Paragraph (b) superseded by City Planning Rules § 5-08.); The applicant initiating the proposed action, other than an exempt or Type II action pursuant to § 6-04 of this chapter, shall file an application with the lead agencies, which application shall include a Project Data Statement and such other documents and additional information as the lead agencies may require to conduct an environmental analysis to determine whether the action may or will not have a significant effect on the environment. Where possible existing City applications shall be modified to incorporate this procedure and a one-stop review process developed;

(1) within 20 calendar days of receipt of a determination pursuant to § 6-03(b) of this chapter, if applicable, the lead agencies shall notify the applicant, in writing, whether the application is complete or whether additional information is required;

A statement discussing such considerations, alternatives and mitigating measures shall be included in the application documents.

(f) Nothing in this section shall be deemed to prohibit an applicant from submitting a preliminary application in the early stages of a project or activity for review and comment by the lead agencies.

§ 6-06 **Determination of Significant Effect – Criteria.** (a) An action may have a significant effect on the environment if it can reasonably be expected to lead to one of the following consequences:

(1) a substantial adverse change to ambient air or water quality or noise levels or in solid waste production, drainage, erosion or flooding;

(2) the removal or destruction of large quantities of vegetation or fauna, the substantial interference with the movement of any resident or migratory fish or wildlife species, impacts on critical habitat areas, or the substantial affecting of a rare or endangered species of animal or plant or the habitat of such a species;

(3) the encouraging or attracting of a large number of people to a place or places for more than a few days relative to the number of people who would come to such a place absent the action;

(4) the creation of a material conflict with a community's existing plans or goals as officially approved or adopted;

(5) the impairment of the character or quality of important historical, archeological, architectural or aesthetic resources (including the demolition or alteration of a structure which is eligible for inclusion in an official inventory of such resources), or of existing community or neighborhood character;

(6) a major change in the use of either the quantity or type of energy;

(7) the creation of a hazard to human health or safety;

(8) a substantial change in the use or intensity of use of land or other natural resources or in their capacity to support existing uses, except where such a change has been included, referred to, or implicit in a broad "programmatic" EIS prepared pursuant to § 6-13 of this chapter.

(9) the creation of a material demand for other actions which would result in one of the above consequences;

(10) changes in two or more elements of the environment, no one of which is substantial, but taken together result in a material change to the environment.

(b) (Reference to § 6-15 Type II list, deemed to be State Type II list of 6 NYCRR Part 617.13. See City Planning Rules § 5-02(b)(2).); For the purpose of determining whether an action will cause one of the foregoing consequences, the action shall be deemed to include other contemporaneous or subsequent actions which are included in any long-range comprehensive integrated plan of which the action under consideration is a part, which are likely to be undertaken as a result thereof, or which are dependent thereon. The significance of a likely consequence (i.e. where it is material, substantial, large, important, etc.) should be assessed in connection with its setting, its probability of occurring, its duration, its irreversibility, its controllability, its geographic scope and its magnitude (i.e. degree of change or its absolute size). Section 6-15 of this chapter refers to lists of actions which are likely to have a significant effect on the environment and contains lists of actions found not to have a significant effect on the environment.

§ 6-07; **Determination of Significant Effect – Notification.** (a) (*Error. Reference to § 6-05(a) should be to § 6-05(b).*) The lead agencies shall determine within 15 calendar days following notification of completion of the application pursuant to § 6-05(a) of this chapter whether the proposed action may have a significant effect on the environment;

- (i) an action identifying number;
- (ii) a brief description of the action;

- (i) a list of conditions, modifications or alternatives to the proposed action which supports the determination;
- (ii) the signature of the applicant or its authorized representative, accepting the conditions, modifications or alternatives to the proposed action;

In such event, a Notice of Determination shall be immediately issued pursuant to paragraph (3) of this subdivision.

(3) *Notice of Determination.* (*Reference to § 6-15 Type II list, deemed to be State Type II list of 6 NYCRR Part 617.13. See City Planning Rules § 5-02(b)(2).*); If the lead agencies determine that the proposed action is not an exempt action or a Type II action pursuant to §§ 6-04 and 6-15 of this chapter, respectively, and that the action may have a significant effect on the environment, they shall issue a Notice of Determination which shall contain the following information:

- (i) an action description number;
- (ii) a brief description of the action;
- (iii) the proposed location of the action;

§ 6-08 **Draft Environmental Impact Statements – Responsibility for Preparation.** (a) *Non-agency applicants.*

(1) (*Rules add formal scoping, City Planning Rules § 5-07. Interested and involved agencies assist with DEIS on request. See City Planning Rules § 5-05(b)(2).*); After receipt of a Notice of Determination pursuant to § 6-07(c)(3) of this chapter, a non-agency applicant shall notify the lead agencies in writing as to whether it will exercise its option to prepare or cause to be prepared a draft EIS, and as to whom it has designated to prepare the draft EIS, provided that no person so designated shall have an investment or employment interest in the ultimate realization of the proposed action;

(2) (*See also City Planning Rules § 5-05(b)(3) for requirements of lead consultation on mitigations.*); the lead agencies may prepare or

cause to be prepared a draft EIS for an action involving a non-agency applicant. In such event, the applicant shall provide, upon request, an environmental report to assist the lead agencies in preparing or causing to be prepared the draft EIS and such other information as may be necessary. All agencies shall fully cooperate with the lead agencies in all matters relating to the preparation of the draft EIS.

(3) if the non-agency applicant does not exercise its option to prepare or cause to be prepared a draft EIS, and the lead agencies do not prepare or cause to be prepared such draft EIS, then the proposed action and review thereof shall terminate.

§ 6-09 **Environmental Impact Statements – Content.** (a) (*Lead to be guided by technical standards and methodologies developed by Office of Environ. Coord., City Planning Rules § 5-04(c).*); Environmental impact statements should be clearly written in a brief and concise manner capable of being read and understood by the public. Within the framework presented in subdivision (d) of this section, such statements should deal only with the specific significant environmental impacts which can be reasonably anticipated. They should not contain more detail than is appropriate considering the nature and magnitude of the proposed action and the significance of its potential impacts.

(b) All draft and final EIS's shall [be preceded by] include a cover [sheet] page stating:

- (1) whether it is a draft or a final;

- (6) the date of its completion.

(c) If a draft or final EIS exceeds ten pages in length, it shall have a table of contents[,] following the cover [sheet] page.

(d) The body of all draft and final EIS's shall contain at least the following:

- (1) a description of the proposed action and its environmental setting;
- (2) a statement of the environmental impacts of the proposed action, including its short-term and long-term effects, and typically associated environmental effects;
- (3) an identification of any adverse environmental effects which cannot be avoided if the proposed action is implemented;
- (4) a discussion of the social and economic impacts of the proposed action;
- (5) a discussion of alternatives to the proposed action and the comparable impacts and effects of such alternatives;
- (6) an identification of any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented;
- (7) a description of mitigation measures proposed to minimize adverse environmental impacts;

- (11) (for the final EIS only) copies or a summary of the substantive comments received in response to the draft EIS and the applicant's response to such comments.

(e) An EIS may incorporate by reference all or portions of other documents which contain information relevant to the statement. The referenced documents shall be made available to the public in the same places where copies of the statement are made available. When a statement uses incorporation by reference, the referenced document shall be briefly described and its date of preparation provided.

§ 6-10 **Draft Environmental Impact Statements – Procedures.**

(a) *Notice of Completion.* Upon the satisfactory completion of a draft EIS, the lead agencies shall immediately prepare, file and make available for public inspection a Notice of Completion as provided in paragraphs (1), (2) and (3) of this subdivision. Where a proposed action is simultaneously subject to the Uniform Land Use Review Procedure ("ULURP"), the City Planning Commission shall not certify an application pursuant to ULURP until a Notice of Completion has been filed as provided in paragraph (3) of this subdivision.

(1) *Contents of Notice of Completion.* All Notices of Completion shall contain the following:

- (i) an action identifying number;

(c) *Public hearings on draft EIS.*

(1) Upon completion of a draft EIS, the lead agencies shall conduct a public hearing on the draft EIS.

(2) The hearing shall commence no less than 15 calendar days or more than 60 calendar days after the filing of a draft EIS pursuant to subdivision (b) of this section, except where a different hearing date is required as appropriate under another law or regulation.

(3) Notice of the public hearing may be contained in the Notice of Completion or, if not so contained, shall be given in the same manner in which the Notice of Completion is [circulated] transmitted and filed pursuant to subdivision (a) of this section. In either case, the notice of hearing shall also be published at least 10 calendar days in advance of the public hearing in a newspaper of general circulation in the area of the potential impact and effect of the proposed action.

(4) Where a proposed action is simultaneously subject to ULURP, a public hearing conducted by the appropriate community or borough board and/or the City Planning Commission pursuant to ULURP shall satisfy the hearing requirement of this section. Where more than one hearing is conducted by the aforementioned bodies, whichever hearing last occurs shall be deemed the hearing for purposes of this chapter.

#### § 6-11 Final Environmental Impact Statements – Procedures.

(a) (*Interested and involved agencies assist with FEIS on request, City Planning Rules § 5-05(b)(2).*); Except as provided in paragraph (1) of this subdivision, the lead agencies shall prepare or cause to be prepared a final EIS within 30 calendar days after the close of a public hearing.

(1) If the proposed action has been withdrawn or if, on the basis of the draft EIS and the hearing, the lead agencies have determined that the action will not have a significant effect on the environment, no final EIS shall be prepared. In such cases, the lead agencies shall prepare, file and [circulate] transmit a Negative Declaration as prescribed in § 6-07 of this chapter.

(2) The final EIS shall reflect a revision and updating of the matters contained in the draft EIS in light of further review by the lead agencies, comments received and the record of the public hearing.

(b) Immediately upon the completion of a final EIS, the lead agencies shall prepare, file, [circulate] transmit and make available for public inspection a Notice of Completion of a final EIS in a manner specified in § 6-11(a) of this chapter, provided, however, that the Notice shall not contain the statement described in subparagraph (a)(1)(iv) of such section.

(c) Immediately upon completion of a final EIS, [copies] it shall be filed and made available for public inspection in the same manner as the draft EIS pursuant to § 6-11(b) of this chapter.

§ 6-12 *Agency Decision Making.* (a) No final decision to carry out or approve an action which may have a significant effect on the environment shall be made until after the filing and consideration of a final EIS.

(1) (*Inapplicable, City Planning Rules, § 5-02(a).*);

(2) (*Inapplicable, City Planning Rules, § 5-02(a).*);

(b) When an agency decides to carry out or approve an action which may have a significant effect on the environment, it shall make the following findings in a written decision:

- (1) consistent with social, economic and other essential considerations of state and city policy, from among the reasonable alternatives thereto, the action to be carried out or approved is one

which minimizes or avoids adverse environmental effects to the maximum extent possible, including the effects disclosed in the relevant environmental impact statement;

(2) consistent with social, economic and other essential considerations of state and city policy, all practicable means will be taken in carrying out or approving the action to minimize or avoid adverse environmental effects.

(c) For public information purposes, [a copy of] the Decision shall be filed in the same manner as the draft EIS pursuant to § 6-11(b) of this chapter.

#### § 6-13 Programmatic Environmental Impact Statements. (a)

Whenever possible, agencies shall identify programs or categories of actions, particularly projects or plans which are wide in scope or implemented over a long time frame, which would most appropriately serve as the subject of a single EIS. Broad program statements, master or area wide statements, or statements for comprehensive plans are often appropriate to assess the environmental effects of the following:

- (1) a number of separate actions in a given geographic area;
- (2) a chain of contemplated actions;
- (3) separate actions having generic or common impacts;
- (4) programs or plans having wide application or restricting the range of future alternative policies or projects.

(b) No further EIS's need be prepared for actions which are included in a programmatic EIS prepared pursuant to Subdivision (a) of this section. However:

- (1) a programmatic EIS shall be amended or supplemented to reflect impacts which are not addressed or adequately analyzed in the EIS as originally prepared; and
- (2) actions which significantly modify a plan or program which has been the subject of an EIS shall require a supplementary EIS;
- (3) programmatic EIS's requiring amendment and actions requiring supplementary EIS's pursuant to this section shall be processed in full compliance with the requirements of this chapter.

#### Chapter 6: Rules For the Processing of Plans Pursuant To Charter Section 197-a

\* \* \*

#### § 6-02 Plan Submission.

(a) *Notification of Intent.* To assist the Department in anticipating the need for technical assistance for the preparation of plans in the efficient scheduling of their review, the sponsor of a plan shall notify the Department of its intent to prepare and submit a plan. This notice shall be given not less than ninety (90) days prior to the submission of a proposed plan. Periodically, the Department shall report to the Commission on the notices received and on the progress of 197-a plans underway.

(b) *Submission.* [Thirty (30) copies of a] All proposed plans shall be submitted to the Department of City Planning[,] through its website

or at [Intake Office, 22 Reade Street] 120 Broadway, 31<sup>st</sup> Floor, New York, NY 10271 [007]. If a plan has been initiated by a community board, borough board or Borough President, this initial submission shall include a summary record of the public hearing held by the board or Borough President. The submission shall also include the name(s) and address(es) of the person(s) designated by the sponsor to be its representative(s) in any discussions of the plan.

#### **§ 6-03 Threshold Review and Determination.**

(a) *Department Review.* Each proposed plan shall be reviewed by the Department staff who shall report to the Commission not later than 90 days after the plan's submission as to whether the plan appears to meet the standards for form and content and for consistency with sound planning, as set forth in § 6-04 of these rules. Prior to making the report, the staff shall inform the sponsor of all deficiencies with respect to form and content and any changes, additions or deletions which, in the opinion of the staff, may correct such deficiencies. The sponsor may, thereupon, indicate its willingness to make such changes, additions or deletions in which case the Department will defer its report to the Commission until the changes have been made. The sponsor may, instead, request that the plan be presented without change to the Commission for its threshold findings of form and content and sound planning policy. At the time of any Department report on a proposed plan, the Commission may receive a similar report from representatives of the sponsor.

(b) *City Planning Commission Determination.* Within 30 days after its presentation by the Department staff, the Commission shall determine, when required by the Charter and in accordance with the standards set forth in § 6-04 of these rules, whether the proposed plan is of appropriate form and sufficient content, and whether it is in accordance with sound planning policy. If the Commission has determined that a proposed plan does not meet the standards for form or content or for sound planning policy, it shall direct the plan back to the sponsor with a statement explaining its deficiencies. When the Commission has determined that a proposed plan is of appropriate form and content and is in accordance with sound planning policy, it shall direct the Department to undertake the necessary environmental review if the plan has been sponsored by a community board in accordance with Article 5 of these rules. If the plan has been sponsored by an agency other than a community board the Commission shall determine whether a Type II declaration, a negative declaration, or a notice of completion of a draft EIS has been issued, and if so, it shall direct the Department to distribute the plan in accordance with § 6-06 of these rules.

(c) *Coordination of Plan Review.* The Commission may determine that, despite its finding of appropriate form and content and sound planning policy, a proposed plan should not immediately proceed because there are other planning efforts, ULURP reviews or environmental studies underway which should be coordinated with the plan. In such a case, the Commission may direct the Department to work with the sponsor and any other interested agencies in developing an appropriate timetable and strategy for the plan, and to report back to the Commission.

(d) *Progress Report.* When 180 days has elapsed following a threshold determination pursuant to Subdivision (b), if a proposed plan has not been distributed for review either because the environmental review remains incomplete, or because the plan has been delayed pursuant to Subdivision (c), the sponsoring agency may make a written request to the Commission to expedite the plan's distribution. The Commission shall direct the Department to report in writing within a fixed period of time the progress of the plan, including any outstanding aspects of the environmental review, or any continuing problems of coordination delaying its review. Upon receipt of the report, the Commission may direct the Department to complete the review within a reasonable period of time.

\* \* \*

The Commission may also direct its distribution to other agencies whose interests may be affected including neighboring community boards and Borough Presidents, and any city and state agency with jurisdiction over elements of the plan.

(b) *Community Board Review.* Each community board which has received from the Department of City Planning a proposed plan affecting land in its district shall conduct a public hearing on the plan except when a single borough-wide hearing is to be held on a borough plan. Notice of the public hearing shall be given and the hearing conducted in accordance with the ULURP rules for community board public hearings. Subsequent to the public hearing and within a period of sixty (60) days following its receipt of the plan, the community board shall transmit its written recommendation to the City Planning Commission with copies to the Borough President, City Council and the sponsor. The Community board which is the sponsor of a plan and which held a hearing on it prior to filing with the Department, need not hold a second hearing.

(c) *Borough president review.* The Borough President shall have one hundred twenty (120) days following the receipt of a proposed plan in which to review the plan and submit written recommendation to the

City Planning Commission with copies to the City Council and sponsor. The Borough President may choose to conduct a public hearing on the plan.

(d) *Borough board review.* Each borough board which has received from the Department of City Planning a proposed plan affecting land in two or more community districts in its borough shall conduct a public hearing on the plan. Such public hearing shall take place and the report of the borough board shall be transmitted within one hundred twenty (120) days following its receipt of the plan. In the case of a plan affecting the entire borough, a single borough-wide public hearing may be held in lieu of separate hearings by the community boards. Notice of the public hearing shall be given and the hearing conducted in accordance with the ULURP rules governing borough board hearings. The borough board shall transmit its written recommendation to the City Planning Commission with copies to the City Council and the sponsor.

**HHS ACCELERATOR**

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general

service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

**Participating NYC Agencies**

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)

DPR is seeking to evaluate and pre-qualify a list of general contractors (a "PQL") exclusively to conduct non-complex general construction site work involving the construction and reconstruction of DPR parks and playgrounds projects not exceeding \$3 million per contract ("General Construction").

By establishing contractor's qualification and experience in advance, DPR will have a pool of competent contractors from which it can draw to promptly and effectively reconstruct and construct its parks, playgrounds, beaches, gardens and green-streets. ## AGENCY RULES

### ENVIRONMENTAL PROTECTION

■ NOTICE

#### NOTICE OF ADOPTION OF FINAL RULE

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE COMMISSIONER OF THE DEPARTMENT OF ENVIRONMENTAL PROTECTION by Section 1043(c) of the City Charter and Sections 24-109(a)(17) and 24-163.12 of the Administrative Code, that the Department of Environmental Protection promulgates and adopts amendments to its rules by adding a new Chapter 50 to Title 15 of the Rules of the City of New York regarding the registration of Certain Mobile Food Vending Unit Engines. These amendments were proposed and published in the City Record on November 6, 2017, and two comments were received. A public hearing was held on December 20, 2017, and testimony was provided based upon the two submitted public comments.

#### Statement of Basis and Purpose of Rule

Local Law Number 38 for the year 2015 amends Title 24 of the Administrative Code of the City of New York by authorizing the department to promulgate rules that will require emission sources or activities not listed in Section 24-109(a)(1)-(16) to be registered with DEP.

DEP is promulgating these rules, as authorized by Section 24-109(a)(17) to reduce emissions, from mobile food vending units used to power a process device, which in the case of mobile vending units is used to preserve food. DEP will conduct public outreach to the regulated community to make all stakeholders aware of these requirements.

This rulemaking reflects DEP's determination that engines in mobile food vending units with an input of less than 50 horsepower are an emission source that must be registered with DEP.

Consistent with the above, DEP promulgates the following new Rule, to be found at 15 RCNY Chapter 50.

DEP's authority for these rules is found in the New York City Charter Section 1043 and Sections 24-109(a)(17) and 24-163.12 of the New York City Administrative Code.

New material is underlined.  
[Deleted material is in brackets.]

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

The text of the Rule follows.

Section 1. Title 15 of the Rules of the City of New York is amended by adding a new Chapter 50, to read as follows:

#### Chapter 50

#### Registration of Other Emission Sources or Activities

#### §50-01 Engines in Mobile Food Vending Units

No person shall cause or permit the installation, use, or operation of any engine in a mobile food vending unit with an input of less than 50 horsepower unless he or she has first registered the engine with the Department in accordance with the requirements of Section 24-109 of the Administrative Code.
