COMMISSIONERS OF SINKING FUND.

NOTICE IS HEREBY GIVEN THAT A PUBlic hearing will be given by the Commissioners of the Sinking Fund at 11 o'clock in the forenoon, on

WEDNESDAY, MARCH 13, 1912,

in Room 16, City Hall, Borough of Manhattan, in the matter of the modified plan for the improvement of the waterfront in the vicinity of West Washington Market, between Jane street and West 13th street, North River, in the Borough of Manhattan, made and adopted by the Commissioner of Docks in accordance with law February 20, 1912, and submitted to the Commissioners of the Sinking Fund for approval. This modified plan differs from the plan heretofore submitted in that it provides a basin for pier length of 900 feet instead of 1,000 feet; and the marginal street, wharf, or place is made narrower, thus eliminating the necessity for the acquisition of any privately owned upland property. The modified plan also renders unnecessary the removal or alteration of the City's pumping station. The plan as modified is open to the inspection of any citizen at the office of the Comptroller of The City of New York at all times during business hours until the day of the hearing.

Technical Description of Proposed Amendments to the Amended New Plan in the Vicinity of the New West Washington Market, Between Gansevoort Street and Little West Twelfth Street, North River, Borough of Manhattan.

The proposed amendments to the amended New Plan consist in the establishment of two piers, each 80 feet in width, one adjacent to the southerly side of Pier 53, North River (Little West 12th street), 900 feet long on the southerly side, the other adjacent to the northerly side of Pier 52, North River (Gansevoort street), and 860 feet long on its northerly side.

The establishment of a bulkhead line beginning at the intersection of the present established bulkhead line north of the New West Washington Market, adopted by the Commissioners of the Sinking Fund, April 29, 1904, with the southerly side of Pier 53, North River; thence easterly in a continuation of the southerly side of Pier 53 to a point 900 feet easterly from the established pierhead line; thence southerly and parallel with the established pierhead line to a point distant 60 feet north of the northerly side of the proposed pier adjacent to the northerly side of Pier 52, measured along the southerly prolongation of the proposed bulkhead line, from a point in the northerly line of the proposed pier distant 900 feet easterly from the established pierhead line measured along the northerly line of said proposed pier; thence southwesterly to a point in the northerly line of proposed pier distant 860 feet easterly from the established pierhead line measured along the northerly side of said pier; thence westerly along the northerly line of the proposed pier to an intersection with the northerly prolongation of the established bulkhead line adopted by the Commissioners of the Sinking Fund, June 14, 1897; thence southerly along the northerly prolongation of said bulkhead line to its intersection with the northerly side of Pier 52.

Also the establishment of a marginal street, wharf or place, bounded and described as follows: Beginning at the intersection of the southerly side of Pier 53 with the bulkhead line northerly of the New West Washington Market adopted by the Commissioners of the Sinking Fund, April 29, 1904, thence northeasterly to the intersection of the northerly line of Little West 12th street with the easterly line of the marginal street, wharf or place, northerly of the New West Washington Market adopted by the Commissioners of the Sinking Fund, April 29, 1904; thence southerly and in the southerly prolongation of the above described marginal street, wharf or place to an intersection with the easterly prolongation of the northerly side of the high pressure pumping station; thence westerly and along the easterly prolongation of the northerly side and the northerly side of the high pressure pumping station to the westerly side of said station; thence southerly and along its westerly side and its southerly prolongation to the southerly line of Gansevoort street; thence westerly along the southerly line of Gansevoort street to the easterly line of West street: thence southerly along the easterly line of West street to the easterly prolongation of the northerly side of Pier 52; thence westerly along the easterly prolongation of the northerly side of Pier 52 to a point in the easterly prolongation of the northerly side of Pier 52 distant 860 feet easterly from the established pierhead line measured along the northerly side of Pier 52; thence northerly and parallel with the established pierhead line to its intersection with the proposed bulkhead line at a point 860 feet easterly of the established pierhead line measured along the northerly line of the proposed pier adjacent to the northerly side of Pier 52; thence northeasterly, northerly and westerly along the proposed bulkhead line to the point or place of beginning.

A. L. KLINE, Acting Chairman, Commissioners of the Sinking Fund. f26,m2

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, CITY OF NEW YORK.

JOSEPH P. DAY, AUCTIONEER, WILL sell on behalf of the Department of Docks and Ferries at PUBLIC AUCTION to the highest bidder on

TUESDAY, MARCH 5, 1912,

commencing at 12 o'clock noon, at Pier "A," foot of Battery place, North River, for the period hereinafter specified, the lease of the following described property:

For a term of 5 years from April 1, 1912, 200 feet of the southerly side of the pier foot of W. 39th st., commencing at a point 350 feet from the outer end of said pier and extending inshore a distance of 200 feet, solely for the erection and maintenance on said premises during the term of the lease, of a public dumping board extending from a line parallel to and about 18 feet north of the southerly line of said pier to a line about 18 feet south of the southerly side of said pier, in all a distance of about 36 feet, and the necessary ramps, runways and approaches to said dump.

TERMS AND CONDITIONS OF LEASE.

The dump, runways, ramps, approaches and other structures erected under the provisions of the lease shall be so erected in accordance with plans and specifications to be submitted to and approved by the Commissioner of Docks, and under his direction and supervision, and shall revert to and become the property of The City of New York at the expiration or sooner termination of the lease.

The premises demised or any part thereof shall not be used or permitted to be used as a stable nor for the storing or storage of rags, barrels, boxes or refuse of any kind, and the premises shall at all times be kept in a clean and sanitary condition to the satisfaction of the Commissioner of Docks.

No bid will be received which shall be less than the upset price, $2,000 per annum, rent to be paid quarterly in advance.

There shall be kept posted in at least two conspicuous places on the pier, so that the same can be readily seen by passersby from the street, printed in large type, the prices to be charged by the lessee to the public for the privilege of dumping, the maximum limits of which prices are also made a condition of the lease, as follows:

For single dump carts, not exceeding 40 cents.

For single trucks, not exceeding 50 cents.

For double trucks, not exceeding 70 cents.

Rubbish and light material, 20 cents additional per truck.

The establishment of said maximum or limiting prices does not prevent at any time during the life of the lease the lessee from charging lower rates if he so desires. During the life of the lease the Commissioner of Docks may, in his discretion, increase, but not decrease said maximum or limiting prices, and the former only after establishment of justifying facts as to market conditions in a public hearing before him.

The lessee shall covenant and agree that he will at all times during the said term keep true and correct books of account, showing moneys received, the quantity of material dumped and where disposed of, the rates charged therefor and names of persons using the dump; said books of account shall at all times during the term of the lease be open to inspection by the Commissioner of Docks or his authorized representative. Furthermore, it is required of the lessee that the dump shall be public to all, and no applicant for dumping privileges shall be refused until the maximum capacity of the board is reached, neither shall there be any discrimination in price charged, either by special rate or rebate.

Establishment of violation of any of the conditions contained in the preceding paragraphs as fact in the judgment of the Commissioner of Docks shall be sufficient ground for the cancellation of the lease without damage or claim against the City.

The purchaser will be required at the time of the sale, in addition to the auctioneer's fee, namely $50, to pay to the Department of Docks and Ferries 25 per cent. of the amount of the annual rent as security for the execution of the lease, which 25 per cent. will be applied to the payment of the rent first accruing under the lease when executed, or will be forfeited to the Department if the purchaser refuses or neglects to execute the lease with good and sufficient surety to be approved by the Commissioner of Docks within ten days after being notified that the lease is prepared and ready for execution at the office of the Department of Docks and Ferries, Pier "A," North River, foot of Battery place.

The lessee will be required to furnish a guaranty or surety company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, to enter into a bond or obligation jointly and severally with the lessee in the sum of double the annual rent, for the faithful performance of the covenants and conditions of the lease.

The lease shall contain the usual covenants and conditions at present embodied in leases of wharf property now used by this Department, copies of which may be seen and examined at the office of the Commissioner of Docks, Pier "A," foot of Battery place, North River, and shall contain a provision that if at any time during the term of the lease the Commissioner of Docks shall require all or any part of the property leased in order to proceed with the improvement of the water-front or adjacent uplands in accordance with any plan now legally adopted and approved, or which may hereafter be legally adopted and approved, said lease may be cancelled without any claim upon the City for damages whatsoever, upon written notice being given to the lessee three months in advance of the intention of said Commissioner.

The right to reject all bids is reserved, if deemed by the Commissioner of Docks to be for the best interests of the City so to do.

CALVIN TOMKINS, Commissioner of Docks.

Franchise Matters.

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment, held January 4, 1912, the following petition was received:

To the Board of Estimate and Apportionment:

The petition of New York, Westchester and Boston Railway Company respectfully shows as follows:

Your petitioner is engaged in constructing its railroad in The City of New York, in accordance with a certain ordinance adopted by the Board of Aldermen of said City on the 26th day of July, 1904, approved by the Mayor on August 2, 1904, as amended by resolution of the Board of Estimate and Apportionment, adopted July 14, 1905, approved by the Mayor July 21, 1905, and by contracts between New York, Westchester and Boston Railway Company and The City of New York, dated January 29, 1909, and August 2, 1911, respectively. That in and by said contract dated August 2, 1911, the ordinance of August 2, 1904, was so amended that it provided that said Railway Company "shall complete a four-track railroad upon the main line from the northerly line of the City as far south as East 174th street by the 2d day of February, 1912, otherwise this grant shall cease and determine." It further provided that the Board of Estimate and Apportionment shall have power to extend the time provided for in this section for the completion of the railroad and for the work to be performed and expenditures to be made, as above provided, for a period or periods not exceeding in the aggregate three months. That the petition presented to the Board of Estimate and Apportionment at the time of the said amendment of August 2, 1911, requested an extension of one year from August 2, 1911, but this application was not granted, and the extension was made for a period of six months only. At the time that the extension was made it was believed by the Company that if no unexpected delays arose the work could be completed within the time granted by such extension.

In answer to resolutions passed by your Honorable Board, on the 23d of November, 1911, this Company stated fully the reasons why it would be impossible to complete the work of construction between 174th street and the city line, by the second day of February, 1912, and stated that an extension of six months would be necessary in order to complete the work between these points. This statement presented the facts, which are, briefly, as follows:

The delay is wholly within that part of the line extending from 174th street north to Unionport road, and is due to—

1. The delay in the erection of the steel work between Adams street and 174th street. Although at the time the extension of August 2, 1911, was granted it was expected that the steel work could be erected within the time required by said extension, it now appears that without default upon the part of your petitioner, the American Bridge Company, which has the contract for the steel work, will not be able to commence shipments of the steel for this section until January, and complete shipment cannot be made before the end of March. It will take fully a month to finish the erection of the steel after the receipt of all material, and thirty days more to lay the tracks and install signals. Moreover, some of the plans for the bridges within the section indicated have not yet been approved by the Board of Estimate and Apportionment, though the Company has proceeded to order the steel for such bridges, trusting that the plans will be approved.

2. The complications which have arisen in regard to the structure between 180th street and Unionport road involving particularly the crossings over Adams and Berrian streets. Application was made to the local board in The Bronx, as early as July, 1911, and later to the Board of Estimate and Apportionment, in August, 1911, for leave to close both Berrian and Adams streets. No action has been taken upon this application by the Board of Estimate and Apportionment, and the matter still remains undecided. Plans have been prepared by your petitioner to suit either contingency, and all the work within this section has proceeded with as rapidly as possible except at the streets in question, and at these points the work will be begun and vigorously prosecuted as soon as the Board has determined whether these streets are to be closed or are to remain open. It is not probable, however, that this work can be completed under six months. It is submitted that the situation at this point has been necessarily a complicated one, and that the delay has been due only to an effort both upon the part of the City and of your petitioner to arrive at a solution which will provide adequate facilities for the public at the central transfer station to be established by your petitioner near 180th street, and which will also cause the least possible injury to private property and the present arrangement of streets in that neighborhood.

Your petitioner further shows that it has expended upon the work between 174th street and the north side of Adams street, substantially all of which expenditures have been made since Augsut 2, 1911, the sum of $276,557. Exclusive of the steel viaduct and the plan for the same, 65 per cent. of the work between these two points has been completed. Of the steel work, 25 per

cent. has been completed, but all of this work so far has gone on in the shops of the American Bridge Company, and the erection has not yet been begun upon the ground. Contracts for the entire work between these two points have been let, involving an expenditure of over $1,000,000.

Wherefore, your petitioner prays

1. That paragraph 1 of section 5 of the ordinance of The City of New York, adopted July 26, 1904, approved by the Mayor August 2, 1904, as amended by resolution of the Board of Estimate and Apportionment, adopted July 14, 1905, and approved by the Mayor July 21, 1905, and further amended by contracts between New York, Westchester and Boston Railway Company and The City of New York, dated January 29, 1909, and August 2, 1911, respectively, be further amended so that the words "the second day of February, 1912" shall be changed to read "the second day of August, 1912," thus extending the time for the completion of the construction of the railroad from the northerly line of the City as far south as East 174th street, for a period of six months.

2. That your Honorable Board will extend the time for the completion of the railroad of your petitioner from the northerly line of the City as far south as East 174th street, until your Board shall finally have acted upon the amendment herein prayed for, but not exceeding a period of three months from February 2, 1912.

Dated, December 30, 1911.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
