The following minute, presented by Mr. A. Stern, was ordered to be sent to all members of the teaching and supervising staff who were retired on February 1, 1912, in pursuance of the policy of the

Board of Education, that those arriving at the age of seventy years, if eligible for retirement, shall not continue in active service:

Since the last meeting of the Board of Education there have been retired from the public school system, in pursuance of action previously taken by this Board, one District Superintendent, twelve Principals and a number of Teachers, all of whom have devoted the greater part of their mature lives to the teaching profession. The action heretofore taken in regard to the retirement of these members of the teaching and supervising staff has been of a formal and legal character. It seems appropriate, however, that the close of their active careers in the field of education should not pass without some record being made of the Board's appreciation of their prolonged, honorable and devoted service. It may truthfully be said that the influence which they have exerted upon other members of the staff and upon uncounted numbers of children—the service in one case extending over a period of sixty-eight years—has been of immeasurable benefit to the community which they have served so long and faithfully. While many of them, doubtless, were reluctant to abandon the work to which they have given themselves unreservedly, they have, without exception, earned the retirement and leisure upon which they have entered. The Board of Education takes this opportunity to express its commendation of their good work, its appreciation of their extended service, and its wish that each and all of them may enjoy for many years the freedom from exacting cares to which they are so well entitled.

The following report of the Committee on Finance, relative to the inadequate salaries paid to employees of the Department of Education, was approved, and it was ordered that copies of the same be transmitted to the Board of Estimate and Apportionment and to the Chairman of the Committee on Finance of the Board of Aldermen: The Committee on Finance respectfully reports in connection with the resolution referred to it at the last meeting of the Board of Education, as follows: Resolved, That the Board of Education places itself on record that the policy which has been followed by the Board of Estimate and Apportionment for over three years in refusing all appropriations for the increase of the salaries of the clerical force in the Department of Education is unwise and improvident, and that the Board of Education hereby requests the Board of Estimate and Apportionment to hasten the completion of the work it undertook two years ago of grading the salaries of the clerical force in the City departments and to provide the necessary money to pay salaries commensurate with the work and responsibilities and with the progressive tendencies of modern times.

Partly from lack of funds and partly through the operation of Civil Service rules, it has been necessary for the Board of Education, for a number of years, to appoint juniors at minimum rates of pay to new positions and vacancies. There are many drawbacks to this procedure but it is a fact that from these juniors the various bureaus of the Board have trained, and are training, a very efficient and desirable class of City employees. This is evidenced by the fact that in the last few years many clerical employees have been induced, by offers of greater pay, to go to other departments or to enter commercial life. From one bureau there have been eighteen cessations of service in two years, from another sixteen, and from another bureau nine transfers to other departments have occurred, since January 1, 1911, four of which have been within the last three months. There have been some sixty of such cessations of service in two years.

Many more have received like offers, but have remained with the Board of Education through hope of merited advancement, which it is regretted the Board of Education has not been able to grant, by reason of lack of funds.

The condition now is that the great majority of clerical employees of this Board have not yet reached, after some years of service, what is considered in many other departments a minimum or beginning wage. Other departments are bidding for the services of such employees, and offering higher salaries and this Board cannot, in fairness, oppose the transfers.

It should be a fundamental proposition that employees who have had training and experience in this Department are worth more here than elsewhere. The principle that experience renders an employee more valuable is recognized in the commercial world, and business houses give their employees more or less assurance that faithful and valuable service will be rewarded. The City, generally speaking, does not recognize such principle, although some step in this direction has been taken by the Board of Estimate and Apportionment in appointing a Committee to consider the matter.

If a high state of efficiency is to be fostered and maintained, it is necessary to give employees small increases of salary at reasonably regular intervals, and that salaries throughout the City be equalized to an extent that will discourage the transfer of employees from one branch of the City service to another where, for the performance of the same labor, the employee will be paid 50 per cent. more in salary.

In connection with the large number of transfers and resignations, the Civil Service regulations regarding promotion do not operate to the advantage of the Department. The Civil Service rules require the automatic promotion from lower to higher grades according to salaries which the employees have qualified for by competitive examination, but without regard to the particular class of clerical work for which the employee may have a peculiar and temperamental aptness. The result is that each cessation of service necessitates a more or less complete shifting of duties of a number of employees who are eligible to the salary of the out-

going Clerk. The next in rank is promoted, his place in turn being filled from below, until the chain is completed by the appointment of a \$300 Office Boy. This procedure, of itself, is meritorious and just. The point is that necessity for adjustment arises so frequently as to be a positive harm from the point of office organization.

There is pressing necessity for some remedy, but your Committee is aware that nothing can be accomplished in the way of adjustment until the Budget of 1913 is under consideration. Your Committee suggests that a copy of this report be sent to the Board of Estimate and Apportionment, and that that body be urged to make a liberal appropriation in 1913 for salary increases for the clerical force of this Department.

(Action taken at this meeting in reference to Civil Service appointments, promotions, etc., has already been printed in the CITY RECORD.)

On motion, the Board adjourned at 6.10 o'clock p. m.

POLICE DEPARTMENT—CITY OF NEW YORK. OWNERS WANTED BY THE PROPERTY

period of forty (40) months.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 22nd day of March, 1912, at twelve (12) o'clock noon, at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Separate proposals must be submitted for the portion of the Lexington Avenue Route above described and for the underlying portion of the Canal Street Route above described. The Commission may accept the proposal for such portion of the Lexington Avenue Route while at the same time rejecting the accompanying proposal for such portion of the Canal Street Route. Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

Statements based upon estimates of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required on such portion of the Lexington Avenue Route and on such portion of the Canal Street Route are to be found in the schedules forming a part of the form of Contractor's Proposal. The quantities given in such schedules are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

If the contract as awarded embraces both such portion of the Lexington Avenue Route and such portion of the Canal Street Route, the Commission further reserves the right to omit such portion of the Canal Street Route upon the terms and conditions stated in the form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 5, Section No. 2-A," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in the City of New York, satisfactory to the Commission and payable to the order of the Comptroller of the City of New York for the sum of Fifteen Thousand Dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly approved.

At the time of the delivery of the contract, the Contractor will be required to furnish security to the City by giving a bond for thirty-five thousand dollars (\$35,000) if the contract as awarded embraces only such portion of the Lexington Avenue Route and fifty thousand dollars (\$50,000) if the contract as awarded embraces both such portion of the Lexington Avenue Route and such portion of the Canal Street Route. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen per centum (15%) of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal the sum of One Hundred Thousand Dollars (\$100,000) if the contract as awarded embraces only such portion of the Lexington Avenue Route and One Hundred and Fifty Thousand Dollars (\$150,000) if the contract as awarded embraces both such portion of the Lexington Avenue Route and such portion of the Canal Street Route. Thereafter there shall be so deducted and retained for such purpose ten per centum (10%) of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of the City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other Contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted, by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
