**REDUCTION OF ASSESSMENT ON EAST TWO HUNDRED AND THIRTIETH STREET, BRONX.**

Hearing was opened in the matter of the application to have the City assume a portion of the cost of opening East Two Hundred and Thirtieth street, from Broadway to Bailey avenue, Borough of The Bronx.

The following petitions and report of the Chief Engineer were presented:

In the Matter  
of

Opening East Two Hundred and Thirtieth Street, from  
Broadway to Bailey Avenue, in the Twenty-fourth  
Ward, Borough of The Bronx, City of New York.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The petition of Joseph H. Godwin respectfully shows to this Honorable Board: That East Two Hundred and Thirtieth street, as laid out in the above-entitled proceeding, is a widening of what was formerly known as Riverdale avenue, such avenue having been legally opened as a sixty-foot thoroughfare on January 18, 1884, the cost of the proceeding being borne by the property in the immediate vicinity of same, and the land owned by your petitioner bearing a heavy portion of such assessment, and any additional amount levied against his property would be an unjust burden.

That the width of the former Riverdale avenue was sufficient to meet all the requirements of the abutting or adjacent property, and as the above-mentioned proceeding was instituted by the municipal authorities, who deemed it necessary for the benefit of the public in general to widen said Riverdale avenue (now East Two Hundred and Thirtieth street) to a one hundred-foot thoroughfare, it would be only just for the City to assume the entire cost of same.

Your petitioner respectfully submits the following reasons why the City at large should bear its share of the cost and expense of this proceeding.

That East Two Hundred and Thirtieth street leads directly to the bridge over the Spuyten Duyvil creek at the southerly terminus of Broadway, thus forming a means of direct access between the Borough of Manhattan and all that territory in the Borough of The Bronx bounded by Albany road, Nathalie and Sedgwick avenues and Van Courtlandt Park South.

That upon East Two Hundred and Thirtieth street are located stations of the New York Central and Hudson River Railroad and the New York and Putnam Railroad, which railroads are the only means of rapid transit for all of that section of the Borough of The Bronx known as Kingsbridge, and the traffic on this street during business hours is excessive. Therefore the widening of this street becomes an additional reason why the public in general is benefited, as such widening relieves the congested conditions.

That it is proposed to extend the Rapid Transit System through East Two Hundred and Thirtieth street from Broadway to Bailey avenue, and to erect at the latter point a terminal station. This improvement is made possible by reason of the widening of East Two Hundred and Thirtieth street.

That on May 3, 1898, the following communication was received by the Board of Public Improvements of The City of New York (see minutes of Board of Public Improvements, pages 320 and 321), and was referred by said Board to its Engineer.

"THE CITY OF NEW YORK,  
"PRESIDENT OF THE BOROUGH OF THE BRONX,  
"MUNICIPAL BUILDING, CROTONA PARK,  
"April 30, 1898.

"Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

"DEAR SIR—I hereby certify that the appended resolution was recommended for adoption by the Board of Public Improvements at a meeting of the Local Boards, Twenty-first District, held on April 28 last, viz.:

"Resolved, That the Local Board, Twenty-first District, Borough of The Bronx, hereby recommends to the Board of Public Improvements that proceedings be initiated to acquire title to that part of West Two Hundred and Thirtieth street in the Twenty-fourth Ward, from Broadway to Bailey avenue, to which title has not been yet acquired by the City, and that a copy of this resolution be transmitted forthwith to the Board of Public Improvements.

"Respectfully,  
"LOUIS F. HAFFEN."

That on June 15, 1898, the report of the Engineer of the Board of Public Improvements was submitted to said Board, and was as follows:

"CITY OF NEW YORK,  
"PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS,  
"TOPOGRAPHICAL BUREAU, BOROUGH OF THE BRONX,  
"May 12, 1898.

"Col. JOHN H. MOORE, Secretary, Board of Public Improvements:

"SIR—In accordance with the action taken by the Board of Public Improvements at its meeting held the 3d instant, in relation to the resolution passed by the Local Board of the Twenty-first District, Borough of The Bronx, recommending the legal opening of East Two Hundred and Thirtieth street, from Broadway to Bailey avenue, and referred to me for report, I have to state as follows:

"That East Two Hundred and Thirtieth street, from Broadway to Bailey avenue, was legally opened under the name of Riverdale avenue, January 18, 1884, at a width of 60 feet. The street was laid out 100 feet, widening the same 40 feet on the south side, on the final maps and profiles of the Twenty-third and Twenty-fourth Wards, and is the main road connecting Spuyten Duyvil with Kingsbridge and Fordham. Two (2) railroad depots are located between Broadway and Bailey avenue, and the crossing of the trains makes this passage very dangerous. It is contemplated to carry East Two Hundred and Thirtieth street over the two (2) railroads, and the acquiring of title to the widening of the same is a step toward abolishing this dangerous grade crossing. It is therefore recommended that a resolution be prepared and adopted for acquiring title to East Two Hundred and Thirtieth street, from Broadway to Bailey avenue, wherever title has not been acquired as yet. There are several buildings within the area to be acquired.

"I transmit herewith a sketch showing the location of East Two Hundred and Thirtieth street and the railroad depot and tracks, and return the typewritten copy of the resolution.

"Respectfully,

"LOUIS A. RISSE,

"Chief Topographical Engineer and Engineer of Concourse."

(See minutes of Board of Public Improvements, page 458.)

That thereupon, and on June 12, 1898, a resolution was adopted by the Board of Public Improvements (see minutes, pages 458 and 459), which is as follows:

"Resolved, That the Board of Public Improvements of The City of New York, in pursuance of the provisions of sections 970 and 990 of chapter 378, Laws of 1897, deems it for the public interest that the title to lands and premises required for the opening and extending of East Two Hundred and Thirtieth street, from Broadway to Bailey avenue, in the Borough of The Bronx, City of New York, should be acquired by The City of New York at a fixed or specified time.

"Resolved, That it appears to this Board, from the surveys made and information furnished to it by the President of the Board of Public Improvements, that there are buildings upon the lands that shall or may be required for the purpose of opening and extending said East Two Hundred and Thirtieth street from Broadway to Bailey avenue.

"Resolved, That this Board directs that upon a date to be hereafter more fully specified, not less than six months after the filing of the oaths of the Commissioners of Estimate and Assessment who may be appointed by the Supreme Court in proceedings for the acquisition of title to such street or avenue, the title to any piece or parcel of land lying within the lines of such East Two Hundred and Thirtieth street, from Broadway to Bailey avenue, so required, shall be vested in The City of New York.

"Resolved, That the Board of Public Improvements, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court in and for the First Department, for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not been heretofore acquired, for the use of the public, to the lands, tenements or hereditaments that shall or may be required for the purpose of opening and extending East Two Hundred and Thirtieth street, from Broadway to Bailey avenue, in the Borough of The Bronx, City of New York.

"Resolved, That the entire cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

"Affirmative—Commissioners of Highways, Street Cleaning, Bridges, President Borough of The Bronx, President of the Board.

"Negative—None."

That no request for the institution of this proceeding was ever made by your petitioner, and no notice of same or opportunity to be heard in opposition thereto was ever given to him.

Wherefore, Your petitioner prays this Honorable Board to rescind the action of the former Board, placing the entire cost of said improvement on the property deemed to be benefited, and to pass a resolution placing fifty (50) per cent. of the cost and expense of this proceeding upon The City of New York, and fifty (50) per cent. of same upon the property deemed to be benefited thereby; and your petitioner will ever pray.

NEW YORK SUPREME COURT, CITY AND COUNTY OF NEW YORK.

In the Matter  
of

The application of The City of New York, relative to acquiring title wherever the same has not heretofore been acquired to East Two Hundred and Thirtieth street, from Broadway to Bailey avenue, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

Petition for City to assume  
expense and application  
for a hearing.

To Hon. Seth Low, Hon. Edward M. Grout, Hon. Charles V. Fornes, Hon. Jacob A. Cantor, Hon. Louis F. Haffen and others, comprising the Board of Estimate and Apportionment:

Benjamin F. Manierre, your petitioner, respectfully shows:

First—That this proceeding is for the widening of East Two Hundred and Thirtieth street, between Broadway and Bailey avenue, from sixty (60) feet, its present width, to one hundred (100) feet.

Second—That your petitioner is and has been for upwards of twenty-five years the owner of property at Kingsbridge, assessed in this proceeding for benefit, as follows:

Block No.	Lot No.	Benefit No.	Amount.
3404	1	425	\$830 82
	32	426	39 04
	70	427	22 73
			\$892 59

Third—That said East Two Hundred and Thirtieth street, between Broadway and Bailey avenue, was heretofore known as a part of Riverdale avenue and was acquired 60 feet in width by The City of New York in proceedings confirmed and filed January 18, 1884.

That in said proceedings no part of the expense was borne by The City of New York, but the entire amount thereof was assessed against your petitioner and other property holders in the immediate vicinity.

That the assessment area was very small, being an irregular tract extending in its greatest width from a point 100 feet east of Bailey avenue to a point 100 feet west of "Ackerman street," now known as Corlear avenue, a distance of only about 1,650 feet, and in its greatest length extending from about the line of Spuyten Duyvil Creek to

"Weber lane," now known as Two Hundred and Thirty-second street, a distance of only about 1,250 feet. That only 139 assessment numbers were embraced in the entire area of assessment.

Fourth—That this section of Two Hundred and Thirtieth street is only about 600 feet in length, and its extra width is of no importance to the neighborhood, adds nothing to the value of property, and would be unnecessary except for the fact that it is the approach to the two railroad stations (New York Central and Hudson River Railroad and the Putnam Railroad) at Kingsbridge.

Fifth—That the terminal station of the Underground Rapid Transit Road will be located on this section of Two Hundred and Thirtieth street.

Sixth—That a partial report embracing the awards for damage in this proceeding has already been confirmed (April 24, 1901, order entered June 19, 1901), the awards amounting to \$49,470, of which the sum of \$21,897 was for buildings taken.

That the last partial and separate report (preliminary), now pending, levies a total assessment of \$56,435.42, or thereabouts, and a motion to confirm said last report is set down for November 14, 1902.

Seventh—That no part of the cost of this widening is assessed against the City, as your petitioner is informed and believes, except the sum of \$90.26 on a parcel of land acquired by the City in proceedings to extend Broadway across the Harlem river.

Eighth—That the additional width for this short depot street is in no sense a local improvement, but is made for the benefit of the traveling public generally.

That a very small area paid the whole cost of the present sixty-foot street, and that the same property holders should not now be called upon to bear (as they would have to do) by far the largest proportion of any cost of the present widening not assumed by the City.

Wherefore, Your petitioner prays that the Honorable Board of Estimate and Apportionment, under its statutory powers and under its standing resolution in such case made and provided, will hear and determine whether this is not such an exceptional case that the entire cost of this improvement should be borne and paid by The City of New York, and that your petitioner and others similarly situated may have an opportunity to be heard in the matter, and for such other and further relief as to your Honorable Board may seem just.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
September 5, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—I return herewith petitions of Joseph H. Godwin and Benjamin F. Manierre, asking for a reduction of the assessment for opening East Two Hundred and Thirtieth street, from Broadway to Bailey avenue, in the Twenty-fourth Ward, Borough of The Bronx.

It is stated in these petitions that this proceeding, while called an opening, was a widening of old Riverdale avenue, which had been legally opened to a width of 60 feet, was the main thoroughfare to the bridge over Spuyten Duyvil creek and the stations of the Hudson River and Putnam divisions of the New York Central Railroad. It is asked that the City assume either 50 per cent. or all of the cost of this improvement.

The proceeding to open this part of East Two Hundred and Thirtieth street was authorized by the Board of Public Improvements on June 15, 1898, and the improvement was described as the opening and extending of East Two Hundred and Thirtieth street, from Broadway to Bailey avenue. The Board directed that the entire cost of the improvement should be assessed upon the property benefited. In the report from the Topographical Engineer attention is called to the fact that Riverdale avenue had been legally opened at a width of 60 feet. The awards were affirmed on June 15, 1901.

An inspection of the street shows that many of the buildings fronting on the street would have to be taken, and it also appears that a street of the former width of 60 feet would have been ample to accommodate the local traffic. It would probably be unwise to discuss the wisdom of widening so short a street to 100 feet, but it has been done, and this seems a normal case which was intended to be covered by the rule of the Board recently adopted for widenings, under which the City would pay one-half the cost of such widening over 60 feet. As the street was widened from 60 to 100 feet the City, under this rule, would contribute 50 per cent. of the cost of the proceeding, which would amount to about \$27,000, and I would recommend that this course be taken.

I beg, also, to call attention to the fact that another proceeding has been inaugurated to widen the same street to 80 feet, from Broadway westerly to the tracks of the New York Central and Hudson River Railroad, or Riverdale avenue.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

After hearing Hon. Charles L. Guy and Alfred L. Manierre, Esq., in support of the application, on motion of the Mayor the following resolution was adopted:

Whereas, The Board of Public Improvements of The City of New York instituted proceedings on June 15, 1898, for the opening and extending of East Two Hundred and Thirtieth street, from Broadway to Bailey avenue, in the Borough of The Bronx, City of New York, and directed that the entire cost and expense of said proceeding should be assessed upon the property deemed to be benefited; and

Whereas, The Board of Estimate and Apportionment of The City of New York deems it to be fair and equitable that The City of New York should bear fifty per cent. of the said cost and expense; therefore be it

Resolved, That in accordance with the provisions of law, the Board of Estimate and Apportionment of The City of New York hereby determines that fifty per cent. of the cost and expense of the opening and extending of East Two Hundred and Thirtieth street, from Broadway to Bailey avenue, in the Borough of The Bronx, City of New York, shall be assessed upon the property deemed to be benefited by such improvement, and fifty per cent. of such cost and expense shall be borne and paid by The City of New York.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn and the President of the Borough of The Bronx—14.

#### REDUCTION OF ASSESSMENT ON PARK AT SPUYTEN DUYVIL.

Hearing was opened in the matter of the application to have the City assume a portion of the expense for acquiring a park between the New York Central Railroad and Johnson avenue.

After hearing Mr. Kelly, representing the estate of Isaac Johnson, on motion of the President of the Borough of Manhattan, the matter was referred to the Comptroller for a report.

#### REDUCTION OF ASSESSMENT ON WEST ONE HUNDRED AND THIRTY-FIFTH STREET, MANHATTAN.

In the matter of the application to have the City assume a portion of the expense

of opening West One Hundred and Thirty-fifth street, from Broadway to Riverside Drive Extension, Borough of Manhattan, at the request of Mr. Joseph A. Flannery, counsel for petitioner, the matter was laid over for one week.

#### REDUCTION OF ASSESSMENT ON CLAY AVENUE, BRONX.

Hearing was opened in the matter of the application to have the City assume a portion of the cost of opening Clay avenue, from Park avenue to Webster avenue, Borough of The Bronx.

The following petition was placed on file in addition to that presented on October 6:

#### BEFORE THE BOARD OF ESTIMATE AND APPORTIONMENT.

In the Matter

of

Opening Clay Avenue, from Park to Webster Avenue.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—The petition of A. Newbold Morris, Augusta Morris de Peyster, Juliet M. Livingston, Antoinette Bloodgood, William F. Havemeyer and others respectfully petition this Board for relief from the above-named assessment on the following grounds, to wit:

A resolution was passed by the Board of Street Opening and Improvement and received by the Corporation Counsel for the appointment of Commissioners on October 14, 1896, whereby it was provided that the entire expense of this opening be borne by the property benefited.

The Commissioners of Estimate and Assessment were appointed by the Supreme Court and filed their oaths of office on June 21, 1897. Their preliminary report was filed on the 8th day of May, 1902, showing awards for damages in the amount of \$124,648.48, exclusive of interest, and assessments for benefit of \$137,821.34.

Clay avenue, starting at Park avenue, is a sixty-foot street to One Hundred and Sixty-seventh street; thence it widens to eighty feet for a distance of two blocks, to One Hundred and Sixty-ninth street; thence at a width of sixty feet northerly to One Hundred and Seventieth street, at which point it widens to eighty feet, and thence into a plaza about 220 feet wide at its junction with Webster avenue, at the entrance to Claremont Park.

Between One Hundred and Sixty-seventh and One Hundred and Sixty-ninth streets Clay avenue is made eighty feet in width for the express purpose of accommodating traffic east and west from One Hundred and Sixty-seventh and One Hundred and Sixty-ninth streets, two eighty-foot streets, with outlet from the east at One Hundred and Sixty-eighth street.

From One Hundred and Seventieth street north Clay avenue is the only avenue of approach from the east that the entire residence district lying south and west of Claremont Park has or ever will have. Otherwise it cannot be said that Clay avenue, the first street west of Webster avenue, is a general thoroughfare.

At One Hundred and Sixty-seventh street Clay avenue starts to rise, and from there to One Hundred and Seventieth street it is in places 75 feet above the grade of Webster avenue, and from One Hundred and Sixty-eighth street north a distance of half a mile, to One Hundred and Seventy-first street, there is no street connection between Webster and Clay avenues on account of the height of Clay avenue above Webster avenue.

It cannot be said that the benefit from opening Clay avenue north of One Hundred and Sixty-seventh street extends east of Webster avenue.

The assessment, therefore, has been levied practically entirely to the west of Webster avenue, taking this street out of the general class of public improvements in The Bronx where the area of benefit extends several blocks on either side of those streets, thereby greatly relieving the burden on the unimproved property on the front.

Under the circumstances in this case the assessment on petitioners' properties exceed the awards by \$15,222, and yet a part of these properties assessed, starting at the Clay avenue front, rises at a fifty per cent. grade westward, taking these lots indefinitely out of the market, as their cost of excavation is greater than their value.

Furthermore, there is included in this assessment an award of \$27,020, made for the land taken forming the plaza at the junction of Clay and Webster avenues, which amounts to an approach to the Claremont Park. This entire amount has been assessed locally as a street opening benefit, whereas, in fact, it is an improvement to the park, and should not be assessed in this street opening proceeding on the property of petitioners a mile or more away.

No part of petitioner's lands were at the time of opening Clay avenue interior land, but always had access to open streets, and Clay avenue is merely an additional means of access.

The City has been assessed for lands within the area of assessment, comprising Claremont Park, amounting to about 1,550 lots, at the rate of about \$6.32 per lot, which is practically nominal; whereas your petitioners' properties have been assessed per lot front at a rate ranging from \$417 to \$330 per lot.

Wherefore your petitioners pray that at least twenty-five per cent. of the cost of this improvement be borne by the City for the above reasons and for the additional reason that that park comprises nearly one-fifth of the land lying within the Commissioner's area of assessment.

Dated October 17, 1902.

Respectfully submitted,

TRUMAN H. BALDWIN, Attorney for Petitioners,  
No. 31 Liberty Street, New York.

The Mayor presented the following resolution:

Resolved, That the Board will decline to reopen any proceeding where the petition was not filed before the adoption of its rule, on the 25th of July, 1902.

The Comptroller moved to amend by adding the following:

"Except in cases where exceptional reasons to the contrary clearly appear."

Which amendment was accepted by the Mayor.

After hearing Mr. Edwin Baldwin, Hon. Charles L. Guy and Mr. Joseph A. Flannery, the resolution was laid over for further consideration.

After hearing Mr. Edwin Baldwin in support of the application in the matter of Clay avenue, the matter was laid over.

#### REDUCTION OF ASSESSMENT ON ARTHUR AVENUE, THE BRONX.

After hearing Mr. Flannery in support of the application, the matter was laid over.

#### REDUCTION OF ASSESSMENT ON VALENTINE AVENUE, THE BRONX.

Hearing was opened in the matter of the application to have the City assume a portion of the cost of opening Valentine avenue, between Burnside avenue and the Kingsbridge road, Borough of The Bronx.

The following petitions and report of the Chief Engineer were presented:

#### IN THE BOARD OF ESTIMATE AND APPORTIONMENT.

In the Matter

of

The assessment for widening Valentine avenue, between Burnside avenue and Kingsbridge road.

The undersigned owners of real property affected by the above-entitled proceed-

ing, respectfully petition your Honorable Board to apply the rule or precedent laid down in past cases and to impose one-third of the cost of widening Valentine avenue upon the City at large.

The Application of the Mayor, Aldermen and Commonalty of The City of New York, relative to acquiring title to Valentine avenue, from Burnside avenue to Kingsbridge road, Twenty-fourth Ward, City of New York (Borough of The Bronx).

To the Board of Estimate and Apportionment:

GENTLEMEN—The petition of the undersigned respectfully shows that he is the owner in fee of the land and premises situated on the westerly side of Valentine avenue, between One Hundred and Eighty-fourth and One Hundred and Eighty-seventh streets, designated on the books and maps of the Commissioners of Taxes of The City of New York as Lots Nos. 7 and 9, in Block 3152, Borough of The Bronx.

That as such owner your petitioner has been or is about to be assessed for benefit for the acquisition of title to Valentine avenue, from Burnside avenue to Kingsbridge road. That said avenue was from Burnside avenue to Fordham road a highway of the uniform width of fifty feet and in use for more than thirty years last past; that said avenue is now opened to the uniform width of 80 feet and is intended for use as a highway for the general public, and the additional width over the original width is not a benefit to your petitioner or to the adjacent property. That title thereto vested in The City of New York on the 10th day of September, 1897, and the said avenue has been regulated and graded throughout its entire length, and such regulating and grading was completed and accepted by the City for more than three years last past.

Wherefore your petitioner prays that a fair proportion of the cost of acquiring title to the land in said avenue shall be borne and paid by The City of New York.

Dated New York, September 12, 1902.

JOHN J. BRADY.

STATE OF NEW YORK, COUNTY OF NEW YORK, ss.:

John J. Brady, being duly sworn, says: That he is the petitioner above named; that he has read the foregoing petition and knows the contents thereof, and that the same is true of his own knowledge, except as to the matters therein stated to be alleged upon information and belief, and as to those matters he believes it to be true.

JOHN J. BRADY.

Sworn to before me this 12th day of September, 1902.  
A. VOORHEES, Notary Public, No. 2, New York County.

NEW YORK, November 19, 1902.

To the Honorable the Board of Estimate and Apportionment:

On behalf of myself and others, the owners of real estate affected by the widening of Valentine avenue, from Burnside avenue to Kingsbridge road, I desire to place myself on record in support of a resolution to be presented to this Honorable Board, that the City assume eighteen and a half per cent. (18½%) of the assessment fixed by the Commissioners in their report for damage in widening said Valentine avenue, as recommended by the Engineer, and desire most earnestly to plead with said Board that the resolution be adopted, as the present assessment for damage is inequitable and unfair for the widening of said avenue under the rule previously laid down by this Board and in other cases adopted.

Yours respectfully,

JOHN H. HENSHAW, Attorney at Law,  
No. 20 Nassau Street, New York.

In the Matter  
of

Acquiring title to Valentine avenue, from Burnside avenue to Kingsbridge road.

To the Board of Estimate and Apportionment:

The undersigned respectfully show that they are the owners of land within the proposed area of assessment for the above-entitled improvement:

1st. That Valentine avenue is one of the main arteries of the Borough of The Bronx, and is 80 feet in width.

That while a street 60 feet in width would be sufficient for all local reasons, this avenue has been acquired at a width of 80 feet.

That the additional width of said street is properly a public charge.

Wherefore your petitioners respectfully ask that a resolution be adopted placing a portion of the cost of this improvement on the City at large.

New York, November 14, 1902.

JOHN C. SHAW,  
Attorney for Property Owners.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
October 20, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted the petition of John J. Brady, dated September 12, 1902, requesting "that a fair proportion of the cost of acquiring title to the land in" Valentine avenue, between Burnside avenue and the Kingsbridge road, in the Borough of The Bronx, "shall be borne and paid by The City of New York."

The proceeding to acquire title to Valentine avenue referred to by the petitioner was authorized by the Board of Street Opening and Improvement on October 16, 1896, under a resolution placing the entire cost upon the property to be benefited. Prior to this date a street was in use on that portion of this improvement between Burnside avenue and Fordham road, the same having an average width of a little over 50 feet.

The Commissioners of Estimate and Assessment have completed their work and their report is now ready for confirmation. This shows the following:

Awards for damages.....	\$133,905 39
Costs .....	8,499 19
Total assessment .....	\$142,404 58

Of this amount, \$3,193.33 has been placed upon the City by the Commissioners under the authorization of section 980 of the Charter, and the remainder has been assessed upon the property benefited. In making up the awards for damages the Commissioners made either nominal or no awards for twenty-five parcels formerly dedicated and which comprise an area of 228,915.05 square feet. The total area included within the lines fixed for the opening is 405,770.80 square feet, corresponding with a length of 5,072.13 feet for a street width of 80 feet.

If we now assume that the street previously in use extended all of the way to Kingsbridge road its area would correspond with a street width of 45.13 feet. Considering this opening as the widening of a street having a width of 45.13 feet to one having a width of 80 feet, the City should pay, under the rule adopted by your Board on July 25, 1902, 28.68 per cent. of the cost. If, however, this is considered as an ordinary opening of a street 80 feet wide, which would seem to have been the view taken when the authorizing resolution was adopted, the City, under the rule of the Board, should assume 8.33 per cent. of the costs.

In view of the fact that this is a local and purely residential street, and that no other district will share with it the benefit of the widening of the old road, and that some relief has already been granted by the Commissioners of Estimate and Assessment, I would recommend that the previous dedication be recognized, to a lesser extent than in the case of an artery of traffic, and that the City assume 18.5 per cent. of the costs, this figure being the mean between the two views which might be taken of the case.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

After hearing John J. Brady, a property owner, and Mr. Salter, in support of the application, the matter was laid over.

REDUCTION OF ASSESSMENT ON GARDEN STREET, THE BRONX.

Hearing was opened in the matter of the application to have the City assume a portion of the cost of opening Garden street, between the Southern Boulevard and Crotona avenue, Borough of The Bronx.

The following petition and report of the Chief Engineer were presented:

IN THE BOARD OF ESTIMATE AND APPORTIONMENT.

In the Matter  
of

The application of The Mayor, etc., relative to acquiring title to Garden street, from Grote street to Southern Boulevard.

The undersigned petitioners respectfully show:

1. That Garden street, from the Southern Boulevard to Crotona avenue, has been dedicated to the public use for many years, and is now used as a public highway.

2. That in the above-entitled opening a nominal award of one dollar has been made for acquiring title to the bed of Garden street, from the Southern Boulevard to Crotona avenue.

3. That in front of your petitioners' property, Grote street and Garden street intersect.

4. That said Grote street has been acquired by the City at a width of sixty feet, and that your petitioners' property heretofore abutted on said Grote street.

5. That by extending Garden street, from Crotona avenue westerly to the intersection of Grote street, Grote street has been practically widened to a width of about one hundred and forty feet, thus making a public place or plaza in front of your petitioners' property.

6. That Grote street, sixty feet wide (for which your petitioners have been assessed the sum of \$2,407.53), afforded to your petitioners' property ample street facilities, and that the widening of said Grote street in this proceeding, so as to form a plaza to the aforesaid width of one hundred and forty feet, is for the public convenience alone.

7. That the total cost and expense of acquiring said Garden street is the sum of \$7,435.43, of which the awards and interest amounted to \$5,891.79.

Wherefore your petitioners pray that the entire cost of acquiring title to Garden street may be borne and paid by The City of New York.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
October 20, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying petition of Frank Schaeffler and Joseph Schaeffler, individually and as executors, addressed to the Board of Estimate and Apportionment, requests that "the entire cost of acquiring title to Garden street may be borne and paid by The City of New York."

Proceedings to open Garden street, between the Southern Boulevard and Crotona avenue, in the Borough of The Bronx (a length of about 1,130 feet), were authorized by the Board of Street Opening and Improvement on June 18, 1897. East of Crotona avenue the street is 50 feet wide; it meets Grote street immediately to the north of Crotona avenue and at an acute angle, necessitating the acquirement of an approximately triangular parcel having a frontage of 84.93 feet on Crotona avenue, 216.28 feet on Grote street and 190.46 feet on the southerly side of Garden street.

The triangular parcel is the "plaza" referred to by the petitioners, its area being 9,796.2 square feet, and if its length be considered as 190.46 feet, the corresponding average width would be 51.4 feet. Eighty per cent. of the area of this alleged plaza was owned by the petitioners, who were awarded for the same \$5,400.93, while the awards for the remaining property taken under the proceeding were only \$153. Title was vested in the City on July 5, 1901, thus increasing the total awards, owing to interest accumulation, to \$5,891.79. The costs of the proceeding are \$1,543.64.

The petitioner says that he has been assessed for the opening \$1,293.76, leaving a net amount due him of \$4,107.17, with interest on \$5,400.93 for nearly a year and a half, as compensation for the loss of a trifle over three City lots. In addition to this award he has obtained a desirable improvement. I fail to find anything in this case which merits granting the application, and I believe that the petitioner has already been generously dealt with.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

Mr. Flannery appeared for the petitioners. The matter was laid over.

CHANGE OF GRADES IN TERRITORY BOUNDED BY HOE STREET, WESTCHESTER AVENUE AND WHITLOCK AVENUE, THE BRONX.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
November 18, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution of the Local Board of Morrisania District, Borough of The Bronx, adopted on October 2, 1902, provides for changing the grade of the streets within the territory bounded by Hoe street, Westchester avenue and Whitlock avenue. The changes are asked for by Mr. John De Hart, manager of the Real Estate Corporation of New York City, which corporation is the owner of the eleven City blocks included within the territory above named.

Mr. De Hart has furnished me with detailed plans and profiles showing just what it is proposed to accomplish by the change of grade, namely, a large reduction in the amount of excavation required, which excavation will be for the most part in rock. Inasmuch as the petitioners own all the property affected southeast of Westchester avenue, I can see no objection to the changes asked on any of the streets included wholly within their lands.

As to Westchester avenue, the circumstances are somewhat different. It is proposed to lower the grade of Westchester avenue, between Longfellow street and the Southern Boulevard about five feet. The street has already been graded and is occupied by a double track surface railroad. The property owners on the northwesterly side of the avenue should be considered in this case, and while the proceedings of the Local Board do not indicate that any protest was made before them, several inquiries have been made at this office indicating that serious objection will be raised by these owners. Their property is now several feet above the present grade of Westchester avenue, and the further lowering of the street will make it six or eight feet above such grade. I cannot but believe that should a public hearing be given sufficient opposition will develop to induce the Board to refer the matter back to the Local Board of the Morrisania District, and would suggest that time might be saved by so doing at once, and that the time occupied in hearing protests by the Board of Estimate and Apportionment would also be saved. If, however, the Board concludes to give a public hearing, a resolution for that purpose is herewith submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442, of the Greater New York Charter, deeming it for the public interest so to do, proposes to alter the map or plan of The City of New York, changing the grade of Westchester avenue, between Southern Boulevard and Bryant street; Bancroft street, between Westchester avenue and Whitlock avenue; Hoe street between Aldus street and Bancroft street; Faile street, between Aldus street and Westchester avenue; Bryant street, between Aldus street and Westchester avenue; Longfellow street, between Aldus street and Westchester avenue; and Whitlock avenue, between Aldus street and Westchester avenue, in the Borough of The Bronx, City of New York, more particularly described as follows:

Resolved, That this Board consider the proposed change of grade at a meeting of this Board, to be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 19th day of December, 1902, at 2.30 o'clock p. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change of grade will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the "City Record" for ten days continuously, Sundays and legal holidays excepted, prior to the 19th day of December, 1902.

REDUCTION OF ASSESSMENT ON KINGSBRIDGE ROAD, THE BRONX.

Hearing was opened in the matter of the application for a reduction of the assessment for opening Kingsbridge road, from Webster avenue to the Harlem river.

The following report from the Engineer of the Finance Department was presented:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
October 8, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—At a meeting of the Board of Estimate and Apportionment held on October 3, 1902, two petitions were presented, signed respectively by the Roman Catholic Orphan Asylum, by Mulqueen & Mulqueen, attorneys, and John O. Baker by Joseph A. Flannery, attorney, praying for a further reduction in the assessment to be levied for the opening of Kingsbridge road, from Webster avenue to the Harlem river. Accompanying the petitions was a report from the Chief Engineer of the Board.

The former Board of Public Improvements on December 18, 1901, placed one-fourth of the cost and expense of the above proceeding upon the City, and in the early part of the present year you referred the matter to me for investigation and report.

In that report, dated May 21, 1902, I stated that the opening of this street was the widening of an existing roadway which had been in use for a great number of years as a public highway, and which old road varied in width from 30 to 50 feet. That the original roadway had been the main thoroughfare between Fordham Station and Kingsbridge and was the continuation of Pelham avenue, which connects with Bronx Park and the old Village of Westchester.

I further stated that it did not seem unreasonable to me that in the case of the widening of existing main thoroughfare a part of the expense should be borne and paid by the City at large, and that the placing of one-fourth of such expense upon the City in this case was not excessive.

You thereupon withdrew your objection to the confirmation of this report.

I do not take it that the rule adopted by the Board on July 25, 1902, of placing a specific portion of the cost upon the City in each street opening proceeding of a street more than 60 feet in width, was intended to be retroactive, except in cases of flagrant violation of the City's interest, where an excessive amount had been placed upon the City by the former Board.

I think it would be extremely bad policy at this time to open a way for a rehearing in all cases of streets not as yet confirmed, in which no part of the cost has been assumed by the City, or where the amount to be assumed by the City is not up to that provided for in the rule. The result would be that many proceedings not on the calendar for confirmation would have to be postponed, in order that proper hearing and report could be made to the Board of Estimate and Apportionment, thus delaying street opening work and at the same time clogging the now overburdened calendar of the public improvements which must come before the Board of Estimate and Apportionment.

I would recommend that the petition be denied.

In this case the time to complete the report of the Commissioners is limited to November 14, 1902, and the same is noticed for confirmation on November 18, 1902. The final awards were \$314,487.96.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

Approved:

EUGENE MCLEAN, Engineer.

Mr. Mulqueen asked for permission to file a brief, and the matter was laid over.

REDUCTION OF ASSESSMENT ON SULLIVAN STREET, MANHATTAN.

In the matter of the application to have the City assume a portion of the expense for opening Sullivan street, from West Third street to West Fourth street, Borough of Manhattan, the hearing having been closed, the matter was laid over.

The following stipulation was placed on file:

NEW YORK SUPREME COURT—FIRST DEPARTMENT.

In the Matter of the Application  
of

The City of New York relative to acquiring title, wherever the same has not been heretofore acquired to Sullivan street (although not yet named by proper authority), from West Third street to West Fourth street, in the Fifteenth Ward, Borough of Manhattan, City of New York.

It is hereby stipulated that if The City of New York assumes a proportion of the expense and cost involved in the above proceeding, in addition to the amount assessed against it as an owner of property, in the report of the Commissioners of Estimate and Assessment therein, no opposition will be made to the confirmation of the said report on the ground that the said assessment against the City was wrong in that it should have been larger.

Dated New York, November 21, 1902.

JOSEPH A. FLANNERY, Attorney for Owners and eleven others.

## REDUCTION OF ASSESSMENT ON BATHGATE AVENUE, THE BRONX.

Hearing was opened in the matter of the application to have the City assume a portion of the assessment for opening Bathgate avenue, from Wendover avenue to East One Hundred and Eighty-eighth street, Borough of The Bronx.

The following petition and report of the Chief Engineer were presented:

NEW YORK SUPREME COURT, NEW YORK COUNTY.

In the Matter  
of

The widening of Bathgate avenue, from Wendover avenue to East One Hundred and Eighty-eighth street, in the Twenty-fourth Ward of The City of New York.

To the Honorable Board of Assessment and Apportionment of The City of New York:

The undersigned property owners assessed in the above proceeding, hereby respectfully petition your Honorable Board to pass a resolution placing one-half of the cost of this proceeding upon The City of New York for the following reasons:

First—That Bathgate avenue, previous to the commencement of these proceedings, was a public street or thoroughfare furnishing ample access to the property assessed in this proceeding; and the property in question has been benefited by said opening to the same extent as property which had no previous legal access.

Second—That this proceeding is unusual in view of the fact that nearly one-third of the amount awarded in the proceeding as damages were for changes of grade and were based upon the theory that the owners of the property so affected had legal access to their property on an established grade prior to the commencement of this proceeding.

The award for change of grade damages herein approximated forty-five thousand dollars out of total awards in the neighborhood of one hundred and fifty thousand dollars.

This has resulted in enhancing the cost of the proceeding and making the assessment against the property assessed herein at least thirty per cent. greater than the expenses put upon similar property located on other streets of like character and within the immediate neighborhood.

Third—It is the purpose of the Charter and equity demands also that owners of property similarly situated should, as nearly as possible, be assessed in like amount for public improvements. To compel the property owners on or near Bathgate avenue to pay a much larger sum for the legal opening of a street which already existed for all practical purposes than has been charged to owners abutting on similar streets would be inequitable, unjust and contrary to the purpose of the statute.

All of which is respectfully submitted.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
NEW YORK, November 26, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a petition addressed to the Board of Estimate and Apportionment by Sarah J. Gleason and five others requesting that one-half the cost of the proceeding to open Bathgate avenue, between Wendover avenue and East One Hundred and Eighty-eighth street, be borne by the City.

The petitioners set forth that this street occupies the site of an old street so that the property is not benefited to the same extent as would have been the case had no street existed; that nearly one-third of the awards, or about \$45,000, were made for changes of grade, and that the causes above named have subjected the property to an unusually excessive assessment.

The street occupies the site of an old road approximately 50 feet wide, and under the proceedings of reference five feet has been added to the width on each side, making a total width of 60 feet. The resolution to open this street as laid out was adopted by the Board of Street Opening and Improvement on February 7, 1896, and the cost of the proceeding was placed upon the property to be benefited. Title to the land was vested in the City on April 14, 1897.

The district of assessment is bounded on the north by a line 100 feet north of One Hundred and Eighty-ninth street, on the east by a line 100 feet east of Third avenue and Lorillard place, on the south by a line 100 feet south of One Hundred and Seventy-first street, and on the west by a line 100 feet west of Washington avenue. The total awards were \$156,911.24, and the preliminary assessments are \$188,129.77. The assessment now placed upon the City is \$1,320.95. The awards have been confirmed, and the report was filed on May 8, 1902. The final report is now being prepared.

The petitioners represent seven parcels, the total assessment upon which is \$713.30, or much less than 1 per cent. of the whole. The street as widened included the steps of a large number of houses, and I am informed by representatives of the Corporation Counsel's office that the damage allowed for change of grade is as large as or larger than stated by the petitioners.

I fail to find any unusual conditions existing in the street which would warrant the City in assuming any part of the costs, and would therefore recommend that this petition be not granted.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

After hearing Hon. Charles L. Guy in support of the application the matter was laid over.

## REDUCTION OF ASSESSMENT ON PUBLIC PLACE AT BERGEN AVENUE AND EAST ONE HUNDRED AND FORTY-NINTH STREET, THE BRONX.

Hearing was opened in the matter of the application to have the City assume the expense for acquiring a public place at East One Hundred and Forty-ninth street, Bergen avenue and Gerard street, Borough of The Bronx.

The following report from the Comptroller was presented:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
November 19, 1902.

To the Board of Estimate and Apportionment:

GENTLEMEN—I have examined fully the application for remission of a portion of the assessment for the acquiring of public place bounded by East One Hundred and Forty-ninth street, Bergen avenue and Gerard street, and for the opening of Gerard street, and the facts and arguments laid before the Board by the attorney for the petitioners. It seems to be impossible to get any re-lease from the respective owners for possible damages because of the construction of the Rapid Transit Tunnel at this point, nor could such damages in any event affect more than a small portion of

those liable for the assessment. The total expense of the proceeding is about \$18,500, of which about \$13,500 is for awards for the taking of land and buildings, and the balance the expense incurred. It seems that the expense is unduly large. It is not possible to say exactly how much of the awards are for the land in the gore constituting the public place, and how much for the land in Gerard street. Gerard street was an old highway in which the public had an easement but not the fee; the opening operates to give the fee, and under the decisions of the courts a substantial and not a nominal award must be made in such a case. From such facts as I can ascertain, however, I should say that about \$2,000 of the \$13,500 has been allowed for the expense of opening Gerard street. As this street is about 50 feet wide there is no reason why the City should pay any portion of this cost. So much of the awards and so much of the proper and reasonable expenses as was incurred for taking the gore bounded by East One Hundred and Forty-ninth street, Bergen avenue and Gerard street is, however, entirely for making a public place at this point.

I do not understand that this Board has yet adopted any definite rule for the treatment of a public place.

Respectfully,  
EDWARD M. GROUT, Comptroller.

After hearing Mr. William H. Pierce in support of the application, on motion of the President of the Board of Aldermen, the following resolution was adopted:

Whereas, The Board of Street Opening and Improvement of the Corporation known as the Mayor, Aldermen and Commonalty of The City of New York did, on the 7th day of May, 1897, institute proceedings for the opening and extending of public place bounded by East One Hundred and Forty-ninth street, Bergen avenue and Gerard street; and also for the opening and extending of Gerard street, from East One Hundred and Forty-ninth street to Bergen avenue, in the Twenty-third Ward of The City of New York, and directed that the entire cost and expense of such proceeding should be assessed upon the property deemed to be benefited thereby; and

Whereas, The Board of Estimate and Apportionment of The City of New York deem it to be fair and equitable that The City of New York should bear fifty per cent. of the said cost and expense; therefore be it

Resolved, That in accordance with the provisions of law, the Board of Estimate and Apportionment of The City of New York hereby determines that fifty per cent. of the cost and expense of opening and extending public place bounded by East One Hundred and Forty-ninth street, Bergen avenue and Gerard street; and also Gerard street, from East One Hundred and Forty-ninth street to Bergen avenue, in the Borough of The Bronx, City of New York, shall be assessed upon the property deemed to be benefited by said proceeding, and fifty per cent. of such cost and expense shall be borne and paid by The City of New York.

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Manhattan, President of the Borough of Brooklyn, and the President of the Borough of The Bronx—14.

## REDUCTION OF ASSESSMENT ON VANDERBILT AVENUE EAST, THE BRONX.

appearing by Adolph C. Hottenroth, their attorney, respectfully petition your Board that one-half of the cost of the above-entitled proceeding be borne by The City of New York, and that one-half be directed to be assessed against the property within the area of assessment for the following reasons:

1. That Vanderbilt Avenue East is bounded along its entire length on the west by the tracks owned or controlled by the New York and Harlem Railroad of the New York Central and Hudson River Railroad, and that for that reason the area of assessment for benefit is largely limited to properties lying east of the proposed improvement; and that by reason of the fact that the area is thus limited the Commissioners have been compelled practically to double the amount of the assessment, which would otherwise have been levied upon the property so assessed.

2. That the properties of the New York Central and Hudson River Railroad, abutting the proposed improvement for its entire length on the west, derive great benefit by reason of this proceeding, but that no assessment has been levied thereon, and the amount of such benefit has been added to the amounts of the assessments levied on the other properties within the area of assessment.

(In re Vanderbilt Avenue East.)

To the Board of Estimate and Apportionment:

GENTLEMEN—The Commissioners of Estimate and Assessment for the opening of Vanderbilt Avenue East, from the Twenty-third Ward line to Pelham avenue, have completed their consideration of the objections filed by the parties, and are now about to make their final report on awards and assessments. The situation of this avenue is so different from the ordinary case that the Commissioners have been greatly perplexed in arriving at conclusions which would, in their judgment, be equitable to all parties interested. There is no actual widening of the avenue until near One Hundred and Seventy-seventh street, and south of this point the benefit is largely theoretical, and the assessments should, in the judgment of the Commissioners, be kept down proportionately. As Fordham Square is approached the benefit to the property owners is increased, and on Fordham Square there is undoubtedly a large benefit to the owners of property adjoining there. On the north side of the square, however, all of the property is owned by St. John's College, with the exception of a small strip adjoining the Harlem Railroad tracks, which the college sold some time ago to the Manhattan Elevated Railroad Company. This institution claims that, owing to its educational character and purposes, the assessments against it should be nominal.

The situation in this proceeding is practically the same as that of Vanderbilt Avenue West, where a portion of the assessment was placed by your Board upon the City. The tracks of the Harlem Railroad Company run between Vanderbilt Avenue West and East. This property cannot, as the Commissioners understand the law, be assessed for benefit, and while the assessment area has been extended by them west of the tracks, it can readily be seen that the benefit on this side of the railroad is at the most theoretical. The amount of the awards and expenses made by the Commissioners is \$90,981. Some testimony has been recently introduced as to change of grade damages, the total amount claimed for which is \$5,500. The City is contesting these claims, and the Commissioners are now considering them. The aggregate amount of the awards and expenses, therefore, if all the change of grade claims are allowed, would be \$96,480. The Commissioners have practically concluded, however, to materially reduce the amount of these change of grade claims, if not totally disallow them.

In view of the conditions, the Commissioners would, therefore, respectfully recommend that 25 per cent. of the assessment in this proceeding be placed on The City of New York, and present this communication for the purpose of bringing the matter before your Honorable Board.

Very respectfully yours,  
GEORGE C. AUSTIN,  
WILLIAM J. BROWNE,  
Commissioners of Estimate and Assessment.

Hon. SETH LOW, Chairman of the Board of Estimate and Apportionment of The City of New York:

SIR—In the matter of opening Vanderbilt Avenue (East) and the improvement of Third avenue, from One Hundred and Eighty-ninth street to Pelham avenue, Bronx Borough,

Your petitioners, who are property owners, and whose names are appended hereto, respectfully petition you to be released from the payment of an assessment for the improvement of Third avenue, of which it is in error sought to make Vanderbilt Avenue (East) a part.

Vanderbilt Avenue (East) being merely an intersecting street, as are Washington and Bathgate avenues, as shown on the accompanying diagram.

Vanderbilt Avenue East intersects with Third avenue at One Hundred and Eighty-ninth street, where it terminates, and was not within the area of assessment for the opening of Third avenue, nor of right should be, south of One Hundred and Eighty-third street.

The benefit of the proposed improvement on Third avenue, in making the same a public place or square from One Hundred and Eighty-ninth street to Pelham avenue, can only result in benefit to the adjacent property except as a public, and not as a local improvement, to property on Vanderbilt avenue, beyond the limits of an assessment for the opening of Third avenue, as heretofore established.

Therefore, your petitioners ask that the property on Vanderbilt Avenue (East) be released, and that if a residue remain after the property benefited within the area of Third avenue has paid for said improvement, that the residue be made a public charge for the making of a public place or square.

And your petitioners further ask that the property owners within the first section of Vanderbilt Avenue (East)—that is to say, from St. Paul's place (the Twenty-fourth Ward line) to One Hundred and Seventy-seventh street—having heretofore waived all title to the street without award or cost to the City, they having honored by payment of an assessment for the curbing, flagging and paving of the same; and without expense to the property embraced in the second section, or between East One Hundred and Seventy-seventh street and One Hundred and Eighty-ninth street.

We therefore ask to be released from the expense incurred for the opening and regulating of the second section, between One Hundred and Seventy-seventh and One Hundred and Eighty-ninth streets.

Respectfully submitted,

CHARLES CRAWFORD, No. 4094 Vanderbilt avenue,  
—and others.

Dated November 7, 1902.

NEW YORK, October 27, 1902.

Hon. SETH LOW, Mayor of The City of New York:

SIR—In the matter of the opening of Vanderbilt Avenue (East) now under consideration, and the making of a public park or square on Third avenue (Bronx Borough), from One Hundred and Eighty-ninth street, where Vanderbilt avenue intersects with Third avenue, to Pelham avenue, and where it is in error sought to make Vanderbilt avenue a part thereof, as shown on the accompanying diagram, the property owners desire to enter their protest against being assessed for Third avenue improvement, to the Board of Apportionment, at such time as it may please your Honor to appoint for such a hearing.

Yours respectfully,

CHARLES CRAWFORD.

STEPHEN W. COLLINS, ATTORNEY-AT-LAW, No. 69 Wall street,  
New York, November 7, 1902.

To Board of Estimate and Apportionment, City Hall, New York City:

GENTLEMEN—On behalf of William H. Collins, the owner of premises Nos. 4216 and 4218 Park avenue, I desire to strenuously object to the proposed public park or square at Fordham. The Bronx Park, Claremont Park and Crotona Park are so near that no more parks or squares are needed. That no benefit whatever would accrue from such proposed park, if made, to the premises represented by me, and that in any event the proposed area of assessments is far too great, and that no assessment for said park should be levied on property below One Hundred and Eightieth street.

Very respectfully yours,

STEPHEN W. COLLINS.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
November 26, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith are returned three communications relating to the assumption by the City of the cost of opening Vanderbilt Avenue East from the line between the Twenty-third and Twenty-fourth wards to Third avenue and Pelham avenue, in the Borough of The Bronx. One of these is from Adolph C. Hottenroth, as attorney for Catherine Finn and seventy-seven others; another from Charles Crawford and twenty-four others, and another from the Commissioners of Estimate and Assessment, appointed by the Court in the proceeding named. The first petition asks that the City bear one-half the cost and that only one-half be assessed upon the abutting property owners; the second protests against the inclusion in this assessment of the cost of creating a public place between Third avenue and Pelham avenue by the unnecessary widening of the street, and the communication from the Commissioners of Estimate and Assessment recommends that in view of the special

conditions existing twenty-five per cent. of the assessment be placed upon The City of New York.

The opening proceedings are based upon a resolution of the Board of Street Opening and Improvement, adopted on September 21, 1894, to open Vanderbilt Avenue East from the Twenty-third Ward line to Third and Pelham avenues, it being provided that the expense of the opening should be levied against the property benefited. Commissioners were appointed by the Court on December 2, 1896, and their oaths were filed six days later. The report is now practically complete, as it only remains to fix the allowance for a change of grade.

The boundary between the Twenty-third and Twenty-fourth wards is within the lines of St. Paul's place, and the street is 50 feet in width throughout, except as follows: From a point about 110 feet south of East One Hundred and Seventy-second street to a point 130 feet north of the same street the width is 69.5 feet, and beginning at a point 128 feet south of East One Hundred and Eighty-ninth street it begins to widen irregularly until it becomes about 140 feet wide at Pelham avenue. The area, as acquired under the proceeding, is as follows:

15 parcels previously dedicated square yards.....	414,593
60 parcels acquired under the proceeding, square yards.....	37,950
Total, square yards.....	452,543

Of the sixty-six parcels acquired, six are within the widened portion near the northerly limit of the improvement.

The awards made are as follows:

15 parcels containing the old street.....	\$15 00
60 parcels needed for the normal width of 50 feet.....	26,486 52
6 parcels required for extra width above noted.....	54,551 00

Total awards .....	\$81,052 52
Estimated cost of proceedings .....	9,928 48

Total expenses, exclusive of damage for change of grade .....	\$90,981 00
---	-------------

The district of assessment fixed by the Commissioners is as follows. The northerly limit is 100 feet north of Pelham avenue; the easterly limit is Washington avenue; the westerly limit Webster avenue, and on the south the district extends to East One Hundred and Sixty-fifth street, or six blocks below the limit of the improvement. Title was vested in the City on June 15, 1897.

On August 7, 1902, the Board of Estimate and Apportionment decided that The City of New York should bear 10 per cent. of the cost of the proceedings to open Vanderbilt Avenue West, between East One Hundred and Seventy-third street and Pelham avenue; this street was also fifty feet in width and the conditions in general were similar to those on the street now under consideration, the property of the New York and Harlem Railroad bounding the street on one side for the entire distance, and this property being exempt, under the law, from assessment for street openings. There is, however, this difference, viz.: that at the northerly end of Vanderbilt Avenue East the street has been widened, as already noted, for more than one block, so that at Pelham avenue it is about 140 feet in width instead of 50 feet, and it will be seen from the figures given above that \$54,551, or two-thirds of the entire amount of the awards, were allowed for the property so taken. It is this fact which is the basis of the petition of Charles Crawford and others, and which is alleged in such petition to involve an injustice upon all those who are to be assessed.

It is somewhat difficult to understand why such liberal proportions were given to the street between Third avenue and Pelham avenue, but the street is shown of the width described on the final maps of the Borough of The Bronx, and the property has already been acquired. The only question involved is whether this extra width of street and the very large increase of cost caused thereby furnishes a sufficient reason for the assumption by the City of more than 10 per cent. as is believed by the Commissioners of Estimate and Assessment to be the case.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The matter was laid over.

REDUCTION OF ASSESSMENT ON NEW STREET, ADJOINING HALL OF RECORDS, MANHATTAN.

Hearing was opened in the matter of the application to have the City assume a portion of the expense of opening the new street adjoining the new Hall of Records, running from Chambers to Reade street.

The following communications and report of the Chief Engineer were presented:

LAW DEPARTMENT, BUREAU OF STREET OPENINGS,  
NEW YORK, November 12, 1902.

A new street—Reade to Chambers.

The Board of Estimate and Apportionment:

GENTLEMEN—The Commissioners, having heard in extenso the objections of very many property owners affected by the preliminary assessments made herein and the testimony and arguments in support of such objections and the testimony offered in behalf of the City and the arguments based thereon, and having carefully considered the questions involved, conclude that to properly fix the area of assessment and the burden that the property owners therein should respectively bear, the amount which the City should pay generally should first be determined.

Inasmuch as this proceeding is apparently fundamentally for the benefit of the Hall of Records, it seems to the Commissioners that the City primarily should bear at least 40 per cent. of the entire cost of the proceeding, leaving 60 per cent. to be borne by the City and the other property owners proportionately in the assessed area.

We therefore respectfully recommend this percentage as a fair one for the City to assume under all the circumstances of the case.

The total amount of the final awards, the costs as taxed and the estimated costs to be taxed, amount to, in round figures, about \$408,317. The assessment of The City of New York as an individual property owner amounts to \$173,167.03.

The Commissioners have taken an adjournment for two weeks so as to allow the Board to act upon this recommendation, and we trust that the Board will see fit to act promptly upon the matter, as the time within which the Commissioners must conclude this proceeding is now running on.

Yours respectfully,

CHARLES A. JACKSON,

JOHN LARKIN,

Commissioners of Estimate and Assessment.

SUPREME COURT, COUNTY OF NEW YORK.

In the Matter

of

Opening new street, from Chambers street to Reade street, in the Borough of Manhattan, City of New York.

To the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—Joseph Pulitzer, the owner of premises known as Nos. 1, 3 and 30 Park Row, and assessed for benefit in this proceeding, has objected and excepted to the preliminary assessments of said premises on the following grounds: That in view of the location of said premises relative to said proposed street, said premises are not in the slightest degree benefited by the proposed opening.

The subscriber, as attorney for said Joseph Pulitzer, respectfully asks that he may appear before you and make oral argument in support of the foregoing, to the end that action be taken thereon wholly vacating such assessments.

The premises referred to are shown upon the Benefit Map in this proceeding as follows:

	Amount.
Block 90, Lot No. 1, Assessment No. 40.....	\$18 74
Block 90, Lot No. 3, Assessment No. 42.....	34 00
Block 121, Lot No. 30, Assessment No. 239.....	435 75

New York, November 25, 1902.

Very respectfully,

EDWARD L. PARRIS,  
Attorney for Joseph Pulitzer.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
NEW YORK, November 26, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a communication from the Commissioners of Estimate and Assessment having charge of the proceedings to open a new street, between Reade and Chambers streets, on the north side of and adjoining the new Hall of Records, in the Borough of Manhattan. In this communication the Commissioners state that the proceedings are "apparently fundamentally for the benefit of the Hall of Records," and they suggest that the City assume 40 per cent. of the cost of the proceeding over and above that now assessed upon the property which lies within the area of the district of assessment.

In connection with the proceedings to lay out a site for the Hall of Records, the Board of Estimate and Apportionment, on April 2, 1897, requested the Board of Street Opening and Improvement to lay out a new street 40 feet wide, to adjoin this site on the west; such action was taken by the latter body on April 7, 1897, the resolution accomplishing which described the west line of the street as corresponding with the east line of the street as originally proposed by the Board of Estimate and Apportionment. The opening proceedings were authorized by the Board of Street Opening and Improvement on May 7, 1897, and the cost of the proceeding was then placed upon the property to be benefited.

I am informed by a City official who attended the meeting at which this street was laid out that such layout was favored by no one except the representatives of the City, and as being solely for the benefit of the Hall of Records; it is also said that the suggestion was then made that all vehicles be excluded from the new street, so that it might fulfill its purpose of giving light to the new building without objectionable noise from traffic.

The district of assessment adopted by the Commissioners is a very large and irregular one, extending south to 100 feet below Ann street, west to 100 feet west of West Broadway, north to 100 feet north of Canal street, and east to the junction of New Chambers, Madison and Rose streets. The awards have been confirmed, and the final report is now nearly ready. The awards are \$400,512.02, and the preliminary assessments are \$18,320.40. The assessment placed upon the property belonging to The City of New York is \$173,107.03, or about 41 per cent. of the total. The street is approximately a prolongation of old Elm street, and has a width of 40 feet and a length of about 151 feet; title to the land has not yet been vested in the City.

I believe that the main interests to be served in this opening proceeding are those of the City, and that the adjoining property will be benefited but slightly. I would therefore recommend that in this case 40 per cent. of the assessment be placed upon the City at large, as suggested by the Commissioners of Estimate and Assessment, making the burden to fall upon the City about 65 per cent. of the total cost.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

After hearing Mr. Truman H. Baldwin and Mr. Joseph A. Flannery, in support of the application, the matter was laid over.

#### REDUCTION OF ASSESSMENT ON ROCKWOOD STREET, THE BRONX.

Hearing was opened in the matter of the application to have the City assume a portion of the cost of opening Rockwood street, from Walton avenue to the Grand Boulevard and Concourse, Borough of The Bronx.

The following petition and report of the Chief Engineer were presented:

NEW YORK SUPREME COURT.

In the Matter  
of

Acquiring Title to Rockwood street, from Walton avenue to the Grand Boulevard and Concourse, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

To the Board of Estimate and Apportionment of The City of New York:

J. Romain Brown, owner of parcels benefit numbers 80, 69 and 70 in the above-entitled proceeding, by Adolph C. Hottenroth, his attorney herein, respectfully petitions your Board that a portion of the cost of the above entitled proceeding be assumed by The City of New York for the reasons:

1. That the proposed street is laid out at an angle to the former streets in that section, and that the opening of Rockwood street herein has resulted in many irregular gores which derive no benefit from the proposed improvement but which the Commissioners have heavily assessed for their proportionate share of the cost of the improvement.

2. That the properties proposed to be assessed herein had ample means of access and egress over the streets and avenues originally laid out, and the new streets injure rather than benefit said premises; and

3. That the layout appears to be made for the general benefit of the City, and particularly in order to conform this section of the street system to the Grand Boulevard and Concourse.

Respectfully submitted,

ADOLPH C. HOTTENROTH, Attorney for Petitioners,  
No. 271 Broadway, New York City.

October 29, 1902.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CHIEF ENGINEER'S OFFICE, CITY HALL,  
November 26, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted the petition of J. Romain Brown for the assumption by the City of a portion of the cost of opening Rockwood street, between Walton avenue and the Grand Boulevard and Concourse, in the Borough of The Bronx.

The reasons set forth in this petition for relief are:

1st. That the street is laid out at an angle with streets formerly existing in the vicinity.

2d. That the abutting property has no improved means of access or egress.

3d. That the layout is for the purpose of conforming the street system with the Grand Boulevard and Concourse.

This street is only one block, or about 365 feet long, and is 60 feet wide. Within its limits are two dwellings, one wagon shed and parts of two additional dwellings. The old street system of the section crossed the present layout diagonally and was discontinued under chapter 1006 of the Laws of 1895.

The resolution to open Rockwood street was adopted by the Board of Public Improvements on December 27, 1899, as a result of a petition made by five owners of lots affected by the proceeding, and title was vested in the City on June 3, 1901. The district of assessment is bounded on the north by a line 100 feet south of Belmont street, on the east by a line 100 feet east of the Concourse, on the south by a line through the middle of the block between One Hundred and Seventy-first and One Hundred and Seventy-second streets, and on the west by a line 100 feet west of Walton avenue.

No improvements have yet been made on the street, nor has a roadway been opened. An examination of the map used by the Commissioners shows that all of the abutting property is badly located with reference to the new street line and that there has been an undoubted hardship in this proceeding. The map also shows that the contention of the petitioner as to the layout being one to adapt the street system to the Concourse is a correct one.

The total awards are \$16,955.08, and the preliminary assessments are \$22,255.24. The final report of the Commissioners of Estimate and Assessment is now being prepared. The assessment on the property of the petitioner aggregates \$3,174.30.

I believe that, under the conditions, some relief should be granted to owners of property affected by this proceeding, but in making such recommendation would call attention to the fact that such action will undoubtedly constitute a precedent for relief from assessment in connection with opening proceedings on adjoining streets.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

At the request of Mr. Hottenroth, attorney for petitioner, the hearing was adjourned for one week.

The President of the Board of Aldermen moved that the Board adjourn, which motion was carried by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Borough of Brooklyn, and the President of the Borough of The Bronx—12.

J. W. STEVENSON, Secretary.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

### NOTICE TO CONTRACTORS.

### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate or the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested directly or indirectly, as contracting party, partner, stockholder, surety or otherwise, in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless as a condition precedent to the receipt of consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either included in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department. No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
