Dr. W. H. Smith, the General Medical Superintendent, reported as follows:

From January 30 to February 12, inclusive, the following operations were performed, at all of which the Attending Surgeons or their Assistants were present, except in one instance (fourth gynaecological division): Bellevue Hospital, 97; Gouverneur Hospital, 30; Harlem Hospital, 34, and Fordham Hospital, 20.

A satisfactory attendance of the Visiting Physicians and Surgeons at the various hospitals during the month of January has to be reported.

In accordance with the rules a fire drill was held at Bellevue Hospital on February 2 and 10; at Gouverneur Hospital on February 2 and 10; at Harlem Hospital on February 1 and 8, and at Fordham Hospital on February 1 and 11.

Since the last meeting Miss Grace Armstrong, Nurse, ill with scarlet fever and diphtheria, and Dr. Stimson, a member of the house staff, ill with scarlet fever, have been sent to the Minto Hospital.

Several Special Nurses required for emergency cases have been authorized, and approval is asked for.

A requisition, approved by Dr. Norris, Director of Laboratories, has been received from the Cornell Division, asking to have one of their small laboratories in Pavilions A and B equipped for special examinations, cultures, vaccines and chemical analyses, which cannot be made by Internes. The apparatus required will cost about \$800. It is recommended that it be allowed, with the distinct understanding that the instruments placed in this laboratory shall be moved to the main pathological building as soon as the same shall become available for this work.

Attention is called to the following report of work done by the Egg Inspector of this Department, from January 18 to February 3, a period of eighteen days: 7,350 dozen eggs received; 3,120 dozen eggs rejected.

Richard D. Healy, orderly, employed in this Department for some years, became ill on November 13, and was treated in the wards of the hospital. He was continued on the roll until December 13, then dropped. Later it was learned that he was a veteran. He was notified on February 10 to report for duty on Friday, February 11. He has not done so. It is recommended that charges be preferred against him for failure to report for duty, and for incompetency.

In regard to the request of the Gouverneur Hospital Medical Board, it is recommended that, inasmuch as an Interpreter does not appear to be necessary, the request be denied.

In the Budget schedules for Gouverneur Hospital for 1910 three Coal Passers are allowed at \$2 a day. The work is now done by two Hospital Helpers at \$40 a month. From the list submitted it is not possible to select men who are as capable of doing the work as are the present incumbents. It is therefore recommended that the present incumbents be continued, and that a revision of schedules to cover them be authorized.

In the matter of the serving room of the new Nurses' residence, it appears that a ceiling ventilator was provided for in the plans and specifications, but was omitted, and should have been furnished and installed by the contractor.

The proposed alterations of ward 31 and the admitting office and the erection of a new gate house and transfer room are in suspension on account of insufficient funds. It is recommended that special revenue bonds be requested in the sum of \$3,500, to be used as follows: \$2,000 to be used in connection with money already appropriated for alterations for converting ward 31 into an isolation ward, and \$1,500 to be used in connection with \$4,700 already granted for building a new gate house, to extend facilities of the admitting office by installing both rooms, and making such changes in dormitory 48 (as soon as vacated), as will render it fit for use as a transfer room.

Mr. James I. Newman, who was recently awarded a contract for painting eight wards in Bellevue Hospital, is not doing the work according to the specifications, and

apparently has no intention of so doing. It is recommended that the contract be declared off, and that the work be done by the departmental painters.

Inasmuch as permission has not yet been obtained to buy fresh fruits and vegetables for 1910 in the open market, an advertisement is submitted herewith for obtaining fresh fruits and vegetables under contract until May 31. In the mean time orders have been issued to stop the purchase of fresh fruits and vegetables throughout this Department. It is my opinion that the purchase of fresh fruits and vegetables on contract is not only very unsatisfactory, but is unbusinesslike, and I recommend against the same, if, by any possibility, permission can be obtained to purchase fresh fruits and vegetables in the open market.

An advertisement for bids on coal in sufficient quantity to last until April 30 is herewith submitted. It appears from investigation that it is possible to burn buckwheat coal No. 1 instead of the pea coal now used at the Allied Hospitals. The former is much cheaper coal, and it is recommended that it be substituted for pea coal in this advertisement, and if, at the end of two months, it is found that it is entirely satisfactory, that it be permanently used at the Allied Hospitals.

It appears that if the new male dormitory is to be used at all prior to completion of the new boiler house, temporary pumping facilities must be provided. It is recommended that this matter be referred to the Building Committee.

A letter is herewith submitted from Mr. Hurley, representing the Hotel Belmont. Mr. Hurley has a daughter in the training school in her first year, and on account of her recent illness he came often to the hospital and had ample opportunity to observe hospital work. Mr. Hurley offers ten casks of china, with the hope that it might be of use in this hospital. He states that they have difficulty in disposing of it all, inasmuch as they do not use any china that is chipped at all. It is recommended that the same be accepted.

It is recommended that the services of Mr. Frederick A. Ross, as Fire Expert, be continued during the year 1910.

It appears from the list of those eligible for appointment as Assistant Resident Physician, in charge of the alcoholic ward, that none of those willing to accept the position have proper qualifications for the same. It is recommended that steps be taken to enable the Board to make this appointment by selection, and not from the Civil Service list.

The plans and specifications for the proposed covered passageway are not approved by the Building Department on the ground that it is not fireproof. In view thereof, and inasmuch as the plans and specifications would need to be changed in the event of the extension of the psychopathic ward, it is recommended that the contract be not awarded at this time, and that the deposit of the lowest bidder be returned.

On December 5, 1906, bids were received for installation of a fire alarm system at Bellevue Hospital. Joseph Cherry was the lowest bidder at \$910. The deposit was returned March 18, 1907. Inasmuch as the work has never been done, and it is evident that it was decided not to have this work done, and inasmuch as a new appropriation has been granted for installation of the fire alarm system, it is recommended that this amount of corporate stock be reported to the Comptroller in the Corporate Stock Budget as not required.

On motion, duly seconded and carried, the removal of Miss Grace Armstrong and Dr. Stimson to the Minto Hospital was approved.

On motion, duly seconded and carried, the appointment of special Nurses reported by the General Medical Superintendent was approved.

On motion, duly seconded and carried, the recommendation of the General Medical Superintendent in regard to the equipment of a small laboratory in Pavilions A and B was approved.

On motion, duly seconded and carried, it was

Resolved, To prefer charges against Richard D. Healy as recommended by the General Medical Superintendent.

On motion, duly seconded and carried, the recommendation that the request of the Medical Board of Gouverneur Hospital that an Interpreter be appointed to that hospital be denied was referred to the Committee of the Month.

On motion, duly seconded and carried, it was

Resolved, To continue the two Hospital Helpers at Gouverneur Hospital, and not replace them by Coal Passers, as allowed in the Budget, and that a revision of the salary schedules be made accordingly.

A communication dated February 10 was read from the architects, Parish & Schroeder, stating that steps had been taken to put the register in the ceiling of the serving room of the new training school, and no action was therefore taken on the report of the General Medical Superintendent in regard to this matter.

On motion, duly seconded and carried, it was

Resolved, To request the Board of Aldermen to authorize the issue of special revenue bonds to an amount not exceeding \$3,500 for the purposes described by the General Medical Superintendent.

On motion, duly seconded and carried, it was

Resolved, To declare the contract of Mr. James I. Newman abandoned and his deposit forfeited; and it was further,

Resolved, That the work be performed by the Departmental Painters.

On motion, duly seconded and carried, it was

Resolved, To authorize the advertisement for bids for the supply of fresh fruits and vegetables until May 31, 1910. The President reported that the request for authority to purchase fresh fruits and vegetables in the open market without public letting had been renewed to the Board of Aldermen on February 10, and it was further

Resolved, That every effort be made to have the request approved.

On motion, duly seconded and carried, it was

Resolved, To advertise for the supply of coal until April 30, 1910, and it was further

Resolved, That the recommendation of the General Medical Superintendent in regard to the use of buckwheat No. 1 coal at the allied hospitals be approved.

On motion, duly seconded and carried, the question of pumping facilities in the new men's dormitory was referred to the Building Committee.

On motion, duly seconded and carried, it was

Resolved, To request that the offer of ten casks of china be indorsed by the managing director of the Hotel Belmont, and that if this is done the china be accepted.

On motion, duly seconded and carried, it was

Resolved, That the services of Mr. Frederick A. Ross at a salary of \$600 be continued during the year 1910.

On motion, duly seconded and carried, it was

Resolved, To request the Municipal Civil Service Commission to classify the place of Assistant Resident Physician as non-competitive.

On motion, duly seconded and carried, it was

Resolved, To return the deposit of the lowest bidder on the covered passageway and to refer the plans and specifications of that building to the Chairman of the Building Committee.

On motion, duly seconded and carried, the recommendation of the General Medical Superintendent in regard to the contract of Joseph Cherry was approved.

The General Medical Superintendent presented lists of changes in the help at Bellevue Hospital for the five weeks ending December 18 and 25, 1909, and January 1, 8 and 15, 1910, and as these had already been reviewed by the Committee on Officers and Employees, it was

Rules Adopted June 25, 1906.

1. The Medical Board shall receive all applications for appointment, which shall be in such form as the Board of Trustees may prescribe, and thoroughly examine the qualifications of all applicants to fill vacancies or otherwise on the medical staff of the hospital, and shall report in writing, with recommendation, to the Board of Trustees on all such applicants.

2. Such report and recommendation shall thereupon be referred to a Conference Committee, consisting of two members of the Board of Trustees, appointed by the President, and of two members of the Medical Board of the hospital, appointed by such Board, for consideration and report to the Trustees.

Rules Adopted January 28, 1908, Amended February 15, 1910.

3. Consideration was given to the question of the assignment of special Nurses for patients receiving treatment for the alcohol and drug habit under the care of Dr. Alexander Lambert. After a discussion, it was, upon motion, duly seconded and carried.

Resolved, That two special Nurses should be appointed for the care of these cases at present.

The question of the selection of an Architect for the Gouverneur Hospital Dispensary and the question of the appointment of a Third Assistant Attending Surgeon on the Fourth Division of Bellevue Hospital were laid over for future consideration.

Reports of Committees.

On the recommendation of the Building Committee, the plans and specifications for the painting of the Pathological Department and Men's Dormitory were approved, and, on motion, duly seconded and carried, it was

Resolved, To advertise for bids for the work; and it was further

Resolved, To request the Board of Estimate and Apportionment to approve these plans and specifications and to authorize the award of a contract for the same.

The Building Committee reported progress on the question of the arrangement of the new Gouverneur Dispensary and the ventilating system of Pavilions I, K, L and M.

The Building Committee reported that the Department of Water Supply, Gas and Electricity had been requested to advise the Board in regard to the dispute over the specifications for the proposed fire alarm system. On motion, duly seconded and carried, this report was approved. In connection therewith, a letter from Mr. H. F. J. Porter, Industrial Engineer, dated February 1, was read and ordered placed on file.

The joint committee appointed to prepare the corporate stock Budget reported that they met on February 10 and prepared the Budget, and that it had been forwarded to the Board of Estimate and Apportionment. On motion, duly seconded and carried, this report was approved, and it was ordered that a copy of the Budget be attached to these minutes.

Dr. Brannan and Mr. Sachs reported that they had fully investigated the various styles of motor ambulances and recommended that an electric ambulance be obtained, inasmuch as it was believed that an electric ambulance would be found suitable for the work and that its cost of maintenance would probably be cheaper than a gasoline or steam car, particularly in view of the fact the wages paid to drivers of electric vehicles are considerably less than those paid to chauffeurs. Upon motion, duly seconded and carried, it was

Resolved, That this recommendation be approved and that an electric ambulance be purchased at a cost not to exceed \$3,500, and that permission be requested of the Board of Aldermen to make such purchase in the open market without public letting.

Mr. Paulding of the Committee on Supplies reported upon the communication received from the Department of Finance on January 14 relative to paragraph "N" of the contracts for supplies, which grants the Board the right to reduce or increase the quantity of supplies specified to the extent of five per cent., and recommended that the paragraph be cancelled, inasmuch as its continuance necessitated the reserve of an additional five per cent. in the certificate of the President. On motion, duly seconded and carried, this recommendation was approved; and it was

Resolved, To discontinue the clause accordingly.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in Charge of Promotions, dated January 17, 1910, relative to the request of Miss Isabella A. Clark, a second grade Typewriting Copyist in the Tenement House Department, for permission to amend her application for promotion to third grade Typewriting Copyist to read: "third grade Stenographer and Typewriter." On motion, the request was granted.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in Charge of Promotions, dated January 19, 1910, in relation to the request of the Board of Water Supply that Miss Reta Weile, a second grade Typewriting Copyist, be permitted to take the forthcoming examination for promotion to third grade Stenographer and Typewriter. The report stated that applications had been filed for promotion from the position of Typewriting Copyist to that of Stenographer and Typewriter in the Board of Water Supply by Reta Weile, Katherine H. Yochman and Mary A. Gaffney. It appearing that Miss Weile had served for a period of three years in the second grade, the request was granted in accordance with Rule XV., paragraph 8, subdivision B.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in Charge of Promotions, dated January 18, 1910, relative to the request of the President of the Borough of Manhattan that the examination for promotion from Attendant to third grade Clerk in the Bureau of Public Buildings and Offices, Manhattan, ordered by the Commission on November 3, 1909, be canceled. The Examiner recommended, without entering into a discussion of the merits of the request, that the examination be indefinitely postponed and that the candidates, who had been notified to appear for examination on January 26, 1910, be so informed. The recommendation was adopted.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in Charge of Promotions, dated January 18, 1910, relative to the request of the Comptroller that Dalton M. The matter was laid over pending the receipt of an official statement as to whether the position occupied by Miss Rinn was a permanent one.

A letter was presented from Dr. William H. Maxwell, City Superintendent of Schools, Department of Education, dated January 21, 1910, requesting authority to continue the services of Miss Sadie Sattler, of No. 100 Willow street, Manhattan, as a first grade Clerk in the office of the Inspector of Ungraded Classes, and stating that Miss Sattler was especially fitted for the position because of her ability to speak Yiddish and to interpret for the Inspector the statements of the parents who visited the office with regard to the matter of placing their children in classes for mental defectives; that the position to be filled was one which required the services of a young woman, but that the salary was only three hundred dollars per annum, for which grade there was no eligible list. The Secretary stated that Miss Sattler had been given a non-competitive examination, under the provisions of paragraph 3 of Rule XII., to qualify her for provisional appointment as first grade Clerk, and that upon the announcement of the eligible list the Department had been notified that it would be necessary to dispense with her services. The matter was laid over pending the receipt of additional information.

Department of Correction, January 13, 1910.

Office of the President of the Borough of Richmond, January 8, 1910.

Bellevue and Allied Hospitals, December 31, 1909, January 8, 10, 1910.

Department of Education, Nautical School, January, 1910.

A communication was presented from the Chief Examiner, dated January 17, 1910, submitting a proposed form of record book to take the place of the one which had been in use. The matter was referred to Commissioner Keogh for a report at the earliest possible date.

A letter was presented from the Commissioner of Public Works and Acting President of the Borough of Brooklyn, dated January 10, 1910, submitting a voucher in the amount of \$137.65, in favor of Harry M. Kidder and Frederick D. Kilmer, public stenographers, and stating that their services had been engaged for the purpose of getting a transcript of the testimony in the investigation of the office of the President of the Borough of Brooklyn by the Commissioners of Accounts at the hearings held September 20, 21 and 22, 1909. On motion, the Secretary was directed to certify the voucher in accordance with paragraph 6 of Rule XII.

A letter was presented from Frank L. Polk, Esq., of No. 32 Nassau street, New York City, dated January 12, 1910, relative to the letter addressed to the Commission under date of January 5, 1910, by the Civil Service Reform Association, in which the association protested against the disposition made of the Skelly case by the former Commission, and took exception to the statement given out in connection with the decision in the case. The matter was laid over.

A communication was presented from Sergeant John T. Nilon, of No. 191 Broadway, Brooklyn, President of the Sergeants' Benevolent Association of The City of New York, dated December 31, 1909, replying to the Commission's letter of December 16, relative to the complaint sent to the Governor against the conduct of the examination for promotion to Lieutenant of Police, signed "a Committee of Sergeants in meeting assembled." The communication stated that at a special meeting of the Sergeants' Benevolent Association, held on December 27, 1909, the letter sent to the Governor had been read to the Sergeants assembled and by them unanimously repudiated, no one person having any knowledge as to the identity of this alleged committee; that the Commission's letter inviting a Committee of Sergeants to call and examine its method of rating had also been read, after which a resolution was unanimously adopted to the effect that the members of the Sergeants' Benevolent Association had the utmost confidence in the honesty and integrity of the members of the Commission, and would deem it presumptuous to send a Committee to investigate the Commission's method of rating papers "or attempt to supervise in any manner its official actions." After consideration of the matter, the Secretary was directed to reply to the letter and renew the former Board's suggestion that at any time the matter could be arranged the Commission would be glad to explain its method of rating.

A letter was presented from Conrad A. Hogrefe and Joseph J. Marrin, Jr., requesting that their names be placed upon a preferred list of General Foreman and protesting against their removal by the Commissioner of Parks, Borough of The Bronx, for lack of work, on the ground that the duties which they had performed were those of General Foreman, and that they had since been performed by Drivers, men detailed in various gangs, and Assistant Superintendents. After consideration of the matter, the Secretary was directed to place the names of Messrs. Hogrefe and Marrin upon a preferred list of General Foreman.

The application of Thomas M. Brasel, of No. 943 Sherman avenue, Borough of The Bronx, for the position of Rodman was rejected, for the reason that he had not attained the minimum age of eighteen years.

The Secretary stated that James Corry, of No. 2140 La Fontaine avenue, Borough of The Bronx, applicant for the position of Patrolman, had not procured his certificate of naturalization until January 6, 1910, a week after the receipt of applications had closed. It appeared that the applicant had served as a fireman on the United States ship "Missouri," and had been honorably discharged on May 22, 1908. After consideration of the matter, the application was accepted.

The Secretary then presented a letter from Mr. Maurice Ahern, which had been forwarded from the office of the Mayor, for consideration. The Secretary was directed to reply to the letter and state that Mr. Ahern's name, which appeared on the eligible list of Civil Service Examiner, would be considered for appointment in the usual course whenever a vacancy might occur.

A communication was presented from Charles H. Baxter, Commander of Gouverneur Morris Garrison No. 63, dated January 13, 1910, in the matter of the dismissal of Frank Walters, a veteran, from the position of Inspector of Sewer Construction in the office of the President of the Borough of The Bronx. The Secretary was directed to reply to the communication and state that the matter was one over which the Commission had no jurisdiction; that it appeared from the records that Mr. Walters had had a hearing and that the conduct of such hearing was a matter that the Commission could not go into.

The Commission considered the application of William T. Maroney, of No. 85 Clarkson street, Brooklyn, for the position of Patrolman, in which the date of birth was given as March 10, 1885. The baptismal certificate submitted by the applicant substantiated the date in the application, but gave the name as William Mulrooney. Accompanying the papers was an affidavit of the applicant's mother to the effect that in Ireland her husband's family had been known as Mulrooney, but that they had used the name Maroney in America. After consideration of the matter, the Secretary was directed to summon the applicant to appear at the meeting to be held on January 26, 1910, and explain the discrepancy.

The Commission then considered the additional proof submitted by Earl J. Mayo, of No. 7 James street, Manhattan, an applicant for Patrolman, as to the date of birth, in the form of a certificate from the former Principal of Public School 1, to the effect that when Mayo had been admitted to that school (on November 24, 1898), he was twelve years of age. The matter was referred to Commissioner Keogh for consideration.

The following requests for restoration to the eligible lists indicated were granted: Samuel Brandt, No. 903 Faile street, The Bronx, Clerk, Board of Water Supply, for temporary work. Stated that he declined appointment as Temporary Clerk in the Board of Elections on December 3, 1909, on account of temporary inability.

Herbert E. Fraleigh, No. 148 West One Hundred and Nineteenth street, New York City, Transman. Declined appointment in the Department of Bridges on account of location on May 22, 1907.

William J. Dolan, No. 244 Macon street, Brooklyn, N. Y., Clerk, Board of Water Supply, for temporary work.

Miss Esther Bostron, No. 1092 Pacific street, Brooklyn, N. Y., Typewriting Copyist. Statement of Health Department that she failed to reply to notice sent her incorrect. Stated that she declined on account of inadequate salary.

W. C. Hanson, No. 270 Forty-ninth street, Brooklyn, N. Y., Janitor and Stationary Engineer. Declined appointment in the Department of Education on December 1, 1909, on account of temporary inability.

Stella R. Cohen, No. 220 West One Hundred and Seventh street, New York City, Nurse, for school work only.

William Reichman, No. 305 East Eighteenth street, New York City, Laboratory Assistant (chemical).

A letter was presented from Miss Lillian B. Newell, of No. 1516 Roselle street, Westchester, protesting against her suspension from the position of Attendant in the Department of Docks and Ferries for lack of work, on January 17, 1910, on the ground that another Attendant had been immediately assigned to perform her duties. The matter was referred to the Commissioner of Docks and Ferries for a report.

A letter was presented from William J. Schumacher, of No. 385 Linden avenue, Brooklyn, requesting that he be accorded the standing on the preferred list of Inspector of Pipe Laying, Pipes and Hydrants to which he was entitled by reason of his length of service. The Secretary stated that Mr. Schumacher had been originally appointed on January 8, 1903, while the date of original appointment had been recorded on the preferred list as August 16, 1906. After consideration of the matter, the Secretary was directed to make the necessary correction on the list.

A letter was presented from Robert Roehrig, of No. 599 Bushwick avenue, Brooklyn, requesting that certification of his name from the eligible list of first grade Clerk be withheld for a period of one year. The request was granted.

A letter was presented from John A. Jackson (temporary address No. 458 Main street, Poughkeepsie, N. Y.), dated January 12, 1910, requesting an extension of time in which to appear before the Commission to show cause why his name should not be removed from the list of Hospital Clerk. The Secretary stated that Mr. Jackson having failed to appear on January 12, 1910, as notified, his name had been ordered removed from the eligible list of Hospital Clerk, under the provisions of paragraph 14 of Rule VII. The Secretary was directed to grant the applicant an extension of two weeks' time in which to appear and state his case.

The requests of the following named applicants for permission to correct the dates of birth, given by them in error, to conform with the certificates furnished, were granted:

The Secretary called the attention of the Commission to the application of Robert J. Riley, of No. 538 Leonard street, Brooklyn, for the position of Patrolman, in which the date of birth was given as August 22, 1881, while in the certificate of baptism furnished the said date was set forth as August 22, 1880. In view of the fact that the certificate did not bear the seal of the church from which it had been issued, the Secretary was directed to make inquiry of the pastor as to its authenticity.

The Commission then considered the request of Thomas J. McFarlin, Patrolman on Aqueduct, for permission to correct the date of birth given in his application as August 10, 1879, to read August 10, 1881, to conform to the baptismal certificate furnished. The Secretary stated that in an application for Patrolman filed on January 14, 1910, McFarlin had given the date of birth as August 10, 1881. The report stated that Mr. Morton was the only person who filed an application during October for examination as Topographical Draftsman in the Department of Water Supply, Gas and Electricity; that the position of Junior Draftsman was in direct line of promotion to Topographical Draftsman; that Mr. Morton was eligible for examination and had filed his application at the time designated, and that, owing to the fact that the Commission would not be able to take official action on the request in time to notify the candidate for examination on the 21st inst., he had been given a conditional notice, subject to the approval of the Commission. The Examiner stated that the Commission had not on hand any of the books required, and that it therefore would be necessary to have them printed, and recommended that before an order was given for the printing, the Commission should confer with the Police Department relative to possible changes or improvements in the books which might have been suggested by their use. Broome streets, East River, Borough of Manhattan, as adopted by the Commissioner of Docks in accordance with law, March 4, 1910.

Technical Description of "New Plan" for the Improvement of the Water-front Between Grand Street and Broome Street, East River, Borough of Manhattan.

The proposed "new plan" between Grand street and Broome street, East River, Borough of Manhattan, comprises the following:

The establishment of two new piers 50 feet in width with a slip room of 140 feet extending from the established bulkhead line to the established pierhead line, the northerly side of the northerly pier being identical with the northerly side of the present Pier (old) 56, or Broome Street Pier.

Also the establishment of a new pier 45 feet in width, its northerly side extending from the proposed modified bulkhead line, its southerly side extending from the established bulkhead line to the established pierhead line. The southerly side of the new pier is coincident with the southerly side of the present Pier (old) 55, or Grand Street Pier.

The Commissioner of Docks in his communication to the Commissioners of the Sinking Fund states that this change is rendered necessary owing to the fact that when the plan was originally adopted ferries were in operation in this locality which have since been abandoned, and there is no likelihood that the area will be required for such purposes in the future.

A pier layout is therefore shown in red lines, and when such piers are constructed they will tend to greatly relieve the wharfage congestion in this vicinity. There is embodied in the plan a proposed modification of the bulkhead line, and request for same has been made to the War Department, which will be approved.

The plan adopted December 19, 1888, is to be discontinued, as there is no necessity for it; adequate access to the proposed piers can be had by the way of East street.

The proposed amended plan is open to the inspection of any citizen at the office of the Comptroller of the City of New York, at all times during business hours, from the beginning of this publication until the day of said hearing.

W. J. GAYNOR, Chairman, Commissioners of the Sinking Fund. m21,26

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidders to comply with the requirements of the terms and conditions of the sale as set forth hereinabove.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be enclosed in properly sealed envelopes, marked "Private," to be opened April 1, 1910, and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the Collector of City Revenue, Room 141, No. 280 Broadway, New York City, from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

Terms and Conditions.

The buildings and appurtenances thereto will be sold to the highest bidder who must pay cash or a certified check drawn in the order of the Comptroller of The City of New York, and must also give a certified check for cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions

of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is the curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of The Bronx, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or a machinery, implement or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

As Provided for by the Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

3. The bidder, as a condition precedent to the receipt or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon a trust company or a State bank incorporated and doing business under the laws of the State of New York, or upon a national bank, two per cent. of the par value of the stock bid for in said proposal.

All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.

4. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the stock awarded to him or them at its par value, together with the premium thereon less the amount deposited by him or them, the amount of deposits thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.
