LAW DEPARTMENT.

The following opinions constitute a portion of the proceedings of the Law Department for the week ending July 31, 1873:

LAW DEPARTMENT, OFFICE OF COUNSEL TO THE CORPORATION, July 30th, 1873.

Hon. William H. Nelson, President Board of

Education.

SIR—I am asked whether, in my opinion, the Board of Education, in making or authorizing contracts, is bound by the provisions of section 91 of the act commonly called the New Charter. The question has been examined by me, and I assure in the require.

answer in the negative.

The present Board of Education is organized

The present Board of Education is organized under an independent Act of the Legislature (see chapter 112, entitled "An act relative to Common Schools in the City of New York," passed March 21, 1873.)

By section 4 of this act, the Commissioners of Common Schools, pursuant thereto possess and succeed to all the powers and duties of Commissioners of the Department of Public Instruction with full control of the Public Schools and Public School system of the city, subject only to the general statutes of the State upon education, and constitute a Board known as the Board of Education.

Chapter 335, of the Laws of 1873, known as the New Charter, became a law on the 30th of April, 1873. The act under which the Board of Education is organized is certainly not repealed nor modified by any express provision of the charter. Indeed, it would require some ingenuity to discover anything in the latter act implying a repeal of anything in the tormer. It is well settled that repeals by implication are not favored by judicial tribunals. And when we come to examine what is called the Supplementary Charter, we find that the phraseology of the amendments therein, made to Section 112, of the charter itself, plainly shows that it was not the intention of the Legislature to impair the authority of the Board of Education as conferred by the act under which it is organized. Chapter 335, of the Laws of 1873, known as the

Education as conferred by the act under which it is organized.

The case is, in my judgment, so clear that I deem it unnecessary to consider the further point whether the title to the act called the charter is broad enough to admit of constitution: I legislation affecting the Board of Education, with regard to the powers to which your letters refers.

It is, in my judgment, the duty of your Board to go on with the important duties imposed upon it, without any sense of restriction growing out of the provisions of section 91 of the charter.

I am, sir, very respectfully yours,

E. DELAFIELD SMITH,

Counsel to the Corporation.

NOT COMPETENT FOR THE BOARD OF ALDER-MEN TO PASS AN ORDINANCE TO DEVOLVE UPON THE COMMISSIONER OF PUBLIC WORKS THE INSPECTION AND REGULATION OF MAR-

of Aldermen.

General Joseph C. Pinckney, Clerk, &c. &c.:

Gentlemen—I duly received your letter of the 15th inst., enclosing a printed draft of an ordinance, by which it is proposed to devolve upon the Commissioner of Public Works the duty of the inspection, care and regulation of the use of the markets in this city, and solve the markets in this city and solve the markets in this city. the inspection, care and regulation of the use of the markets in this city, and asking my opinion whether it is competent for the Common Council to pass the ordinance in question, and also asking for a reference to such existing laws and dinances as have a bearing upon the question. By the twenty-seventh section of the charter of

1857, it was provided that there should be a bureau in the Department of the City Inspector for the inspection, regulation and management of the public markets, the chief officer of which shall be denominated "Superintendent of Mar-

kets."
Section 1, of Chapter 227, of the Laws of 1863, contains the following provision: "The public are entitled to have access to them, and agreement of the public markets of the City of "New York shall hereafter be in the Finance "Department of the said city, and all laws and ordinances now in force relative to the bureau ordinances now in force rel

of markets, or superintendent or other officers "thereof, shall apply to the said bureau as herein
"provided." Under this law the bureau of
markets was transferred to and has continuously
remained in the Finance Department until the

The 21st section of the charter of 1870 author-ized the Common Council to pass ordinances in relation to the construction, repair, care and use of markets, and the 57th section provided that one of the Bureaus of the Finance Department, should be a Bureau of markets; the chief officer of which should be called "Superintendent of markets."

The charter of 1870, having been repealed, of course these provisions have no longer any force but are cited as showing the course of legislation. The charter of 1873, contains similar provisions to those found in that of 1870. The 17th section provides (among other things) that the Common Council may pass ordinances, not inconsistent Council may pass ordinances, not inconsistent with law, and the constitution of the state, in rewith law, and the constitution of the state, in relation to the construction, repair, care and use of markets; section 33 provides that one of the Bureaus in the Finance Department shall be a Bureau of markets, the chief officer of which shall be called "Superintendent of markets."

I am of the opinion that the provision of the law of 1863, above cited is still in full force.

It certainly has never been expressly repealed, and it does not come within the general repealing clause contained in section one hundred and nineteen of the charter, as an act inconsistent with the provisions of that law. So far from being inconsistent with the charter, it is re-affirmed and re-enacted by section thirty-three above referred to.

it is re-affirmed and re-enacted by section thirtythree above referred to.

It is a familiar principle of law that statutes
are to be construed, if possible, in such a manner, as to give effect to every enactment of the
Legislature. Now, if sub-division twenty of section seventeen of the charter of 1873 is construed
to mean that the Common Council can transfer to mean that the Common Council can transfer the bureau for the management of the markets from the Finance Department to the Department of Public Works, the provisions, above cited, of the laws of 1863, and of section thirty-three of the charter of 1873, will be entirely nullified. Whereas, if these several laws are construed to mean that the Common Council may pass ordi-nances in reference to the construction, repair, care and use of the markets, but that the bureau for the inspection, regulation and management of

care and use of the markets, but that the bureau for the inspection, regulation and management of the markets, subject to such ordinances, shall be in the Finance Department, then full force and effect will be given to them all.

I have no doubt whatever that the latter is the true construction of the laws in question, and I am therefore of the opinion, that it is not competent for the Common Council to pass the proposed ordinance.

posed ordinance.

I am, gentlemen, yours very respectfully, E. Delafield Smith, Counsel to the Corporation.

EXPENSES OF THE REGISTER'S OFFICE WHICH ARE COUNTY CHARGES.

BOARD OF SUPERVISORS,
NEW YORK COUNTY COURT HOUSE,
NEW YORK, April 28, 1873.

DEAR SIR—The Register, General Sigel, has from time to time requested to be furnished with articles for the use of his office, such as brooms, brushes and soap, for cleaning purposes, and chairs, desks, &c., for use of his clerks; he also demands that the county should provide a cleaning force and watchmen (night and day).

Will you kindly inform us on these points, in order that our Committee may act understanding the cleaning force and watchmen (night and day).

Very respectfully, yours, J. VAN SCHAICK, Chairman.

E. DELAFIELD SMITH, Esq.,
Legal Adviser to the Board of Supervisors

LAW DEPARTMENT, OFFICE OF COUNSEL TO THE CORPORATION, July 23d, 1873.

Hon. Jenkins Van Schaick, Chairman Finance Committee of the Board of Supervisors:

After an examination of the statutes which seem to have any bearing on the matter, I am of the opinion that the things asked for by the Register should be furnished to him by the county.

The Register is required by law to record in books, to be provided for the purpose, such deeds, mortgages, &c., as shall be delivered to him for record. The records which he makes are not his property, but that of the county, and when his term of office shall expire he must deliver them, with all the records he has received from his predecessor, to his successor. The records are of vast interest to the public, and must be kept safe from loss, mutilation and alteration. The public are entitled to have access to them, and a great many records have becomes the country and the seconds.

any further expense attending his office, the law provides no specific compensation.

It seems to me that the provision of the statute, I Rev. Statute (Edmund), page 358, sec. 3, subdiv 9 and 15, that "the moneys necessarily expended by any county officer in executing the duties of his office, in cases in which no specific compensation for such services is provided by law," and that "the contingent expenses necessarily expended for the use and benefit of a county' shall be deemed county charges, apply to the expenses incurred for preserving the records, and for furnishing and keeping clean the office of the Register. It seems to me that the provision of the statute,

for furnishing and keeping clean the office of the Register.

The Register is paid specific fees for specific purposes. Whatever assistance he may require to enable him to perform those services, he should pay for out of hose fees. But for the great responsibility and expense of keeping the records safe and maintaining them in order, for the expense of providing the public a convenient and decent place to transact with him their business connected with the county's records, no compensation whatever is provided. tion whatever is provided.

tion whatever is provided.

In the case of Bright vs. The Supervisors of Chenango county, 18 John 241, the Supreme Court decided that although the statute required the clerk to provide books wherein to record deeds and mortgages, yet it was an expense of his office for which no specific compensation was provided, and the county should pay for them. The things asked for by the Register seem to me to come directly within the spirit of that decision. They are necessary to the care—preservation and orderly keeping of the property of the county—duties which law and custom impose upon the Register—but for the expense of which no specific compensation is provided by law.

I am, sir, very respectfully,

Your obedient servant,
(Signed).

E. Delafield Smith,

gned). E. DELAFIELD SMITH, Counsel to the Corporation, and Counsel to the Board of Supervisors.

HEALTH DEPARTMENT.

SANITARY BUREAU.

NEW YORK, July 28th, 1873.

Dr. Stephen Smith, Chairman Sanitary Com-mittee:

SIR—I have the honor to submit the following report upon the condition of the streets and avenues of this city, as regards cleanliness, for the week ending July 26th inst., compiled from the reports of the inspectors and assistant inspectors of this Department.

Inspector Judson (1st, 3d and 5th Wards) reports that, with the exception of West and Greenwich streets, which contain about their usual filth, the streets of his district are more filthy than for the last six weeks. The followning blocks have pavements in fair condition, and, with ordinary care and industry, might be kept perfectly clean. At present they are filthy with street dirt, which, in dry times, fills the air with offensive and irritating dust, and in wet weather, or after the passage of a sprinkling cart, plasters the whole street with slime:

Park place, from College place to Church; Whitehall street, from Bridge street to Pearl street; Pearl street, from Whitehall street to Broad; Beaver street, from William to Hanover street; Wall street, from Nassau street to Broad-way; Broadway, from Wall street to Pine street. In two places he noticed that fresh refuse had

been deposited, for which the occupants of the respective numbers, and not the street cleaners, are responsible. At No. 42 Park place was a quantity of packing straw on the sidewalk and in the gutter; and in front of a tenement house on the southwest corner of Whitehall and Pearl streets, there was a deposit of very offensive

Assistant Inspector Lockwood (2d and 4th Wards) reports his streets as generally clean y, with the exception of Front street, between Burling slip and Beckman street, very filthy with street dirt in places. The tenants of the 4th properly cleaned.

Ward generally throw their garbage into the street. The tenants of No. 90 New Chambers street, still throw their garbage into the gutters. Assistant Inspector Emerson (7th Ward) found nothing in his streets worth remarking, excepting that on Saturday rubbish and garbage was freshly thrown into the streets in the western section of East Broadway, in Birmingham, and in Henry streets, between Birmingham and Market streets.

Assistant Inspector Hughes (8th Ward) reports

Assistant Inspector Hughes (8th Ward) reports his streets clean, excepting Watt street, Charlton street, between Varick and West streets, Greenwich street, and South 5th avenue, between Grand and Broome streets.

Inspector Morris (9th and 15th Wards) reports his district as being in very good condition.

Assistant-Inspector Hamilton (16th Ward) finds his district clean, excepting Twenty-first street, between Seventh and Eighth avenues, where the pavement is bad.

Inspector Russel (18th Ward) finds his streets, without exception, remarkably clean, consider-ing the generally bad condition of the street pavements in the tenant-house portions of the

The unfinished sewer, on which no work has been done recently, is open and is dangerous at night.

The condition of the unpaved streets has not been improved since last week. The gutter on the north side of Sixty-second street, between Ninth and Tenth avenues, is filthy with ashes, garbage and waste water. Northwest corner of Sixty-seventh street and Ninth avenue, Inspector Munde (11th Ward) finds some improvement in the condition of both streets and gutters during the past week, but complains that the inhabitants of tenement-houses are content to clean their gutters once a day. He recommends that the police should make them keep them clean.

BUREAU OF VITAL STATISTICS, & July 29, 1873.

July 29, 1873. {
To the Secretary of the Board of Health.
Sir: The number of deaths reported to the
Bureau of Vital Statistics in the week ending July
26th, was 86o. In the preceeding week the actual number amounted to 917. The greatest
number of deaths occurred on the 15th inst., when
157 were certified, 122 being children under five
years of age and 77 being charged to common
diarrhoeal diseases.
Last week 402 of the 860 deaths were of chil-

diarrhoeal diseases.

Last week 492 of the 860 deaths were of children under two years of age, and 567 were under five years. The total, as well as the infantile mortality was slightly above the average of the past five years, for the corresponding week, The death rate last week, was equal to 44.72per 1000 inhabitants annually, and in the previous week it was 47.68.

occurred. Though it is infant mortality that thus dots the map, these dots plainly indicate certain unhealthful districts and blocks that may properly be termed diarrhocal fields. These are properly be termed diarrhoeal helds. These are frequently the most sickly districts in the city and are chiefly occupied by classes quite above the poorest and debased kinds. They are populous with families of the artisan and laboring classes. Beginning on Greenwich and Washington streets where obvious conditions account for such

streets where obvious conditions account for such mortality, we find a marked district on Twenty-seventh and Twenty-ninth streets, above the Ninth and Tenth avenues: again from Thirty-seventh to Forty-second streets, from Ninth to Eleventh avenues; and again between the same avenues from Forty-sixth to Fifty-seventh streets, there are districts still more fatally marked,

where obvious local causes conspire with the careless habits of families to produce the kind of fatality which has occurred.

On the east side of the city the 7th and 14th wards are strikingly marked. But it is in the districts bounded by Delancey and Houston, Forsyth and Lewis sts, Second to Eighteenth sts, First avenue to avenue D; and again a district extending along First and Second avenues, and having several fatally marked centres from Thirty-third to Eighty-seventh streets, that we complete the chart of these places where infants perished last week.

The numerous factors that make up the great cause of excessive infant mortality in the insalubrious quarters of the city in the hot season are not wholly beyond the reach of preventive measures which the Board of Health is endeavoring to ures which the Board of Health is endeavoring to apply. But without waiting for such benefits, all families, however poor, could cleanse and keep clean the premises where they live and especially might they avail themselves of the shade and invigorating air of the central park for their young children, that now perish needlessly by thousands.

Respectfully, HARRIS, M.D. Registrar.

SANITARY BUREAU, New York, July 29th, 1873.

New York, July 29th, 1873. \(\)

Dr. Janes submitted the following report on Fulton Market. Said premises are bounded by Beekman, South, Front and Fulton streets, are known as Fulton Market, and constitute one of the public markets of the City of New York. The said market originally occupied the area bounded by the sidewalks of the four adjacent streets mentioned above, and was wholly within the inside edge of said adjacent sidewalks respectively. At present there is on Fulton street a line of booths extending the entire distance from Front to South street—said booths standing partly on the sidewalk, and partly on the carriage way, occupying of the latter a space at least ten feet in width for the entire length of the market front. On South street there is a simimarket front. On South street there is a similar line of booths occupying a space on the side-walk, about twelve feet in wtdth for the entire distance from Fulton to Beekman streets, said distance from Fulton to Beekman streets, said sidewalk having been widened about eight feet beyond its proper line, and by this widening encroaching upon so much of the carriage way. On Beekman street there a line of booths extending from the corner of South street to a distance of about fifty feet toward Front street, standing partly on the sidewalk, and partly on the carriage way, occupying of said carriage way a space about eight feet in width for the entire distance. These several booths are connected with the market proper by means of a roof extending from the main building, over the sidewalk, and each booth respectively, and are occupied by market men for the sale of foreign and domestic fruits, vegetables, refreshments, &c. At the time of this inspection many of the booths on Fulton street were undergoing certain booths on Fulton street were undergoing certain alterations by order of the Superintendent of Markets, the floors had been taken up and the gutter and pavement underneath cleaned. The pavement outside the booths also bore evidence of having recently been cleaned, but there was of naving recently beth cleaned, but have was a sour and offensive odor mingled with an odor of urine, indicating not only the recent want of cleanliness, but that the external surface of the standing wood-work of these booths was to some extent saturated with liquid filth.

extent saturated with liquid filth.

On South street there was the same offensive odor and the external sides of the booths bore evidence of a similar filthy saturation, the condition enhanced by the presence of a filthy garbage box standing against one of the booths. Although these booths on South street do not stand over and obstruct the street gutter, yet the widened sidewalk on which they stand—encroaching at least eight feet on the original carriageway of a street having the double track of a horse-railroad passing through it, and being close by the terminus of another railroad, and also of a stage line, in the immediate vicinity of the most frequented ferry between New York and Brooklyn, forms a serious obstruction to travel along that crowded thoroughfare, and at times renders an attempt to cross the street both difficult and dangerous to life.

On Beekman street the work of raising the

On Beekman street the work of raising the floors of the booths, and of cleaning the pavement underneath them has been commenced; but considerable filth remained in the gutter, and the same offensive odor was apparent

I cannot believe that alterations proposed by the Superintendent of Markets will be sufficient to place the locality in a proper sanitary condi-tion, as these booths, in whatever manner they may be altered, will always be an obstruction to the light and ventilation necessary for the market, and thus be detrimental to health. A public market, where meat and other articles food are sold, and where the atmosphere is for a great portion of the time contaminated by the espiration of, and the effete exhalations from the crowds of human beings who frequent it, should at all times be provided with facilities for unob-structed ventilation, in order that the wholesome condition of its stores, as well as the health of its occupants and their customers, may be preserved. And this is especially needed at Fulton Market, a portion of which is occupied as restaurants, where the atmosphere is more or less affected by the odors arising from the cooking of meats and vegetables, and where the tempera-ture is increased by the artificial heat necessary for these operations. For reasons above stated it is my opinion that these booths, in their present location, are detrimental to beath, the location, are detrimental to health; that they have for a long time interfered with thorough cleaning of the streets, and have served as obstructions to public travel, rendering efforts to cross the streets at times both difficult and dan-gerous to life. With a view of improving the

sanitary condition of this locality, it is recom-mended that these booths be removed, and that a portion of the sidewalk flagging on South street be taken up, and the carriage-way between Beekman and Fulton streets be restored to its original width.
