This contract made this \_\_\_\_\_ day of \_\_\_\_\_, 1909, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the New York and North Shore Traction Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a street surface railway with the necessary wires and equipment, for the purpose of conveying persons and property in the Borough of Queens, in The City of New York, upon the portion of the following routes which lies within streets or avenues to which the City has title for street purposes:

Beginning at a point where the boundary line between The City of New York and the County of Nassau intersects Broadway in the Borough of Queens; thence in and upon Broadway to the easterly side of Bell avenue, in the former Village of Bayside;

Also beginning at the intersection of Broadway and Tenth street, in the former Village of Bayside, and there connecting with the above-described route on Broadway; thence in and upon Tenth street to an unnamed street; thence in and upon said unnamed street to Bayside boulevard; thence in and upon Bayside boulevard to Ashburton avenue; thence in and upon Ashburton avenue to Chambers street; thence in and upon Chambers street to Crocheron avenue; thence in and upon Crocheron avenue to Twenty-third street; thence in and upon Twenty-third street to State street; thence in and upon State street to Thirteenth street; thence in and upon Thirteenth street to Chestnut street; thence in and upon Chestnut street, across Murray street, Murray lane, and continuing in and upon private property in line of the prolongation of Chestnut street, to Chestnut street at Flushing place; and thence still in and upon Chestnut street to Whitestone avenue; thence in and upon Whitestone avenue to State street; thence in and upon State street to Farrington street; the railway upon all of said route to be of double track; thence by a single track continuing in and upon State street from Farrington street to Prince street; thence in and upon Prince street to Broadway; thence in and upon Broadway to Farrington street; thence in and upon Farrington street to State street, and there connecting with the double track above described; all in the Borough of Queens, City of New York.

The said routes, with switches and cross-overs, are shown upon two maps, each of which is entitled "Map showing proposed street surface railway of the New York and North Shore Traction Company, in the Borough of Queens, to accompany petition

for a franchise in the Board of Estimate and Apportionment, dated June 11, 1908," and signed by John J. Stanley, President, and Charles H. Clark, Consulting Engineer; copies of which maps are attached hereto, are to be deemed a part of this contract, are to be construed with the text thereof, and are to be substantially followed, provided that deviations therefrom and additional turnouts, switches and cross-overs which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within six months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within one month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company for the term of twenty-five (25) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall in any event be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for this privilege the following sums of money:

(a) The sum of seven thousand dollars (\$7,000) in cash within four (4) months after the date on which this contract is signed by the Mayor, and before anything is done to exercise the privilege hereby granted.

(b) During the first term of five years an annual sum which shall in no case be less than two thousand two hundred dollars (\$2,200), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of two thousand two hundred dollars (\$2,200).

During the second term of five years an annual sum which shall in no case be less than four thousand dollars (\$4,000), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of four thousand dollars (\$4,000).

During the third term of five years an annual sum which shall in no case be less than four thousand five hundred dollars (\$4,500), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of four thousand five hundred dollars (\$4,500).

During the fourth term of five years an annual sum which shall in no case be less than five thousand five hundred dollars (\$5,500), and which shall be equal to six (6) per cent. of its gross annual receipts, if such percentage shall exceed the sum of five thousand five hundred dollars (\$5,500).

During the remaining term of five years an annual sum which shall in no case be less than six thousand two hundred dollars (\$6,200) and which shall be equal to six (6) per cent. of its gross annual receipts if such percentage shall exceed the sum of six thousand two hundred dollars (\$6,200).

The gross receipts mentioned above shall be the gross earnings of the Company from all sources within the limits of the City. The payment of such minimum sums shall begin from the date on which this contract is signed by the Mayor.

All such sums as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding.

Whenever such percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid to the said Comptroller on or before November 1 in each year for the year ending September 30 next preceding. The fiscal year shall end on September 30 next preceding said date of payment, and provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the manner of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract, shall be strictly complied with.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or by any law of the State of New York.

Fourth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets, avenues and highways shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this grant, as above, the City (by the Board) shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets, avenues and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The annual charges or payment shall continue throughout the whole term of this contract, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payments for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee

or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions over the same streets, avenues or highways.

The use of said railway which shall be constructed by the Company under this contract, including the tracks, wires and other equipment, or any structures in public streets and avenues owned by the Company and used in connection therewith, shall be permitted by the Company to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways for street railway purposes, for a distance not exceeding six thousand (6,000) feet of street, upon payment of an annual sum by such individual or corporation to the Company, which shall be equal to the legal interest on such proportion of the whole cost of the construction of such railway and structures and of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract, in connection with the maintenance or the operation of the said railway so used. Provided, however, that if in the opinion of the Company the legal rate of interest of the cost of such railway shall be an insufficient sum to pay for the use of such tracks, it may appeal to the Board, and the Board may fix a percentage of the cost to be paid to the Company at a sum in excess of the legal rate of interest, if in its opinion such action is justified.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company pursuant to this contract.

Eighth—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Queens, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Provided, however, that the Board, at any time after the first ten years of this contract, upon giving to the grantee one year's notice, may require the Company to operate its railway upon the whole or upon any portion of its route by underground electric power substantially similar to the system now in use on the street surface railways in the Borough of Manhattan, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets, avenues and highways of the City.

Ninth—Upon six months' notice by the Board to the Company all wires for the transmission of power, except trolley wires, for the operation of the railway, upon all or any portion of the route hereby authorized, shall be placed in conduits beneath or alongside of the railway. The Company shall provide in such conduits two ducts not less than three inches in diameter for the exclusive use of the City. Such ducts shall be used only by the Company for the operation of its railway and by the City, as above.

Tenth—The Company shall commence construction of the railway herein authorized within six months from the date upon which the consents of the property owners are obtained, or from the date upon which the decision of the Appellate Division of the Supreme Court that such railway ought to be constructed is rendered in lieu of such consents, and shall complete the construction and place the same in full operation within eighteen months from the date of obtaining such consents or such decision, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Eleventh—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

Twelfth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Thirteenth—The rate of fare for any passenger upon such railway shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on said railway, or a line or branch operated in connection therewith, to any point thereof, or of any connecting line or branch thereof, within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fourteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars, cars for the transportation of express matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

Fifteenth—Cars on the said railway shall run at intervals of not more than thirty minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board. Provided, however, that the Company, during the first five years of this contract, shall not be required to operate its cars between the hours of 1 o'clock a. m. and 5 o'clock a. m., each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Sixteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Seventeenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Eighteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall cause

to be watered at least three times every twenty-four hours when the temperature is above thirty-five degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed 60 feet between curb lines, in which case the Company shall cause to be watered only 60 feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Nineteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Twentieth—The Company shall at all times keep the streets, avenues or highways upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the President of the Borough of Queens, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-first—As long as said railway, or any portion thereof, remains in any street, avenue or highway the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And the City shall have the right to change the material or character of the pavement of any street, avenue or highway, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-second—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-third—Before any construction shall be commenced upon any portion of the route, written permits shall be obtained from the President of the Borough of Queens, and the Commissioner of Water Supply, Gas and Electricity, and the Company shall comply with any conditions which these officials may impose, as a condition upon which such permit is granted, provided such conditions are imposed for the purpose of protecting the structures over which those officials have jurisdiction.

Twenty-fourth—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in a manner as directed by the President of the Borough of Queens.

Twenty-fifth—Should, in the opinion of the President of the Borough of Queens, the present roadway on any of said streets, avenues or highways be of insufficient width to accommodate both railway and other vehicular traffic, the Company shall widen such roadway under the direction of the President of the Borough of Queens to a width sufficient to accommodate such traffic, provided that no roadway shall be widened beyond the total width of the street, avenue or highway.

Twenty-sixth—Should, in the opinion of the Board at any time before or during construction of the railway, any of said streets, avenues or highways be of insufficient width to accommodate both railway and other vehicular traffic, the Company shall either construct and operate its railway upon a private right of way outside of the lines of such streets, avenues or highways, or shall purchase and cede to the City a strip of land adjacent thereto, for the purpose of widening the same to a width sufficient for the use of a street surface railway and for the accommodation of other vehicular traffic. If such street, avenue or highway is so widened, the Company shall grade the roadway thereon as directed by the President of the Borough of Queens.

Twenty-seventh—Where the bridges, viaducts or culverts encountered in the route are of insufficient width to carry the roadway as the same may be widened, as herein provided, or of insufficient strength to bear the additional load of a street surface railway, the Company shall either carry its tracks upon new structures independent of the existing ones, so as not to interfere with the present and future use by the City of such bridges, viaducts or culverts, or shall, without cost to the City, construct new bridges, viaducts or culverts sufficiently wide to carry the roadway as the same may be widened, as herein provided.

Twenty-eighth—The Company agrees to comply with any and all the rules which may be made by the Commissioner of Water Supply, Gas and Electricity for the purpose of preventing the destruction of the pipes or structures in the street by electrolysis, which may be caused by the electric current used by the Company, whether such rules affect the method of the original construction of said railway or any reconstruction, maintenance or repairs upon such railway at any time during the term of this contract.

Twenty-ninth—The Company hereby agrees that if the City is or shall become entitled to acquire, and shall at any time during the term of this contract acquire, or otherwise come into possession of any of the property on which this Company shall construct railway tracks, on the route herein described, no compensation shall be awarded for the right to have railway tracks thereon.

Thirtieth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, or at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Thirty-first—The Company shall at all times keep accurate books of account of the gross earnings from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross earnings, the total miles in operation and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Thirty-second—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Thirty-third—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Thirty-fourth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-fifth—This grant is upon the express condition that the Company, within four (4) months after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of ten thousand dollars (\$10,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railway, and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the headway, heating and lighting of cars, fenders, wheel-guards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel-guards, in case of the violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its President, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars (\$10,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-sixth—The grant of this privilege is subject to whatever right, title or interests the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Thirty-seventh—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered, at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-eighth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This grant is also upon the further and express condition that the provisions of the Railroad Law, applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railways operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.

Report No. F-141.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
January 5, 1909.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In accordance with the resolution adopted by the Board of Estimate and Apportionment on December 11, 1908, a public hearing is to be given on January 8, 1909, upon the application of the New York and Queens County Railway Company for a franchise to build and operate an extension of its lines on Debevoise avenue, or Second avenue, between Pierce and Jackson avenues, in the Borough of Queens. The construction of this railroad is dependent upon an adjustment of the grade of Second avenue, at its intersection with Jackson avenue, and the physical work of changing this grade is now in progress. The General Solicitor of the company has advised the Board that the company cannot build this extension until the change in the grade shall have been physically carried out, and it is therefore suggested that after the public hearing on January 8 the matter be referred back to the Chief Engineer of the Board for further report, when the necessary change in grade shall have been carried out.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,  
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,  
January 4, 1909.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—At a meeting of the Board of Estimate and Apportionment held December 11, 1908, a petition was received from the New York and Queens County Railway Company requesting the grant of a franchise to construct, maintain and operate a double track street surface railway as an extension to its existing lines in the Borough of Queens, upon Debevoise or Second avenue, between Pierce and Jackson avenues.

The petition was referred to the Chief Engineer, and a resolution was adopted fixing January 8, 1909, as the date for the preliminary public hearing.

The General Solicitor of the Company in a communication under date of December 26, 1908, replying to an inquiry from this Division, stated:

"The company cannot construct this extension until Second avenue has been raised to the established grade at and near its junction with Jackson avenue."

It appears that bids were received and opened by the President of the Borough of Queens on August 25, 1908, "for regulating, grading, curbing, \* \* \* and repaving with granite block pavement on a sand foundation the roadway of Jackson avenue and intersecting streets, from Skillman avenue to Kapelle avenue."

A contract for the above work was subsequently let and executed on November 23, 1908. Work under this contract began about December 15, 1908, and is now being carried on, about one-half of the grading of Jackson avenue having been completed. The time allowed for completing this work under the terms of the contract was ninety working days. I am informed by the Queens Borough authorities that the date for the completion of this work is uncertain and depends upon whether the Fire Department will consent to this portion of Jackson avenue being temporarily closed. Should such consent not be obtained it will be necessary to wait until spring in order to complete the work.

It was my intention to have prepared a report and form of contract for the grant of the franchise on Second avenue in time for the public hearing of January 8, 1909, but in view of the attitude of the Company and the existing physical conditions at the intersection of Jackson and Second avenues, the preparation of such report and contract has been delayed.

It is therefore recommended that at the close of the public hearing on January 8, the matter be referred back to the Chief Engineer for consultation with the representatives of the Company. The report and form of contract will be completed at the earliest possible date and presented to the Board as soon as it can be ascertained when the physical conditions will be such that this extension, should the Board grant the right to construct the same, can be constructed.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The matter was thereupon referred back to the Chief Engineer.

#### Proposed Amendments to Charter and Rapid Transit Law.

In the matter of the communication from the Chairman of the New York Charter Commission, appointed pursuant to chapter 114 of the Laws of 1908:

This communication was presented to the Board at its meeting of October 16, 1908, and was referred to the Chief Engineer.

At the meeting of December 11, 1908, a report was received from the Engineer in charge of the Division of Franchises in the Chief Engineer, in answer to the aforesaid communication, making certain recommendations and suggestions in regard to the time limitations of franchises, contracts and leases to railroads, and other public utility corporations, made pursuant to the Charter and the Rapid Transit Law, and the consideration of said report was made a special order for the meeting of December 18, 1908, when a supplemental report was received from the Engineer in charge of the Division of Franchises to the Chief Engineer, and consideration was postponed until this day.

The Secretary presented the following:

THE CITY OF NEW YORK,  
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,  
BROOKLYN, December 23, 1908.

The Honorable the Board of Estimate and Apportionment, City Hall, New York.

GENTLEMEN—There is pending before the Board a form of resolution submitted by the Chief Engineer upon a report of Mr. Harry P. Nichols, Chief Engineer in charge of the Franchise Division of the Board, making certain recommendations to the Charter Revision Commission with relation to the subject of franchises.

I have examined these recommendations, and they, for the most part, seem to be in the public interest.

In addition to the recommendations suggested by the Engineer, however, there is one which seems to me all important, and which I believe should be strongly urged upon the Charter Revision Commission, and this is the introduction into our law of the non-exclusive franchise principle. The precedent theretofore has been established in the case of the Livingston street franchise in the Borough of Brooklyn.

It is hardly necessary to call your attention to the fact that the exclusive franchise system has been our Pandora's box of municipal evils. It has given to railroad corporations not only the reasonable use of the street for the purposes of their being, but complete control over the City's thoroughfares, thus enabling them to shut out competition and to make the discomfort and danger of the traveling public the bases for scandalous excess stock flotations.

The principle that the highways belong to the public is so thoroughly established as to make a discussion of it at this time ridiculous. It seems absurd, therefore, for the City to retain only the title of ownership and turn all the essentials thereof over to a corporation which does not require them for the execution of the purposes of its creation.

All that a railroad company needs in order to afford to the public a transportation service is the use of a portion of the street, and it is folly for a municipality to assume that in giving such use to a railroad company it must exclude itself and all other railroad companies from the enjoyment of a thoroughly consistent use of the same thoroughfare. The sensible and practical way is for the City, in framing its franchise contract, to grant only the right to make a proper use of the streets through which the proposed railroad is to run, reserving the right to make a similar use thereof for its own purposes or grant similar rights to other railroad companies up to the limit of capacity. This would mitigate to a great extent the evil effects of a monopolistic control of the City's railway rights. It would impose an automatic and effective check upon the exploitation of city railroad corporations and at the same time would save the public interest by making the furnishing of good transportation service more profitable than the manipulation of transportation company stocks. I would therefore recommend the amendment of the form of resolution proposed by the Chief Engineer by the inclusion therein of the following recommendation:

"That the new charter provide that no franchise for the construction or operation of any transportation line be hereafter granted by the competent board or official of The City of New York which shall grant exclusive rights to the use of any of the streets, parks, public lands, public places or bridges of said city to any railroad corporation whatsoever."

I have included bridges in this recommendation because it seems to me that the reasoning I have applied to the subject generally applies with particular force to the use of public bridges. The City has expended millions of dollars in the construction of these great highways across the East River and the control thereof is a very precious prize to the traction interests. Its loss would be a serious disadvantage to the City and the nation with it would be an inexcusable blunder on the part of any City Board. The bridges were built to be used to their full capacity, and the power of determination of the limit of that capacity should always remain with the City.

Yours very truly,

BIRD S. COLER, President, Borough of Brooklyn.

Action was deferred pending the arrival of the Comptroller, when the matter was considered and the amendment proposed by the President of the Borough of Brooklyn was lost by the following vote:

Affirmative—The President of the Borough of Brooklyn—2

Negative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Queens and the Acting Presidents of the Boroughs of The Bronx and Richmond—12

Present and Not Voting—The President of the Borough of Manhattan—2.

The following was offered:

Whereas, At the meeting of October 16, 1908, a communication was received from the Chairman of the New York Charter Commission wherein questions were addressed to this Board as follows:

First—"Should the provision with regard to tunnel roads providing for the grant of perpetual franchises be repealed?"

Second—"Should the term of other grants be for a longer period than now provided by the Charter and Rapid Transit Law, and, if so, for what period?"

—which communication was referred to the Chief Engineer; and

Whereas, At the meeting of December 11, 1908, a report was received from the Engineer in charge of the Division of Franchises to the Chief Engineer with regard to the time limitation of franchises, contracts and leases to railroads and other public utility corporations, made pursuant to the City Charter and the Rapid Transit Law, together with proposed amendments thereto; and

Whereas, The consideration of the suggestions and recommendations contained in said report was made a special order for the meeting of this Board on December 18, 1908, when consideration was postponed until January 8, 1909; and

Whereas, After due consideration, this Board approves the suggestions and recommendations contained in the aforesaid report; now therefore be it

Resolved, That the New York Charter Commission be and it is hereby advised as follows:

Authority should be vested in the Public Service Commission to issue certificates, subject to the approval of the Board of Estimate and Apportionment, to railroads described in section 32 of the Rapid Transit Act for a longer term than that now specified in either the Rapid Transit Law or the City Charter.

In view of the fact that such railroads will be used merely as connections between trunk line railroads, whose franchises do not appear to be limited as to time, there are sufficient grounds for the granting of a long term franchise. The term should in any event be sufficient to enable the companies to see their way clear to finance the proposition in providing for a sinking fund to cover the cost of the road, together with operating charges and a fair rate of interest on the money actually invested. As there may be a decided difference of opinion as to what can or cannot be financed, the term should be sufficiently long to permit of a fair latitude to the Public Service Commission to fix terms and conditions as the circumstances may at the time require, taking into consideration the purpose for which the railroad is to be used.

As to Section 73 of the Charter.

First—

(a) The tunnel railroads referred to should be more definitely defined, so as not to conflict with those specifically defined in the Rapid Transit Law, and terms of grant increased from fifty years original term and one renewal of twenty-five years to fifty years original term with two renewal terms not exceeding twenty-five years each.

In any event authority should be given to the Board of Estimate and Apportionment by the Charter to grant franchises for tunnel railroads other than those described in Rapid Transit Act.

(b) The provision as to compensation should be changed from the basis of percentage of the net receipts to the basis of percentage of the gross receipts.

Second—The provision in regard to the terms of grants to general utility corporations appears to be satisfactory, and, therefore, needs no change.

Third—

(a) The provision in regard to leases of the property in the street and plant and appurtenances where the same reverts to the City without compensation at the end of the grant does not appear to need any change.

(b) The provision in regard to leases of property where the same in the streets reverts to the City without cost and the plant and appurtenances are purchased by the City at the end of grant should be made more definite, and the maximum term of such leases fixed at ten years original term with one ten-year renewal.

Fourth—The provision in regard to the property in the streets reverting to the City without cost and the purchasing of the plant and appurtenances not within the streets should be made more clear.

Fifth—This section should be amended so that the principle laid down by the Legislature and expressed in section 71 of the Charter shall apply to all grants of a public character, whether made pursuant to the Charter or the Rapid Transit Law.

As to Section 242 of the Charter.

This section should be amended so as to authorize the Board to grant what are known as revocable consents for periods not exceeding ten years.

As to Section 32 of the Rapid Transit Law.

The provision which apparently gives permission to grant franchises in perpetuity should be repealed, and authority be given to the Public Service Commission, as successor to the former Board of Rapid Transit Railroad Commissioners, upon approval of the Board of Estimate and Apportionment to make the grant described in this section for a term not exceeding two hundred years, with provision for readjustment of compensation at intervals not exceeding twenty-five years each.

As to Section 32A of the Rapid Transit Law.

First—This section should be redrawn so as to remove the apparent conflicting authority of the Public Service Commission and the Board of Estimate and Apportionment in this section and sections 73 and 242 of the Charter.

Second—If this section is redrawn to apply only to what are commonly known as rapid transit railroads, then it should also provide that such railroads shall not be constructed upon the surface of any street.

Third—If the section should be redrawn to apply to rapid transit railroads which shall be constructed above or below the surface of the streets, then it appears that the maximum term of grant prescribed is not sufficient and should be increased in order to give the Public Service Commission sufficient discretion in fixing the term of grant for such franchises.

As to Sections 34, 34A and 34B of the Rapid Transit Law.

First—The provision which limits the term of contract for the construction, equipment and operation, where the contractor furnishes the equipment at his expense, to twenty years, with a renewal of twenty years, should be changed to give the Public Service Commission the privilege of fixing such limits within a period of fifty years original term and one twenty-five-year renewal term.

Second—The provision in regard to the maximum term of lease of rapid transit railroads constructed and equipped at the expense of the City should be changed from the maximum of ten-year original term, with one ten-year renewal, to give the Public Service Commission the discretion in fixing such terms within a maximum of ten-year original term and two ten-year renewal terms.

As to Section 34F of the Rapid Transit Law.

There seems to be no objection to the maximum term of grant fixed by this section.

As to Section 38A of the Rapid Transit Law.

This section should be repealed, as it appears to be obsolete, but if the same is not repealed some limitation should be placed on the term of grant therein provided for; and be it further

Resolved, That the Secretary of this Board be and he hereby is directed to forward a copy of the report herein mentioned and a copy of these resolutions to the Chairman of the New York Charter Commission.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan and Queens and the Acting Presidents of the Boroughs of The Bronx and Richmond—14.

Negative—The President of the Borough of Brooklyn—2.

*Long Island Railroad Company, for itself and as Lessee of the New York, Brooklyn and Manhattan Beach Railway Company.*

In the matter of the application of the Long Island Railroad Company, for itself and as lessee of the New York, Brooklyn and Manhattan Beach Railway Company, requesting certain amendments to the agreement, with respect to a relocation and change of grade in the tracks of the Manhattan Beach Division of the last-named Company, from Avenue M to a point south of Emmons (or Neptune) avenue, Borough of Brooklyn.

At the meeting of December 18, 1908, reports were received from the Select Committee to which this matter had been referred, and from the Chief Engineer, which reports were adopted and the Chief Engineer directed to prepare resolutions in accordance therewith.

The Secretary presented the following:

REPORT NO. F-25.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
January 5, 1909.

Hon. GEORGE R. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—On December 18, 1908, reports were presented to the Board of Estimate and Apportionment from the Select Committee to which was referred the question of a freight yard to be established by the Long Island Railroad Company at Avenue I and East Sixteenth street, in the Borough of Brooklyn, and also a report from the Chief Engineer of the Board relative to a modification in the agreement authorized by the Board on June 7, 1907, relating to a change in the location of the tracks of the Manhattan Beach Division of the Long Island Railroad. Both of these reports were approved by the Board, but as it was not known that they were to be presented until the meeting of the Board had been called to order, the necessary resolutions, which are somewhat complicated, had not been prepared for adoption. Resolutions rescinding the former contract and approving the new one have been meanwhile prepared and are herewith submitted for adoption by the Board.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,  
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,  
January 4, 1909.

Mr. NELSON P. LEWIS, Chief Engineer:

Sir—At the meeting of the Board of Estimate and Apportionment held December 18, 1908, a report was received from the Select Committee to which was referred, at the meeting of March 6, 1908, the matter of the establishment of a freight yard by the Long Island Railroad Company at Avenue I and East Sixteenth and East Seventeenth streets, as was also a report from yourself on the application of the Long Island Railroad Company, for itself and as lessee of the New York, Brooklyn and Manhattan Beach Railway Company, requesting certain amendments to the agreement with respect to a relocation and change of grade in the tracks of the Manhattan Beach Division of the last named Company, which was authorized by resolution adopted by the Board June 7, 1907, and approved by the Mayor June 11, 1907.

The reports presented at the meeting of December 18, 1908, recommended that the petition of the railroad company for certain amendments be granted, and the report from the Select Committee recommended that an additional provision be added to the agreement requiring the railroad company to plant and maintain at or above the grade of adjoining streets, a sufficient barrier of trees and shrubbery on the easterly side of the proposed freight yard or terminal, from the northerly side of Avenue I to the westerly curb line of East Eighteenth street, so as to form a barrier or screen.

The reports were adopted by the Board and the matter was then referred to the Chief Engineer to prepare a resolution rescinding the resolution of June 7, 1907, and also prepare a contract in accordance with the recommendation contained in the said reports.

I have caused the proper resolutions to be prepared and am transmitting the same herewith.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, By resolution adopted by the Board of Estimate and Apportionment June 7, 1907, approved by the Mayor June 11, 1907, the Long Island Railroad Company, for itself and as lessee of the New York, Brooklyn and Manhattan Beach Railway Company, was granted the right to relocate and change the grade of the tracks of the Manhattan Beach Division of the New York, Brooklyn and Manhattan Beach Railway, from Avenue M to a point south of Emmons (or Neptune) avenue, Borough of Brooklyn; and

Whereas, At the meeting of January 10, 1908, a joint petition, dated December 31, 1907, was received from said railroad companies, requesting certain amendments to the form of agreement required to be executed by the aforesaid resolution; and

Whereas, At the same meeting a petition was received from the Flatbush Board of Trade transmitting resolutions adopted by that body protesting against the establishment of a freight yard at Avenue I and East Sixteenth and East Seventeenth streets by the Long Island Railroad Company; and

Whereas, Public hearings were had on the aforesaid petitions January 24, 1908, and March 6, 1908; and

Whereas, At the meeting of January 24, 1908, the petition of the railroad companies was referred to the Chief Engineer; and

Whereas, At the meeting of March 6, 1908, the protest of the Flatbush Board of Trade was referred to a Select Committee, consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Brooklyn; and

Whereas, At the meeting held December 18, 1908, reports were received from the aforesaid Select Committee and from the Chief Engineer of this Board, recommending among other things that the resolution adopted by this Board June 7, 1907, and approved by the Mayor June 11, 1907, be rescinded, which reports were adopted; now therefore be it

Resolved, That the aforesaid resolution adopted by this Board June 7, 1907, and approved by the Mayor June 11, 1907, consenting to a relocation and change of grade of the tracks of the Manhattan Beach Division of the New York, Brooklyn and Manhattan Beach Railway from Avenue M to a point south of Emmons (or Neptune) avenue, Borough of Brooklyn, be and it hereby is rescinded.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and Queens and the Acting Presidents of the Boroughs of The Bronx and Richmond—16.

The following was offered:

Whereas, The New York, Brooklyn and Manhattan Beach Railway Company, the Long Island Railroad Company and the Brooklyn Grade Crossing Commission have petitioned the Board of Estimate and Apportionment under date of January 12, 1906, for the consent of said Board to a relocation and change of grade of the tracks of the Manhattan Beach Division of the New York, Brooklyn and Manhattan Beach Railway Company (leased to the Long Island Railroad Company) as fully set forth in said petition, and

Whereas, This Board has made inquiry as to the proposed relocation and change of grade of the said tracks of the said company, and has reached the conclusion that such relocation and change are desirable and in the public interest; now, therefore, it is

Resolved, That the Board of Estimate and Apportionment hereby consents to a relocation and change of grade in the tracks of the Manhattan Beach Division of the New York, Brooklyn and Manhattan Beach Railway Company, as fully set forth and described in the following form of proposed agreement for the granting thereof, subject to the terms and conditions in said proposed form of agreement contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such agreement in the name and on behalf of The City of New York, as follows, to wit:

This agreement, made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 1909, by and between the New York, Brooklyn and Manhattan Beach Railway Company, a steam surface railroad corporation, organized and existing under and by virtue of the laws of the State of New York (hereinafter termed the Manhattan Beach), party of the first part, the Long Island Railroad Company, a steam surface railroad corporation, organized and existing under and by virtue of the laws of the State of New York (hereinafter termed the Long Island), party of the second part, and The City of New York, a municipal corporation, organized and existing under and by virtue of the laws of the State of New York (hereinafter termed the City), party of the third part.

Whereas, The Brooklyn Union Elevated Railroad Company and the Manhattan Beach Division of the Manhattan Beach leased to the Long Island have each been operating a steam surface railroad running parallel with each other and separated by a distance of only two blocks between Avenue M and a point south of Neptune avenue, in the Borough of Brooklyn, City of New York; and

Whereas, By chapter 507 of the Laws of 1903 and the acts amendatory thereof, these railroads were required to elevate their tracks so that all the intersecting streets and highways could be carried beneath them; and

Whereas, By section 1 of said act, as amended by chapter 589 of the Laws of 1905, it was provided that if in the judgment of the Brooklyn Grade Crossing Commission created by said act such relocation should be for the public interests, the Manhattan Beach, or its lessee, the Long Island, after acquiring the right to so relocate its line, shall remove the said railroad from its present location between Avenue M and a point south of Emmons or Neptune avenue, and shall reconstruct the same between the said points upon such grades as the said Commission shall determine upon a right of way acquired by said corporation, or one of them, adjacent to and easterly of the present right of way of the Brooklyn Union Elevated Railroad Company between said points, and shall carry all intersecting streets and highways between said points beneath said railroad so to be located; and

Whereas, By said act it was further provided that whenever any structure was located in any public street or avenue the approval of the Commissioner of Public Works of the Borough of Brooklyn as to the location of such structure shall be first obtained; and

Whereas, The said Commission on the 24th day of March, 1905, determined that it was for the public interest that the location provided for in said act of a portion of the railroad of the Manhattan Beach, known as the Manhattan Beach Division, should

be made by that Company and its lessee, the Long Island, so that such tracks should be placed alongside of and easterly of the right of way of the Brooklyn Union Elevated Railroad Company between the points hereinbefore mentioned, so that a single embankment should carry the tracks of both companies and the public inconvenience of having two parallel railroad embankments only two blocks apart bisecting this portion of the Borough of Brooklyn should be avoided; and

Whereas, The said Commission thereupon caused a plan and profile designating specifically the relocation of the tracks, which plan was entitled "Brooklyn Grade Crossing Commission; Joint Plan and Profile of Section No. 3 of the Bay Ridge Improvement and Section 3 of the Brighton Beach Improvement, also showing change of location of the New York, Brooklyn and Manhattan Beach Railroad," bearing date the 14th day of December, 1905, and approved by said Commission on the 22d day of December, 1905; and

Whereas, On the 29th of December, 1905, said Commission duly adopted and transmitted to the Manhattan Beach and its lessee, the Long Island, a resolution wherein were recited the facts hereinbefore stated and whereunto was annexed a copy of the map and profile hereinbefore mentioned; and

Whereas, The Commissioner of Public Works of the Borough of Brooklyn duly approved said plans and profile and the same were duly filed in the office of the City Clerk of The City of New York; and

Whereas, On the 16th day of February, 1906, the said Commission, the Long Island and the Manhattan Beach presented to the Board of Estimate and Apportionment, pursuant to section 13 of the Railroad Law, a petition dated the 12th day of January, 1906, requesting the consent of said Board to said change and relocation, which petition recited all the facts hereinbefore stated; and

Whereas, On the 21st day of December, 1906, the said Board of Estimate and Apportionment adopted a resolution that the plan approved by the said Grade Crossing Commission on the 22d day of December, 1905, be amended so as to provide that the legal grade of all streets intersecting the lines of the proposed railroad embankments be shown upon the map for adoption, giving in every case a minimum clearance of 14 feet from the proposed surface of such streets to the underside of the track girders, except where conditions at Avenues J and K necessitate some reduction in this clear headroom of 14 feet; and

Whereas, The said Commission has prepared an amended plan and profile entitled "Brooklyn Grade Crossing Commission, Amended Joint Plan and Profile of Section No. 3 of the Bay Ridge Improvement and Section No. 3 of the Brighton Beach Improvement, also showing change of location of the New York, Brooklyn and Manhattan Beach Railway," dated December 27, 1906, and which was approved by said Commission the 28th day of December, 1906; and

Whereas, Conformably with a resolution of the Board of Estimate and Apportionment on the 15th day of March, 1907, the map or plan submitted by the Brooklyn Grade Crossing Commission was returned to such Commission with a copy of the recommendations of the Select Committee of said Board of Estimate and Apportionment, so that said map or plan be corrected and then approved by the Commissioner of Public Works of the Borough of Brooklyn; and

Whereas, Thereafter and on the 23d day of March, 1907, said map or plan was revised and approved by said Brooklyn Grade Crossing Commission and approved by the Commissioner of Public Works of the Borough of Brooklyn, and such map or plan, as so revised, was filed in the office of the City Clerk of The City of New York; and

Whereas, By resolution adopted by the Board of Estimate and Apportionment June 7, 1907, approved by the Mayor June 11, 1907, the City consented to the relocation and reconstruction of the tracks of the Manhattan Beach leased to the Long Island, from Avenue M, to a point south of Emmons or Neptune avenue, subject to certain terms and conditions fully set forth and described in the form of agreement contained in said resolution; and

Whereas, The Manhattan Beach and the Long Island failed to execute and deliver said agreement; and

Whereas, The Manhattan Beach and the Long Island, in a joint petition, dated December 31, 1907, which was presented to the Board of Estimate and Apportionment on January 10, 1908, requested that the aforesaid agreement be amended in certain particulars; and

Whereas, At the meeting of the Board of Estimate and Apportionment held December 18, 1908, reports were received from the Select Committee and from the Chief Engineer of said Board, recommending that the resolution adopted June 7, 1907, and approved by the Mayor June 11, 1907, be rescinded and that the suggestions of the railroad companies be incorporated in a new form of agreement, which reports were adopted; now, therefore, this agreement witnesseth:

That in consideration of the premises, the City consents to the relocation and reconstruction of the tracks of the Manhattan Beach, leased to the Long Island, from Avenue M to a point south of Emmons or Neptune avenue, in accordance with the said amended plan and profile last above mentioned, and the said Manhattan Beach and Long Island, in consideration of the premises and of the consent of The City, hereby covenant and agree as follows:

First—That railroad bridges be provided at Avenues J, K and L, Locust avenue, Chestnut avenue, Elm avenue, Avenues N, O and P, Kings highway (100-foot span), Avenues R, S, T, U and V, Neck road (not less than 50 feet span), Avenue Y, Shore road and Neptune avenue, and that a foot bridge of ample width be provided over the railroad tracks at East Eighteenth street, between Avenues J and I, and that the expense of providing such bridges shall be charged to the original improvement or "joint account."

Second—That all highway crossings or bridges have a clearance of fourteen (14) feet, with the exception of Avenues J and K, on account of local conditions, and when it is necessary to lower the grade of the street or avenue to secure such headroom such depression shall not exceed four (4) feet.

Third—(a) That all bridge abutments shall be built within the house lines of the streets or avenues, except where abutments of the Brighton Beach Railroad are already built on streets not opened, that is, on Avenues S, T and V, at which streets the abutments shall continue on the same line;

(b) No column shall be placed in streets where the span is less than seventy-five (75) feet, except on these unopened Avenues S, T and V, where the Brighton Beach abutments and column foundations are already built;

(c) That the slope of the embankment along the westerly side of East Sixteenth street shall not exceed seven (7) feet beyond the westerly line of said street, and a concrete curb preventing further encroachment of the said embankment shall be constructed along and within the said strip of seven feet in width where the said street is open or improved, which curb shall be at least ten (10) inches wide and twenty-four (24) inches deep. No construction of any kind except as above mentioned and the necessary retaining walls at intersecting streets shall extend beyond the westerly line of the said East Sixteenth street. On the westerly side of said curb a wood fence at least five feet in height shall be erected at the expense of the Manhattan Beach Company. The above slope, curb and fence to be constructed to the satisfaction of the Borough President before the Brooklyn Grade Crossing Commission finally accepts the work. Additional curb or fences to be constructed or maintained on those portions of the street which may be opened or improved in the future.

Fourth—That simultaneously with the execution and delivery of this instrument, the said Manhattan Beach and the said Long Island will convey to The City, free from all incumbrances and without cost, all their right, title and interest in and to the land occupied by the present right-of-way, which is about to be abandoned, between Avenue M and Neck road, and between the northerly lines of Avenue Z and the southerly line of Voorhees avenue, and the westerly line of East Fifteenth street, except where such right-of-way is to be used as an approach to the new station at Sheepshead Bay, wherever such land lies within the limits of any street or highway now opened or laid down upon the land map of Kings County; and also the land lying in East Seventeenth street, south of Avenue I, to provide a connection between the roadways of East Seventeenth street and Avenue I of at least thirty (30) feet. The deed to the said premises so to be conveyed by the said Manhattan Beach and the said Long Island Company shall be delivered by them to the Comptroller of The City of New York in escrow, but shall not, however, take effect until the relocation and reconstruction of the tracks of the Manhattan Beach, leased to the Long Island, from Avenue M to a point south of Emmons or Neptune avenue, in accordance with the said amended plan and profile hereinbefore mentioned, shall have been completed so that the said railroads can operate their cars over the same, and until such completion the said railroads shall be authorized to continue to occupy the lands occupied

by the present right-of-way which are to be conveyed by them to the City, as hereinabove provided.

Fifth—That the said Manhattan Beach and the said Long Island will give their consent upon demand to the opening by the City of any street, at any time in the future, across the right of way of the Manhattan Beach, between First avenue, at or near Sixty-fifth street, and the boundary line between the Boroughs of Queens and Brooklyn, or its Manhattan Beach Branch Division, between Avenue M and a point south of Neptune avenue, and will convey to the City easement to construct and maintain such streets across the present or proposed right of way, without cost to the City, subject to the right of such railroads to operate over such right of way.

Sixth—The said Manhattan Beach and the said Long Island agree to hold the City free and harmless of and from any and all liability arising from damage to persons or property, which may result from the construction, maintenance or operation of the said railroads as relocated.

Seventh—That the said Manhattan Beach and the said Long Island will convey to the City as an addition to its existing athletic field (situated between Avenues K and L and the centre line of East Sixteenth street, which street has been closed between such avenues and Seventeenth street) so much of the westerly half of East Sixteenth street, between Avenues K and L as extends from its centre to the eastern edge of its western courtyard line. Such conveyance to be made as soon as the relocation and construction of the tracks of the said railroads have been completed and cars are operating over the same.

Eighth—That the said Manhattan Beach and the said Long Island will convey or cause to be conveyed to the City title to the bed of East Sixteenth street, as laid down on the City map, from the northerly side of Neck road to the southerly side of Avenue S, from the northerly side of Avenue R to the southerly side of Kings highway, from the northerly side of Locust avenue to the southerly side of Avenue L, and from the northerly side of Avenue K to the southerly side of Avenue J, wherever the bed of said street is owned or controlled by the Manhattan Beach or the Long Island between the points above mentioned.

Ninth—That the said Manhattan Beach and the Long Island agree, immediately after the execution of this agreement, to plant and maintain at or above the grade of adjoining streets a sufficient barrier of trees and shrubbery on the easterly side of the proposed freight yard or terminal, from the northerly side of Avenue J to the southerly side of Avenue I, and from the northerly side of Avenue I to the westerly curb line of East Righteighth street, said trees and shrubbery to be of such variety and quantity to form a sufficient barrier or screen within the term of three years from the execution of this agreement to serve the purposes intended to the satisfaction of the President of the Borough of Brooklyn, all to be maintained so long as the property so bounded or shown on the map of the Brooklyn Grade Crossing Commission, No. 764, dated March 26, 1907, is used for freight or storage purposes by the said parties of the first part and the said parties of the second part, their assignees or assigns.

In witness whereof, the said parties of the first and second parts hereto have hereunto set their hands and seals and the party of the third part hereto has caused these presents to be subscribed by the Mayor and the common seal of The City of New York to be hereunto affixed the day and year first above written.

SOUTH SHORE TRACTION COMPANY, TIMES BUILDING,  
FORTY-SECOND STREET AND BROADWAY,  
NEW YORK, December 28, 1908.

Board of Estimate and Apportionment, City of New York, Division of Franchises,  
No. 277 Broadway, New York City:

GENTLEMEN—Inclosed please find a petition of the South Shore Traction Company, asking for the right to be granted to said company to construct a street surface railroad across the new Queensboro Bridge and through certain streets and highways in the Borough of Queens, described at length in the body of said petition.

It is the desire of our company that the petition formerly filed by the South Shore Traction Company, and dated April 13, 1908, be withdrawn, and that the petition herewith sent you be substituted in place of said original application.

The reasons for the withdrawal of our earlier petition, and the substitution of the new one, are that our earlier proposed route embraced at least one street upon which street railroad construction was prohibited by special statute. It is also felt that the route described in our later petition will be found to be more direct, of greater convenience to a larger number of residents of the Borough of Queens, and in every way more desirable.

Several routes have been described in Jamaica near the proposed new station of the Long Island Railroad Company for the reason that we have been informed by this company that their plans with regard to the street layout in the immediate neighborhood of this new station have not been definitely determined by them. It is our purpose, therefore, to select several routes in this neighborhood, so that no matter how questions now open and undetermined may be settled, we will have at least one available route through this section.

To avoid the objection to granting us franchise rights in all the streets designated in our petition, we would respectfully suggest that a paragraph be inserted in any franchise which may be granted to us, providing that our company be required, within a time limited by the terms of the proposed franchise, to make a definite and final selection of its route, and that upon such selection being made by the company, the franchise rights granted to it in the other streets shall cease. We would respectfully submit herewith a clause which, we believe, would be sufficient for this purpose.

Trusting to be informed when the date for a public hearing upon this application has been set, I remain,

Very truly yours,

ARTHUR CARTER HUME, Secretary.

REPORT No. F-95.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
January 5, 1909.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—The South Shore Traction Company has already applied for a franchise to construct and operate a double track railway in a number of streets in the Borough of Queens and across the Queensboro Bridge. Their petition was amended by ex-

cluding certain streets named in the original petition upon which the building of railroads was prohibited, and a public hearing was given on June 12, 1908, at which time a proposed form of contract was submitted to the Board and the matter was referred to a Select Committee. It has since been discovered that the amended petition includes one street of which the law prohibits the use by surface railroads, and the company has again amended its petition by the elimination of prohibited streets and substitution of another route. It would seem necessary to have a further hearing, and it is recommended that February 5, 1909, be fixed as the date for such hearing. At that time a report containing suggestions as to a proposed form of contract will be submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,  
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,  
January 4, 1909.

Mr. NELSON P. LEWIS, Chief Engineer.

Sir—The South Shore Traction Company under date of September 12, 1907, petitioned the Board of Estimate and Apportionment for the right to construct, maintain and operate a double track street surface railway beginning at the approach to the Queensboro Bridge, in the Borough of Queens, thence upon various streets and avenues to the boundary line between The City of New York and Nassau County.

An examination of the petition revealed the fact that the use of several of the streets applied for was prohibited by law, and after consultation with the company an amended petition dated January 14, 1908, was presented, which was supposed to eliminate these streets. Subsequent to January 14, 1908, it was determined by the Corporation Counsel that the Board of Estimate and Apportionment had jurisdiction over the Queensboro Bridge, and the company thereupon under date of April 13, 1908, presented another amended petition which included in the route the Queensboro Bridge from the plaza at the approach in the Borough of Queens to the approach at Second avenue, in the Borough of Manhattan.

A public hearing was held upon the latter petition on June 12, 1908, and a report of this Division containing a proposed form of contract dated June 6, 1908, was presented at the meeting held on that day. At the close of the hearing the matter was referred to a Select Committee, composed of the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan and Queens, but to date no report has been received from such Committee.

It has since been ascertained that even the amended petition did not eliminate all the prohibited streets, but that one certain street contained in the form of petition could not be used.

The company has now presented a petition covering several alternate routes in and near the former Village of Jamaica, which are all designed to eliminate such streets in which the construction of a street surface railway is prohibited.

The company in a communication dated December 28, 1908, requests to be permitted to withdraw the former petitions and substitute in lieu thereof the new petition dated December 28, 1908.

It is suggested that the Board fix February 5, 1909, as the date for a preliminary public hearing, previous to which time I shall have prepared a report containing suggestions as to the proposed form of contract.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

To the Honorable Board of Estimate and Apportionment of The City of New York:

#### East River Terminal Railroad.

In the matter of the application of the East River Terminal Railroad for a franchise to construct, maintain and operate a railroad by locomotive steam power upon and along Wythe and Kent avenues and North Fourth street, Borough of Brooklyn.

This petition was presented to the Board at its meeting of January 24, 1908, and was referred to the Chief Engineer.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT.  
DIVISION OF FRANCHISES.  
December 28, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

Sir—Under date of January 15, 1908, the East River Terminal Railroad petitioned the Board of Estimate and Apportionment for the right to construct, maintain and operate railroad tracks by locomotive steam power, as follows: Four tracks crossing Wythe avenue, just south of North Fourth street, and a single track beginning at the westerly side line of Kent avenue at North Fourth street, and thence curving northerly and easterly in Kent avenue and North Fourth street to the northerly side line of North Fourth street, intersecting the same at a point about 100 feet easterly from the easterly side line of Kent avenue, all in the Borough of Brooklyn.

The petition was presented to the Board on January 24, 1908, and referred to the Chief Engineer, but the company failed to file a map showing the railroad proposed until June.

On June 26, 1908, the Board fixed December 18, 1908, as the date for the preliminary public hearing, and directed that the same be advertised in two daily newspapers, to be designated by the Mayor. The papers so designated were the "Brooklyn Daily Eagle" and "Brooklyn Daily Times."

The public hearing was duly held on the date fixed, and Henry F. Cochrane, Esq., attorney for the applicant, appeared in favor of the proposed grant, no one appearing in opposition.

The East River Terminal Railroad was incorporated by filing its certificate in the office of the Secretary of State, on November 19, 1907. The object of the company, as stated in this certificate of incorporation is to construct and maintain a railroad of standard gauge and operate the same by dummy or locomotive engines, of the switching variety, as a freight railroad, exclusively for the receiving and distributing of all classes of freight for and to all shippers of merchandise in the Borough of Brooklyn, City and State of New York.

The route of such railroad is to begin at the easterly bank of the East River, between North Third and North Fourth streets, and running thence easterly about one-half mile to a point east of Wythe avenue, between North Third and North Fourth streets. The present petition is for the right to occupy the surface of the avenues encountered in this route, and, in addition, a spur track as above described, connecting such railroad with private property on the northerly side of North Fourth street.

Under date of January 3, 1907, a petition was presented by the firm of Havemeyers & Elder for the same privilege now applied for by the East River Terminal Railroad, with the exception that more tracks were asked for in North Fourth street than in the present petition.

After this petition was presented to the Board, the President of the Borough of Brooklyn was asked to have the petition examined and advise whether there were any special conditions which should be imposed in the grant. The matter was examined by the engineers of the Borough President's office, and, after conferences with the petitioner's representatives, an amended petition was presented, which included only one track in North Fourth street, instead of two in the original petition, and changed the position of some of the tracks originally applied for in Kent avenue.

This amended petition was dated April 16, 1907, and was referred to the Chief Engineer on April 26, 1907.

In view of the fact that the firm of Havemeyers & Elder was not incorporated as a railroad company, the opinion of the Corporation Counsel was asked as to whether or not the City could legally grant to the petitioners the right to construct a railway. Under date of January 19, 1907, the Corporation Counsel replied and stated he was of the opinion that the City could not legally grant the privilege sought, to either an individual or a firm which was not incorporated as a railroad company.

In consequence of this opinion, the petition was denied by the Board on September 24, 1907, and as a result of such action, the firm of Havemeyers & Elder has incorporated the East River Terminal Railroad, which company has petitioned the Board for practically the same privilege as that applied for by Havemeyers & Elder.

#### Character and Growth of the Terminal Business in the District.

Much of the district in the vicinity of the proposed railroad is devoted to shipping and manufacturing. This is true with almost the entire area bounded by the centre line of the block between North Fourth street and North Third street, Kent avenue, North Tenth street and East River, and all the streets between and including North Fourth street and North Ninth street, between Kent avenue and the East River are occupied to some extent by railroad tracks used for switching freight cars, and all the private property within the area is connected by tracks across the streets near the water front. In addition to this, two tracks are operated across Kent avenue just north of North Fifth street and one track across Kent avenue and continuing the length of the entire block between Kent avenue and Wythe avenue in North Fifth street. Tracks are also operated across Wythe avenue near North Fifth street.

The tracks proposed by the petitioner will add three other blocks for terminal facilities, namely the blocks between North Third and North Fourth streets and extending back three blocks from the water front. The petitioners state in the application that numerous large industries have recently located in this portion of the Borough of Brooklyn, that the terminal facilities for freight have not been increased in this section for a number of years, and it is now found necessary to use more space for the handling of freight.

The firm of Havemeyers & Elder is closely allied with the Brooklyn and Eastern District Terminal Company, which company operates the present terminal, together with the tracks in the streets above described.

Freight is brought by the Brooklyn and Eastern District Terminal Company to the docks upon the river front occupied by the Terminal Company, from water front terminals of the trunk lines of railroad companies in New York Harbor. This freight is brought in cars on floats owned by the Terminal Company, and is distributed from this terminal to its destination within the Borough of Brooklyn.

From information obtained from representatives of the company, it appears that the present terminal is the result of the establishment of the terminal by the firm of Havemeyers & Elder, about thirty years ago, for the purpose of facilitating the handling of freight for that firm. Later, the trunk line railroads began to utilize this terminal for the receipt and shipment of all classes of freight. This led to the establishment of the Brooklyn and Eastern District Terminal Company, which company operates the terminal tracks now in operation in that vicinity.

There are in use at the present time twelve car floats, having a capacity of from ten to twenty cars each, and four tugboats are used for handling these floats. Nine dummy engines are used for moving the cars upon the terminal tracks. The company handles an average of about 200 cars a day of general freight, and, in addition, about 60 cars of coal.

The company has furnished a statement of the amount of freight handled at the terminals in the district each year from 1880 to 1907, which shows that the same has been steadily increasing to the present time. The amount during the year 1907 is stated to be 2,254,007.085 pounds, or over one million tons, while during the year 1897 the amount was 1,012,825.731 pounds, which shows that the increase has been very nearly 40 per cent. during the ten years previous to 1908. It is stated that, notwithstanding this increase, there has been no increase in the size of the terminal within the last twenty years, and that the present terminal is inadequate for the purpose of handling the freight for the district, and that railroad companies have refused, in many cases, to deliver perishable freight at this terminal, because of the inability of the Terminal Company to handle, without undue risk, that class of freight. Perishable freight, therefore, is shipped to terminals in the Borough of Manhattan, the consignee being required to cart the freight from these terminals to points in Brooklyn.

The additional facilities which would be the result of the granting of this petition (although the petitioner is not the present Terminal Company, but a company organized independently, the reason for which has already been stated) are designed to increase the facilities, in order to properly handle the rapidly increasing business, for which the present terminal is entirely inadequate. These additional terminal facilities which will be provided by the tracks petitioned for, will, no doubt, be operated in conjunction with the tracks of the present Terminal Company.

#### Other Rights in the Vicinity.

Since the tracks were proposed to be connected with the existing terminal tracks in the vicinity, an investigation has been made to ascertain the authority for the construction and operation of such terminal tracks. It was found that resolutions were adopted by the Board of Aldermen of the former City of Brooklyn, permitting the construction of tracks across Kent avenue, between North Fifth and North Sixth streets, on Ninth street, between Kent avenue and the East River, and portions of the existing track on North Fifth street, between the East River and Wythe avenue, and across Wythe avenue, between North Fifth street and North Sixth street, but no authority has been found for the existing tracks in North Eighth street, North Seventh street, North Sixth street and North Fourth street, between Kent avenue and the East River, and portions of the track in North Fifth street between Wythe avenue and the East River.

The resolution granting these permits required the payment of no compensation to the City, and but few conditions governing the use of such tracks. The permits were granted in some cases to Havemeyers & Elder, and in others to Lowell M. Palmer.

It is apparent that City property is being occupied without proper authority from the City government, and without compensation to the City.

The applicant company was incorporated since these tracks were laid, and probably does not own any of such tracks, though it is closely allied with the firm of Havemeyers & Elder, and with the Brooklyn and Eastern District Terminal Company, which companies own and operate all of the terminal tracks in the vicinity.

I have not insisted that the owners of these tracks, who are closely allied with the applicant company, shall petition the Board for the right to maintain the same, before

considering the present petition, for the reason that additional facilities seem to be necessary immediately, but I would suggest that the Board take this matter up and require an application to be made by some railroad company to which such authority may be legally granted, or that such tracks be removed by the present owners.

I inclose a proposed resolution calling upon the present owners of these tracks to cause a proper application to be made for all of them, on or before February 1, 1909.

#### Similar Privilege Previously Granted.

A resolution was adopted by the Board of Aldermen, and by the Common Council, on November 19, 1901, and approved by the Mayor November 21, 1901, permitting the firm of Havemeyers & Elder:

"To lay tracks on North Fourth street, between the East River and Wythe avenue, proceeding easterly along North Fourth street by a curve and entering upon property of the said Havemeyers & Elder between Kent avenue and Wythe avenue; also to lay rails across Kent avenue connecting tracks on their property on the west side of Kent avenue with other property belonging to them on the east side thereof, and also to lay rails across Wythe avenue, connecting tracks on their property on the west side of Wythe avenue with other property belonging to them on the east side thereof."

No track has ever been constructed pursuant to this resolution, and in view of the fact that the applicant company has applied for the privilege to lay similar tracks, I would suggest that the Board rescind the resolution granting permission to Havemeyers & Elder.

A resolution to this effect is herewith submitted.

#### Grade Crossings.

It should be noted that this petition is for the right to construct a steam railroad across streets and avenues at grade and that the tracks, if laid as applied for, will cross the tracks of a street surface railway now in operation on Kent avenue. As a rule, it would seem that such a railroad should not be permitted to be constructed upon the surface of any street where it is possible to cross the street either above or below the grade thereof, unless the construction above or below the grade of the street would cause the expenditure of a sum for the construction or operation in excess of that which would be proportionate to the benefit derived by the Company, and in no case should such a railroad be permitted to be constructed upon the surface unless the construction of such a railroad would add to facilities which are necessary for the accommodation of the public. It appears that the construction of this railroad above the surface of the streets would be impracticable on account of the excessive grades which would be required and the inconvenience of the handling of freight from such elevated positions. The construction of the railroad below the surface of the streets would involve a very great expense, necessitating the construction below tide-water, and would also be expensive in operation because of the inconvenience of handling freight from such a level. It has been conclusively shown that additional terminal facilities are necessary in this district, and the extension of the area for that purpose must be made by the acquisition of property extending back from the water-front, there being no opportunity for such extension either north or south along the water front without the destruction of buildings or plants which would be impracticable for the Company to acquire.

The Company submitted a petition to the Public Service Commission for the First District, as successor to the State Board of Railroad Commissioners, for a certificate of convenience and a necessary, pursuant to section 50 of the Railroad Law. This petition was not acted upon because it is found to be defective in that the language of the petition indicated that the proposed railway was a street surface railway. The petition was, therefore, withdrawn on June 15, 1908, and an amended petition was submitted under date of November 10, 1908. Upon this last petition the Public Service Commission, on December 1, 1908, granted a certificate, pursuant to section 50 of the Railroad Law.

A portion of section 50 of the Railroad Law reads as follows:

"All steam surface railroads hereafter built, except additional switches and sidings, must be so constructed as to avoid all public crossings at grade, whenever practicable so to do. Whenever application is made to the Board of Railroad Commissioners, under section 50 of the Railroad Law, there shall be filed with said Board a map showing the streets, avenues and highways proposed to be crossed by the new construction, and the said Board shall determine whether such crossing shall be under or over the proposed railroad, except where said Board shall determine such method of crossing to be impracticable."

The maps and plans which were submitted to the Public Service Commission, I understand, show the railroad to be at the grade of the streets and avenues. In the order granting the certificate no mention is made as to whether the railroad would be constructed at the grade of the streets and avenues or above or below the grade thereof. In consequence, I assume that the certificate was granted permitting the Company to construct its railroad upon the surface of the streets and avenues.

I believe much caution should be exercised by the Board in granting rights in streets for purposes similar to that for which the Company desires this right, even though the Public Service Commission seems to have, as far as that Commission is concerned, approved of the construction of the railway upon the surface.

The form of contract attached hereto permits the construction of the railroad upon the surface, and conditions are proposed which will tend to protect the City in case the railroad is operated upon the surface. As has been stated, the petition was sent to the President of the Borough of Brooklyn, who, through his representatives, negotiated with the Company with a view to arranging the tracks crossing the street differently from that first proposed by the Company, but neither the President of the Borough of Brooklyn nor the Public Service Commission referred to the construction of the railroad other than on the surface. In order to protect the City, I am proposing herein that the term of grant be limited to fifteen years, original term, with a renewal of ten years.

#### Conditions for the Proposed Franchise.

**The Repair of Pavement and Removal of Snow and Ice.**—While the Railroad Law requires a railroad company to pave and keep in permanent repair only that portion of the street between its tracks, the rails of its tracks and for a distance of two feet on either side thereof, it would seem that in this case, since the Company occupies a greater portion of Kent avenue between the northerly side line of North Fourth street and the line parallel thereto, and about 125 feet therefrom, and the portion of Wythe avenue between the northerly side line of North Fourth street and the line parallel thereto and about 60 feet northerly therefrom, that this Company should be required to keep such portions of pavement in Wythe avenue and Kent avenue in repair. This should apply also to the curbs and to the sidewalks, since these tracks cross both curbs and both sidewalks. In regard to the track in North Fourth street, the Company should be required to keep the pavement in repair between tracks and two feet beyond the rails on each side.

**Term of Grant.**—There has been in existence at this point a freight terminal for many years; a large amount of freight is handled and large sums of money have been expended in the plant. In consequence, the terminal is as permanent as the plant of most public utility corporations within the City. By the granting of this petition additional facilities will be added to the enterprise, and should the Company be deprived of such additional facilities in the future the effect would be detrimental to the economic working of the entire plant. From this standpoint it would seem that the Company should have a franchise of a duration equal to the maximum period prescribed by law, as has been fixed for grants of various character to public service corporations. However, since the railroad is in all probability to be constructed upon the surface of the street, as to be used for freight only and is to be operated by steam power, it is suggested that the term of grant be fixed at only fifteen years original term, with the privilege of renewal of a further term of ten years, it being possible that the interests of the City will require the removal of these tracks from the surface before the expiration of the maximum period fixed by law for such grants.

The proposed form of contract attached hereto contains such a condition.

**Motive Power.**—The company petitions for the right to use locomotive steam power. It is possible that locomotive steam power may not be objectionable in this district, though in time it may be necessary to require the use of electricity. I have, therefore, placed in the contract a clause which allows the use of locomotive steam power, but such locomotives shall be housed or boxed so as to conform with the type commonly known as dummy engines. Further, that the company shall, upon one year's notice from the Board, operate its railroad by electric power of such a system

as shall be designated by the Board. This clause gives the Board the power to require either the overhead or the underground system.

**Crossing Gates.**—In the letter from the President of the Borough of Brooklyn, dated May 2, 1907, he suggests that crossing gates for the exclusion of vehicles and pedestrians from the tracks while cars are being operated thereon be maintained on each side of the tracks in Wythe avenue and southerly side of the tracks in Kent avenue, and at the northerly side of North Fourth street. The gates in Kent avenue, as suggested, would not prevent traffic from entering the tracks from North Fourth street, but would so prevent the traffic in Kent avenue. There is considerable traffic in North Fourth street between Kent avenue and the river front, and it is possible that other gates will be necessary in time for protection at the intersection of Kent avenue and North Fourth street. I have, therefore, inserted a clause in the proposed contract giving to the Board the authority to require the construction and operation of gates in North Fourth street at any time during the term of the contract, and have required the construction and operation of the four gates suggested by the President of the Borough of Brooklyn, such gates to be operated from the date on which the operation of the railroad begins.

**Time for Use of Railroad.**—There is considerable vehicular traffic in both Kent and Wythe avenues, and it would seem that some restrictions should be put upon the company as to the length of time which this traffic shall be obstructed. I would, therefore, suggest that none of the tracks shall be used for greater period than five consecutive minutes at any time, and that the aggregate of these periods shall not exceed ten minutes in any hour between 7 o'clock a. m. and 6 o'clock p. m.

There is a double-track street surface railroad operated in Kent avenue which is a part of the Brooklyn Rapid Transit system. The cars on this line should be given the right-of-way over those of the cars of the applicant company. The traffic on this line is not very heavy at present.

**Compensation and Security Fund.**—It is evident that the rate of compensation for this privilege cannot be fixed upon the basis of a percentage of gross receipts, for the reason that there is no way of obtaining the amount of the receipts from the operation of these tracks. Perhaps the franchise most nearly like that proposed by this company is the one granted to the Bush Terminal Railroad Company.

This company received a franchise from the Board of Aldermen on January 31, 1905, upon terms fixed by the Board of Estimate and Apportionment, to construct a railroad in the streets and avenues of the Borough of Brooklyn connecting tracks of the company upon private property. The right was given to construct the railroad for the purpose of conveying both freight and passengers. Compensation was fixed upon the basis of a percentage of the gross receipts from the passenger car operation for the privilege of maintaining a passenger railroad, and a fixed sum per annum for each running foot of track laid for the privilege of maintaining a freight railroad. The fixed sum per running foot was based upon the assessed valuation of the abutting property.

The railroad proposed by the applicant company is similar to that constructed by the Bush Terminal Railroad Company in that it is proposed to construct tracks in the streets and avenues to connect with tracks of the company upon private property, and used for terminal purposes.

In arriving at the sums herein recommended the assessed valuation of the abutting property was used, but instead of a fixed sum per running foot, it is suggested that a charge per annum for the entire privilege be made, inasmuch as the entire area of portions of Kent avenue and Wythe avenue for some distance will be occupied by railroad tracks. Such sum to be obtained by taking the valuation of such area instead of a strip of land occupied by the tracks, as was done in arriving at the charge for the Bush Terminal Railroad. The sums which I would recommend are as follows:

As an initial payment the sum of three thousand dollars (\$3,000) within thirty (30) days from the date on which this contract is signed by the Mayor,  
Annually during the first ten years of the contract..... \$450 00  
Annually during the remaining five years..... 900 00

For security deposit to insure the faithful performance of the terms and conditions of the contract I would propose the sum of \$3,000, in either cash or in securities, to be approved by the Comptroller, and to be paid to him within thirty (30) days after the signing of the contract by the Mayor.

The form of contract attached hereto has been submitted to the Company, and under date of December 14, 1908, the Secretary of the Company states that on December 12, 1908, the Board of Directors of the East River Terminal Railroad adopted a resolution authorizing the President to execute the contract in the form attached hereto.

In view of the fact that the Board does not meet again until January 8, 1909, and this petition has been before the Board nearly a year, I would suggest that the form of contract be submitted in the meantime to the Corporation Counsel for his approval as to form and to incorporate therein such matters as he deems necessary to fully protect the interests of the City, and that copies of this report be forwarded to members of the Board, in order that they may be familiar with the situation prior to the meeting of the Board on January 8, on or before which time the Corporation Counsel will probably be able to report.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

## PROPOSED FORM OF CONTRACT.

This contract made this \_\_\_\_\_ day of \_\_\_\_\_, 1909, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the East River Terminal Railroad (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreement herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate railroad tracks either at the grade of the surface of the streets and avenues or above or below the grade thereof, as shall be determined by the Public Service Commission for the First District of the State of New York, pursuant to law, for the purpose of conveying goods, wares and merchandise only, in the Borough of Brooklyn, City of New York, as follows:

(a) Four tracks beginning at the westerly side of Wythe avenue; thence across Wythe avenue to the easterly side thereof, all of such tracks to be situated in the portion of Wythe avenue between the southerly side line of North Fourth street and a line parallel thereto crossing Wythe avenue about sixty (60) feet southerly therefrom.

(b) Six tracks beginning at the westerly side line of Kent avenue; thence across Kent avenue to the easterly side line thereof, all of such tracks to be situated in the portion of Kent avenue, between the southerly side line of North Fourth street and the line parallel thereto, and crossing Kent avenue about one hundred and twenty (120) feet southerly therefrom.

(c) One track beginning at the westerly side line of Kent avenue; thence curving northerly and easterly across Kent avenue and North Fourth street to the northerly side line of North Fourth street at a point about one hundred and ten feet easterly from the easterly side line of Kent avenue. Said tracks hereby authorized are shown upon a map entitled:

"Plan showing proposed tracks on North Fourth street, Kent avenue and Wythe avenue, Borough of Brooklyn, N. Y., to Accompany Application, dated January 15, 1908, of the East River Terminal Railroad to the Board of Estimate and Apportionment."

—and signed by the East River Terminal Railroad Company, W. B. Duncan, Jr., President, and approved by H. O. Havemeyer, Jr., dated June, 1908, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed. Provided that deviations therefrom which are consistent with the foregoing description, and the other provisions of this contract, may be permitted by resolution of the Board.

Sec. 2. The grant of this right or privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within one month after the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within one month thereafter make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company for the term of fifteen (15) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of ten (10) years upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time, not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year of this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound, upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board, one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—Upon the termination of this original contract, or if the same is renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks of the Company constructed pursuant to this contract, within the streets, avenues and highways shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this grant as above the City (by the Board) shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of the tracks and other equipment constructed pursuant to this contract, and the said streets, avenues and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fourth—The Company shall pay to the City for this privilege the following sums of money:

(a) The sum of three thousand dollars (\$3,000) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

(b) During the first ten (10) years of this contract, beginning on the date when this contract is signed by the Mayor, an annual sum of four hundred and fifty dollars (\$450).

During the succeeding five (5) years of this contract an annual sum of nine hundred dollars (\$900).

Such sums as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or by any law of the State of New York.

Fifth—The annual charges or payment shall continue throughout the whole term of this contract, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payments for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of the route mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—The Company shall commence construction of the railroad herein authorized, within two (2) months from the date upon which the consents of the property owners are obtained, or from the date upon which the decision of the Appellate Division of the Supreme Court that such railroad ought to be constructed is rendered in lieu of such consents, and shall complete the construction and place the same in full operation within six (6) months from the date of obtaining such consents or such decision, otherwise this grant shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall in writing consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Eighth—The work of construction of the tracks hereby authorized shall be done in such manner as shall not substantially interfere with the ordinary use of any street, avenue or highway as a public highway.

Ninth—The street surface passenger railway now operated upon Kent avenue shall have the right of way over the cars or trains operated upon the tracks hereby authorized.

Tenth—Cars may be operated upon said tracks by steam locomotives, which shall be housed or boxed so as to conform with the type commonly known as the dummy engine, or by any other motive power which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York, provided, however, that the Board, upon giving to the grantee one year's notice, may require the company to operate its railroad upon the whole or any portion of the tracks hereby authorized by such system of electric power as may be designated by the Board, and the company shall thereupon discontinue the use of steam locomotives from such tracks.

Eleventh—Neither passengers nor vehicles shall be prevented from crossing the tracks hereby authorized by the occupation of such tracks by cars or trains operated thereon, for a greater period than five consecutive minutes at any time, and the aggregate of such periods shall not exceed ten minutes in any hour between 7 o'clock a. m. and 6 o'clock p. m.

Twelfth—Should the Company be allowed to operate at the grade of streets and avenues, it shall erect, maintain, and operate gates across Kent avenue at or near the northerly side line of North Fourth street, and at a point about one hundred and twenty (120) feet southerly from the said southerly side line of North Fourth street; also gates across Wythe avenue at or near the southerly side line of North Fourth street, and at a point about sixty (60) feet southerly from the said southerly side line of North Fourth street. Such gates shall be closed so as to exclude pedestrians and vehicles from the tracks hereby authorized, when cars or trains are operated thereon. In addition to such gates, the Company shall station flagmen at the intersection of Kent avenue and North Fourth street for the protection of persons and vehicles using North Fourth street. Should it seem necessary, in the opinion of the Board, that gates other than those herein required should be maintained for the protection of persons or property, the Company shall erect, maintain and operate such gates upon thirty (30) days' notice by the Board to the Company.

Thirteenth—As long as the said tracks, or any portion thereof, shall remain in the streets, avenues or highways, the Company shall set the curbs and pave the roadway and sidewalk and keep the same in permanent repair upon that portion of the surface of Kent avenue, between the southerly side line of North Fourth street and a point one hundred and twenty (120) feet southerly therefrom; that portion of Wythe avenue between the southerly side line of North Fourth street and a point sixty (60) feet southerly therefrom, and that portion of North Fourth street between the rails of the tracks hereby authorized in that street and for a distance of two feet beyond such rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. The City shall have the right to change the material or character of pavement of any such streets, avenues or highways, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City officer at its own expense, and the provision as to repairs herein contained shall apply to such renewal or altered pavement.

Fourteenth—The Company shall at all times keep that portion of the surface of Kent avenue, between the southerly side line of North Fourth street and a point one hundred and twenty (120) feet southerly therefrom; that portion of Wythe avenue between the southerly side line of North Fourth street and a point sixty (60) feet southerly therefrom, and that portion of North Fourth street between the rails of the tracks hereby authorized in that street, and for a distance of two (2) feet beyond such rails on either side thereof, free and clear from snow and ice, provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clear an equivalent amount of street surface from house line to house line.

Fifteenth—Should the grades or lines of any street, avenue or highway in which said tracks are hereby authorized be changed at any time during the term of this contract, the Company shall change its tracks to conform with such new grades and lines, and during the construction of such public improvement upon such street, avenue or highway, the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the President of the Borough of Brooklyn.

Sixteenth—It is agreed that the right hereby granted to operate a railroad shall not be in preference or in hindrance to public work of the City, and should the said railroad in any way interfere with the construction of public work in the streets or avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall at its own expense protect or move the tracks and appurtenances in a manner as directed by the President of the Borough of Brooklyn.

Seventeenth—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railroad, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Eighteenth—The said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appliances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Nineteenth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City. Before any construction shall be commenced upon any portion of the route, written permits shall be obtained from the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, and the Company shall comply with any conditions which those officials may impose as a condition upon which such permit is granted, provided such conditions are imposed for the purpose of protecting the structures over which those officials have jurisdiction.

Twentieth—The rates for carrying property upon the tracks hereby authorized shall in all cases be reasonable in amount, and shall be subject to the control of the Board, and be fixed by the Board after notice to the Company, and hearing had thereon, and when so fixed such rate shall be binding upon the Company, and no rates in excess of those fixed shall be charged for such service.

Twenty-first—The Company shall at all times keep accurate books of account of the gross earnings from all sources, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross earnings, total miles in operation and the miles of railway constructed and operated under this contract and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-second—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity.

Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-third—If the Company shall fail to give efficient public service or fail to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures which may affect the surface of the streets, avenues or highways shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-fourth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Twenty-fifth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of three thousand dollars (\$3,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railroad; and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to obstruction of traffic, the maintenance of gates and flagmen, the repair of pavements and removal of snow and ice, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its president, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of three thousand dollars (\$3,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-sixth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Twenty-seventh—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-eighth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This grant is also upon the further and express condition that the provisions of the Railroad Law applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railways operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf, to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly

authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

EAST RIVER TERMINAL RAILROAD,

(Here add acknowledgment.)

CITY OF NEW YORK—LAW DEPARTMENT,  
OFFICE OF THE CORPORATION COUNSEL,  
New York, January 4, 1909.

#### Board of Estimate and Apportionment:

Sirs—I have received from you the following communication, dated December 29, 1908, signed by Joseph Haag, Secretary:

"I transmit herewith report from the Engineer in charge of the Division of Franchises to the Chief Engineer upon the application of the East River Terminal Railroad for a franchise to construct, maintain and operate railroad tracks on the surface of certain streets in the Borough of Brooklyn.

"The application has been pending for nearly a year, and as the Board will not meet again until January 8 the form of franchise is submitted to you for approval as to form, and the incorporation therein of such matter as you may deem necessary to fully protect the interests of the City.

"In order that it may be in such form at the next meeting that the Board may take action upon it, it is, therefore, requested that your reply reach this office not later than January 4, 1909, so that the same may be placed upon the calendar for the following Friday."

I beg to state I have but one suggestion to make in the form of contract proposed. My attention has recently been called to the fact that attorneys for railroads have objected to the form of section 3 on the ground that it does not comply with section 92 of the Railroad Law. This section provides, in part, as follows:

"Such consent must be upon the expressed condition that the provisions of this article pertinent thereto shall be complied with and shall be filed in the office of the clerk of the county in which such railroad is located."

Section 3, as proposed, provides as follows:

"This grant is also upon the further and express condition that the provisions of the Railroad Law applicable thereto and of all laws or ordinances now in force, or which may be adopted affecting the surface railways operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the company."

Obviously it is impossible by any provisions of this contract to attempt to limit the application of the Railroad Law or modify the duties and obligations created by such law.

I therefore recommend that section 3 be modified in read as follows:

"This grant is also upon the further and express condition that the provisions of the Railroad Law pertinent hereto, and further all laws or ordinances now in force, or which may be adopted affecting the surface railways operating in the City, not inconsistent with the said Railroad Law and the terms and conditions hereinbefore fixed, shall be strictly complied with by the company."

If the franchise contract with the East River Terminal Railroad, as contained in the report of the Division of Franchises of December 28, 1908, be amended as above suggested, such contract will then have my approval as to form.

Respectfully yours,

GEORGE L. STERLING, Acting Corporation Counsel.

Henry F. Cochran, of counsel for the company, appeared and stated the form of contract was satisfactory and the contract would be executed by the company if adopted by the Board.

The following was offered:

Whereas, The East River Terminal Railroad has, under date of January 15, 1905, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate railroad tracks by locomotive steam power upon Wythe avenue, Kent avenue and North Fourth street, in the Borough of Brooklyn; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on June 26, 1908, fixing the date for public hearing thereon as September 18, 1908, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in the "Brooklyn Daily Eagle" and the "Brooklyn Daily Times," newspapers designated by the Mayor, and in the City Room for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the East River Terminal Railroad and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the East River Terminal Railroad containing the form of proposed contract for the grant of such franchise or right be hereby introduced and entered in the minutes of this Board as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the East River Terminal Railroad the franchise or right fully set out and described in the following form of proposed contract for the grant thereof embodying all the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York as follows, to wit:

#### Proposed Form of Contract.

This contract made this ..... day of ..... 1909, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the East River Terminal Railroad (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate railroad tracks either at the grade of the surface of the streets and avenues or above or below the grade thereof, as shall be determined by the Public Service Commission for the First District of the State of New York, pursuant to law, for the purpose of conveying goods, wares and merchandise only, in the Borough of Brooklyn, City of New York, as follows:

(a) Four tracks beginning at the westerly side of Wythe avenue; thence across Wythe avenue to the easterly side thereof, all of such tracks to be situated in the portion of Wythe avenue between the southerly side line of North Fourth street and a line parallel thereto crossing Wythe avenue about sixty (60) feet southerly therefrom.

(b) Six tracks beginning at the westerly side line of Kent avenue; thence across Kent avenue to the easterly side line thereof, all of such tracks to be situated in the portion of Kent avenue between the southerly side line of North Fourth street and the line parallel thereto and crossing Kent avenue about one hundred and twenty (120) feet southerly therefrom.

(c) One track beginning at the westerly side line of Kent avenue; thence curving northerly and easterly across Kent avenue and North Fourth street to the northerly side line of North Fourth street at a point about one hundred and ten (110) feet easterly from the easterly side line of Kent avenue. Said tracks hereby authorized are shown upon a map entitled:

"Plan showing proposed tracks on North Fourth street, Kent avenue and Wythe avenue, Borough of Brooklyn, N. Y., to Accompany Application, dated January 15, 1908, of the East River Terminal Railroad to the Board of Estimate and Apportionment."

—and signed by the East River Terminal Railroad Company, W. B. Duncan, Jr., President, and approved by H. O. Havemeyer, Jr., dated June, 1908, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed. Provided that deviations therefrom which are consistent with the foregoing description, and the other provisions of this contract, may be permitted by resolution of the Board.

Sec. 2. The grant of this right or privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within one month after the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within one month thereafter make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railroad shall be held and enjoyed by the Company for the term of fifteen (15) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of ten (10) years upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time, not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year of this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound, upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board, one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers, and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate therefore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—Upon the termination of this original contract, or if the same is renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks of the Company constructed pursuant to this contract within the streets, avenues and highways shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this grant as above the City (by the Board) shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of the tracks and other equipment constructed pursuant to this contract, and the said streets, avenues and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fourth—The Company shall pay to the City for this privilege the following sums of money:

(a) The sum of three thousand dollars (\$3,000) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

(b) During the first ten (10) years of this contract, beginning on the date when this contract is signed by the Mayor, an annual sum of four hundred and fifty dollars (\$450).

During the succeeding five (5) years of this contract an annual sum of nine hundred dollars (\$900).

Such sums as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or by any law of the State of New York.

Fifth—The annual charges or payment shall continue throughout the whole term of this contract, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payments for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of the route mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions in this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise

notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—The Company shall commence construction of the railroad herein authorized within two (2) months from the date upon which the consents of the property owners are obtained, or from the date upon which the decision of the Appellate Division of the Supreme Court that such railroad ought to be constructed is rendered in lieu of such consents, and shall complete the construction and place the same in full operation within six (6) months from the date of obtaining such consents or such decision, otherwise this grant shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall in writing consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Eighth—The work of construction of the tracks hereby authorized shall be done in such manner as shall not substantially interfere with the ordinary use of any street, avenue or highway as a public highway.

Ninth—The street surface passenger railway now operated upon Kent avenue shall have the right of way over the cars or trains operated upon the tracks hereby authorized.

Tenth—Cars may be operated upon said tracks by steam locomotives, which shall be housed or boxed so as to conform with the type commonly known as the dummy engine, or by any other motive power which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York, provided, however, that the Board, upon giving to the grantee one year's notice, may require the Company to operate its railroad upon the whole or any portion of the tracks hereby authorized by such system of electric power as may be designated by the Board, and the Company shall thereupon discontinue the use of steam locomotives from such tracks.

Eleventh—Neither passengers nor vehicles shall be prevented from crossing the tracks hereby authorized by the occupation of such tracks by cars or trains operated thereon, for a greater period than five consecutive minutes at any time, and the aggregate of such periods shall not exceed ten minutes in any hour between 7 o'clock a. m. and 6 o'clock p. m.

Twelfth—Should the Company be allowed to operate at the grade of streets and avenues, it shall erect, maintain and operate gates across Kent avenue at or near the northerly side line of North Fourth street, and at a point about one hundred and twenty (120) feet southerly from the said southerly side line of North Fourth street; also gates across Wythe avenue at or near the southerly side line of North Fourth street, and at a point about sixty (60) feet southerly from the said southerly side line of North Fourth street. Such gates shall be closed so as to exclude pedestrians and vehicles from the tracks hereby authorized when cars or trains are operated thereon. In addition to such gates, the Company shall station flagmen at the intersection of Kent avenue and North Fourth street for the protection of persons and vehicles using North Fourth street. Should it seem necessary, in the opinion of the Board, that gates other than those herein required should be maintained for the protection of persons or property, the Company shall erect, maintain and operate such gates upon thirty (30) days' notice by the Board to the Company.

Thirteenth—As long as the said tracks, or any portion thereof, shall remain in the streets, avenues or highways, the Company shall set the curbs and pave the roadway and sidewalk and keep the same in permanent repair upon that portion of the surface of Kent avenue, between the southerly side line of North Fourth street and a point one hundred and twenty (120) feet southerly therefrom; that portion of Wythe avenue between the southerly side line of North Fourth street and a point sixty (60) feet southerly therefrom, and that portion of North Fourth street between the rails of the tracks hereby authorized in that street and for a distance of two feet beyond such rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. The City shall have the right to change the material or character of the pavement of any such streets, avenues or highways, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City officer at its own expense, and the provision as to repairs herein contained shall apply to such renewal or altered pavement.

Fourteenth—The Company shall at all times keep that portion of the surface of Kent avenue, between the southerly side line of North Fourth street and a point one hundred and twenty (120) feet southerly therefrom; that portion of Wythe avenue between the southerly side line of North Fourth street and a point sixty (60) feet southerly therefrom, and that portion of North Fourth street between the rails of the tracks hereby authorized in that street, and for a distance of two (2) feet beyond such rails on either side thereof, free and clear from snow and ice, provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clear an equivalent amount of street surface from house line to house line.

Fifteenth—Should the grades or lines of any street, avenue or highway in which said tracks are hereby authorized be changed at any time during the term of this contract, the Company shall change its tracks to conform with such new grades and lines, and during the construction of such public improvement upon such street, avenue or highway, the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the President of the Borough of Brooklyn.

Sixteenth—It is agreed that the right hereby granted to operate a railroad shall not be in preference or in hindrance to public work of the City, and should the said railroad in any way interfere with the construction of public work in the streets or avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall at its own expense protect or move the tracks and appurtenances in a manner as directed by the President of the Borough of Brooklyn.

Seventeenth—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railroad, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Eighteenth—The said railroad shall be constructed and operated in the latest approved manner of street railroad construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railroad equipment, including rolling stock and railroad appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Nineteenth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City. Before any construction shall be commenced upon any portion of the route, written permits shall be obtained from the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, and the Company shall comply with any conditions which those officials may impose as a condition upon which such permit is granted, provided such conditions are imposed for the purpose of protecting the structures over which those officials have jurisdiction.

Twentieth—The rates for carrying property upon the tracks hereby authorized shall in all cases be reasonable in amount, and shall be subject to the control of the Board, and be fixed by the Board after notice to the Company, and hearing had thereon, and when so fixed such rate shall be binding upon the Company, and no rates in excess of those fixed shall be charged for such service.

Twenty-first—The Company shall at all times keep accurate books of account of the gross earnings from all sources, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the

Company for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross earnings, total miles in operation and the miles of railroad constructed and operated under this contract and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-second—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity.

Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-third—If the Company shall fail to give efficient public service or fail to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures which may affect the surface of the streets, avenues or highways shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-fourth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroads authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or omissions of the Company.

Twenty-fifth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of three thousand dollars (\$3,000), either in money or securities, to be approved by him, which said sum shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of the construction of the railroads; and in the case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to obstruction of traffic, the maintenance of gates and flagmen, the repair of pavements and removal of snow and ice, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

*Indebtedness of Street Surface Railway Companies to City.*

The Comptroller presented the following:

*In the Board of Aldermen.*

Whereas, The development of The City of New York is being seriously retarded because of the lack of transit facilities and citizens occasioned great annoyance owing to the failure of the existing companies to afford reasonable and sufficient accommodations; and

Whereas, The recent abrogation of transfers by the street railroad companies has worked an additional hardship upon the people and emphasized the pressing need of additional subways; and

Whereas, The various street railroad companies are, and long have been, in arrears for taxes and in debt to the City; and

Whereas, The sums due are reputed to run into many millions of dollars, which if paid would go far towards enabling the City to commence subway construction; therefore be it

Resolved, That the Board of Aldermen request the Comptroller and the Chief of the Bureau of Franchises to furnish it at the earliest possible date with a complete statement setting forth the indebtedness of every kind, of all the several street railroad companies of The City of New York, with dates when such amounts became due, and full details of the measures taken and about to be taken towards effecting prompt payment; with complete data as to measures taken or about to be taken, with particular reference to the protection of the City's interests in the case of such companies as may be in the hands of receivers.

Adopted by the Board of Aldermen, January 4, 1909, a majority of all the members elected voting in favor thereof.

P. J. SCULLY, Clerk.

Which was referred to the Comptroller and to the Chief Engineer.

Hon. HERMAN A. METZ, Comptroller:

SIR—Pursuant to the provisions of a resolution adopted by the Board of Estimate and Apportionment December 11, 1908, the Clerk of the Surrogate's Court, Kings County, on December 15, 1908, filed with the Comptroller a request for the transfer of the sum of \$400 from the appropriation made for that Court for the year 1909, entitled Contingencies, being appropriation item No. 1613, to the appropriation made for the same year, entitled Salaries, being appropriation item No. 1613.

The transfer is to provide for an anticipated deficit in the appropriation for Salaries, the schedule of positions accompanying the said appropriation account in the budget for 1909 having been revised by a resolution approved by the Board of Estimate and Apportionment at its meeting held December 18, by the substitution in said schedule of the position of Chief Court Attendant at \$1,750 per annum instead of Chief Court Attendant at \$1,350 per annum.

As explained in a report made by this Bureau presented to the Board of Estimate and Apportionment on the date previously mentioned, the grade of \$1,750 for the position of Chief Court Attendant was fully established under the provisions of section 56 of the City Charter during August, 1908, and the salary of the incumbent of the said position was thereupon advanced by the Surrogate to the new grade. The salary schedule for the 1909 budget, it appears, was formulated on the basis of salaries paid June 30, 1908, as shown in the departmental estimate, and no cognizance was, therefore, taken of the advancement in the salary grade in this instance.

It appearing that the total amount of the salary schedule of the Surrogate's Court, Kings County, for 1909, has been increased by the substitution of position and grade herein previously specified, it is respectfully suggested that the Comptroller recommend the approval by the Board of Estimate and Apportionment of the request of the Surrogate for a transfer of funds so as to provide for the payment of the Chief Court Attendant at the advanced grade of \$1,750 per annum.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

D. \$517.50, as requested by the Justice, Children's Court, Second Division, from the appropriation for Salaries to the appropriation made for Supplies and Contingencies for the year 1908.

CHILDREN'S COURT, SECOND DIVISION,  
No. 102 COURT STREET, BOROUGH OF BROOKLYN,  
New York, December 29, 1908.

JOSEPH HAAG, Esq., Board of Estimate and Apportionment:

DEAR SIR—I would respectfully request the Board of Estimate and Apportionment to transfer from the Salaries account of the Children's Court (1908), Second Division, Borough of Brooklyn, to the Contingent account, the balance now standing in the Salaries account and unexpended.

The reason for this is that the filing cases now in the court will not be sufficient to hold the necessary papers which will accumulate in the court during the coming year, and if possible this necessary expense should be met at once.

The appropriation for the year 1909, as I understand it, will be required entirely for that year as provided in the budget, and consequently if this provision is not made at this time there will be no way of properly caring for the necessary public documents to be filed.

Should the members of the Board of Estimate desire, I should be glad to appear before them and explain in detail the basis of this request.

With great respect, I beg to remain,

ROBERT J. WILKIN, Justice.

The following resolution was offered:

BOARD OF JUSTICES, MUNICIPAL COURT,  
CITY OF NEW YORK,  
New York, December 30, 1908.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—Mr. Justice Fallon, the President of the Board of Justices of the Municipal Court of The City of New York, directs me to call your attention to the fact that a deficit in the salary appropriation of the present year exists in the First District Court, Borough of Manhattan, amounting to one thousand dollars, and also a similar deficit of one thousand dollars in the Fifth District Court of the same borough, while a surplus of two thousand dollars stands to the credit of the Third District Court of the same borough. The deficits referred to were partly brought about by the transfer of some of the clerical force from one court to another by the Board of Justices as provided for in chapter 603 of the Laws of 1907. The same condition applies to the First District Court, Borough of Brooklyn, where a surplus of three thousand dollars exists, while in the Sixth District Court of the same borough there is a deficit of three thousand dollars, brought about by the transfer of an Assistant Clerk by the Board of Justices from one court to the other. Will you therefore please arrange for the transfer of two thousand dollars surplus salary appropriation for the present year, from the Third District Court, Borough of Manhattan, one thousand of which is to be applied to meet the deficit in the First District Court of the same borough, and one thousand to be applied for the same purpose to meet the deficit in the Fifth District Court, Borough of Manhattan. You are also respectfully requested to arrange for the transfer of three thousand dollars unexpended salary appropriation be transferred from the First District Court, Borough of Brooklyn, to meet the present deficit of three thousand in the Sixth District of the same borough, brought about as it was by the transfer of an Assistant Clerk by the Board of Justices.

Respectfully submitted,

JAMES J. DEVLIN, Secretary.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment.

DEAR SIR—I am directed by the Commissioner to transmit herewith for your attention, copy of communication forwarded from this office to-day to his Honor the Mayor, as Chairman of the Board of Estimate and Apportionment, in relation to amending its resolution of July 29, 1903, in the matter of bond issue appropriation for placing the wires and conduits of the telegraph and alarm system of this Department underground, so that the same shall read, "For placing the wires and conduits of the telegraph and alarm system underground, including the purchase of street fire alarm signal boxes."

Respectfully,

WILLIAM A. LAWNEY, Secretary.

FIRE DEPARTMENT—CITY OF NEW YORK,  
Nos. 157 AND 159 EAST SIXTY-SEVENTH STREET,  
MANHATTAN, December 23, 1908.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman, Board of Estimate and Apportionment.

SIR—A communication dated the 22d inst. has been received by me from the Deputy Fire Commissioner, Boroughs of Brooklyn and Queens, the same reading as follows: "The Board of Estimate and Apportionment, by resolution adopted July 29, 1903, appropriated \$40,000 for placing the wires and conduits of the telegraph and alarm system underground. The said amount was placed to the credit of this Department, Brooklyn and Queens, upon the books of the Finance Department under the following title: 'Fire Department Fund for Siles, Buildings and Telegraph System, Boroughs of Brooklyn and Queens,' and vouchers amounting to \$30,215.02 have been duly forwarded and paid by the City Comptroller, leaving an unexpended balance in this account of \$9,784.92.

"Proposals were recently invited for the furnishing of seventy-five street fire alarm signal boxes, and on the 14th inst. you awarded said contract to the Gamewell Fire Alarm Telegraph Company, on their bid of \$9,375. It was supposed that this would be a valid and proper charge against the foregoing account, as one contract previously awarded included five alarm boxes; however, the Comptroller does not consider these boxes a proper charge against the aforesaid account, and, in view of the fact that these boxes are imperatively needed, and have been for the past two years,

and that we have no other available fund to charge them against, I respectfully recommend that the Board of Estimate and Apportionment be requested to amend said resolution of July 29, 1903, to read as follows: "For placing the wires and conduits of the telegraph and alarm systems underground, including the purchase of street fire alarm signal boxes."

In view of the exigencies of the case, as set forth in the above quoted report, and as the matter of the acquisition of fire alarm boxes would seem to be incidental to the placing underground of the wires and conduits of the telegraph and alarm system of this Department, I have the honor to request that the Board of Estimate and Apportionment amend its resolution of July 29, 1903, in the respect indicated.

Respectfully,

NICHOLAS J. HAYES, Commissioner.

The Comptroller offered the following resolution:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment July 29, 1903, which reads as follows:

"Resolved, That, pursuant to the provisions of chapter 76 of the Laws of 1894, as amended by chapter 751, Laws of 1896, and sections 169 and 170 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of bonds to the amount of forty thousand dollars (\$40,000), to provide means for placing wires and conduits of the Fire Department telegraph and alarm system underground, and that the Comptroller is hereby authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding forty thousand dollars (\$40,000), the proceeds whereof shall be applied to the purposes aforesaid."

—be and the same is hereby amended by striking therefrom the words "for placing wires and conduits of the Fire Department telegraph and alarm system underground," and inserting in place thereof the words "for placing the wires and conduits of the telegraph and alarm system underground, including the purchase of street fire alarm and signal boxes."

Which was adopted by the following vote:

From the President, Board of Assessors, submitting statement of proceedings pending before said Board, the authority therefor, and an estimate of the amount of damages involved, where it is possible to give such estimate.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
October 27, 1908.

To the Board of Estimate and Apportionment:

GENTLEMEN—Under and pursuant to the provisions of chapter 601 of the Laws of 1907 of the State of New York, entitled "An Act to amend the Greater New York Charter in relation to the powers of the Board of Estimate and Apportionment," I hereby certify that a claim has been presented by Lippmann & Eisman for the sum of \$1,245 alleged to be due for extra compensation for fitting up the seventh and eighth floors of the Merchants' Association Building, Nos. 66 to 72 Lafayette street, Manhattan, for the use of the Municipal Civil Service Commission; that such claim is illegal or invalid as against the City by reason of technical objections thereto; that, in my judgment, it is equitable and proper for the City to pay a part thereof, inasmuch as the City has received value therefor, and that the part of such claim as should be paid is the sum of \$802, recommended for payment in a report made by Mortimer J. Brown, Appraiser of Real Estate in this Department.

Respectfully,

H. A. METZ, Comptroller.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
October 22, 1908.

In the matter of the claim presented to the Board of Estimate and Apportionment under chapter 601 of the Laws of 1907 by Lippmann & Eisman for the sum of \$1,245 for extra compensation on account of improvement made for and on behalf of the City in fitting up the seventh and eighth floors of the Merchants' Association Building, Nos. 66 to 72 Lafayette street, Borough of Manhattan, for the purposes of the Municipal Civil Service Commission.

Hon. HERMAN A. METZ, Comptroller:

Sir—Claim No. 51529 was presented by Lippmann & Eisman as a legal obligation on the part of the City. It was alleged that the Commissioners of the Sinking Fund, at a meeting held October 2, 1907, authorized the lease of the seventh and eighth floors of the premises Nos. 66 to 72 Lafayette street, Borough of Manhattan, for the uses of the Municipal Civil Service Commission; that the resolution authorizing the lease provided that "The owners are to remove and put up furniture and fixtures from the present quarters of the Municipal Civil Service Commission at No. 51 Lafayette street"; that the City authorities believed that the City owned the said fixtures, and after investigation, after the lease was made, it was ascertained that the fixtures in the old premises were the property of the owners of the building formerly occupied, and that the claimants were thereupon compelled to incur an additional expenditure in the sum of \$1,245 in order to fit up that part of the building at Nos. 66 to 72 Lafayette street leased by the City for the Municipal Civil Service Commission. This additional expenditure of \$1,245, it was alleged, was made up as follows:

Bill of E. Hamburger & Co., partitions	\$745 00
Bill of T. Cahn (carpenter and partitions)	398 00
Pittsburgh Plate Glass Company, glass	42 00
H. Lippmann, painter	60 00
	<hr/> \$1,245 00

Milton M. Eisman was examined before the Comptroller relative to the claim herein on February 4, 1908, and testified in substance as follows:

I am a member of the firm of Lippmann & Eisman. The other member is Israel Lippmann. The Sinking Fund passed a resolution that we were to take out all the partitions and fixtures from the New York Life Building, then occupied by the Municipal Civil Service Commission, and transfer them to our building and erect them there. When we came to remove some of the fixtures there was considerable partition work which we were not allowed to take, as it was found out later that they belonged to the New York Life Building; so we informed Mr. Baker, of the Municipal Civil Service Commission, and he said go ahead and put what partitions are needed and we will see that you get reimbursed. We are the owners of the building at Nos. 66 to 72 Lafayette street, Borough of Manhattan. We became the owners of the ground in 1905 and built the building, which was completed in January, 1907. About October, 1907, the Commissioners of the Sinking Fund authorized the lease of the seventh and eighth floors of that building from us for the use of the Municipal Civil Service Commission. The Commission before that time was in the New York Life Building, at the corner of Leonard and Lafayette streets, Borough of Manhattan, known as No. 51 Lafayette street. They occupied the third and fourth floors. Under the terms of the lease we were directed to remove and put up on the seventh and eighth floors of our building the furniture and fixtures of the Municipal Civil Service Commission that were at No. 51 Lafayette street. We did so, but we could not remove all the furniture and fixtures. We removed part, not all, because we were not allowed to. The superintendent of the New York Life Building would not allow us, and we went to the head of the Municipal Civil Service Commission, Mr. Baker, who went up and found that some of the partitions did not belong to the City that he had thought did. We removed all the desks and chairs and part of the partitions. All these belonged to the City. There were considerable partitions removed. I should think about three-quarters were removed and set up again on the seventh and eighth floors of the building Nos. 66 to 72 Lafayette street. When we started to take certain fixtures we were stopped by force by the superintendent of the New York Life Building, who claimed that they did not belong to the City. They were on the third and fourth floors of the building No. 51 Lafayette street. According to the resolution, we had the power to take the furniture and fixtures in the rooms that were used by the Municipal Civil Service Commission and put them up on the seventh and eighth floors of the building No. 66 Lafayette street. When we could not get these partitions we stopped work and naturally could not finish the work in our building, as they wanted it. Then some of the City officials tried to get these partitions, and must have come to the conclusion that they had no right to them, and they told us to go ahead and buy whatever partitions and fixtures we needed and send the bill. Mr. Baker and Mr. Spencer told me that Mr. Spencer is Secretary of the Municipal Civil Service Commission. This was in writing. We did not get any order from anybody else. On what they told us we bought some partitions and some glass and had some painting done. The partitions we bought from E. Hamburger & Co. and their bill amounted to \$745. We owe them \$345 on that bill. The bill of Theodore Cahn is for labor in putting up new partitions in the rooms of the Civil Service Commission at Nos. 66 to 72 Lafayette street. He was the carpenter. There is no charge for partitions in that bill. All the partitions were bought from E. Hamburger & Co. In the statement of claim it appears "Bill of T. Cahn, carpenter and partitions." In one room, the Examiner's room, called Mr. Ireland's room, the partitions did not go up to the ceiling, and the Commissioner requested us to partition it up to the ceiling. We refused to do it until Mr. Baker told us that he would see that we would be paid, and that partition work was built by Mr. Cahn and included in the bill of \$398. We have not paid this bill. The bill of H. Lippmann, amounting to \$60, is for painting and varnishing partitions in the rooms of the Municipal Civil Service Commission, Nos. 66 to 72 Lafayette street. This bill has not been paid. The two bills of the Pittsburgh Plate Glass Company, one for \$11.35 and the other for \$30.65, are for materials supplied for use in these same rooms. These bills have not been paid. All these bills are for work and materials which we consider we were obliged to furnish under the directions of Mr. Baker and Mr. Spencer in fitting up the offices at Nos. 66 to 72 Lafayette street. They are the usual market prices for the articles. On the partitions we had different bidders and gave the bid to Hamburger & Co., as they were the lowest bidders for the class of work we wanted. There were two other bidders besides this firm. There is no additional charge for profits added to this bill. The price for labor is the usual and ordinary price for such work. H. Lippmann is the brother of Israel Lippmann, the other member of this firm, but he has no interest in this building. These premises are now occupied by the Municipal Civil Service Commission, who took possession on October 12, 1907. This glass that was used about the place had nothing to do with the building itself. It was glass put in the new partitions. These partitions are very expensive, for the reason that they slide on tracks and have ball bearings, on account of the fact that these rooms are used for physical examinations, and when they have large examinations they slide all these partitions back and arrange the chairs and desks in the large room and use it for examination purposes, and on account of the partitions being sliding partitions they cost at least 40 per cent. more than the regular partitions. The orders were carried out under the Commissioner's directions. The partitions in the old building did not have these sliding doors. We could have used the old partitions by simply putting down tracks, and the additional cost would have been about \$100. These fixtures are bought by the square foot. There are about 7,000 square feet on each floor, making 14,000 square feet, and possibly more, on both floors. About one-quarter of the 3,500 square feet required partitions. There were all on the seventh floor. The Civil Service Commission measured the floors for these partitions. In a report relative to the claim herein, dated June 11, 1908, Mr. James J. Deegan, an Examiner of the Bureau of Law and Adjustment of this Department, stated that no written order or requisition was given for the labor and materials embraced in the claimants' bill nor were any bids solicited for the work done by the claimants. Mr. Baker, formerly President of the Municipal Civil Service Commission, informed the Examiner that the work specified in the claim herein was done under orders issued to the claimants by him after a consultation with the Comptroller, which was participated in by Samuel H. Stone, of No. 100 Broadway, who was the agent for the claimants; that at said consultation Mr. Stone stated that the materials and labor would cost about \$1,200, and that it was emergency work which had to be done immediately so that the business of the Civil Service Commission might go on; that "the Comptroller agreed with me that it was best to order it done verbally, instead of waiting to go through the red tape of asking the Sinking Fund Commission to act," that "the materials furnished and the work done was first class in every respect, and the charges for the same I consider very reasonable," and "it is my belief and desire that this claim should be paid, as the expense of fitting up the new quarters of the Municipal Civil Service Commission at No. 66 Lafayette street was very much increased by a misstatement made by Mr. Spencer and myself under a misapprehension of the facts involved."

Examiner Deegan stated further that Samuel H. Stone, agent for the claimants, informed him that he was present at the conference between the Comptroller and Mr. Baker when the question of the fitting up of the quarters of the Civil Service Commission at No. 66 Lafayette street was discussed, and that the Comptroller asked Mr. Stone what the amount of the additional expenditures would be, and that the Comptroller was informed that it would be between \$1,200 and \$1,500; that Mr. Baker explained that he was very anxious to have the work done speedily, as the rooms were needed for the purposes of the Commission; whereupon the Comptroller and Mr. Brown, of the Real Estate Bureau, who was also present, stated: "Go on and have the work done and the money expended will be paid," that in accordance with said order the work was done.

Examiner Deegan also reported that he had ascertained by inquiry at the offices of the business houses which had submitted bills to the claimants that the goods for which charge had been made were delivered at No. 66 Lafayette street for use in the rooms to be occupied by the Civil Service Commission, and that the bills were subsequently paid.

In a report transmitted herewith, dated October 14, 1908, made by Mortimer I. Brown, Appraiser of Real Estate in the Department of Finance, it is stated: "The Commissioners of the Sinking Fund at a meeting held October 9, 1907, authorized

the lease of the entire seventh and eighth floors of the building Nos. 66 to 72 Lafayette street for the use of said Commission. The resolution provided, among other things, that the owners were to remove the old furniture and fixtures belonging to the Commission, located in the building No. 51 Lafayette street, and to put up the same in the new quarters, Nos. 66 to 72 Lafayette street. At the time of the adoption of the resolution I was informed and believed that the City was the owner of all the fixtures and furniture in the building No. 51 Lafayette street, but after the lease was executed and the owners attempted to remove the partitions, railings and furniture, it was discovered that part of the fixtures had to be furnished by said owners, which was not contemplated by the lease. On the removal of the partitions it was discovered that about 91 feet was not owned by the City, and this had to be supplied by the lessor. I understand that there was about 157 feet 2 inches of 7-foot high new partitions, glass tops and solid ceiling board for part of said partitions. The Engineer of the Department of Finance gives an estimate to supply the additional partitions not required by the lessor to supply, not to exceed the sum of \$700. This, in addition to the bill of the Pittsburgh Plate Glass Company and the painter, amounting to \$102, would make the sum of \$802. There was a sum of money allowed in the lease as rental to cover the removing of the partitions, the additional desks and the setting up of the same. On the expiration of the lease all the property would remain the property of The City of New York—that is, partitions, desks, chairs and other furniture to be put in by the lessor. I am of the opinion that if Messrs. Lippmann & Eisman should be paid the sum of \$802 it will cover all the additional expense to which they have been obligated."

Attention is directed to the following provision of the lease, dated the 16th of October, 1907, executed by "Israel Lippmann and Milton M. Eisman, composing the firm of Lippmann & Eisman, hereinafter designated as the party of the first part, and The City of New York, party of the second part, acting by and through Herman A. Metz, Comptroller of The City of New York," namely:

"The party of the first part further covenants and agrees at their own expense to remove the furniture and fixtures from the present quarters of the Municipal Civil Service Commission, at No. 51 Lafayette street, Borough of Manhattan, and put up and install the same in the premises herein demised, to furnish shades for the windows and such additional desks and partitions as may be needed by the party of the second part. The party of the first part further covenants and agrees that the partitions and desks supplied to the herein demised premises shall become the property of the party of the second part upon the expiration of the within lease or any renewal thereof."

In a communication transmitted herewith, dated October 7, 1908, addressed to you by Lippmann & Eisman it is stated: "In reference to Civil Service quarters in the Merchants' Association Building, Nos. 54 to 60 Lafayette street, Borough of Manhattan, and referring to our claim for extra compensation on account of improvements made for and on behalf of the City, on advice of the City's officials that we would be recompensed for the additional money expended by us in the Merchants' Association Building, Nos. 54 to 60 Lafayette street, for the purpose of installing the Civil Service Department on the seventh and eighth floors in said building, we ask you please to bring this claim before the Board of Estimate and Apportionment, under the Laws of New York, 1907, chapter 601. This claim is equitable and proper for the City to pay, and the matter has now been so long pending that we think it but fair to ask for immediate settlement. We have paid the bills for the additional fixtures as requested and performed our agreement and made the extra expenditure necessitated, being assured that the City would repay to us the amount of money required to install the necessary additional fixtures, etc."

In view of such application this report is submitted to you for your consideration and such action as may be appropriate under chapter 601 of the Laws of 1907.

Respectfully,

JOS. L. HANCE, Auditor of Accounts.

Approved:

J. T. MAHONEY, Chief, Bureau of Law and Adjustment.

H. A. METZ, Comptroller.

Which was laid over for the next meeting of the Board.

(On December 4, 1908, a communication from the Change of Grade Damage Commission requesting an appropriation of \$18,300 for the above purpose was referred to the Comptroller.)

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,  
TRIBUNE BUILDING, No. 154 NASSAU STREET,  
NEW YORK, December 8, 1908.

To the Board of Estimate and Apportionment of The City of New York:

SIRs—Requisition is hereby made upon you, pursuant to the provisions of section 14 of chapter 429 of the Laws of 1907, and section 10 of chapter 4 of the Laws of 1891, as amended, by the Public Service Commission for the First District for the sum of nine hundred and eighty-seven thousand five hundred dollars (\$987,500), which is requisite and necessary to enable the said Public Service Commission for the First District to do and perform, or cause to be done and performed, the duties in said acts prescribed and to provide for the expenses and compensation of the employees of such Commission for the year ending December 31, 1909.

Appended hereto is a copy of the resolution of the Public Service Commission for the First District, authorizing the execution of this requisition, and a communication showing the purposes to which it is intended to apply the appropriation for which this requisition is made.

In witness whereof, the Public Service Commission for the First District has caused this requisition to be subscribed by its Chairman and Secretary and its official seal to be hereto affixed this 8th day of December, 1908.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,  
W. R. WILCOX, Chairman.

TRAVIS H. WHITNEY, Secretary.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,  
TRIBUNE BUILDING, No. 154 NASSAU STREET,  
NEW YORK, December 8, 1908.

To the Board of Estimate and Apportionment of The City of New York:

SIRs—The Public Service Commission for the First District in pursuance of a resolution of the Commission adopted December 8, 1908, transmit to you herewith and as part hereof a requisition for the sum of \$987,500, the amount requisite and necessary to enable it properly to do and perform, or cause to be done and performed, the duties prescribed by chapter 429 of the Laws of 1907, and chapter 4 of the Laws of 1891, as amended, for and during the year ending December 31, 1909.

The purposes for which such moneys are required are as follows:

Rental, including telephones.....	\$64,000 00
Furniture .....	5,000 00
Special services and investigations.....	50,000 00
Contingencies .....	5,000 00
Executive, Engineering, Statistics, Franchises, Gas and Electricity, and Inspection Bureaus and Departments, Salaries and Disbursements, including stationery, supplies, printing, maps, plans, engineering supplies and library .....	863,500 00
Total.....	\$987,500 00

Under the Rapid Transit Act, the Commission is supervising extensive improvements at Ninety-sixth street, which will greatly enlarge the capacity of the subway constructed under Contract No. 1, made with John B. McDonald, and additional station facilities at Bowling Green under Contract No. 2, which will make possible an increase in the service in Brooklyn.

On Route 90, being the loop line connecting the Manhattan terminals of the three bridges, construction work is now in progress on all of the five sections, and will continue during the coming year, requiring extensive supervision.

Plans are being prepared for the Broadway-Lexington avenue route, the Canal street extension and for Broadway, Brooklyn.

There are now under way or about to be begun, arbitration proceedings arising out of Contracts Nos. 1 and 2, as well as out of the loop contracts, the expense of which cannot at this time be anticipated. Nor does this Commission at this time estimate the expenses that may necessarily arise from the commencement during the coming year of subway construction for which contracts are not now authorized, or from the additional work that may be necessary after the present injunction is renewed as to gas companies, and the decision by the Supreme Court of the United States of the case now before it.

In addition to the powers and duties as to uncompleted work and new work under the Rapid Transit Act, the exercise of the new and additional powers under the Public Service Commission Law with reference to railroads, common carriers, gas and electric companies, their capitalization, service and rates, and the inspection of gas meters and of locomotive boilers, have made investigations and orders necessary to the proper supervision and control of said corporations, and like investigations and orders will be requisite during the coming year, as well as actions and proceedings in the Courts. The Commission now has under way an appraisal of the property, tangible and intangible, of various street railway companies within the City.

The salaries of the members of this Commission, its Counsel and its Secretary, are paid by the State of New York, and are not included in this requisition.

The Public Service Commission for the First District, therefore, makes requisition, in accordance with the statutes above mentioned and under the said resolution passed, for the sum of nine hundred and eighty-seven thousand five hundred dollars (\$987,500), to cover necessary and requisite estimated expenses for the year ending December 31, 1909, for the purposes as aforesaid.

Respectfully yours,

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,  
W. R. WILCOX, Chairman.

TRAVIS H. WHITNEY, Secretary.

At a session of the Public Service Commission for the First District, held at No. 154 Nassau street, Borough of Manhattan, City of New York, on Tuesday, December 8, 1908.

Present—William R. Wilcox, Chairman; William McCarroll, Edward M. Bassett, Milo R. Maltbie, John E. Eustis, Commissioners.

Resolved, That the Chairman and Secretary of the Public Service Commission for the First District be and they hereby are authorized to make requisition upon the Board of Estimate and Apportionment of The City of New York for the sum of nine hundred and eighty-seven thousand five hundred dollars (\$987,500), the amount which is requisite and necessary to enable the Public Service Commission for the First District to do and perform, or to cause to be done and performed, the duties for the said Commission prescribed and to provide for the expenses and compensation of the employees of the said Commission for and during the year ending December 31, 1909, and to execute and sign a formal requisition for the said amount and a communication, which are herewith presented.

I, Travis H. Whitney, Secretary of the Public Service Commission for the First District, do hereby certify that I have compared the above resolution with the original, and that it is a correct transcript therefrom and of the whole of the original.

In testimony whereof I have hereto subscribed my hand and affixed the seal of the Commission this 8th day of December, 1908.

TRAVIS H. WHITNEY, Secretary.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
December 27, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Regarding the matter of the requisition of the Public Service Commission of the First District to the Board of Estimate and Apportionment for an issue of

Special Revenue Bonds in the amount of \$987,500, to provide funds for the payment of the expenses of said Commission during the year 1909, I beg to report as follows:

This requisition is based upon the following statement by the Commission of its needs for the year:

Rental, including telephones.....	\$64,000 00
Furniture .....	5,000 00

It is evident that the meagre information contained in this statement as to the purposes for which the Commission requests the aforesaid sum affords no proper basis upon which to make an intelligent report regarding the actual needs of the Commission, and a letter has therefore been sent to the Chairman of the Commission asking that further details be furnished this office both as to the Commission's actual expenditures during the present year and its proposed expenditures for 1909.

As some weeks will probably be required for the preparation and proper analysis of such detailed statement, during which time the Commission's payrolls and other expenses will have to be met, it is respectfully recommended that a temporary allowance in the sum of \$300,000 on account of its requisition for 1909 expenses be granted to the Commission by the Board of Estimate and Apportionment.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 10, chapter 4 of the Laws of 1891 as amended, and section 14 of chapter 429 of the Laws of 1907, and on account of the requisition of the Public Service Commission for the First District for an appropriation of \$987,500, duly made by the Chairman and Secretary thereof, on December 8, 1908, the sum of three hundred thousand dollars (\$300,000) be and is hereby provided to meet the requirements of said Commission during the year 1909; the unexpended balance of any previous appropriation made by this Board upon the requisition of said Commission or by the former Board of Rapid Transit Commissioners to be applied to the same purpose; and be it further

Resolved, That for the purpose of providing for the payment of so much thereof as may be in excess of said unexpended balance, the Comptroller be and is hereby authorized and directed to issue and sell Special Revenue Bonds of The City of New York to an amount not exceeding three hundred thousand dollars (\$300,000), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, Queens and Richmond, and the Acting President of the Borough of The Bronx—10.

The Secretary presented the following communication from the Supervisor of the City Record, requesting an issue of \$4,000 Special Revenue Bonds (pursuant to subdivision 7, section 188 of the Greater New York Charter) to meet expenses of publishing calendars and notices for courts of record in the County of New York, together with report of the Comptroller (to whom this matter was referred on December 11, 1908) recommending the issue as requested:

BOARD OF CITY RECORD, OFFICE OF THE SUPERVISOR,  
NEW YORK, December 7, 1908.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—Section 230, subdivision 7, Greater New York Charter, requires the Board of Estimate and Apportionment to make provision for defraying the expenses of printing calendars, etc., in the "New York Law Journal."

In preparing the new form of Budget for 1908, appropriation separate sums for specific purposes, this item was overlooked.

The Corporation Counsel in an opinion written May 15, 1908, advises as follows: "If the expense of the publication of calendars in the 'Law Journal' was included in the items of the estimates submitted by the City Record, or by the Supreme Court, then payment should be made out of the appropriation for the City Record, or the Supreme Court, as the case may be. If such be not the fact, then payment of such expense should be made from the proceeds of special revenue bonds issued under the provisions of subdivision 7 of section 188 of the Charter."

No appropriation for 1908 available for the payment of such claims was made to the Board of City Record, or to the Supreme Court, First Department, New York County.

The expense of this work under agreement of May 9, 1882, is \$4,000 per year, chargeable against the County of New York, to be paid in the same manner as the expenses of printing and stationery for the use of the Supreme Court, First Department.

I am directed by the Comptroller to present the facts to the Board of Estimate and Apportionment, with a request that provision be made by the issue of Special Revenue Bonds under subdivision 7 of section 188 of the Greater New York Charter.

Respectfully submitted,

PATRICK J. TRACY, Supervisor.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
December 17, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—In regard to the communication of the Supervisor of the City Record, dated December 7, 1908, containing request for the issue of Special Revenue Bonds to the amount of \$4,000 to meet the expense of publishing calendars and notices for courts of record in New York County for the year 1908, referred to the Comptroller and by you to this bureau for examination I beg to report as follows:

The expense for which provision is asked to be made is that incurred pursuant to provisions of sections 1093 and 1094 of chapter 410 of the Laws of 1882, provision for payment of which is required, by subdivision seventh of section 230 of the Charter, to be included in the annual estimate. Owing to the making of changes looking to further segregation of budget appropriations, the estimate for 1908 failed to include this item of expense and no provision for the payment thereof was made in the budget or otherwise.

In an opinion rendered May 15, 1908, the Corporation Counsel advised the Supervisor of the City Record that under the circumstances stated "payment of such expense should be made from the proceeds of Special Revenue Bonds issued under the provisions of subdivision 7 of section 188 of the Charter."

The said expense for the year will amount to \$4,000, and it is, therefore, recommended that bonds to that amount be issued to meet the same.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

Resolved, That pursuant to the provisions of subdivision 7 of section 230 of the Greater New York Charter, the Board of Estimate and Apportionment hereby appropriates the sum of four thousand dollars (\$4,000) to meet the expense of publishing calendars and notices for courts of record in the County of New York for the year 1908, no other provision having been made thereto, and that for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 7 of section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York, in the amount of four thousand dollars (\$4,000), redeemable from the tax levy of the year succeeding the year of their issue.

The Secretary presented a report of the Comptroller, relative to the request of the Board of Trustees of Bellevue and Allied Hospitals for an appropriation of \$4,700 for the purpose of providing a temporary receipt office at the gate of Bellevue Hospital and the erection of a transfer room in the rear of the present admitting office, suggesting that said Board of Trustees apply to the Board of Aldermen for an issue of Special Revenue Bonds (subdivision 8, section 188 of the Charter), in said amount, to provide for payable bonds to be used for the above purposes.

Which was ordered on file and a copy of the report sent to the Board of Trustees, Bellevue and Allied Hospitals.

(On December 11, 1908, the request of the Board of Trustees of Bellevue and Allied Hospitals, as above, was referred to the Comptroller.)

The Secretary presented the following communication from the President of the Park Board, requesting the transfer of the position and grade of Stenographer and Typewriter at \$1,080 per annum, in the salary schedule accompanying the appropriation in the Budget for 1909, item No. 738, Park Board, General Administration, to item No. 739, Department of Parks, Boroughs of Manhattan and Richmond, Administration—Salaries and Wages, together with report of the Comptroller (to whom this matter was referred on December 11, 1908), recommending the transfer as requested:

THE CITY OF NEW YORK—DEPARTMENT OF PARKS,  
ARSENAL, CENTRAL PARK,  
December 3, 1908.

To the Board of Estimate and Apportionment, The City of New York:

GENTLEMEN—Enclosed herewith please find resolution of the Park Board requesting that \$1,080 for Stenographer and Typewriter, be transferred from the Park Board appropriation to this Department for the Boroughs of Manhattan and Richmond, where this salary has heretofore been paid.

It was the intention of the Park Board to have this salary charged to the Park Board, and application was made some time ago for the establishment of the grade. Inasmuch, however, as no action has been taken on the grade, in order to pay the incumbent it will be necessary to place the money in the appropriation from which it was formerly paid, namely, in the Boroughs of Manhattan and Richmond.

No increase in the Budget appropriation is herein asked for.

Respectfully,

HENRY SMITH, President, Park Board.

Resolved, That the President of the Board be and he hereby is authorized to request the Board of Estimate and Apportionment to transfer from the Park Board appropriation for 1909 to the appropriation for the Boroughs of Manhattan and Richmond the sum of \$1,080, for the services of Stenographer and Typewriter of the Park Board.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
December 15, 1908.

Hon. HENRY A. METZ, Comptroller.

Sir—At a meeting of the Board of Estimate and Apportionment held December 11, 1908, a communication was received from the President of the Park Board requesting that the sum of \$1,080 be transferred from the appropriation made in the Budget for 1909 for the Department of Parks, entitled Park Board, General Administration, Salaries, to the appropriation entitled Boroughs of Manhattan and Richmond, Administration, Salaries and Wages, said request being referred to the Comptroller for consideration and report.

It appears that under date of June 23, 1908, the Board of Estimate and Apportionment received a request from the President of the Park Board for the establishment of the position of Stenographer and Typewriter in the Park Board at a salary of \$1,080 per annum.

The purpose of this request was to provide the additional position of Stenographer and Typewriter to do the work of the Park Board, a Stenographer attached in the office of the Commissioner and paid from an appropriation made for the Boroughs of Manhattan and Richmond having for some time past been required to do the Park Board stenographic work. The request, which was referred to the Comptroller and the President of the Board of Aldermen for consideration, is still in the hands of that Committee, no action thereon having been taken; meanwhile the Budget for 1909 with accompanying salary schedules, has been approved. Among the said schedules is that accompanying appropriation account (No. 738), Park Board, General Administration, Salaries; in this there has been provided the position of Stenographer at \$1,080 per annum. This would have the effect of providing an additional Stenographer; but, inasmuch as the position has never been created under the provisions of section 56 of the City Charter for the Park Board, the amount so appropriated cannot be utilized. The Park Board now requests that the position of Stenographer at \$1,080 per annum, at present included in Schedule No. 738, be transferred to Schedule No. 739, accompanying the Salaries and Wages appropriation for the Commissioner's office for the Boroughs of Manhattan and Richmond.

In view of the facts as herein stated, I would respectfully suggest that the Comptroller recommend to the Board of Estimate and Apportionment the approval of this request.

Yours respectfully,

CHARLES S. HIGVEY, Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That the position and grade of Stenographer and Typewriter, at ten hundred and eighty dollars (\$1,080) per annum, specified in the schedule of positions accompanying appropriation item No. 739, Park Board, General Administration, in the Budget for 1909, be and the same is hereby transferred and included in the schedule accompanying appropriation item No. 739, Department of Parks, Boroughs of Manhattan and Richmond, Administration, Salaries and Wages, for the same year.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, six Presidents of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, Queens and Richmond and the Acting President of the Borough of The Bronx—16.

The Secretary presented a report of the Comptroller relative to the request of the Hudson-Fulton Celebration Commission for an appropriation of \$300,000 toward the expenses of the celebration to be held in September, 1909, stating that in his opinion the act under which the said Commission was created does not specifically authorize the Board of Estimate and Apportionment to appropriate money for the purpose of carrying out the objects of the Commission, and as it does not seem proper to issue Corporate Stock for the ceremonies connected with said celebration, suggesting that the Secretary of the Hudson-Fulton Celebration Commission be notified to apply to the Board of Aldermen for an issue of Special Revenue Bonds under the provisions of subdivision 8, section 188 of the Charter, for an appropriation for said purpose.

Which was ordered on file and a copy of the report sent to the Secretary of the Hudson-Fulton Celebration Commission.

(On December 18, 1908, the request of the Hudson-Fulton Celebration Commission for the above appropriation was referred to the Comptroller.)

The Secretary presented the following communication from the Commissioner of Water Supply, Gas and Electricity, requesting an appropriation of \$170,000 for remodeling and extending the high pressure pumping stations at Jerome avenue, at One Hundred and Seventy-ninth street and at Ninety-eighth street, Manhattan; communication from the Washington Heights Taxpayers' Association endorsing said request, together with report of the Comptroller (to whom the communication from the Commissioner of Water Supply, Gas and Electricity was referred on November 13, 1908), recommending the issue of \$170,000 Corporate Stock for said purpose:

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
COMMISSIONER'S OFFICE, NOS. 13 TO 21 PARK ROW,  
NEW YORK, November 5, 1908.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment.

Sir—This Department has for a long time received constant complaints, both from private individuals and local associations, of lack of adequate pressure in the upper districts of Manhattan, east of Third avenue, with demands, more and more pressing, to remedy existing conditions, and among the measures taken by our citizens in the affected districts to secure better service, a resolution was presented on their behalf to, and was adopted by, the Board of Aldermen on March 20, 1908, requesting the Board of Estimate and Apportionment to appropriate the necessary funds for the construction and maintenance of a high service pumping station on portion of the lands now owned by the City, situated along the East River, between Nineteenth and Ninety-first streets, Borough of Manhattan.

This resolution was referred to the Comptroller, who, on June 26th ult., reported against the proposed location of the new high service pumping station and suggested that there was sufficient room under the Blackwells Island Bridge for that purpose, and that this Department might make application to the Department of Bridges for sufficient ground to build said station.

Estimated cost of the work for repairing and remodeling the high service pumping stations at Jerome avenue, One Hundred and Seventy-ninth street and Ninety-eighth street, so as to provide for the safe and efficient operation of the same and supply the increased demand for greater pressure in districts now supplied from the lower and reservoir high services.

(Extract from the report of Chief Engineer of the Department to the Commissioner of Water Supply, Gas and Electricity.)

I am of the opinion that the erection of a new high service station, either in the locality above suggested or in any other one in that vicinity, would be wasteful and dilatory. Instead of building an entirely new high service pumping station, installing the necessary plant and manning the same with the requisite force to operate it, a large saving, both in time, cost of installation and expenses of maintenance and operation, will be secured by the simpler plan of increasing the pumping capacity of our present high service pumping stations and remodeling and repairing the latter as required so as to obtain the maximum efficiency at a minimum cost for maintenance and operation.

Under my directions the Chief Engineer of this Department has submitted to me a report with the necessary estimates to carry out the plan above outlined. From these estimates, copy of which is attached hereto, it will be seen that the total cost of the work proposed is estimated at \$370,000, of which \$200,000 have already been appropriated, thus leaving a balance yet to be provided for of only \$170,000.

The extension and remodeling of the high service pumping stations herein outlined can be completed in from eight to ten months after the contractors begin work, so that if the appropriation for this purpose is promptly granted and no unnecessary delay arises, the plant can be in operation and our citizens in the Eastern districts of Manhattan will secure the relief they pray for next summer.

I recommend the adoption of the resolution attached hereto, providing for the necessary funds to carry out the work herein referred to.

Respectfully,

JOHN H. O'BRIEN, Commissioner.

WASHINGTON HEIGHTS TAXPAYERS' ASSOCIATION,  
BROADWAY, CORNER ONE HUNDRED AND FIFTY-SEVENTH STREET,  
NEW YORK, December 29, 1908.

Hon. GEORGE B. MCCLELLAN, Chairman, Board of Estimate and Apportionment, City Hall, Manhattan.

DEAR SIR—I am directed to ask the favorable consideration of the Board of Estimate in the matter of the application of the Department of Water Supply for the appropriation of \$170,000 for the purpose of additional apparatus designed to provide

an adequate water supply on Washington Heights, especially between One Hundred and Fifty-seventh street and One Hundred and Sixty-eighth street, a section which is now suffering very much from lack of water.

This matter has been discussed in detail by a committee of our association with the departmental officers, and the expenditure above named appears to be the only means by which the relief from the present shortage can be secured.

In view of the importance of an adequate supply of water to our growing community and to the general health and property interests of this locality, we venture earnestly to beg that this matter may be regarded as one of prime importance, especially as we understand that the expenditure incurred for such purposes does not come within those which affect the limitation of the debt of the City.

I am,

Yours very respectfully,

REGINALD PELHAM BOLTON, Secretary.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
December 22, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. John H. O'Brien, Commissioner, Department of Water Supply, Gas and Electricity, in communication under date of November 5, 1908, requests the Board of Estimate and Apportionment to authorize the issue of Corporate Stock to the amount of \$170,000 for the purpose of extending and remodeling the high service pumping stations at Jerome avenue, One Hundred and Seventy-ninth street and Ninety-eighth street, in the Borough of Manhattan, to supply an adequate pressure in the upper districts of Manhattan, east of Third avenue. I would report:

Commissioner O'Brien, in his communication, states that frequent complaints have been made by property owners and local associations of lack of adequate pressure in the upper districts of Manhattan, east of Third avenue, and with the view of securing better service, a proposition was presented to the Board of Aldermen on March 20, 1908, requesting the Board of Estimate and Apportionment to appropriate the necessary funds for the construction and maintenance of a high-service pumping station on lands now owned by the City, situated along the East River, between Ninetieth and Ninety-first streets, Borough of Manhattan.

This proposition being presented to the Board of Estimate and Apportionment, was reported against by the Comptroller of The City of New York, who suggested in lieu thereof that a high-service pumping station might be constructed under the Blackwells Island Bridge, and advised that the officials of the Department of Water Supply, Gas and Electricity make application to the Department of Bridges for sufficient ground to build the said high-pressure pumping station. This proposal did not meet with the approval of the officials of the Department of Water Supply, who thought that the increased demand for a greater water pressure might be furnished by the improving and repairing of pumping stations already in existence.

The pumping stations referred to are located at Jerome avenue and Two Hundred and Seventh street, One Hundred and Seventy-ninth street, near Amsterdam avenue, and Ninety-eighth street, near Columbus avenue, respectively.

Commissioner O'Brien forwards with his request an excerpt from the report of the Chief Engineer of the Department of Water Supply, in which the repairs and improvements referred to are itemized and described.

It is estimated that the cost of the work proposed will be about \$170,000, of which \$200,000 is now on hand, which leaves a balance yet to be provided of \$170,000. The Commissioner says that the extension and remodeling of these pumping stations can be completed in from eight to ten months after the contractors begin work.

In the statement of the Chief Engineer it is shown that new engines, new boilers, new suction and discharge piping, etc., are to be installed, which, without doubt, will greatly increase the efficiency of these stations. As regards the necessity for the work proposed, examination shows, considering the several items separately, as follows:

#### Jerome Avenue Pumping Station.

Item No. 1, repairs to building, etc., \$10,000.

The Board of Water Supply are about to install two new engines in this station, which are to be located in the basement (about 30 feet below the street level), and in order to light and ventilate this portion of the building it will be necessary to widen the arway on at least two sides, and also to cut through the granite side walls for the windows, pipe inlets and discharge lines, and to place over the arway covers bulbeye lights. The present floor of the engine room should also be entirely relaid. The amount asked for this work does not appear to be excessive.

Item No. 2, building coal bunker and making it fireproof, \$5,000.

The interior of the present coal bunker is mostly composed of timber structure used as a passway for coal cars, etc. It is intended to remove this and substitute either steel or concrete structure, or possibly erect a coal conveyor. Either method will be of great advantage and lessen the danger from fire.

#### One Hundred and Seventy-ninth Street Pumping Station.

Item No. 3, new boilers, \$55,000.

I am informed that a contract is now in force amounting to \$41,900 covering this item. Four new boilers are to be installed under the contract.

Item No. 4, new (additional) discharge lines, \$15,000.

A new line is proposed to reinforce several separate lines. The station is now depending on one discharge, and should a break occur in this, pumping would have to cease until the repairs could be completed. The estimated cost is intended also to cover the necessary overhauling of the present discharge lines which supply a large area of Washington Heights property and is very necessary for the high-service system.

Item No. 5, new (additional) suction line, \$10,000.

There is but one suction line to supply the several pumps employed in this station. It is intended to create an independent line connecting near shaft No. 26, to enter the building near the present suction tank, and so arrange throughout the building that should the old line fail an uninterrupted flow will still be carried to the pumps and distributed as usual. This improvement I consider desirable.

Item No. 5, additional pumping engines and apparatus, \$60,000.

In consequence of the rapid building operations within the area covered by this station for high-pressure it has been found that the present capacity of the pumps now in use is insufficient to properly supply the district. These additional pumps I believe are necessary.

Item No. 7, rearranging suction and discharge lines for same and remodeling present suction and discharge lines, \$20,000.

The above amount is required to provide for the rearrangement of lines within the station proper and in the tunnel from the station to the main, with additional engines and pumps these rearrangements will be necessary.

Item No. 8, remodeling building, \$10,000.

If the engines above referred to are installed it will be necessary to provide house room for them. To accomplish this it will be necessary to either build an addition on the south side or end of the present building, or to utilize the west end of the boiler room. The amount asked for in either case will probably be necessary.

Item No. 9, new storehouse, \$30,000.

It is proposed to construct a brick building one story high, 144 feet long and 35 feet wide, intended for a general storage depot for materials required in the various stations. This building will be subdivided into oil rooms, supply rooms, carpenter shop, machine shop, where repairs to small machinery may be made at short notice. This building, the Department claims, will be necessary.

#### Ninety-eighth Street Pumping Station.

Item No. 10, new roof on engine room, boiler house, etc., \$35,000.

The present roof is a gable structure, built of wood, covered with metal. It leaks badly and is not fireproof. Should the roof burn, the damage to pumps would probably be great.

The amount named is intended to cover the structure of a new flat roof with ventilators. The construction is to be of steel, and I have been informed that there is also sufficient included in the said amount to provide for the erection of a crane in the engine room.

Item No. 11, setting boilers and appurtenances, \$8,000.

The amount named is to provide for foundation, setting, altering necessary connection pipes, etc., and is necessary.

Item No. 12, fireproof runway and remodeling of coal bunker, \$7,000.

It is proposed to remove the present timber runway in the coal bunkers in the building between Ninety-sixth and Ninety-seventh street, and reconstruct the same either of steel or of concrete. Should a fire occur in the present structure there is great danger that the entire building would be destroyed.

Item No. 13, new engines and appurtenances, \$60,000.

There are at present in this station two old engines that have been in use for over twenty years, and which it is proposed to replace with two new ones of much higher efficiency. These new engines, it is claimed, will greatly increase the supply at much smaller cost.

Item No. 14, new suction and discharge piping, \$25,000.

It is intended with the above named amount to provide an additional suction inlet and additional discharge lines; also, as far as possible, to improve and repair the lines now in use. In the present condition, should a break occur in either line, the supply from this station will probably have to cease until repairs have been made.

Item No. 15, engineering and contingencies (10 per cent.), \$34,000.

This item is uncertain, and is liable to be increased or considerably decreased. Engineering should not cost nearly the amount named, but some of the other items may exceed the estimated cost and thus become chargeable to the account of Contingencies, and also it is possible that some things have been omitted which it would be found necessary to include when the work was actually performed. Considering the actual cost of the work, I think the amount named for Engineering and Contingencies may safely be allowed.

In view of the conditions found to exist at the pumping stations and the necessity for better service in the affected districts, I would recommend that the Board of Estimate and Apportionment authorize the Comptroller, pursuant to section 47 of the amended Greater New York Charter, to issue Corporate Stock to the amount of \$170,000, to provide means for the purpose of extending and remodeling the high service pumping stations at Jerome avenue, One Hundred and Seventy-ninth street and at Ninety-eighth street, in the Borough of Manhattan, to supply an adequate pressure in the upper districts of Manhattan, east of Third avenue.

If this matter is not acted upon by the Board of Estimate and Apportionment until after January 1, 1909, I suggest that the authorization be made pursuant to section 178 of the Greater New York Charter.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 178 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to the amount of one hundred and seventy thousand dollars (\$170,000), to provide means for extending and remodeling the high service pumping stations at Jerome avenue, at One Hundred and Seventy-ninth street, and at Ninety-eighth street, in the Borough of Manhattan, to supply an adequate pressure in the upper districts of Manhattan, east of Third avenue, and for the purpose of providing means therefor, the Comptroller is hereby authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter to an amount not exceeding one hundred and seventy thousand dollars (\$170,000), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, Queens and Richmond and the Acting President of the Borough of The Bronx—16.

The Secretary presented a report of the Comptroller, in whom on September 18, 1908, was referred a communication from the Consolidated Board of Business Agents containing a list of rates of wages of union mechanics, etc., claimed as prevailing among the building trades of the City, stating in conclusion that in the preparation of the Budget for 1909 the Board accepted, as a maximum rate to be paid to employees, the rates as presented in said communication, and suggesting that a copy of the report be forwarded to said organization.

Which was ordered on file and a copy of the report sent to the Consolidated Board of Business Agents.

The Secretary presented the following resolution of the Board of Aldermen requesting an issue of \$5,000 Special Revenue Bonds (subdivision 8 of section 188 of the Charter), to provide for deficiencies in the Supplies and Contingencies account for the District Attorney, Kings County, for the year 1908, together with report of the Comptroller, to whom this resolution was referred on December 4, 1908, recommending the issue as requested.

Hon. Robert H. Elder, Assistant District Attorney, Kings County, appeared and explained the necessity of this expenditure.

(On December 18, 1908, the matter was laid over to this date.)

#### In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of five thousand dollars (\$5,000) for the purpose of replenishing the Contingent Account of the District Attorney of the County of Kings.

Adopted by the Board of Aldermen November 10, 1908, three-fourths of all the members voting in favor thereof.

Received from his Honor the Mayor, November 24, 1908, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
December 10, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—Reporting on a second resolution adopted by the Board of Aldermen at a meeting held November 10, 1908, requesting the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to the amount of \$5,000 to replenish the account for contingencies of the District Attorney of Kings County for the year 1908, I would say that examination has been made in the Bureau of Municipal Investigation and Statistics, as indicated in a report of this Bureau dated December 1, 1908, dealing with another resolution for the same amount and to be used for similar purposes also adopted by the Board of Aldermen on November 10, 1908.

The original resolution of the Board of Aldermen was concurred in by the Board of Estimate and Apportionment at a meeting held December 4, 1908, and the issue of Revenue Bonds thus authorized provided for the liquidation of contingent expenses of the District Attorney of Kings County incurred in connection with the regular duties of that office as shown in a schedule of outstanding claims against the office, which schedule was included in the report of this Bureau dated December 1, 1908, and herein previously referred to.

The second resolution requesting an additional appropriation of \$5,000, as was stated in the report of December 1, 1908, is intended to provide for the payment of expense items incurred by the District Attorney's office in making observations and securing evidences of violation of the Anti-Race Track Gambling Law. In response

to a request from the Comptroller, the District Attorney has furnished for use in connection with this report copies of the unpaid bills in connection with the work referred to remaining in that office for which the appropriation of \$5,000 is now asked. These bills consist of charges for the services and expenses of private detectives and for carfares and other expenses incurred personally by Robert H. Elder, Assistant District Attorney, then Acting District Attorney. These several claims, for which fully itemized bills are submitted, aggregate \$4,938.75, as follows:

Drummond's Detective Agency.....	\$614 60
Metropolitan Secret Service Bureau (balance of account).....	84 50
Lanyon's Detective Agency.....	1,815 90
Robert H. Elder, for various sums disbursed in payment of official bills while he was acting District Attorney during June, July and August, 1908.....	680 40
Robert H. Elder, bills of the Lanyon's Detective Agency paid by him out of his personal money for services in June and July, 1908.....	1,745 35
	<hr/> \$4,938 75

The fact having been disclosed in this examination that the special work of gathering evidence at the race tracks was made necessary by the enactment of the Anti-Race-Track Gambling Law at the last session of the Legislature, it would seem proper that provision should be made by the Board of Estimate and Apportionment for the payment of all legitimate expenses incurred by the District Attorney on that account. Each individual bill, of course, will be required to be audited by the Department of Finance, and, as suggested by Mr. Elder, in a communication addressed by him under date of October 28, 1908, to the District Attorney, some of the claims when analyzed by the Auditors of the Department of Finance may be reduced. Inasmuch as it is also stated in said communication that there may be one or two other small bills outstanding not included in the foregoing schedule, I would respectfully suggest that the Comptroller recommend to the Board of Estimate and Apportionment the adoption of the resolution attached hereto approving the request of the Board of Aldermen for the authorization of an issue of Special Revenue Bonds to the amount of \$5,000 to provide for deficiencies in the Supplies and Contingencies appropriation of the District Attorney of Kings County for the year 1908.

Yours truly,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

Approved:

H. A. Metz, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen, adopted November 10, 1908, in relation to an appropriation of five thousand dollars (\$5,000) to provide for deficiencies in the appropriation made to the District Attorney of Kings County, for the year 1908, entitled Supplies and Contingencies; and for the purpose of providing means therefor, the Comptroller be and he hereby is authorized, pursuant to the provisions of subdivision 8, section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York to the amount of five thousand dollars (\$5,000), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, Queens and Richmond and the Acting President of the Borough of The Bronx—16.

The Secretary presented the following communication from the County Clerk, New York County, requesting the assignment of the space above the eighth floor of the new Hall of Records building, amounting to 2,125 square feet in area, to the Commissioner of Records, New York County, for the purpose of installing filing cases; communication from the Commissioner of Records relative to the approval of the plans for the installation of said file cases, together with report of the Comptroller, to whom these communications were referred on December 4, 1908, recommending the assignment of the space as requested.

COUNTY CLERK'S OFFICE, COUNTY OF NEW YORK,  
NEW COUNTY COURT HOUSE,  
NEW YORK, November 30, 1908.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman, Board of Estimate and Apportionment:

DEAR SIR—I request that the Board of Estimate and Apportionment will designate a portion of the attic of the Hall of Records, equal to 2,125 square feet in area, for the purpose of installing there steel file cases for the use of the Clerk of the County of New York, in accordance with the plans prepared by the Commissioner of Records, of the County of New York, and approved by me; which plans will be submitted to your Board for its approval, in a communication from the Commissioner of Records at an early date herewith.

Very truly yours,

PETER J. DOOLING, Clerk.

COMMISSIONER OF RECORDS, COUNTY OF NEW YORK,  
HALL OF RECORDS, MANHATTAN,  
NEW YORK CITY, November 30, 1908.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman, Board of Estimate and Apportionment:

DEAR SIR—In addition to the plans for steel file cases to be installed in that portion of the Hall of Records designated by your Board to be occupied and used by the Clerk of the County of New York, and which plans were approved by your Board by resolution adopted June 26, 1908, I have prepared plans for additional steel file cases which may be installed, with your approval, in the attic of the Hall of Records.

The cases so planned will occupy a minor portion of the attic space, 2,125 square feet in area, a space now unoccupied, and will not interfere with any present use of the attic.

The file cases which have been authorized and contracted for will contain 15,538 linear feet of shelving and will be sufficient to accommodate about one-half of the records now in the County Clerk's office in the County Court House.

These additional file cases, for which the plans are now submitted, will contain 3,120 linear feet of shelving, or an addition of twenty per cent. to the capacity of the file cases that will be available for the preservation of the records.

The architects' estimate of the cost of these additional file cases is \$23,750, exclusive of the architects' fees.

By resolution of the Board of Estimate and Apportionment, adopted June 26, 1908, the sum of \$200,000 was provided to be applied to the installation of steel file cases and other furnishings for the office of the County Clerk, in the Hall of Records. The contractor has begun work on such file cases and furnishings, to be furnished, in accordance with the plans already approved, for the sum of \$105,386. Adding the amount estimated for these additional file cases, the total cost will be \$129,136, leaving a considerable margin within the amount appropriated.

These plans for additional file cases have been submitted, for his approval, to the Clerk of the County of New York, and he will ask your Board to designate the space in the attic of the Hall of Records for the installation of such additional file cases.

I submit herewith a diagram of the attic floor of the Hall of Records showing the proposed location of the additional file cases and the exact space to be occupied by them.

Very truly yours,

WILLIAM S. ANDREWS, Commissioner.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
December 23, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—In a letter dated November 30, 1908, the Hon. Peter J. Dooling, Clerk of the County of New York, asks the Board of Estimate and Apportionment to designate a portion of the attic in the new Hall of Records Building, for the purpose of installing file cases in storing certain records now stored in the County Court House by the Commissioner of Records of New York County.

I have taken up the matter in connection with the plans submitted by Mr. Dooling, and have conferred with the architects as to the nature of the proposed improvements.

There is between the eighth floor ceiling and the roof of the new Hall of Records Building, two areas available for the purpose of storing records not in ordinary use.

It will be recalled that chapter 712 of the Laws of 1907 directed that the Board of Estimate and Apportionment shall provide room in the new Hall of Records Building for storage purposes for the Commissioner of Records and, inasmuch as the space already set aside is insufficient to provide all the storage room required by the Commissioner of Records, it would seem advisable to set aside the space asked for under the roof.

I therefore recommend that the space above the eighth floor of the new Hall of Records Building amounting to 2,125 square feet in area be assigned to the Clerk of the County of New York, for the purpose of installing file cases for the use of the Commissioner of Records of New York County.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. Metz, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of chapter 712 of the Laws of 1907, hereby designates the space above the eighth floor of the new Hall of Records Building, Borough of Manhattan, amounting to 2,125 square feet in area, for the installation of steel file cases for the use of the County Clerk and the Commissioner of Records of New York County.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, Queens and Richmond and the Acting President of the Borough of The Bronx—16.

The Secretary presented the following resolution of the Board of Aldermen, requesting an issue of \$6,000 Special Revenue Bonds (subdivision 8, section 188 of the Charter), to compensate Copyists employed during the year 1909 in the office of the Surrogate, Kings County, to recopy indices, old and mutilated records, etc., together with report of the Comptroller, to whom this matter was referred on December 18, 1908, recommending the issue as requested:

*In the Board of Aldermen.*

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the amended New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds, to the amount of six thousand dollars (\$6,000), the proceeds whereof shall be applied to provide for the payment of the compensation of Copyists employed in the work of recopying the indices, old and mutilated records, etc., in the office of the Surrogate of the County of Kings, in the Hall of Records, Borough of Brooklyn, New York City.

Adopted by the Board of Aldermen, December 1, 1908, three-fourths of all the members voting in favor thereof, having been first advertised as required by law.

Received from his Honor the Mayor, December 15, 1908, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

P. J. SCULLY, Clerk.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
December 31, 1908.

Hon. HERMAN A. METZ, Comptroller.

SIR—In the matter of a resolution of the Board of Aldermen, adopted December 1, 1908, as follows:

"Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the amended New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of six thousand dollars (\$6,000), the proceeds whereof shall be applied to provide for the payment of the compensation of Copyists employed in the work of recopying the indices, old and mutilated records, etc., in the office of the Surrogate of the County of Kings, in the Hall of Records, Borough of Brooklyn, New York City"—which was presented at a meeting of the Board of Estimate and Apportionment held December 18, 1908, and referred to the Comptroller for consideration and report, I beg to submit the following:

The Surrogate of the County of Kings, upon the instruction and under the direction of the Commissioner of Records, has during the past year been engaged in the recopying and reindexing of the old and mutilated records of the office. The work of reindexing called for the employment of five (5) temporary Copyists, at an annual compensation of \$1,200 each. This feature of the work was provided for during six months of the year 1908 by issue of Special Revenue Bonds authorized by the Board of Estimate and Apportionment at a meeting held June 26, 1908.

In the estimate submitted by the Surrogate for appropriation for the year 1909 request was made for amount necessary for the payment of said temporary Copyists in the work of reindexing, but an allowance was made in the Budget for the year 1909 for said specific work, appropriation only being made for Recopying Old and Mutilated Records in same amount in previous years, viz., \$2,000.

It is stated to your Examiner by a representative of the Surrogate that the reindexing of the old records of the office is estimated by the Commissioner of Records to require indices approximating in volume 16,000 pages, and that since July 1, 1908, at which time said Special Revenue Bond appropriation became available, the office has completed the indexing of thirty-two volumes of various records in lexicographical form to the number of 2,270 pages.

It is evident, therefore, that the continued employment of the temporary Copyists is necessary to carry out the instructions of the Commissioner of Records, and I therefore recommend that the Board of Estimate and Apportionment concur in the action of the Board of Aldermen in the resolution adopted December 1, 1908.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

The Secretary presented a communication from the Police Commissioner requesting authority (pursuant to resolution adopted by the Board of Estimate December 18, 1908) to advertise for bids for the construction of a new station house for the First Precinct in Old Slip.

Which was referred to the Comptroller.

The Secretary presented a report of the Comptroller, referring to a resolution of the Board of Aldermen requesting an issue of \$5,000 Special Revenue Bonds (sub-division 8, section 128 of the Charter) to replenish the appropriation made to the Department of Water Supply, Gas and Electricity for the year 1908, entitled Borough of Manhattan, Water Supply, Collection and Storage, Repairs and Renewals, stating that funds for this purpose can be provided for through the transfer of some unexpended balances in other accounts, and recommends that the resolution above referred to be returned to the Secretary of the Board of Estimate and Apportionment.

Which was ordered on file and a copy of the report sent to the Commissioner of Water Supply, Gas and Electricity.

(On December 4, 1908, the resolution of the Board of Aldermen, as above, was referred to the Comptroller.)

The Secretary presented the following communication from the County Clerk, New York County, requesting an appropriation of \$11,000 for the purpose of re-indexing all statutory notices of liens and claims upon land which have been filed or recorded in the office of the County Clerk, together with report of the Comptroller (to whom this matter was referred) on December 11, 1908), recommending the issue of \$11,000 Special Revenue Bonds (pursuant to chapter 536, Laws of 1893, as amended) for this purpose:

COUNTY CLERK'S OFFICE, NEW YORK COUNTY,  
December 8, 1908.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—I beg most respectfully to request your Honorable Board for an appropriation of eleven thousand dollars for the year 1909 for the purpose of re-indexing all statutory notices of liens and claims upon land which have been filed in this office under chapter 536, Laws of 1893, as amended by chapter 466, Laws of 1901.

The said sum is required to provide for salaries of the following employees: One Chief Index Clerk, \$2,500 per annum; four Index Clerks, at \$1,500 each, \$6,000 per annum; one Index Clerk, \$1,200 per annum; one Custodian, \$1,200 per annum; books, stationery, etc., \$100 per annum.

No increase is asked for over the appropriation of 1908 and the sum requested is absolutely necessary to continue the work of the Department.

Yours respectfully,

PETER J. DODLING, County Clerk.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 4, 1909.

Hon. HERMAN A. METZ, Comptroller.

SIR—In the matter of a communication from Peter J. Dodling, County Clerk of New York County, requesting an appropriation of \$11,000 to provide for the salaries during the year 1909 of employees engaged in the work of re-indexing all statutory notices of liens and claims upon land filed in his office, which was referred to you by the Board of Estimate and Apportionment for consideration, and by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

The request for an appropriation of \$11,000 is based upon the provisions of chapter 536, Laws of 1893. Section 3 of said chapter provides for the re-indexing, under the block index system, by the County Clerk of New York County, of all notices of liens and claims upon land filed in his office prior to the date of the enactment of the law, May 2, 1893. Section 9 provides for the continuance of the work after January 1, 1894. Section 10 authorizes the employment of such clerks as may be necessary, subject to the approval of the Board of Estimate and Apportionment. The manner of providing funds to carry out the provisions of the act is stated in section 11, which reads as follows:

"The Board of Estimate and Apportionment of The City of New York is hereby authorized to include in the final estimate of the moneys to be raised by taxation in said City \* \* \* the amounts of money which may be required \* \* \* to carry out the provisions of this act and to appropriate said moneys therefor; and the Comptroller of said City is authorized and directed to pay, out of the amounts so required and appropriated, the expenses authorized by this act, \* \* \* and said Comptroller is authorized to raise such money, from time to time, by the issue of revenue bonds of said City, payable in the next succeeding year." \* \* \*

To meet the expense which would be incurred during the year 1894 in carrying out the provisions of the section noted, an issue of Revenue Bonds, amounting to \$11,000 was authorized on February 5, 1894. Each year since 1894 the County Clerk, in submitting his annual estimate of the expense of his office, has included a request for a similar amount, to be provided as a part of his Budget appropriation. It appears, however, that such requests have been disapproved by the Board of Estimate and Apportionment, presumably for the reason stated in the consideration of the Budget for 1898, viz.:

"\* \* \* the expense has heretofore been paid out of the proceeds of Revenue Bonds, under the provisions of chapter 536, Laws of 1893, and a continuance of such method of payment would seem to be as required by the evident intent of said act that the moneys to meet the expenditures should be raised only as needed from time to time, and by the issue of Revenue Bonds."

The amount requested for 1909, which is the same as allowed for 1908, is to be disbursed as follows:

One Chief Index Clerk, \$2,500; four Index Clerks at \$1,500 each, \$6,000; one Index Clerk, \$1,200; one Custodian, \$1,200; books, etc., \$100.

From the information obtained in the office of the County Clerk it would appear that the work of re-indexing under the block system is up to date, and that the number of mechanics' liens and judgments which will be indexed and re-indexed during the year 1908 will approximate 10,000, and will be increased during 1909.

It would seem to your Examiner that provision for this important work, which is part of the duties devolving upon the office of the County Clerk, should be made in the Budget allowance granted to said office, but in view of the fact that such provision has not been made for the year 1909, I would respectfully suggest that the request for an appropriation of \$11,000 be approved.

Yours respectfully,

CHARLES S. HURVY, Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

of the appropriation of eleven thousand dollars (\$11,000) for the year 1909, for re-indexing all statutory notices of liens and claims upon land which have been filed or recorded in the office of the County Clerk of New York County, and for the purpose of providing means therefor, the Comptroller be and is hereby authorized to issue Special Revenue Bonds of The City of New York, from time to time as may be required, to the amount of eleven thousand dollars (\$11,000), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, Queens, and Richmond and the Acting President of the Borough of The Bronx—16.

The Secretary presented the following communication from the Register, Kings County, requesting the establishment of grades of various positions, together with report of the Comptroller (to whom this matter was referred on December 18, 1908) recommending the establishment of said grades of positions as requested:

OFFICE OF THE REGISTER OF KINGS COUNTY,  
HALL OF RECORDS, BROOKLYN,  
NEW YORK CITY, December 17, 1908.

MR. JOSEPH HAAG, Board of Estimate and Apportionment, New York, N. Y.:

DEAR SIR—Enclosed please find a resolution which I submit for the consideration of the Board of Estimate and Apportionment. This resolution was prepared by the Counsel to the Register's office, Mr. Jesse Fuller, Jr. The Budget for next year contains an item of \$10,000, to defray the expense of conducting the Land Title Registration Bureau in this office, but, as I understand that the salaries of the Clerks will have to be fixed by the Board of Estimate and Apportionment, I thought it best in have this resolution offered in good time. The law will go into effect February 1, 1909. Will you please let me know at what meeting of the Board this matter can be considered?

With best wishes, believe me,

Yours very truly,

WM. A. PRENDERGAST, Register.

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, pursuant to the provisions of section 56 of the Greater New York Charter and of section 7 of the Land Title Registration Law, being chapter 444 of the Laws of 1908, that salaries shall be fixed for the various offices as specified herein, in the office of the Register of Kings County at the following sums:

3. Assistant Cashier .....	1,200 00
4. Cautionary Notice Clerk .....	1,500 00
5. Map and Filing Clerk .....	1,200 00
6. General Clerk and Searcher .....	1,200 00
7. Custodian .....	750 00
8. Messenger .....	750 00

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 4, 1909.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the communication of William A. Prendergast, Register of Kings County, under date of December 17, 1908, relative to the fixing of salaries for certain positions to be established to conduct the duties of the offices under the provisions of chapter 444 of the Laws of 1908 (Land Title Registration Law), which was presented at a meeting of the Board of Estimate and Apportionment held December 18, 1908, and referred to the Comptroller for consideration and report, I beg to submit the following:

Chapter 444 of the Laws of 1908, entitled "An Act in relation to registering titles to real property and facilitating its transfer," and designated under section 1 to be known as "the Land Title Registration Law," provides inter alia for the administration of the offices by the Register of the County and the duty of the local authorities to make provisions necessary to carry into effect the said law, as follows:

Sec. 4. "County clerks and registers to be registrars of title—County clerks in the several counties of the state, except the counties that may have registers, and in the latter counties the registers of said counties shall be 'registrars' of titles in their respective counties. All laws relative to registers, county clerks and their deputies shall extend to registrars and their deputies, so far as the same may be applicable, except as in this act otherwise provided. Registrars of titles shall be county officers, within the meaning of the laws of this state."

Sec. 6. "Deputy registrars' powers and duties—In any county where the business under this act so requires, the registrar may appoint a chief deputy and as many other deputies as are needed."

Sec. 7. "Compensation of registrars and deputy registrars and registration clerks—Where county clerks and registers are already salaried officials, the local authorities (county officials who provide for county expenses) shall fix their additional compensation as registrars, also the compensation of deputy registrars, the clerks, et cetera, needed to carry on the work under this act. Where a county clerk or a registrar is compensated directly by the fees paid to himself, his deputies and assistants, the fees paid to him as registrar shall take the usual course and be used to compensate deputies, clerks, et cetera, at such rates as the registrar may fix, the remainder to belong to him."

Sec. 8. "Dispensation and use of fees received by registrar—All fees received by a registrar, for the performance of the duties devolving upon him pursuant to this act, shall be disposed of in such manner as the other fees paid to county clerks and registers, with the following proviso: In those counties where registrars under this act are or shall become salaried officials, all fees paid for the registration of titles shall be kept separate by the registrars and serve, so far as they are necessary or adequate, to pay the expenses of registering titles and the other duties for which charges are made. It shall be the duty of the local authorities who provide for county expenses to provide such accommodations, help, sales, books, papers and for such other expenses as may properly be required by the registrar in the conduct of his office."

The office of the Register of the County of Kings, under the provisions of chapter 706 of the Laws of 1901, was made a salaried office. The Register of said County therefore becomes the Registrar of Titles under this act, and the provisions relative to the expense of the administration of this office apply to the said Registrar. In anticipation of the expense to be incurred under the provisions of said law, the Register of Kings County, in his estimate submitted for the Budget of the year 1909, included a request for appropriation of \$31,000 for the payment of Salaries of Registrar, Deputies and Clerks, as follows:

1 Registrar .....	\$4,000 00	1 Index Clerk .....	1,500 00
1 Chief Deputy Registrar .....	2,000 00	1 Searcher .....	1,500 00
1 Deputy Registrar .....	1,000 00	1 Assistant Cashier .....	1,500 00
1 Chief Clerk .....	4,500 00	2 Draughtsmen .....	3,000 00
1 Ticker Clerk .....	1,500 00	1 Stenographer .....	1,200 00
1 Recording Clerk .....	1,500 00	1 Custodian .....	1,000 00
1 Receiving Clerk .....	1,500 00	1 Messenger .....	800 00
1 Registration Clerk .....	1,500 00		
1 Transfer Clerk .....	1,500 00		
1 Application Clerk .....	1,500 00		
			\$31,000 00

The duties imposed upon the Register by the said act, taking effect February 1, 1909, are of such a nature that there was no experience of the past upon which to predicate a judgment as to the number and character of employees required in the division or bureau to be established, and in the consideration of the Budget for the year 1909 the Board of Estimate and Apportionment made an appropriation in the amount of \$10,000 under title "Land Title Registration—For Salaries of Positions established pursuant to the Provisions of chapter 444, Laws of 1908."

The Register of Kings County, therefore, conforming to the appropriation granted, requests the fixing of the salaries of certain designated clerical positions and in amounts as follows:

Chief Clerk .....	\$2,500 00	General Clerk and Searcher ..	1,200 00
Ticker, Certificate, Registration and Entry Clerk .....	1,800 00	Custodian .....	750 00
Assistant Cashier .....	1,200 00	Messenger .....	750 00
Cautionary Notice Clerk .....	1,500 00		
Map and Filing Clerk .....	1,200 00	Total .....	\$10,900 00

It may be noted that the Register does not include in this request the fixing of additional compensation of Registrar or Deputy Registrars, as requested in the estimate to which reference has previously been made.

From statements made to your Examiner by the Deputy Register, it would appear that there will be required the services of employees as requested, and that such employees will be appointed pursuant to the provisions of Civil Service laws.

I would therefore recommend that the Comptroller approve the request made by the Register of Kings County relative to the salaries of clerical positions to be established in the office of the Registrar of Titles of Kings County, pursuant to the provisions of chapter 444 of the Laws of 1908.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

	Per Annum.

—to take effect February 1, 1909.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, Queens and Richmond and the Acting President of the Borough of The Bronx—16.

The Secretary presented reports of the Comptroller, to whom, at various meetings, were referred requests of different Departments for the modifications of the schedules of Salaries and Salaries and Wages accompanying the Budget for the year 1909, and making recommendations as follows:

Modifications of the schedules of Salaries and Salaries and Wages (Nos. 830 and 831) accompanying the Budget for the year 1909, DEPARTMENT OF PARKS, BOROUGH OF BROOKLYN AND QUEENS, involving a transfer of \$4,200 from Maintenance of Parks and Boulevards, Salaries and Wages, to General Maintenance, Mechanical Force, Salaries and Wages, but no additional appropriation.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 6, 1909.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the communications from the Commissioner of Parks, Brooklyn and Queens, dated December 16, 1908, and December 30, 1908, requesting certain modifications in the 1909 Budget schedules of that Department, entitled General Maintenance, Mechanical Force, Salaries and Wages and Maintenance of Parks and Boulevards, Salaries and Wages, I beg to report:

The object of the changes proposed is to apportion the allowance for Laborers, so as to provide therefrom for the payment of certain special classes of labor required in the proper administration of the large number of small parks and playgrounds recently opened in Brooklyn and Queens. The special Laborers referred to are Gymnasium Instructors and Attendants, also Engineers required to operate the grass cutters and men in charge of the small parks whose civil service file in some cases is Foreman, but who were provided for under the allowance for Laborers, having been listed in the Departmental Estimate as "men in charge." Allowance was made in the Budget for these classes of labor on the basis of the payroll of June 30, but owing to the recent rapid development of the system of small parks, the Commissioner now finds that more employees of these classes will be required for 1909 than was there indicated.

The changes proposed to be made to Supporting Schedules of the Budget are as follows:

Item No. 830—	
Engineers of steam rollers and grass rollers, not in excess of \$4.50 a day; increased allowance .....	\$4,300 00
Item No. 831—	
Foreman of Laborers; increased allowance .....	9,652 50
Attendants, female; increased allowance .....	7,012 50
Gymnasium Attendants, male; increased allowance .....	2,737 50
Gymnasium Attendants, female; increased allowance .....	1,825 00
	\$25,427 50
Laborers; reduced allowance .....	25,427 50

As the matter seems to be one of administration and does not involve any increased expenditure over that already provided for, your Examiner respectfully recommends the adoption of the resolutions appended hereto.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 6, 1909.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the communication from the President of the Municipal Civil Service Commission dated December 31, 1908, requesting a modification of the Salaries and Wages schedule for his office as detailed in the Budget for the year 1909, which was submitted to the Comptroller in accordance with the resolution of the Board of Estimate and Apportionment adopted December 11, 1908, and referred by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

The Budget appropriation for the year 1909 for salaries and wages for the office of the Municipal Civil Service Commission was \$144,720. The President now requests that the supporting schedule governing the Budget appropriation for the year 1909 be amended in so far as it relates to the organization of his office force, the proposed changes not affecting the total amount allowed in the Budget.

The proposed changes are as follows:

Three Clerks at \$1,200 per annum, in place of two,  
One Clerk at \$900 per annum, in place of four,  
One Clerk at \$600 per annum,  
Nine Clerks at \$480 per annum each, in place of one,  
Two Clerks at \$300 per annum each, in place of ten,  
Four Examiners at \$2,700 per annum each, in place of three,  
One Examiner at \$2,400 per annum, in place of two,  
One Examiner at \$2,100 per annum, in place of two,  
One Examiner at \$1,200 per annum.

Examiners, per day, \$10 per session, \$18,560 in place of \$18,500.

In view of the fact that the amended salary list substituted does not increase the total allowance granted in the Budget for the year 1909 for the same purpose, I would respectfully suggest that the Comptroller recommend to the Board of Estimate and Apportionment the approval of the request of the President of the Municipal Civil Service Commission, and for that purpose a resolution is appended hereto.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

Approved:

H. A. Metz, Comptroller.

Modifications of the schedules of Salaries and Salaries and Wages (Nos. 1284 and 1285) accompanying the Budget for the year 1909, COURT OF SPECIAL SESSIONS, SECOND DIVISION, involving a transfer of \$300 from Supplies and Contingencies to Salaries, but no additional appropriation.

COURT OF SPECIAL SESSIONS,  
No. 171 ATLANTIC AVENUE,  
BROOKLYN BOROUGH, December 4, 1908.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—Your attention is respectfully called to the fact that, through some error in the appropriation made to this Department, it appears by the Budget that

the salary of one Thomas F. Meagher, Chief Court Attendant of this Court, shows a decrease in appropriation of \$300.

Mr. Meagher's salary has been fixed by your honorable Commission at \$1,800 per annum, and he has been paid that amount since April, 1907, to and including the present year, 1908.

Therefore, we would respectfully request that the difference between \$1,500, as appears by the Budget, and the sum of \$1,800, heretofore fixed and paid as the salary of the said position, namely, the sum of \$300, be restored to the said position and the schedule so amended.

Respectfully yours,

HOWARD J. FORKER, President, Board of Justices.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 6, 1909.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the communication from the Board of Justices of the Court of Special Sessions, Second Division, requesting a modification of the schedule of salaries in the Budget appropriation for said Court for the year 1909, referred to the Comptroller by the Board of Estimate and Apportionment and referred by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

The request of the Justices is for a modification of the schedule to permit a Court Attendant to receive the amount of salary, namely, \$1,800 per annum, which he has been entitled to receive and has received since April 1, 1907, in place of a salary of \$1,500 per annum which by error he is accorded in the Budget schedule of 1909.

Examination shows that on March 22, 1907, the Board of Estimate and Apportionment adopted a resolution recommending the Board of Aldermen to establish a position of Court Attendant to take effect April 1, 1907, with salary at the rate of \$1,800 per annum. On April 2, 1907, the Board of Aldermen concurred with said resolution. The Attendant in question has since April 1, 1907, received a salary at the rate of \$1,800 per annum. In the Budget appropriation for 1909 the schedule shows that there was an allowance of \$1,800 for his salary.

In view of the fact that the position is established at \$1,800 per annum and that through an error enough money was not provided in the Budget for 1909 to meet the said salary your Examiner recommends the adoption of the resolution attached hereto.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

Hon. HERMAN A. METZ, Comptroller, City of New York, No. 280 Broadway, New York:

SIR—I have received a letter from the Secretary of the Board of Estimate and Apportionment transmitting a copy of the resolution adopted December 11, in relation to salary schedules included in the Budget for 1909.

The resolution requests that any necessary modifications of such schedules shall be sent to you before January 1. The Board of Estimate and Apportionment reduced the appropriation of this Department below the estimate presented by the Department about \$10,000. We have rearranged the schedules to the best of our ability in conformity with the appropriation, and I now enclose the new schedule. It calls for an expenditure of \$200 more than the appropriation. It is, however, impracticable to make it conform precisely, and we shall undoubtedly have losses by death or resignation from the Department, which will more than make up the \$200.

Respectfully yours,

LAWSON PURDY, President.

HALL OF RECORDS, BOROUGH OF MANHATTAN,  
January 4, 1909.

Hon. HERMAN A. METZ, Comptroller, City of New York, No. 280 Broadway, New York:

SIR—Referring to our request for an alteration in the schedules of appropriation for this Department and the fact that the schedules call for \$200 for Salaries and Wages in excess of the actual appropriation, will you please have a transfer made from Account No. 981 for Contingencies of the sum of \$200 to Account No. 978 for Salaries and Wages. This will correct the discrepancy in the schedules.

Respectfully,

LAWSON PURDY, President.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 6, 1909.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the communications of the President of the Department of Taxes and Assessments, under dates of December 28, 1908, and January 4, 1909, requesting a modification of schedule accompanying appropriation item No. 974 entitled Salaries and Wages and for a transfer of \$200 from appropriation item No. 981 entitled Contingencies to appropriation item No. 978 entitled Salaries and Wages, in the Budget for the year 1909 for his office, I beg to report as follows:

The appropriation allowed the Department of Taxes and Assessments for Salaries and Wages for the year 1909 is \$455,900. The President now requests that the supporting schedule accompanying the Budget appropriation for the year 1909 be revised. The Salaries and Wages schedule as revised aggregates \$456,100, or \$200 more than the appropriation made therefor. To meet this deficiency the President requests that the sum of \$200 be transferred from the appropriation for Contingencies, being Budget item No. 981.

The proposed changes in the Salaries and Wages schedule are as follows:

Twenty Deputy Tax Commissioners, at \$1,800 per annum each, in place of sixteen.  
Twenty seven Clerks, at \$1,050 per annum each, in place of twenty-four.  
Ten Clerks, at \$900 per annum each, in place of eleven.  
Twenty Clerks, at \$750 per annum each, in place of nineteen.  
Nineteen Clerks, at \$600 per annum each, in place of thirteen.  
Two Confidential Stenographers, at \$1,500, in place of three.  
Two Messengers, at \$1,200 per annum each, in place of two Office Attendants.

In view of the facts herein previously stated, I would respectfully suggest that the Comptroller recommend to the Board of Estimate and Apportionment the approval of the requests of the President of the Department of Taxes and Assessments, and for that purpose two resolutions are appended hereto.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

Modifications of the schedules of Salaries and Salaries and Wages (Nos. 955 and 956) accompanying the Budget for the year 1909, Office of the COMMISSIONERS OF ACCOUNTS, involving a transfer of \$1,200 from Accounting Staff to inspection Staff, but no additional appropriation.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 5, 1909.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of a "Remodified Salaries Schedule for the year 1909" for the office of the Commissioners of Accounts, submitted to the Comptroller in pursuance of a resolution adopted by the Board of Estimate and Apportionment on December 11, 1908, which was referred by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

In an interview which your examiner had with the Chief Accountant of the office of the Commissioners of Accounts, he stated that the estimate submitted as to the requirements of the office for the year 1909, which was presented in July, 1908, was based upon the probable cost following a general reorganization of the office force which was then under way. Since said estimate was submitted the reorganization has been completed and it is now found that while the total amount allowed in the Budget for 1909 for salaries and wages is sufficient, its distribution by accounts does not exactly conform with what the Commissioners believe to be best adapted to the proper operation of their office.

The total amount allowed for "Salaries and Wages" in the Budget for 1909 was \$204,710, distributed as follows, as per detailed schedule forming part of the Budget:

Item No. 953, Commissioners of Accounts.....	\$10,000 00
Item No. 954, Chief Accountant, Chief Clerk, etc.....	9,900 00
Item No. 955, Accounting Staff.....	153,960 00
Item No. 956, Inspection Staff.....	30,850 00
	<b>\$204,710 00</b>

Request is made to amend the budgetary distribution as made in Items Nos. 955 and 956 by making several changes which will reduce by \$1,200 the amount allowed for the Accounting Staff, and increase by a like sum the allowance for the Inspection Staff, the requested modifications resulting in no change in the total Budget allowance for both accounts. The changes made are due to the fact that as the plans for the reorganization of the office developed it was not found necessary to pay in some cases the salaries for which provision was made in the Budget, and the amount saved thereby is to be applied to promotions and increases for ten clerks and accountants, amounting to \$1,500, and for the appointment of two office boys at \$300 each, and a chauffeur at \$1,200.

In view of the fact that the "Remodified Salaries Schedule for the year 1909," submitted by the Commissioners of Accounts, does not increase the total amount allowed for salaries and wages in the Budget for 1909, I would respectfully suggest that the requested modifications be approved, and that the distribution of the salaries and wages funds as provided for in the Budget and supporting schedules for 1909 for Items Nos. 955 and 956, be amended by the adoption of the accompanying list.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,

Hon. HERMAN A. METZ, Comptroller:

SIR—Reporting on the matter of the request of the Corporation Counsel under date of December 30, 1908, for a revision of the schedule of positions and grades accompanying the Salaries and Wages appropriation for the Law Department for the year 1909, I would say that a comparison of the revised schedule with that contained in the Budget shows the proposed changes to consist of the following:

## New Positions and Grades.

1 Assistant Corporation Counsel, at \$7,500.....	\$7,500 00

**\$96,850 00**

Further analysis of the foregoing shows that no increase or decrease is proposed in the total number of Assistants, Deputy Assistants and Junior Assistants, but the schedule rearranges the salaries for eight vacant positions, five of which were created by a reorganization of the force authorized by the Board of Estimate and Apportionment in March, 1908, and two by resignations and one because of a death. In the clerical force there are to be added one Clerk, one Stenographer and one Typewriting Copyist. The changes in the stenographic force were made in October, 1908, prior to the adoption of the 1909 Budget. The salaries of Process Servers and Messengers are to be partly equalized by increasing those of five men from \$900 to \$1,050 each, others receiving \$1,200 each.

In view of the fact that the changes proposed involve no increase in the salary and wages cost of the year 1909 over the sum provided therefor in the Budget, I would suggest that the Comptroller recommend to the Board of Estimate and Apportionment the approval of the request of the Corporation Counsel.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

H. A. Metz, Comptroller.

Hon. HERMAN A. METZ, Comptroller, The City of New York:

DEAR SIR—In accordance with the resolution of the Board of Estimate and Apportionment adopted on December 11, 1908, I submit to you herewith the schedule of salaries of subordinates in the Department of the Commissioner of Records, County of New York, during 1909, within the budget allowance for said Department for that year.

These salaries are the same as those fixed and paid during the year 1908 under the provision relative thereto contained in chapter 712, Laws of 1907, and in accordance with the opinion of the Corporation Counsel as to the purpose and effect of that law, dated February 19, 1908, a copy of which I transmit herewith.

That opinion was filed in your office by me at the time it was given, and the designations and promotions, and the salaries of my subordinates have been fixed in conformity with it, and under the rules of the State Civil Service Commission.

Very truly yours,

WILLIAM S. ANDREWS, Commissioner of Records.

CITY OF NEW YORK—LAW DEPARTMENT,  
OFFICE OF THE CORPORATION COUNSEL,  
NEW YORK, February 19, 1908.

WILLIAM S. ANDREWS, Esq., Commissioner of Records, County of New York:

SIR—I am in receipt of your communication dated November 30, 1907, relative to the purpose and effect of chapter 712 of the Laws of 1907, as to the designations and fixing the salaries of the subordinates of your office.

Section 3 of chapter 712 of the Laws of 1907 provides:

"Said commissioner of records shall appoint, subject to the rules of the State Civil Service Commission, such subordinates as he may deem necessary for the work to be done in his department, provided that the official designations and the salaries or compensation of the persons so appointed shall be the same as those for similar positions now authorized by the board of estimate and apportionment in the department of the commissioner of records of the county of Kings, and that the salaries of the persons so appointed to be paid during the year 1907 shall be paid out of and in the aggregate shall not exceed the appropriation made by the board of estimate and apportionment for salaries of subordinates in the department of the commissioner of records of the county of New York for said year."

In my opinion the official designations of the persons appointed by you must be the same as those for similar positions authorized by the Board of Estimate and Apportionment in the Department of the Commissioner of Records of the County of New York on July 23, 1907, the date of the passage of the law. The salary or compensation of each person appointed will be the same as attaches to a similar position in the Department of the Commissioner of Records in the County of Kings. You have the power to fix the designations. You should, however, keep within the limits of your appropriation for 1908 in determining the number of your subordinates.

You state in your communication that compliance with provision of the law will increase the salaries of some of your subordinates, and that before allowing such increase the Comptroller desires to have my opinion as to whether this is authorized by law.

You state also that with the exoneration of laborers the additional subordinates must be taken from the State Civil Service competitive list. Section 15 of the Civil Service Law provides:

"\* \* \* Promotions shall be based upon merit and competition. \* \* \*

For the purposes of this section an increase in the salary or other compensation of any person holding an office or position within the scope of the rules in force hereunder beyond the limit fixed for the grade in which such office or position is classified shall be deemed a promotion."

Care must be taken that the increase contemplated does not exceed the amount fixed by the grade in which the present incumbent is classed, otherwise the said increase cannot be effected without compliance with above section 15, by passing such promotion examination as is required by the State Civil Service rules.

Yours respectfully,

G. L. STERLING, Acting Corporation Counsel.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 6, 1909.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of a communication from William S. Andrews, Commissioner of Records, County of New York, requesting a modification of the salaries schedule for his office as detailed in the Budget for 1909, which was submitted to the Comptroller in accordance with resolution of the Board of Estimate and Apportionment, adopted December 11, 1908, and referred by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

The Budget appropriation for 1909 for salaries for the office of the Commissioner of Records, New York County, was \$34,610, of which amount \$27,610 was for the salaries of Superintendent, Clerks and employees, providing for twenty-seven employees. The Commissioner now requests that the supporting schedule governing the Budget appropriation for 1909 be amended, in so far as it relates to the organization of his office force, the requested changes not affecting the total amount allowed in the Budget. The proposed modifications reduce the number of employees to twenty-three, and are as follows:

Stenographers and Typewriters—The Budget as adopted provides for six (three of whom to be employed for eight months only) with salaries amounting to \$5,100 per annum. The proposed amendment calls for four, to be employed during the whole of the year, at a cost of \$4,250.

Chief Clerk—Provided for in the Budget for eight months at the rate of \$1,200 per annum is dispensed with.

Clerks—Eleven provided for (five for eight months only) at annual salaries of \$1,050 and \$1,200, amounting to \$10,250 per annum. These are to be replaced by nine clerks, to be employed all of the year, at \$1,200 each; total cost, \$10,800.

Draughtsmen—Budget provision made for eight months at the rate of \$1,200 per annum. The proposed new schedule provides for his employment all of the year at the same annual salary.

Messengers—Not provided for in Budget as adopted. A Messenger was employed in 1907 and a portion of 1908. The position was vacant on June 30, 1908, and the requested allowance for said position for 1909 was disallowed.

The modifications requested by Commissioner Andrews appear to be reasonable, and in view of the fact that the amended salary schedule submitted does not increase the total allowance granted in the Budget for 1909 for the same purpose, I would respectfully recommend that the same be approved and that item No. 1549 of the supporting schedule of the Budget for 1909 be amended by the substitution of the salary list attached hereto.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

Approved:

H. A. Metz, Comptroller.

The Comptroller presented the following communication recommending the transfer of \$54,724 within the appropriation made to the Department of Street Cleaning for the year 1909, involving an amendment of the salary schedules of said Department for the year 1909, also revision of the schedules of Salaries and Wages of said Department, attached to the Budget for the year 1909.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 7, 1909.

Hon. HERMAN A. METZ, Comptroller:

SIR—The request of the Commissioner of Street Cleaning for transfers from certain appropriation accounts to other appropriation accounts, all within the total of appropriations made for the Department of Street Cleaning for the year 1909, and the modification of the various schedules applying thereto, is stated by the said Commissioner to be for the purpose of enabling the Department to exercise control over the various assignments of employees to duties other than set forth under the titles of positions specified in the Budget and in accordance with the system of accounting inaugurated in the Department of January 1, 1909, under the direction and supervision of the Bureau of Revision of Accounts and Methods of the Department of Finance.

It has been the custom of the Department during past years to assign to certain duties, such as Messengers in the several offices of the Department, and to and from stables, section stations, dumps, etc., and the administration offices, Sweepers, Drivers and Stablemen. Also Haulers, Drivers and Stablemen have been assigned to duties such as hill-horsemen at the dumps, acting as drivers for officials, District Superintendents and others, and various duties which did not properly come under the official designation of their appointments.

It is, therefore, desired by the Commissioner to assign to the several divisions such employees as are required in the administration of the Department. I would, therefore, recommend that the Board of Estimate and Apportionment authorize the necessary transfers within the appropriation made to the Department and approve the modified schedules as revised for the Department of Street Cleaning for the year 1909, as per the attached resolution.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

My DEAR Sir—On behalf of the Board of Trustees of the Brooklyn Institute of Arts and Sciences, I beg leave to ask that this letter be substituted for my letter to you of December 28, with regard to the various funds appropriated for the maintenance of the Central Museum and the Children's Museum.

THE CITY OF NEW YORK,  
OFFICE OF THE PRESIDENT OF THE BOROUGH OF QUEENS,  
—LONG ISLAND CITY, December 2, 1908.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment, New York City:

SIR—Since succeeding to the office of the President of the Borough of Queens, I have become aware that I am seriously handicapped by the absence of a proper schedule of positions for this office.

In the Budget allowance for the year 1909, I am allotted certain amounts for specific positions, some of which have never been established for this office, in accordance with section 56 of the Greater New York Charter. I have accordingly prepared a resolution for adoption by the Board of Estimate and Apportionment, copy of which I herewith inclose. The establishment of this schedule is absolutely necessary for the proper performance of the multitudinous duties pertaining to my office and the several subdivisions thereof.

Respectfully,

LAWRENCE GRESSER, President, Borough of Queens.

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with provisions of section 56 of the Greater New York Charter, the establishment of the following grades for positions in the office of the President of the Borough of Queens, to wit:

Inspector of Street Openings, \$1,200 per annum; Inspector of Complaints, \$1,200 per annum; Chief Inspector, \$2,500 per annum; Messenger, \$900 per annum; Clerk, \$2,400 per annum; Clerk, \$2,700 per annum; Clerk, \$3,000 per annum; Bookkeeper, \$1,050 per annum; Bookkeeper, \$1,200 per annum; Storekeeper, \$1,050 per annum; Inspector of Supplies and Repairs, \$1,200 per annum.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 5, 1909.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—Transmitted herewith is a report of the Bureau of Municipal Investigation and Statistics under date of January 5, 1909, relative to a request from the President of the Borough of Queens, for the establishment, under the provisions of section 56 of the Greater New York Charter, of various positions and grades in the offices under his jurisdiction. Said request was referred at a meeting held December 11, 1908, to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen.

In view of the facts contained in said report, your Committee recommends the adoption of the resolution attached hereto.

Yours respectfully,

H. A. METZ, Comptroller;  
P. F. McGOWAN, President, Board of Aldermen,  
Select Committee.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 5, 1909.

Hon. HERMAN A. METZ, Comptroller:

SIR—At a meeting of the Board of Estimate and Apportionment held December 11, 1908, a request was received from the President of the Borough of Queens for the establishment, under the provisions of section 56 of the City Charter, of the following positions and grades of positions in the offices under his jurisdiction:

Inspector of Street Openings, at \$1,200 per annum; Inspector of Complaints, at \$1,200 per annum; Chief Inspector, at \$2,500 per annum; Messenger, at \$900 per annum; Clerk, at \$2,400 per annum; Clerk, at \$2,700 per annum; Clerk, at \$3,000 per annum; Bookkeeper, at \$1,050 per annum; Bookkeeper, at \$1,200 per annum; Storekeeper, at \$1,050 per annum; Inspector of Supplies and Repairs, at \$1,200 per annum.

The said request was referred to a Select Committee consisting of the President of the Board of Aldermen and the Comptroller, for consideration and report, and by you to the Bureau of Municipal Investigation and Statistics.

It appears from the facts disclosed in an examination of this matter made in the Bureau of Municipal Investigation and Statistics, that of the positions and salary grades specified in the request of the President, several of them are asked for to provide for a compliance with the provisions of the Budget for 1909. In the Budget were included supporting schedules to the several appropriations for Salaries and Wages, which were made to contain positions and grades which, at the time the Budget schedules were prepared, your Examiners considered necessary to properly provide the several Bureaus with Clerks, Bookkeepers, Inspectors and other clerical help under appropriate Civil Service titles. This was rendered necessary, as fully set forth in a report by this Bureau presented to the Comptroller under date of October 13, 1908, by the fact that for several years past a number of Foremen, Laborers, Dump Boardmen, Sewer Cleaners, Street Cleaners and others bearing Civil Service designations in the non-competitive class have been detailed to office and other clerical work under such office titles as Stenographers, Typewriters, Copyists, Bookkeepers, Inspectors, etc.

This condition was declared to be in violation of sections 7 and 19 of the Civil Service Laws and after a conference between the Comptroller and the President of the Borough of Queens a new list of positions and grades was agreed upon to provide for the organization of the administrative forces of the several Bureaus upon proper and legal lines. Among the positions and grades thus specified in the 1909 Budget schedules, and which positions and grades have not yet been established under the provisions of section 56 of the City Charter, are the following:

Inspector of Street Openings, \$1,200 per annum; Inspector of Complaints, \$1,200 per annum; Messenger, \$900 per annum; Bookkeeper, \$1,050 per annum; Bookkeeper, \$1,200 per annum; Storekeeper, \$1,050 per annum; Inspector of Supplies and Repairs, \$1,200 per annum.

The other positions and grades included in the request of the President, to wit:

Chief Inspector, \$2,500 per annum; Clerk, \$2,400 per annum; Clerk, \$2,700 per annum; Clerk, \$3,000 per annum.

—are not included in the 1909 Budget schedules, but are requested so as to provide for the promotion of and advancement in salaries of certain employees as set forth in detail, with the reasons therefor, in a communication from the Borough President to the Comptroller under date of December 16, 1908.

In view of the facts herein previously stated, I would suggest that the Select Committee recommend to the Board of Estimate and Apportionment the approval of the resolution appended hereto, which recommends to the Board of Aldermen the establishment of those positions and grades only which have been placed in the 1909 Budget for the purpose of compliance with the Civil Service Law.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the following grades of positions in the office of the President, Borough of Queens, in addition to those already existing therein:

Bookkeeper, \$1,050 per annum; Bookkeeper, \$1,200 per annum.

—and the establishment of the following positions in said office:

Inspector of Street Opening, \$1,200 per annum; Inspector of Complaints, \$1,200 per annum; Inspector of Supplies and Repairs, \$1,200 per annum; Storekeeper, \$1,050 per annum; Messenger, \$900 per annum.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, Queens and Richmond and the Acting President of the Borough of The Bronx—16.

Skelly, Mrs. Henriette L. Smith and Miss Minnie A. DeChard, Probation Officers, for the months of August, September, October, November and December, at the rate of \$75 each per month (referred to the Comptroller October 2, 1908); resolution of the Board of Aldermen requesting an issue of \$1,125 Special Revenue Bonds (subdivision 8, section 188 of the Charter) for this purpose (referred to the Comptroller on December 4, 1908); communication from said Board of City Magistrates stating that the balance in the Salary account is sufficient to pay said salaries; together with report of the Comptroller recommending the payment

of salaries of said Probation Officers as set forth therein, from the unexpended balance in the Salary account of said Courts.

NEW YORK, September 29, 1908.

The Board of Estimate and Apportionment, No. 277 Broadway, Manhattan:

GENTLEMEN—I am directed by the Board of City Magistrates, First Division, to request your Honorable Board to make an appropriation for the payment of salaries of the following named female Probation Officers, appointed by this Board, for the months of August, September, October, November and December, at a salary of \$75 per month each, making a total of eleven hundred and twenty-five dollars (\$1,125):

Mrs. Mary A. Skelly, Mrs. Henriette L. Smith, Miss Minnie A. DeChard.

Respectfully yours,

PHILIP BLOCH, Secretary.

In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of one thousand one hundred and twenty-five dollars (\$1,125), the proceeds whereof to be used by the Board of City Magistrates, First Division, for the purpose of paying the salaries of three female Probation Officers from August 1, 1908, to December 31, 1908, at the rate of seventy-five dollars (\$75) each per month.

Adopted by the Board of Aldermen November 17, 1908, three-fourths of all the members voting in favor thereof.

Received from his Honor the Mayor, December 1, 1908, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

P. J. SCULLY, Clerk.

BOARD OF CITY MAGISTRATES,  
FIRST DIVISION, CITY OF NEW YORK,  
NEW YORK, December 18, 1908.

To the Board of Estimate and Apportionment, No. 277 Broadway, Manhattan:

GENTLEMEN—On November 17, 1908, the Board of Aldermen adopted a resolution authorizing the issuance of \$1,125 Revenue Bonds, the proceeds thereof to be used by the Board of City Magistrates of the First Division for the purpose of paying the salaries of three female Probation Officers from August 1, 1908, to December 31, 1908, at the rate of \$75 per month each.

Since said resolution was adopted, upon an examination of the appropriation made for salaries for the year 1908, I find that after all salaries are drawn out of said fund there will remain a surplus of \$1,490.92.

I therefore respectfully request that in place of the issuance of Revenue Bonds your Honorable Board place in a special fund from which may be drawn the sum of \$1,079.03, which will be the amount necessary to pay the salaries of:

Mary A. Skelly, from August 1 to December 12, 1908,..... \$329 03  
Henriette L. Smith, from August 1 to December 31, 1908,..... 375 00  
Minnie A. De Chard, from August 1 to December 31, 1908,..... 375 00

Total..... \$1,079 03

The difference in amount in reference to Mary A. Skelly is caused by the fact that she was, on the 12th day of December, by consent of the Municipal Civil Service Commission, transferred from the position of female Probation Officer in and for the City Magistrates' Courts, First Division, to that of Examiner in the Department of Public Charities.

Respectfully yours,

PHILIP BLOCH, Secretary.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
January 6, 1909.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the application of the Board of City Magistrates, First Division, to the Board of Estimate and Apportionment, for an issue of Special Revenue Bonds, or the transfer of an unexpended balance to provide for the salaries of three female Probation Officers from August 1, 1908, to December 31, 1908, referred to the Comptroller and by you referred to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

It appears that the Board of City Magistrates, First Division, at a meeting held July 27, 1908, appointed Mary A. Skelly, Henriette L. Smith and Minnie A. De Chard Probation Officers at a salary of \$900 per annum each. The Budget appropriation provided for the salaries of eight female Probation Officers. There was no regular appropriation available to pay the salaries of the three additional female Probation Officers. The City Magistrates, however, in making such appointments, were under the mistaken belief that an unexpended balance of Special Revenue Bond issue of \$13,000, authorized April 7, 1905, to pay the salaries of female Probation Officers who had previously served without compensation could be drawn upon for the new appointees. The result is they have been rendering services for which no funds are available for payment of their salaries.

On November 17, 1908, the Board of Aldermen adopted a resolution requesting the Board of Estimate and Apportionment to issue \$1,125 Special Revenue Bonds to pay their salaries. Before any action was taken on this request the Bureau of Municipal Investigation and Statistics notified the Chief Clerk of the City Magistrates that an unexpended balance in the salary account for 1908 could probably be utilized in place of a bond issue. On December 18 the Chief Clerk of the City Magistrates, in a com-

munication to the Board of Estimate and Apportionment, suggested that the amounts due the female Probation Officers be paid from a surplus of \$1,490.92 in the salary account for 1908.

Regarding the authority of the City Magistrates to appoint Probation Officers, section 11-A of the Code of Criminal Procedure provides:

"The justices of the courts having original jurisdiction of criminal actions in the state shall, from time to time, appoint a person or persons to perform the duties of Probation Officer, and the Board of Estimate and Apportionment in the city of New York and the appropriate municipal board or body of any other city or village, or the board of supervisors of any county, may in their discretion determine whether probation officers shall receive a salary, and if they shall so determine they may fix the amount thereof and provide for its payment."

Chapter 508, Laws of 1904, an Act to amend the Code of Criminal Procedure provides:

"The board of estimate and apportionment in the city of New York may in their discretion determine whether women appointed to act as probation officers, not detailed from other branches of the public service, shall receive a salary and if they shall so determine, they may fix the amount thereof and provide for its payment."

The Board of Estimate and Apportionment has fixed the salary of female Probation Officers in the City Magistrates Courts at \$900 per annum each. The three female Probation Officers who took office August 1, 1908, did so with the understanding that funds were available to compensate them for their services. Two of them rendered services until December 31. One of them was transferred on December 12, to the Department of Charities.

Your Examiner recommends that the unexpended balance in the salary account of the Board of City Magistrates, First Division, for 1908, be made available to pay the salaries of Mary A. Skelly, Henriette L. Smith and Minnie A. De Chard, for services rendered as Probation Officers during the months of August, September, October, November and December, 1908, at the rate of \$900 per annum each as follows:

Mary A. Skelly, from August 1, 1908, to December 12, 1908,..... \$329 03  
Henriette L. Smith, from August 1, 1908, to December 31, 1908,..... 375 00  
Minnie A. De Chard, from August 1, 1908, to December 31, 1908,..... 375 00

Total..... \$1,079 03

No provision has been made in the Budget for 1909 to pay the salaries of three additional female Probation Officers for the City Magistrates Courts, First Division, and the services of the two who held office December 31, 1908, have been dispensed with.

Yours respectfully,

CHARLES S. HERVEY, Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

(On September 29, 1907, a report of the Chief Engineer concerning the stringing of wires by the New York Central & Hudson River Railroad Co. over the rapid

transit structure at Kingsbridge was referred to the Commissioner of Water Supply, Gas and Electricity.

On November 6, 1908, the report of the Commissioner of Water Supply, Gas and Electricity referred to above was presented to the Board, ordered printed in the minutes and referred to the Corporation Counsel.)

Which was referred to the Chief Engineer of the Board for conference with the Commissioner of Water Supply, Gas and Electricity.

Which was ordered printed in the minutes and a copy thereof sent to each member of the Board.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
January 7, 1909.

To the Board of Estimate and Apportionment:

GENTLEMEN—In the matter of continued authorizations for issuance of Corporate Stock, more recently called to your attention in the case of Queens Borough, for purposes ostensibly of triangulation and monumenting, though to a large extent actually used in preparing rule and damage maps for street opening purposes, I believe communications should be addressed to the several Borough Presidents, requesting that during the ensuing year the itemized expenditures required to carry on this work on the streets involved be forwarded in the Board of Assessors to be included in street opening costs.

The cost of this work, being initiatory to that of laying assessments for sewer and street improvements, which latter are assessed against the property benefited, should be removed from the Corporate Stock Account and should be made payable from the Street Improvement Fund.

Respectfully,

H. A. METZ, Comptroller.

The Comptroller presented a communication from the Commissioner of the Department of Correction, requesting an appropriation of \$150,000 Corporate Stock, to provide means for the erection and completion of dormitories for inmates under the jurisdiction of the Board of Parole on Hart's Island.

Which was referred to the Commissioner of Bridges.

The President of the Borough of Brooklyn offered the following resolution:

Resolved, That the heads of the various Departments, Bureaus and Offices of The City of New York and the counties included therein be and they are hereby requested to furnish to the Board of Estimate and Apportionment a statement of all salary increases which have been made since the adoption of the Budget, to wit: October 30, 1908, up to and including January 8, 1909.

**CORPORATION SALE OF BUILDINGS AND APPURTENANCES THEREON ON CITY REAL ESTATE.**

**AT THE REQUEST OF THE PRESIDENT** of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction all the buildings, parts of buildings, and appurtenances thereon, owned by The City of New York, acquired by it for street widening purposes, in the

Baroness of Brooklyn.

Being all those buildings, parts of buildings, etc., lying within the lines of Tenth avenue, between Fifthteenth and Sixteenth streets, in the Borough of Brooklyn, and which are more particularly described as a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 200 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held by them on January 23, 1909, the sale of the above-described buildings and appurtenances thereon will be held, by direction of the Comptroller, on

**TUESDAY, FEBRUARY 9, 1909**

at 11 o'clock a. m., on the premises, upon the following

**TERMS AND CONDITIONS.**

The buildings and appurtenances thereon will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of the speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing thereon or permitting the occupancy of any such building for any tenant, for rent or otherwise, exceeding the necessary workmen as the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walls, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalks and curbs in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, current old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All fences, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

H. A. METZ, Comptroller.  
City of New York, Department of Finance,  
Comptroller's Office, January 20, 1909.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All fences, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. **CORPORATION SALE OF BUILDINGS AND APPURTENANCES THEREON ON CITY REAL ESTATE.**

**AT THE REQUEST OF THE PRESIDENT** of the Borough of Richmond, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction all the buildings, parts of buildings, and appurtenances thereon, owned by The City of New York, acquired by it for street widening purposes, in the

Borough of Richmond.

Being all those buildings, parts of buildings, etc., lying within the lines of Suydam place, between the southern line of the United States Light-house property and Warner place, and an unnamed street (extension of Shureman place), between Warner place and Artista street, in the Borough of Richmond, and which are more particularly described as a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 200 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held by them on January 23, 1909, the sale of the above-described buildings and appurtenances thereon will be held, by direction of the Comptroller, on

**MONDAY, FEBRUARY 8, 1909**

at 11 o'clock a. m., on the premises, upon the following

**TERMS AND CONDITIONS.**

The buildings and appurtenances thereon will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of the speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing thereon or permitting the occupancy of any such building for any tenant, for rent or otherwise, exceeding the necessary workmen as the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the

circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walls, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalks and curbs in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, current old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All fences, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

#### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of the City of New York, and must also at the time of sale give a certified check or cash in full of the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale.

Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale, and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundations walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within sixty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion, as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless the City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them, or any of them, and against and from all damage and costs to which it, they, or any of them, be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in carrying the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Partly walls and fences, when existing against adjacent property not sold, shall not be taken down. All chimneys, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beams, etc., bricked up, and the wall made to exclude wind and rain and prevent a clean exterior. The roofs of adjacent buildings shall be made water-tight where they have been disturbed by the operations of the contractor.

The Comptroller of the City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

H. A. METZ, Comptroller.

Terminal Railroad the franchise or right fully set out and described in the following form of proposed contract for the grant thereof embodying all the terms and conditions including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York as follows, to wit:

#### PROPOSED FORM OF CONTRACT.

This contract, made this \_\_\_\_\_ day of \_\_\_\_\_, 1909, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the East River Terminal Railroad (hereinafter called the Company), party of the second part, witnesses:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate railroad tracks either at the grade of the surface of the streets and avenues or above or below the grade thereof, as shall be determined by the Public Service Commission for the First District of the State of New York, pursuant to law, for the purpose of conveying goods, wares and merchandise only, in the Borough of Brooklyn, City of New York, as follows:

(a) Four tracks beginning at the westerly side of Wythe avenue; thence across Wythe avenue to the easterly side thereof, all of such tracks to be situated in the portion of Wythe avenue between the southerly side line of North Fourth street and a line parallel thereto crossing Wythe avenue about sixty (60) feet southerly therefrom.

(b) Six tracks beginning at the westerly side line of Kent avenue; thence across Kent avenue to the easterly side line thereof, all of such tracks to be situated in the portion of Kent avenue between the southerly side line of North Fourth street and the line parallel thereto, and crossing Kent avenue about one hundred and twenty (120) feet southerly therefrom.

(c) One track beginning at the westerly side line of Kent avenue; thence curving northerly and easterly across Kent avenue and North Fourth street to the northerly side line of North Fourth street at a point about one hundred and ten (110) feet easterly from the easterly side line of Kent avenue. Said track hereby authorized are shown upon a map entitled:

"Plan showing proposed tracks on North Fourth street, Kent avenue and Wythe avenue, Borough of Brooklyn, N. Y., to Accompany Application, dated January 15, 1908, of the East River Terminal Railroad to the Board of Estimate and Apportionment."

—and signed by the East River Terminal Railroad Company, W. R. Hovener, Jr., President, and approved by H. O. Hovener, Jr., dated June, 1908, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed. Provided that deviations therefrom which are consistent with the foregoing description, and the other provisions of this contract, may be permitted by resolution of the Board.

Sec. 2. The grant of this right or privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within one month after the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time the Company shall within one month thereafter make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railroad shall be held and enjoyed by the Company for the term of fifteen (15) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of ten (10) years upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time, not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year of this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board), or the Company shall be bound, upon request of the other, to enter into a written agreement with each other, fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not fairly agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board, one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiry and investigation, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until

the new rate shall be determined, and shall then take up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—Upon the termination of this original contract, or if the same is renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks of the Company constructed pursuant to this contract, within the streets, avenues and highways shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this grant as above the City (by the Board) shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of the tracks and other equipment constructed pursuant to this contract, and the said streets, avenues and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fourth—The Company shall pay to the City for the privilege the following sums of money:

(a) The sum of three thousand dollars (\$3,000) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

(b) During the first ten (10) years of this contract, beginning on the date when this contract is signed by the Mayor, an annual sum of four hundred and fifty dollars (\$450).

During the succeeding five (5) years of this contract an annual sum of nine hundred dollars (\$900).

Such sums as above shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or by any law of the State of New York.

Fifth—The annual charges or payment shall continue throughout the whole term of this contract, whether original or renewed, notwithstanding any change in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges herein granted, whether original or renewed, or of any part thereof, or of the route mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions in this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments anything to any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—The Company shall commence construction of the railroad herein authorized, within two (2) months from the date upon which the consents of the property owners are obtained, or from the date upon which the decision of the Appellate Division of the Supreme Court that such railroad ought to be constructed is rendered in lieu of such consents, and shall complete the construction and place the same in full operation within six (6) months from the date of obtaining such consents or such decision, otherwise this grant shall cease and determine, and all sums paid, or which may be demanded with the City, shall be forfeited to the City; provided, that such periods may be extended by the Board for a period of periods not exceeding in the aggregate six months each; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless, upon the request of the Board the Company shall in writing consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Eighth—The work of construction of the tracks hereby authorized shall be done in such manner as shall not substantially interfere with the ordinary use of any street, avenue or highway as a public highway.

Ninth—The street surface passenger railway now operated upon Kent avenue shall have the right of way over the cars or trains operated upon the tracks hereby authorized.

Tenth—Cars may be operated upon said tracks by steam locomotives, which shall be housed or boxed so as to conform with the type commonly known as the dummy engine, or by any other motive power which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York, provided, however, that the Board, upon giving to the grantee one year's notice, may require the company to operate its railroad upon the whole or any portion of the tracks hereby authorized by such system of electric power as may be designated by the Board, and the company shall thereupon discontinue the use of steam locomotives from such tracks.

Eleventh—Neither passengers nor vehicles shall be prevented from crossing the tracks hereby authorized by the occupation of such tracks by cars or trains operated thereon, for a greater period than five consecutive minutes at any time,

and the aggregate of such periods shall not exceed ten minutes in any hour between 7 o'clock a. m. and 6 o'clock p. m.

Twelfth—Should the Company be allowed to operate at the grade of streets and avenues, it shall erect, maintain, and operate gates across Kent avenue at or near the southerly side line of North Fourth street, and at a point about one hundred and twenty (120) feet southerly from the said southerly side line of North Fourth street; also gates across Wythe avenue at or near the southerly side line of North Fourth street, and at a point about sixty (60) feet southerly from the said southerly side line of North Fourth street. Such gates shall be closed so as to exclude pedestrians and vehicles from the tracks hereby authorized, when cars or trains are operated thereon. In addition to such gates, the Company shall station flagmen at the intersection of Kent avenue and North Fourth street for the protection of persons and vehicles using North Fourth street. Should it seem necessary, in the opinion of the Board, that gates other than those herein required should be maintained for the protection of persons or property, the Company shall erect, maintain and operate such gates upon thirty (30) days' notice to the Board by the Company.

Thirteenth—As long as the said tracks, or any portion thereof, shall remain in the streets, avenues or highways, the Company shall set the curbs and pave the roadway and sidewalk and keep the same in permanent repair upon that portion of the surface of Kent avenue, between the southerly side line of North Fourth street and a point one hundred and twenty (120) feet southerly therefrom; that portion of Wythe avenue between the southerly side line of North Fourth street and a point sixty (60) feet southerly therefrom, and that portion of North Fourth street between the rails of the tracks hereby authorized in that street and for a distance of two feet beyond such rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. The City shall have the right to change the material or character of the pavement of any such streets, avenues or highways, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City officer at its own expense, and the provisions as to repairs herein contained shall apply to such renewal or altered pavement.

Fourteenth—The Company shall at all times keep that portion of the surface of Kent avenue, between the southerly side line of North Fourth street and a point one hundred and twenty (120) feet southerly therefrom; that portion of Wythe avenue between the southerly side line of North Fourth street and a point sixty (60) feet southerly therefrom, and that portion of North Fourth street between the rails of the tracks hereby authorized in that street, and for a distance of two (2) feet beyond such rails on either side thereof, free and clear from snow and ice, provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clear an equivalent amount of street surface from house line to house line.

Fifteenth—Should the grades or lines of any street, avenue or highway in which said tracks are hereby authorized be changed at any time during the term of this contract, the Company shall change its tracks to conform with such new grades and lines, and during the construction of such public improvement upon such street, avenue or highway, the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the President of the Borough of Brooklyn.

Sixteenth—It is agreed that the right hereby granted to operate a railroad shall not be in preference or in hindrance to public work of the City, and should the said railroad in any way interfere with the construction of public work in the streets or avenues, whether the same is done by the City directly, or by a contractor for the City, the Company shall at its own expense remove or move the tracks and appurtenances in a manner as directed by the President of the Borough of Brooklyn.

Seventeenth—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railroad, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Eighteenth—The said railroad shall be constructed and operated in the latest approved manner of street railroad construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railroad equipment, including rolling stock and railroad appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Nineteenth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City. Before any construction shall be commenced upon any portion of the route, written permits shall be obtained from the President of the Borough of Brooklyn, Gas and Electricity, and the Company shall comply with any conditions which those officials may impose as a condition upon which such permit is granted, provided such conditions are imposed for the purpose of protecting the structures over which those officials have jurisdiction.

Twentieth—The rates for carrying property upon the tracks hereby authorized shall in all cases be reasonable in amount, and shall be subject to the control of the Board, and be fixed by the Board after notice to the Company, and hearing had thereon, and when so fixed such rate shall be binding upon the Company, and no rates in excess of those fixed shall be charged for such service.

Twenty-first—The Company shall at all times keep accurate books of account of the gross earnings from all sources, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross earnings, total miles in operation and the miles of railroad constructed and operated under this contract and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-second—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the rail-

road constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity.

Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-third—If the Company shall fail to give efficient public service or fail to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time, and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures which may affect the surface of the streets, avenues or highways shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-fourth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to reimburse the City any damages which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-fifth—This grant is upon the express condition that the Company within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of three thousand dollars (\$3,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice, and the quality of the construction of the railroad, and in the case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to obstruction of traffic, the maintenance of gates and flagmen, the repair of pavements and removal of snow and ice, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its President, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or means of action belonging to the City.

Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-eighth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This grant is also upon the further and express condition that the provisions of the Railroad Law pertinent herein, and further, all laws or ordinances now in force, or which may be adopted affecting the surface railways operating in the City, not inconsistent with the said Railroad Law and the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.
