LAW DEPARTMENT, OFFICE OF THE COUNSEL TO THE CORPORATION.

NEW YORK, October 7, 1873. Mr. Eugene T. Lynch, Secretary to the Depart. ment of Docks :

SIR :-- From the interviews and correspondence which I have had with a number of the Commis sioners and with yourself, and also from the written statements of Mr. Joseph H. Choate, counsel to the Onico Quarry Company, I understand the facts on which my opinion is desired in this matter to be as follows:

The Department issued the usual proposals for furnishing granite stones to build sixteen arches of a new pier, No. 1, North River.

For this contract the Onico Quarry Company made the lowest bid.

Section 23 of Chapter 7, of the Revised City ORDINANCES, RESOLUTIONS,

Ordinances, (revision of 1866, page 192,) provides that when proposals are issued for a contract to furnish any article of which a sample can conveniently be given, the head of the Department issuing the same may require that a sample be delivered within such time before the opening of the estimates as he may prescribe; and if it be not so furnished, or do not conform to the quality required by the proposals, the estimate or bid shall be rejected.

This ordinance authorizes the Department to demand a sample; but I understand that in this case the proposals for a contract were not accompanied nor followed by any requisition for a sample of the granite to be used.

If a demand for samples had been made in accordance with the provisions of the ordinance, and in pursuance thereof a sample had been furnished not conforming to the quality of granite required by the proposals, it would have been the duty of the Department to reject the bid, as I have stated in an interview with two or more of the Commissioners of your board.

I am informed that about a year before these proposals were offered, and with no possible reference thereto, a block of granite was placed by the company in the Department of Docks as a mere advertisement of their business, and since the bids were opened two samples of granite have been exhibited by the company, which have been tested and disapproved.

After careful examination and consideration, I am satisfied that the bid of the Onico Company being the lowest, the Department is bound under the facts in this case to go on and enter into a contract with that company in accordance with the terms of the bid and in conformity with such specifications as to the quality of the material and the work as the proposals require.

The Department is protected by a condition embodied in the specifications accompanying the proposals, that if at any time the engineer appointed by the Department of Docks to take charge of the work, shall certify in writing to the Department that the work is unnecessarily delayed, or that the contractor is willfully violating any of the conditions or covenants of the contract or executing it in bad faith, the Department shall have the power to discontinue the work or any part thereof, and shall have the further power to purchase by contract or otherwise such quantity of stone as may be necessary to fulfill the contract, and charge the cost thereof to the contractor. The Department is therefore protected from the use in the work of any materials below the standard called for by the specifications.

It is clear that the company has entitled itself to the contract for the work, and that the Department has not placed itself in a position to reject their bid under the provisions of section 23, of chapter 7 of the ordinances above referred to.

I am, sir, very respectfully yours, E. DELAFIELD SMITH. Counsel to the Corporation.

Where the statutes under which a public park was laid out There the statutes under which a public part was the final in the city of New York provided that upon the final confirmation of the report of the Commissioners of Esconfirmation of the report of the Commiss timate and Assessment, the city might immediately take possession of the lands without any suit or proceeding at law for that purpose; held, that the De-partment of Public Parks, through their police force, might at once forcibly remove persons persisting in the occupation of portions of the premises.

LAW DEPARTMENT, OFFICE OF THE COUNSEL TO THE CORPORATION, New York, October 9, 1873. Hon. Salem H. Wales, President of the Department of Public Parks.

SIR :- I have carefully considered your comnunication relative to the proper and most speedy means of dipossessing Mr. Herbert, now occupying the hotel in the High Bridge Park; and in view of the facts stated in your letter of the 22d of Septem of ber last, and o n 178, chapter 86, of the Laws of 1813, which provides that " thereupon " (that is upon the final confirmation of the report of the Commissioners of Estimate and Assessment, appointed in proceedings to acquire title to lands necessary for the opening of any public square, &c.), "the said Mayor, Aldermen and Commonalty, or any person or persons acting under their authority may immediately, or at any time or times thereafter, take possession of the same, or any part or parts thereof, without any suit or proceeding at law for that purpose," it is my opinion that it would be proper for the Department of Public Parks to direct a portion of their police force, sufficient for the purpose, to immediately remove Mr. Herbert and his effects from the said hotel and park. I am, sir, very respectfully yours,

E. DELAFIELD SMITH.

Counsel to the Corporation.
