Of the increase in "Executive," \$2,916.70 occurs in the Bureau of "Registration and Passes."

The functions of this bureau comprise the issuing and recording of passes to prisoners' relatives and friends, the recording, etc., of the passing in and out of prisoners of the several institutions of the department, the auditing of fines or bail paid for discharge, the keeping of a daily census of the institutions and the compilation of all vital statistical data relative to prisoners coming under the jurisdiction of the department. This bureau is, therefore, a central information bureau in regard

to the total population of each institution and, in a measure, an auditing and statistical bureau as well. The statistics compiled are more complete and extended than formerly and show the complete departmental record of each prisoner.

This Bureau was organized during the year 1914, and in January, 1915, a prison registrar at \$1,410, a tabulating machine operator at \$720 and three clerks were appointed.

The increase in supplies is due to the installation of the tabulating machine system in 1915 and the purchase of supplies and materials necessary to carry on the work.

Bureau of Maintenance and Construction.

This bureau was put into operation in 1915. It acts as a central record or control of new construction and repair work. A Fuel and Mechanical Engineer assigned to organize this work effected a saving in heat and power plant service of approximately \$40,000 per annum.

Stable Service.

The stables maintained by the Department of Correction at various points and their cost during 1914 and 1915 follow:

Stables.	1915.	1914.	Increase or *Decrease.	Percentage of Increase or *Decrease.

The first six items are on a comparable basis and show a net increased cost in 1915, as compared with 1914, of \$446.61, or 1.16 per cent.

The expenses of these six stables are grouped below by "Personal Service," etc.:

	1915.	1914.	Increase or *Decrease.	Percentage of Increase or *Decrease.

It is possible to give for the following stables for 1915 the cost per active horse-day:

	East 20th Street.	Raymond Street.	Riker's Island.
Total Cost, as Per Statement of Department of Correction	\$19,526 44	\$8,739 13	\$1,346 31

Active Horse-days	5,021	2,560	2,219
Cost Per Active Horse-day	\$1 73	\$1 43	\$0 61

Only the first two stables are comparable, as the labor at the Riker's Island stable is performed by prisoners. The service at the first two stables was:

	East 20th Street.		Raymond Street.	
	Wages.	Cost Per Active Horse-day.	Wages.	Cost Per Active Horse-day.
Foreman	\$1,320 00	\$0 26
Stablemen	900 00	18	\$480 00	\$0 19
Totals	\$2,220 00	\$0 44	\$480 00	\$0 19

The comparison is in favor of the Raymond Street Stable, despite the fact that a number of horses charged to the East 20th Street Stable are boarded.

Steamboat and Launch Service.

Below are listed the vessels operated by the Department of Correction in 1914 and 1915 in connection with its various institutions; also the cost of operating and maintaining these vessels in the same years:

Vessel.	1915.	1914.	Increase or *Decrease.
Steamer "Correction"	\$37,191 03	\$34,863 96	\$2,327 07
Steamer "Massasoit"	13,224 16	*13,224 16
Steamer "Hart's Island"	628 00	1,678 58	*1,050 58

Steamboats, General	256 00	256 00
Total	\$53,488 55	\$65,791 77	*\$12,303 22

These figures represent a decrease in the cost of this function from \$65,791.77 in 1914 to \$53,488.55 in 1915, or \$12,303.22. This decrease, representing as it does 18.7 per cent., is especially gratifying, when considered in connection with a decrease in the previous year of 16.04 per cent. under 1913.

Practically all of the heavy freight is carried by the "Correction." The "Hart's Island" is a reserve boat and used only as a relief boat for steamer "Riker's Island." The "Massasoit" was transferred to the Department of Charities on June 30, 1914. Upon the completion of the central stores and elevator building, now under construction, to connect the island with the Queensboro Bridge roadways, a considerable reduction is anticipated in the present transportation charges.

The cost of operating and maintaining the respective vessels in 1915, the active day's service, and the cost per active day's service follow:

	Cost of Oper- ation and Maintenance.	Active Day's Service.	Cost Per Active Day's Service.
Steamer "Correction"	\$37,191 03	280	\$139 97
Steamer "Hart's Island"	628 00	114	5 51
Steamer "Riker's Island"	12,136 31	242	50 15

Total cost, 1914.....	\$65,791 77	1,071	\$61 43

The number of passengers carried in these vessels in 1915, visitors and prisoners, was 135,358, as compared with 143,941 in 1914. The freight carried in 1915 was estimated at 15,669 tons, as compared with 15,397 tons in 1914.

Dock Service.

For the operation and maintenance of the docks used by the Department of Correction the following figures are given:

	1915.	1914.	Increase or *Decrease.
Operation—Personal Service	\$1,735 00	\$2,135 81	*\$400 81
Operation—Other Expenses
Maintenance	2,064 49	2,064 49
Totals	\$3,799 49	\$2,135 81	\$1,663 68

The wages of deckhands are charged to dock service.

The cost of maintenance of \$2,064.49 consists of repairs to dock at foot of 26th St., \$101.80; Workhouse, Blackwell's Island, \$132.69; Penitentiary, Blackwell's Island, \$893, and docks at Hart's Island, \$937.

Principal Increases.

(a) City Prison, Queens—Increase \$18,774.32. The transfer of all female prisoners from the Penitentiary to this institution increased the cost of kitchen and dining room service and general care of prisoners. The average daily census in 1915 was 227, in 1914 it was 116.

(b) Workhouse, Blackwell's Island—Increase \$27,552.53, due in part to a new position of Superintendent of Women at \$1,200, created in 1915, and in part to an increase in the census from 747 in 1914 to 912 in 1915.

(c) Workhouse, Hart's Island Branch—Increase \$12,114.67. The increase in the census by 120 in 1915 over 1914 caused the increase of \$15,403.89 in the cost of kitchen and dining room service and the general care of prisoners. The increase in maintaining structures is due to a new floor throughout Dormitory No. 5 and a new cement floor in the Mess Hall. There was in 1915 a decrease of \$8,911.78 in the light, heat and power plant service cost of 1914.

(d) Workhouse, Riker's Island Branch—Increase \$35,621.94, due to the creation of the new position of Deputy Warden at \$1,920 per annum, to extensive alterations to Dormitories Nos. 1, 2, 3 and 4, at a cost of \$13,504.26, to the overhauling of the heating plant and changes in hospital and doctor's quarters, etc., and to an increase in the census by 207 inmates, causing an increase of \$20,118.80 in the cost of kitchen and dining room service and the general care of prisoners.

(e) Reformatory, Hart's Island—Increase \$8,265.03, due partly to the increased cost of medical and surgical service through the installation of a separate hospital with salaries aggregating \$1,425.16 and equipment costing \$733.49. During the year 1914 the Reformatory inmates were treated at the branch workhouse hospital. The great rise in the cost of cloth for the manufacture of reformatory uniforms due to the war accounts for the increase cost of wearing apparel. The appointment of 10 additional keepers at \$900 per annum caused the increase in the cost of general care of prisoners.

(f) Reformatory, New Hampton Farms—Increase \$32,813.52. The census at this institution increased from 36 in 1914 to 103 in 1915, and a sufficient number of keepers, senior prison artisans, instructors of industries and other employees were transferred to take proper care of the inmates.

(g) Penitentiary, Blackwell's Island—Increase \$30,707.74. This is due mainly to the increase of \$27,602.03 in the cost of kitchen and dining room service and the general care of prisoners caused by an increase in the census from 1,356 in 1914 to 1,574 in 1915, a net increase of 218.

(h) District Prisons—Increase \$4,110.46, due to the equipment of these institutions with various housekeeping necessities.

The statement following shows the average daily cost of maintaining all of the institutions and the average daily cost of each inmate:				
Year.	Total Yearly Cost, All Institutions.	Average Daily Cost.	Number Inmates Daily.	Average Cost Per Inmate Per Day.
1913	\$1,337,016 90	\$3,663 06	4,726	\$0.7751
1914	1,306,448 82	3,579 31	5,338	.6705
1915	1,478,156 73	4,049 74	6,416	.6312
In 1914 there was instituted in this department the first real attempt to record the total daily number of inmates in all the institutions of this department and to show the cost of food consumption on a per capita basis. The figures for 1913 are, therefore, probably not entirely correct. Considering the advances in food costs, the decrease in the cost per inmate in 1915 is very gratifying.				
Following are presented tabulations showing by individual prisons the average daily census of prisoners and employees, the average direct, indirect and total cost of maintaining each prisoner and the cost of food per prisoner-day and per employee-day:

Although the cost of prison service has increased \$170,187.87 in the aggregate in 1915 over 1914 the per capita cost of caring for the prisoners has been reduced. On analyzing the food costs in the various institutions of the department it was seen that in 1914 there were 1,949,208 prisoner days, the cost of which was \$319,004.76, or a daily cost of \$0.1637 for each prisoner. In 1915 there were 2,339,674 prisoner days, at a cost of \$366,856.39, or a daily cost of \$0.1568 for each prisoner, a decrease of \$0.0069 in 1915 over 1914. At the workhouses, reformatory and penitentiary the employees received three meals per day and at the city and district prisons they received one meal per day in 1915. In 1914 they all were given three meals per day. The total number of employee three-meal days in 1914 was 137,599, at a cost of \$49,008.39, or a three-meal day cost of \$0.3562. In 1915 there were 130,509 employee three-meal and 36,169 employee one-meal days, at a cost of \$47,220.71, or a three-meal cost of \$0.3312, a decrease of \$0.025 in 1915 over 1914. The one meal per day received by certain employees is usually the most expensive meal of the day, so that the actual decrease is probably even more favorable than indicated by the figures given.

The greater part of the increase in the prison service is due mainly to the increases in salary allowed a number of employees in the institutions and the appointment of additional keepers during the year to care for the increased number of prisoners committed to these institutions. In 1915 the prisoners numbered 6,416 daily and in 1914 5,346 daily, an increase of 1,070. New Hampton Farms was put into full operation in 1915, at a cost of \$44,426.53, as compared with \$11,613.01 in 1914, an increase of \$32,813.52.

As compared with 1914, the year 1915 shows an increase of \$772.37 in sales, and an increase of \$1,935.65 in "other charges" and a decrease of the percentage of profit on sales of 6.12. The difference between the materials purchased as per the industry records and the expense report for the year 1914, was caused by a lack of correlation between the two divisions of the department. The manufacturing industry closed its accounts as of Dec. 31, 1914, while the expense report shows materials that were delivered for about two months succeeding though being chargeable to the 1914 accounts.

The chief items manufactured are brooms, shoes, brushes, clothing and beds, and these articles are sold to City departments and bureaus only. These departments are required by law to purchase from the Department of Correction before going to the outside market. The chief purchasers are Charities, Correction, Street Cleaning, Police, Education, Fire and Docks and Ferries. During 1915, the cost of raw materials for manufacture began to rise, but the sales prices to the City departments remained practically stationary. In 1916, the selling prices of the finished products were increased to keep pace with the rising costs of raw material. The net profit derived from this source is placed in a special fund and used to buy more material. If this fund exceeds \$50,000 the excess is returned to the General Fund.

The articles manufactured appear in the statement below:

6. General Remarks.

1. The total expenditures of the department for 1915, excepting those for the manufacturing industries, were \$1,478,156.73, or \$172,707.91 in excess of similar expenditures for 1914. Substantially all of this increase was in prison service.

This increase would seem to be satisfactorily explained by the increase in the number of inmates in the various institutions, accompanied, as it is by a reduction in the unit cost:

Year.	Average No. of Inmates Daily.	Average Cost per Inmate per Day.
1913	4,726	\$0.7751
1914	5,338	0.6705
1915	6,416	0.6312

This is a good showing. Similar information available soon after the close of the particular month under consideration should enable the executive to trace the reasons for the increases or decreases and to take prompt advantage of such information.

2. The character of the information furnished us as to the net profit on the manufacturing industries convinces us that the accounts pertaining to them are not properly handled. Prices for raw materials increased heavily in 1915, but the selling prices to cover such increases do not appear to have been advanced until 1916. Had accurate profit and loss statements been furnished monthly, the decrease in profits would have been detected immediately and the advances in the prices charged could have been made in 1915 and not delayed until 1916.

3. Despite the greatly increased number of inmates in the correctional institutions in 1915 there is a heavy decrease in the amount of fines collected there and forwarded to the City Chamberlain. The reason for the decrease in the collection of fines was explained by the Commissioner of the Department of Correction as follows:

"In the higher courts there has been a steady campaign to reduce the number of fines and impose jail sentences, as the practice of imposing fines as punishment is manifestly unfair to the poorer classes, inasmuch as the rich man can go free while the poor man must serve sentences. This is proven by the collection of fines at the Court of Special Sessions, where a decrease of \$32,371 is shown in fines collected during the year 1915 when compared with the year 1914, although the lower courts show an increase."

4. The cost of food per employee day and per prisoner day, while less in 1915 than in 1914, and more uniform in the various institutions, still show considerable divergence, and it is possible that further investigation of them may lead to further reductions.

5. The statement of receipts for Federal, State, County and Sheriff's prisoners does not indicate the profit or loss to the City in connection with such service.

The expense records, installed in the department in 1913, show that the cost of maintaining a prisoner one day at the City institutions during the year 1914 was 67 cents. This amount includes the direct cost of maintenance at the institution, plus a proportion of the cost of general administration, but does not include the cost of carrying the City's investment in land, buildings, equipment, etc., which cost is very large.

On January 1, 1916, the rates for boarding both Federal and County prisoners on Blackwell's Island were fixed at 67 cents a day. It is doubtful if the new rates fully reimburse the City for the cost of these prisoners, notwithstanding the fact that the prisoners do considerable work which otherwise would have to be paid for by the City.

As regards the compensation for State prisoners the rate of 45 cents a day for tramps is paid pursuant to chapter 151 of the Laws of 1915, and the rate of 30 cents a day for felons was fixed by chapter 372 of the Laws of 1895. For the nine months ending June 30, 1916, the City cared for State prisoners as follows:

Tramps.....	4,750 days at 45 cents	\$2,137 50
Felons.....	116,221 days at 30 cents	34,866 30
Total.....	120,971 days.....	\$37,003 80

—an average of \$0.306 per prisoner day.

Had the City received 67 cents per prisoner instead of 30.6 cents the additional receipts for the nine months would have been \$44,033.44, or at the rate of over \$58,000 per annum. Respectfully,

R. B. McINTYRE, Supervising Statistician and Examiner.
