight weeks) nothing has been done in the way of repair."

On the 9th inst. the Secretary of the Department of Water Supply, Gas and Electricity wrote to the Rapid Transit Board, inclosing Mr. Bates' letter and stating that "on the advice of the Chief Engineer, I. M. de Varona, this Department denies the responsibility for the relaying and repair of the street pavement."

It is apparent that some Department of the City Government is bound to relay and repair the pavement in question, and that the public ought not to be put to inconvenience by a controversy as to what particular agent of the City was responsible. It is a matter of no consequence to the taxpayers who does the work; and as the matter is relatively a trifle I should certainly advise the Rapid Transit Board (without reference to strict legality) to relay this small piece of pavement, if the Board had any funds with which to pay for the work.

Your Board, however, has funds for only three purposes, namely: (1) The payment of its own administrative or office expenses; (2) the purchase of rights of way; and (3) the payment of the contractor who builds the railroad. It is obvious that the expense in question cannot be charged to either the first or second of the above funds. If, however, the work of relaying this pavement is something the contractor ought to do, then your Board could require him to do so, or deduct the cost from what money is still coming to him.

The question then comes to this: Is the contractor for building the subway legally liable to relay or repair this particular piece of pavement?

The facts in regard to the break in the water-main (which was the cause of the injury to the street pavement) were fully set forth by your Chief Engineer, Mr. Rice, in a report dated June 15, 1905 (see Minutes of Rapid Transit Board, pages 3527 to 3530). Briefly, it appears from this report that the break occurred in an old main which was not removed, but was supported in place during construction; that the contractor's work on this water-main was done under the constant supervision of competent engineers and inspectors; and that while the cause of the accident could not be definitely ascertained, the pipe, being old, "probably yielded at some point" when the water was turned on immediately before the accident. I understand that the street surface had been completely restored by the contractor some months previously.

Under this state of facts, it would be impossible to compel the contractor to make good the damages caused by the accident. His agreement was that he would support water-mains during construction; and if any were cut or changed that he would restore them to proper condition. It would appear from Mr. Rice's report that "extreme care" was used in supporting this particular water-main, and that the pipe subsequently broke from some inherent and undiscoverable defect.

It follows that your Board has no power to do anything in the matter.

I suggest that you should send a copy of all the correspondence above referred to, together with a copy of this letter, to the President of the Borough of Manhattan, who has general control of street surfaces, for such action as he may think proper; and that a copy of this letter should also be transmitted to the Commissioner of Water Supply, Gas and Electricity, with the statement that your Board regrets it has no funds with which to repair the street in question.

Respectfully yours,
(Signed) G. L. RIVES.

Letter of the New York Times Building Company, with bill for waterproofing underneath that building, amounting to \$21,628.85, was presented as follows, and referred to Counsel for report:

THE NEW YORK "TIMES,"
NEW YORK, August 9, 1905.

Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, New York City:

GENTLEMEN—We submit herewith a bill amounting to \$21,628.85, covering cost from July 26, 1904, to July 6, 1905, for waterproofing under that section of the subway which passes through the basement of our building at Forty-second street and Broadway. We are informed that the subway structure was waterproofed above, below and on both sides for a distance of 13 miles, with the exception of the area, approximately 4,700 square feet, directly over the "Times" pressroom, and on that section the subway structure was waterproofed on the top and sides, leaving the bottom open, permitting the drainage from the subway tracks west of Sixth avenue, a distance of about 800 feet, to percolate into our premises. The failure to waterproof the bottom of your structure arose from a misapprehension on the part of your representatives of the terms of the easement acquired by you for passing through our property. We have from the beginning maintained that you have no right to drain your subway in such a manner as to lead to a large accumulation of water over our pressroom. Neither are we under obligation to protect ourselves against such accumulation of water originating at other points along your route, or against your leakages. If this work of waterproofing had been done by you before the laying of your rails, it would have cost a comparatively insignificant sum; but because of the extraordinary and peculiar conditions created by you and because of the cramped facilities, the cost has been, as you will notice, over \$21,000. We refer to the following letters:

August 8, 1904, to the President of the Rapid Transit Commission.

August 17, 1904, reply of the President to the New York Times Building Company.

September 23, 1904, letter in reply to President of the Commission.

September 26, 1904, reply to above.

September 30, 1904, further reply to above.

We ask that you take such action in the premises as will provide a prompt reimbursement to us for our outlay.

Very truly yours,

(Signed) THE NEW YORK TIMES BUILDING COMPANY,
C. R. MILLER, Vice-President.

Letter of the Chief Engineer was presented as follows:

NEW YORK, August 24, 1905.

JOHN H. STARIN, Esq., Vice-President, Rapid Transit Board:

DEAR SIR—In order to secure an accurate alignment in the work of the Battery headings it is necessary that a pipe should be driven for establishing a plumb line in Battery Park. I have investigated this subject, and have asked for prices from several contractors to cover the cost of doing this work, and have received a proposal from Messrs. Phillips & Worthington of No. 136 Liberty street wherein they offer to do this work at a cost of about \$90 in case no boulders are struck, and 50 cents per foot extra for trial borings. I respectfully ask that authority of the Board be given to accept this bid.

Very truly yours,
(Signed) GEORGE S. RICE, Chief Engineer.

The following resolution was moved:

Resolved, That the Chief Engineer of this Board be and he hereby is authorized to make a contract for the work of driving a pipe for establishing a plumb line in Battery Park, said work to be done at a cost of about \$90 in case no boulders are struck, and 50 cents per foot extra for trial borings.

Ayes—The Vice-President, Mayor, Comptroller and Commissioners Langdon and Claflin.

Nays—None.

A communication was received from the Deputy Comptroller, of date August 31, 1905, transmitting a report from the Clerk in the Bureau of Real Estate, in the

Which was referred to the Committee on Armories for Brooklyn and Queens.

Which was referred to the Committee on Armories for Manhattan and The Bronx. A communication was received from the Deputy Comptroller, of date August 10, 1905, transmitting report on the armory site on Franklin avenue and East One Hundred and Sixty-sixth street.

The Mayor offered the following:

Whereas, The Armory Board, by resolution of June 29, 1904, authorized the purchase of the site on Franklin avenue, One Hundred and Sixty-sixth and One Hundred and Sixty-seventh streets, in the Borough of The Bronx, for the erection of an armory for the Second Battery, N. G., N. Y., for the sum of \$85,000; and

Whereas, Certain objections to the title were raised by the Lawyers' Title and Insurance Company, which delayed the completion of the purchase of this property nearly a year, and the owners are now demanding interest in the amount of \$1,430.83 in addition to the purchase price of \$85,000; and

Whereas, The Corporation Counsel, in an opinion dated July 21, 1905, says that "the proposed payment of interest would, as a practical proposition, be to the City's advantage,"

The work of removal must be carried on in every respect in a thorough and workmanlike manner and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials, machinery, implement or appliance used in the removal of said gas holders by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale the property advertised.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.
