To the Honorable the Board of Estimate and Apportionment:

Gentlemen—I herewith transmit a statement showing in detail the estimated amounts required for the year 1919 for rents of premises leased and required to be leased by The City of New York for use of the various departments of the City and County governments, and chargable to "Rent Account":

Note 1—The above figures do not include the rents of the Board of Elections, Department of Education, Public Service Commission, Board of Water Supply and Arts and Sciences in the Borough of Richmond, all of which are provided for in their own Budget appropriation.

Note 2—It is the custom to provide $15,000 for additional rental to meet any emergency that may arise, owing to the increased volume of business in the various City and County Departments and new rentals ($10,000 of which to be used for City and $5,000 for County purposes), the County addition to be subdivided as follows: New York, $2,000; Bronx, $1,000; Kings, $2,000; the reason for the additional rentals being to do away with the necessity of the issuance of revenue bonds in payment thereof.

Debt Service.

The City of New York, Department of Finance, October 10, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—The statements herewith submitted have been framed to give all essential particulars with respect to the Debt Service charges viz., the Interest on the City's bonded debt and the appropriations for Redemption and Amortization of such debt which must be provided in the tax budget of 1919.

These Statements Consist of

Table—Summarizing the total amount of bonds maturing in 1919 and showing—

(1) The amount of said bonds which are redeemable from appropriations to be

provided in the tax budget of 1919; (2) the amounts redeemable from water revenues; (3) from assessments, and (4) the amount of bonds maturing which are redeemable through the sinking funds. The amount of all bonds maturing which are held by the public and the amount thereof which is now held by the sinking funds are also shown. The table concludes with the annual amortization installments to be provided in the 1919 budget for the Sinking Fund of The City of New York and for the Rapid Transit Sinking Fund, and the appropriation for redemption of special revenue bonds. The purpose of this table is to place before the Board of Estimate and Apportionment a comprehensive view of all the bonded debt maturing next year, classified according to political division (the new City and the former municipalities), and segregated to show the sources from which the debt is redeemable.

Table "A"—Summarizing the total interest payable in 1919 on the entire bonded debt of the City, arranged according to political divisions, and showing the totals of such interest which have to be raised by taxation and the amounts to be derived from other sources; also showing the totals of said interest which is payable to the public and the amounts thereof which will flow into the sinking funds as interest on the City's securities held by them.

Table "B"—Summarizing the interest payable in 1919 on the City's bonded indebtedness as of September 30, 1918, classified according to (1) the new city and the former separate municipalities, and (2) according to the general purposes for which bonds were issued, viz., rapid transit, water supply, docks, bridges, schools and sites, colleges, public buildings and offices, etc. This table also classifies the sources from which the interest is to be derived and the amounts payable to the public and to the sinking funds, under the same principle of segregation as obtains in Table "A."

Table "C"—Summarizing the interest payable in 1919 on the City's bonded debt under the same general plan with respect to political division and general purpose for which bonds were issued as obtains in Table "B," giving further particulars with respect to the latter; and also classifies the debt and the interest payable thereon according to the several rates of interest which the bonds bear.

Table "D"—Summarizing the interest payable in 1919 on the bonded debt of the City segregated to show the total amount thereof which is payable at each specific rate of interest which the bonds bear, irrespective of general purpose for which they were issued.

The concluding statement consists of a comparative table summarizing the appropriations for debt service in the budget of 1918, and the appropriations for similar purposes which will require to be included in the budget of 1919, together with the increases or decreases of each group total to be included in the latter budget compared with the corresponding appropriations in the budget of this year.

Respectfully,
CHARLES L. CRAIG, Comptroller.

Deficiencies in Taxes.

New York, October 10, 1918.

To the Board of Estimate and Apportionment:

Gentlemen—I herewith submit statements upon which the Board may predicate its action in complying with the requirements of section 248 and section 257 of the Greater New York Charter as these were amended by chapter 220, Laws of 1917, in determining the appropriation for deficiencies in taxes to be included in the budget for 1919.

The statements herewith submitted consist of the following:

Table "A"—Balance sheet, setting forth the status of the tax levies of the years 1905 to 1917, inclusive, as at the opening of business January 1, 1918.

Table "B"—Amplifying Table "A" by giving the totals of discounts, cancellations, etc., against each year's tax levy, and similarly showing the amounts added to each year's tax levy or budget to cover deficiencies in the product of taxes since January 1, 1905, thus supporting and giving all essential particulars with respect to the totals of losses and gains on Table "A."

Table "C"—Operating Statement, summarizing the financing of the annual budgets of 1905 to 1917, inclusive, to December 31, 1917, showing:

(1) the total budget appropriations for these years.
(2) the total payments from said budgets to December 31, 1917, inclusive.
(3) grand aggregate of tax levies of 1905 to 1917, inclusive.
(4) total collections therefrom to December 31, 1917.
(5) losses by discount and cancellation; also deductions under section 48 of the Tax Law.
(6) the uncollected amount as of December 31, 1917.
(7) the *net amount* appropriated from the General Fund to finance the budgets of 1905 to 1917; and
(8) the cash used for budget purposes borrowed on the revenue bonds and bills outstanding December 31, 1917.

Table "D"—Balance sheet as at December 31, 1917, showing the status of the budget appropriations of 1905 to 1917, inclusive.

The purpose of this series of correlated statements is to show, by two methods of procedure, the accuracy of the conclusions reached, viz.: That on the first day of January of the present year (1918) there was a deficiency of $4,101,302.88 in the product of taxes theretofore levied (since January 1, 1905), and deemed to be uncollectible.

Saving in Budget Appropriations.

The amendment to sections 257 and 248 of the Charter, which was effected by chapter 220, Laws of 1917, provides that all unexpended balances of budget appropriations which are unencumbered shall not later than one year after the expiration of the year for which such appropriations were made, be transferred and credited to a "tax and appropriation surplus and deficiency account" created by said amendment to the Charter. This account is to be debited or charged with all discounts and cancellation or remission of taxes, and it shall be further charged with a sum equal to so much of the deficiency on the preceding first day of January, in the product of taxes theretofore levied and deemed by the Board of Estimate and Apportionment to be uncollectible, as shall not have been previously provided for.

In accordance with these provisions of the Charter, $2,264,601.80 unencumbered balances of budget appropriations of years prior to 1918 have been transferred and are now available for transfer by the Board of Estimate and Apportionment to the "tax and appropriation surplus and deficiency account," which will offset to that extent the $4,101,302.88 of deficiencies in taxes shown in the "Operating Statement" and "Balance Sheets" relating to the tax levies of 1905-1917, and thus reduce the tax deficiency to be carried in the budget of 1919, and its related tax levy to $1,836,701.08, or an even sum of $1,835,000.

Losses and Gains in Tax Levies.

The first statement, viz., Table "A," deals with the subject by stating the losses and gains of the tax levies since January 1, 1905, dividing these into the smallest number of significant elements:

The losses of a tax levy consist of discounts, cancellations, the amount of taxes which may subsequently be found to be on City property and which therefore must be provided for as a deficiency, and the amount of taxes still outstanding which are deemed to be uncollectible; in brief, are uncollectible.

The gains of a tax levy consist of the amounts which, before 1907, were added directly to the tax levy, and which, since, 1907, have been added to the annual tax levies through appropriations in the annual budgets to cover deficiencies. Small additional gains also come from increases which attach to the many thousands of seperate items on the rolls whereby through an even tax rate a sum is extended on the tax rolls which produce an aggregate over and above the gross total of the theoretical tax levy.

Table "B" is merely for the purpose of amplifying and supporting the totals on Table "A" by showing the action affecting each year's levy with respect to losses and gains.

Financing Tax Budgets and Resultant Deficit.

Tables "C" and "D" are designed for the purpose of showing the operations from the budget point of view; in other words to show that in the financing up to December 31, 1917, of the annual budgets of 1905 to 1917, inclusive, there is a resultant deficit as shown by the Balance Sheet (Table "D") of $4,101,302.88, which exactly corresponds with the deficit as shown on Table "A" (the Balance Sheet dealing with the losses and gains in the tax levies), *less* the sum of $2,264,601.80, unencumbered balances of budget appropriations, thus leaving a net deficit of $1,836,701.08.

As the tax deficit to be provided in the budget of any year must necessarily be predicated on (1) actual losses, and (2) on estimates of amounts of taxes outstanding but deemed to be uncollectible, it would be sufficient to carry out the requirements of the law, to place an even sum of $1,835,000 in the budget of 1919 to provide for deficiencies in taxes. Respectfully,

CHARLES L. CRAIG, Comptroller.

First—

(a) That no transfers shall be made from appropriations or schedules of "Salaries Regular Employees," to any appropriation or schedule other than "Salaries Regular Employees."

(b) That no transfers shall be made from appropriations or schedules of "Salaries Temporary Employees," to any appropriation or schedule other than "Salaries Temporary Employees."

(c) That no transfers shall be made from appropriations or schedules of "Wages Regular Employees," to any appropriation or schedule other than "Wages Regular Employees."

(d) That no transfers shall be made from appropriations or schedules of "Wages Temporary Employees," to any appropriation or schedule other than "Wages Temporary Employees."

(e) That no transfers shall be made from or to appropriations classified as "Hire of Horses and Vehicles with Drivers," "Hire of Horses and Vehicles without Drivers" or "Hire of Automobiles," except to or from an appropriation classified as "Hire of Horses and Vehicles with Drivers," "Hire of Horses and Vehicles without Drivers" or "Hire of Automobiles," except where the work to be done and paid for from the account to which the transfer is made is a substitute for work or service intended to have been done and paid for from the account from which the transfer is made.

(f) That no transfers shall be made from appropriations or schedules of "Fees and Commissions" to any appropriation or schedule other than "Fees and Commissions."

(g) That no transfers shall be made from any of the appropriations made herein under any classification other than "Personal Service" to any appropriation classified as "Personal Service," except in cases where the title of appropriation specifically provides for transfers herein forbidden, or in cases where appropriations were made under the classification of "General Repairs," if, upon the written statement of the Department Head, the Board of Estimate and Apportionment finds that the repair work can be done more economically by departmental labor.

(h) That no transfers shall be made from any of the appropriations made herein under any classification where the appropriation is made under conditions which prohibit such transfer or when the appropriation is made for the purchase of some stated article or articles or for the payment of taxes, although otherwise the transfer might be proper under the resolutions in the budget for 1919.

Second—That no change shall be made by any Board or head of an Office, Bureau or Department in the City or County Governments in the schedules of "Salaries Regular Employees"; "Salaries Temporary Employees"; "Wages Regular Employees"; "Wages Temporary Employees"; "Fees and Commissions," herein contained, *except when authorized thereto by twelve* (12) *affirmative votes* of the Board of Estimate and Apportionment, and that no requests for changes shall be considered except as follows:

Transfers from the credits so set up shall be made only to the divisions of government (the City and the respective counties) from which the credits were originally transferred, and only by twelve (12) affirmative votes of the Board of Estimate and Apportionment. Subject to these conditions, such transfers may be made for any tax-budget purpose.

(e) Salary and wage accruals during the year 1919, resulting from deductions made from the rates of salary and wages provided herein for employees of the City and Counties on war service, corresponding to the amounts received by said employees as compensation for such war service, shall be reported by the Comptroller monthly to the Board of Estimate and Apportionment for transfer, as provided in Section 237 of the Charter, to the "Fund for the Compensation of Substitutes for City Employees on War Service, who, under the provisions of the State Military Law, continue in the City employment and are carried on the payrolls for the excess of their civil salaries over their military salaries," established in the budget for the City of New York and for each of the five counties therein.

Third—That in case of modifications of schedules or transfers within appropriations classified as "Personal Service," where one of the appropriations is a Tax Levy Part appropriation, the full amount of cash necessary to pay the total salaries or wages of the incumbents transferred for the balance of the year 1919 shall be transferred to the appropriation to which the incumbents are transferred.

Fourth—

(a) That the heads of the several Boards, Offices, Bureaus and Departments of the City and County Governments shall prepare their several payrolls for audit by the Department of Finance in accordance with the items of the aforesaid schedules, entitled "Salaries Regular Employees"; "Salaries Temporary Employees"; "Wages Regular Employees"; "Wages Temporary Employees"; "Fees and Commissions," or in case these items have been changed by the Board of Estimate and Apportionment, in accordance with the items of the schedules as changed, *and that no payroll shall be passed by the Department of Finance unless the incumbents and the rate of individual compensation shall not exceed but may be less than such schedule lines* as originally adopted or as hereafter modified by the Board of Estimate and Apportionment, provided the lesser salary or wage grade has been approved pursuant to Section 56 of the Charter. Upon the approval of the filling of vacant positions, as provided in the second section, sub-division (c) of this resolution, the Board of Estimate and Apportionment shall modify the salary schedules to conform to the payroll conditions as modified by the filling of such vacancies.

(b) That each payroll of any Department, in addition to any other departmental number, shall be numbered during the year serially, beginning with number one for each specific account, and such payroll shall bear a certificate signed by a person cognizant of the fact, stating that the recapitulation attached thereto is the correct recapitulation for the payroll bearing said number.

(c) That on all payrolls against schedules entitled, "Salaries Regular Employees," and "Wages Regular Employees," there shall be set forth the monthly or weekly pro rata expenditures against such schedules, or in case the items on such schedules have been changed by the Board of Estimate and Apportionment, the monthly or weekly pro rata expenditures against such schedules as changed

(d) That there shall be affixed to all payrolls a certificate made by the person preparing such payroll to the effect that there is a time record on file in said Board, Office, Bureau or Department, certified by the person or persons having knowledge of the facts, showing the character of service and the exact time of employment of such person or persons, except heads of departments, and excepting bureau and division heads relieved by the head of their department from the duty of keeping such record, and that the distribution or division of the time of such person or persons as shown on such payrolls is in accordance with such time record.

(e) Before advertising for proposals for work to be performed under contract and chargeable to the 1919 budget, where the cost thereof is estimated to be one thousand dollars ($1,000) or more, the proposed contract and specifications shall be submitted for approval to the Board of Estimate and Apportionment.

Fifth—That all appropriations under a classification other than "Personal Service," to any Board, Office, Bureau or Department of the City or County Governments, made in this Budget, be made under the following conditions:

(a) That, in so far as practicable, all contracts and open market orders for purchases to be charged against such appropriation shall be based upon specifications which are definite and certain as to character and quality, and which conform with standard specifications for the various classes of supplies, materials, fuel and forage already approved or hereafter to be approved by this Board.

(b) That, in so far as such standard specifications may be established by this Board, the Comptroller at the time of certifying to the sufficiency of appropriations out of which such contracts are to be paid shall also certify that the specifications for such supplies or materials, fuel or forage or other articles for which standard specifications have been prescribed, are in conformance with such standard specifications.

(c) That all open market orders issued by any Department for supplies and materials, for which standard specifications shall have been prescribed, shall contain a description of the goods ordered, conforming with such standard specifications.

(d) That the Comptroller shall, in auditing claims for goods delivered on open market orders, determine, through inspection or otherwise, whether the goods delivered conform to such standard specifications.

Sixth—That all departments of City and County Governments for which appropriations for food supplies have been made in the Budget for 1919, shall make an inventory on January 1, 1919, to determine the number of units of each article of food in stock, either in stores or in the institution, and the cost value thereof, and shall thereafter keep an accurate record showing the cost price per unit, the number of units purchased, and the total cost of all articles of food purchased in each month; that such departments shall keep an accurate record of the quantities of food supplies consumed by patients or inmates, such record, wherever practicable, to be separate and distinct from the consumption of food supplies by employees or persons other than patients and inmates; and such departments shall keep an accurate record of the number of units of food supplies and the cost therefor consumed by the employees, such record, wherever practicable, to be entirely distinct from the record of food consumption by patients and inmates, and such departments are directed to submit to the Comptroller at the first of each quarter, a statement on budget accounting forms to be submitted by the Comptroller showing the stock on hand at the beginning of the preceding quarter, the number of units and price per unit and cost amount of the supplies delivered to the department within the preceding quarter, the number of units and cost amount of food supplies consumed by patients or inmates within the preceding quarter, the number of units and cost amount of food supplies consumed by employees within the preceding quarter, the aggregate number of patient or inmate days within the preceding quarter, the aggregate number of employee days within the preceding quarter, the average daily per capita cost of food supplies consumed by patients or inmates and employees, shown separately, in the preceding quarter, and the total number of units consumed and the cost thereof within the preceding quarter, the stock on hand at the end of the quarter and such other information as may be required upon the budget accounting forms, provided, however, that this condition shall not apply to administrative departments to which food supply appropriations have been made to be used in payment for meals of employees properly entitled to such meals by reason of overtime work.

PAYMENTS TO CHARITABLE INSTITUTIONS.

Fixed Charges and Contributions—

Care of Dependents in Private Institutions—

Conditions Governing Payments to Charitable Institutions.

Preamble.

All appropriations made in this budget to charitable institutions are hereby declared to be subject to the folowing regulations:

1. The accounts and records of all such institutions shall be kept so as to show their receipts and expenditures pertaining to all institutional activities, and a record shall be maintained in which their expenses shall be recorded under the following classifications:

A. Expenses incurred in the operation of institutions, as follows:
   a. Food stuffs.
   b. Clothing.
   c. Linen and bedding.
   d. Fuel.
   e. Magazines and newspapers.
   f. Education (Instruction and Educational Supplies).
   g. Other supplies.
   h. Salaries and wages.
   i. Professional services.
   j. Light.
   k. Forage and care of animals.
   l. Telephone.
   m. Printing, stationery and advertising.
   n. Postage and telegrams.
   o. Hospital and sanitarium charges.
   p. Funerals.
   q. Recreation expense.
   r. Miscellaneous expenses.
   s. Expense for boarded-out children.

B. Expenses incurred in the maintenance of plant and equipment as follows:
   a. Repairs and renewals of plant and fixed equipment.
   b. Repairs and renewals of furniture and movable equipment.
   c. Interest on bonds and mortgages on corporate real estate used exclusively for the charitable purposes of the institution, taxes and water rates, if any, thereon, fire insurance premiums on buildings on such real estate, together with their contents.

In all other respects such accounts and records shall be in the form required by the Comptroller of The City of New York, and as far as practicable such accounts shall be kept on an income and expense basis.

2. All payments made to charitable institutions in pursuance of the said appropriations shall be used by such institutions only for expenses incurred by the institution for the care, support, maintenance and education of inmates duly committed by the courts or the Commissioner of Charities or accepted by said Commissioner as public charges, but they shall not include any expense for improvements or additions to plant or equipment, except as stated, or any payments on account of principal of mortgages. Expenses for education shall be taken to mean expenses incurred in providing suitable education for properly committed or accepted inmates, and shall include the salaries of instructors and expenses incurred for supplies for use in instruction.

3. All institutions receiving funds by appropriation from The City of New York and their books of record and account, so far as they relate to institutional activities, shall be open at reasonable times to the visitation, inspection and examination of the Board of Estimate and Apportionment, the Department of Finance and the Department of Public Charities, by their duly authorized Commissioners, officers or inspectors, excepting, however, that the accounts pertaining to the activities of any religious order which may be in charge of any such institution shall be segregated from the other accounts and shall not be subject to this regulation.

4. All such institutions shall prepare and file with the Department of Finance as of a date to be fixed by said department, a report of the condition of the institution and its operations during the previous calendar year upon forms prescribed and furnished for the purpose under the provisions of these regulations by the Department of Finance.

5. Upon its appearing to the satisfaction of the Comptroller that it would be to the public interest to withhold payments out of any appropriation made to any charitable institution, he may, in his discretion, withhold the same, immediately giving written notice thereof to such institution and of his intention to apply to the Board of Estimate and Apportionment for authority to cease further payments. Upon the determination of said board that such payments shall terminate, the right of any such institution to receive payment from any such appropriation shall thereupon end.

6. The names and ages of inmates with a statement of the period for which payment is claimed must be placed on all bills rendered by such institutions for their care, support and maintenance prior to the presentation of such account for payment to the Department of Finance. The certificate of the Commissioner of Public Charities under regulation two hereof must also be attached to such bills. Except in emergency cases the Commissioner of Public Charities shall not accept as proper charges persons capable of paying for their own support or for whose care adequate provision can be made in the public hospitals.

7. The City shall not be liable for any claim by any charitable institution which shall be in excess of the amount apportioned to such institution in this budget, notwithstanding the acceptance of the Commissioner of Public Charities or any per capita rates of payment that may have been fixed for various classes of inmates thereof.

8. No money shall be paid to any institution which
   pays any salary to,
   gives any consideration for services (financial or otherwise) by,
   has any business dealing with, or
   secures goods or merchandise (directly or indirectly) from
any officer or trustee or member of its board of managers, or where any such person otherwise receives any pecuniary profit from the operation of such institution.

9. Child-caring institutions not sending their inmates to the public schools, and not sharing in the corporate school fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institution for five (5) hours daily for a period equal to the public school year, shall be paid a per capita of 7 cents per day for five (5) schools days in the week, for each child of five years of age and over receiving such instruction except that for abnormal or atypical children, a special rate in excess of this amount may be made by the Comptroller. Institutions receiving a per capita allowance for the education of their inmates shall be under the general supervision of the Board of Education, as required by the general conditions relating to institutions receiving corporate school money, provided in Section 1154 of the Charter of The City of New York.

10. No dependent child under 16 years of age shall be accepted as a proper charge upon the City, and no money shall be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable private charitable institution having its own

plant and equipment for the proper protection and care of children and being under the supervision of the State Board of Charities and which has been placed in this budget by the Board of Estimate and Apportionment.

11.    - a. Repairs and renewals of plant and fixed equipment.
   - b. Repairs and renewals of furniture and movable equipment.
   - c. Interest on bonds and mortgages on corporate real estate used exclusively for the charitable purposes of the institution, taxes, and water rates, if any, thereon, fire insurance premiums on buildings on such real estate, together with their contents.

In all other respects such accounts and records shall be in the form required by the Comptroller of The City of New York, and as far as practicable such accounts shall be kept on an income and expense basis.

2. All payments made to charitable institutions in pursuance of the said appropriations shall be used by such institutions only for expenses incurred by the institution for the care, support, maintenance and education of inmates duly committed by the courts or the Commissioner of Charities or accepted by said Commissioner as public charges, but they shall not include any expense for improvements or additions to plant or equipment, except as stated, or any payments on account of principal of mortgages. Expenses for education shall be taken to mean expenses incurred in providing suitable education for properly committed or accepted inmates, and shall include the salaries of instructors and expenses incurred for supplies for use in instruction.

3. All institutions receiving funds by appropriation from The City of New York and their books of record and account, so far as they relate to institutional activities, shall be open at reasonable times to the visitation, inspection and examination of the Board of Estimate and Apportionment, the Department of Finance and the Department of Public Charities, by their duly authorized Commissioners, officers or inspectors, excepting, however, that the accounts pertaining to the activities of any religious order which may be in charge of any such institution shall be segregated from the other accounts and shall not be subject to this regulation.

4. All such institutions shall prepare and file with the Department of Finance as of a date to be fixed by said department, a report of the condition of the institution and its operations during the previous calendar year upon forms prescribed and furnished for the purpose under the provisions of these regulations by the Department of Finance.

5. Upon its appearing to the satisfaction of the Comptroller that it would be to the public interest to withhold payments out of any appropriation made to any charitable institution he may, in his discretion, withhold the same, immediately giving written notice thereof to such institution and of his intention to apply to the Board of Estimate and Apportionment for authority to cease further payments. Upon the determination of said Board that such payments shall terminate, the right of any such institution to receive payment from any such appropriation shall thereupon end.

6. The names and ages of inmates with a statement of the period for which payment is claimed must be placed on all bills rendered by such institutions for their care, support and maintenance prior to the presentation of such account for payment to the Department of Finance. The certificate of the Commissioner of Public Charities under regulation two hereof must also be attached to such bills. Except in emergency cases the Commissioner of Public Charities shall not accept as proper charges persons capable of paying for their own support or for whose care adequate provision can be made in the public hospitals.

7. The City shall not be liable for any claim by any charitable institution which shall be in excess of the amount apportioned to such institution in this budget, notwithstanding the acceptance of the Commissioner of Public Charities or any per capita rates of payment that may have been fixed for various classes of inmates thereof.

8. No money shall be paid to any institution which
   - pays any salary to,
   - give any consideration for services (financial or otherwise) by,
   - has any business dealing with, or
   - secures goods or merchandise (directly or indirectly) from

any officer or trustee or member of its board of managers, or where any such person otherwise receives any pecuniary profit from the operation of such institution.

9. Child-caring institutions not sending their inmates to the public schools, and not sharing in the corporate school fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institution for five (5) hours daily for a period equal to the public school year, shall be paid a per capita of 7 cents per day for five (5) school days in the week, for each child of five years of age and over receiving such instruction except that for abnormal or atypical children, a special rate in excess of this amount may be made by the Comptroller. Institutions receiving a per capita allowance for the education of their inmates shall be under the general supervision of the Board of Education, as required by the general conditions relating to institutions receiving corporate school money, provided in section 1154 of the Charter of The City of New York.

10. No dependent child under 16 years of age shall be accepted as a proper charge upon the City, and no money shall be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable private charitable institution having its own plant and equipment for the proper protection and care of children and being under the supervision of the State Board of Charities and which has been placed in this budget by the Board of Estimate and Apportionment.

11. The Department of Health shall maintain in all child-caring institutions receiving funds by appropriation from The City of New York for each inmate accepted as a public charge under the rules of the State Board of Charities, and as herein provided, a complete physical and health record in which shall be recorded the name, age, sex, height and weight, time of admission, general physical condition, including the presence or absence of defects in eyesight, breathing, teeth, or any organic defect, in a manner to conform as nearly as practicable with the records maintained by the Department of Health for children in the public schools in The City of New York. It shall also record the dietary actually employed in such institutions for the feeding of its inmates. Such statistics and records shall be made and revised by the Board of Health once in each six months.

12. Each institution is to notify the Commissioner of Public Charities in writing on the forms prescribed by him of the reception or discharge of any person for whose care city or county funds are to be paid. This notice must be given within twenty-four hours thereafter, and no claim shall be paid for such service unless this rule is strictly complied with.

13. The rates of payments to private charitable institutions, unless otherwise specifically provided for, are fixed for the various classes of inmates as follows: Provided that where the Comptroller finds, after proper investigation, that any per capita rate hereinafter stated is too high, he is hereby authorized, on the approval of the Board of Estimate and Apportionment, to reduce such per capita rate for any or all institutions.

1. Premises affected, Johnstown, 311 West State st.; appellant, Streeter, Hackney & Co. Provide additional approved means of exit from 4th floor, rear, to ground by extending stairway to 4th floor. Recommendation: In view of the fact that there is but one person employed on the 4th floor, accept the ladder from the 3d to 4th floors as a means of exit from the 4th floor while not more than one person is permitted to be employed thereof.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause, or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signals by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All fixings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
