This rule applies to any business in NYC, regardless of what is sold.

Any perishable material (trash or organic material) must be placed in a bin with a secure lid when set out on the curb for collection. This requirement does not apply to businesses that have waste collected from a loading dock.

Bins should be stored inside or in a rear yard. If space is not available, bins can be stored within three (3) feet of the building line when not set out for collection.

Bins must be maintained in a neat and orderly manner and always allow for a clear path of pedestrian travel on the sidewalk.

Please go to nyc.gov/usebins for more information.
