SIR—Herewith is transmitted copy of a resolution adopted on July 22, 1902, by the Local Board of the Hudson District of the Borough of Manhattan, initiating proceedings for the alteration and improvement of the sewer in Forty-seventh street between Tenth and Eleventh avenues.

The present 15-inch pipe sewer now in use has proven to be entirely inadequate for this block, which is very thickly populated, and it is proposed to substitute therefor a 3-foot 6-inch by 2-foot 4-inch brick sewer. This improvement seems to be a proper one, and favorable action upon the same is recommended.

The work includes the construction of 725 linear feet of sewer of the size above stated, together with necessary appurtenances. The estimated cost of the improvement is \$10,821.25 and the assessed valuation of the property to be benefited is \$575,100.

Respectfully,
ARTHUR S. TUTTLE, Assistant Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
August 1, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted on July 22, 1902, by the Local Board of the Harlem District, of the Borough of Manhattan, initiating proceedings for altering and improving the sewer in One Hundred and Second street at the Harlem river, the work including new curves in Marginal street.

This work will provide an outlet for the sewer in One Hundred and Second street, taking the place of an old box drain, which has become unserviceable, the discharge now being through an open trench dug in the Marginal street, occupying the entire width of the street, constituting a dangerous obstruction to traffic and requiring a watchman continually on the ground. Favorable action upon this proceeding is recommended.

The work to be done includes the construction of 160 linear feet of sewer, having an area about equivalent to a 4-inch circle in the section extending longitudinally along One Hundred and Second street, and of 3 feet 6 inches by 2 feet 4 inches in the curves in Marginal street; it also includes necessary appurtenances.

The estimated cost of this improvement is \$2,000, and the assessed valuation of the property to be benefited is \$909,000.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
August 1, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted on July 22, 1902, by the Local Board of the Washington Heights District, of the Borough of Manhattan, initiating proceedings for paving One Hundred and Fifty-ninth street, between Edgecombe and Amsterdam avenues, with asphalt blocks.

Title to this street between the limits covered by this resolution was vested in the City on April 16, 1880. The sewer and water pipes have not been laid in the very short block between Amsterdam and St. Nicholas avenues, which is included in the improvement, but there does not seem to be any reason for ever laying the same, as the needs of the district can be fully served by the existing lines on the cross streets, but 100 feet of gas main is yet required west of and immediately adjoining Edgecombe avenue.

Favorable action upon this improvement is recommended, but with the suggestion that the completion of the gas main precede the laying of the pavement.

The work to be done includes the following:

1,850 square yards of asphalt block.

310 cubic yards of concrete.

830 linear feet of new curbstone.

The estimated cost of the improvement is \$7,315 and the assessed valuation of the property to be benefited is \$145,500.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

The Commissioners of Estimate and Assessment for acquiring title to this street filed their oaths November 2, 1901.

This improvement is required for opening up the line of One Hundred and Sixty-fifth street and will consist of the construction of a footpath with steps, the grade being too steep for use as a wagon road. I would recommend that the improvement be authorized and also that a resolution be adopted vesting title in the City on October 1, 1902.

The work to be done comprises the following:

- 75 cubic yards of rubble masonry.
- 2,400 cubic yards of granite masonry.
- 1,050 linear feet of bluestone steps.
- 400 linear feet of granite coping.
- 260 square yards of asphalt pavement.
- 400 linear feet of railing, including brackets.
- 10 lampposts, complete.
- 250 linear feet of vitrified pipe.

The estimated cost of the improvement is \$11,500 and the assessed value of the property to be benefited is \$400,500.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

The following resolutions were then adopted:

Whereas, The Board of Public Improvements on the 25th day of April, 1900, adopted a resolution requesting the Corporation Counsel to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending East One Hundred and Sixty-fifth street, from Boston road to Third avenue, in the Borough of The Bronx, City of New York; and

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
August 1, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted copy of a resolution adopted on July 24, 1902, by the Local Board of the Morrisania District of the Borough of The Bronx, initiating proceedings for regulating, grading, curbing and macadamizing Adams place, between East One Hundred and Eighty-second street and Crescent avenue.

Title to this street was vested in the City June 3, 1902. These two blocks are both below the established grade. In the section between East One Hundred and Eighty-second and East One Hundred and Eighty-third streets several dwellings have been erected, and the residents are greatly inconvenienced by collection of storm water in the street. The sub-surface improvements have all been provided except in the very short block between One Hundred and Eighty-third street and Crescent avenue, where neither gas nor water pipes have been laid. The location, however, is such that there seems to be no occasion for laying them at any time, and favorable action upon this improvement is now recommended.

The work to be done includes the following:

- 310 cubic yards of earth excavation.
- 6,210 cubic yards of filling.
- 1,160 linear feet of new curbstone.
- 4,650 square feet of flagging.
- 210 square feet of bridgestone.
- 240 cubic yards of dry rubble masonry.
- 1,600 square yards of macadam.

The estimated cost of the improvement is \$7,000 and the assessed valuation of the property to be benefited is \$58,000.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

The following resolution was then adopted:

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
August 1, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted on July 9, 1902, by the Local Board of the Morrisania District, of the Borough of The Bronx, initiating proceedings for paving with asphalt on a concrete base Jefferson street, from Boston road to Franklin avenue.

Title to this street was vested in the City on November 8, 1864, by deed of cession. The street is known on the maps of the Borough of The Bronx as Jefferson place, although the resolution specifies it as Jefferson street. I understand, however, that Jefferson street is the name by which it was formerly known.

All of the sub-surface improvements have been constructed and many houses have been erected on both sides of the street. Favorable action upon this resolution is recommended.

The work to be done includes the following:

1,920 square yards of asphalt.

425 cubic yards of concrete.

The estimated cost of the improvement is \$8,700, and the assessed value of the real estate to be benefited is \$284,797.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

The following resolution was then adopted:

IN THE BOARD OF ESTIMATE AND APPORTIONMENT.

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 9th day of July, 1902, and approved by the President of the Borough of The Bronx on the 11th day of July, 1902, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"For paving with asphalt on a concrete base Jefferson street, from Boston road to Franklin avenue, in the Borough of The Bronx, City of New York,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$8,700, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$284,797, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—14.

The following communication from the President of the Borough of The Bronx and report from the Engineer were presented:

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

In accordance with section 384, chapter 466, Laws of 1901, I hereby certify that the following resolution was adopted by the Local Board of Morrisania, Twenty-fourth District, at its meeting July 24, 1902, viz:

Resolved, That proceedings be and they are hereby initiated by the Local Board of Morrisania (Twenty-fourth District) for regulating and grading, setting curbstones, flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary, East One Hundred and Seventy-seventh street, from Jerome avenue to the Grand Boulevard and Concourse, Borough of The Bronx, City of New York, in accordance with petition of Carrie E. Trask and others, duly advertised and submitted the 24th day of July, 1902, there having been presented to this Board an estimate in writing in such detail as the said Board has directed, of the cost of the proposed work or improvement, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, the estimated cost of said work being \$8,000. The assessed value of the real estate included within the probable area of assessment is \$154,050.

Resolved, That a copy of this resolution be transmitted forthwith to the said Board of Estimate and Apportionment.

Certified July 24, 1902.

LOUIS F. HAFFEN, President, Borough of The Bronx.

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
August 1, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted on July 24, 1902, by the Local Board of the Morrisania District, of the Borough of The Bronx, initiating proceedings for regulating, grading, curbing and flagging East One Hundred and Seventy-seventh street, from Jerome avenue to the Grand Boulevard and Concourse.

Title to this street was vested in the City on July 7, 1897. Although it is subjected to a large amount of traffic it has never been graded to the established lines for proper intersection with the cross streets and for the utilization of sewer basins already built for drainage. This improvement is necessary and is hereby recommended.

The work to be done includes the following:

1,000 cubic yards of excavation.

5,900 cubic yards of filling.

2,250 linear feet of new curbstone.

8,450 square feet of new flagging.

350 square feet of old flagging.

1,000 square feet of new bridgestone.

300 cubic yards of dry rubble masonry.

The estimated cost of the improvement is \$8,000, and the assessed valuation of the property to be benefited is \$154,050.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

SIR—Herewith is transmitted a copy of a resolution adopted on July 24, 1902, by the Local Board of the Morrisania District, of the Borough of The Bronx, initiating proceedings for the construction of sewers in East One Hundred and Ninety-first street, between Hughes avenue and Hoffman street and in Hoffman street, between East One Hundred and Ninety-first street and Pelham avenue.

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
August 2, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted on June 12, 1902, by the Local Board of the Bushwick District of the Borough of Brooklyn, initiating proceedings for regulating, grading and curbing Jerome street, between Jamaica avenue and Glenmore avenue, and for laying cement sidewalks.

This street was declared open by the town of New Lots, between Atlantic avenue and Glenmore avenue on March 28, 1868. The establishment of legal title in the City is also further evidenced by the affidavits presented with the resolution and made by Elizabeth T. Smith, of No. 102 Jerome street, and John C. Smith, of No. 108 Jerome street; these affidavits are on the form prescribed by the Corporation Counsel and have his approval.

It is proposed to pave the street with asphalt after the grading has been completed, and favorable action upon the resolution transmitted is recommended.

The work to be done comprises:

- 3,000 cubic yards of grading.
- 6,240 linear feet of cement curb.
- 32,000 square feet of cement walk.

The estimated cost of the improvement is \$10,600, and the assessed valuation of the property to be benefited is \$132,400.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

The following resolution was then adopted:

IN THE BOARD OF ESTIMATE AND APPORTIONMENT.

A copy of a resolution of the Local Board of the Bushwick District, duly adopted by said Board on the 12th day of June, 1902, and approved by the President of the Borough of Brooklyn on the 23d day of June, 1902, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, after hearing had this 12th day of June, 1902, hereby determines to initiate proceedings to regulate and grade Jerome street, between Jamaica avenue and Glenmore avenue, in the Borough of Brooklyn, and to set or reset cement curb, lay crosswalks, pave gutters and pave or repave with cement sidewalks of said street where not already done."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$10,600; and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$132,400, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of The Bronx, President of the Borough of Queens and the President of the Borough of Richmond—14.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted on June 12, 1902, by the Local Board of the Bushwick District, of the Borough of Brooklyn, initiating proceedings for opening Glenmore avenue, between Eldert's lane and City line. There is a technical error in this resolution and the same should read, "between Eldert's lane and the County line." I would therefore recommend that it be returned to the Local Board for amendment in this particular, and would also suggest that inasmuch as a petition has been received from the Local Board of the Jamaica District, of the Borough of Queens, to open Glenmore avenue for a short distance east of the County line, that a joint meeting of the Bushwick and Jamaica Local Boards be called, so that the Glenmore avenue opening proceedings in both boroughs may be taken up as one.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Inclosures:

As the opening of the street described in the above resolution is required in order that a sewer may be constructed therein, I request that title be vested in the City upon the filing of the oaths of the Commissioners of Estimate and Assessment.

SIR—Herewith is transmitted a copy of a resolution adopted on June 12, 1902, by the Local Board of the Bushwick District, of the Borough of Brooklyn, initiating proceedings for opening Livonia avenue between Alabama avenue and Williams avenue.

This opening is required for the purpose of constructing a sewer and covers only one short block. Sewers have been built in adjoining blocks under easement, title not having been secured to Livonia avenue at any part of its length.

I would recommend that the resolution be returned to the Local Board with the suggestion that an easement be obtained if possible, or that, if opening proceedings are required, the same should be extended to cover a longer distance.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

SIR—Herewith is transmitted a copy of a resolution adopted by the Local Board of the Bushwick District of the Borough of Brooklyn on June 12, 1902, initiating proceedings for regulating, grading, curbing and flagging Glen street, between Railroad avenue and Euclid avenue.

There is no record to show that title to this street has been legally acquired by the City, but affidavits are submitted with the resolution from Robert L. Kay, of No. 76 Glen street, and Charles Infanger, of No. 90 Glen street, showing that the street has been dedicated to the City, and that there has been an acceptance of the same; these affidavits have been submitted to and approved by the Corporation Counsel.

All of the subsurface improvements have been constructed with the exception of the water main between Crescent and Railroad avenues, but this has recently been placed under contract. I would therefore recommend favorable action upon the petition.

The work to be done comprises:

2,400 cubic yards of grading.

2,030 linear feet of bluestone curb.

10,000 square feet of sidewalk.

The estimated cost of this improvement is \$4,800 and the assessed valuation of the property to be benefited is \$18,700.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted on July 17, 1902, by the Local Board of the Bushwick District, of the Borough of Brooklyn, initiating proceedings for regulating, grading and curbing Cleveland street, between Arlington and Atlantic avenues, and for laying cement sidewalk.

There is no record of this street ever having been legally opened, but affidavits of Dr. Frank S. Senior, of No. 248 Arlington avenue, and Henry Hass, of No. 2959 Fulton street, are submitted with the resolution and show that there has been a dedication of the street to public use and acceptance of the same by the City; these affidavits have been submitted to and received the approval of the Corporation Counsel. All of the subsurface improvements have been constructed, and the improvement now petitioned for precedes the construction of an asphalt pavement, the proceedings for authorizing which have already been initiated by the Local Board.

There seems to be an error in the estimated cost of the work, the sidewalk not having been provided for. I would therefore recommend that the resolution be returned to the Local Board to be amended in this particular.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

Hon. SETH LOW, New York City:

DEAR SIR—It is with disgust that I learn that the sewer in New York avenue, between Avenues C and D (Borough of Brooklyn), is about to be rejected. We have tried to obtain this sewer with former Borough President Grout, we are trying with the present administration, and it seems that we will have to try again with some future administration. New York avenue, between Avenues C and D, in which the sewer is wanted, and New York avenue, between Avenue D and Newkirk avenue, and Newkirk avenue, between Nostrand avenue and New York avenue, through which the outlet sewers will run, all contain water and gas mains, have gas lamps and fire hydrants erected along curb, buildings are erected along the line of these streets and on Newkirk avenue the Board of Education has erected a large school, which recently had a sewer connection made with a sewer further west, through which the refuse of the cesspool is supposed to be pumped every day. Maps have been filed by the Germania Real Estate Company, in 1892, showing our streets, and our streets are shown from the first edition, in January, 1895, on the Land Map of Kings County, issued by the Register of Kings County. The streets through which this sewer and its outlets are to pass are open in every sense except that they have never been legally declared open. On this technical point our sewer is held up by the Board of Estimate. Former Corporation Counsel Whalen, and, I understand, the present Corporation Counsel, claim such streets are legally open without any legal proceedings. I have submitted a number of affidavits to Commissioner William C. Redfield, and I beg your Honor to again have our sewer petition called up in the Board of Estimate and Apportionment before this body adjourns and allow us this sewer. The sewer petition was passed by the Flatbush Board on February 20, 1902.

To avoid all discussion as to New York avenue being an open street I filed with the Borough President, in the latter part of January, a petition to open New York avenue, between Avenue C and Newkirk avenue. After unnecessary delay in the Borough President's office it passed the Flatbush Board on March 26, 1902. Then, after more delay, it passed the Board of Estimate and Apportionment on May 9, 1902. On May 16 the Topographical Bureau received instructions to make a so-called "rule map" so that the local Corporation Counsel can make application for a street opening commission. At this writing the Corporation Counsel is waiting for the necessary documents, which are not forthcoming. Have I no redress? Must I submit to this delay? Can you not, as our Mayor, compel the local Topographical Bureau to get out this rule map and not allow our petition to be held up in this fashion?

I cannot comprehend why it is such a hard matter to obtain proper sewerage. I am certain in a large city like this it is absolutely essential. Three cases of typhoid have appeared directly alongside of our water plant. What will prevent it being drawn into our drinking water? Does our Board of Health send competent men to thoroughly disinfect the human offal of persons having contagious diseases, or does it allow it to filter through the cesspool? Ever since the folly of our consolidation with the Greater New York to the saying of "Anarchy is a social evil," may be added "The government of The City of New York, with its 'red tape,' is a social evil." In former years we could obtain an improvement or else knew who was to blame, but nowadays a taxpayer has to go from one department to another, and from one borough to another and generally winds up without obtaining the desired information. Our local improvements should be absolutely controlled by local boards, and we should not be compelled to ask a disinterested New Yorker.

Yours truly,
ALBERT KUELLING.

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
August 2, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted on February 20, 1902, by the Local Board of the Flatbush District of the Borough of Brooklyn initiating proceedings for constructing a sewer in New York avenue, between Avenues C and D, and outlet sewers in New York avenue, between Avenue D and Newkirk avenue; and in Newkirk avenue, between New York and Nostrand avenues, and in Nostrand avenue, between Newkirk avenue and Avenue F.

On March 20 last a report was submitted to you by the Chief Engineer concerning this improvement and recommending favorable action upon the same, but calling attention to the imperfect evidence of proper title of the City to Newkirk and Nostrand avenues. The resolution was subsequently referred back to this office, to be withheld until sufficient evidence of dedication could be obtained.

There have just been received the affidavits of W. F. Branagan, executor of the estate of B. Branagan, residing at Nostrand avenue near Avenue F, and of John Mahoney, residing at Nostrand avenue, corner of Avenue F, setting forth evidence to establish a sufficient dedication of Nostrand avenue between the Twenty-ninth Ward line and Flatbush avenue to the City and acceptance thereof; also affidavits of John Frederick Dreyer, residing at No. 1564 Flatbush avenue, and Daniel J. Convery, residing at the corner of New York and Newkirk avenues, showing a dedication of Newkirk avenue, between New York and Nostrand avenues, to public use and the acceptance thereof by the City. These affidavits are on the form prescribed by the Corporation Counsel and meet with his approval. There seems to be no reason why this improvement should not now be authorized and favorable action upon the same is recommended.

For the sewer in New York avenue, between Avenues C and D, the work comprises:

- 812 linear feet of 12-inch pipe sewer.
 - 9 manholes.
 - 2 receiving basins and appurtenances.
- For outlet sewers the work comprises:
- 1,350 linear feet of 48-inch brick sewer.
 - 790 linear feet of 36-inch brick sewer.
 - 50 linear feet of 18-inch pipe sewer.
 - 300 linear feet of 15-inch pipe sewer.
 - 18 manholes.
 - 7 receiving basins and appurtenances.

The estimated cost of the sewer in New York avenue, between Avenues C and D, is \$2,000, and the assessed valuation of the property to be benefited is \$27,430. The estimated cost of the outlet sewers is \$14,600 and the assessed valuation of the real estate to be benefited is \$843,735.

Respectfully,
A. S. TUTTLE, Assistant Engineer.

Thereupon the following resolutions were adopted:

Whereas, The Board of Public Improvements on the 22d day of May, 1901, adopted a resolution requesting the Corporation Counsel to acquire title, whenever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending New York avenue, from Malbone street to Church avenue, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment has received written notice from the Corporation Counsel that Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said New York avenue, from Malbone street to Church avenue, and that the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 8th day of January, 1902; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the first day of October, 1902, the title to each and every piece or parcel of land lying within the lines of said New York avenue, from Malbone street to Church avenue, in the Borough of Brooklyn, City of New York, so required, shall be vested in The City of New York.

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$16,600; and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$871,165, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted August 1, 1902, by the Local Board of the Morrisania District of the Borough of The Bronx, initiating proceedings for the construction of receiving basins, with connections, etc., at the following places on Washington avenue:

On the southeast corner of East One Hundred and Sixty-first street and Washington avenue; north side of East One Hundred and Sixty-first street, east of bridge over the Port Morris branch of the New York and Harlem Railroad; south side of East One Hundred and Sixty-first street, east of bridge over the Port Morris branch of the New York and Harlem Railroad; northeast corner of Brook avenue and Washington avenue; southwest corner of East One Hundred and Sixty-fourth street and Washington avenue; southwest corner of East One Hundred and Sixty-fifth street and Washington avenue; northwest corner of East One Hundred and Sixty-sixth street and Washington avenue; southwest corner of East One Hundred and Seventy-first street and Washington avenue; southeast corner of East One Hundred and Seventy-first street and Washington avenue; northeast corner of East One Hundred and Seventy-first street and Washington avenue; northwest corner of East One Hundred and Seventy-sixth street and Washington avenue; northeast corner of East One Hundred and Seventy-sixth street and Washington avenue; southeast corner of East One Hundred and Eighty-first street and Washington avenue; southwest corner of East One Hundred and Eighty-second street (N.) and Washington avenue; southeast corner of East One Hundred and Eighty-second street (N.) and Washington avenue; southeast corner of East One Hundred and Eighty-third street and Washington avenue; southeast corner of East One Hundred and Eighty-fourth street and Washington avenue; east side of Washington avenue, opposite East One Hundred and Eighty-fifth street; southeast corner of East One Hundred and Eighty-sixth street and Washington avenue, and northeast corner of East One Hundred and Eighty-sixth street and Washington avenue.

These basins are included in the approved sewerage and drainage plans for the district, and were not built when the sewers were originally constructed, owing to the fact that Washington avenue had not been graded. Asphalt pavement has been authorized on this street and bids are now being called for. Prior to the laying of pavement, however, the basins should be constructed, and favorable action is recommended on this resolution.

The work to be done comprises:

525 linear feet of 12-inch pipe culvert.

20 receiving basins.

25 cubic yards of rock excavation.

5 cubic yards of concrete.

5 cubic yards of broken stone.

1,000 feet B. M. lumber.

The estimated cost of this improvement is \$4,180 and the assessed valuation of the property to be benefited is \$962,550.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

In the Matter

of

The application of the Mayor, Aldermen and Commonalty of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the purpose of opening St. Paul's place.

To the Honorable the Board of Estimate and Apportionment:

The undersigned, owners of property within the area of assessment in the above-entitled proceeding, respectfully show as follows:

That St. Paul's place, between Webster and Third avenues, is purely a local street, being laid out at a width of sixty (60) feet.

Between Third and Fulton avenues, however, it has been laid out at a width of one hundred (100) feet. An inspection of the map will clearly show that the street has been laid out at such additional width for the purpose of making a proper and slightly approach to the southwesterly corner of Crotona Park.

The cost of this additional land is upwards of twenty thousand dollars (\$20,000), or nearly one-third of the entire cost of property acquired in this proceeding, exclusive of buildings.

The said street was not laid out on the maps of The City of New York at the request of the property owners, but, on the contrary, against their wishes and in spite of their earnest protests.

The street being clearly in the nature of a parkway, the improvement inures to the benefit, not so much of the adjacent landowners as to the population of this section at large. It is consequently a hardship and an injustice to levy the entire cost of this proceeding upon the property owners within the area of assessment.

The cost occasioned by the additional width of the street should be borne ultimately by the citizens at large of this locality, inasmuch as the benefit derived from this improvement is not confined to the adjacent land owners, but accrues to the entire population of this City.

Wherefore, your petitioners pray that the resolution heretofore passed by the Board of Street Openings, which provided that the entire cost of said improvement be assessed locally, be amended so that one-third thereof may become a City charge and the remaining two-thirds made payable by the property within the area of assessment.

Attorney for Elizabeth Burbert.

LAW DEPARTMENT, OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, August 1, 1902.

Matter
of
Regrading and repaving Varick avenue, between Metropolitan and Flushing avenues, in the Borough of Brooklyn.

To the Board of Estimate and Apportionment:

GENTLEMEN—I have received a letter from your Secretary, dated July 24, 1902, inclosing a resolution of your Board for the regrading and repaving of Varick avenue, with granite block pavement, between Metropolitan avenue and Flushing avenue, in the Borough of Brooklyn.

Another letter from your Secretary, dated June 10, 1902, in the same matter, had been received, but there was an error in the copy of the resolution and the second letter was written in order to forward the corrected form of the resolution.

In the former letter I was requested to advise you whether the resolution was in proper shape, and it is upon that question, as I understand it, that my opinion is still desired. The copy of the extract from the minutes of the Board of Estimate and Apportionment is as follows:

"A copy of a resolution of the Local Board of the Bushwick District, duly adopted by said Board on the 4th day of March, 1902, and approved by the President of the Borough of Brooklyn on the 10th day of March, 1902, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, after hearing had this 4th day of March, 1902, hereby determines to initiate proceedings to regrade and repave Varick avenue, with granite block pavement, between Metropolitan avenue and Flushing avenue, in the Borough of Brooklyn, and to set or reset curb and lay crosswalks of said street, where not already done, two-thirds of the cost of said improvement to be borne by The City of New York and one-third to be assessed on the property benefited, as petitioned for by a majority of the property owners on the line of the proposed improvement."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$30,500; and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$343,000, having also been presented, it is

"Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized. And this Board does hereby determine that two-thirds of the cost and expense thereof shall be borne and paid by The City of New York, and that one-third of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement."

The resolution does not indicate out of what fund the payment of the \$30,500 is to be made, but I presume that in the ordinary course of business in the Finance Department the expenditure under any such resolution as the foregoing would be paid out of the Street Improvement Fund. This result would, I think, be unfortunate and perhaps contrary to law. The Street Improvement Fund is a trust fund, and in general only such moneys can be legally paid therefrom as it is expected will be returned through assessments. Repavement of streets should be paid for by the City either out of annual taxes or out of repavement bonds issued for that particular purpose.

It is, of course, advisable that if the property owners are willing to pay any part of the cost of the repavement they shall be encouraged to do so, but I do not think that object can legally and properly be attained under the resolution adopted.

I would suggest that the matter be put in such shape that so much of the cost as is not met by assessments on the abutting property should be charged against the funds provided by the City for repavement within the Borough of Brooklyn.

This will necessitate the rescinding, or at least the amending, of the resolution. I shall be happy to prepare a new resolution in accordance with the views of the Board if so desired.

I may add that I have very considerable doubt as to whether an assessment laid against the abutting property can be successfully collected. The petition of the property owners seems to have been made in 1900. It is perhaps questionable whether a petition presented to the former Board of Public Improvements and not acted on by them is now valid as a basis of action by the present Board of Estimate and Apportionment under the present Charter. And it will be observed that the petition was for the regrading and repaving of the street with granite blocks while the resolution of your Board adds other things, namely, the setting or resetting of the curb and laying of crosswalks.

Respectfully yours,
G. L. RIVES, Corporation Counsel.

The following resolution was then adopted:

IN THE BOARD OF ESTIMATE AND APPORTIONMENT.

August 4, 1902.

Resolved, That the resolution adopted by this Board on May 26, 1902, providing for the regrading and repaving of Varick avenue, between Metropolitan avenue and Flushing avenue, Borough of Brooklyn, be, and the same hereby is amended to read as follows:

"A copy of a resolution of the Local Board of the Bushwick District, duly adopted by said Board on the 4th day of March, 1902, and approved by the President of the Borough of Brooklyn on the 10th day of March, 1902, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE, CITY HALL,
August 4, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a copy of a resolution adopted on August 2, 1902, by the Local Board of the Washington Heights District of the Borough of Manhattan initiating proceedings for paving the roadway of St. Nicholas avenue, from One Hundred and Twenty-fourth street to One Hundred and Fifty-fifth street, with asphalt blocks or bituminous macadam.

Title to this street was acquired by the City in May, 1869, and all of the subsurface improvements have been constructed. St. Nicholas avenue has been paved with a thin layer of macadam between One Hundred and Tenth and One Hundred and Fifty-fifth streets for maintenance purposes, the work having been paid for by the City. Below One Hundred and Twenty-fourth street the roadway is in exceedingly bad condition, deep ruts having been worn in the same; above One Hundred and Twenty-fourth street the roadway is in better condition than below, but extensive repairs are needed or a new pavement is required.

The use to which this avenue is subjected, and the extensive growth along its length warrant a more substantial pavement than the one now in use, and favorable action upon the improvement covered by the resolution is recommended.

A resolution has also been passed by the Local Board providing for improving St. Nicholas avenue below One Hundred and Twenty-fourth street, but pending the receipt of an opinion from the Corporation Counsel concerning the liability of the Railroad Company operating on this portion of the avenue for defraying a portion of the assessment no report can be presented.

The work to be done comprises:

For an asphalt block pavement—

55,000 square yards of asphalt block.
150 square yards of stone to relay in approaches.
6,875 cubic yards of concrete.
3,500 linear feet of new curbstone.
11,400 linear feet of old curb to be reset.
5 noiseless manhole covers.

For a bituminous macadam pavement—

55,000 square yards of bituminous macadam.
150 square yards of stone to relay in approaches.
3,500 linear feet of new curbstone.
11,400 linear feet of old curb to be reset.
5 noiseless manhole covers.

The estimated cost of this improvement, if either form of pavement be used, is \$160,293 and the assessed value of the property to be benefited is \$6,682,700.

Respectfully,

ARTHUR S. TUTTLE, Assistant Engineer.

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, August 2, 1902.

Joseph Richards

against

Seth Low and others, composing the Board of Estimate and Apportionment. And six other actions.

To the Board of Estimate and Apportionment:

GENTLEMEN—I beg to inform you that the motions for injunctions during the pendency of the actions referred to above have been denied and the temporary injunctions or stays vacated. The questions involved were argued before Mr. Justice Giege-rich, who has decided the controversy on the merits, holding that the Board of Estimate and Apportionment has power to review the action of the Board of Public Improvements in imposing a large part of the cost of certain street opening proceedings upon The City of New York.

The plaintiffs and the improvements are as follows:

Joseph Richards—East One Hundred and Sixty-second street.
John O. Baker (No. 1)—West One Hundred and Thirty-fifth street.
John O. Baker (No. 2)—West One Hundred and Seventieth street.
William A. C. Dougherty—Edgewater road.
Home for Incurables—Quarry road and Belmont place.
Robert H. M. Ferguson and others—Exterior street.
Catherine M. Andrews—Spofford avenue.

Orders have been entered in each of these cases denying the motion for the injunction and vacating the stay.

There is nothing of which I am aware to prevent the Board of Estimate and Apportionment from taking such action in the premises as it may deem proper.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

BOARD OF ELECTIONS.

Meeting of the Board of Elections, held Monday, September 15, 1902, at 12 o'clock noon.

Present—Commissioners Voorhis, Page, Maguire and Dady.

On motion, the reading of the minutes of the previous meeting was dispensed with. The following communications were received, viz.:

From his Honor the Mayor, dated September 11, 1901, requesting that copies of any replies the Board might have received from companies manufacturing ballot machines based upon the resolution of the Board of Estimate and Apportionment be transmitted to him on or before the 12th instant. Compiled with and filed.

From George E. Burr, No. 144 Fulton street, New York City, dated September 11, 1902, asking for information in regard to the Inspectors of Election and the manner of making independent nominations, etc. Filed.

From William J. Moran, Assistant Secretary, office of the Mayor, dated September 11, 1902, acknowledging communication of recent date, containing estimates of the Board for the year 1903. Filed.

From Thomas J. Bannon, attorney for the relator, dated September 11, 1902, demanding that the name of John J. Martin, signed to a transfer enrollment blank and purported to reside at No. 2027 Lexington avenue, of the Eighth Election District of the Thirty-fourth Assembly District, be stricken from the book of transfers on the ground that the same is a forgery and a fraud, etc. Also a similar demand as to the name of A. Jones. The President stated that since the receipt of above communication he had been served with an order to show cause. Communication filed.

From James W. Pryor, Secretary of the City Club, No. 19 West Thirty-fourth street, dated September 10, 1902, asking for a copy of each map of the Assembly,

Senatorial and Congressional Districts within The City of New York. Request complied with. Filed.

A petition from The Bronx, originally sent to the County Clerk, and by him forwarded, numerous signed, was submitted (without date), to have the primary election held at Woodlawn instead of Bedford Park, as proposed. Filed.

Supplemental sheets of election officers to fill vacancies were submitted from the Chief Clerk of the branch office in the Borough of Manhattan.

The Board thereupon

Resolved, That the persons named in said lists be selected and appointed as Inspectors of Election (as therein specified) in the several election districts and assembly districts named, in the place and stead of those previously selected, approved and appointed, who have resigned, failed to qualify, etc.

That said lists be ordered on file, and the Chief Clerk of said borough be directed to cause the necessary notices to be issued to said persons, and qualify them according to law.

A similar resolution was passed as to lists from the boroughs of The Bronx, Brooklyn and Queens.

The President reported that he had been served with several writs of mandamus directing that certain names be stricken from (as also to write certain names in) enrollment books, which writs had been complied with, as far as possible, and return to that effect had been made by him to the Corporation Counsel; that as to the particular writ requiring that certain names be written in the enrollment books, six of said names had been written therein before the receipt of the writ; that as to the name of Rupert L. Joseph, said name was enrolled on said books, as a Republican, by virtue of a special enrollment filed by said Joseph; that in the case of Robert Corrigan, Robert Corrigan, Jr., and William Emerson, their names did not appear on the registry books for the year 1901 of the election districts in which it is claimed they reside, as is required by law should be the case prior to their enrollment; that no enrollment certificate has been filed with this Board in the case of Ernst Roeber, of No. 966 Sixth avenue; and that all of said facts had been stated in a communication to the Counsel for the Corporation, dated the 11th inst., transmitted with the copies, affidavits and orders to show cause in said cases; that no appearance on behalf of this Board had been made in said cases, and that, therefore, he had requested the Counsel to the Corporation, on the 13th inst., to make opposition to the issuance of the writs in question.

The action of the President was thereupon approved by the Board.

The Board then adjourned to Tuesday, September 16, 1902, at noon.

That said lists be ordered on file, and the Chief Clerks of said boroughs be directed to cause the necessary notices to be issued to said persons in their respective boroughs, and qualify them according to law.

The President reported that on the 15th inst. an oral protest had been made to him against John McGowan serving as an Inspector of Election, for the reason that in 1885, as appears upon a certificate from the Clerk of the Court of General Sessions, said McGowan had been convicted by confession of a misdemeanor. Certificate filed.

A protest was received, signed by Richard Irving Leech, protesting against Victor A. Mayer and H. R. Mennecke serving as Inspectors of Election in the Twelfth Election District of the Fourth Assembly District, County of Kings, on the ground that their names appear upon the legal ballot of the Republican party in said district, thus, as claimed, disqualifying said Mayer and said Mennecke from serving in said district. BOARD OF ELECTIONS.

Meeting of the Board of Elections held Thursday, September 25, 1902, at 12 o'clock noon.

Present—Commissioners Voorhis, Page and Maguire.

The minutes of the meetings of the Board on August 27, 29, September 2, 3, 5 and 8 were read and approved.

A hearing was had, as per notice duly given, in the matter of the charges preferred by Chief Clerk Baxter, Borough of Manhattan, against Emanuel A. Flammer, Max Busick, Republican Election Inspectors in the Eleventh Election District of the Seventeenth Assembly District, Borough of Manhattan, and James G. Campion and Isidor Anhalt, Republican Election Inspectors in the Twelfth Election District of

said Assembly District, upon the charge of having violated the Primary Election law, while acting as such officers at the last primary election in the Sixth Primary District, by receiving and counting the vote of one Alonzo Carney, who was not an enrolled voter or member of the Republican party in said district. Mr. Joseph H. Radigan appeared on behalf of Emanuel A. Flammer, who was present in person, as were likewise Max Busick, James G. Campion and Isidor Anhalt, and the police officer who at said primary election was on duty at said Primary District and had also been cited to appear.

The charge and specifications were read to the accused Election Inspectors by the President, who were then given an opportunity to disprove the same.

Mr. Radigan admitted, as counsel for said Emanuel A. Flammer, the commission of the act charged, claiming that owing to the confusion existing at the time in the polling place said Carney's vote had been received in error.

Max Busick made a similar explanation.

Election Inspector Campion stated that he and Election Inspector Anhalt handled the books of the Twelfth Election District, while the other Inspectors handled the books of the Eleventh Election District—had exclusive charge each of the books of their own respective Election Districts—and that he himself did not see the inside of the books of the Eleventh Election District.

Election Inspector Anhalt also made a statement similar to that of Mr. Campion. The police officer who was stationed at said polling place on Primary Day stated he did not take notice of the occurrence complained of.

The accused were informed that the Board would at a later day communicate to them its decision on the charge.

The following communications were received, viz.:

From William J. Moran, Assistant Secretary, office of the Mayor, dated the 18th, acknowledging receipt of a communication sent by the President of the Board on the 17th. Filed.

From the Municipal Civil Service Commission, dated the 20th inst., giving information as to the action of said Commission, etc., regarding the classification of four additional Clerks. Filed.

The President stated that on the 22d inst. he had been served with a copy petition and order of Supreme Court restraining the Board of Elections from certifying and delivering the roll of delegates elected to choose delegates to the Democratic State Convention, in the Thirty-fourth Assembly District, County of New York, and that on the following day he was served with a certified copy order and notice of entry, issued by said Court in said matter, vacating the former order. Filed.

Further communications were as follows, viz.:

From P. J. Saloschin, dated September 17, 1902, protesting against the vote cast in and the delivery of credentials from the Eighth Primary District, Borough of Manhattan, etc. Filed.

From John C. Wait, Acting Corporation Counsel, dated September 20, 1902, in relation to the proposed form of contract for official and sample ballots for the coming general election. Filed.

The Board thereupon ordered that upon the approval of said form by the Corporation Counsel bids be invited according to law for furnishing such ballots, to be opened on October 8, 1902, at 12 o'clock noon, and that the usual notification be given to the Comptroller.

Lists of persons to be selected and appointed to serve as election officers were received from the Chief Clerk, Borough of Manhattan; whereupon the Board by the usual resolution duly appointed said persons as election officers in the districts and as specified in said lists.

The payrolls of the Board of Elections for the month of September, 1902, as below specified, were approved and ordered to be forwarded to the Municipal Civil Service Commission, thence to be transmitted to the Comptroller for payment, viz.:

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICES TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to The City.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done. Plans and drawings of construction work may also be seen there.
