DEPARTMENT OF HEALTH.

REPORT FOR WEEK ENDING DECEMBER 6, 1913.

SMOKE ORDINANCE UPHELD.

The constitutionality of the smoke ordinance of New York City, section 181 of the Sanitary Code of the Board of Health, is upheld by the unanimous decision of the Appellate Division of the Supreme Court which was handed down on December 5, 1913. The lengthy opinion, prepared by Judge Frank C. Laughlin, was concurred in by Judges Ingraham, Clarke, Scott and McLaughlin.

Dr. Ernst J. Lederle, Commissioner of Health, in commenting on the decision, gave emphatic warning that the Department of Health would immediately resume vigorous prosecution of corporations and individuals guilty of permitting the escape of dense smoke in violation of the code. He stated that wherever laxity in the management of furnaces has crept in since the recent decision of the Court of Special Sessions which held the ordinance unconstitutional, immediate steps must again be taken to prevent the discharge of dense smoke or else the offenders would feel the strong arm of the law backed up by the important decision of the Appellate Division.

The case decided by the Appellate Division arose out of some twenty-eight separate actions commenced by the Department of Health against the New York Edison Company for the discharge of dense smoke from its plant at 39th st. and East River. These actions, begun in the Magistrates' Courts, came before the Court of Special Sessions on demurrer. In June, the Court of Special Sessions, in an opinion rendered by Chief Justice Russell, held that section 181 of the Sanitary Code, in so far as it prohibited the discharge of dense smoke, was unreasonable and therefore unconstitutional.

Since the decision of the Court of Special Sessions the smoke nuisance, according to Commissioner Lederle, has materially increased in New York City. All that the Department of Health could do was to prosecute small offenders where the engineers and firemen could be held personally responsible. Such cases could be disposed of by the Magistrates' Courts on the theory that the decision of the Court of Special Sessions did not bind the magistrates, since appeal from these courts lies to the Court of General Sessions. No actions could be brought against corporations, however, since the magistrates had no jurisdiction to try such cases, which are referred to the Court of Special Sessions. Although under this plan most of the magistrates upheld the view of the Department of Health and fined the defendants, the nuisance increased because the corporations were, for the time being, beyond the reach of the law.

In the meantime, an appeal was taken from the decision of the Court of Special Sessions and urged with all proper expedition before the Appellate Division of the Supreme Court by the representatives of the City's Law Department, Messrs. Herman Stiefel, William J. Millard, Terence Farley and William C. Mayer. The decision of the Appellate Division of the Supreme Court upholding the ordinance is the result and it signalizes the immediate resumption of the campaign against the smoke nuisance in New York.

EDISON COMPANY FINED FOR DISCHARGE OF CINDERS.

In addition to the action brought against the Edison Company for the discharge of dense smoke, in June a number of cases were instituted against the same company for violation of section 96 of the Sanitary Code in discharging cinders from their plant at 39th st. and East River to the detriment and annoyance of a number of persons living in the neighborhood. These cases came on for trial during November last and a considerable amount of testimony was taken. Property owners in the neighborhood testified that cinders entered their windows, clogged their house drains and leaders and otherwise affected them and their property. The Court found the Edison Company guilty, imposed a fine of $500 and dismissed the other actions, holding that but one penalty could be recovered for the offense charged.

EXPECTORATION FROM ELEVATED CAR WINDOWS.

Spitting in public places is insanitary and in certain cases dangerous to the community. It is prohibited by section 178 of the Sanitary Code, the provisions of which are very generally upheld by public opinion, and it can be confidently stated that the publicity from time to time given to this section by arrests for its violation has caused a very considerable diminution in what was at one time an exceedingly common practice. Occasionally, however, as in the case which follows, the department fails to secure the punishment of the offender. In this instance, the violation was of that portion of the section which prohibits spitting into the streets from the cars, stairs or platforms of the elevated railroads. An officer in uniform, one of the Sanitary Squad of the department, while riding in a Third ave. elevated train, noticed a man spitting from the car window into the street. He was cautioned not to repeat the offense. He then continued to spit in a newspaper and later again expectorated from the car window. He was thereupon served with a police summons. When the case was presented in the Magistrates' Court, however, the judge stated that he considered the arrest ridiculous and the offender was discharged. The records of the department show that the man was suffering from tuberculosis of the lungs in the third stage, and that his sputum, previously examined by the department, contained tubercle bacilli.

PHOTOGRAPHIC REPRODUCTIONS OF DEPARTMENTAL RECORDS.

The photographic machine installed in the Bureau of Records for the purpose of issuing photographic copies of the records instead of the typewritten or hand written transcripts issued heretofore has fully proven that the method is not only practical, but a big improvement on the old method employed.

A number of amusing complaints have been received because of the alleged gloomy appearance of the certificates. One clergyman secured photographic copies of several marriage certificates that he had filed with the department, and when he presented them to the married couples they were refused because "they looked more like death certificates than marriage certificates."

On the other hand, the insurance companies and banks have expressed themselves as greatly pleased with the innovation, because they realize that the new copies are absolutely accurate and that there is no possibility of the transcript being altered between the time it leaves this department and is presented to them.

TREATMENT OF MALNUTRITION IN APPLICANTS FOR EMPLOYMENT CERTIFICATES.

Articles 6 and 11 of the Labor Law specify that no child under the age of 14 shall be employed, permitted or suffered to work in or in connection with any factory or business and that no child between the ages of 14 and 16 years shall be so employed, permitted or suffered to work unless an employment certificate shall have been obtained and subsequently filed in the office of the employer at the place of employment of such child.

Not infrequently children who apply for employment certificates at the Department of Health are found, upon the physical examination required by the Labor Law, to be in poor physical condition because of anaemia and mulnutrition. In such cases, certificates are denied on the ground of physical incapacity.

Every effort is at once made to get these children into proper physical condition and to fit them to assume their place in the mercantile world. Many of these cases can be remedied within a reasonable time by proper treatment and are referred to a school nurse who visits the home in order to instruct and advise the parents and to call their attention to the necessity of treatment. The nurse also points out the importance of contributory defects such as decayed teeth, enlarged tonsils and adenoids, which may also be present. Instruction is given as to hygiene, sanitation and the proper quality, quantity, preparation and preservation of food and, should the home conditions seem to preclude rapid improvement in the physical condition of the child, efforts are made to send it to some convalescent or Fresh Air Home for as long a period as possible.

Several charitable organizations have given special attention to these cases at the request of the department and have kept the children at the various country homes as long as the regulations and facilities of the latter would permit, usually a period of from one to four weeks. At present, some of these organizations are further cooperating with the department by endeavoring, through special arrangements, to extend the period of stay for as long a time as may be necessary to put the child in good physical condition.

Further assistance is given to these children by the New York Child Labor Committee, which, after an investigation of home conditions, grants a scholarship to worthy cases from a special fund and in amounts varying from $1.50 to $3 weekly pending the child's continuance at school.

DEATH RATE FOR THE WEEK.

There were 1,372 deaths and a death rate of 13.32 (per 1,000) of the population reported during the past week as against 1,420 deaths and a death rate of 14.32, a decrease in absolute figures of 48 deaths, equivalent to a relative one of 100 deaths and a decrease of one point in the rate.

The following causes showed material decreases, scarlet fever, diphtheria and croup, whooping cough, typhoid fever, lobar pneumonia, broncho pneumonia, tuberculous diseases other than pulmonary tuberculosis, and Bright's disease and nephritis. Those causes showing material increases were measles, organic heart disease and violence.

Viewed from the point of age grouping, there were 44 less deaths of infants under one year of age, 9 less deaths between one and five years of age, 7 less deaths between the ages of five and sixty-five years; over the age of sixty-five years there was an increase of 12 deaths.

The death rate for the first forty-nine weeks of the year was 13.76 as against 14.08 for the corresponding period in 1912.

PUBLIC SERVICE COMMISSION.

Proposals.

INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called the "Commission") invites proposals to construct Section No. 6 of Routes 4 and 38, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 6—Beginning at a point under 7th ave., in the Borough of Manhattan, about seventy-five (75) feet north of the northerly building line of W. 30th st., and extending thence northerly under 7th ave. to a point about one hundred (100) feet south of the southerly building line of W. 43d st.

The general plan of construction calls for a subsurface railroad having four and five tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing, where necessary, of all buidings, monuments, surface and subsurface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per centum of the aggregate sum arrived at by multiplying the estimated approximate quantities by the unit prices, as contained in the schedule of unit prices in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract, and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River or along the North River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Department of Docks and Ferries with whom all arrangements must be made with respect to utilizing such docks and bulkheads as may be available.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 29th day of December, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer of the quantities of the various classes of work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "*Proposal for Constructing Part of Rapid Transit Railroad —Routes Nos. 4 and 38, Section No. 6,*" and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box, in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of Fifteen Thousand Dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the contractor will be required to furnish security to the City by giving a bond for two hundred thousand dollars ($200,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security, fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices, as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amount certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there

Hon. ARDOLPH L. KLINE, *Mayor:*

Sir—In conformity with the requiremnets of section 119, chapter 466, Laws of 1901, Greater New York Charter, we transmit herewith the results of our examination of the receipts and disbursements of the office of the Chamberlain for the second quarter of 1913.

We find that the balances in the city treasury, sinking funds and miscellaneous accounts, on June 30, 1913, aggregated $34,441,417.57, which agrees with the aggregate of the balances as shown by the Chamberlain's accounts.
