Resolved, That the sum of two thousand dollars (\$2,000) be and hereby is transferred from the following appropriations made to the Health Department for the year 1896, and as follows:

"Health Fund—For Disinfection," \$1,000; "Rents—Health Department, etc.," \$1,000—\$2,000.

—the same being in excess of the amounts required for the purposes thereof, to the appropriation made to the same Department for 1896, entitled "Health Fund—For Contingent Expenses," the amount of said appropriation being insufficient.

Which was adopted by the following vote: Affirmative—The Mayor, Comptroller and Counsel to the Corporation—3.

The Counsel to the Corporation and Comptroller, to whom was referred July 20, 1896, a communication from George B. Post, dated July 1, 1896, requesting the fixing of his compensation as Supervising Architect, presented the following report:

LAW DEPARTMENT, OFFICE OF THE COUNSEL TO THE CORPORATION, NEW YORK, October 5, 1896.

Sir—The Board of Estimate and Apportionment, at a meeting held on the 20th day of July, 1896, referred to the Comptroller and Counsel to the Corporation a communication from Mr. George B. Post, Supervising Architect, appointed to represent the Board of Estimate and Apportionment, as provided by chapter 626 of the Laws of 1896, which was the statute providing for the erection of a new Tombs and other buildings under the jurisdiction of the Department of Correction.

Mr. Post's letter asks several questions and makes several suggestions respecting his retainer and employment.

The statute provides that before proceeding to erect any building or any addition to, or extension of, an existing building, or to make any alterations or improvements, the Commissioner of Correction may from time to time present to the Board of Estimate and Apportionment a statement of any work proposed to be done, with the plans and specifications therefor, and an estimate of the approximate probable cost thereof, whereupon the said Board of Estimate and Apportionment may, by resolution, authorize said work to be done wholly or in part.

The act further provides:

"The said commissioner of correction and the said board of estimate and apportionment are each hereby authorized to employ a competent architect to prepare or examine any plans for any work proposed to be done under the provisions of this act."

Mr. Post asks, in his communication, that the scope of his duties and his compensation should be clearly fixed and defined. He calls attention to the fourth section of the act, which provides that it shall be the duty of the architect employed by the Board of Estimate and Apportionment to examine any plans and specifications, and asks:

First—Whether the examination of plans and specifications referred to is intended to include a consideration of the engineering questions connected with the entire matter, and an examination into the efficiency of the construction to meet the engineering demands; or whether it is simply to examine into and report with regard to the economic and artistic excellence of the designs.

So far as this question is concerned, it appears to us to be quite clear that the architect employed by the Board of Estimate and Apportionment should make a thorough and comprehensive examination of the plans and specifications, as well from the standpoint of their economic and artistic excellence as from the standpoint of the engineering possibilities of the efficiency of their construction, to meet the engineering demands and the other demands which will be made upon the buildings.

The duty of the Board of Estimate and Apportionment in regard to any such building is to satisfy itself not only that the proposed expenditure is proper from an economic standpoint, but also that the building when completed will be such in one as the members of the Board are willing to approve in every respect; and since the architect employed by them is to act as their adviser and as the person upon whose judgment they will rely, we think his examination and report should be most comprehensive in its character.

Mr. Post further asks whether the architect of the Board of Estimate and Apportionment is to examine into the cost of furniture and fixtures alone, or whether the language of the act relating to cost extends to the entire structure.

As to this question, we think it is entirely clear that his advice to the Board should relate to the entire cost of the building, including the cost and efficiency of the proposed furniture and fixtures.

Mr. Post very properly suggests that these questions should be definitely answered before any serious amount of work is done, and that a fixed compensation should be established saying that if the architect of the Board is appointed as the consulting architect to examine such matters as may be referred to him by the Board and to report, it is usual that the compensation should be in the nature of a salary at so much a month for such services.

We are disposed to concur in this suggestion made by Mr. Post, and we think that it would perhaps be better that he should be paid a definite salary, so that the Board might feel that he considered himself to be permanently engaged and to be responsible to it not only for the excellence of the plans and the sufficiency of the specifications, but also for the proper completion of the work under such plans and specifications.

Yours, very truly,

FRANCIS M. SCOTT, Counsel to the Corporation; ASHBEL P. FITCH, Comptroller.

Which was laid over.

The Comptroller presented the following:

CITY OF NEW YORK, FINANCE DEPARTMENT—COMPTROLLER'S OFFICE, October 5, 1896.

To the Board of Estimate and Apportionment:

Chapter 475 of the Laws of 1895, entitled "An Act Relative to the Repayment of Streets and Avenues in the City of New York," provides for the issue of bonds for the payment of the expenses incurred thereunder. It also provides that "said bonds shall not be issued to a greater amount in the aggregate than three million dollars, and not more than one million dollars of said bonds shall be issued in any one year, beginning from the first of January, eighteen hundred and ninety-five."

During the year 1895 the Board of Estimate and Apportionment designated certain streets and avenues to be repaved, pursuant to the provisions of said act, and on June 26, 1895, authorized the issue of one million dollars of bonds to provide for the expense of said repaving.

During the year 1896 the Board of Estimate and Apportionment has authorized the Commissioner of Public Works to repave an additional number of streets and avenues, pursuant to said act, the aggregate cost of which will closely approximate one million dollars. Thus far, however, no bonds to provide for the payment of these expenses have been authorized, and in order to provide the means for the payment of the contracts entered into by the Commissioner of Public Works, under the aforesaid resolutions of the Board adopted during the current year, I offer for adoption the following resolution.

Respectfully,

ASHBEL P. FITCH, Comptroller.

Resolved, That the Comptroller be and he is hereby authorized and directed to issue, from time to time, as may be required, bonds or stock of the Mayor, Aldermen and Commonality of the City of New York, as authorized by chapter 475 of the Laws of 1895, and in accordance with section 132 of the New York City Consolidation Act of 1882, to an amount not exceeding one million dollars (\$1,000,000), redeemable in not less than ten nor more than thirty years from the date of issue, as the Comptroller shall determine, and bearing interest at a rate to be fixed by the Comptroller, not exceeding three and one-half per cent. per annum; the proceeds of which bonds or stock shall be applied to the payment of the expenses to be incurred in repaving such streets and avenues as have been or may be designated for repaving under the provisions of said chapter 475 of the Laws of 1895.

Which was adopted by the following vote: Affirmative—The Mayor, Comptroller and Counsel to the Corporation—3.

The following communication was received:

BOARD OF ESTIMATE AND APPORTIONMENT, MAYOR'S OFFICE, CITY HALL, WEDNESDAY, October 14, 1896, 11 o'clock A.M.

The Board met in pursuance of a resolution adopted September 28, 1896, for the purpose of considering the Provisional Estimate for the year 1897.

Present—William L. Strong, the Mayor; Ashbel P. Fitch, the Comptroller; John Jeroloman, the President of the Board of Aldermen; Edward P. Barker, the President of the Department of Taxes and Assessments; Francis M. Scott, the Counsel to the Corporation.

The minutes of the meeting held October 6, 1896, were read and approved.

The Comptroller presented the following:

CITY OF NEW YORK—FINANCE DEPARTMENT, COMPTROLLER'S OFFICE, October 8, 1896.

To the Board of Estimate and Apportionment:

GENTLEMEN—Assessment Bonds of the Corporation of the City of New York, amounting to \$1,450,000, mature on November 1, 1896. Under section 150 of the Consolidation Act authority is given to borrow on the credit of the corporation, from time to time, such amounts as may be required to meet the deficiencies caused by delay in collecting arrears of assessments. The money

in the Street Improvement Fund are insufficient to redeem these bonds, and I therefore offer the following resolution, providing in effect for their renewal for the term of five years.

Respectfully,

ASHBEL P. FITCH, Comptroller.

Resolved, That, pursuant to the provisions of section 150 of the New York City Consolidation Act of 1882, the Comptroller be and he is hereby authorized and directed to issue Assessment Bonds of the Corporation of the City of New York to the amount of one million four hundred and fifty thousand dollars (\$1,450,000), to redeem bonds issued under the authority of section 144 of said Consolidation Act maturing November 1, 1896, at a rate of interest not exceeding three per cent. per annum, and for such period as the Comptroller may determine, not exceeding five years from the date of issue.

Which was adopted by the following vote: Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments and Counsel to the Corporation—5.

The following communication was received:

DEPARTMENT OF PUBLIC CHARITIES, COMMISSIONER'S OFFICE, NEW YORK, September 30, 1896.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—It is the desire of this Department to purchase from the American Down Draft Boiler Company one steam boiler and attachments for the sum of \$1,266.50.

We specify this particular make of boilers for the reason that it will enable us to burn bituminous coal, thereby effecting a very considerable economy to the Department.

This boiler is patented in construction and therefore cannot be built under specifications duly advertised. It gives the greatest possible amount of efficiency for the space occupied.

We have investigated the matter very thoroughly and inspected several plants now in operation within the city, and would therefore respectfully urge that we be allowed to purchase this titled boiler, under such specifications as may be approved by your Honorable Board.

The boiler is needed at the earliest possible moment, and it is by direction of the Corporation Counsel that this letter asking authority for its purchase is addressed to you.

If permission is granted by your Honorable Board, it is the intention of this Board to pay for the boiler out of the appropriation entitled "Additions and Alterations to Buildings and Apparatus, including Baths and Steamboats."

Very truly yours,

S. C. CROFT, President.

1,000 lbs. No. 1 clean, white Oats, clipped.

150,000 lbs. fresh, clean, sweet Bran.

Second—To deliver at the various houses of the Department south of One Hundred and Seventy-sixth street, at such times and in such quantities as may be required. The articles to be inspected and weighed at the several places of delivery by an Inspector in the presence of the officer or other employee in charge. The weighing to be upon beam scales furnished by the Department and inspected by the contractor.

No estimate will be received or considered after the hour named.

The terms of the agreement, with specifications, showing the manner of payment for the articles, and list, showing locations of places of delivery, may be seen and forms of proposals may be obtained at the office of the Department.

Proposals must include all the items, specifying the price per cwt. for Hay and Straw and per bag for Oats and Bran.

Bidders must write out the amount of their estimate in addition to inserting the same in figures.

The award of the contracts will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall present the same in a sealed envelope to said board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The Fire Department reserves the right to decline any and all bids or estimates, and to accept the lowest proposal, as may be deemed to be for the public interest.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person is so interested it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of Five Thousand (\$5,000) Dollars, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the

Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of Two Hundred and Fifty (\$250) Dollars. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be re-advertised and relet as provided by law.

ESTIMATES FOR REMOVAL OF THE PIER

at the foot of West Twelfth street, on the North river, will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, on Pier "A," foot of Henry place, North river, in the City of New York, until 12 o'clock M. on

FRIDAY, OCTOBER 25, 1896.

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, to the sum of three Hundred and Fifty Dollars.

The Engineer's estimate of the nature, quantities and extent of the work is as follows:

1. Labor of removing the existing pier and dumping load covering an area of about 7,500 square feet, including about 115 lineal feet of sewer.

N. B.—Bidders are required to submit their estimates upon the following explicit conditions which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the Engineer's estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, shall be actually performed at the price tendered to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days from the date of the receipt of a notice from the Engineer-in-Chief of the Department of Docks that the work may be begun, and the entire work is to be fully completed on or before the expiration of three weeks after said date, and the damages to be paid by the contractor for each day that the contract may be uncompleted after the time fixed for the fulfillment thereof has expired, are, as a clause in the contract, fixed and liquidated at One Hundred Dollars per day.

All the old material taken from the structures to be removed under the contract will become the property of the contractor, and bidders must estimate the value of such material when considering the prices for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be read. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay from any cause in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the receipt of a notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be re-advertised and relet, and as an award it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person is so interested the estimate shall distinctly state the fact; also that the estimate is made without any consultation, connection or agreement with, and the amount thereof has not been disclosed to, any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member or in which he is directly or indirectly interested, or of which he has knowledge, either personal or otherwise, to bid said labor or material, or to keep others from bidding thereon; and also that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or any other officer or employee of the Corporation of the City of New York, or any of its departments, is directly or indirectly interested in this estimate, or in the supplies or work to which it relates, or in any portion of the profits thereof, and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by the bidder or anyone in his behalf with a view to influencing his action or judgment in this or any other transaction heretofore had with this Department, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or

refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work to be done, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as surety, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Commissioners of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Controller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be delivered to the officer or clerk of the Department who has charge of the estimates, and an estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation on any debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED BY THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, which includes, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Engineer-in-Chief.

The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimate for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office, with the securities offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect to do so, he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be re-advertised and reset, and so on until it is accepted and executed.

Bidders are requested to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if an individual person or so interested the estimate shall distinctly state the fact; also that the estimate is made without any consultation, intention or agreement with and the amount thereof has not been discussed in any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member, or in which the bidder is directly or indirectly interested, or of which the bidder has knowledge, either personal or otherwise, to bid a certain price or not less than a certain price for said labor or material, or to keep others from bidding thereon; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or any other officer or employee of the Corporation of the City of New York, or any of its departments, is directly or indirectly interested in this estimate, or in the supplies or work to which it relates, or in any portion of the profits thereof, and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by the bidder or anyone in his behalf with a view to influencing his action or judgment of such officer or employee in this or any other transaction heretofore had with this Department, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is required that the verification be made and subscribed to by all the parties interested.

In case a bid shall be submitted by or in behalf of any corporation, it must be signed in the name of such corporation by some duly authorized officer or agent thereof, who shall also subscribe his own name and office. If practicable the seal of the corporation should also be affixed.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance, and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The adequacy and sufficiency of the security offered will be subject to approval by the Commissioners of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Controller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be delivered to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

In case there are two or more bids at the same price, which price is the lowest price bid, the contract, if awarded, will be awarded by lot to one of the lowest bidders.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED BY THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

Such check or money must not be inclosed in a sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-book, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. The Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards reserves the right to reject all bids received for any particular work if he deems it for the best interests of the City.
