### COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communications from the Board of Estimate and Apportionment transmitting resolutions.

No. 2493.

Department of Finance—City of New York, }  
December 4, 1905. }

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment December 1, 1905, recommending the fixing of the salary of additional grades of the position of Auditor in the Department of Finance at the rates of \$3,500 and \$4,500 per annum.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

Whereas, The Board of Estimate and Apportionment, at a meeting held December 1, 1905, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of additional grades of the position of Auditor in the Department of Finance, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salaries of said additional grades be fixed at the rates of three thousand five hundred dollars (\$3,500) and four thousand five hundred dollars (\$4,500) per annum";

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salaries of additional grades of the position of Auditor in the Department of Finance at the rates of three thousand five hundred dollars (\$3,500) and four thousand five hundred dollars (\$4,500) per annum.

Which was referred to the Committee on Salaries and Offices.

No. 2494.

Department of Finance—City of New York, }  
December 4, 1905. }

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment December 1, 1905, recommending the fixing of the salary of an additional grade of the position of Stenographer and Typewriter in the Fire Department, at the rate of \$1,800 per annum, together with copy of communication from the Commissioner of said Department and copy of report of the Auditor of Accounts, Investigations Division, Department of Finance, relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

November 11, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In regard to the request of the Fire Commissioner that a salary of \$1,800 be fixed for the position of Stenographer and Typewriter in his Department, referred to this Division for examination, I beg to report as follows:

The salaries for this position, as at present established, are \$1,000, \$1,200 and \$1,500. The maximum of \$1,500 is said to be insufficient to retain the services of a Stenographer competent to do the trial work of the Department, which is constantly increasing. The salaries for similar positions in the Police Department are \$2,000 and \$2,500.

The request would seem to be founded in reason, and I therefore recommend that it be granted.

Yours respectfully,

(Signed) CHARLES S. HERVEY,  
Auditor of Accounts, Investigations Division.

Fire Department, City of New York, Nos. 157 and 159 East Sixty-seventh Street, }  
Borough of Manhattan, October 26, 1905. }

Hon. GEORGE B. McCLELLAN, Mayor and Chairman, Board of Estimate and Apportionment:

Sir—I have the honor to request that the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, recommend to the Board of Aldermen the fixing of the salary of the position of Stenographer and Typewriter in this Department at the rate of \$1,800 per annum.

The highest salary paid to Stenographer and Typewriter in this Department is \$1,500 per annum, and it is desired to increase the compensation in order that the salary of the Stenographer who does the trial work of the Department may be fixed at an amount commensurate with the character of the duties of the position. Trial Stenographers in the Police Department are paid \$2,000 and \$2,500 per annum, and the extension of the paid Fire Department into the Boroughs of Queens and Richmond will materially add to the duties of the position in this Department.

Respectfully,  
(Signed) NICHOLAS J. HAYES, Commissioner.

Whereas, The Board of Estimate and Apportionment at a meeting held December 1, 1905, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of an additional grade of the position of Stenographer and Typewriter in the Fire Department, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said additional grade be fixed at the rate of eighteen hundred dollars (\$1,800) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the additional grade of the position of Stenographer and Typewriter in the Fire Department at the rate of eighteen hundred dollars (\$1,800) per annum.

Which was made a Special Order for 2 o'clock p. m.

Subsequently, the hour of 2 o'clock having arrived, Alderman Owens called up the Special Order and moved its adoption.

The Vice-Chairman put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Baldwin, Boerner, Brenner, Bridges, Chambers, Coggey, Davies, Diemer, Donohue, Doull, Dowling, Flynn, Gaffney, Gass, Gillies, Goldwater, Grimm, Gunther, Haenlein, Haggerty, Harburger, Harnischfeger, Hann, Higgins, Jones, Kline, Koch, McCall, Morris, Arthur H. Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment December 1, 1905, recommending the fixing of the salary of an additional grade of the position of Chief Examiner of Accounts, in the office of the Commissioner of Accounts, at the rate of \$4,000 per annum, together with copy of report of the Auditor of Accounts, Investigations Division, Department of Finance, relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,  
J. W. STEVENSON, Deputy Comptroller.

November 16, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In the matter of the request of Commissioners of Accounts John C. Hertle and William Harman Black that the Board of Estimate and Apportionment recommend to the Board of Aldermen the fixing of a grade of the position of Chief Examiner of Accounts at \$4,000 per annum, I beg to report as follows:

This request is made with a view to increasing the compensation of Mr. Wood D. Loudoun, Chief Examiner of Accounts in the office of the Commissioners of Accounts, whose present salary is \$3,500 and who, as stated in the communication of the Commissioners of Accounts, has had no increase in salary since 1898.

Mr. Loudoun is a certified public accountant, a member of the New York State Society of Certified Public Accountants, a fellow of the American Association of Accountants, and was, for many years prior to his appointment in the office of the Commissioners of Accounts, in the public auditing and accounting business on his own behalf.

He has been connected with the Commissioners of Accounts' office over ten years as a Directing Examiner, having at different times from ten to thirty assistants under his charge. The most important examinations made by the Commissioners during Mr. Loudoun's employment have generally been under his direction, resulting in several cases in the recovery of large sums of money by the City.

Mr. Loudoun has also installed in several of the departments of the City improved and uniform systems of accounting, which have been approved by the Department of Finance.

Both Mr. Loudoun's services to the City and his experience generally as an accountant would seem to entirely justify the increase requested on his behalf, and I respectfully recommend that the Board of Estimate and Apportionment grant the said request.

Yours respectfully,  
(Signed) CHARLES S. HERVEY,  
Auditor of Accounts, Investigations Division.

Whereas, The Board of Estimate and Apportionment, at a meeting held December 1, 1905, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of an additional grade of the position of Chief Examiner of Accounts in the office of the Commissioners of Accounts, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said additional grade be fixed at the rate of four thousand dollars (\$4,000) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution, and fixes the salary of the additional grade of the position of Chief Examiner of Accounts in the office of the Commissioners of Accounts at the rate of four thousand dollars (\$4,000) per annum.

Which was referred to the Committee on Salaries and Offices.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment December 1, 1905, recommending the fixing of the salary of the additional grade of the position of Clerk in the Bureau of Highways, Borough of Manhattan, at the rate of \$2,350 per annum, together with copy of report of the Auditor of Accounts, Investigations Division, Department of Finance, relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,  
J. W. STEVENSON, Deputy Comptroller.

November 15, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In regard to the request of the Borough President of Manhattan for the establishing of a grade of Clerk in the office of the Bureau of Highways, Borough of Manhattan, at \$2,350 per annum, I beg to report as follows:

The present incumbent of the office receives a salary of \$2,100 per annum. It is proposed to add \$250 a year to his salary. I am informed that the Clerk for whom the increased salary is desired is John V. McManus. He has been in the employ of the City since 1871. The position which he now fills is of some importance, as he issues all the permits for vaults throughout the Borough of Manhattan. The receipts from vault permits have increased from about \$140,000 in 1896 to about \$300,000 in 1905. Although Mr. McManus's position is that of Clerk, he really performs all the duties of a Chief Clerk of the Bureau of Highways. The request for the increase is indorsed by Borough President Ahearn, by William Dalton, Commissioner of Public Works, and by George F. Scannell, Superintendent of Highways.

In view of the facts stated, I would respectfully recommend the approval of the request of the Borough President of Manhattan for the establishment of a grade Clerk in the Bureau of Highways, Manhattan, at \$2,350 per annum.

Yours respectfully,  
(Signed) CHAS. S. HERVEY,  
Auditor of Accounts, Investigations Division.

Whereas, The Board of Estimate and Apportionment, at a meeting held December 1, 1905, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of an additional grade of the position of Clerk in the office of the Bureau of Highways, under the jurisdiction of the President of the Borough of Manhattan, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said additional grade be fixed at the rate of twenty-three hundred and fifty dollars (\$2,350) per annum";

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the additional grade of Clerk in the office of the Bureau of Highways, under the jurisdiction of the President of the Borough of Manhattan, be fixed at the rate of twenty-three hundred and fifty dollars (\$2,350) per annum.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment December 1, 1905, recommending the fixing of the salary of an additional grade of the position of Inspector of Buildings in the Fire Department at the rate of \$1,800 per annum, together with copy of communication from the Commissioner of said Department and report of the Auditor of Accounts, Investigations Division, Department of Finance, relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

November 11, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In regard to the request made by the Fire Commissioner that a salary of \$1,800 be fixed for the position of Inspector of Buildings in his department, referred to this Division for examination, I beg to report as follows:

The Commissioner states that the present maximum salary of \$1,500 is not sufficient to secure the services of an Inspector having the required experience in providing for the proper heating and ventilating of buildings, and that the increase of salary asked will be more than saved in fuel alone if a competent Inspector shall have supervision of the matter of heating the department buildings, to which many new ones are about to be added owing to the recent extension of the department.

The salary suggested does not seem to be in excess of, if equal to, that paid for similar services in other departments, and I would recommend that the Commissioner's request be granted.

Yours respectfully,  
(Signed) CHARLES S. HERVEY,  
Auditor of Accounts, Investigations Division.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment:

Sir—I have the honor to request that the Board of Estimate and Apportionment recommend to the Board of Aldermen the fixing of the salary of the position of Inspector of Buildings in this Department at the rate of \$1,800 per annum.

The services of an Inspector of Buildings with experience in heating and ventilating matters are very much needed in the Building Branch of this Department, for which reason early and favorable action by your Honorable Board on this application is earnestly desired.

Respectfully,  
(Signed) NICHOLAS J. HAYES, Commissioner.

Whereas, The Board of Estimate and Apportionment at a meeting held December 1, 1905, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of an additional grade of the position of Inspector of Buildings under the jurisdiction of the Fire Department, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said additional grade be fixed at the rate of eighteen hundred dollars (\$1,800) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the additional grade of the position of Inspector of Buildings under the jurisdiction of the Fire Department at the rate of eighteen hundred dollars (\$1,800) per annum.

Hon. GEORGE B. McCLELLAN, Mayor and Chairman of the Board of Estimate and Apportionment:

Dear Sir—I would respectfully request the Honorable the Board of Estimate and Apportionment to recommend to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that an additional grade of Physician in the Department of Correction be established, at a salary at the rate of \$1,200 per annum.

In this connection I would state that I desire to increase the salary of Nathan E. Broder, M. D., Resident Physician at the Branch Workhouse, Riker's Island, from \$900 to \$1,200 per annum, and there is at present no grade of Physician at \$1,200 in this Department.

Very respectfully yours,

(Signed) FRANCIS J. LANTRY, Commissioner.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In regard to the request made by the Commissioner of Correction that there be established in his Department a grade of Physician at a salary of \$1,200, referred to this division for examination, I beg to report as follows:

The grades as now established are at salaries of \$900 and \$1,500 respectively. The three Resident Physicians, stationed at the Branch Workhouse on Riker's Island, the Branch Workhouse on Hart's Island and the Kings County Penitentiary, are each paid \$900, as is also the Visiting Physician at the latter institution. Two Physicians, one at the City Prison and one at the District Prisons, are each paid \$1,500. At the Penitentiary and Branch Workhouse on Blackwell's Island medical service is rendered by recent graduates from the medical schools, who receive certificates of such service in lieu of salary.

The Commissioner states that his purpose is to raise the salary of the Resident Physician at the Branch Workhouse on Riker's Island from \$900 to \$1,200, for the reason that he finds it impossible to retain the services of a competent physician in that institution at the salary now paid, but that he does not contemplate making such increase before next year.

I would respectfully recommend that the request be granted.

Yours respectfully,

(Signed) CHARLES S. HERVEY,  
Auditor of Accounts, Investigations Division.

Whereas, The Board of Estimate and Apportionment at a meeting held December 1, 1905, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of an additional grade of the position of Resident Physician under the jurisdiction of the Department of Correction, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said additional grade be fixed at the rate of twelve hundred dollars (\$1,200) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of an additional grade of the position of Resident Physician under the jurisdiction of the Department of Correction, at the rate of twelve hundred dollars (\$1,200) per annum.

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment December 1, 1905, approving of the establishment of an additional grade of the position of Architectural Draughtsman in the Fire Department and recommending that the salary of said additional grade be fixed at the rate of \$1,050 per annum, together with copy of communication from the Auditor of Accounts, Investigations Division, relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

November 11, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In regard to the request of the Fire Commissioner that a salary of \$1,000 be fixed for the position of Architectural Draughtsman in his Department, referred to this Division for examination, I beg to report as follows:

The salaries for Draughtsmen in this Department, as now fixed, are \$750, \$900, \$1,200, \$1,350 and \$1,500. The immediate occasion for asking the establishment of a \$1,000 grade is the desire of the Commissioner to retain the services of a very competent man, now receiving \$900, who is offered a higher salary in another department, but will remain where he is for \$1,000.

There would seem to be no good reason why there should not be a new grade of salary for the position in question, between the \$900 and the \$1,200 grades, and I would recommend that the request be granted, but that the salary be fixed at \$1,050 instead of \$1,000, to conform with the established practice of fixing the grades at \$150 intervals.

Yours respectfully,

(Signed) CHARLES S. HERVEY,  
Auditor of Accounts, Investigations Division.

Whereas, The Board of Estimate and Apportionment, at a meeting held December 1, 1905, adopted the following resolution:

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

Sir—I beg to advise that, subject to the establishment of the position, I have fixed the wages of all Levelers in this Department at the rate of \$1,350 per annum.

The Levelers employed by this Department are now paid at the rate of \$1,200 per annum. Their duties are of a very important character in the determination of grades for pier and bulkhead wall construction and are equally exacting, if not even more so, than in any other City Department, although the salary in other City Departments is invariably greater than \$1,200 per annum.

In am informed that the Levelers employed in the Boroughs of Richmond, Brooklyn and The Bronx and by the Department of Bridges receive \$1,350 per annum, and that the rate in the Borough of Richmond has been increased to \$1,500 per annum. The Levelers in this Department are also required, when called upon, to do all classes of instrument engineering work.

I would therefore respectfully request that the Board of Estimate and Apportionment recommend to the Board of Aldermen the establishment of Leveler in this Department at a salary of \$1,350 per annum.

Yours respectfully,

(Signed) MAURICE FEATHERSON, Commissioner.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In the matter of the request of Hon. Maurice Featherston, Commissioner of Docks and Ferries, "that the Board of Estimate and Apportionment recommend to the Board of Aldermen the establishment of Leveler in this Department at a salary of \$1,350 per annum," and referred to the Investigations Division for examination, I beg to report as follows:

The present rate of pay for Levelers in the Dock Department is \$1,200 per annum. An examination of the official record as to the number of Levelers employed and salaries paid in July, 1905, by the Bridge Department, Aqueduct Commission, and by Departments under the supervision of the Presidents of the various Boroughs, shows the total number so employed to be 68, of whom 17 receive \$1,200, 42 receive \$1,350, and 9 receive \$1,500 per annum.

I am informed by Mr. Charles J. Collins, Secretary to the Dock Commissioner, that it has been found difficult to retain the services of Levelers, for the reason that they look for and obtain transfers to City Departments which are paying a larger salary than is paid by the Dock Department for the same class of work. He also states that it is not intended to increase the number of Levelers in the Department, and that the only object of the request for the establishment of the \$1,350 grade is to enable the Commissioner to advance the salary of competent Levelers to the rate paid by other Departments for similar work.

I therefore respectfully recommend favorable action by the Board of Estimate and Apportionment upon the request made.

Yours respectfully,

(Signed) C. S. HERVEY,  
Auditor of Accounts, Investigations Division.

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the additional grade of the position of Leveler, under the jurisdiction of the Department of Docks and Ferries, at the rate of thirteen hundred and fifty dollars (\$1,350) per annum.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In the matter of the request of Hon. Maurice Featherston, Commissioner of Docks and Ferries, that additional grades be established in his Department for the position of Stenographer and Typewriter, at \$1,350, \$1,500, \$1,650 and \$1,800 per annum, and referred to the Investigations Division for examination, I beg to report as follows:

The Board of Estimate and Apportionment fixed grades of \$900, \$1,000 and \$1,200 for the position of Stenographer and Typewriter for the Dock Department. On August 18, 1903, the Board of Aldermen, upon recommendation of the Board of Estimate and Apportionment, fixed an additional grade of \$1,950. The Commissioner desires to increase the salaries of some of his staff of Stenographers who have shown that they are deserving of an increase because of their efficiency and length of service, but believes the difference between the maximum salary as originally fixed, \$1,200, and the \$1,950 grade authorized by the Board of Aldermen, is too great, and therefore asks for the establishment of intermediate grades of \$1,350, \$1,500, \$1,650 and \$1,800.

Of the twelve Stenographers employed in the Dock Department in July, 1905, nine received an annual salary of \$1,800 and three \$1,000. It appears from an examination of the official record that the salaries paid to Stenographers by City departments in the various boroughs vary, as a rule, from \$900 to \$1,500 per annum, and in a few cases exceed \$1,500.

I therefore respectfully suggest that the Board of Estimate and Apportionment recommend to the Board of Aldermen the establishment in the Department of Docks and Ferries of the additional grades of \$1,350 and \$1,500 for Stenographers and Typewriters, and recommend that the request for the establishment of grades of \$1,650 and \$1,800 be not granted.

Yours respectfully,

(Signed) C. S. HERVEY,

Auditor of Accounts, Investigations Division.

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salaries of the additional grades of the position of Stenographer and Typewriter in the Department of Docks and Ferries at the rates of thirteen hundred and fifty dollars (\$1,350) and fifteen hundred dollars (\$1,500) per annum.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In the matter of the request of Hon. Maurice Featherston, Commissioner of Docks and Ferries, "that the Board of Estimate and Apportionment recommend to the Board of Aldermen the establishment of the position of Assistant Engineer for this Department with salary at the rate of \$3,600 per annum," and referred to the Investigations Division for examination, I beg to report as follows:

The object of the request, as stated by the Commissioner, is to increase the salary of Allen N. Spooner, Assistant Engineer, from \$3,000 to \$3,600 per annum. Mr. Spooner, as noted in detail in the Commissioner's letter, entered the service of the Dock Department in July, 1887, at a salary of \$900 per annum. His salary was increased at various times until June, 1900, when his present rate of compensation, \$3,000 per annum, was fixed. For the past ten years he has been in charge of all construction work on the East river, and has had the supervision of and been responsible for

six or seven Assistant Engineers engaged in the same work. The Commissioner is of the opinion that Mr. Spooner's long connection with the Department and the very satisfactory manner in which he has performed his work justify an increase in the amount of salary which he now receives.

There are eighteen Assistant Engineers at the present time employed in the Department of Docks and Ferries, their yearly salaries ranging as follows: \$1,500, \$1,600, \$1,800, \$2,100, \$2,400, \$3,000 and \$4,000. It would appear that there should be established a grade between \$3,000 and \$4,000, but that grade preferably should be \$3,500 rather than \$3,600.

I therefore respectfully recommend that the request of the Commissioner of Docks and Ferries be granted by the Board of Estimate and Apportionment to the extent that a grade of Assistant Engineer be established at the rate of \$3,500 instead of \$3,600, as contemplated by the Commissioner of Docks and Ferries.

Yours respectfully,

(Signed) CHAS. S. HERVEY,

Auditor of Accounts, Investigations Division.

October 31, 1905.

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

Sir—I beg to advise you that I have this day fixed the salary of Allen N. Spooner, Assistant Engineer, at the rate of \$3,600 per annum, to take effect upon the establishment of the position for this Department.

Mr. Spooner was appointed Hydrographer in this Department on July 27, 1887, with a salary of \$75 per month, which was increased to \$100 per month on September 16, 1887. He was promoted to Assistant Engineer May 1, 1890, with a salary of \$125 per month, which was increased to \$1,800 per annum November 6, 1890. On December 7, 1893, his salary was increased to \$165 per month, and again increased on December 10, 1896, to \$2,400 per annum. His present compensation of \$3,000 per annum was established June 27, 1900.

Mr. Spooner has been in charge of the construction work of the Department on the East and Harlem rivers for about eleven years, with satisfactory results.

During the last few years the work on this section of the water front has been very urgent and extensive, and all of this improvement has been directly in charge of Mr. Spooner.

I therefore respectfully request that the Board of Estimate and Apportionment recommend to the Board of Aldermen the establishment of the position of Assistant Engineer for this Department, with salary at the rate of \$3,600 per annum.

Yours respectfully,

(Signed) MAURICE FEATHERSON, Commissioner.

Whereas, The Board of Estimate and Apportionment at a meeting held December 1, 1905, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of an additional grade of the position of Assistant Engineer, under the jurisdiction of the Department of Docks and Ferries, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said additional grade be fixed at the rate of thirty-five hundred dollars (\$3,500) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the additional grade of the position of Assistant Engineer, under the jurisdiction of the Department of Docks and Ferries, at the rate of thirty-five hundred dollars (\$3,500) per annum.

Alderman McCall called up Special Order No. 170, being a report and codification of ordinances, as follows:

No. 35—(S. O. No. 170).

The Committee on Codification, to whom was referred on June 12, 1904 (Minutes, page 46), the annexed ordinance establishing a code of ordinances, respectfully

#### REPORT:

That, having examined the subject, they believe the proposed annexed code to be necessary.

The amended code is in no sense a revision but is a codification of existing ordinances with those clearly obsolete, illegal and unnecessary omitted.

The ordinances have been rearranged in nine chapters as follows:

1. The Executive and Administrative Departments.
2. The Legislative Department.
3. The Finance Department.
4. The Sinking Fund of The City of New York.
5. Licenses.
6. Contracts.
7. Ordinances and by-laws relating to territory less in extent than the entire City.
8. Traffic regulations.
9. Miscellaneous.

To these must be added the Park Ordinances, Building Code and Sanitary Code, as provided by chapter 628 of the Laws of 1904, passed at the request of your committee.

Your committee further recommends that the regulations of the Municipal Explosive Commissions and the section of the chapter contained in section 3, schedule 2, of chapter 466, Laws of 1901, be added as chapters and report herewith an ordinance so providing.

If the recommendations of your committee are accepted, and the ordinances proposed by it adopted, all of the most important municipal legislation relating to this City will be found in two books, the Charter and the Code of Ordinances. This will be of great importance to citizens generally and of special importance to judges and lawyers.

If to the adoption of this code is added care in the future to make ordinances amendments of it, the preservation of our local laws in a comparatively small compass will have been obtained.

They therefore recommend that the said ordinance be adopted.

The Code of Ordinances of The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

#### Chapter 1—The Executive and Administrative Departments.

Sec. 194. No person shall in any way or manner obstruct, hinder or molest any Inspector of Weights and Measures in the performance of his duties as hereby imposed upon him, under a penalty upon every such person of twenty-five dollars for every such offense, to be paid by such person so refusing.

The Mayor shall from time to time issue licenses under his hand and seal to so many and such persons as he shall think proper, to keep for hire, in the said City, horseless coaches, carriages and cabs, designed for propulsion by electricity supplied by an electric storage battery or batteries, and may revoke any and all of said licenses for cause.

Sec. 205. The provisions and penalties of the ordinance relating to the licensing of hacking coaches or cabs and of the driving thereof and the rates and prices of fares, so far as the same may be consistent, shall apply to coaches, carriages and cabs, to be licensed hereunder and to the owners and drivers thereof.

Sec. 207. The Chief of the Bureau of Licenses of The City of New York shall from time to time furnish to the Police Commissioner of said City a list of unexpired licenses and permits, such list to contain the names of the persons to whom licenses were issued, the place and business for which issued, and the date of expiration of such license or permit, and thereafter, during the first week of each month, the said Police Board shall send to the Captains of Police of the various precincts of The City of New York, a list of licenses and permits granted affecting their respective precincts, with the names of persons to whom granted, location of stand or business, and date of expiration of such permit or license, and also a list of all licenses or permits expiring the month for which the report is sent.

Sec. 208. No cask, bale, bundle, box, crate or any other goods, wares or merchandise, or any boards, planks, joists or other timber, or anything whatsoever, shall be raised from any street on the outside of any building, or to be lowered on the

outside of any building, by means of any rope, pulley, tackle or windlass, under the penalty of one hundred dollars, to be recovered in an action by The City of New York against any person, agent, owner or employer violating the provisions of this section, in any court of competent jurisdiction, unless a permit shall be first obtained from the Bureau of Licenses upon the payment of a fee of one dollar, upon such conditions and with such security, by bond or otherwise, as may be approved by the Chief of the Bureau of Licenses, to save the City harmless from any loss that may occur or damages that may be done while exercising the privilege granted in such permit.

Sec. 209. To persons, firms or corporations engaged in a business requiring the frequent or constant hoisting or lowering of merchandise or materials, the Bureau of Licenses shall, on the filing of such satisfactory security, to be approved by the Chief of the Bureau of Licenses as aforesaid, and on the payment of a fee of twenty-five dollars, grant a general permit to such persons, firms or corporations, permitting them to hoist, raise or lower the goods, property, merchandise or materials therein described on the outside of any and all buildings for the term of one year thereafter. Nothing in this subdivision contained shall affect the right, in any case, to obtain a single permit under subdivision.

Sec. 210. In every case, it shall be the duty of all persons, firms or corporations, while engaged in such hoisting or lowering over any sidewalk, roadway or public place, to give warning on such sidewalk, roadway or public place, by two conspicuous flags or placards, on which shall be inscribed in letters at least six inches long, the word "danger." For every failure to comply with this provision, there shall be a penalty of twenty-five dollars, recoverable by The City of New York in any court of competent jurisdiction, against any person, firm or corporation guilty of such violation. (R. O., 1897, sec. 205, with verbal changes.)

#### Chapter 6.—Contracts.

Sec. 211. All supplies to be furnished or work to be done for the Corporation of The City of New York, whether to be paid for out of the City Treasury or out of trust moneys under the control of or to be assessed or collected by the Corporation, shall be furnished or performed by contract, except as is otherwise provided by law. (R. O. 1897, sec. 344, amended.)

Sec. 212. The several departments and officers empowered by law to make contracts on the part of the Corporation shall issue invitations for bids or proposals therefor by public notices, and shall advertise the same as provided by law when and after the said public notice and the terms of the said contract shall have been approved as to form by the Corporation Counsel. There shall be kept by each of said departments an appropriate box, to be designated "bid box," with a proper opening in the top thereof to receive bids or proposals for which invitations have been issued. Such "bid box" shall be locked, except at such times as it may be necessary to open the same to examine and decide upon bids or proposals, and the key thereof shall be retained by the head of the department. It shall be the duty of the head of the department to deposit in said box the bids or proposals duly presented to him for work to be done or supplies to be furnished, under the direction of the department, immediately on the receipt thereof by him. (Id., sec. 345, amended.)

Sec. 213. The invitations for bids or proposals shall be in such form as may be prescribed by the department making the same, and as shall be approved as to form by the Corporation Counsel, and they shall contain the following particulars:

1. They shall require that the person making the bid or proposal shall furnish the same in a sealed envelope to the head of the appropriate department, at his office, on or before a day and hour herein named, not less than ten (10) days from the first publication thereof.

2. They shall state the quantity and quality of supplies, or the nature and extent, as near as possible, of the work required, or a reference to specifications or schedules where the quantity and quality of supplies, or the nature and extent, as near as possible, of the work, is stated.

3. They shall state that the bids or proposals received will be publicly opened by the head of the department issuing the public notice, at his office, at a day and hour therein mentioned.

4. They shall state the amount in which security is required for the performance of the contract.

5. They shall state the time or period within which the work must be done or the supplies furnished. (Id., sec. 346, amended.)

Sec. 214. Each bid or proposal shall contain:

1. The name and place of residence of the person or party making the same.  
2. The names of all persons or parties interested with the bidder therein, and if no other person or party be so interested the bid or proposal shall distinctly state that fact.

3. A statement that the bid or proposal is made without any connection with any other person or party making the bid or proposal for the same purpose, and that the bid or proposal is in all respects fair and without collusion or fraud.

4. A statement that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or Clerk therein, School Commissioner or other officer of the corporation is directly or indirectly interested therein, or in the supplies or the work to which it relates, or any portion of the profits thereof, either as principal, surety or otherwise. (Id., sec. 347, amended.)

Sec. 215. Each bid or proposal shall be verified by the oath or affirmation, in writing, of the party making the bid or proposal, that the several matters stated therein are in all respects true, and if the bid or proposal be made by a firm it shall be verified by each and every member of the firm. (Id., sec. 348, amended.)

Sec. 216. Each bid or proposal shall be accompanied by the consent, in writing, of two (2) householders or freeholders in The City of New York, or of a responsible guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded to the person or party making the bid or proposal they or it will, upon its being so awarded, become bound as his or its sureties for its faithful performance, and that if he shall omit or refuse to execute the same they or it will pay to the corporation any difference between the sum to which he would be entitled upon its completion and that which the corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount of security in each case to be calculated upon the estimated cost of the work to be done or of the supplies to be furnished by which the bids are tested. (Id., sec. 349, amended.)

Sec. 217. The consent mentioned in the last section shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in The City of New York and is worth the amount of the security required for the completion of the contracts and stated in the bids or proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with an intention to execute the bond required by law; and a like affidavit shall be required of the proper officers of any such guaranty or surety company, setting forth the name of the company, the title of the act or laws under which it is incorporated, the date when incorporated, a statement that it is authorized to do business under the laws of the State of New York and is authorized under its charter to execute the said bond or undertaking and to guarantee the obligations assumed in the bid or proposal and according to the contract and referred to in the bids or proposals; a true and correct statement of the financial condition of the company at its last accounting, which shall have been made within a period of one year, and of any changes in its condition that impairs or affects its financial liability or status. (Id., sec. 350, amended.)

Sec. 218. The sealed envelope containing the bid or proposal shall be indorsed with the name or names of the person or party presenting the same, the date of its presentation and a statement of the work to which it relates; and no bid or proposal shall be taken from the "bid box," or the sealed envelope thereof opened by any one, except at the time and in the manner herein designated for deciding on such bids or proposals. At the same time and place appointed for that purpose in the public notice as prescribed in this ordinance, the head of the Department, or other officers empowered to make the contract, in the presence of the Comptroller or his duly authorized representative, and such of the parties making the said bid or proposals as may desire to be present, shall then and there open the said bid box, and the bids or proposals to be examined at that time, as may appear from the indorsements thereon, shall be taken from said box. The said head of Department, or his deputy, shall then and there publicly open and read all bids or proposals which may have been received for the contract mentioned in such public notice, and shall reject all bids or proposals not furnished in conformity with the law and the ordinances re-

lating thereto and the requirements thereof. The award of the contract shall be made according to law (Id., sec. 351, amended).

Sec. 219. When public notices are issued for a contract to furnish any article of which a sample can conveniently be furnished or for which specifications and plans can be prepared and furnished within the time allowed, the head of the department issuing the same may require that such sample or specifications and plans be delivered at his office or at the office of the head of the appropriate bureau of the department within such time before the opening of the bids or proposals as he may prescribe; and if it or they be not so furnished, or do not conform to the requirements of the public notices and of the specifications and requirements issued by the department for the said article, the bid or proposal delivered by the person or party furnishing or omitting to furnish the same, as the case may be, shall be rejected. Wherever samples are required to be prepared and furnished to the head of the department, at least ten (10) days shall be given for the furnishing of such sample and for the preparation and furnishing of such specifications and plans (Id., sec. 352, amended).

Sec. 220. Except as herein otherwise provided, in all contracts for work for the corporation where provision is made for the payment of the contract price by installments, a provision shall be inserted that the corporation may retain, and the contractor shall allow to be retained, at least ten (10) per cent. of the contract price of the work actually done as security until the whole work shall be completed and the contract shall be fully and completely performed (Id., sec. 353, amended).

Sec. 221. In all contracts for the performance of work or the furnishing of supplies, the time or period for the completion of such work and the furnishing and delivery of such supplies shall be specified and inserted therein (Id., sec. 354, amended).

Sec. 222. In all contracts for public works or supplies, and agreements in relation thereto, by which the City shall be liable to pay money, the award, if any, must be to the lowest bidder unless the Board of Estimate, by the vote of three-quarters of its members, shall determine that it is for the public interests that a bid other than the lowest should be accepted. No contract shall be made until the Comptroller certifies thereon that the necessary funds are provided and applicable thereto (sec. 419, the Greater New York Charter).

Sec. 223. In all contracts for work for the corporation upon any public building, or in any public street or place, in the performance of which accidents or injuries may happen to the person or property of another, a provision shall be inserted that the contractor shall place proper guards for the prevention of accidents, and shall put up and keep at night suitable and sufficient lights during the performance of the work; and that he will indemnify the corporation for damages or costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work (Id., sec. 355, amended).

Sec. 224. Every contract for supplies or work for the corporation shall be executed by the contractor or contractors to whom the same may be awarded, and shall be accompanied by a bond in the amount mentioned in the public notice therefor, executed by the persons or company consenting to become bound as sureties, or by such other persons or company as shall be substituted therefor, with the consent of the Comptroller, conditioned for the faithful performance of the contract and of every provision therein contained, and which bond shall be accompanied by the oath in writing of the person signing the same that each is a householder or freeholder in the City of New York, and of the person or any officer of such company that he or it is worth the amount of the security required for the completion of the contract, and stated in the public notice as hereinbefore prescribed. And it shall be the duty of the Comptroller to require such sureties to be further examined before himself or an officer authorized to administer oaths, deputed by him, in respect to the items and details of their property, before approving the adequacy and sufficiency of such sureties, and the several departments of the City government and officers aforesaid by which every and each contract for work to be done or supplies to be furnished for the corporation shall be made in pursuance of this ordinance, shall have power and it shall be their duty to require and enforce the faithful execution of each and every contract so made by them; and in case the contractor or contractors shall fail in any respects to perform the work or to furnish the supplies which he or they have contracted to render or furnish within the time limited for the performance of the same, then it shall be the duty of such department or officers aforesaid to do and complete the same work or to furnish and deliver the said supplies in the manner provided for the performance of the same in the contract, and the cost of the same shall be charged against the delinquent contractor or contractors; provided, however, that the head of any department or officer aforesaid by whom any such contract shall be made may, on good and sufficient cause, extend for a reasonable time the period fixed for the completion thereof (Id., sec. 356, amended).

Sec. 225. Whenever any contract shall be made hereafter by any of the departments or officers aforesaid of the corporation, the amount whereof is to be afterward collected by assessment from the property benefited by the work to be done under said contract, it shall be the duty of the head of department or officers aforesaid making such contracts to cause to be inserted therein a clause that, as the work progresses, payments will be made to the contractors by monthly installments of seventy per cent. (70%) on the work performed, provided the amount of work done on each installment shall amount to one thousand five hundred dollars (\$1,500); and the head of department making such contracts shall forthwith file a copy thereof with the Comptroller (Id., sec. 357).

Sec. 226. The amount due contractors on all contracts, and on work now in progress under contracts, on account of regulating and paving streets, building sewers, ordered to be done by contract, by virtue of the provisions of law or ordinance, the expense whereof is to be assessed upon property locally benefited thereby, shall be paid by the Comptroller from the Street Improvement Fund; but no money shall be paid on account of said assessments or contracts until a copy of the original contracts has been filed with the Comptroller of the City by the head of the Department having such work in charge, with a certificate in writing from the head of such Department, stating the amount of work that has been completed and the amount due the contractor for such work according to the terms of the original contract; upon the amount thus certified and ascertained to be due to the contractor, the Comptroller shall pay seventy per cent. (70 per cent.). The remaining thirty per cent. (30 per cent.) shall be reserved until thirty days after the final completion and acceptance of the work (Id., sec. 358, amended).

Sec. 227. Whenever any payment shall become due upon any contract, according to the provisions thereof or in accordance with any of the provisions of this ordinance, it shall be the duty of the head of Department or officer aforesaid having such work in charge to furnish to the person or party entitled to such payments a certificate, in writing, specifying the contract upon which such payment is due and the amount due under such contract (Id., sec. 360, amended).

Sec. 228. It shall be the duty of the Comptroller on the presentation of such certificate to him to pay the amount thereof and indorse such payment upon the contract on account of which such payment is made; but no payment shall be made under such contract beyond the amount of such certificate, and the final payment thereon shall not be made until the head of Department or officer aforesaid having such work in charge shall furnish the Comptroller, who shall file the same in his office, a certificate signed by the head of such Department or officer aforesaid, that the work mentioned in such contract has been completed according to the terms of said contract, and to the satisfaction of the head of Department giving such certificate (Id., sec. 361, amended).

Sec. 229. Each and every contractor shall be required to have an affidavit from the surveyor, setting forth the amount of work done of every description that may be charged in each bill or assessment list of said contract, and said affidavit shall be attached to said assessment list. The Inspector shall also furnish an affidavit attached to each contract that the work is done according to the plans and specifications, said affidavit to be attached to each assessment list before presented for confirmation (Id., sec. 363).

Sec. 230. No payment shall be made by the Comptroller for work done or supplies furnished except upon proper vouchers rendered by the head of the appropriate Department, or other proper officer, Board or Commission for whom such work was done or supplies furnished. Such vouchers shall be made out in duplicate, and shall contain the certificates of such subordinate officers as the head of the Department and the Comptroller may require, and shall be of such form and purport as the Comptroller shall prescribe, and also a certificate of the head of the Department. One of the duplicate vouchers shall be retained in the Department or office by which the vouchers are rendered, and the other shall be transmitted to the De-

partment of Finance for payment. A receipt for the amount paid shall be taken upon the vouchers sent to the Department of Finance (Id., sec. 367, amended).

Sec. 231. All old and waste material under the care of any Department shall be sold from time to time, as it may be deemed best for the public interest so to do, in accordance with the provisions of law, the sale of such material to be under the immediate supervision of the head of the Department or Bureau having charge of such material, the proceeds therefor to be collected by said head of Department or Bureau and transmitted within twenty-four hours by him to the Comptroller for deposit in the City Treasury, except as otherwise specially provided (Id., sec. 368, amended).

Sec. 232. All meetings of the Boards or Commissions constituting Departments of the City Government of The City of New York for the transaction of public business, shall be held openly, and shall in all cases be accessible to the public. Such meetings shall be held at such times and places as may be determined upon by each of such departments, and due notice thereof shall be published daily in the "City Record" (Id., sec. 369).

It shall be the duty of all persons and corporations engaged in sprinkling the streets of The City of New York to use on asphalt pavement a quantity of water sufficient thoroughly to wash off and clean the same, and on all other pavements to use not more water than shall be sufficient to lay the dust thereon.

Every street railroad corporation in the boroughs of Richmond and Queens shall sprinkle the pavement between its tracks and rails when and as often as directed so to do by the Superintendent of Highways. Water shall be furnished for this purpose free of charge by The City of New York.

Sec. 356. No one being the owner, driver, manager or conductor of any cart or other vehicle, or of any receptacle, shall scatter, drop or spill, or permit to be scattered, dropped or spilled, any dirt, sand, gravel, clay, loam, stone or building rubbish, or hay, straw, oats, sawdust, shavings or other light materials of any sort, or manufacturing, trade or household waste, refuse, rubbish of any sort, or ashes or manure, garbage or other organic refuse or other offensive matter therefrom, or permit the same to be blown off therefrom by the wind, in or upon any street, avenue or public place.

Sec. 357. No person shall throw, cast or distribute in or upon any of the streets, avenues or public places, or in front yards or stoops, any hand bills, circulars, cards or other advertising matter whatsoever.

Every owner, lessee, tenant or occupant, or other person having charge of any building or lot of ground in the city abutting upon any street, avenue or public place, where the sidewalk is paved, shall, before 10 o'clock in the forenoon, after any snowfall, or after the deposit of any dirt or other material upon said sidewalk, remove the snow and ice, dirt or other material from the sidewalk and gutter within four hours after the snow ceases to fall, or after the deposit of any dirt or other material upon said sidewalk, the time between 9 p. m. and 7 a. m. not being included in the above period of four hours; provided, however, that such removal shall in all such cases be made before the removal of snow and ice from the roadway by the Commissioner of Street Cleaning, or by the Borough President of Queens or Richmond, or subject to the regulations of said Commissioner of Street Cleaning, or of said Borough President of Queens or Richmond for the removal of snow and ice, dirt or other material, except that, in the boroughs of Queens and Richmond, any owner, lessee, tenant or occupant or other person who has charge of any ground abutting upon any paved street, avenue or public place, for a lineal distance of five hundred feet or more shall be considered to have complied with this ordinance, if such person shall have begun to remove the snow and ice from the sidewalk and gutter before the expiration of the said four hours and shall continue such removal, and shall complete it within a reasonable time.

Sec. 359. In case the snow and ice on the sidewalk shall be frozen so hard that it cannot be removed without injury to the pavement, the owner, lessee, tenant, occupant or other person having charge of any building or lot of ground as aforesaid, shall, within the time specified in the last preceding section, cause the sidewalk abutting on the said premises to be strewn with ashes, sand, sawdust, or some similar suitable material, and shall, as soon thereafter as the weather shall permit, thoroughly clean said sidewalk.

Sec. 360. Whenever any owner, lessee, tenant, occupant or other person having charge of any building or lot of ground abutting upon any street or public place, where the sidewalk is paved, shall fail to comply with the provision of any ordinance of the

City for the removal of snow and ice, dirt, or other material from the sidewalk or gutter in the street, on the side of the street on which such building or lot abuts, the Commissioner of Street Cleaning, or the Borough President of Queens or Richmond may cause such removal to be made, meeting such expense from any suitable Street Cleaning or Highway Fund, and thereafter the expense of such removal as to each particular lot of ground, shall be ascertained and certified by the said Commissioner of Street Cleaning or by the President of Queens or Richmond to the Comptroller of the City and the Board of Estimate and Apportionment may authorize such additional expenditures as may be required for the said removal of such ice and snow, dirt or other material, to be repaid to the fund from which the payments were made, or instead in the boroughs of Queens or Richmond to the special funds "Restoring and Repaving" in said boroughs, if the Presidents of these boroughs so elect, with proceeds from the issue and sale of revenue bonds which shall be sold by the Comptroller, as provided by law.

The Commissioner of Street Cleaning or Borough President of Queens or Richmond shall, as soon as possible, after the work is done, certify to the Corporation Counsel the amount of the expense chargeable against each piece of property, with a description of said property as assessed on the last preceding assessment roll, and the name or names of the owner or owners, lessee, or lessees, occupant or occupants of the property, where possible to obtain the same. The Corporation Counsel is hereby directed and authorized to sue for and recover the amount of this expense, together with \$10 penalty for each offense, and when so recovered the amount shall be turned over to the City Chamberlain to be deposited to the credit of the general fund of The City of New York for the reduction of taxation.

Sec. 361. It shall be the duty of the Commissioner of Street Cleaning and the Borough Presidents of Queens and Richmond, immediately after every snowfall or the formation of ice on the crosswalks or in the culverts or paved streets, avenues or public places, forthwith to cause the removal of said snow and ice from the said crosswalks and culverts, and to keep the crosswalks and culverts aforesaid clean and free from obstruction.

Sec. 362. Every street railroad corporation shall remove all the snow and ice from its tracks and the spaces between, and shall not throw the same on either side thereof, and shall immediately carry away and dispose of the same under the direction of the Commissioner of Street Cleaning, or the Borough President of Queens or Richmond under a fine of one hundred dollars for every city block in length, in which the said corporation shall fail to so remove and dispose of the same, as aforesaid; provided, however, that for the more speedy and effective removal of snow and ice from the paved streets, avenues and public places of the city, the Commissioner of Street Cleaning and the Borough Presidents of Queens and Richmond shall have power and authority in their respective boroughs to enter into agreements for the entire winter season, or part thereof, with any street surface railroad or other railroad having tracks in the city for the removal of snow and ice for the entire width of the street, avenue or public place, from house-line to house-line, at any part of the route of the said railroad, provided that nothing in said agreements shall be inconsistent with any law of the State of New York or with any right of The City of New York.

Sec. 363. It shall not be lawful for any surface railroad company or other company, or any corporation of persons whatever, or the officers, agents or servants thereof, to cause or allow any snow plow, sweeping machine or other similar instrument to pass over the tracks or lines used by them within the limits of the city unless by the written permit of the Commissioner of Street Cleaning or the Borough President of Queens or Richmond; any violation of this section shall be punished by a fine not exceeding one hundred dollars for each such offense.

Sec. 364. No such permit or renewal thereof shall be granted except upon the condition and agreement upon the part of the company applying for such permit or renewal that the party to whom the said permit has been granted shall and will, at his own expense, promptly remove and carry away the snow thrown up by such plow or machine, and that such snow plow, sweeping machine or other instrument shall be so constructed as not to throw any slush or snow upon the sidewalks or buildings, under a penalty of ten dollars for every house, or sidewalk in front thereof, upon which slush or snow shall be thrown.

Sec. 365. No such permit or renewal shall be granted unless the party to whom granted shall expressly covenant, stipulate and agree that in case of its failure, neglect or omission to promptly remove and carry away the snow and ice thrown up by such snowplow or other instrument, then the same may be removed under the direction of the Commissioner of Street Cleaning or the Borough President of Queens or Richmond, and the expense of removing the same shall be paid by the said party to the said Commissioner or the Borough President of Queens or Richmond, on demand, and the Board of Estimate and Apportionment may authorize that the amount or amounts of money so paid shall be credited to the appropriation for Street Cleaning, in the respective boroughs, for the removal of snow and ice; but nothing herein contained shall be deemed to prohibit said Commissioner or Borough Presidents from demanding, before issuing said permit, and as a condition thereof, the deposit of such sum of money or other security as in their judgment may be necessary to pay the cost of properly performing the work above mentioned, together with the expense of the inspection thereof.

Sec. 366. In case of neglect or refusal or omission of the party to whom such permit may be granted promptly to remove and to carry away the snow and ice thrown up by such plow or instrument, then the Commissioner of Street Cleaning or the Borough President of Queens or Richmond may forthwith cause the same to be removed at the public expense, and all expenditures made or incurred therefor shall be chargeable upon the party so neglecting, refusing or omitting to perform its agreement, and shall be recoverable by an action at law on behalf of The City of New York, and when so recovered shall be placed to the credit of the Department of Street Cleaning or the Bureau of Street Cleaning in the boroughs of Queens or Richmond, as the case may be, to supply the deficiency occasioned by such additional expenditure.

Sec. 367. Any person violating any provision or regulation hereof shall be deemed guilty of a misdemeanor, and upon conviction thereof by any magistrate, either upon confession of the party or competent testimony, may be fined for such offense any sum not less than one dollar and not exceeding three dollars, except as herein otherwise provided; and in default of payment of such fine may be committed to prison by such magistrate until the same be paid, but such imprisonment shall not exceed one day.

#### Projections.

Sec. 440. The Borough Presidents and the Park Commissioners having jurisdiction shall, subject to the restrictions of this ordinance, issue permits for the construction of ornamental projections which project beyond the building line; provided, in the opinion of the officer having jurisdiction no injury will come to the public thereby. Permits for the construction of such projections, lying within any park, square or public place, or within a distance of three hundred and fifty feet from the outer boundaries thereof, shall be issued by the Park Commissioner having jurisdiction, as provided in section 612 of the Charter, as amended by section 1, chapter 723, of the Laws of 1901. Permits for the erection of all other ornamental projections shall be issued by the Borough President having jurisdiction.

Sec. 441. For the purposes of this ordinance, "an ornamental projection" shall be taken to mean and include all decorative projections on the face of a building beyond the building line, in the nature of porches, arches, porticos, columns and pillars, which are erected purely for the enhancement of the beauty of the building from an artistic standpoint.

Sec. 442. Before the erection of any such ornamental projections shall be commenced the owner of the building, or his duly authorized agent, shall make application in writing to the said Borough President or Park Commissioner having jurisdiction, or suitable blanks furnished by him, for the permit herein provided for, and shall file a plan and drawing showing the nature of the proposed ornament with the dimensions thereof, the number of stories through which it is intended to be carried and the number of square feet of area covered by that portion of the ornamentation projecting beyond the building line.

Each application shall be accompanied by the amount of compensation due the City for the privilege of erecting said ornamentation, as hereinafter provided.

Sec. 443. Each application for the erection of an ornamental projection, which projects more than one foot beyond the building line, shall be accompanied by a certified copy of the last assessed valuation of the property on which said ornamental projection is to be erected, which appears upon the books of the Department of Taxes and Assessments. Except as hereinafter provided, the amount that shall be paid as a compensation to the City for the privilege of erecting each ornamental projection shall be, for each and every square foot or fraction thereof of area extending more than one foot beyond the building line, at the rate of ten per cent. per square foot of the assessed value of the property on which the said ornamental projection is to be erected.

Sec. 444. Ornamental projections which shall extend not more than two feet beyond the building line may hereafter be erected on buildings in the Borough of Manhattan, situated on Broadway to the south of Fifty-ninth street; on Fourteenth street, between Broadway and Sixth avenue; on Twenty-third street, between Third and Sixth avenues; on Thirty-fourth street, between Third and Ninth avenues; on Fifty-ninth street, between Third and Ninth avenues, and on Fifth avenue, between Fourteenth street and Fifty-ninth street, and on all other streets in The City of New York ornamental projections may be erected, provided they shall extend not more than one-fifth part of the width of the street they are upon, nor in any case more than five feet beyond the building line.

Sec. 445. The permits mentioned herein shall be issued in duplicate, one of which shall be retained by the applicant and kept at the building during the erection of the projection, and the other shall be filed by him with the plans for the building in the Bureau of Buildings. If it shall appear upon completion that the ornamental projection occupies a greater number of square feet than shall have been paid for, the applicant shall pay twice the sum previously paid for each square foot of area occupied by said projection, over and above the number of square feet paid for originally, but in no case shall said ornamental projection exceed the limit allowed by law.

Sec. 446. Permits granted pursuant to the provisions of this ordinance are revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof, at any time hereafter by the Board of Aldermen of The City of New York, upon the recommendation of the officer having jurisdiction, when the space occupied by said ornamental projection or any portion thereof, may be required for any public improvement, or upon any violation of any of the terms or conditions upon which this permit is issued." A permit for the erection of an ornamental projection shall be deemed to have expired when such projection is taken down, and the space formerly occupied thereby shall no longer be used for the purpose for which the permit was issued, unless a permit for its reconstruction shall have been granted, as provided in section 448 of this ordinance. In case it is thereafter desired to erect an ornamental projection on the said property, the applicant shall comply with all of the provisions of this ordinance.

Sec. 447. Permits as hereinbefore described, and subject to the conditions therein attached, may be issued to the owners of all buildings having ornamental projections, which buildings have been erected or are being erected, and have ornamental projections thereon beyond the building line, without any authorization therefor.

Sec. 448. No fees shall be charged for granting a permit to reconstruct an ornamental projection within the limitations imposed by an original permit therefor.

Sec. 449. Nothing herein contained shall be deemed to conflict with the provisions of the Building Code. No plans for the construction of a building having ornamental projections thereon, beyond the building line, as defined in this ordinance, shall be approved by the Superintendent of Buildings until the permit therefor is filed, as provided by section 445 of this ordinance.

Section 450. All fees received by the Borough Presidents or Park Commissioners for the issuing of permits provided by this ordinance shall be accounted for in proper books kept for that purpose and shall be turned over by them to the City Treasury.

Section 451. Any person, firm or corporation violating any of the provisions of the preceding eleven sections of these ordinances shall be guilty of a misdemeanor, and shall in addition thereto be liable to a penalty of ten dollars for each offense and ten dollars for each and every day that such offense shall continue. (Ordinance approved April 20, 1903.)

#### Bay Windows.

Sec. 452. The Borough Presidents and the Park Commissioners having jurisdiction, shall issue permits for the erection of bay windows projecting beyond the building line, provided in the opinion of the officer having jurisdiction no injury will come to the public thereby. Permits for the erection of bay windows lying within any park, square or public place, or within a distance of three hundred and fifty feet from the outer boundaries thereof, shall be issued by the Park Commissioner having jurisdiction, as provided in section 612 of the Charter, as amended by section 1, chapter 723 of the Laws of 1901. Permits for the erection of all other bay windows shall be issued by the Borough President having jurisdiction.

For the purpose of this ordinance a "bay window" shall be taken to mean and include all projections on the face of a building in the nature of windows, such as are commonly called bay windows, show windows, oriel windows and bow windows, without regard to the material of which they are constructed or to the purpose for which they are to be used.

Sec. 453. Before the erection of any bay window projecting beyond the building line shall have been commenced, the owner or his duly authorized agent shall make application in writing to the officer having jurisdiction, on suitable blanks furnished by him, and shall state the length and width of the proposed bay window, the number of stories through which it is intended to be carried, and the number of square feet of area covered by that portion of the bay window projecting beyond the building line. Drawings showing the size of and area covered by the bay window, the number of stories through which it is proposed to be carried and its location in reference to the lot and building lines shall be submitted with each application, and for the purpose of computing the area covered by a bay window projecting beyond the building line the outside face of the bay, exclusive of cornices, pilasters, trims, etc., shall be the line taken as a basis of computation.

Each application for the erection of a bay window projecting more than one foot beyond the building line shall have indorsed thereon the consent of all the adjoining property owners within a distance of fifty feet from the centre of the bay window, on the same side of the street; meaning thereby so much of the side of a street as is unintersected by any other street on which it is proposed to be erected.

Each application shall be accompanied by the amount of the compensation due the City for the privilege of erecting said bay window, as hereinafter provided.

Sec. 454. Each application for the erection of a bay window projecting more than one foot beyond the building line shall be accompanied by a certified copy of the last assessed valuation of the property on which said bay window is to be erected, which appears upon the books of the Department of Taxes and Assessments. Except as hereinafter provided the amount that shall be paid as a compensation to the City for the privilege of erecting each bay window shall be at the rate of ten per cent. of the assessed valuation per square foot of the property on which the said bay window is to be erected, for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line for each and every story through which it is carried.

If the projection of a bay window does not exceed one foot beyond the building line, and it is not carried higher than the sill of the second-story windows, the rate throughout The City of New York shall be ten cents for each square foot or fraction thereof of horizontal area covered by said bay windows beyond the building line.

Sec. 455. Bay windows may be hereafter erected with a projection of not more than three feet beyond the building line, provided that when the projection exceeds one foot beyond the building line the total number of feet in width occupied by all the bay windows on the same frontage of the same building shall not exceed seventy-five per cent. of the width of the frontage of the building on which they are located. When the total number of feet to width occupied by all the bay windows on the same frontage of the same building exceeds seventy-five per cent. of the width of the frontage of the building on which they are located, the projection shall not exceed one foot beyond the building line, nor shall the bay window be carried higher than the sill course of the second-story windows.

Sec. 456. Permits for the erection of bay windows shall be issued in duplicate, one of which shall be retained by the applicant, and kept at the building during the erection of the window, and the other shall be filed by him, with the plans for the construction of the window, in the Department of Buildings. If it shall appear, upon completion, that the bay window occupies a greater number of square feet, or has been carried through a greater number of stories than shall have been paid for, the applicant shall pay twice the sum previously paid for each square foot of area occupied by said bay window over and above the number of square feet paid for originally.

Sec. 457. Permits granted pursuant to the provisions of this ordinance are revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof at any time hereafter by the Board of Aldermen of The City of New York, upon the recommendation of the officer having jurisdiction, when the space occupied by said bay, or any portion thereof, may be required for any public improvement, or upon any violation of any of the terms or conditions upon which this permit is issued." A permit for the erection of a bay window shall be deemed to have expired when the bay window is taken down, and the space formerly occupied thereby shall no longer be used for the purpose for which the permit was issued, unless a permit for its reconstruction shall have been granted, as provided in section 7 of this ordinance. In case it is thereafter desired to erect a bay window on the said property, the applicant shall comply with all the provisions of this ordinance.

Sec. 458. Permits for the reconstruction of now existing bay windows as defined by this ordinance, and for the reconstruction of all bay windows which shall be hereafter erected under the provisions of this ordinance, shall be issued by the officer having jurisdiction, without the applicant's obtaining the consent of adjoining property owners, as provided in section 453 of this ordinance; provided that the bay window, when reconstructed, shall have no greater projection or width, nor be carried through a greater number of stories, nor cover a greater area, than the window as originally constructed. And, further, provided that no fee shall be charged for the reconstruction of bay windows which have been erected under the provisions of this ordinance, or for which a fee has been paid for the privilege of erecting the same under the provisions of the laws in force at the time of the erection of the said bay window. The restrictions specified under section 455 of this ordinance shall not apply to the reconstruction of now existing bay windows; but permits issued for the reconstruction of now existing bay windows, for which no fee has heretofore been paid, shall be paid for as provided in section 454 of this ordinance.

Sec. 459. Nothing herein contained shall be deemed to conflict with the provisions of the Building Code, and all bay windows for which permits are issued, under the provisions of this ordinance, shall be erected in accordance with all the provisions of said Code in regard to the kind and quality of materials used. No plans for the construction of a bay window as defined in this ordinance shall be approved by the Superintendent of Buildings until the permit is filed, as provided by section 456 of this ordinance.

Sec. 460. All fees received by the Borough Presidents or the Park Commissioners for the issuing of permits for the erection of bay windows shall be accounted for in proper books kept for that purpose, and shall be turned over by them to the City Chamberlain and credited to the General Fund.

Sec. 461. Any person, firm or corporation violating any of the provisions of the preceding nine sections of this ordinance shall be liable to a fine of ten dollars (\$10) for each offense, and one dollar (\$1) for each and every day that such offense shall continue, which shall be duly sued for and collected.

Sec. 462. A permit for the continuance of any now existing bay window which projects beyond the building line may be issued by the officer who, according to section 452 of this ordinance, has jurisdiction over the erection of bay windows at the same place. Application for such permit must be in writing and must be accompanied by a certified copy of the last assessed valuation of the property on which such bay window stands, which appears upon the books of the Department of Taxes and Assessments, and must also be accompanied by a survey showing the dimensions of such bay window and the number of stories through which it is carried. The application shall be accompanied by the amount of the compensation due the City for the privilege of continuing the bay window, calculated in the same manner and at the same rate as are provided in sections 453 and 454 of this ordinance. Permits shall be issued under this section without consent of adjoining property owners. Permits issued under this section shall be subject to all of the provisions of section 457 of this ordinance, in like manner as are permits for the erection of bay windows. Permits issued under this section shall be issued in duplicate, and one of such duplicates shall be filed in the Department of Buildings. All fees received under this section shall be accounted for and paid over as provided in section 460 of this ordinance. Nothing herein contained shall be construed to revoke any permit or authority heretofore lawfully issued or given.

(Ordinance approved January 30, 1903, as amended by ordinance approved June 25, 1903.)

(R. O. 1897, sec. 182, with verbal changes.)

Sec. 470. Nothing contained in the preceding sections of this article shall be deemed to prohibit the continuance of any porches, doors, stoops, platforms or steps which were heretofore erected, unless the same shall be complained of to the Board of Aldermen, which may direct their removal or alteration within a reasonable time. (R. O., 1897, sec. 183.)

Sec. 473. None but iron braces and railings shall be used for balustrades; the strength and firmness shall be tested by the Superintendent of Buildings and in case he objects to the strength of the same it shall be made as he shall direct or be removed under the penalty of five dollars for each day during which it remains after such direction. Sec. 477. All such licenses shall be granted by authority of the Mayor and issued by the Bureau of Licenses, for such terms as are hereinafter named, and shall be in force and effect for the term specified, unless sooner suspended or revoked by the Mayor. The Chief of the Bureau of Licenses shall have power to hear and determine complaints against any of the licensees hereunder, and impose a fine of two dollars (\$2) for any violation of the regulations herein provided, and, subject to the approval of the Mayor, shall have power to suspend the license pending payment of such fine.

New York, except Broadway, Fifth avenue, Lexington avenue, Madison avenue and the Bowery, in the Borough of Manhattan, provided any and every such awning shall not be higher than the floor of the second story of the building (the ground floor being considered the first floor), but in no case to be covered with wood, and every awning or watershed of any kind covering one-half or less than the full width of the sidewalk shall have connected therewith a gutter and leader of material and size sufficient for conducting the water from the same to the outer line of the curbstone. Drop awnings, without vertical supports, may be erected within the stoop lines, but in no case to extend beyond six feet from the house line, and to be at least eight feet in the clear above the sidewalk.

Sec. 481. All posts fixed in any street for the purpose of supporting any awning shall be of iron not exceeding six inches in diameter, and the rail crossing the same shall be also of iron; the said posts shall be placed next to and along the inside of the curbstone, and the cross rail, which is intended to support the awning, shall not be less than eight, nor more than ten, feet in height above the sidewalk, and the said cross rail shall be strongly secured to the upright posts. COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS  
RESUMED.

The President laid before the Board the following communication from President Cromwell, Borough of Richmond:

No. 2517.

The City of New York,  
Office of the President of the Borough of Richmond,  
New Brighton, N. Y., December 5, 1905.

P. J. SCULLY, Esq., Clerk to the Board of Aldermen, City Hall, New York, N. Y.:

Dear Sir—Work on the Richmond Borough Hall has progressed to the extent that plastering is now being done. Fortunately the weather has been such as to permit the plasterers to work without heat in the building. Considerable plastering has as yet to be done and the whole building is very wet and damp as a result of the plastering already done. It is now becoming colder and the weather is such that in order that the plasterers may complete their work and in order, too, that the work already finished may dry, it is absolutely necessary that temporary heating be furnished in the building.

The Corporation Counsel of the City has advised me that it is my duty as President of the Borough to furnish this heating rather than the contractor. It will be for the best interests of the City and be more expedient to give the contract for this temporary heating to the contractors who already have the erection of the heating plant, and whose work is not sufficiently completed for the City to assume operation of the heating apparatus and relieve the contractor of responsibility. The heating apparatus is in such shape, however, that if the contract were given to the contractors who have the contract for its erection, the apparatus could be operated and temporary heating secured. The City not having accepted the work, and it not being ready for acceptance, as above stated, it could not be operated by the City without assuming responsibility. It is deemed, therefore, best that a contract be entered into with the contractors who have the erecting of the heating apparatus to furnish temporary heating. It is estimated that this contract will exceed \$1,000, and I therefore beg to ask that the proper resolution be prepared authorizing me to issue an order to F. McSwegan & Son, the contractors above mentioned, for the temporary heating of Richmond Borough Hall.

Very truly,

GEORGE CROMWELL, President of the Borough.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communications from the Board of Estimate and Apportionment, transmitting ordinances:

December 4, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. George Cromwell, President of the Borough of Richmond, in communication under date of November 29, 1905, requests the Board of Estimate and Apportionment to authorize an additional issue of Corporate Stock in the sum of \$100,000, for the completion of the Richmond Borough Hall.

I would report that \$550,000 has been authorized for the erection of the Richmond Borough Hall by the Board of Estimate and Apportionment, as follows:

At meeting of May 23, 1902 (page 1059).....	\$200,000 00
At meeting of July 31, 1903 (page 1881).....	100,000 00

Total .....	\$584,400 46
Amount available .....	550,000 00
Deficit .....	\$14,400 46

I have taken up with the architects the matter of the necessary funds to complete the interior fittings and furnishings of the building, to make it ready for occupation, and estimate as follows:

Furniture .....	\$32,500 00
Lighting fixtures, including lamps.....	8,500 00

Dynamo .....	7,500 00
Temporary heating from January 1 to May 15, 1905.....	4,000 00

Total .....	\$52,500 00
Architects' fees, 5 per cent.....	2,625 00

Total .....	\$55,125 00
-------------	-------------

Adding to this amount, \$55,125 for furniture, etc., a deficit of \$14,400.46 makes a total of \$69,525.46, the amount actually needed to finish and furnish the building ready for occupancy.

To this amount I think should be added something for contingencies and for work unforeseen; this amount is purely guess work, but about \$20,000, I think, should be sufficient to cover all such contingencies.

Therefore, I think, the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the amended Greater New York Charter, to issue additional Corporate Stock to the amount of \$90,000, to provide for the completion of the Richmond Borough Hall.

Respectfully,

(Signed) CHANDLER WITHINGTON,  
Principal Assistant Engineer.

No. 2519.

Department of Finance—City of New York,  
December 5, 1905.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment December 5, 1905, authorizing the issue of \$500,000 Corporate Stock for the purpose of providing means for the erection of a new municipal building for the Borough of Brooklyn, together with copy of report of the Engineer, Department of Finance, relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

November 24, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. Martin W. Littleton, President of the Borough of Brooklyn, in communication under date of October 31, 1905, requests the Board of Estimate and Apportionment to authorize the issue of Corporate Stock to the amount of \$3,000,000 for the purpose of providing means to erect a "municipal building" in the Borough of Brooklyn; the President also asks that proceedings be instituted at once looking to the acquisition of the Polytechnic property and a fringe of buildings on Court street, between Joralemon and Livingston streets. I would report:

The site upon which the proposed building is to be erected is on Court street, south of the present Borough Hall, between Joralemon and Livingston streets; the dimensions of the plot are approximately as follows: 310 feet on Joralemon street, 306 feet on Court street and 309 feet on Livingston street. A space averaging 24 feet in width is left between the County Court-house and the proposed new building. On Livingston street the building is placed four feet back from the building line, except at the corners, which come out to the building line; on the streets the building follows the building line.

The proposed building designed by McKim, Mead & White consists of a basement, three principal stories and an attic story, and the heights from floor to floor are as follows: Basement, 14 feet; first floor, 18 feet; second floor, 16 feet; third floor, 16 feet, and attic, 10 feet in the clear. The court rooms extend through two stories and thus have a clear height of 30 feet.

In the basement are located the heating and ventilating plant, power and electric light plants, elevator machinery, coal storage, lavatories, storerooms, vaults, cells for prisoners, the License Bureau and a part of the Police Department.

On the first floor are located the offices of the Receiver of Taxes, the Registrar of Arrears, the Registrar of Water Rates, Department of Taxes and Assessments, Janitor's office; the remaining rooms are the offices of the Police Department.

On the second story are the Department of Water Supply, Gas and Electricity, Bureau of Highways, Topographical Bureau and map room, Bureau of Sewers, Department of Street Cleaning and Tenement House Department.

The third story contains one court room, Civil Branch; court room, Criminal Branch; County Court, Naturalization Bureau, Court of Special Sessions, First District Municipal Court, Coroner's Court and offices, District Attorney's office, Grand Jury rooms, all with the necessary rooms for Judges, juries, Clerks, lavatories, etc., and Bureau of Buildings.

The attic or fourth floor is occupied by a portion of the Bureau of Buildings, and contains all rooms for photographing, blue printing, etc.

The room area of the building is divided as follows:

Basement, square feet.....	60,480
First floor, square feet.....	55,860
Second floor, square feet.....	41,483
Third floor, square feet.....	41,483
Attic, square feet.....	24,100

Total, square feet.....	223,406
-------------------------	---------

For the exterior, the materials proposed are a granite base course and steps, with Kentucky limestone above on the three street fronts; the fourth side will be of brick with cement coating.

The roof is intended to be covered with Akron roofing tile on the flat portions, and with copper on the slopes. The construction is to be thoroughly fireproof in accordance with the best modern methods.

For the interior finish it is proposed to use hardwood floors throughout the offices, terrazzo or composition floors in all public spaces, corridors, etc., except the main hall of the principal floor, where marble will be used.

The cabinet trim throughout is to be of quartered American oak, and all of the more important rooms, such as court-rooms, offices of the heads of the various departments, etc., to have an oak wainscoting.

The walls of the entrance vestibules are to be faced with Kentucky limestone like the exterior.

\* \* \* \* \*

marble base is also proposed; elsewhere the base will be of oak.

All walls and ceilings are to be plastered, the offices having a simple coved cornice and public spaces, halls, etc., moulded cornices in plaster. All toilet rooms

and lavatories to have tiled floors and tiled wainscotings six feet high. All public stairways to be of iron with marble treads.

The architects' estimate of \$3,000,000 is based upon the cubical contents of the building, namely 6,589,000 cubic feet at 50 cents per cubic foot, equals \$3,294,500. This form of estimating is not very reliable, but for an appropriation, I think it can be taken as an approximate cost of the building.

The plans prepared by McKim, Mead & White, the architects directed by the Hon. Martin W. Littleton, President of the Borough of Brooklyn, to prepare preliminary elevations, cross-sections, etc., show a stately structure. The arrangements of the different departments have been worked out with good results, and I consider the building well adapted for the purposes for which it is designed. I would, however, suggest that the building line on Court street be moved about 15 feet easterly, in order to allow for the widening of Court street at this point.

The proposed site includes the plot occupied by the present "Municipal Building," Municipal Park on Joralemon street, Brooklyn Collegiate Polytechnic, and a narrow strip on Court street, occupied by a number of small buildings. The land and buildings not owned by the City will cost between \$650,000 and \$750,000.

In connection with the municipal building proposed by President Littleton, I think it well that the Board should be reminded of a "Municipal Building" proposed by J. Edward Swanstrom, President of the Borough of Brooklyn, in communication addressed to the Board of Estimate and Apportionment, under date of November 30, 1903. The site of this building includes the site of the present "Municipal Building" on Joralemon street, which is to be taken down, the park adjacent thereto, and a small strip on Court street, which is not owned by the City. This building was to have a frontage, 266 feet on Joralemon street and 160 feet on Court street, and was to be eight (8) stories high.

During the spring of 1903, President Swanstrom requested Despradelle, an architect, of Boston, Mass., to prepare a programme in order that the architects might compete for the design and plans of a "Municipal Building" in the Borough of Brooklyn, and upon the recommendation contained in the report of Despradelle under date of November 7, 1903, the President of the Borough of Brooklyn accepted the plans of Washington Hull, and on November 30, 1903, President Swanstrom requested the Board of Estimate and Apportionment to authorize an issue of Corporate Stock to the amount of \$1,500,000, to provide for the construction of this building; nothing was done by the Board in relation to this report.

I would note, that at meeting of the Municipal Art Commission held on November 28, 1903, all the plans of Washington Hull were approved, except the Joralemon street facade. After certain modifications by the architect (Washington Hull), the preliminary plans for said "Municipal Building" were adopted by the Commission on February 9, 1904.

The two designs are not comparable; the relative sizes of the two plots are so different that a fair comparison of the two designs, in my opinion, is impossible. It must be admitted by all that the interior arrangements and heights of ceiling of a building upon a larger plot can be worked out with far better results than upon a plot one-half the size. The larger area permits of placing on the same floor all offices that necessarily have business with each other, also permitting of the arrangement and placing of all of the offices that the public come in direct contact with on the first floor, for example, Taxes and Assessments, Receiver of Taxes, Registrar of Arrears, Registrar of Water Rates. By this arrangement the public can obtain and pay their bill for assessments, water taxes, etc., without going from one floor to the other.

For comparison as to the relative cost and floor area of the respective schemes, I submit the following. The estimates of cost of each building I figured upon the same basis, that is, 50 cents per cubic foot.

Large Low Building, Four Stories, Designed by McKim, Mead & White.	
Floor Area, 233,000 square feet.	
Cost of building, 6,589,000 cubic feet, at 50 cents per cubic foot.....	\$3,294,500 00
Architect's fees .....	164,725 00
Surveys .....	450 00
Inspection by City .....	5,000 00
Cost of additional land.....	700,000 00
<b>Total .....</b>	<b>\$4,164,675 00</b>

High Building, Eight (8) Stories, Designed by Washington Hull. (Floor Area, 200,000 Square Feet.)

Cost of building, 4,056,225 cubic feet at 50 cents per cubic foot.....	\$2,028,112 00
Architects' fees .....	101,406 00
Surveys .....	450 00
Inspection by City.....	4,500 00
Cost of additional land.....	50,000 00
<b>Total .....</b>	<b>\$2,184,468 00</b>

As noted above, the more expensive proposition covering the entire plot on the easterly side of Court street, between Joralemon and Livingston streets, extending back to the court-house, I consider by far the better and more economical in the end, and in my opinion the needs and requirements of the Borough of Brooklyn warrant the larger expenditure.

While this to me seems evident, at the same time a step in the direction of obtaining a suitable "municipal building" for one of the boroughs of The City of New York is a matter of such decided importance that a decision relative thereto should not be arrived at until after a most careful consideration, and in my judgment, no definite action should be taken by the Board of Estimate and Apportionment until the Municipal Art Commission has been given an opportunity to consider the matter and express its opinion upon the proposition.

Respectfully,  
(Signed) CHANDLER WITHINGTON,  
Principal Assistant Engineer.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
