BOARD OF EXCISE OF THE CITY OF NEW YORK.

Report for the Fiscal Year ending April 30, 1893.

OFFICE OF THE BOARD OF EXCISE,
NEW YORK CITY, May 8, 1893.

Hon. THOMAS F. GILROY, Mayor:

SIR—The Commissioners of Excise submit to you, as the head of the municipal government, their report of the operations of the Board of Excise for the fiscal year ending April 30, 1893.

There are two kinds of excise licenses authorized by law.

First—That permitting the sale of strong and spirituous liquors, wines, ale or beer, to be drank on or off the licensed premises, of which there are four classes: hotel, restaurant, saloon and ale and beer only.

Second—That permitting such sales, not to be drank on the licensed premises, called a storekeeper's license; which is granted to grocers, druggists and wholesale and retail dealers who sell by package, bottle or measure, in quantities less than five gallons at a time.

The total number of licensed drinking places now in existence in the City and County of New York is 7,783, classified as follows:

Hotels, Class 1.....	231, license fee \$250 00
Liquors, wines, ale or beer, Class 2, Grade A.....	6,644, " 200 00
Restaurant, Class 2, Grade B.....	270, " 100 00
Ale and beer only, Class 3.....	638, " 50 00

Total number..... 7,783

In the 270 places licensed as restaurants (Class 2, Grade B) no bar is permitted, and strong and spirituous liquors, wines, ale and beer are served at table and with food only.

Of those licensed as saloons, and permitted to sell drink over a bar, about six hundred are also restaurants. Many of these are in the lower or business section of the city and are closed after business hours.

The total number of licensed drinking places, other than hotels and restaurants where drink is served only at table and with food, is 7,282.

Steamboat licenses, formerly issued by Boards of Excise, and of which 52 were issued by this Board during the year ending April 30, 1892, are, under the new Excise law, issued by the State Comptroller.

The number of places licensed to sell strong or spirituous liquors, wines, ale and beer, not to be drank on the premises, the license fee being regulated by the amount of sales per annum, in quantities less than five gallons at a time, is as follows:

Storekeepers, Class 4, Grade A.....	33, fee \$250 00
Storekeepers, Class 4, Grade B.....	18, fee 150 00
Storekeepers, Class 4, Grade C.....	42, fee 100 00
Storekeepers, Class 4, Grade D.....	1,315, fee 50 00

Total number..... 1,408

The number of licenses for drinking places of all sorts shows a marked decrease in the past six years.

It should be remembered that during the same period the population of the city has greatly increased.

Gov. David B. Hill, in a message to the Legislature, dated April 12, 1887, presented a table showing the number of licenses existing in the towns and cities of the State, in proportion to population as shown by the census of 1880. It was by that comparison proven that there were twenty cities having more licenses per capita than New York, and only six having less. The table of towns and villages shows a greater contrast.

The tables then given were as printed below:

"The following is a statement of the cities, towns and villages of the State—their population taken from the last census (1880)—the number of licenses now in force [April 1, 1887] in each city—and the number of licensed places to each thousand of inhabitants."

These tables include all the licenses issued, but the proportion of drinking places to the total number of licenses is greater in other cities than in this, because of the large number of wholesale houses here having storekeepers' licenses.

At that time there were about 8,000 drinking places in this city, the balance (765) being storekeepers. That gave for the City of New York 6.63 per 1,000 of population (census of 1880). The census of 1892 shows a population of 1,801,639. There are now licensed 7,783 drinking places. That gives for the City of New York at this time 4.32 per 1,000 of population; or one licensed drinking place, including hotels and restaurants, to each 232 of inhabitants.

When it is remembered that there is no other city in the State where the number of drinking places permitted to be licensed has been restricted in the same manner as in this city, it is certainly safe to assume that there is not now more than one city where there are less drinking places licensed in proportion to population than in the City of New York.

This result has been brought about wholly by the voluntary action of the Commissioners of Excise. There is absolutely no restriction imposed by law upon the number of licenses that may be issued.

The limitation of, and the resultant decrease in, the number of saloons licensed has been effected by the operation of the rule adopted by the Board of Excise, March 22, 1887, and strictly enforced since that time, which is as follows:

"The Board of Excise will not permit any increase in the number of saloons beyond the number now licensed; and a license will not be issued for a new place except upon the closing of an existing place and the surrender of the license thereof."

This rule does not apply to hotels or to restaurants where drink is served only at table with food; and there has been some increase, proportionate to the growth of the city, in hotels and restaurants licensed. But, notwithstanding that fact, there are in the City of New York to-day two hundred and thirty-three less drinking places licensed, including hotels and restaurants, than there were six years ago.

There has not been, heretofore, any restriction upon the number of storekeepers' licenses issued, and the increase in that kind of licenses has been largely due to the growth of the city and also, to a considerable extent, to the fact that they have been sought by liquor dealers who, because of the restrictions imposed, were debarred from obtaining saloon licenses.

The scale of license fees for storekeepers, based upon the amount of sales, in quantities less than five gallons at a time, which was adopted six years ago for the accommodation of grocers and druggists whose sales of liquors, wines, ale or beer was a very small portion of their business, has enabled persons whose sole business was to sell liquors, wines, ale or beer to obtain licenses at the minimum fee of \$50, upon statements that the amount of their sales was less than \$2,500 per annum, which statements the Commissioners are satisfied have been in many instances untrue.

The increase in the number of places established for the sale of liquor not to be drank on the premises, which has been accomplished in the way stated, would, if permitted to continue, go far toward destroying the effect of the restriction imposed upon saloons. The Board of Excise has, therefore, determined to adopt uniform license fees for storekeepers and to restrict further increase in the number of such licenses.

The number of licensed places, including all classes (hotels, restaurants, saloons and storekeepers) is, as shown by the preceding statements, 9,191; although, because it has sometimes occurred that more than one license has been issued during the year for the same place, the total number of licenses issued has been 9,487.

The total number of applications received for licenses, and for transfers of licenses, was 13,117. They are accounted for as follows:

Applications granted and licenses issued.....	9,487
Licenses transferred from place to place.....	369
Licenses transferred from person to person.....	1,333
Applications rejected and licenses refused.....	411
Applications cancelled or withdrawn.....	560
Applications still pending.....	957

Total number of applications..... 13,117

The number of applications for licenses rejected during the past year was, as above stated, 411.

A very large proportion of these were rejected upon the protest of property-owners and residents, or of clergymen and others representing churches and schools in the vicinity of places for which the licenses were sought. Such protests are made in most cases where the application is for a license for a new place and, almost without exception, in every case where the place is in the upper and recently built sections of the city.

These protests come in considerable number from those who object to the sale of liquor anywhere and who base their arguments wholly upon moral grounds, but they come largely from those who own property or reside in residential districts, and who fear that their interests will be injuriously affected by the proximity of saloons, and they are met by those whose property interests will be benefited by the licenses sought.

If licenses were refused for all new places protested against, very few would be granted, and in some parts of the city there would be none. It becomes necessary, therefore, to exercise discrimination, especially so when the places protested against are on the avenues or main thoroughfares or in business or store blocks, and in some cases it has been deemed proper to disregard the protests and grant the licenses. In every case, however, the Board has carefully considered the objections presented, and its decisions have been made with reference to public convenience and with due regard to the private interests of the objectors, as well as of those who are beneficially concerned.

As the city grows, public convenience demands the licensing of new places in the upper and newer part of the city. For every such place opened an old place in another part of the city must, under the existing rule, be closed. The result is that there is a gradual distribution of the places licensed over a larger and continually increasing area, with the effect of having diminished the number in some parts of the city by more than one-half during the past six years. The number in the lower part of the city is, nevertheless, still largely in excess, and will, doubtless, always remain so. As stated above, the proportion of licensed drinking places in the city is one to every 232 of population. But in that portion of the city below Fourteenth street it is one to every 180, while above that street it is one to every 284 of population. If the division were made at a point further up town the difference would be still greater.

Notwithstanding the decrease in the number of drinking places licensed, there has been a large increase in the revenue obtained.

The amount received for license fees during the past year was \$1,569,525, an excess of \$65,995 over the receipts during the previous year.

The largest amount ever received for Excise licenses in the city, prior to the year ending April 30, 1886, was \$663,285; or \$906,240 less than the amount received during the fiscal year just closed. This large increase of revenue is chiefly due to the action of the Board of Excise in 1887, in fixing higher rates.

The following table shows the number of licenses issued, and the amount received for license fees for the past eight years:

YEAR ENDING APRIL 30.	NUMBER OF LICENSES ISSUED.	REVENUE RECEIVED.	YEAR ENDING APRIL 30.	NUMBER OF LICENSES ISSUED.	REVENUE RECEIVED.
1886.....	9,574	\$682,345 00	1890.....	9,401	\$1,453,510 00
1887.....	9,308	781,740 00	1891.....	9,360	1,468,130 00
1888.....	9,608	1,372,040 08	1892.....	9,476	1,503,530 00
1889.....	9,204	1,416,010 00	1893.....	9,487	1,569,525 00

The Excise law enacted one year ago was a great improvement in its administrative features upon the indefinite and confused jumble of statutes it superseded, and it has been further revised and perfected by the Legislature just adjourned.

It is gratifying to be able to say that many of the recommendations made by the Board of Excise of this city in former years for the improvement of the law have been adopted by the Legislature. Among these are: the provision permitting the widow or heirs of a deceased licensee to carry on the business during the term for which the license was issued; the abolition of the requirement that a licensee must be a resident of the county in which the license is issued; the permission to issue more than one license to the same person or persons, and also to issue a license to the members of a firm jointly where the business is carried on by a copartnership; the provision that a licensee may, if permitted by the Board of Excise, assign his license to another person who may carry on the business during the term of the license; and the provision permitting the issuance of additional licenses to keep open and sell between the hours of one and five o'clock in the morning, whenever public convenience requires it. Up to the present time, however, only two such additional licenses have been issued.

We deem it proper, in closing our report, to call your attention to the fact that the business of the Board of Excise has been heretofore carried on in offices wholly inadequate to its requirements. The Board sits as a court, and during the year past held two hundred and seventy-seven trials and hearings, involving the attendance of several thousand persons, and yet it has no court-room or suitable room for that purpose. Two-thirds of its employees, whose duties require them to write in the office, are without desk room or any proper facilities for doing their work. And for the fifty thousand or more persons who have occasion to come to the office during the year, some of whom are compelled to remain for several hours at a time, there are no adequate accommodations.

With the occupation of the new offices assigned to the Board in the Court-house building in Centre street, now nearing completion, there will come a measure of relief that will make it possible to so systematize the work of the office as to greatly increase its efficiency, and enable the Board to perform its duties far more satisfactorily than has been possible heretofore.

Respectfully submitted,

WILLIAM S. ANDREWS,
LEICESTER HOLME,
WILLIAM DALTON,
Commissioners of Excise.

M., the said flour to conform to the samples exhibited and to be delivered as required during the next four months, beginning with the month of July, 1893. To be delivered in barrels only.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed, "Bid or Estimate for Flour," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

The contractor shall furnish a certificate of inspection by the Flour Inspector of the New York Produce Exchange, also an award from the Committee on Flour of the Exchange that the flour offered is equal to the standards of the Department, and which certificate shall accompany each delivery of flour, the expense of such inspection and award to be borne by the contractor, also certificate of weight and tare to be furnished with each delivery.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the supplies delivered by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition, on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine. The form of the contract, including specifications, showing the manner of payment, will be furnished at the office of the Department, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities and Correction will insist upon its absolute enforcement in every particular.

Each estimate must contain the name and place of residence
of the person making the same, the names of all persons
interested with him therein, and if no other person
be so interested it shall distinctly state that fact.
That it is made without any connection with any other
person making an estimate for the same work, and is in
all respects fair and without collusion or fraud. That no
member of the Common Council, head of a department,
chief of a bureau, deputy thereof, or clerk therein, or
other officer of the Corporation, is directly or indirectly
interested in the estimate or in the work to which it
relates or in the profits thereof.

Each estimate must be verified by the oath, in writing,
of the party making the same, that the several matters
therein stated are true, and must be accompanied by the
consent, in writing, of two householders or freeholders
in the City of New York, to the effect that if the contract
is awarded to the person making the estimate, they will,
upon its being so awarded, become bound as his sureties
for its faithful performance; and that if he shall refuse
or neglect to execute the same, they will pay to the Cor-
poration any difference between the sum to which he

the amount to be calculated upon the estimated amount
of the work by which the bids are tested.

The consent last above mentioned must be accom-
panied by the oath or affirmation, in writing, of each of the
persons signing the same, that he is a householder or
freeholder in the City of New York, and is worth the
amount of the security required for the completion of
the contract, over and above his liabilities as bail, surety,
or otherwise, and that he has offered himself as surety
in good faith, with the intention to execute the bond
required by law.

No estimate will be considered unless accompanied
by either a certified check upon one of the State or
National banks of the City of New York, drawn to the
order of the Comptroller, or money to the amount of five
per centum of the amount of the security required for
the faithful performance of the contract. Such check or
money must not be inclosed in the sealed envelope
containing the estimate, but must be handed to the
officer or clerk of the Department who has charge of the
estimate-box, and no estimate can be deposited in said
box until such check or money has been examined by
said officer or clerk and found to be correct. All such
deposits, except that of the successful bidder, will be
returned to the persons making the same within three
days after the contract is awarded. If the successful
bidder shall refuse or neglect, within five days after
notice that the contract has been awarded to him, to
execute the same, the amount of the deposit made by him
shall be forfeited and retained by the City of New York,
as liquidated damages for such neglect or refusal; but
if he shall execute the contract within the time afore-
said, the amount of the deposit will be returned to him.

The Commissioner of Street Improvements of the
Twenty-third and Twenty-fourth Wards reserves the
right to reject all bids received for any particular work
if he deems it for the best interests of the City.

Blank forms of bid or estimate, the proper envelopes
in which to inclose the same, the specifications and
agreements, and any other information desired, can be
obtained at this office.

(No. 449.)

PROPOSALS FOR ESTIMATES FOR PREPAR-
ING FOR AND BUILDING A CRIBWORK
BULKHEAD ON THE WESTERLY SIDE OF
RIKER'S ISLAND, IN THE EAST RIVER,
OR LONG ISLAND SOUND.

ESTIMATES FOR PREPARING FOR AND
building a Cribwork Bulkhead on the westerly
side of Riker's Island, in the East River, or Long
Island Sound, will be received by the Board of Com-
missioners at the head of the Department of Docks,
at the office of said Department, on Pier "A," foot of
Battery place, North river, in the City of New York,
until 11 o'clock A. M. of

TUESDAY, June 20, 1893.

at which time and place the estimates will be publicly
opened by the head of said Department. The award
of the contract, if awarded, will be made as soon as prac-
ticable after the opening of the bids.

Any person making an estimate for the work shall
furnish the same in a sealed envelope to said Board,
at said office, on or before the day and hour above
named, which envelope shall be indorsed with the name
or names of the person or persons presenting the same,
the date of its presentation and a statement of the work
to which it relates.

The bidder to whom the award is made shall give
security for the faithful performance of the contract, in
the manner prescribed and required by ordinance, in the
sum of Sixty Thousand Dollars.

The Engineer's estimate of the nature, quantities and
extent of the work is as follows:

CRIBWORK BULKHEAD.

- 1. About 3,000,000 cubic feet, more or less, of Cribwork,
complete, including Mooring-posts.
- 2. 263 Spruce, Pine or Cypress Fender Piles, about 45
feet long.
- 3. Materials for Painting and Oiling or Tarring.
- 4. Labor of every description for about 4,172 linear feet
of Cribwork Bulkhead.

N. B.—As the above-mentioned quantities, though
stated with as much accuracy as is possible, in advance,
are approximate only, bidders are required to submit
their estimates upon the following express conditions,
which shall apply to and become a part of every esti-
mate received:

1st. Bidders must satisfy themselves, by personal
examination of the location of the proposed work
and by such other means as they may prefer, as to the
accuracy of the foregoing Engineer's estimate, and shall
not, at any time after the submission of an estimate,
dispute or complain of the above statement of quantities,
nor assert that there was any misunderstanding in regard
to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire
work to the satisfaction of the Department of Docks,
and in substantial accordance with the specifications of
the contract and the plans therein referred to. No
extra compensation, beyond the amount payable for the
work before mentioned, which shall be actually per-
formed, at the price therefore, to be specified by the
lowest bidder, shall be due or payable for the entire
work.

The work to be done under the contract is to be
commenced within five days after the date of the con-
tract, and all the work contracted for is to be fully com-
pleted on or before the 1st day of December, 1893, and the
damages to be paid by the contractor for each day that
the contract may be unfulfilled after the time fixed for
the fulfillment thereof has expired, are, by a clause in
the contract determined, fixed and liquidated at Fifty
Dollars per day.

Bidders will state in their estimates a price for the
whole of the work to be done in conformity with the
approved form of agreement and the specifications
therein set forth, by which price the bids will be
tested. This price is to cover all expenses of every
kind involved in or incidental to the fulfillment of the
contract, including any claim that may arise through
delay, from any cause, in the performing of the work
thereunder. The award of the contract, if awarded,
will be made to the bidder who is the lowest for doing
the whole of the work, and whose estimate is regular in
all respects.

Bidders will distinctly write out, both in words and
in figures, the amount of their estimates for doing the
work.

The person or persons to whom the contract may be
awarded will be required to attend at this office with the
sureties offered by him or them, and execute the con-
tract within five days from the date of the service of a
notice to that effect; and in case of failure or neglect so
to do, he or they will be considered as having aban-
doned it, and as in default to the Corporation; and the
contract will be readvertised and relet, and so on until it
is accepted and executed.

Bidders are required to state in their estimates their
names and places of residence; the names of all persons
interested with them therein; and if no other person
be so interested, the estimate shall distinctly state the
fact; also, that the estimate is made without any con-
nection with any other person making an estimate for
the same work, and that it is in all respects fair, and
without collusion or fraud; and also, that no member of
the Common Council, head of a department, chief of
a bureau, deputy thereof, or clerk therein, or other
officer of the Corporation, is directly or indirectly

interested therein, or in the supplies or work to which
it relates, or in any portion of the profits thereof; which
estimate must be verified by the oath, in writing, of the
party making the estimate, that the several matters
stated therein are in all respects true. Where more
than one person is interested, it is requisite that the
verification be made and subscribed to by all the parties
interested.

Each estimate shall be accompanied by the con-
sent, in writing, of two householders or freeholders of
the City of New York, with their respective places of
business or residence, to the effect that if the contract
be awarded to the person or persons making the esti-
mate, they will, on its being so awarded, become bound
as his or their sureties for its faithful performance;
and that if said person or persons shall omit or refuse
to execute the contract, they will pay to the Cor-
poration of the City of New York any difference be-
tween the sum to which said person or persons would
be entitled upon its completion and that which said Cor-
poration may be obliged to pay to the person to whom
the contract may be awarded at any subsequent letting;
the amount in each case to be calculated upon the
estimated amount of the work to be done by which
the bids are tested. The consent above mentioned
shall be accompanied by the oath or affirmation, in
writing, of each of the persons signing the same,
that he is a householder or freeholder in the City of
New York, and is worth the amount of the security re-
quired for the completion of the contract, over and
above all his debts of every nature, and over and above
his liabilities as bail, surety and otherwise; and that he
has offered himself as surety in good faith, and with the
intention to execute the bond required by law. The
adequacy and sufficiency of the security offered will be
subject to approval by the Comptroller of the City of
New York after the award is made and prior to the sig-
ning of the contract.

No estimate will be received or considered unless
accompanied by either a certified check upon one of the
State or National banks of the City of New York, drawn
to the order of the Comptroller, or money, to the
amount of five per centum of the amount of security
required for the faithful performance of the contract.
Such check or money must not be inclosed in the sealed
envelope containing the estimate, but must be handed to
the officer or clerk of the Department who has charge
of the estimate-box; and no estimate can be deposited
in said box until such check or money has been examined
by said officer or clerk and found to be correct. All such
deposits, except that of the successful bidder, will be
returned to the persons making the same within three
days after the contract is awarded. If the successful
bidder shall refuse or neglect, within five days after
notice that the contract has been awarded to him, to
execute the same, the amount of the deposit made by him
shall be forfeited and retained by the City of New York,
as liquidated damages for such neglect or refusal; but
if he shall execute the contract within the time afore-
said, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the
specifications will be allowed, unless under the written
instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract
awarded to, any person who is in arrears to the Cor-
poration upon debt or contract, or who is a defaulter, as
surety or otherwise, upon any obligation to the Cor-
poration.

THE RIGHT TO DECLINE ALL THE ESTI-
MATES IS RESERVED IF DEEMED FOR THE
INTEREST OF THE CORPORATION OF THE
CITY OF NEW YORK.

Bidders are requested, in making their bids or esti-
mates, to use the blank prepared for that purpose by
the Department, a copy of which, together with the form
of the agreement, including specifications, and showing
the manner of payment for the work, can be obtained
upon application therefor at the office of the
Department.

the bond required by law. The adequacy and sufficiency
of the security offered will be subject to approval by the
Comptroller of the City of New York after the award
is made and prior to the signing of the contract.

No estimate will be received or considered unless ac-
companied by either a certified check upon one of the
State or National banks of the City of New York, drawn
to the order of the Comptroller, or money to the amount
of five per centum of the amount of security required
for the faithful performance of the contract. Such check
or money must not be inclosed in the sealed envelope
containing the estimate, but must be handed to the
officer or clerk of the Department who has charge of the
estimate-box, and no estimate can be deposited in said
box until such check or money has been examined by
said officer or clerk and found to be correct. All such

The party submitting a proposal, and the parties proposing to become sureties, must each write his name and place of residence on said proposal.

Two responsible and approved sureties, residents of this city, are required in all cases.

No proposal will be considered from persons whose character and antecedent dealings with the Board of Education render their responsibility doubtful.

The party submitting a proposal must include in his proposal the names of all sub-contractors, and no change will be permitted to be made in the sub-contractors named without the consent of the School Trustees and Superintendent of School Buildings.

It is required as a condition precedent to the reception or consideration of any proposals, that a certified check upon, or a certificate of deposit of, one of the State or National banks, or Trust Companies of the City of New York, drawn to the order of the President of this Board, shall accompany the proposal to an amount of not less than three per cent. of such proposal, when said proposal is for, or exceeds ten thousand dollars, and to an amount not less than five per cent. of such proposal when said proposal is for an amount under ten thousand dollars; that within five days after the decision has been rendered by the Board of Education as to whose bid has been accepted, the President of this Board will return all the deposits of checks and certificates of deposit made, to the persons making the same, except that made by the person or persons whose bid has been accepted; and that if the person or persons whose bid has been accepted shall refuse or neglect, within five days after due notice has been given that the contract is ready for execution, to execute the same, the amount of the deposit or of the check or certificate of deposit made by him or them shall be forfeited to and retained by this Board, not as a penalty, but as liquidated damages for such neglect or refusal, and shall be paid into the City Treasury to the credit of the Sinking Fund of the City of New York; but if the said person or persons whose bid has been accepted shall execute the contract within the time aforesaid, the amount of his or their deposit of check or certificate of deposit shall be returned to him or them.

NEW MUNICIPAL BUILDING COMMISSION.

PLANS FOR A MUNICIPAL BUILDING IN THE CITY OF NEW YORK.

NOTICE TO ARCHITECTS.

IN ACCORDANCE WITH THE PROVISIONS of chapter 293 of the Laws of 1890, entitled "An act to amend chapter 323 of the Laws of 1888, entitled 'An act to provide for the erection of a building for certain purposes relating to the public interests in the City of New York,' and chapter 414 of the Laws of 1892, amending the same, the Board of Commissioners hereby constituted will, until 12 o'clock M., the first day of September, 1893, receive plans and specifications for a New Municipal Building, provided for in said statutes, to be erected in the City Hall Park.

In the examination and judgment of the designs the Board of Commissioners will be assisted by a committee to be selected by the said Board from a list nominated by the New York Chapter of the American Institute of Architects and the Architectural League of New York. This committee will consist of three competent architects who do not take part in the competition.

Five equal premiums, of two thousand dollars each, shall be awarded to the authors of the designs adjudged by the Board of Commissioners to be the second, third, fourth, fifth and sixth, best, of those submitted, and the author of the designs adjudged to be the first best by the said Board of Commissioners will be appointed Architect for the construction of the building, provided his professional standing is such as to guarantee a proper discharge of his duties. He will be paid a commission on the total cost of the work, namely, five per cent. on the first \$1,000,000 of the cost, four per cent. on the second \$1,000,000 and three per cent. on the remainder.

Each set of drawings is to be accompanied by a brief specification of the materials proposed to be employed, and of the mode of construction and of heating and ventilation to be adopted, and of the manner of lighting.

An approximate estimate of the cost of the building is also to be submitted.

No plans or papers submitted are to have upon them any mark by which they can be known, but there shall be sent with them a sealed letter, addressed in type-writing, to the Mayor, giving the author's name and address. This letter will not be opened until the awards shall have been made. The drawings and papers will be known by numbers corresponding with numbers given to the letters.

The conditions under which this competition is to be conducted and the requirements of the Board are described in a paper entitled "Instructions to Architects" which may be obtained, on application, at the Comptroller's office, 280 Broadway.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonality containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage, on the line of the proposed improvement).

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of said grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.
