Office of the City Record,  
Nos. 801-806 Park Row Building,  
September 15, 1904.

To the Board of City Record:

Gentlemen—I submit the following estimate of the amounts required to pay the expenses of conducting the business of the office of the City Record for the year 1905, viz.:

	Amount Asked for 1905.
Publication of the CITY RECORD.....	\$250,400 00
Printing, Stationery and Blank Books for City Departments and Offices....	601,580 00
Salaries .....	24,990 00
Supplies and Contingencies.....	3,500 00
Board of City Record, New York County—Printing, Stationery and Blank Books for County Offices and Courts other than Supreme Court.....	30,000 00
Board of City Record, Kings County—Printing, Stationery and Blank Books for County Offices and Courts other than Supreme Court.....	25,000 00
Supreme Court, Second Department.....	4,500 00
Board of City Record, Queens County—Printing, Stationery and Blank Books for County Offices and Courts.....	3,000 00
Board of City Record, Richmond County—Printing, Stationery and Blank Books for County Offices and Courts.....	3,000 00
Total .....	\$945,970 00

In accordance with instructions contained in the circular letter of the Comptroller, dated July 14, 1904, I submit below full explanation stating in detail the reasons for any increase or decrease in the amounts as compared with the appropriations made in the Budget for 1904. Annexed hereto are (1) a statement as to salaries, (2) a comparative statement of appropriations, both made out in accordance with the forms accompanying the circular.

I find on examining the appropriation ledgers of this office that the amounts appropriated by the Board of Estimate and Apportionment have never been sufficient to meet the demands, and that it has been necessary to ask during the course of the year for transfers. This practice seems to me unwise, is embarrassing to the head of this office and misleading to the public. I would, therefore, very strongly urge that the amounts asked for the year 1905 be appropriated, so that it will not be necessary for the head of this Bureau to go before the Board of Estimate and Apportionment and ask for transfers. For instance, the estimate of appropriations for printing, blank books and stationery is based on the understanding that the applications of the Board of City Record to the Board of Estimate and Apportionment under dates of March 17 and September 16, 1904, for transfers will be favorably considered. If not, an appropriation must be added to the Budget for arrearages.

The amount of the increase for the publication of the CITY RECORD, \$24,000, based on the actual cost of said publication for this year, is due to the provisions of chapter 455 of the Laws of 1903, which requires to be published in supplemental form in the CITY RECORD an annual record of the assessed valuation of real estate in each section, district or ward of the City.

The increase in the appropriation for printing, blank books and stationery, \$25,500 (City departments, \$25,000; Queens County, \$500), is due to the natural growth of the departments. It seems to me unwise to cut down the supplies of printed blanks and blank books to meet a reduced appropriation. If the business of a Department is to be transacted efficiently blanks and blank books must be supplied as called for.

The increase in the appropriation for salaries, \$1,170, is made up almost entirely of additions to the office force, very few increases in salary being included. This additional force is made necessary by the constantly increasing mass of work.

### BOROUGH OF THE BRONX.

The assessment list for sewer and appurtenances in Rye avenue, from East One Hundred and Eighty-third street to East One Hundred and Eighty-seventh street, and objections of Mary E. Brady as attorney, the hearing in which matter had previously been postponed, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of October 29, 1904.

After examination, on motion of the Deputy and Acting Comptroller, the assessment list and accompanying papers were referred back to the Board of Assessors for further consideration, all the members present voting in the affirmative.

The assessment list for paving One Hundred and Thirty-third street, from Cypress avenue to Locust avenue, with granite block pavement, and laying crosswalks, and objections of the Harlem River and Portchester Railroad Company as owner, and transcript of testimony introduced before the Board of Assessors in said matter, filed by Luce & Davis, attorneys; the Port Morris Land and Improvement Company and Eliza H. Day, filed by Thomas S. Bassford, attorney; Conrad Boehm and others, filed by A. C. Mr. Bassford, attorney, appeared by representative, and objected to the items included in the assessment for setting curb and laying bridge stones, amounting to \$930.31, which he alleged were not authorized by the resolution of the Local Board for the performance of the work of paving.

After consideration, no others appearing after notice, on motion of the Assistant and Acting Corporation Counsel, the objections filed to the assessment were overruled, and the assessment list was confirmed, all the members present voting in the affirmative.

**THE FOLLOWING REGULATIONS FOR STANDPIPE (FIRE LINE) WORK IN BUILDINGS OF CERTAIN CLASSES, REQUIRED UNDER THE PROVISIONS OF SECTION 762, CHAPTER 378, OF THE LAWS OF 1897, AS AMENDED BY CHAPTER 466 OF THE LAWS OF 1901; AND SECTIONS 102 AND 109 OF THE BUILDING CODE, ARE HEREBY APPROVED AND ESTABLISHED, TO TAKE EFFECT IMMEDIATELY.**

**REGULATIONS FOR INSTALLATION OF STANDPIPES (FIRE LINES).**

**STANDPIPES WILL BE REQUIRED IN**

all buildings exceeding 100 feet in height, erected prior to December 25, 1899, and in all buildings exceeding 85 feet in height erected since said date.

Such buildings as come within above classification, and which do not exceed 150 feet in height, in which standpipes (fire lines) now installed are less than three inches in diameter, must be provided with lines four inches in diameter, and in such buildings as exceed 150 feet in height the fire line must be six inches in diameter, unless the lines already installed are considered satisfactory and approved by the Fire Department.

These standpipes must be of wrought iron or steel of sufficient strength to withstand the necessary pressure (in no case less than 300 pounds to the square inch) to force adequate streams of water to any of the floors of the building, or to the roof, and must extend from cellar to roof and be connected with outside two-way three-inch standard Fire Department connections, with clapper valves and proper caps, placed on street front of buildings, above curb level, in a position accessible for use of Fire Department and arranged so that the clapper valves will hang properly.

These standpipes must be provided with proper valves (gate valves preferred) and 2 1/2-inch outlets of the regular Fire Department pattern and thread on each floor level, with sufficient standard 2 1/2-inch hose and nozzles attached thereto to properly cover entire floor area, arranged on proper and approved racks or reels, with approved open or controlling nozzles.

Proper check valves shall be placed in top and bottom of such lines as are required to use tank or pump supply, or both. The hose outlets and hose must be located within stairway inclosures, except where impracticable to do so for reasons satisfactory to the department.

Where more than one standpipe is installed, cross connections, preferably in basement, of same size as main risers, with proper gate and check valves, must be provided.

In all buildings over 150 feet in height and in such buildings as come within these regulations as to height and are occupied for living purposes, such as hotels, hospitals, asylums, etc., also in theatres, the standpipe line must have approved tank or pump supply, or both.

Tanks—Bottom of gravity tanks must be elevated at least 20 feet above highest hose outlet, provided with separate feed supply, and such tanks shall be of not less than 3,500 gallons capacity. If used for domestic purposes, feed lines must be properly arranged to insure constant supply.

Pressure tank supply system or direct supply from street mains will be permitted in some cases if circumstances warrant and pressures are adequate.

All wrought iron and steel pipes must be equal in quality to standard.

All joints must be screwed joints, made up with red lead, and be thoroughly water tight.

All standpipes must rest on brick pier foundations or on heavy iron hangers suspended from floor beams at the discretion of officer in charge of bureau.

Horizontal supply lines must be supported by heavy iron hangers from floor beams at intervals of not more than ten feet, and vertical main lines, properly stayed, at each floor level; all to be securely braced to withstand vibration.

The arrangement of lines must be straight and as direct as possible. Offsets will be permitted only when unavoidable and bends must be of a radius not less than five diameters of pipe.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
