## BOROUGH OF BROOKLYN.

### LOCAL BOARD—BUSHWICK DISTRICT.

Thursday, April 16, 1903.

Meeting in Borough Hall at 3 p. m.

The roll was called and the following members answered to their names:

William C. Redfield, Commissioner of Public Works, presiding; Aldermanic District 65, Alderman Bennett; Aldermanic District 66, Alderman Alt.

The Commissioner submitted the following:

No. 230.

Following communication from the Superintendent of Sewers:

City of New York, Borough of Brooklyn,  
Bureau of Sewers, Office of Superintendent,  
February 10, 1903.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—On October 10, 1900, The City of New York entered into contract with James Jennings to construct a sewer in Belmont avenue, between Sackman street and Vesta avenue.

We have not been able to proceed with the construction of said sewer from the fact that Belmont avenue between Powell street and Vesta avenue has never been legally opened, nor can we obtain easements to permit said construction. Many times have the property holders been visited and requested to grant said easements but all that we have been able to obtain has been one from the Long Island Railroad Company, the other holders of property, Mrs. Phoebe Woodruff and the Ridgewood Land Improvement Company, represented by George W. Chauncey, president, having repeatedly refused their consent.

It has also been anticipated that the street would have been opened before this time by legal proceedings, as the Board of Public Improvements passed a resolution requesting the appointment of Commissioners of Opening on August 1, 1900 (see minutes of the Board of Public Improvements for said year, page 2243), for Belmont avenue between Rockaway avenue and Wyona street. The Corporation Counsel applied for the appointment of Commissioners, but the Supreme Court declined to do so owing to some legal technicality. I believe the omission of notice to the Street Railroad Commissioners, where railroad crossings were affected, had not been served.

I was informed that Commissioners were to be appointed, however, on January 5 last, but have recently been informed that such appointment did not take place. I reported that Commissioners would probably be appointed on January 5, in my report relating to the construction of a sewer in Powell street between Pitkin avenue and Sutter avenue, said Belmont avenue sewer being an outlet for the Powell street sewer.

The people living within the property abutting the Belmont avenue sewer in question have been put to great inconvenience in the maintaining of cesspools, and unless this street is legally opened that length in Powell street cannot be constructed, and many houses now nearing completion there will also be inconvenienced by the maintenance of cesspools.

Powell street is also to be paved with asphalt pavement, another reason that the Belmont avenue sewer should be constructed, to permit the construction of the Powell street sewer to precede said paving.

I therefore earnestly request that the proceeding for opening Belmont avenue from Rockaway avenue to Wyona street may be rescinded, and that opening proceedings be instituted to open Belmont avenue, between Powell street and Vesta avenue, omitting the railroad crossing at this time to save time in the opening proceedings.

I limit the length of the opening as noted because Belmont avenue, from Rockaway avenue to Powell street, is thoroughly built up, sewered and paved with asphalt, while Belmont avenue, east of Vesta avenue, has been sewered, water and gas pipes laid, and has been thrown open to the public's use for many years; therefore, from the Corporation Counsel's opinion ruling upon streets so improved being considered as legally open, it would appear that proceedings were necessary only for the length between Powell street and Vesta avenue.

Respectfully,

(Signed) JOHN THATCHER,

Superintendent of Sewers, Borough of Brooklyn.

The following resolution was offered:

Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, after hearing had this 16th day of April, 1903, deeming it for the public interest so to do, hereby requests the Board of Estimate and Apportionment of The City of New York to rescind pending proceedings for opening Belmont avenue, between Rockaway avenue and Wyona street, in the Borough of Brooklyn.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Which was decided in the affirmative by the following vote:

Affirmative—Commissioner Redfield and Aldermen Bennett and Alt.

Approved by the President of the Borough, May 4, 1903.

The following resolution was offered:

No. 242.

A petition to open Hart street, between Irving avenue and the Borough line, omitting the property occupied by the tracks of the Long Island Railroad Company on Hart street, between Irving avenue and Wyckoff avenue.

Following communication from the Secretary to the Board of Estimate and Apportionment:

(Copy.)

Board of Estimate and Apportionment,  
The City of New York,  
New York, March 17, 1903.

Hon J. EDWARD SWANSTROM, President, Borough of Brooklyn:

Dear Sir—In the matter of grading, curbing and paving Hart street, between Irving and St. Nicholas avenues, it appears that the block between Wyckoff and Irving avenues has not yet been acquired by the City, and the matter was referred back to have opening proceedings instituted, or to have the resolution amended so as to limit the improvement to the block between St. Nicholas and Wyckoff avenues.

Respectfully,

(Signed) J. W. STEVENSON, Secretary.

The following resolution was offered:

Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, after hearing had this 16th day of April, 1903, deeming it for the public interest so to do, hereby determines to initiate proceedings to open Hart street, between Irving avenue and the borough line, in the Borough of Brooklyn, omitting the property occupied by the tracks of the Long Island Railroad Company on Hart street, between Irving avenue and Wyckoff avenue.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Which was decided in the affirmative by the following vote:

Affirmative—Commissioner Redfield and Aldermen Bennett and Alt.

Approved by the President of the Borough May 4, 1903.

No. 208.

The resolutions of the Local Board of the Bushwick District for the improving of Decatur street, from Hamburg avenue to the borough line, one for the construction of sewer, and the other for the regulating, grading and paving of the street, which were presented to the Board of Estimate and Apportionment on March 6, 1903, were referred back to the Borough President to have opening proceedings initiated, as the affidavits submitted were defective.

The following resolution was offered:

Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, after hearing had this 16th day of April, 1903, deeming it for the public interest so to do, hereby determines to initiate proceedings to open Decatur street between Hamburg avenue and borough line, in the Borough of Brooklyn.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Which was decided in the affirmative by the following vote:

Affirmative—Commissioner Redfield and Aldermen Bennett and Alt.

Approved by the President of the Borough May 4, 1903.

No. 243.

Petition to open Liberty avenue, from Eldert's lane to the Queens County line. Laid over.

No. 244.

Petition to alter the map or plan of The City of New York by changing the grade of Van Siclen avenue, from Blake avenue to Livonia avenue, and of Dumont avenue, from Miller avenue to Hendrix street.

Following report and technical description from the Chief Engineer of the Bureau of Highways:

March 2, 1903.

Mr. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I return you herewith a petition for the change of grade of Van Siclen avenue, between Blake and Dumont avenues. The present established grade has a crown in the middle of the blocks between Blake and Dumont avenues, so that the water runs each way from the centre of the block. I send you herewith a profile of change of grade by which the water will run directly from Blake avenue to Dumont avenue. This makes a change at Dumont avenue of two feet and three inches. This will do no damage to the adjoining property and will relieve the property of the petitioners on the west side very materially.

I also enclose technical description for this proposed change. If there is any possibility of the Local Board adopting or recommending this change, I would like to be informed as soon as possible, as the contract for improving the street has already been let and the contractor is at work.

Respectfully,

(Signed) GEO. W. TILLSON, Chief Engineer.

March 5, 1903.

Mr. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—Referring to communication of mine of last week regarding the change of grade of Van Siclen avenue, between Blake and Dumont avenues, I would say that I find that Dumont avenue, where it is proposed to lower the grade about two feet, is now paved with Belgian block, between Miller and Van Siclen avenues. If this change of grade is made, it will be necessary to take up and relay that one block. I do not think, however, that this is very serious. There would be no damage to property; in fact, I think the grade of Dumont avenue would be improved as much as Van Siclen avenue by the change.

The estimated cost of making this change on Dumont avenue is \$700, and the cost of grading Van Siclen avenue would be reduced more than this.

I make this supplementary report so that it may furnish to the Local Board all the information possible in the matter. Of course, the expense of changing Dumont avenue, between Miller and Van Siclen avenues, would be a cost on the City at large.

Respectfully,

(Signed) GEO. W. TILLSON, Chief Engineer.

Bureau of Sewers, Office of Superintendent,

March 12, 1903.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I herewith return a communication which you referred to me, the same being from the Secretary of the President of the Borough, addressed to you under date of March 2, 1903, transmitting a communication from the said Secretary of the President of the Borough, addressed to the Bureau of Sewers on the same date, requesting information in relation to the construction of a sewer in Pitkin avenue from Hopkins avenue to Ames street, and in Ames street from Pitkin avenue to Sutter avenue. The Chief Engineer of Sewers, Borough of Brooklyn, reports to me as follows: "The following report, as requested by the Secretary of the President of the Borough, will take the place of a report submitted from this office on February 24, 1903, for a 'sewer in Pitkin avenue between Amboy street and Ames street,' said former report having been placed on file, as the limits of this petition are for a greater distance in Pitkin avenue, and includes that length before reported upon.

"I beg to state that the estimated cost of the sewers petitioned for is \$6,600, and the assessed valuation of the real estate within the probable area of assessment is \$35,410.

"The items of work necessary are:

"500 feet 12-inch pipe sewer;

"950 feet 18-inch pipe sewer;

"16 manholes, and appurtenances.

"In regard to outlet sewers, information of which is requested, I beg to state that one is required in

"Amboy street from Pitkin avenue to Sutter avenue, the estimated cost for which is \$4,500, and the assessed valuation of the real estate within the probable area of assessment is \$13,490.

"In regard to the legal opening of these streets, information of which is requested, I beg to state that I find no record of opening Pitkin avenue, Amboy street or Ames street, within these limits.

"Pitkin avenue within the above limits is macadamized."

Respectfully yours,

Mr. HENRY R. ASSERSON, Chief Engineer of Sewers:

Dear Sir—In response to your request of the 16th ultimo, asking if Pitkin avenue and Ames street are open streets or not, I would say that Pitkin avenue between Amboy street and Ames street has not legally been opened. The street, however, is in use, and is macadamized and curbed. I should say, therefore, there is no question but that this street can be considered legally open.

Ames street, between Pitkin and Sutter avenues, has not been legally opened. If opened, the proceedings should run from East New York avenue to Hunterfly road.

Respectfully,

(Signed) GEO. W. TILLSON, Chief Engineer.

The items of work necessary are:

520 feet 18-inch pipe sewer.

100 feet 15-inch pipe sewer.

400 feet 12-inch pipe sewer.

9 manholes.

2 receiving basins and appurtenances.

In regard to the legal opening of these streets, information of which is requested, I beg to state that Pilling street, between Evergreen avenue and the tracks of the Manhattan Beach Railroad—Commissioners on opening were appointed May 5, 1900 (page 961, City Record, February 24, 1902).

 March 27, 1903.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I return you herewith the petition for paving with asphalt Grant avenue, from Jamaica avenue to Atlantic avenue, and from Atlantic avenue to Liberty avenue. The items are:

18,000 cubic yards of grading, at 37 cents.  
 8,850 linear feet of curb, at 85 cents.  
 15,030 square yards of asphalt pavement, at \$2.25.  
 42,400 square feet of cement sidewalk, at 18 cents.  
 600 square feet of bluestone sidewalk relaid, at 4 cents.  
 Total estimated cost, \$58,400. Assessed valuation, \$114,500.

As the total cost is a little more than one-half of the assessed valuation, and as that excess is wholly on the portion between Jamaica and Atlantic avenues, I would suggest that the sidewalks be omitted, when the estimated cost will be \$50,800.

The street is legally open from Jamaica avenue to Atlantic avenue. The Board of Public Improvements on February 20, 1901, passed a resolution opening the street from Liberty avenue to Conduit avenue, but the proceedings were not carried out.

Water mains have been laid from 300 feet south of Atlantic avenue to Liberty avenue. Gas mains have been laid from Jamaica avenue to 100 feet north of Etna street and from Fulton street to Jamaica avenue.

Respectfully,  
 (Signed) GEO. W. TILLSON, Chief Engineer.

##### BOARD OF ALDERMEN.

AN ORDINANCE GRANTING TO THE

Erie Railroad Company the right or franchise

to construct and operate a railroad in and upon

Thirteenth avenue and the marginal wharf or

way lying between Thirteenth avenue and the

waters of the Hudson river, between Twenty-

seventh and Twenty-ninth streets, in the Borough

of Manhattan, City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen of The City of New York hereby grants to the Erie Railroad Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to construct and operate a double-track surface railroad, with a single switch connecting the two tracks, to be operated by steam locomotives or other motive power which may be lawfully employed, except horses or the overhead system of electricity, across Thirteenth avenue and the marginal wharf or way extending from the westerly side of Thirteenth avenue to the waters of the Hudson river, between Twenty-seventh and Twenty-ninth streets, in the Borough of Manhattan, City, County and State of New York.

Sec. 2. The grant of this franchise is subject to the following conditions:

First—This ordinance as to the marginal wharf which extends from the westerly line of Thirteenth avenue to the waters of the Hudson river shall not be operative and no rights thereunder shall vest in the grantee, its successors or assigns until the Commissioner of Dock, under the provisions of section 810 of the Charter of The City of New York, shall approve by resolution, license or otherwise, the use of such marginal wharf by the grantee in the manner herein provided, or in such other manner as he may prescribe, not inconsistent with the terms of this ordinance.

Second—The said right, privilege and franchise to construct and operate such railroad shall be held and enjoyed by the grantee, its successors or assigns, for the term of twenty-five years from the date when this ordinance is signed by the Mayor, unless sooner terminated as herein-after provided, with the privilege of renewal of the grant for a further period of twenty-five years, upon a fair revaluation of said right, privilege and franchise, but such renewal shall not provide for any further renewal. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railroad by itself, and is not to include valuation derived from the ownership, operation or control of any other railroad by the grantee, its successors or assigns. It shall be made in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successor in authority; one disinterested freeholder shall be chosen by the railroad company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railroad company. The valuation so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last five years of the original franchise.

Provided, however, and this grant is upon the express condition that the right, privilege and franchise conferred by this ordinance may be cancelled and annulled upon one year's notice in writing to the grantee, its successors and assigns, by the joint act of the Commissioner of Docks of The City of New York and of the Board of Estimate and Apportionment, or their respective successors in authority, and thereupon all the rights of the grantee, its successors or assigns in and upon the street and marginal wharf or way aforesaid shall cease, and the railroad and its structures thereon shall be forthwith removed and the pavement of the street or wharf restored under the same conditions and covenants as are contained in the following paragraph of this section, designated third:

Third—Upon the termination of such franchise, right or privilege, whether original or by way of renewal, the plant and property, with its appurtenances, of the Erie Railroad Company, its successors or assigns, in the street and upon the marginal wharf or way aforesaid, shall be forthwith removed by the grantee, its successors or assigns, and the surface of the said street or marginal wharf or way upon which such railroad was laid shall be restored to a condition equal to that of the surrounding surface and pavement of such street and wharf. In default of the performance of this condition by the grantee, its successors or assigns, the proper legal authorities may cause such property and plant to be removed from the street and wharf aforesaid and the surface thereof to be restored in the manner above described at the expense of the grantee, its successors or assigns, and such expense shall be recovered by The City of New York by action or otherwise.

Fourth—The grantee, its successors or assigns shall pay for this franchise to The City of New York the following sums of money:

During the first term of five years the annual sum of \$675.

During the second term of five years the annual sum of \$700.

During the third term of five years the annual sum of \$725.

During the fourth term of five years the annual sum of \$750.

During the fifth term of five years the annual sum of \$800.

Such sums shall be paid into the Treasury of The City of New York on November 1 in each year.

Fifth—The rights and franchises granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Erie Railroad Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—The said railroad may be operated by locomotive steam power or by any other motive power which may be approved by the Board of Railroad Commissioners in accordance with the provisions of the Railroad Law, excepting overhead electrical power and horse power, provided, however, that the locomotive steam engines used shall be housed or boxed so as to conform to the type commonly known as the dummy engine.

The number of cars to be included in any train operated upon the railroad shall be limited to ten, and the speed of the engines and cars shall never exceed six miles per hour. No car or engine shall be permitted to remain stationary within the limits of Thirteenth avenue, or upon the marginal wharf or street at any time.

Seventh—The railroad constructed under this ordinance shall be maintained and operated solely for the purpose of the transportation of goods, wares and merchandise and for no other purpose, and especially for no purpose in connection with the passenger traffic as commonly understood.

Eighth—Such railroad shall be constructed and operated in the latest improved manner of street

road construction and operation, and solely upon the terms and according to the lines and surveys and of the character of the rails and other parts of the construction approved by the Commissioner of Docks of The City of New York and the President of the Borough of Manhattan. Such railroad of the grantee, its successors or assigns shall be maintained in good condition throughout the term of this grant.

Ninth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York, and especially shall in all respects be subject to the power and authority of the Commissioner of Docks to regulate and control the uses of the marginal wharf or way above described, and the transportation of property thereon.

Tenth—The grantee, its successors or assigns, shall at all times keep the street between the tracks, and for a distance of two feet beyond the rails on either side thereof, free and clear from ice and snow.

Eleventh—The grantee, its successors or assigns, shall keep in permanent repair the portion of the surface of the street and of the marginal wharf or way between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. And The City of New York shall have the right to change the material or character of the pavement of the street and marginal wharf or way, and in that event the grantee, its successors or assigns shall be bound to replace such pavement in the manner directed by the proper City officer at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Twelfth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this grant may be forfeited and annulled by The City of New York by an action brought by the Corporation Counsel on ten days' notice to the grantee, its successors or assigns.

Sec. 3. This grant is upon the further and express condition that the provisions of the Railroad Law applicable thereto, and all laws or ordinances now in force or which may be adopted relating to surface railroads operating in The City of New York shall be strictly complied with.

Sec. 4. The grantee, its successors or assigns shall commence the construction of the railroad under this franchise and complete the same within six months from the date when it has obtained the necessary permits and resolutions of the City officials and Departments, and on or before January 1, 1904, otherwise this grant shall be forfeited forthwith and without any proceedings either at law or otherwise for that purpose, provided, however, that such time may be extended under and for causes specified in section 99 of the Railroad Law, by the Board of Estimate and Apportionment, for a period not exceeding six months.

Sec. 5. This grant is upon the express condition that the grantee, within thirty days after it has been duly authorized to construct or operate its railroad hereunder, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of \$1,500, either in money or in securities, to be approved by him, which shall be security for the performance of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the franchise, the repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railroad. In case of default in the performance by said company of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges, shall collect the same with interest from such fund after ten days' notice in writing to the said company.

In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of fifteen hundred dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 6. This grant shall not become operative until said railroad company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty days after the signing of this ordinance by the Mayor.

Sec. 7. This ordinance shall take effect immediately.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
