"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at http://www.nyc.gov/html/hhsaccelerator/html/ roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS) Department for the Aging (DFTA) Department of Consumer Affairs (DCA) Department of Corrections (DOC) Department of Health and Mental Hygiene (DOHMH) Department of Homeless Services (DHS) Department of Small Business Services (SBS) Department of Small Business Services (SBS) Department of Youth and Community Development (DYCD) Housing and Preservation Department (HPD) Human Resources Administration (HRA) Office of the Criminal Justice Coordinator (CJC)

To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit www.nyc.gov/hhsaccelerator

AGENCY RULES

CONSUMER AFFAIRS

■ NOTICE

Notice of Adoption

Notice of Adoption to repeal all references to home improvement salespersons in the Department's rules.

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN the Commissioner of Consumer Affairs by Local Law 31 of 2020, Sections 1043 and 2203(f) of the New York City Charter, and Section 20-104(b) of the New York City Administrative Code, and in accordance with the requirements of Section 1043 of the New York City Charter, that the Department amends Sections 1-02, 2-221, and 2-226 of Title 6 of the Rules of the City of New York.

This rule was proposed and published on August 29, 2020. No public hearing was held. Comments were due on September 28, 2020.

Statement of Basis and Purpose of Rule

As part of its consumer protection mission, the Department of Consumer Affairs ("DCA") licenses and regulates individuals and entities that perform work on private residences. Until now, DCA has issued separate licenses for home improvement contractors, who carry out such work, and home improvement salespersons, who sell jobs and negotiate contracts.

In February 2020, the City Council passed Local Law 31 of 2020, which, among other provisions, eliminated the home improvement salesperson license in the New York City Administrative Code. DCA is now amending the Rules of the City of New York to similarly eliminate all references to the home improvement salesperson license. Local Law 31 repealed the home improvement salesperson license because it was duplicative of, and redundant to, the home improvement contractor license. These amendments implement the law and eliminate unnecessary regulations in this industry.

The continued licensing of home improvement contractors will remain in place to regulate industry and protect consumers.

<u>New material is underlined.</u>

[Deleted material is in brackets.]

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

Statement of Basis and Purpose

The New York City Department of Environmental Protection ("DEP" or "Department") proposes to amend its rules governing and restricting the use and supply of water (Title 15, chapter 20 of the Rules of the City of New York ("RCNY")), to clarify language, update references to national standards and local codes, and to reflect changes in technology and practice related to the installation, repair, and maintenance of water services and service connections, and to the selection, sizing, and use of water meters. These amendments are also being made to implement the authority granted by Local Law 47 for the year 2016. Specifically, the rule establishes DEP's authority to deny a permit application and to revoke, suspend, cancel, or terminate any previously issued permit due to the non-payment of civil penalties.

These changes reflect Department efforts to improve the clarity of the rules and eliminate outdated rules and specifications. The amendments were developed partly in response to recommendations from oversight agencies.

Additionally, working with the City's rulemaking agencies, the Law Department, the Mayor's Office of Management and Budget, and the Mayor's Office of Operations conducted a retrospective review of the City's existing rules, identifying rules that should be repealed or modified to reduce regulatory burdens, increase equity, support small businesses, and simplify and update content to help support public understanding and compliance. In light of this review, DEP is proposing various plain language changes in chapter 20 of title 15 of the RCNY to help make it easier to read and understand.

In addition to the replacement of outmoded terms with current terms, the following amendments are being proposed:

- Subdivision (a) of Section 20-01 is amended to add meter attachment to the list of purposes for which a permit is required and to clarify that permits are not transferable.
- A new subdivision (b)(4) is added to Section 20-01 to provide for the denial of permit applications, and the revocation, suspension, cancellation, or termination of any previously issued permit, for unpaid fines.
- Subdivision (c) of Section 20-01 is amended to clarify the appeal process for Licensed Plumbers who have been cited for violating DEP rules.
- Subdivision (a) of Section 20-02 is amended to replace an outmoded plumbing term with a current term, as well as to clarify the conditions under which two or more tax lots may not share one service connection.
- Subdivision (b) of Section 20-03 is amended to clarify metering requirements for internal water mains, and to clarify an existing term.
- Subdivisions (f), (h), and (q) of Section 20-03 are amended to include more current technical standard references for pipe materials, mechanical piping joints and backfill requirements for service line excavation.
- Subdivision (x) of Section 20-03 is amended to delete the requirement that the meter permit be returned when the property owner does not allow the installation of the meter. This change is being made based on suggestions from the plumbing industry.
- Subdivisions (a), (b), and (c) of Section 20-04 are amended to provide updated standard references.
- Subdivisions (d) and (e) of Section 20-04 are amended to clarify the installation requirements, initial testing requirements, and annual testing requirements for Backflow Prevention Devices; and to simplify the language of the rule by splitting the initial and annual testing requirements across 2 subdivisions.
- The current subdivision (g) of Section 20-04 ("Water Hammer Arresters") is re-lettered as subdivision (h), and a new subdivision (g) is added to provide requirements for backflow device removal, decommission, relocation, or swapping. The current subdivision (h) ("Suction Tanks") is repealed.
- Subdivision (a) of Section 20-05 is amended to clarify internal water main backflow and metering requirements and to replace outdated and/or confusing plumbing terms with current terms.
- Subdivision (c) of Section 20-05 is amended to specifically reference American Water Works Association standards.
- Subdivision (d) of Section 20-05 is amended by deleting several paragraphs that repeat information already contained in an American Water Works standard, thereby simplifying the language of this rule. This subdivision is also amended to clarify DEP's ability to require meter manufacturers to submit information about the lead content of their products and to include a barcode tag that speeds processing of meter information at the time of a meter replacement or installation.
- Subdivisions (e) and (i) of Section 20-05 are amended to clarify bolt specifications, locations of electromagnetic meters and types of approved inlet and outlet valves.
- Subdivision (j) of Section 20-05 is amended to clarify that unmetered bypasses on service lines are prohibited, but that an owner such as a hospital that wishes to avoid water shutdown disruptions can install a metered bypass or have a set of two meters in parallel allowing one to remain in service while the other is replaced.
- Subdivision (s) of Section 20-05 is amended to clarify that electronic attachments used to obtain pulse data for a Building Management computer from a DEP meter are not a source of consumption data for billing purposes.
- Subdivision (t) is added to Section 20-05 to clarify that meters are the property of DEP and must be returned upon request.

- Subdivision (a) of Section 20-05 is amended to clarify internal water main backflow and metering requirements, to require replacement of lead or galvanized metal water service pipes prior to installation of a water meter, and to replace outdated and/or confusing plumbing terms with current terms.
- Subdivision (a) of Section 20-07 is amended to specifically include internal water mains as subject to DEP inspection.
- Subdivision (b) of Section 20-07 is amended to provide that Licensed Master Plumbers must request inspections and to simplify the language detailing the types of jobs and structures for which such a request for inspection is required.
- Subdivision (i) is added to Section 20-07 to add a water sampling test requirement for a job requiring the addition of taps to a new internal water main.
- Subdivision (a) of Section 20-08 is amended to remove archaic language that might prevent modern automatic faucets from using the flow of water to charge their battery.
- Subdivision (b) of Section 20-08 is amended to extend the hours of use of hydrant permits and to clarify the requirement for a backflow preventer for connections to a hydrant for purposes other than firefighting.
- Section 20-10 (the Glossary) is amended by adding four new definitions, revising 11 definitions, and removing two definitions
- The Appendix is amended by replacing 8 existing figures with 4 new figures.

The term "shall" indicates a requirement, the term "should" indicates a recommendation for good waterworks practice and the term "may" is permissive.

HUMAN RESOURCES ADMINISTRATION

■ NOTICE

NOTICE OF ADOPTION OF RULE

NOTICE IS HEREBY GIVEN THAT PURSUANT TO THE AUTHORITY VESTED IN THE COMMISSIONER OF THE NEW YORK CITY HUMAN RESOURCES ADMINISTRATION ("HRA") by section 141 of the New York Social Services Law and sections 603 and 1043 of the New York City Charter, HRA hereby adopts the following rule amending Chapter 13 of Title 68 of the Official Compilation of the Rules of the City of New York.

A proposed rule was published on October 21, 2020. A public hearing was held on November 20, 2020. Two comments were received, both in support of the rule.

Statement of Basis and Purpose of Rule

In May 2020, the Commissioner of the New York City Department of Social Services / Human Resources Administration (DSS/HRA) modified the burial allowance program via a temporary emergency rule that among other things, increased the amount of funeral expenses that would be covered for low-income fatalities of the COVID-19 pandemic. Many of the provisions of the emergency rule were made permanent by a final rule that took effect on August 31, 2020. Currently, State law only provides for partial reimbursement of burial allowances up to \$900. In other words, burial allowances of \$900 or less are partially reimbursable by the State, but any amounts paid by local social services districts above \$900 come entirely out of local funds.

The emergency rule, which remained in effect for 120 days, increased the available burial allowance from \$900 to \$1700. The final rule extended the increased allowance, making it available for applications received by DSS/HRA through December 31, 2020.

HRA now amends Chapter 13 of Title 68 of the Rules of the City of New York to make the \$1700 allowance available for applications received through June 30, 2021, while the City continues to seek a legislative change that would provide for additional reimbursement from the State. Whether there is a legislative change may affect the amounts that the City determines to be practicable in the future.

As is currently the case, the burial allowance will continue to be available to cover funeral, burial and cremation expenses.

DSS/HRA's authority for this rule may be found in section 141 of the New York Social Services Law and sections 603 and 1043 of the New York City Charter.

Text of Rule

Chapter 13 of Title 68 of the Rules of the City of New York is hereby amended as follows:

Section one. Section 13-02 of Title 68 of the Rules of the City of New York is amended to read as follows:

13-02. Temporary Increase in Burial Allowance

Notwithstanding any provision of chapter 2 of this title to the contrary, for applications submitted on or before [December 31, 2020] June 30, 2021, the allowance for burial expenses described in chapter 2 that are payable by DSS/HRA is \$1,700. This allowance can be used towards burial expenses, as defined in chapter 2, including the costs set forth in paragraphs (1) and (2) of subdivision (a) of section 13-01 of this chapter that are disregarded in determining the cap set forth in such subdivision.
