HEADQUARTERS FIRE DEPARTMENT, CITY OF NEW YORK,
NOS. 157 AND 159 EAST SIXTY-SEVENTH STREET,
BOROUGH OF MANHATTAN, July 5, 1899.

Hon. ROBERT A. VAN WYCK, Mayor of The City of New York:

SIR—I have the honor to transmit herewith, in accordance with section 1544, chapter 378, Laws of 1897, a report of the operations of the Fire Department of The City of New York for the quarter ending March 31, 1899.

Yours respectfully,

J. J. SCANNELL, Commissioner.

BOROUGH OF MANHATTAN, THE BRONX AND RICHMOND.

The first three months of the present year have been remarkable for the very large number of fires and unusually numerous notable fires, foremost among which was the disastrous destruction of the Windsor Hotel. The report rendered by the Bureau of the Chief of the Department on this fire was as follows:

March 17, 3.14½ P. M.—Fire at Nos. 563 to 577 Fifth avenue, an eight-story brick building, 200 x 150, occupied as hotel. The fire originated in basement and extended throughout, causing total loss to building; also extended to Nos. 7 and 9 East Forty-sixth street, a 4½-story brick and stone building, 40 x 60, occupied as Turkish baths, slightly damaging the building; also extended to No. 561 Fifth avenue, a 5½-story brick and stone building, 25 x 95, occupied by a florist, trifling damage to building; also extended to No. 579 Fifth avenue, a 4½-story brick and stone building, 50 x 100, occupied as dwelling, trifling damage to building; also extended to Nos. 8 and 10 East Forty-sixth street, a 4½-story brick and stone building, 40 x 65, occupied as a school, trifling damage to building. Chief officers present were Hugh Bonner, Chief of Department, Deputy Chief Purroy, Chiefs of Battalion Binns, Welsh, Byrne, Duane, Castles and acting Chief Farley. The services of 22 engines and 6 hook and ladder companies and 1 water tower were required, and the fire was under control in about three hours and forty minutes. Twenty-six persons were rescued from the different floors of this hotel building by different members of the Department, at great personal risk, by means of scaling and extension ladders, etc., particulars of which are given in a special report below. Nine persons lost their lives by jumping from windows before the arrival of Department. Chief of Battalion Binns states that upon his arrival on first alarm the centre of the building was enveloped in flames through elevator shaft and side courts from cellar to roof, and there must have been great delay in sending out the alarm. A large number of bodies were taken out of the ruins after the fire was extinguished. Chief Bonner has made the following special report on this disastrous fire:

"The first alarm for the Windsor Hotel fire was sent in at fourteen and one-half minutes after 3 o'clock P. M., and it was followed by other alarms in quick succession until the fifth alarm had been sent in. The first engine to arrive at the scene was No. 65, from Forty-third street, between Fifth and Sixth avenues. Persons were then jumping from the windows of the hotel into the street.

"There was an unaccountable delay in sending in the alarm, which can be explained only in the supposition that time was lost through excitement and in attempts to save life. There was a waste of time also in trying to notify the clerks in the hotel that the building was on fire instead of sending an alarm to the Department. There were alarm-boxes on three sides of the hotel, not more than a block away.

"No chance to save life was neglected by the men. The rescues made by Ford and Clark, from my personal observation and from what I have heard since the fire of the circumstances, were among the bravest ever accomplished. McDermott's conduct, and that of many others of the men, are classed in my mind with the most heroic deeds ever attempted by men in the face of such difficulty and danger. It should be remembered that these rescues were made over the great aerial ladders and by the aid of scaling ladders on the Fifth avenue side of the hotel. The men ran great risk in carrying persons along these ladders. Some of those rescued were heavy and others insensible. The ladders are made of Georgia pine and are very tough, the grain of the wood running the entire length of the forty feet, but I saw one of them bend like a bow under the weight of three persons.

"While the men of the Department have made many splendid rescues and have performed many brave deeds, there has never been anything to compare with what they did at the Windsor fire. I doubt if what they accomplished there can ever be equaled.

"Engine Company 65 reached the hotel two minutes after the alarm was given. It was doubtful exactly when the fire started, but it was somewhere in the neighborhood of 3 o'clock. As the alarm came in and was recorded here at fourteen and one-half minutes after 3, there must have been a delay of ten minutes, at least.

"When the first engine arrived the fire seemed to be in the basement and in all the floors of the hotel on the Forty-sixth street side. Three engine companies began to operate in Forty-sixth street, taking their lines of hose inside the hotel to the third floor. They remained there until the fire became so intense that they were forced to retreat.

"When I arrived the fire had full possession of the Forty-sixth street wing of the building and was working its way north through all the corridors. Three aerial extension ladders were put in operation, two on the Fifth avenue side and one in Forty-sixth street. The fire-escapes were literally covered with persons descending to the street.

"I feel certain that no loss of life occurred by persons jumping from windows after the arrival of the Department. The men strained every nerve to reach people at the windows and on the fire-escapes with the aerial and scaling ladders.

"There were 24 engines at the fire after the fifth alarm had been sent out, together with 6 hook and ladder companies.

"I saw when I arrived that the flames could not be checked. I found two of our lines of hose in the second story of the hotel over the main entrance. I ordered these to be removed and placed in a position to protect surrounding property. Only a few minutes later this part of the front wall fell, owing to the weight of the heavy water-tank on the roof, which, it is said, contained 100,000 gallons of water. This greatly lessened the heat in Fifth avenue, as the opening made a flue which drew the heat towards the centre of the building.

"At this time the work of rescue was still going on in Fifth avenue and Forty-seventh street. There was barely time for those who remained in the building to get out before the north wing was all ablaze. We are sure that there was no living person at any of the windows while the walls remained standing. The men rescued all whom they saw at the windows.

"There seemed to be an explosion in the building before the middle of the front wall fell, twenty minutes after the alarm was given. On the Forty-sixth street side the walls had fallen outward completely forty-five minutes after the fire started. Soon after they were down the Forty-seventh street walls began to sway, and they fell outward ten minutes later.

"There is nothing to be wondered at in the rapidity with which the fire spread, when the fact is borne in mind that there were corridors on each floor of the hotel which extended through all three wings without any solid division wall. Buildings of this class are known in the Department as 'quick burners.' The rapidity with which fire in them will spread is beyond the comprehension of all, except those who have had actual experience in fighting it. There is scarcely time for the persons inside such structures to reach the outer walls, and not a moment is to be lost in considering how is the best way to escape.

"When the fire had obtained entire control of the building the engines were drawn away and assigned to the protection of other property.

"There was not the amount of water there should have been. The fire-hydrants in that neighborhood are fed from a single 20-inch main, and when all of the engines were drawing from it at once each of them felt the scarcity.

"We were forced out of Forty-sixth and Forty-seventh streets by the heat, but we managed to hold our places in Fifth avenue, because that is a little wider and because the fall of the central part of the wall created a draught which drew the heat upward. The Gould house and the one adjoining it caught fire and one of the houses in Forty-sixth street, adjoining the hotel, and used as a Turkish bath, was destroyed. The east wall of the hotel fell upon it and carried the fire into it.

"All the engines at the fire were the largest size, but as they had only a half of the full supply of water they probably only threw 400 gallons per minute.

"The hotel was a complete wreck at 5 o'clock and the force was dismissed then. Eight companies were kept until 8 o'clock and six companies remained all night."

No estimates will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The person or persons to whom the contract may be awarded will be required to give security for the performance of the contract in the manner prescribed by law in the sum of Twenty Thousand Dollars.

Each estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

It relates, or in any portion of the profits thereof. The estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract and herein stated, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of The City of New York after the award is made and prior to the signing of the contract.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and be retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Blank forms for estimates may be obtained by application to the undersigned at his office in the Central Department.

NEW YORK, August 10, 1899.

PROPOSALS FOR ENGINEERS' AND MISCELLANEOUS SUPPLIES.

SEALED BIDS OR ESTIMATES FOR FURNISHING Engineers' Supplies, etc., for the balance of the year 1899, in conformity with sample and specifications, will be received at the office of the Department of Public Charities, foot of East Twenty-sixth street, in The City of New York, until 12 o'clock noon, on

TUESDAY, AUGUST 22, 1899, at which time they will be publicly opened and read.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Engineers' Supplies," with his or their name or names and address, which should also be written on the page of the specifications designated therefor, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President, or his duly authorized agent, of said Department, and read.

The awards will be made to the lowest bidders (see also note at end of specifications for supplies). The Department reserves the right to take more or less, or none at all, of any of the articles, according as the demand therefor may be.

 No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

 Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioners.
 Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.
 Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The consent above-mentioned shall be accompanied by the oath or affirmation in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law, if the contract shall be awarded to the person or persons for whom he consents to become surety. Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Payment will be made by a requisition on the Comptroller in accordance with the terms of the contract, or from time to time as the Commissioners may determine. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Dry Goods, Hardware, etc.," with his or their name or names and the date of presentation to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department, or his duly authorized agent, and read.

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.
 Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient

sureties, each in the penal amount of fifty (50) per cent. of the bid for each article. (No bonds or deposit required on bids under One Thousand Dollars.)

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by The City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department, or, in the absence of samples, to the printed specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates, and are cautioned against referring to any samples or specifications other than those furnished by the Department. Such references are cause for rejecting bids whereon they are written, and will in no case govern the action of the Department officers in passing upon tenders.

Bidders must state the price of each article per pound, dozen, gallon, yard, etc., by which the bids will be tested. The extensions must be made and footed up, as the bids will be read from the total footing and awards made to the lowest bidder on each item. All estimates not conforming to these requirements may be considered as informal.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Each article when delivered shall have a tag attached bearing line number.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the General Bookkeeper and Auditor, foot of East Twenty-sixth street, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.
