INTRODUCTION

The New York City Council established reporting requirements for a variety of city agency initiatives related to food (Local Law 52 of 2011). The Food Metrics Report provides a snapshot of data from those programs in 2015 as well as trends over the past three years. These metrics show great progress over the past few years in addressing a number of needs still present in the food system.

We continue to expand this report to encompass the broad range of programs and initiatives that the City is doing to address food insecurity; improve City food procurement and food service, increase healthy food access and awareness, and support a more sustainable and just food system.

The Food Metrics Report serves as a resource for New Yorkers to understand the role City government can play in addressing the food needs of our City's residents. However, our success relies upon our partnership with communities, advocates, non-profit organizations, and the private sector to work towards a stronger food system that is environmentally sustainable and resilient, and which works better for producers of food, workers in the food system, and consumers of food, regardless of income.

Section 1

Addressing Food Security in New York City

Food insecurity is the lack of access, at times, to enough nutritionally adequate food for an active, healthy life for all members of a household. Food-insecure families may worry that food will run out before they have enough money to buy more, eat less than they should, or be unable to afford to eat balanced meals.

Food insecurity disproportionately impacts certain groups. These are households with low income, unemployment and underemployment, as well as households headed by Blacks and Hispanics, and households with children^{1,2,3}. Increasingly, families that are food insecure have one member of the household that is working. Adults who are food insecure are more likely to experience cardiovascular disease, and have difficulty managing and improving chronic illnesses^{5,6,7}. Food insecurity is also associated with overweight, because families may be forced to sacrifice food quality in order to get enough food⁸.

Food insecurity is especially harmful for children. The consequences of childhood food insecurity, including poor health outcomes, can be devastating and long-lasting. They include more frequent hospitalizations of young children with very low food security, birth defects in children born from food insecure mothers, greater risk of iron deficiency anemia, and poor academic performance^{9,10,11,12}.

New York City is committed to working towards a city where everyone has enough nutritious food to eat, through a range of initiatives in partnership with community-based and nonprofit organizations. We support the city's emergency food providers with the purchase of nutritious food, and are working to connect food-insecure New Yorkers with food assistance through public awareness campaign and targeted outreach to those that are potentially eligible for benefits.

Food Insecurity In New York City

The USDA monitors the extent and severity of food insecurity in U.S. households through an annual, nationally representative survey.

At least some time during 2013
1.36 Million New Yorkers
were **food insecure**

nearly **one in five** children
live in **food insecure** households¹³

The Meal Gap

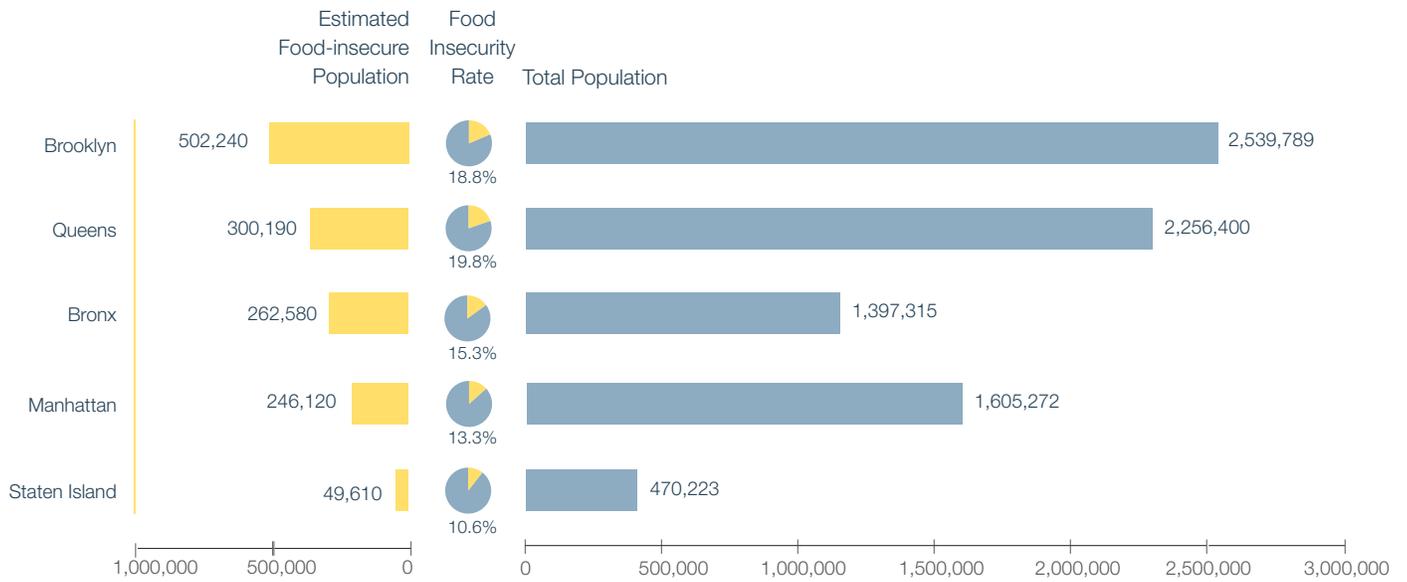

Feeding America has done analysis to project national food insecurity data to the county level and identify where there is a Meal Gap, the meals missing from the homes of families and individuals struggling with food insecurity.

Currently,
New York City is
missing

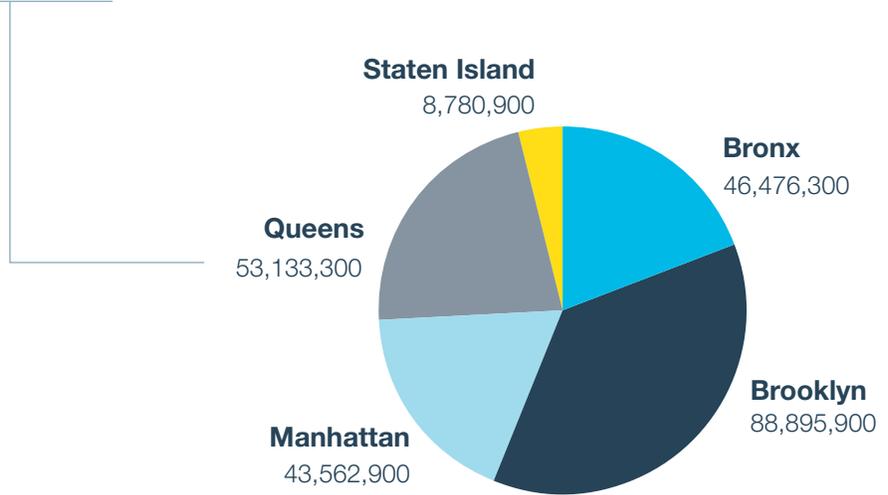

241
million
meals

A large, rounded rectangular graphic with a blue background. At the top, the text "Currently, New York City is missing" is written in white. In the center, a large red circle contains the text "241 million meals" in white, bold font.

Snap Benefits for Seniors*

Many seniors in New York City do not receive the food assistance they are eligible for. Over the past few years, the Human Resources Administration (HRA), the Department for the Aging (DFTA), and the Food Bank for New York City have worked together to identify senior citizens eligible for but not receiving SNAP benefits through a computer match with the Senior Citizens Rent Increase Exemption (SCRIE) program.

Supplemental Nutrition Assistance Program (SNAP) enrollment among seniors has gone up over the past three years. On average in FY 2015, there were 299,147 NYC residents 65 years or older receiving SNAP benefits each month.

one in ten senior New Yorkers lives in a household with insufficient food

Senior SNAP enrollment

SNAP Outreach Programs*

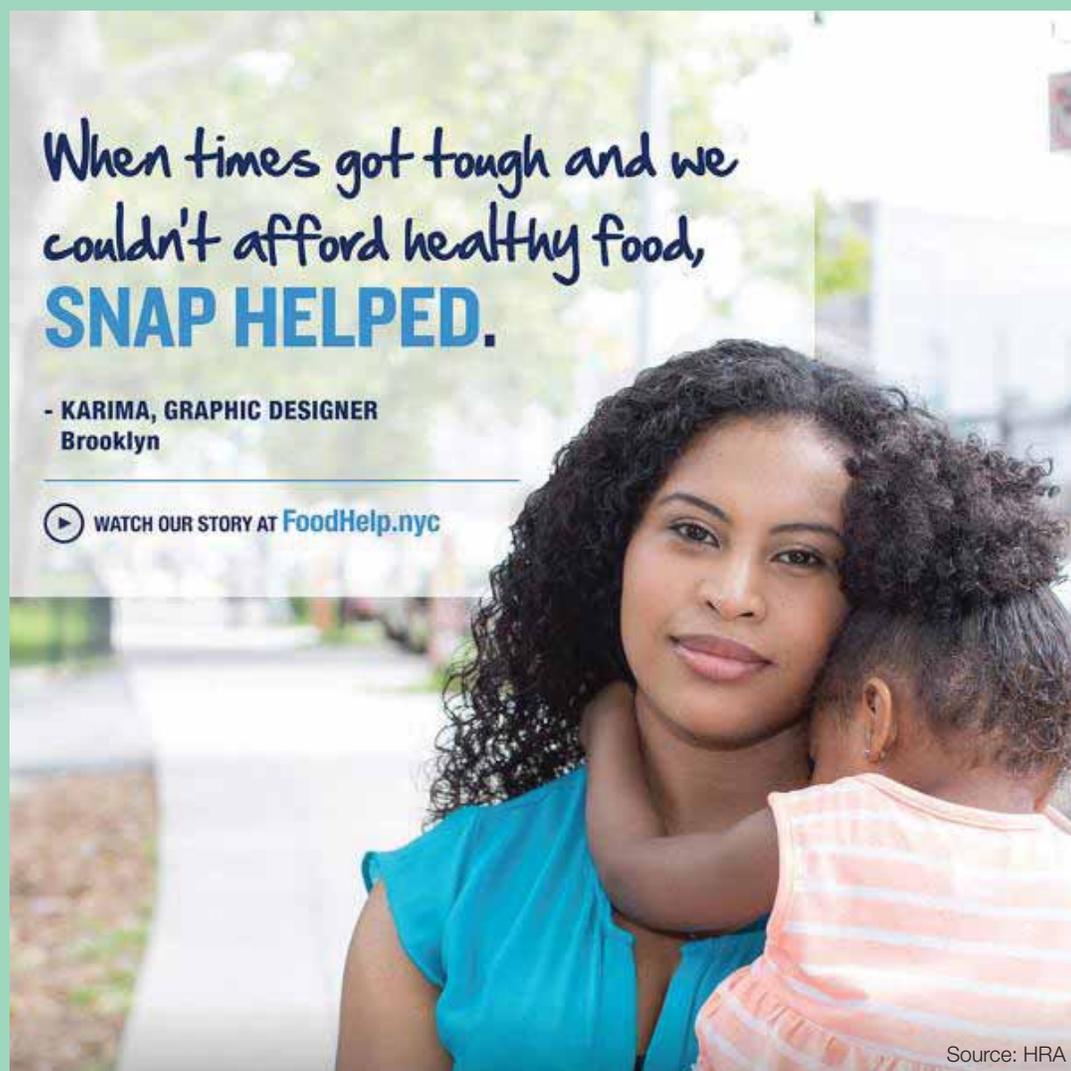

HRA's Office of Supplemental Nutrition Assistance Program Outreach Services (SNAP-OS) seeks to maximize the City's use of federal programs available to increase purchasing power of low-income New Yorkers by educating the public about SNAP benefits. SNAP-OS' services include SNAP trainings and presentations; prescreening potentially eligible applicants; and assisting with the SNAP application process. Over the past three years, HRA has grown this program by increasing the budget, the number of outreach sites, and the total number of presentations.

In FY 2014, SNAP-OS conducted outreach at 262 unduplicated sites and three facilitated enrollment (POS) sites. In addition, this program conducted 60 presentations at various community-based, human services, and government organizations, and monitored SNAP outreach activity at 91 community based organizations. The budget for this program for FY 2014 was \$2,532,068.

* Throughout this report, metrics that are required pursuant to Local Law 52 of 2011 are delineated with an asterisk.

FoodHelp.nyc

In order to reach more New Yorkers who qualify for SNAP, HRA launched a major SNAP outreach campaign in April 2015 targeting the two largest unenrolled but eligible groups – seniors and immigrants. The centerpiece of the campaign is a marketing website, foodhelp.nyc, which includes videos featuring real SNAP clients sharing stories of how the program helped them, links to the newly redesigned ACCESS NYC site where people can apply, and an interactive map with the locations of food pantries, community kitchens and in-person SNAP application locations.

Section 2

Improving City Food Procurement and Service

New York City serves approximately 250 million meals and snacks per year. Over 177 million meals a year are served in New York City schools, at approximately 1800 schools in the five boroughs.

In addition to schools, New York City either directly or through its nonprofit partners serves an additional 72 million meals in homeless shelters, child care centers, after school programs, correctional facilities, and public hospitals and care facilities.

The Department of Correction (DOC) prepares and serves 35,000 meals per day for inmates and staff. The Department operates its own bakery facility on Rikers Island, which prepares approximately 4,100 loaves of bread daily, plus cakes for special occasions. The Department for the Aging (DFTA) serves over 41,000 meals daily through home-delivered meals and at senior centers, which often include dishes representing the cultures of origin of the meal recipients. The Administration for Children's Services (ACS) prepares fresh meals on site for approximately 2750 residents in secure juvenile detention facilities and group homes, as well as meals for approximately 15,000 children and youths awaiting foster care placements every year. ACS also administers the largest publicly-funded childcare system in the country, serving meals and snacks to approximately 30,000 children in child care centers throughout the five boroughs.

New York City continues to utilize the scale of its food procurement and food service programs to purchase and provide food that meets high nutrition standards, and where possible, is sourced regionally, to millions of New Yorkers.

Agency Meals and Food Standards*

The Agency Standards for Meals/Snacks Purchased and Served (Standards) were established by Mayoral Executive Order 122 and set nutrition requirements for the foods purchased and meals and snacks served by City agencies. The Standards have been an integral part of the City's effort to increase access to healthy foods by improving the nutritional quality of food served in City programs. They were first distributed in September 2008, went into effect in March 2009, and have since been revised every three years. Agencies have an average compliance rate of 96% for the applicable standards.

The Department of Citywide Administrative Services (DCAS) is responsible for purchasing and inspecting food products for City agencies, except for schools, including for the Department of Correction, Human Resources Administration, Administration for Children's Services, and drinking water for all City agencies. DCAS works closely with client agencies to develop specifications and solicitations that provide high quality food products at the lowest net cost.

Eleven City agencies are currently implementing the Standards, which apply to more than 250 million meals and snacks served per year across a variety of settings, including schools, senior centers, homeless shelters, public hospitals, and correctional facilities, among others. See Appendix H for full data on agency food standards.

School Food

**In FY 2015
NYC Schools spent
\$27.3 million on
local produce, milk,
and yogurt**

Photo Credit: Rob Bennett | Mayoral Photography Office

The Department of Education (DOE) has the largest school food service program in the United States with about \$200 million in annual purchases of food, and uses its purchasing power to lead the market. DOE's Office of School Food (SchoolFood) has made the procurement of local and fresh food a priority, as well as sourcing sustainable and healthy products.

In May 2015, SchoolFood replaced all Styrofoam trays with compostable plates made from 100% renewable materials, removing 128 million polystyrene trays per year from New York City's landfills and waterways. In December 2014, SchoolFood, along with the five other school districts making up the Urban School Food Alliance, announced a new antibiotic-free standard for chicken supplied to schools and seeks to continue to improve offerings for city students by leveraging the collective

influence of these cities. In order to educate our students about the food offered to them, SchoolFood launched a student-driven visual menu in the spring of 2015. Students from all five boroughs visit SchoolFood to evaluate new products and learn about school food service.

During the 2014-15 school year, over 1600 students visited and sampled products to determine if they should be on their menus. Once approved these items were highlighted on visual menus which allowed families and students to clearly see the menu item being offered. In Fiscal Year (FY) 2015, not including distribution costs, DOE spent \$27.3 million on produce, milk, and yogurt that was locally or regionally grown or produced. Of that, \$7.3 million was spent on produce, and \$20 million was spent on milk and yogurt. This represents a 6% increase in the amount spent on local and regional products.

**120
schools
registered**

Garden to Café Program

With the support of DOE's Office of SchoolFood, the Garden to Café Program connects school gardens to their cafeterias with the goal of increasing students' knowledge of healthy food, farming, and the local food system. The program features harvest events in which food grown in the school garden is incorporated into school meals via menu items or the cafeteria for tastings. The program has continued to expand, and currently has over 120 schools registered.

In addition, Garden to Café was awarded a Farm to School Grant from the United States Department of Agriculture to initiate a two-year pilot program. The pilot will focus on 16 schools in Upper Manhattan, the Bronx, Bedford-Stuyvesant and East New York and offer an arrangement of experiential learning opportunities with such partners as Grow to Learn and GreenThumb, the Greenmarket Youth Education Project, aquaponics farm Oko Farms, The Queens County Farm Museum and Leave It Better.

Department of Education Vending Machines*

For the most recent contract year, there were 2,450 beverage vending machines and 900 snack vending machines located in facilities operated by the Department of Education. Their gross sales were \$4.3 million and \$5.7 million, respectively.

Salad Bars in Schools and Hospitals*

DOE has installed salad bars in over 1,000 city schools as part of its efforts to provide healthy vegetables to students. NYC Health + Hospitals offers salads in either prepackaged or made to order form by on site food vendors in eleven facilities: in Manhattan at Bellevue, Metropolitan, Harlem, and Coler; in the Bronx at Jacobi Medical Center and Lincoln Medical Center; in Brooklyn at Coney Island Hospital, Kings County, and Woodhull Hospital; and in Queens at Elmhurst and Queens Hospitals. NYC Health + Hospitals also has salad bars at Kings County (Brooklyn), Jacobi (Bronx), Woodhull Medical and Mental Health Center (Brooklyn), and Coney Island (Brooklyn).

Bottled Water Expenditures*

DCAS purchases bottled water primarily for routine service to agency offices in multiple City-owned or leased facilities throughout the city. In FY 2012, DCAS registered a water purification unit installation and maintenance contract to reduce water purchases over time.

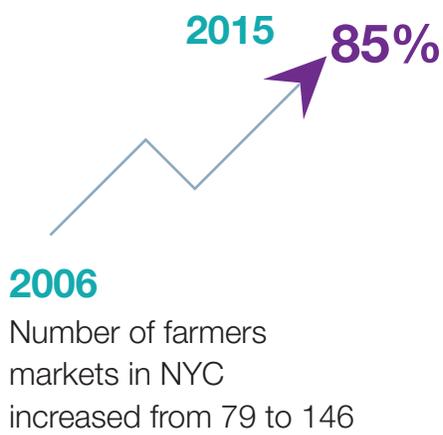

DCAS expenditures on water for FY 2015 were \$414,623 for bottled water in 5 gallon demijohn (including cooler rental) and \$18,120 for single serve bottles. Purchases of 5-gallon demijohns and single serve bottles continue to decline compared to previous years, while usage of water purification units increase. As agencies continue to adopt water purification units, it is anticipated that bottled water purchases will decline.

Section 3

Increasing Healthy Food Access and Awareness

New York City is committed to working beyond the emergency food provider network and institutional food infrastructure to improve access to affordable healthy food in the retail environment. We know that depending on where they live, New Yorkers see significant disparities in their retail food options.

Our healthy food access strategy includes a growing suite of initiatives and programs to make it easier to access local produce, increase purchasing power for fruits and vegetables, and provide education and resources for preparing balanced meals at home. We are working across agencies to partner with supermarkets, neighborhood grocery stores, and corner stores to improve healthy food availability for consumers in all neighborhoods.

As of July 2015, **670 stores** have participated in **Shop Healthy**

7,700 nutrition workshops and cooking demonstrations by Stellar Farmers' Market since 2009

SNAP-Ed served **2,114,947** participants during FY 2014

Farm to Preschool Program

10 preschool sites participated
24,000 lbs of produce purchased

FRESH

Since 2009, 20 projects approved - 10 projects completed
590,000 Million sqft of retail space
 retain over **500 jobs**
 create over **920 jobs**
 approximately **\$80 Million** in investment

Eat Well Play Hard worked with
 463 child care centers
 70 public schools
 reached 65,500 children, parents, and staff
 since 2008

Fruit and Vegetable Consumption

Increased fruit and vegetable consumption is associated with decreased risk of chronic diseases such as hypertension, heart disease, and stroke, but not all New Yorkers consume the same amount. The 2013 Community Health Survey reported the lowest levels of consumption were among black and Hispanic New Yorkers, those with low education levels, and those living in high-poverty neighborhoods.

The City's goal, announced in OneNYC in April 2015, is to increase the average number of servings of fruits and vegetables adult New Yorkers eat every day by 25 percent, from 2.4 to 3 mean servings, over the next twenty years.

Mean Daily Servings of Fruits and Vegetables by Community District, CHS 2011-2013

Source: New York City Community Health Survey

New York City Farmers Markets

Farmers markets play an important role in addressing disparities in access to healthy foods by providing an additional healthy retail outlet in the neighborhoods they serve. The farmers markets in New York City are run by 36 different operators, including Harvest Home and Greenmarket, as well as many community-based, non-profit organizations. Some of these operators, such as Harvest Home, specifically serve low-income neighborhoods, with the goal of increasing access to farm fresh local produce.

Several farmers markets are located at city health care facilities, such as the Pitkin Verde Farmers Market in Cypress Hills, and the Lincoln Hospital Greenmarket. Other farmers markets, such as the Youthmarket Farm Stands operated by GrowNYC, employ neighborhood youth, providing them with jobs and small business skills. The number of farmers markets in New York City has increased from 79 in 2006 to 146 in 2015. 135 of these markets accept EBT.

Greenmarkets*

Greenmarket – a program of GrowNYC – is the largest farmers market operator in the city. Its 54 market locations can be found throughout the five boroughs. For a list of the number of Greenmarkets in NYC as well as the average number of producers at each market sorted by borough, see Appendix K.

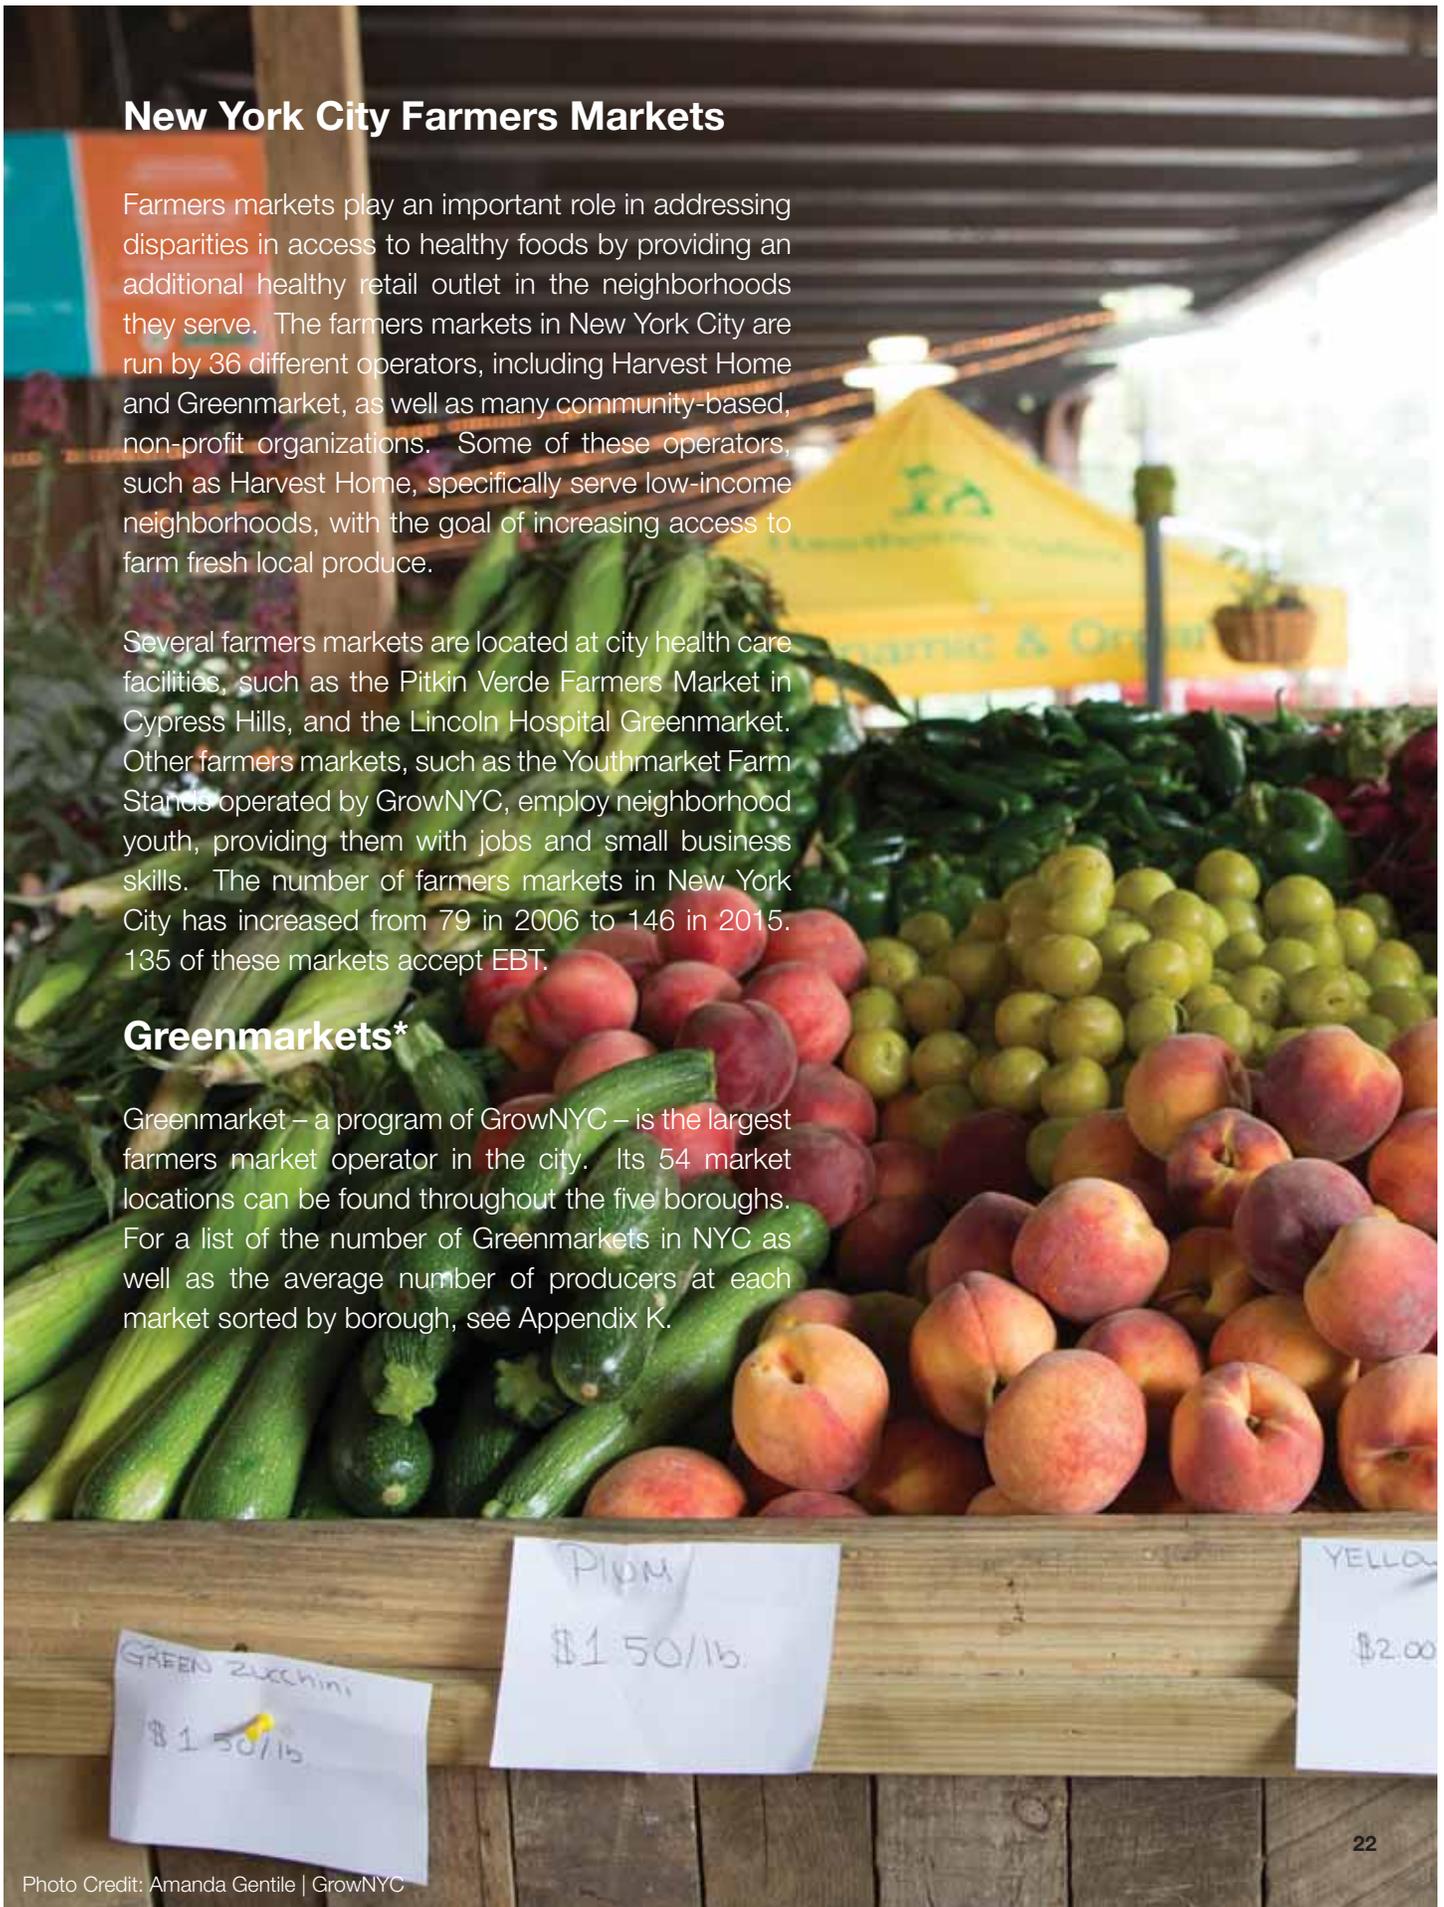

Photo Credit: Amanda Gentile | GrowNYC

Health Bucks

\$2 coupons redeemable for fresh fruits and vegetables at all NYC farmers markets provide low-income New Yorkers with additional purchasing power to buy fresh, locally-grown produce at more than 140 farmers' markets across NYC. Health Bucks are distributed as a Supplemental Nutrition Assistance Program (SNAP) incentive – for every \$5 spent in SNAP benefits (food stamps) at the market, beneficiaries receive a \$2 Health Bucks coupon – and through more than 325 community-based organizations as part of nutrition and health programming.

DOHMH provides farmers' market operators with Health Bucks coupons, promotional signs and banners advertising the benefit. Through a grant from the Centers for Disease Control and Prevention (CDC), the Health Department is working with a local not-for-profit organization to provide funding to more than 25 community-run farmers' markets to support an Electronic Benefits Transfer (EBT) machine operator to accept Supplemental Nutrition Assistance Program (SNAP) benefits and distribute Health Bucks at the market.

Farm to Preschool and Expansion of Food Box Programs

The Farm to Preschool Program is a partnership between the New York City Department of Health and Mental Hygiene (DOHMH), GrowNYC, and Corbin Hill Food Project. The program brings fresh, locally grown fruits and vegetables to participating preschools, giving parents, staff, and community members weekly access to much needed produce. Each week, during the New York City farmers' market season (July through November), parents, staff and community members can purchase a produce box with a variety of locally grown fruits and vegetables at participating preschools. Produce boxes are pre-ordered and paid for one week in advance. Prices range from \$12 to \$14. Electronic Benefit Transfer (EBT) cards, Health Bucks, cash, credit and debit are accepted.

The program also helps young children develop healthy eating habits early on, by teaching them about nutrition and where their food comes from. On-site demonstrations include lessons about the benefits of eating fresh fruits and vegetables, and how to prepare simple, healthy recipes with locally grown produce. 10 preschool sites participated from across the city purchasing approximately 24,000 pounds of produce and generating over \$28,000 in sales.

Photo Credit: Craig Willingham

Retail Store Initiatives

Shop Healthy NYC*

Shop Healthy NYC is a DOHMH initiative to support neighborhood-based sustainable changes in access to healthy food. To ensure a long-term impact on food access, Shop Healthy NYC aims to influence supply and demand by reaching out to food retailers, including bodegas and grocery stores, to increase stock and promotion of healthy foods, including intensively working with stores to meet specific criteria; collaborating with distributors and suppliers to facilitate wholesale purchases and widespread promotion of healthy foods; and engaging community constituents (customers) to support participating retailers in their efforts to increase neighborhood access to healthy foods.

As of July 2015, 670 stores have agreed to promote healthier items as part of Shop Healthy. Around 310 of those stores have also agreed to increase access to healthier foods. All Shop Healthy establishments are located in the Bronx and Brooklyn. In 2014 the program grew from eight zip codes to ten, which includes an expansion into Brooklyn's East New York neighborhood and Morrisania-Claremont in the Bronx.

SUCCESS STORY: Omale Bodega

Omale Bodega is on the corner of Crotona Ave and 182nd Street in the Bronx. After working with the Shop Healthy program to stock and promote healthy products, the store's owner was inspired to apply for a stoop line permit, which went in to effect in June of 2015, and allowed the owner to sell fruits and vegetables on the sidewalk outside of the store.

The addition of the stoop line greatly expands the store's offerings and provides the neighborhood with increased access to fresh produce.

Photo Credit: Craig Willingham

Food Retail Expansion to Support Health (FRESH)*

The Food Retail Expansion to Support Health initiative (FRESH) was established in 2009, in partnership with the City Council and in response to a study by the Department of City Planning, which was conducted with assistance from the Mayor's Office, NYCEDC, and the Department of Health and Mental Hygiene (DOHMH). The study showed that many low-income areas across the city are underserved by full-scale grocery stores. The resulting lack of nutritious, affordable, fresh food in the underserved neighborhoods has been linked to higher rates of diet-related diseases, including diabetes and obesity. Supermarket operators and developers have found it difficult to finance new projects in New York City because of high land costs. The FRESH program partially mitigates those conditions by providing zoning and financial incentives to eligible grocery store operators and developers in areas with limited availability of fresh food.

Since 2009, 20 FRESH projects have been approved for zoning and/or financial incentives. Ten of these projects have been completed; providing approximately 586,000 square feet of new or renovated grocery store space; estimated to retain over 500 jobs and create over 920 new jobs; and represents an investment of almost \$80 million across the City. For a full list of stores receiving FRESH benefits, see Appendix F.

Green Carts*

Green Carts are mobile vending carts that sell fresh fruits and vegetables in low-income neighborhoods with low rates of fruit and vegetable consumption.

As of July 2015, there were over 364 active Green Carts with more than 112 using EBT machines. For a full list of information on Green Cart permits, and EBT machines, see Appendix I. For a list of information on Green Cart violations by location, see Appendix J.

Photo Credit: GrowNYC

Center for Health Equity

The Center for Health Equity (CHE), a new division within the Department of Health and Mental Hygiene, aims to achieve health equity by valuing everyone equally. This is achieved by focusing on addressing avoidable inequalities, historical and contemporary injustices, and the elimination of health and health care disparities.

As the division that has oversight of the District Public Health Offices (DPHO), CHE continues to expand the capacity and reach of these offices by focusing on the continued development of place-based diet disease prevention programs and activities, such as the National Diabetes Prevention Program (NDPP), Shop Healthy, East Harlem Community Health Worker Initiative, the Excellence in School Wellness Award and Healthy Start Brooklyn.

All of these programs and activities are planned and implemented with community partner support and have long term goals of decreasing the prevalence of diabetes and hypertension rates via changes to neighborhood systems and structures that prevent the healthier choice from being the available choice.

Farmers' Market Based Nutrition Education*

DOHMH's Stellar Farmers' Market Initiative provides free nutrition workshops and cooking demonstrations at select farmers' markets across the city to promote the benefits of a diet rich in fruits and vegetables and to improve the ability of low-income New Yorkers to prepare healthy meals using produce. Close to 7,700 nutrition workshops and cooking demonstrations have been held, reaching over 198,000 SNAP-eligible recipients since the program's inception in 2009.

Funding for FY 2014 was \$562,991 and is provided in part by the SNAP-Ed Program, through a contract with the New York State Department of Health. The program also distributed Health Bucks to more than 24,000 workshop participants with 87% of coupons redeemed.

Child Care Based Nutrition Education*

Eat Well Play Hard (EWPH) employs registered dietitians from DOHMH to provide training to child care staff in high-need neighborhoods on the importance of good nutrition and physical activity for children aged three to four years. EWPH has worked with 463 child care centers and 70 public schools and has reached 65,500 children, parents, and staff since its inception in 2008. Funding for FY 2014 is \$1,134,641 and is provided in part by the SNAP-Ed Program, through a contract with the New York State Department of Health.

Photo Credit: Beth Bainbridge

Nutrition Education at the District Public Health Offices (DPHOs)*

DPHOs provide nutrition education activities to the surrounding communities, including nutrition education presentations and technical assistance workshops aimed at nutrition promotion and wellness at schools. Funding for the Bronx DPHO in FY 2014 was \$644,475. Funding for the Brooklyn DPHO FY 2014 was \$875,233. Funding for the East Harlem DPHO FY 2014 was \$432,716. Funding for the Center for Health Equity for FY 2014 was \$825,353.

HRA SNAP-Ed Program*

The SNAP-Ed program is a federal program that provides nutrition education for SNAP participants and eligible individuals. While the SNAP program addresses food insecurity for low-income individuals, the goal of the SNAP-Ed program is to improve the likelihood that persons eligible for SNAP will make healthy food choices within a limited budget and choose physically active lifestyles. HRA administers SNAP-Ed funding for numerous programs, including Food Bank for New York City's CookShop program and activities of the Cornell Cooperative Extension. SNAP-Ed served 2,114,947 participants during FY 2014, including 251,737 through direct education and 1,863,210 through indirect education. The budget for FY 2014 is \$9,475,425.

Section 4

Supporting a Sustainable and Just Food System

One New York: The Plan for a Strong and Just City (OneNYC) envisions a food system where more of our food comes from our region’s growers, producers, and manufacturers; and where our local food economy works for workers all along the supply chain. Initiatives and investments to strengthen our regional food system are aimed at reducing greenhouse gas emissions from food shipped from far away; making our food system more resilient to climate change and other potential disasters; reducing the amount of food we send to landfills; and creating good food jobs locally and across the region.

On a local level, a just food system begins block by block. Community-based gardening and greening programs provides opportunities for engagement in food production, nutrition education, and skill-building. The City supports community gardens and urban farms with resources, training, and open space preservation. In schools, garden programs connect students to opportunities to learn about growing food and healthy eating.

Community and School Gardens*

Photo Credit: Phillip Kester | GreenThumb

GreenThumb is a program of the Department of Parks and Recreation (DPR) and is the largest community gardening program in the country. GreenThumb administers, educates and supports community gardens and urban farming, while preserving open space. GreenThumb provides programming as well as material support to over 500 registered community gardens located in all five boroughs of NYC.

GreenThumb gardens are hubs of neighborhood pride that provide a myriad of environmental, economic and social benefits to the neighborhoods in which they thrive. In 2015, there were 544 GreenThumb registered gardens in New York City. For a list of community gardens located on DPR land and registered and licensed by GreenThumb, see Appendix C. Information about the size of each garden and whether or not it engages in food production is included to the extent it is available.

Grow to Learn NYC is an initiative of GrowNYC, in partnership with GreenThumb and the Department of Education, with the mission to inspire, facilitate and promote the creation of a school garden in every public school in New York City. Schools work directly with Grow to Learn NYC to ensure that their garden programs are sustainable, responsive to their communities, and transformative for student learning in the cafeteria, the classroom and beyond. Grow to Learn NYC provides the material and financial support to get schools growing, provides technical and professional development supports to school gardeners, and makes the scale of New York City manageable by bringing together city-wide partnerships and resources into one convenient central location. Since launching in February 2011, 545 out of approximately 1,800 NYC schools have registered garden projects with Grow to Learn.

For a list of registered Grow to Learn NYC school gardens, see Appendix D.

NYCHA Garden and Greening

The New York City Housing Authority's Garden and Greening Program serves low and moderate-income residents across the City's 328 public housing developments. Established in 1963, the 52-year old program provides year-round technical assistance and other resources to thousands of residents and to partners that operate senior, community and day care centers. In 2015 Garden and Greening supported over 700 gardens (roughly half of which are food-producing) and three urban farms, each of which are managed by local community partners. The Program's work is guided by the Next Generation NYCHA strategic plan which includes strategies to improve sustainability, reduce the carbon footprint of the Authority, and increase workforce opportunities for NYCHA residents.

Further supporting the growth of Garden and Greening in public housing communities, the City's OneNYC Plan includes a commitment to expand the scale of urban farming ventures and food-producing gardens at NYCHA developments. Once established, new farms are expected to produce approximately four tons of fresh produce and engage an estimated 500 community residents in programming each year while offering a venue for training and service for young NYCHA residents in collaboration with the organization Green City Force.

Hunts Point Food Distribution Center*

The Hunts Point Peninsula is an area of approximately 690 acres in the South Bronx, nearly half of which is occupied by the 329-acre Food Distribution Center. The Hunts Point Food Distribution Center is comprised of over 155 public and private wholesalers, including the Hunts Point Terminal Produce Market, the Cooperative Meat Market, and the New Fulton Fish Market, which together generate more than \$4 billion in annual revenue. Companies that operate at the markets directly employ around 6,000 people in addition to a wider food processing and distribution ecosystem that the markets support.

The Hunts Point Terminal Produce Market opened in 1967. It is home to 47 businesses, directly employs 3,000 people, and generates approximately \$2 billion in annual revenue.

The Hunts Point Cooperative Meat Market opened in 1974 and the New Fulton Fish Market opened in 2005, moving from its long-standing location at the South Street Seaport. The meat market is home to 37 businesses, directly employs 2,400 people, and generates approximately \$1 billion in annual revenue. The New Fulton Fish Market is home to 27 businesses, 650 direct employees, and approximately \$1 billion in annual revenue.

Today, the Hunts Point wholesale markets are instrumental in feeding New York City and the region. The markets' location and access to regional transportation enable their diverse customer base of grocers, bodegas, supermarkets, restaurants, hotels, and institutions to purchase a wide assortment of affordable, quality food on a timely basis. The produce market supplies approximately 60% of the City's produce, and the meat and fish markets supply approximately 50% of the City's meat and seafood.

In March 2015, Mayor Bill de Blasio announced the City will invest \$150 million over 12 years to enhance the capacity of the Hunts Point Food Distribution Center, strengthen existing businesses, and attract new entrepreneurs. In August 2015, NYCEDC announced the 100,000 SF expansion of Baldor Specialty Foods, which will allow the fresh produce and specialty food distributor to grow its operations in the Food Distribution Center. The nearly \$20 million privately-funded expansion will create 350 new quality jobs in addition to the 1000 jobs currently at Baldor's Bronx location.

In FY 2015, The Fish Market had an average of 140 daily straight truck and tractor trailer trips; the Meat Market had an average of 117 straight truck and tractor-trailer trips; and the Produce Market had an average of 226 straight trucks and 4- and 5- axel truck trips daily. The Produce Market also had an average of 4 rail cars a day, and Baldor Specialty Foods had an average of 2-3 rail cars a week.

DEP Watershed Agricultural Program*

Much of New York City's drinking water comes from reservoirs adjacent to productive farmland. To preserve the quality of its source water, the City's Department of Environmental Protection, in partnership with the Watershed Agricultural Council, promotes best agricultural practices. The goal of the Watershed Agricultural Program is to support and maintain well-managed family farms as beneficial land uses to advance water quality protection and rural economic viability.

Since 1992, the program has worked with over 440 farms in both the Catskill/Delaware and Croton Watersheds to develop Whole Farm Plans, a holistic approach to prioritize environmental issues on a farm without compromising the farm business. The program has implemented over 6,700 best management practices that reduce agricultural pollution and protect water quality. These management practices are funded by the City in the form of technical and financial assistance to watershed farmers. In FY 2015, a total of 82 participating farms working on 20,408 acres received \$4,262,629 in City financial support to protect water quality. For a list of participating farms by county and type, see Appendix B.

Food Manufacturers*

Food manufacturers are a key component of the city's economy. There are over 16,000 New York City residents working in food manufacturing and more than 1,100 food manufacturing businesses throughout the City. Providing support to these businesses during critical growth stages is important to ensure the success and expansion of the industry. In FY 2015, 33 food manufacturers received a total of \$3,056,533 in monetary benefits from NYCEDC or the New York City Industrial Development Agency (NYCIDA). For the full list of food manufacturers, and the annual dollar amount of such benefits per food manufacturer, see Appendix E.

Food Sector Job Training Programs*

The Department of Small Business Services (SBS) provides training grants to small business owners with the goal of helping New York City businesses and their employees succeed. Agricultural and food-related businesses can take advantage of these programs. The NYC Business Solutions' Customized Training Program helps businesses afford professional training services that can reduce employee turnover and increase productivity, thereby saving businesses money and increasing the City's economic development. It eliminates the financial constraints that keep businesses from investing in staff development by co-investing to cover 60-70% of eligible training costs.

From 2014-2015, SBS provided 5 food sector businesses with Customized Training grants, serving 229 trainees. For detailed information on SBS food-related job trainings, see Appendix G.

Appendix A - Annual Food Metrics Summary Chart

This chart provides data points for the nineteen food metrics that the City is required to report on annually pursuant to Local Law 52. This is the fourth year of public reporting on these metrics. 2012, 2013, 2014, and 2015 information is summarized below.

Metric	Progress as of 2012	Progress as of 2013	Progress as of 2014	Progress as of 2015
Number of Farms Participating in the DEP Watershed Agricultural Program; Annual Dollar Amount of City Financial Support Received by Participating Farms	58 farms on 18,735 acres; \$2,696,888	66 farms on 22,371 acres; \$1,555,364	73 farms on 26,359 acres; \$2,197,862	82 farms on 20,408 acres; \$4,262,629
Total DOE expenditure on local milk, yogurt, and produce	\$20.8 million on milk and yogurt, and \$3.1 million on produce (not including distribution costs)	\$20.8 million on milk and yogurt, and \$3.8 million on produce (not including distribution costs)	\$19.2 million spent on milk and yogurt, and \$6.3 million spent on produce (not including distribution costs)	\$20 million on milk and yogurt, and \$7.3 million was spent on produce (not including distribution costs)
Registered community gardens on city-owned property	413 community gardens not including DOE Grow to Learn Gardens	530 community gardens not including DOE Grow to Learn Gardens	586 community gardens not including DOE Grow to Learn Gardens	544 community gardens not including DOE Grow to Learn Gardens
Food manufacturers receiving monetary benefits from EDC or IDA	24 food manufacturers receiving a total of \$2,205,065	25 food manufacturers receiving a total of \$2,330,977	32 food manufacturers receiving a total of \$2,425,133	33 food manufacturers receiving a total of \$3,056,533
Truck and rail trips to or through Hunts Point Market	Fish Market: 283 daily trucks Meat Market: 763 daily trucks Produce Market: 1727 daily trucks Produce Market: 10.5 railcars/day (average) Baldor Specialty Foods: 2-3 railcar/week (average)	Fish Market: 151 daily straight trucks and tractor trailers (average) Meat Market: 88 daily straight trucks and tractor trailers (average) Produce market: 230 straight trucks & 4 and 5 axes trucks (average) Produce Market: 5 railcars/day Baldor Specialty Foods: 2-3 railcars/week	Fish Market: 153 daily straight trucks and tractor trailers (average) Meat Market: 93 daily straight trucks and tractor trailers (average) Produce Market: 220 straight trucks & 4 and 5 axel trucks (average) Produce Market: 4 railcars/day (average) Baldor Specialty Foods: 2 - 3 railcars/week (average)	Fish Market: 140 daily straight trucks and tractor trailers (average) Meat Market: 117 daily straight trucks and tractor trailers (average) Produce Market: 226 straight trucks & 4 and 5 axel trucks (average) Produce Market: 4 railcars/day (average) Baldor Specialty Foods: 2 - 3 railcars/week (average)
Grocery store SF per capita and the number of grocery stores open during the past five calendar years	Not reported	168 new grocery stores in 54 out of 59 community districts were added in NYC from 2007- 2011 As of 2011, there were 12,702,808 square feet of grocery store space total in NYC	Not reported	Not reported
Grocery stores receiving FRESH benefits	11 FRESH projects approved - providing nearly 340,000 square feet of new or renovated space; estimated to retain over 500 jobs and create nearly 300 new jobs; represent an investment of approximately \$40 million across the City	16 FRESH projects approved - four of which have been completed; providing nearly 440,000 square feet of new or renovated space; estimated to retain over 500 jobs and create over 350 new jobs; represent an investment of approximately \$55 million across the City	18 FRESH projects approved - nine of which have been completed; providing approximately 578,000 square feet of new or renovated grocery store space; estimated to retain over 500 jobs and create over 945 new jobs; and represents an investment of almost \$80 million across the City	20 FRESH projects approved - nine of which have been completed; providing approximately 586,000 square feet of new or renovated grocery store space; estimated to retain over 500 jobs and create over 920 new jobs; and represents an investment of more than \$80 million across the City

Metric	Progress as of 2012	Progress as of 2013	Progress as of 2014	Progress as of 2015
Number of stores participating in Shop Healthy	161 stores	~400 stores have agreed to promote their healthier items, with ~132 of them agreeing to work more intensively to increase access to healthier foods in their stores	470 stores have agreed to promote their healthier items, with ~220 of them agreeing to work more intensively to increase access to healthier foods	670 stores have agreed to promote their healthier items, with ~310 of them agreeing to work more intensively to increase access to healthier foods
Number of food-related job training programs administered by SBS	108 Customized Trainings for Food Businesses; 96 Restaurant Management Trainings	188 Customized Trainings for Food Businesses; Restaurant Management Trainings program ceased	275 Customized Trainings for Food Businesses	229 Customized Trainings for Food Businesses
Number of meals served	270,611,523	259,789,054	244,614,710	249,389,497
Compliance with food standards	Compliance rate = 93%	Compliance rate = ~89%	Compliance rate = ~93%	Compliance rate = ~96%
Number of DOE vending machines and revenue generated	2,504 beverage machines (\$5.7 million) and 934 snack (\$5.2 million) for most recent contract year	2,473 beverage vending machines (\$4.8 million) and 907 snack vending machines (\$5.5 million) for the most recent contract year	2,456 beverage vending machines (\$4.4 million) and 902 snack vending machines (\$5.5 million) for the most recent contract year	2,450 beverage vending machines (\$4.3 million) and 900 snack vending machines (\$5.7 million) for the most recent contract year
Number of seniors receiving SNAP benefits	256,416	281,000	291,422**	299,147
Funds spent on SNAP enrollment by HRA	2011: 212 unduplicated sites, 4 POS sites, 63 presentations, total budget of \$2.4 million	2012: 220 unduplicated sites, 3 POS sites, 13 presentations, total budget of \$2.3 million	2013: 257 unduplicated sites, 3 POS sites, 53 presentations, total budget of \$2.3 million	2014: 262 unduplicated sites, 3 POS sites, 60 presentations, total budget of \$2.5 million
Funds spent on Nutrition Education by HRA	\$8,642,689 spent and 152,764 SNAP recipients served (combines those directly and indirectly served)	\$8.9 million spent and 70,000 SNAP recipients reached (directly served) and 200,000 (served via social marketing campaign)	\$6.5 million spent and 329,366 SNAP recipients served	\$9,475,425 spent and 2,114,947 SNAP recipients served (251,737 direct education and 1,863,210 indirect education)
Funds DOHMH Spends on Nutrition Education: Stellar Farmers' Market Initiative*	\$604,184 for FY 2011; 67,000 SNAP recipients reached; 2,800 workshops/demos	\$582,785; 110,000 SNAP recipients reached; 4,400 workshops/demos	\$562,990 for FY2013; 154,000 SNAP recipients reached; 6,000 workshops/demos	\$562,991 for FY2014; 198,000 SNAP recipients reached; 7,700 workshops/demos
Funds DOHMH Spends on Nutrition Education: Eat Well Play Hard Program*	As of 2011: \$1,722,085; 32,000 children/parents/staff; 360 child care centers and public schools	As of 2012: \$1,270,896; 40,000 children/parents/staff; 392 child care centers and public schools	As of 2013: \$1,251,832; 52,000 children/parents/staff; 440 child care centers and public schools	As of 2014, \$1,134,641; 65,500 children/parents/staff; 533 child care centers and public schools (463 child care centers and 70 public schools)
Funds DOHMH Spends on Nutrition Education: District Public Health Offices	Funding for Brooklyn DPHO for FY 2011: \$26,300 (Grants) and \$141,742 (City Tax Levy); Funding for Bronx DPHO for FY 2011: \$335,532 (CTL); Funding for East Harlem DPHO for FY 2011: \$66,939 (Grants) and \$171,963 (CTL)	Funding for Brooklyn DPHO for FY 2012: is \$265,162 (Grants) and \$652,683 (CTL) ; Funding for Bronx DPHO for FY 2012: \$534,723 (CTL); Funding for East Harlem DPHO for FY 2012: \$49,452 (Grants) and \$446,237 (CTL)	Funding for Brooklyn DPHO for FY 2013: \$311,383 (Grants), and \$606,465 (City Tax Levy); Funding for Bronx DPHO for FY2013: \$499,687 (CTL); Funding for East Harlem DPHO for FY 2013: \$336,244 (CTL)	Funding for Center for Health Equity for FY 2014: \$5,597 (Grants), and \$819,756 (City Tax Levy); Funding for Brooklyn DPHO for FY 2014: \$376,764 (Grants), and \$488,469 (City Tax Levy); Funding for Bronx DPHO for FY2014: \$81,750 (Grants), and \$562,725 (CTL); Funding for East Harlem DPHO for FY 2014: \$30,000 (Grants), and \$402,716 (CTL)

Metric	Progress as of 2012	Progress as of 2013	Progress as of 2014	Progress as of 2015
Salad bars in schools	1,068 salad bars	1,379 salad bars	1,426 salad bars	1,452 salad bars
Salad bars in NYC Health + Hospitals	HHC offers salads in either prepackaged or "made to order" form by on site food vendors in seven facilities: in Manhattan at Bellevue, Metropolitan and Coler-Goldwater, in the Bronx at Jacobi, in Brooklyn at Coney Island Hospital and in Queens at Elmhurst and Queens Hospitals. HHC does not correctly have salad bars in its facilities	HHC offers salads in either prepackaged or "made to order" form by on site food vendors in eight facilities: in Manhattan at Bellevue and Harlem, Metropolitan and Coler-Goldwater, in the Bronx at Jacobi, in Brooklyn at Coney Island Hospital and in Queens at Elmhurst and Queens Hospitals. HHC also has salad bars at Kings County (Brooklyn) Hospital, Jacobi Medical Center (Bronx) and Woodhull Medical and Mental Health Center (Brooklyn)	HHC offers salads in either prepackaged or made to order form by on site food vendors in eleven facilities: in Manhattan at Bellevue, Metropolitan, Harlem, and Coler; in the Bronx at Jacobi Medical Center and Lincoln Medical Center; in Brooklyn at Coney Island Hospital, Kings County, and Woodhull Hospital; and in Queens at Elmhurst and Queens Hospitals. HHC also has salad bars at Kings County (Brooklyn), Jacobi (Bronx), Woodhull Medical and Mental Health Center (Brooklyn), and Coney Island (Brooklyn).	NYC Health + Hospitals offers salads in either prepackaged or made to order form by on site food vendors in ten facilities: in Manhattan at Bellevue Hospital Center, Metropolitan Hospital Center, and Coler Rehabilitation and Nursing Care Center; in the Bronx at Jacobi Medical Center and Lincoln Medical and Mental Health Center; in Brooklyn at Coney Island Hospital, Kings County Hospital Center, and Woodhull Medical and Mental Health Center; and in Queens at Elmhurst and Queens Hospital Centers. HHC also has salad bars at Kings County Hospital Center (Brooklyn), Jacobi Medical Center (Bronx), Lincoln Medical and Mental Health Center (Bronx), and Woodhull Medical and Mental Health Center (Brooklyn)
Funds spent by DCAS on bottled water**	\$983,851 for bottled water in 5 gallon demijohn (incl. cooler rental); \$154,244 for single serve bottles	\$878,524 for bottled water in 5 gallon demijohn (incl. cooler rental); \$123,751 for single serve bottles; \$528,834 for Hurricane Sandy	\$451,606 for bottled water in 5 gallon demijohn (incl. cooler rental); \$139,479 for single serve bottles	\$414,623 for bottled water in 5 gallon demijohn (incl. cooler rental); \$18,120 for single serve bottles
Number of Green Cart permits, number of violations, locations, and number of operators that accept EBT	As of August 2012: there were over 475 greencarts with 28 using EBT machines	As of August 2013, there were over 482 greencarts with more than 90 using EBT machines	As of August 2014, there were 452 active greencarts with 113 using EBT machines	As of August 2015 there were 364 active greencarts with 112 using EBT machines
Number of vendors at GrowNYC farmers markets	138 Farmers' Markets and 54 Greenmarket locations	142 Farmers' Markets and 51 Greenmarket locations	142 Farmers' Markets and 53 Greenmarket locations	146 Farmers' Markets and 54 Greenmarket locations

**Note: This is a correction from the 2014 Food Metrics report, which incorrectly reported the number of seniors over age 60, instead of age 65 and older.

*** Note: this is a correction from the 2014 Food Metrics report, which incorrectly reported the number of railcars/day from the Produce Market.

Appendix B

Summary of Watershed Agricultural Program Participants/Expenditures for FY 2015

Watershed Municipality	No. of Farms	Type of Farm	Size (Acres)	NYC Financial Support Received (FY 2015)
Delaware	11	Beef	3,595	\$444,842
Delaware	27	Dairy	9,586	\$2,038,236
Delaware	6	Horse	533	\$54,930
Delaware	15	Mixed Livestock	2,424	\$717,513
Total Delaware County:	59		16,138	\$3,255,521
Greene	2	Beef	521	\$14,900
Greene	2	Dairy	1394	\$23,977
Greene	1	Horse	646	\$14,200
Greene	1	Vegetable	57	\$590
Total Greene County:	6		2618	\$53,667
Putnam	3	Horse	272	\$326,958
Putnam	1	Vegetable	129	\$699
Total Putnam County:	4		401	\$327,657
Schoharie	1	Dairy	279	\$17,276
Total Schoharie County:	1		279	\$17,276
Sullivan	1	Mixed Livestock	151	\$4,900
Total Sullivan County:	1		151	\$4,900
Westchester	5	Horse	375	\$418,222
Westchester	2	Mixed Livestock	161	\$15,070
Westchester	1	Nursery	9	\$79,900
Westchester	1	Orchard	73	\$79,678
Westchester	2	Vegetables	203	\$10,738
Total Westchester County:	11		821	\$603,608
Grand Total All Counties	82		20,408	\$4,262,629

Water available at all meals	48	0	10		0	0	13	

	Human Resources Administration- HIV/AIDS Services Administration ¹				Department of Parks and Recreation ⁶			
	In Compliance	Out of Compliance/ Information not Available	Standard Not Applicable		In Compliance	Out of Compliance/ Information not Available	Standard Not Applicable	
Juice served in 6 ounce portions or less	46	0	12		0	0	13	
For programs serving meals: Juice served no more than one time per day, for programs serving snacks only, juice served no more than two times per week	41	0	17		0	0	13	
Meals and snacks prepared without deep frying	49	1	8		0	0	13	
Grain-based snacks ≤ 200 mg sodium, ≤ 10 grams sugar, and ≥ 2 grams fiber per serving (for programs serving a majority of children 1-5 years of age, snacks ≤ 170 mg sodium)	34	0	24		0	13	0	
Healthy options (e.g. fresh fruit, leafy green salad) are always available	56	2	0		13	0	0	
Water is always available	58	0	0		13	0	0	

* While the Department of Citywide Administrative Services (DCAS) participates in the implementation of the Standards as purchaser of food for numerous agencies, it does not submit a compliance report as information on items procured by DCAS is captured in the reports of other agencies

** Information is based on a review of food and beverages purchased and a sample of menus and nutrition analysis from any time in the year prior to the report's publication. Agencies were asked to submit a copy of menus and nutrition analysis to the Health Department for verification.

1 Compliance data largely based on information submitted by agency program sites and/or program caterer from a self-report survey tool and is not verified; agencies continue to work to enhance processes to assess accuracy of program site and/or caterer self-report and to improve data quality going forward

2 Compliance data based on field visits conducted by agency staff

3 Information was collected from site visits, meal counts, self-reporting, nutrition analysis software, and nutrition label collection coordinated by agency staff

4 Agency utilizes centralized menu and food ordering process; information based on agency assessment of products purchased and menu analysis

5 Agency purchases food only

6 Agency serves snacks only

7 Supporting documentation indicates several days are out of compliance with sodium and fiber. Yearly revisions of menus include lower sodium items and higher fiber choices as they have become available in the market.

8 Menu planning software is used to assist in developing menus and compliance of the standards

9 Number of meals served for June 2015 were not available at the time of data collection

10 790 Department of Youth and Community Development (DYCD) programs are located in schools and serve meals and snacks prepared by the Department of Education; these programs were included in DOE's report only

Appendix I Green Cart Permits

	Bronx	Brooklyn	Queens	Manhattan	Staten Island	Total
Permits issued in 2014	169	118	64	112	1	464
Green Carts using EBT terminals (approximate)*	69	25	1	16	1	112
Persons on the Waiting List**			163	511		674
Currently Active Permits***	151	85	81	46	1	364

* Number fluctuates due to vendor usage

** The development and launch of Accela in 2013 delayed the offer of permits to people on the wait list for Green Carts. The technical issues are now nearly resolved, and the Department began calling names off of the waiting on 7/13/2015, exhausting all the lists except Queens and Manhattan. Vendors have one month to respond and once that process is complete waitlist will be refreshed with new prospective vendors. Waitlists are restricted by borough. Once a waitlist is exhausted, a new borough-specific waitlist is created. Vendors can be on multiple lists at the same time, so the number does not necessarily represent unique individuals. A new wait list is created approximately once a year, sometimes twice a year for BK, BX and SI.

*** Number fluctuates due to vendor usage

Appendix J

**LOCAL LAWS
OF
THE CITY OF NEW YORK
FOR THE YEAR 2011**

No. 52

Introduced by Council Members Dickens, Comrie, Gonzalez, James, Lander, Brewer, Van Bramer, Lappin, Chin, Levin, Jackson, Gennaro and Barron

A LOCAL LAW

To amend the administrative code of the city of New York, in relation to establishing reporting requirements regarding the production, processing, distribution and consumption of food in and for the city, and to repeal section 17-325.2 of the administrative code of the city of New York, relating to reports on green carts.

Be it enacted by the Council as follows:

Section 1. Sections 3-101 to 3-113 of chapter 1 of title 3 of the administrative code of the city of New York are designated as subchapter 1 and a new subchapter 2 is added to read as follows:

Subchapter 2

OFFICE OF LONG-TERM PLANNING AND SUSTAINABILITY

§ 3-120 Annual city food system metrics report. a. No later than September first, two thousand twelve, and no later than every September first thereafter, the office of long-term planning and sustainability shall prepare and submit to the mayor and the speaker of the city council a report regarding the production, processing, distribution and consumption of food in and for the city of New York during the previous fiscal year. Such report shall include:

1. the number, size in acres, county and type of production of, and annual dollar amount of city financial support received by, farms participating in the watershed agricultural program;

2. *the total dollar amount of expenditures by the department of education on milk and other food products that are subject to the United States department of agriculture country of origin labeling requirements, disaggregated and sorted by the product and country of origin in which the essential components of such food products were grown, agriculturally produced and harvested, to the extent such information is reported to the department of education. For any such product where there are multiple countries of origin, the total dollar amount of expenditures, disaggregated by product, shall be separately listed, to the extent such information is reported to the department of education. If the country of origin of milk or fresh whole produce is the United States, for the report due no later than September first, two thousand thirteen, and in every report thereafter, and to the extent such information is reported to the department of education, such report shall include the total dollar amount of expenditures on such milk or fresh whole produce that is local or regional. For purposes of this paragraph, milk or fresh whole produce shall be considered "local" if grown, agriculturally produced and harvested within New York state, and shall be considered "regional" if such food products were grown, agriculturally produced and harvested within the states of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia or West Virginia;*

3. *the location, sorted by community board and size in square feet, of each community garden located on city-owned property that is registered with and licensed by the department of parks and recreation, and whether each such garden engages in food production;*

4. *the number of food manufacturers receiving monetary benefits from the economic development corporation or industrial development agency and the annual dollar amount of such benefits per food manufacturer. For purposes of this paragraph, "food manufacturer" shall mean any natural person, partnership, corporation or other association that*

processes or fabricates food products from raw materials for commercial purposes, provided that it shall not include any establishment engaged solely in the warehousing, distribution or retail sale of products;

5. the daily number of truck and rail trips to or through Hunts Point Market for the purpose of delivering food to Hunts Point Market, to the extent such information is available. For purposes of this paragraph, "Hunts Point Market" shall mean the food distribution center located in Hunts Point in the borough of the Bronx, and shall include the meat, fish and produce markets operating at such location;

6. for the report due no later than September first, two thousand thirteen, and in every fifth report thereafter, the amount of grocery store space per capita, sorted by community board, and the number of grocery stores that opened during the past five calendar years, sorted by community board, to the extent such information is available. The office of long-term planning and sustainability shall request such information, as necessary, from the New York state department of agriculture and markets;

7. the number, community board, and number of employees, of grocery stores receiving financial benefits under the food retail expansion to support health program;

8. the number of establishments participating in the healthy bodega initiative administered by the department of health and mental hygiene, sorted by borough;

9. the number of job training programs administered by the department of small businesses services or the workforce investment board to aid individuals seeking work in food manufacturing, food supply, food service or related industries, sorted by borough;

10. the total number of meals served by city agencies or their contractors, including but not limited to meals served in public schools, hospitals, senior centers, correctional facilities,

and homeless shelters, and not including food sold in vending machines or by a concessionaire, sorted by agency;

11. for each required city agency food standard developed pursuant to executive order number one hundred twenty-two, dated September nineteenth, two thousand eight, the total number of programs or other relevant entities that purchase, prepare or serve meals, not including food sold in vending machines or by a concessionaire, that are in full compliance with each such standard and the total number that are not in full compliance with each such standard, sorted by agency;

12. the number of and amount of annual revenue earned from vending machines located in facilities operated by the department of education;

13. the number of persons sixty-five years or older receiving benefits through the supplemental nutritional assistance program ("SNAP") administered by the United States department of agriculture;

14. the number and description of, and dollar amount spent by, the human resources administration on SNAP outreach programs;

15. the number and description of, and dollar amount spent on, nutrition education programs administered by the human resources administration and department of health and mental hygiene;

16. the number of salad bars in public schools and in hospitals operated by the health and hospitals corporation, respectively, sorted by borough;

17. the total amount expended by the department of citywide administrative services to purchase water other than tap water;

18. information concerning the green cart initiative administered by the

department of health and mental hygiene, including the number of applications for permits, the number of permits issued, the number of persons on the waiting list, the number of violations issued to green carts, the location of such carts when such violations were issued and, to the extent such information is available, the number of permit holders who accept electronic benefit transfer, sorted by borough; and

19. the number of vendors at greenmarkets, farmers' markets and similar markets operated by the council on the environment of New York city or any successor entity, and the average number of vendors at such markets, sorted by borough.

b. Each annual report prepared pursuant to subdivision a of this section shall be made available to the public at no charge on a website maintained by or on behalf of the city of New York.

§ 2. Section 17-325.2 of the administrative code of the city of New York is
REPEALED.

§ 3. This local law shall take effect immediately.

THE CITY OF NEW YORK, OFFICE OF THE CITY CLERK, s.s:

I hereby certify that the foregoing is a true copy of a local law of The City of New York,
passed by the Council onJuly 28, 2011..... and approved by the Mayor
onAugust 17, 2011.....

MICHAEL M. McSWEENEY, City Clerk Clerk of the Council.

CERTIFICATION PURSUANT TO MUNICIPAL HOME RULE §27

Pursuant to the provisions of Municipal Home Rule Law §27, I hereby certify that the enclosed Local Law (Local Law 52 of 2011, Council Int. No. 615-A) contains the correct text and was passed by the New York City Council on July 28, 2011 approved by the Mayor on August 17, 2011 and returned to the City Clerk on August 17, 2011.

JEFFREY D. FRIEDLANDER, Acting Corporation Counsel.
