The Board met pursuant to call, in the Mayor's office on Tuesday, March 8, 1910, the Mayor presiding.

Present—William J. Gaynor, Mayor; William F. Baker, Police Commissioner, and William H. Maxwell, City Superintendent of Schools.

The minutes of the meeting of December 28 were approved.

The Secretary reported that he had accepted the resignation of Mrs. Lulu Cheshire, a second grade Clerk, at a salary of \$1,950 per annum, to take effect February 7, 1910. On motion, this action was approved.

On motion, the following resolutions with reference to modifications of specifications for filing cases were adopted:

Resolved, That the action of the Secretary in modifying the specifications for filing cases purchased of Koller & Smith on December 15, to the effect that a holding block should be required for only one compartment of each drawer instead of for each of the three compartments of each drawer, is hereby approved.

Resolved, That the action of the Secretary in modifying the specifications for filing cases purchased of the Library Bureau on December 30, to the effect that first, a routing file should be substituted for eight unit book shelves, and, second, that drawers of the alphabetical filing cases should accommodate cards 3 by 2 1/4 inches instead of 3 by 2 1/2 inches in size, is hereby approved.

The merits of hand tabulation as compared with machine tabulation in connection with the proposition of the Tabulating Machine Company, of Washington, D. C., to supply certain tabulating machines manufactured by that company, were discussed.

An opinion of the Corporation Counsel was read describing the conditions under which such machinery might be purchased. On motion, it was

Resolved, That a contract be drawn, with the approval of the Corporation Counsel, and submitted to the Board of Estimate and Apportionment for its action, the terms of said contract to be sufficiently broad to permit competition by all manufacturers of tabulating machines.

An opinion of the Corporation Counsel rendered the Comptroller relative to the issuance of two open market orders for atlases to the Sanborn Map Company (No. 11 Broadway), during the month of December, 1909, for \$990 and \$925, respectively, stated that the first purchase to the amount of \$990 was legally and properly made, and should be paid; that the second purchase should not be allowed, as not complying with section 419 of the Greater New York Charter. The opinion further stated that under chapter 601 of the Laws of 1907 the Board of Estimate, upon the request of the Comptroller, has the power to authorize the payment of such a bill as an invalid claim. On motion, it was

Resolved, That the Comptroller be requested to place such resolution before the Board of Estimate and Apportionment.

The Secretary reported the purchase of rubber stamps, towels, soap, etc., amounting in all to \$58.80. On motion, these purchases were approved.

The Police Commissioner was further requested to issue an order to the commanding officers of police precincts directing them to fill out blanks, as may be necessary by reason of the reporting of parents and others, in accordance with the requirements of section 1 of the Permanent Census Law. On motion, it was

Resolved, That the enumeration in hotels should be confined to those families reported by the hotel management as residents of the City and as having children between the specified ages.

It was further ordered that police enumerators should not attempt to arrest truants while making the enumeration.

The Secretary was authorized to communicate with the Departments of Docks, Charities, Correction and Health for the purpose of securing their co-operation in the work of the Census Board.

The Secretary proposed a rearrangement of the salary schedules to provide for a greater number of Clerks without increasing the total amount of the budget appropriation for salaries. On motion, it was

#### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either of any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary workmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property at the date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all loose sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Queens, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every

name and description brought against it, then or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences when existing adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

**PUBLIC NOTICE IS HEREBY GIVEN** THAT at a meeting of the Board of Estimate and Apportionment, held February 18, 1910, the following petition was received:

To the Honorable Board of Estimate and Apportionment of The City of New York:

The petition of the Richmond Light and Railroad Company respectfully shows:

First—That your petitioner is a street surface railroad corporation organized and existing under the laws of the State of New York, and has duly made and filed, pursuant to section 90 of the Railroad Law, a statement of extension, branch of, alterations and changes in its road herein proposed, together with a map showing the proposed change.

Second—Your petitioner now operates in the Borough of Richmond, City of New York, a double track surface railroad by means of an overhead system of electrical power, a portion of which runs through, along and upon Wiener place (or street) in said Borough, to and across Central avenue, to and through private right of way, to and along Tompkins avenue, to junction of Richmond turnpike and Arrietta street.

Third—The City of New York is now engaged extending Stuyvesant place (or street), from intersection of Wiener place to and across Arrietta street to junction with Griffin street.

Fourth—Your petitioner will relinquish that portion of franchise on Wiener place and Tompkins avenue, and prays that in lieu thereof a franchise be granted to lay rails and operate road on new Stuyvesant place (or street) extension, to and across Arrietta street to junction with Griffin street, a distance of one thousand and fifty (1,050) feet, more or less, as shown on accompanying tracing.

Fifth—Your petitioner now holds franchises on Arrietta street, from Richmond turnpike to New York Bay, granted by the Village of New Brighton, March 28, 1895, and July 11, 1895, and Village of Edgewater, June 26, 1895, to the Staten Island Electric Railroad (to all of the rights and franchises of which company your petitioner is the successor), and now asks your Honorable Board to grant authority to lay rails and operate road on Arrietta street from intersection of Central avenue and Stuyvesant place to Richmond turnpike.

Sixth—May 29, 1905, your petitioner leased from Department of Docks and Ferries, right to operate its railroad from Jay street to Ferry Landing over viaduct and portion of Ferry Terminal, and prays that franchise be granted by your Honorable Board.

Seventh—Your petitioner proposes to operate the road to be constructed upon such altered and changed route, by the overhead trolley system of electricity, substantially similar to that now in use on its other lines, or by such other motive power (other than locomotive steam power) as may be lawfully employed.

Your petitioner therefore prays that the franchise hereinbefore mentioned on Stuyvesant place (or street) extension, be granted to it in lieu of the franchise now enjoyed by it on and along Wiener place and Tompkins avenue. Also that authority be given to lay rails and operate on Arrietta street, between Stuyvesant place (or street) extension and Richmond turnpike, and that the franchise for operation over the viaduct and portion of Ferry Terminal be granted by your Honorable Board.

Wherefore your petitioner prays that public notice hereof of the time and place when and where this application will be first considered, be given as required by the provisions of section 92 of the Railroad Law and of all other laws applicable thereto, and that the desired consent or franchise be granted in accordance with the provisions of the Greater New York Charter and the laws of the State.

**PUBLIC NOTICE IS HEREBY GIVEN** THAT at a meeting of the Board of Estimate and Apportionment, held January 21, 1910, the following petition was received:

To the Honorable Board of Estimate and Apportionment of The City of New York:

The petition of the Bronx Traction Company respectfully shows:

First—That your petitioner is a street surface railway corporation, and by the articles of consolidation filed in the office of the Secretary of the State of New York on May 12, 1904, became the owner of the franchises or rights theretofore granted to the Suburban Traction Company; the Van Nest, West Farms and Westchester Traction Company; the Wakefield and Westchester Traction Company; the West Farms and Westchester Traction Company, and the Williamsbridge and Westchester Traction Company.

That by resolutions adopted by the Town Board of the Town of Westchester on June 7, 1892, consent of the local authorities were granted to construct railroads on various highways in said town, among them grants to the Williamsbridge extension or branch from its existing railroad on West Farms and Westchester Traction Company, which authorized construction on Bronx-dale avenue, Bear Swamp road, Unionport road and Old White Plains road northward from what is now known as Morris Park avenue to Williamsbridge.

That a new street or avenue known as the New White Plains road has been constructed by The City of New York, which new street or avenue embraces within its lines some portions of the Old White Plains road, Unionport road and Bear Swamp road.

Your petitioner operates a double-track road by overhead electrical trolley system, upon some portions of said old streets and highways now included within the New White Plains road lines, and upon the portions of said New White Plains road.

That to fix its franchise or right upon said New White Plains road it hereby applies for a franchise or right to construct a double-track extension or branch from its existing railroad on Morris Park avenue, at the junction of New White Plains road, northward along the New White Plains road, with double tracks, to East Gun Hill road, now or formerly the junction of Briggs avenue, all in the Borough of the Bronx, City of New York.

Second—That the petitioner owns and operates a double-track railroad which terminates at Westchester square, at the junction of Westchester avenue (formerly Westchester turnpike) and Main street, in the former Village of Westchester, and has a single track running from said junction upon and along Main street, and Fort Schuyler road to the Eastern boulevard. The latter track has been operated for more than five years last past.

Your petitioner proposes to extend its road and construct a branch or extension thereof, and operate the same by the overhead electrical system, commencing at Westchester square, at the junction of Westchester avenue (formerly Westchester turnpike) and Main street, in the former Village of Westchester, running thence with a single track upon and along Main street to and across the bridge over Westchester Creek; thence upon and along Fort Schuyler road, also known as Throggs Neck road, to the Eastern boulevard; running thence northward by double tracks upon and along Eastern boulevard across the Pelham Bridge over Eastchester Bay, formerly known as Hutchinsons River; thence upon and along the Pelham Bridge or Shore road to northwardly line of the City of New York.

Third—The said Town of Westchester is now within the Borough of the Bronx, in The City of New York, and both the said extensions or branches are to be constructed in said Borough. That such construction and operation thereon will enable the applicant to operate a double-track road on each of said highways, and add to the convenience of public travel in The City of New York.

Wherefore, your petitioner prays that public notice of the application for such two grants of franchises or rights from The City of New York, and of the time and place when and where the same will be first considered, be given, as required by law, and that grants be made for such construction and operation, in accordance with the provisions of the Greater New York Charter and the Railroad Law.

Dated New York, January 7, 1910.

To the Honorable Board of Estimate and Apportionment of The City of New York:

The petition of the Union Railway Company of New York City respectfully shows:

First—That it is a consolidated street surface railroad company formed by the filing of articles in the office of the Secretary of State on July 5, 1892, and has for many years operated a double-track surface railroad in the Boroughs of Manhattan and The Bronx, in New York City, by the overhead electrical trolley system.

Second—That one of the petitioner's double-track roads is constructed upon Third avenue, from Harlem River to Pelham avenue, and thence along Pelham avenue to the Southern boulevard

at the westerly side of Bronx Park, and forms a line for public travel between the Harlem River terminus and Bronx Park, in said City.

Third—Your petitioner, for the convenience of public travel, proposes to extend its railroad by the construction of a double-track extension or branch thereof from its present terminus at the intersection of Southern boulevard and Pelham avenue, thence easterly upon and along Pelham avenue (the Fordham and Pelham avenues) to the easterly boundary line of Bronx Park, and thence on Pelham avenue (the Fordham and Pelham avenues) to the Eastern boulevard, in the Borough of The Bronx, City of New York, and operate the extension or branch by the overhead electrical trolley system. That a grant to construct a railroad on Pelham road, which is now included within the lines of Bronx and Pelham parkway, was made by amended chapter 361, Laws of 1863, to the predecessor of your petitioner, but the latter is now advised that the grant was and now is invalid.

Wherefore, your petitioner prays that public notice of the application for the grant of a franchise or right from the City, and the time and place when and where the same will be first considered, be given, as required by law, and that a grant be made for such construction and operation, in accordance with the provisions of the Greater New York Charter and the Railroad Law.
