## **DSNY Issues ‘Winter Operations Advisory’ for Sunday, February 13th, 2022 at 12:00 a.m.**

Due to the possibility of light to moderate snow on Sunday followed by icy conditions Sunday night into Monday, the New York City Department of Sanitation has issued a Winter Operations Advisory for Sunday, February 13th, beginning at 12:00 a.m. A Winter Operations Advisory is the Department’s “lower level” winter weather message, as opposed to the “higher level” Snow Alert.

Following several days of unseasonably warm weather, a cold air mass will move in on Sunday, and periods of light to moderate snow may produce a coating of up to one inch in some areas, or slightly more on unpaved surfaces. Given the high ground temperatures, it is possible that this will melt and then refreeze overnight, leading to dangerous “black ice” conditions for the Monday morning commute.

The Department is filling salt spreaders, and more than 700 will be active across the city throughout the weather event as needed to prevent icing conditions. Liquid brine will be placed on certain roadways and protected bike lanes to limit the amount of snow accumulation. While heavier snow is not expected, the Department is prepared to deploy plows in every sector in the unlikely event of accumulations over two inches.

Open Restaurants may continue to offer outdoor and roadway dining throughout this event. Restaurants with roadway seating should be aware that DSNY equipment may spread salt on the roadway.

Residents should continue to follow their normal collection schedule for trash, compost and recycling, though delays may occur while the Department is in snow operations mode.

Alternate Side Parking regulations and parking meters will operate as normal.

The Department is coordinating with other City agencies on snow clearing protocol in accordance with each agency’s written snow plan. All relevant city agencies have been notified and the Department will continue to monitor forecasts as the snow event approaches.

All winter weather information and information about the City’s response to the storm can be found by visiting the City’s Severe Weather website at [www.nyc.gov/severeweather](http://www.nyc.gov/severeweather) or by calling 311. New Yorkers are also encouraged to sign up for Notify NYC, the City’s free emergency notification system. Through Notify NYC, New Yorkers can sign up to receive phone calls, text messages, and emails alerts about severe weather events and emergencies. To sign up for Notify NYC, call 311, visit [www.nyc.gov](http://www.nyc.gov) or follow @NotifyNYC on Twitter.

**About the New York City Department of Sanitation**

The Department of Sanitation (DSNY) keeps New York City healthy, safe and clean by collecting, recycling and disposing of waste, cleaning streets and vacant lots, and clearing snow and ice. The Department operates 59 district garages and manages a fleet of more than 2,000 rear-loading collection trucks, 450 mechanical brooms and 705 salt spreaders. The Department clears litter, snow and ice from approximately 6,500 miles of City streets and removes debris from vacant lots as well as abandoned vehicles from City streets.
